Origins of LCD

Saqib

Historical Background (1960s)

- LCD started from notion of syllabus design (SD)
- SD is specification of:
 - Content of course
 - What to teach and test (e.g., speaking course)
- LCD more comprehensive:
 - Needs, syllabus,
 - Structure, methods
 - Evaluation

ENG519 - Curriculum Design

The first two steps are the most important. The first step is to identify the problem. The second step is to define the problem. The third step is to identify the causes of the problem. The fourth step is to identify the effects of the problem. The fifth step is to identify the stakeholders involved in the problem. The sixth step is to identify the resources available to solve the problem. The seventh step is to identify the constraints on the problem. The eighth step is to identify the risks associated with the problem. The ninth step is to identify the opportunities associated with the problem. The tenth step is to identify the solutions to the problem. The eleventh step is to identify the implementation of the solutions. The twelfth step is to identify the evaluation of the solutions. The thirteenth step is to identify the monitoring of the solutions. The fourteenth step is to identify the reporting of the solutions. The fifteenth step is to identify the communication of the solutions. The sixteenth step is to identify the documentation of the solutions. The seventeenth step is to identify the archiving of the solutions. The eighteenth step is to identify the disposal of the solutions. The nineteenth step is to identify the recycling of the solutions. The twentieth step is to identify the reuse of the solutions.

- Van Els *et al.* (1984, p. 206)

- Van Els *et al.* (1984, p. 206)

"Text comprehension is not just a function of the proportion of familiar words, but depends on a number of other factors as well, such as subject matter, the way writer approaches the subject, and the extent to which the reader is already familiar with the subject"

Historical Background to
Grammar Selection and
Grading

Grammar Selection and Gradation

Historical Background to Grammar Selection and Gradation

- Need for a systematic approach to:
 - Select grammar
 - Develop basic structure lists
- The significance selection and gradation for syllabus design

Grammar Selection and Gradation

Focus of Grammar Selection and Gradation (1930S)

- Principles of selection applied to the design of grammatical syllabuses
- Selection linked to gradation
- The question of:
 - What to be taught and in what order?

Grammar Selection and Gradation

Example of Grammar Selection and Gradation

Wilkins' (1976, p. 59) examples of "asking permission":

- Can/may I use your telephone, please?
- Please let me...?
- Is it all right to...?
- If it's all right with you...?
- Am I allowed to...?

Grammar Selection and Gradation

Example of Grammar Selection and Gradation

- Do you mind if I...?
- Do you mind me using...?
- Would you mind if I...?
- You don't mind if...?
- I wonder if you have any objection to me...?
- Would you permit me...?
- Would you be so kind as...?
- Would it be possible...?

Grammar Selection and Gradation

Usefulness of These Structures

- Not clear, which items
- Grammar items in course determined by teaching method in use
- Focus on what items to be taught and when
- Example: "This is a pen"

Application of Principles of
Selection and Gradation

Principles of Selection and Gradation

Application of Principles of Selection and Gradation

- Design of grammatical syllabuses in the 1930s
- Features of such syllabuses:
 - Grouping and sequencing
 - How to teach grammatical structures and their order

Dr. M. Goraya

Principles of Selection and Gradation

Gradation of Grammatical Syllabus

- Palmer (1968, p. 68) explains principles of gradation:
 - Some tenses more useful
 - Selecting prepositions according to their importance
 - Syntactic rules – from simple to complex
 - Gradual introduction to the grammar

Principles of Selection and Gradation

Vocabulary Selection vs Grammatical Syllabus

- Criteria of simplicity and centrality:
- Inclusion criteria
 - The train arrived (SV)
 - She is a journalist (SVC)
 - We ate the fruit (SVO)
- Exclusion criteria: having neither money nor time deciding to buy a ticket to opera was out of question

Principles of Selection and Gradation

The Order of Grammatical Syllabuses

- Learnability:
 - Nouns
 - Verbs
 - Adjectives
 - Verb
 - Possessive pronouns
 - Personal pronouns
 - Simple present
 - Futures
 - Present continuous

Principles of Selection and Gradation

Sequencing Course Content in Systematic Way

- Comenius (Mackey, 1965, p. 205)

"The beginning should be slow and accurate, rightly understood... Unless the first layer is firm, nothing should be built on... All parts should be bound together. Whatever precedes forms a step to what follows... last step should be traceable to the first by a clear chain..."

