

MTH202 Mid Term Past Papers

(Some Current Papers)

(Visit Vu Rank For More)

1) Paper No 1: June 2018

Most MCQS are Conceptual Means You want to solve it in order to get the right answer:

Some Short Question Are From the Following Given Topics:

- 1) One Question is from Recursion
- 2) One is From the Truth Table
- 3) And A Ven Diagram we just want to fill it out

Some Long Question Are From the Following Topics:

- 1) One is From Arithmetic Sequence
 - 2) And One is From Cartesian Product
-

2) Paper No 2:

- 1) What is the smallest integer N such that $[N/6] = 9$?
 - 2) Find the greatest common divisor of the following pair of integer: 72,63.
 - 3) How many distinguishable ways can the letters of the word HULLABALOO
 - 4) 1 Question was mathematical induction on page 170 handouts
 - 5) Suppose that a connected planar simple graph has 15 edges. If a plane drawing of this graph has 7 faces, how many vertices does this graph have?
 - 6) what is the smallest integer N such that $[N/9] = 6$?
-

3) Paper No 3:

- 1) $f(x) = 2x+1/2x+2$ Is f onto?
 - 2) Prove that a divide b , b divide c and c divide a . Draw a full binary tree with seven vertices.
 - 3) Find the greatest common divisor of the following pair of integer: 72,63
 - 4) How many ordered selections of two elements can be made from the set of 4 elements.
 - 5) There are 25 people who work in an office together. Four of these people are selected to attend four different conferences. The first person selected will go to a conference in New York, the second will go to Chicago, the third to San Francisco, and the fourth to Miami. How many such selections are possible?
-

4) Paper No 4:

MCQS:

My today paper mth202 All the mcqs from moaaz file and the subjective questions:

QUESTIONS:

- 1) Question Let A and B be the events. Rewrite the following event using set notation “A or not B occurs”.
- 2) Find a non-isomorphic tree with three vertices.
- 3) The members of a club are 12 boys and 8 girls. In how many ways can a committee of 3 boys and 2 girls be formed?
- 4) What is the probability of getting a number greater than 2 when a dice is tossed?
- 5) Use Kruskal’s Algorithm to draw the minimal spanning tree for the graph below. Indicate the order in which edges are added to form a tree.
- 6) One question from truth table One question from contrapositive of a conditional statement ?
- 7) definition of permutation .

(THE END)
