1. To create the freedom of thinking among children.

2. To create a sense of research and curiosity in children.

3. To create a sense of leadership in children.

4. To enable the students to cope with adolescence needs.

5. To create an aesthetic sense in children.

-
6. To create and develop a passion of love for art and culture among children.
 7. To create interest for taking part in games in children

05: What is unemployment issue among the educated youth?

- ❖ There has been a regular increase in facilities for general education as compared to technical and vocational education.
- ❖ Graduates with general qualification looking for employment in the white collar sector is beyond the absorption capacity in these fields.

06: What is the Target of primary education in 1978 policy?

- ❖ The target was to open 13,000 primary schools so that by 1992 all children of the country could get admission in primary schools. In addition to this, 5000 Masjid schools were to be opened so that children can get religious education along with primary education.
- ❖ A target of opening 1,000 workshop schools was also fixed. The aim was to teach children different domestic handicrafts and skills so that they might become useful members of the society.

07: What are the Two Dominant Barriers to IE (Inclusive Education) in Pakistan?

- When a journey towards inclusive education was ready to take off the federal government developed the education ministry to provincial governments.
- The provincial governments are not conceptually very clear what to do next.
- At provincial level, the movement of inclusive education seems losing its momentum because of two barriers:

1. Attitudes of ordinary school teachers
2. Attitudes of special education teachers

08: Explain Pre-literate Societies.

Pre-literate Societies (before writing) 7000 BC – 5000 BC:

Pre-literate societies are societies and communities that existed before writing began. So, obviously the means by which information or stories were transmitted was oral. People communicated through oral language from one generation to the next and that's how information got moved.

Goals of education under pre-literate society:

- ❖ To teach survival skills
- ❖ Teach group harmony

Who were the students in pre-literate societies?

- ❖ All children

-
- ❖ No grouping according to age
 - ❖ All children get together and listen to what people had to tell them.

Instructional methods in pre-literate societies:

- ❖ Informal methods
- ❖ Children imitate adults

Curriculum in pre-literate societies:

- ❖ Practice hunting
- ❖ Fishing
- ❖ Songs
- ❖ Poems
- ❖ Dance

Agents:

- ❖ Parents
- ❖ Liberal leaders
- ❖ Religious leaders

Influence on Education:

- ❖ Informal
- ❖ Transmission of skills

09: What is Higher Education in 1998?

- Admission in higher education institutes be done on merit basis; for this purpose, an NTS test be used. - New subjects will be introduced in quantity and quality.
- Professional institutions will be increased in quantity and quality.
- Colleges having good reputation will be allowed to have their own syllabus.

10: Define Plato and Aristotle.

Plato

❖ Philosophy:

Philosophical idealist, social conservation, added intuition

❖ View of Human Nature:

Humans can be classified on intellectual capabilities

Aristotle

❖ **Philosophy:**

Realists, views society based on realism and observation

❖ **View of Human Nature:**

Humans have the power of rationality to guide their conduct

11: How do we need to change our education system with advancement in technology?

- What is the aim of education? Should aim of education be changeable? Yes, it should change because as technology progresses and moves, we must have the same aim in education. How we have moved from a paper-pencil culture to a paperless classroom culture. That will someday soon be a reality. So, today many of our colleges and Universities, there are people with smart phones and laptops who can do a lot with these hatcheries. So, the aims of education need to be changed. You cannot live with the same aims forever.

- Schools should prepare education that is not separate from the world. The world is not static.

- Creating relevant curriculum for the changing world.

12: What is Egyptian period?

Educational Goals:

- To prepare priest according to scribe for the empire

Students:

Males of upper class

Instructional Methods:

- Memorization and copying texts

Curriculum:

- Religious or Technical texts

Agents:

- Priest and scribes

Influence on education:

- Restriction on educational controls to priest elites

13: Difference between voluntarism n determinism?