Principles of Selection and Gradation

Sequencing Course Content in Systematic Way

- Comenius (Mackey, 1965, p. 205)

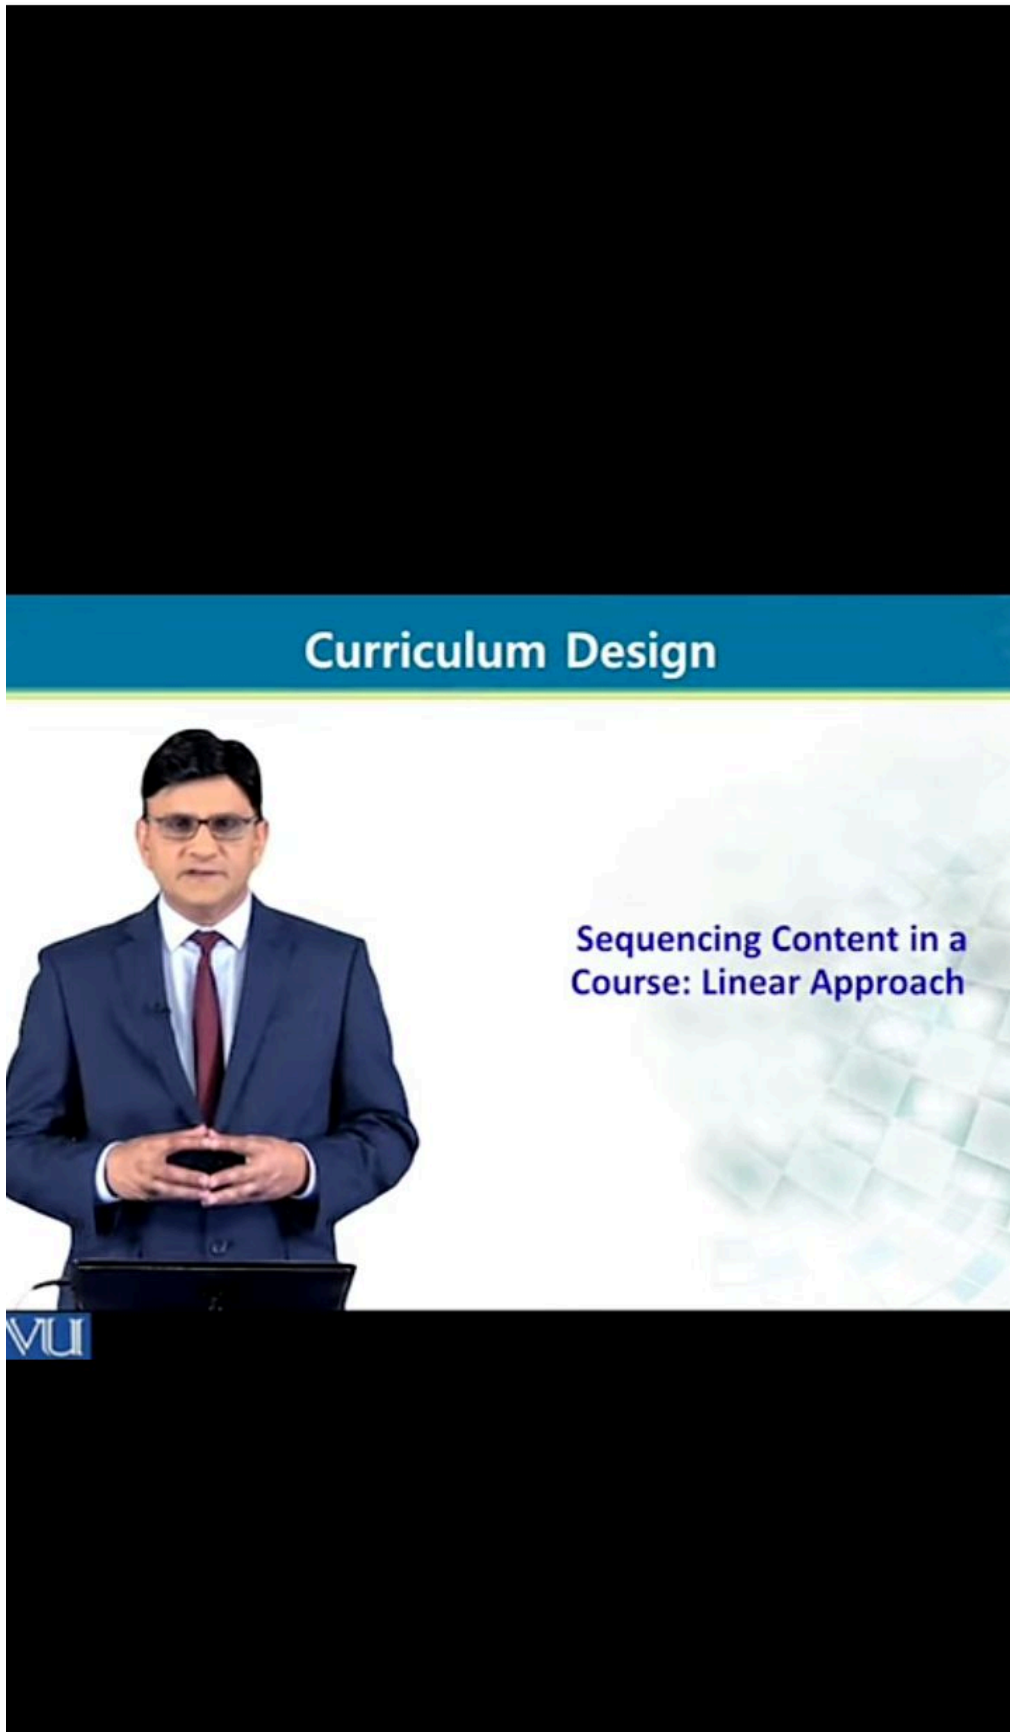

"The beginning should be slow and accurate, rightly understood... Unless the first layer is firm, nothing should be built on... All parts should be bound together. Whatever precedes forms a step to what follows... last step should be traceable to the first by a clear chain..."

