1. Location of aglea in the ocean 2
2. Method determine the drug sensitivity 2
3. Procedure Acid fast Staining 3
4. Name 3 nucleic acid of microbe 3
5. USE OF ANTIBODIES IN BODY DEFENSES 5
6. Which Antimicrobials effect the Essential Metabolites,
7. Nucleic Acid Syn, Plasma Membrane, Protein Synthesis, Protein Synthesis . explain these 5
8. Write Name of two anti-fungal drugs.
9. write basic features of fungi? (5 marks)
10. composition and distribution of microbiota
11. write a note on natural active and passive immunity (5 marks)

12. write asexual reproduction in fungi
13. What is the function of capsul? Name any two capsule of bacteria. 2marks
14. Difference b/w bactericidal and bacteriostatic. 2marks
15. Composition and distribution of microbiota. 3marks
16. Mode of action of tetracycline, streptomycine, chloramphenicol. 3marks
17. How infectious diseases transmit and explain it detail in vector, vehicle, contact. 5marks
18. What is inflammation.what are consequences of it. 05marks
19. 1.Define weston Blotting
20. 2.What are fungi describe its structure?
21. 3.Define mechanism of type iv hypersensitivity?
22. 4.What is type iii hypersensitivity and write its treatment?
23. 1.Inflammation and its consequences?
24. 2.What are algae ?
25. Location of aglea in the ocean 2
26. Method determine the drug sensitivity 2
27. Procedure Acid fast Staining 3
28. Name 3 nucleic acid of microbe 3
29. USE OF ANTIBODIES IN BODY DEFENSES 5
30. Which Antimicrobials effect the Essential Metabolites, Nucleic Acid Syn, Plasma Membrane, Protein Synthesis, Protein Synthesis . explain these 5
31. Write Name of two anti-fungal drugs.
32. write basic features of fungi? (5 marks)
33. composition and distribution of microbiota
34. write a note on natural active and passive immunity (5 marks)
35. write asexual reproduction in fungi
36. What is the function of capsul? Name any two capsule of bacteria. 2marks
37. Difference b/w bactericidal and bacteriostatic. 2marks
38. Composition and distribution of microbiota. 3marks