Early Assumptions to Syllabus Design

Significance of Assumptions

- Status of English changed (1940s)
- Next phase:
 - LCD

Curriculum Design

Quest for New Methods –
1950s – 1960s

A man with dark hair and glasses, wearing a dark suit, light blue shirt, and a striped tie, is speaking at a podium. He is looking down at a laptop on the podium.

- Best method fascination:
 - Structure & vocabulary
 - General English
 - Graded vocabulary
- Darian (1972, p. 94):
 - Perfect exercises used
 - No relation between sentences
 - Controlled learning

Quest for New Methods

Need for Practical English

- World War II led to:
 - Air travel to English countries
 - Trade & commerce
 - Radio, film and TV
 - EFL for communication
- Initial response – new methodologies
- Understandings of the nature of language learning

Quest for New Methods

Emergence of Situational Language Teaching Syllabus (1950s)

- Ho (1994) observed:
 - Integration of language & literature
 - Reading knowledge of English grammar
 - Bilingual dictionaries

Quest for New Methods

Age of Audiolingualism

- Influence of behaviorism
- ELT techniques focused:
 - Repetition
 - Habits formation through reinforcement
 - No mistakes
 - Language learning as behavior (Rivers, 1964)

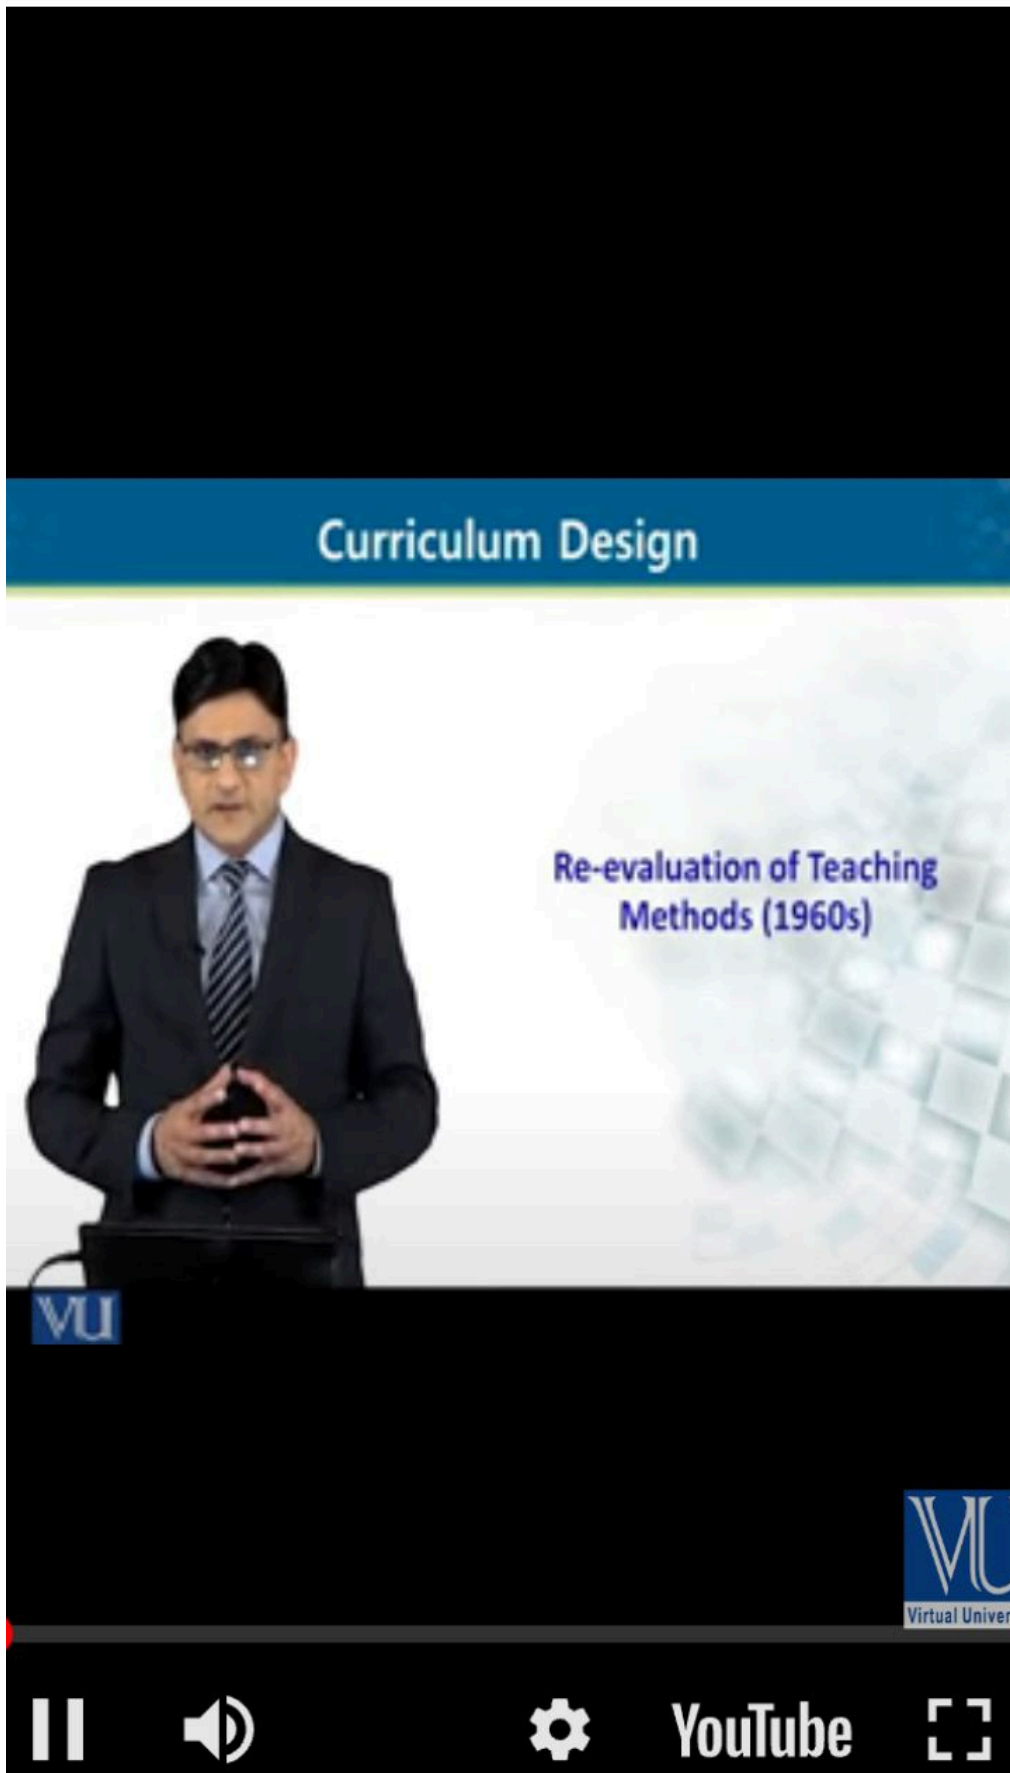

Quest for New Methods

Main Trends of ELT

- Main trend – General English
- Other trends:
 - Commercial English
 - Technical English

Influence of ESP Movement on LCD

Influence of ESP Movement on LCD

- Emergence of ESP movement (1970s)
- Concerns of ESP approach to ELT were to prepare:
 - Non-native students
 - Materials for professionals
 - English for business
 - Job situations (Richards, 2001)

Influence of ESP Movement on LCD

EGP and ESP

- As compared to ESP, goals of EGP were to:
 - Pass a general exam
- Goals of ESP were to:
 - Carry out special role
- Audio-visual approach:
 - No functional aspect
 - Colloquial English based upon structural approach (Jupp and Hodlin, 1975, p. 11)

Influence of ESP Movement on LCD

Application of Selection and Gradation Principles

- What linguistic features were needed to teach ESP?
- Howatt (1984, p. 222) indicates:
"There were different varieties of English ... taught through the use of appropriately selected texts...and practical exercises".

Influence of ESP Movement on LCD

Reflection of Selection and Gradation Approach

- Swales' (1971), *Writing for Scientific English*
- Features of scientific English:
 - *-ing* forms
 - Infinitive as substitute
 - Prefixes and suffixes
 - Qualifying words
 - Passives
 - Compound nouns

Influence of ESP Movement on LCD

Example of Scientific Writing:

"Analogizing from the recently-discovered phenomenon... A hypothesis was formed. The next step was to deduce the consequences of the hypothesis... If this 'sea of pressure' existed, its pressure would be greater than..."

(From Ewer and Lattorre, 1969, cited in Richards, 2001, p. 45)

Needs Analysis Within ESP Movement

Historical Overview of Needs Analysis Within ESP Movement (1970s)

- Purposes for which learners need language – EGP and ESP

Needs Analysis Within ESP Movement

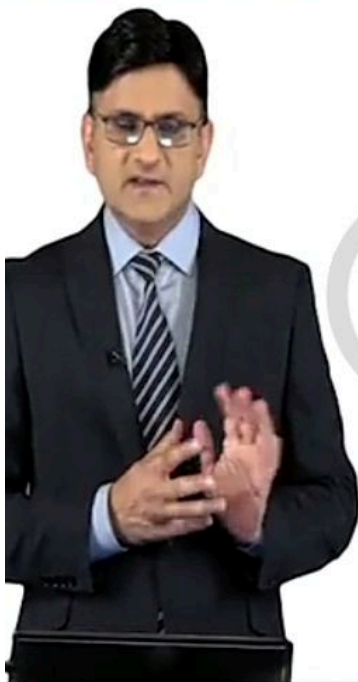

Scope of Needs Analysis

- Different needs of different learners
- Strevens (1977) describes what is involved in ESP:
 - Restrictions (basic skills)
 - Selection
 - Themes and topics
 - Communicative needs

Needs Analysis Within ESP Movement

How Learners' Needs are Described in ESP?

- What the learner would do with the language as compared to EGP course

Needs Analysis Within ESP Movement

Scope of Needs Analysis

- Approaches to determine learners needs:
 - Involvement of learners, teachers
 - Employees
- What sort of information needed?
 - Resources
 - Kinds of activities
 - Language functions
 - Which of the four skills

Needs Analysis Within ESP Movement

Procedures of Needs Analysis

- These were suggested as:
 - Questionnaires
 - Surveys
 - Interviews
- Needs analysis as a first logical step

0:07

Historical Overview of Needs Analysis – The Munby Model (1978)

0:45

- Systematic approach to needs analysis within ESP
- It focused on specifying:
 - Competence of students
 - Turning information into an ESP syllabus

✓ Viewed

1:57

Needs Analysis – The Munby Model

The Munby Model: Profile of Communicative Needs

- Schutaz and Derwing (1981, p. 32):
 - Personal
 - Purpose
 - Setting
 - Interactional variables
 - Medium, mode
 - Dialects
 - Target level
 - Anticipated activities
 - key

Needs Analysis – The Munby Model

The Transformation of the Needs Profile into Skills

- Skills, subskills and categories
- 1. Understanding relations between parts of a text through lexical cohesion
 - Repetition
 - Synonymy
 - Ellipses

Needs Analysis – The Munby Model

The Transformation of the Needs Profile into Skills

2. Understanding relations between parts of a text through grammatical cohesion devices of:
 - Comparison
 - Substitution
 - Logical connectors

Needs Analysis – The Munby Model

Significance of the Munby Model

- A systematic approach to specify students' needs

MU
Virtual Univer

simum 25% of video watch will be

Influence of CLT on LCD

Saqib M. Goraya

Influence of CLT on LCD (1970s)

- LCD was influenced by two factors:
 - ESP (needs analysis)
 - CLT (replacement of audiolingual methods)

Influence of CLT on LCD

CC as a Reaction to Grammar Syllabus

- CLT as a broad approach focused on:
 - Communication rather than mastery of grammatical items
- Communicative vs grammatical syllabuses

Influence of CLT on LCD

Synthetic and Analytic Syllabuses

- What would such syllabus look like to teach CC?
 - ELT not a building block
 - Variety of linguistic structures
 - Purposeful syllabuses
- Communicative approach to syllabus design adopted
- Application of curriculum procedures

Curriculum Approaches in LT

Emergence of Curriculum Approaches in Language Teaching

- Curriculum studies:
 - Instruction plan
 - Implementation
 - Evaluation
- Tyler's (1949) approach:
 - What purposes?
 - What experiences?
 - Organizing experiences?
 - How to determine?

Curriculum Approaches in LT

Adoption of Curriculum Approaches in Language Teaching (1980s)

- Ends-means model:
 - Language skills learners needed
 - Teaching language to develop those skills

Curriculum Approaches in LT

Limitations of the Munby and Ends-means Models

- Both were:
 - Prescriptive
 - Mechanistic
- Curriculum development processes as central elements of LCD
- Many EFL countries developed national LCD

Curriculum Approaches in LT

Elements of LCD

- According to Lim (1988):
 - Needs analysis
 - Goal setting
 - Syllabus design
 - Materials design
 - Language program design
 - Teacher training
 - Implementation, monitoring, feedback and evaluation

Curriculum Approaches in LT

Our Focus in This Course:

- How elements of LCD formed a network of interacting systems
- We are interested in the review of:
 - Teacher training
 - How textbooks are used
 - Syllabuses
 - Resources
 - Areas of research
 - Issues and practices

Curriculum Design

Situation Analysis:
Introduction

VU

V
Virtual

Minimum 25% of video watch will be
considered reviewed

Situation Analysis: Introduction

Significance of Situational/Environmental Factors:

- What to include
- How to teach
- How to assess
- These factors arise from:
 - Teachers
 - Learners
 - Situation

Situation Analysis: Introduction

Situation Analysis Aims to Understand:

- Social, political, economic & institutional factors
- Designer examines:
 - Direct and indirect effects
 - Report to policy makers

Situation Analysis: Introduction

Use of Various Terms

- Situation/constraints analysis
- Nation and Macalister (2009, p. 14) argue:
 - It can be positive
 - Example of trained teachers
 - Its effect on format and presentation

Situation Analysis: Introduction

An Important Element of LCD

- Ensures usability of the course at basic level
- Example:
 - Low teacher training
 - Lack of facilities

Situation Analysis: Introduction

Significance of Factors Affecting LCD:

- Depends on:
 1. Whether the course will be useful if negative factors are not taken into account
 2. How large and pervasive the effect of the factor is on the course

Curriculum Design

Situation Analysis: Examples

VU

Virtual University

Minimum 25% of video watch will be
considered as viewed

Situation Analysis: Introduction

Social and Political Factors

- Example:
 - Writing EFL textbooks
 - Interviewed officials
 - Audiolingualism
 - Teachers choices
- Limitations – teachers' limited command, and training

Situation Analysis: Introduction

Social and Political Factors

- Private EFL university decision to use its own materials:
 - Compete market
 - Large investment
 - Found – other institutes want to use them
- Lack of market research to determine market research

Situation Analysis: Introduction

Illustration of Examples

- LCD "is a function of the interrelationships that hold between subject-specific concerns and other broader factors embracing socio-political and philosophical matters, educational value systems, theory and practice..." (Clark, 1987, p. xii)

Situation Analysis: Examples

Examples of Economic Factors

- Example of introducing English from 3rd year:
 - New textbooks
 - Teachers involved
 - Element of secrecy
 - Teacher complaints
- Limitations – teacher training, budget, review of materials

Situation Analysis: Examples

Influence of These Factors on LCD

- Examples illustrate:
 - Types of factors and their impact at initial stages
- LCD change involves:
 - Societal, project, teacher, learner, institutional and adoption factors

Situation Analysis: Examples

Influence of These Factors on LCD

- These variables need to be “embedded in a particular socio-cultural context” (Kumaravadivelu, 2001, p. 538).

Situation Analysis: Examples

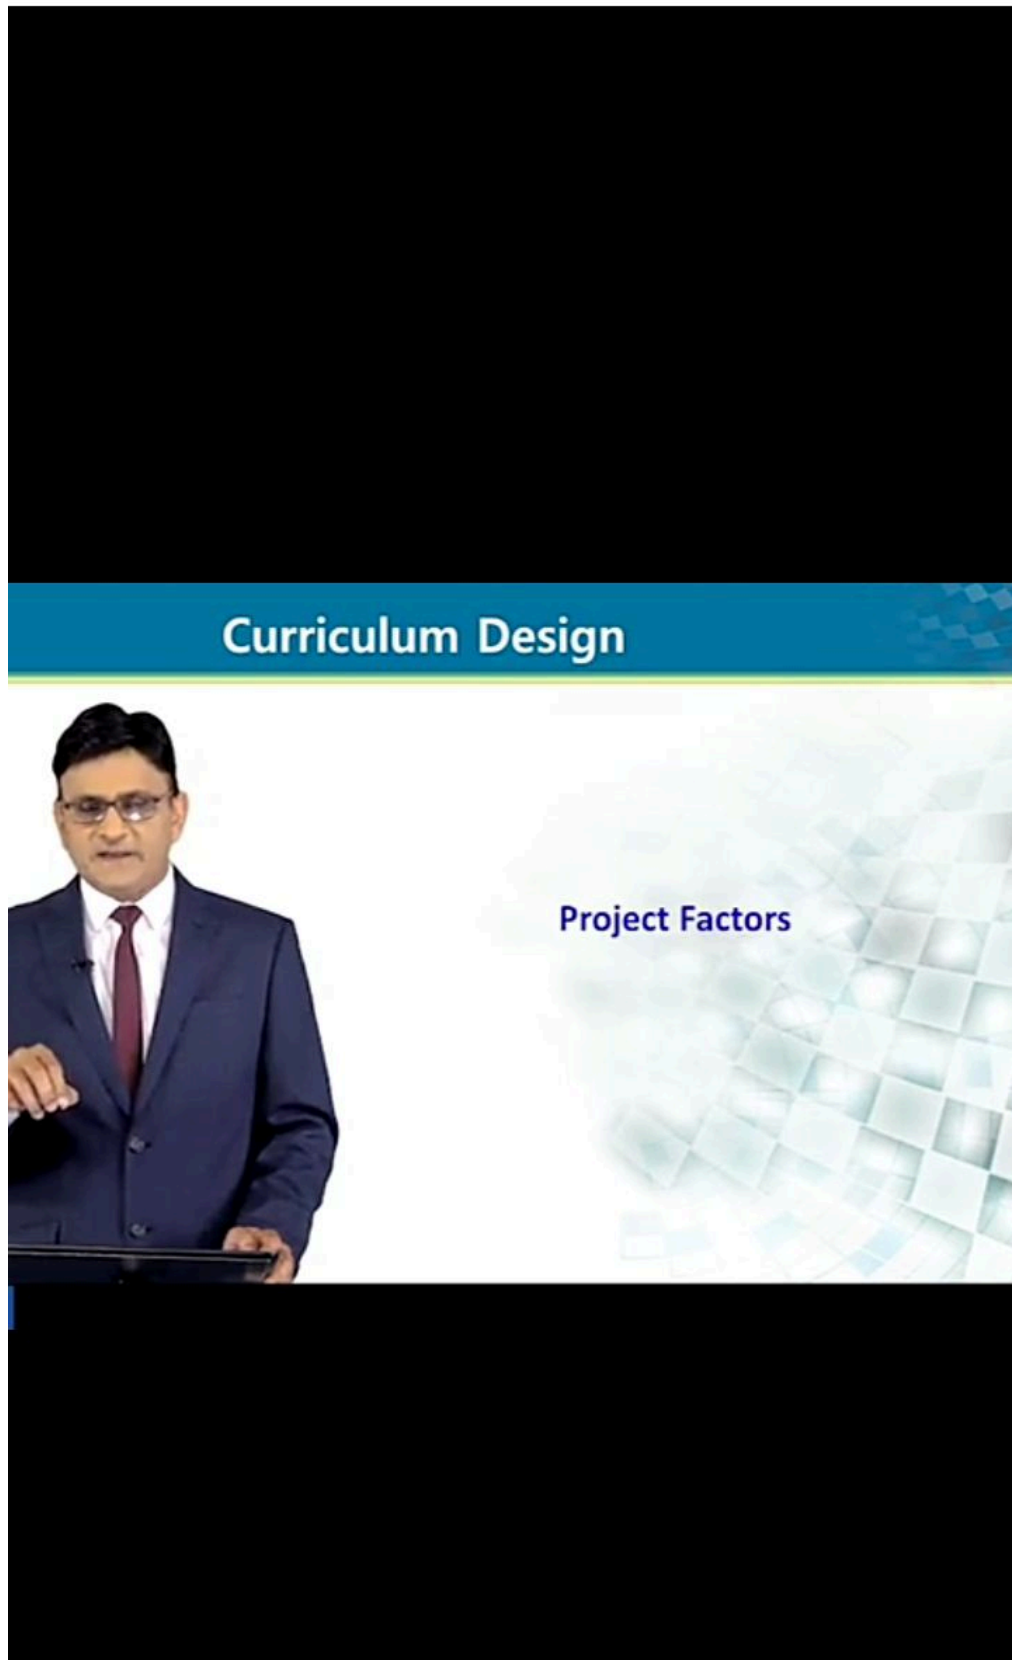

Procedures

- These are similar to needs analysis:
 - Consultation
 - Document analysis
 - Observation
 - Surveys
 - Review of literature

Project Factors

Example

- A private institute decision about materials for its courses
 - A group of teachers given task
 - Senior teacher as in charge
 - Team members disagree goals

Project Factors

Impact of Different Variables on LCD Project

- Who constitutes?
- Team responsibilities?
- How goals determined?
- Who reviews the progress?
- What experience of members?
- How team members regard each other?
- Timeframe, resources?

Project Factors

Significance of Project Factors

- Project factor is key to situational analysis

The image shows a YouTube video player interface. At the top, there is a black bar with the time '9:20' and status icons for VoLTE, 4G, and battery level at 90%. Below this is a blue banner with the text 'Curriculum Design'. The main video area shows a man in a dark blue suit and glasses holding a tablet. To his right, the text 'Institutional Factors' is displayed over a background of a globe made of blue and white squares. The VU logo is visible in the bottom left corner of the video frame. Below the video frame, there is a black bar with the VU logo and the text 'Virtual University'. At the bottom of the player, there is a black bar with icons for play/pause, volume, a search bar containing 'Insti...', settings, the YouTube logo, and a full-screen icon.

Institutional Factors

VU

Virtual University

YouTube

nimum 25% of video watch will be
sidered as viewed.

Institutional Factors

Wider Aspects of Institutional Factors

- Necessary to consider institutional policies regarding:
 - Target Language
 - Attitudes towards target language in post-colonial societies (Asmah, 1992)

Institutional Factors

Human Aspect of an Institution

- Institute – collection of teachers, groups
- There may be positive or negative climate
- Institutions work in different ways:
 - Use of textbooks
 - Professionalism
 - Some may be working for monetary purpose

Institutional Factors

Physical Aspect of an Institution

- Resources for teachers?
- Access to ICT?
- Who chooses textbooks and materials?
- What admin support?
- Repute of the institute?

Institutional Factors

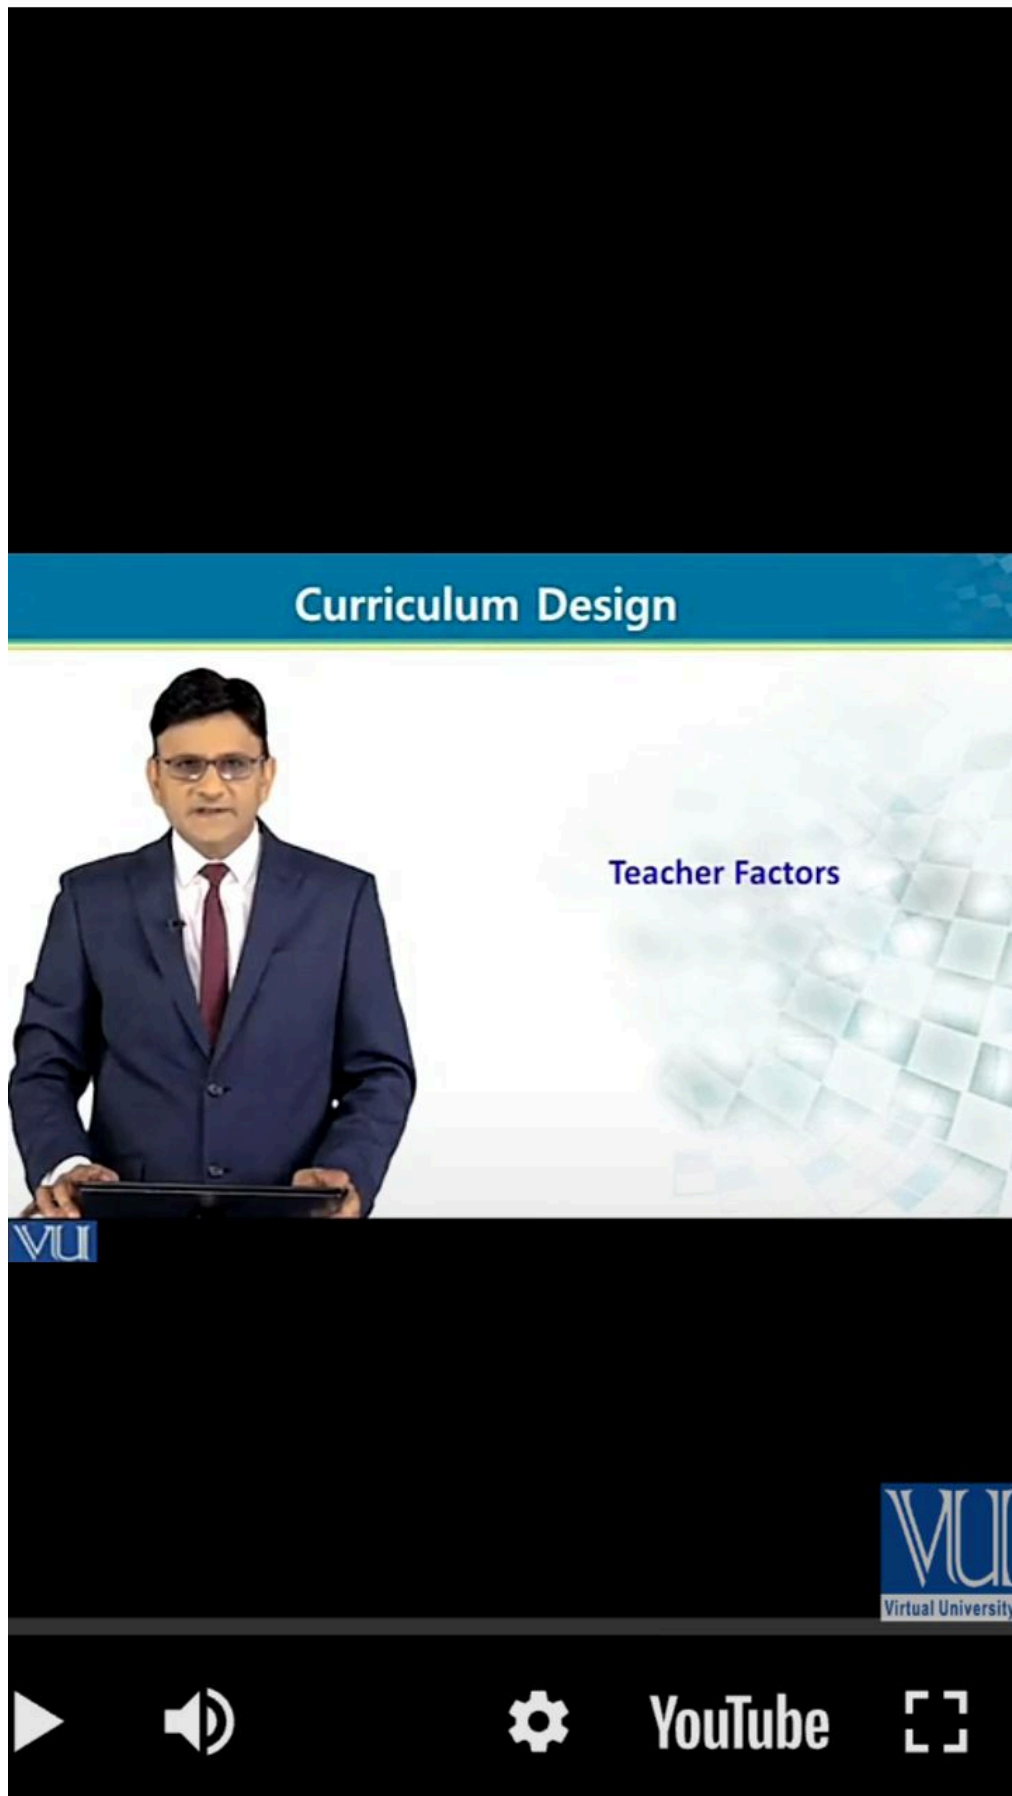

Example

- Appointment of a new director
- Main task to make language programs more competitive
- Director revamped courses
- Resistance from teachers

Teacher Factors

Teacher Dimensions

- Language proficiency
- Experience
- Skill and expertise
- Training & qualifications
- Morale and motivation
- Teaching style
- Beliefs & principles

Teacher Factors

Teachers' Roles Within Institutes

- Mentoring
- Leadership roles
- Some may have heavy workloads
- Attitudes towards new and routine syllabus

Teacher Factors

Factors to be Considered in Situational Analysis

- What kinds of teachers, background, training & experience
- How proficient they are?
- What beliefs they hold about ELT?
- What methods they use?

Teacher Factors

Example

- Recent example of introducing task-based approach in Punjab
- Personal experience
- Teachers resentment