Individuals can take one of the two types of actions. In society, the reasons you behave in a particular way is because an external force makes you do it. For example, you could not pass the red signal; you have to stop because following the rules of presence of police makes you do it. This is known as **"determinism"** (Determined by external forces)

The other way is shaped by the individuals **"Voluntarism"**. You behave in a particular way because that's the way you know the right way to behave and this is known as voluntarism. You voluntarily behave in a particular manner not because an external force is demanding to behave in a particular way. Mostly if observed in a society, determinism takes the upper hand, most individuals behave in society because they know if they don't the consequences will not be good.

14: What is the Influence of Chinese?

Educational goals:

Prepare elites to **govern the empire** according to Confucian principles. (Here are three key terms in this goal: **Elite** means everybody was not meant to be educated. A common man did not receive any education, **Secondly**; they had to govern the empire. They had to be leaders and strong people up at the top and front. This was the sole purpose of giving education only to the elite. Another limitation was that the education these people got was limited to Confucian principles; only Confucius thought was transmitted to the next generation. Nothing new was added from the outside.)

Students:

- Males of upper class

Instructional Methods:

- Memorization and recitation

Curriculum:

- Confucian Classics

Agents:

- Government officials

Influence on Education:

- Written examination for civil service

15: Explain Ancient Turks

- “Alp” concept was widespread (Alp is the kind of human beings defined by the Turks)
- Alp human being is defined as: warrior, wise, extroverted, nomad, gaining knowledge from ancestors and old wise people.
- Oldest Turkish written texts go back to a period before Islam
- In Ancient Turks (before Islam) there is no gender difference in educating youngsters
- When Western education is being influenced by Christianity, the eastern education was being influenced by Islam
- The “God” and theology concepts encapsulated education
- In this period, an “absolute truth” concept gained importance and taught to people in a domestic way
- Turks accepted Islam in 10th Century
- Madrasas opened in Samerkant, Bukhara, Tashkent, Kashgar
- Education was organized and structured in these schools
- **Subjects:** religion and social studies were taught
- **Agents:** Farabi, Ibn-e-Sina, Biruni were some examples that were raised in these institutions.
- They synthesized philosophies from Turk-Islam traditions, Ancient Greek and Roman Philosophers as well
- This period lasted for Gokturks, Uygurs, Karahanlis, Selcuks, and Ottomans.

16: What are the facilities given to teachers of primary education 1959?

1. Teachers of Primary Education should be provided some professional training.
2. Refresher courses be arranged now and then for the teachers.
3. The service condition of teachers be made better.
4. Rewards in cash or certificates be given to teachers showing better working.
5. For the first three classes of primary education, female teachers are preferred to male teachers.
6. Residence arrangement for female teachers is made.

17: Why Teaching of Islamiat, Pakistan studies and Arabic is compulsory in National Education Policy 1978?

Compulsory Teaching of Islamiat, Pakistan Studies and Arabic

- In every sector of education, national and Islamic identity must be stressed.
- At the intermediate level, teaching of Islamiat and Pakistan Studies was made compulsory.
- Arabic language was also considered necessary being language of Quran and Hadith.
- The cultural heritage of Muslims is also in Arabic language. So, it was decided to make it compulsory at middle stage and programs of Teaching Arabic started through Radio and TV

18: What are the aims of education of National Education Policy 1992?

Aims of Education:

- To promote Islamic values through education
- A large number of educated men and women will be prepared to bring healthy changes in society
- The whole educational system should be reorganized and be established on modern lines
- A trend of critical thinking will be produced in students instead of learning by rote
- A practical type of education will be given to the students to enable them to create means of livelihood.

19: Why there is low enrolment in Pakistan?

Some major factors for low enrolment are:

- Poverty
- Long distance from school
- Poor physical infrastructure
- Functional problems
- Not related to market demands

20: Why there is discrimination against women?

- ❖ State parties shall take all appropriate measures to eliminate discrimination against women in order to ensure to them equal rights with men in the field of education and in particular to ensure, on a basis of equality of men and women.
- ❖ The same conditions for career and vocational guidance, for access to studies and for the achievement of diplomas in educational establishment of all categories in rural as well as in urban areas; this equality shall be ensured in pre-school, technical, professional and higher education, as well as in all types of vocational training.
- ❖ Access to same curricula, the same examinations, teaching staff with qualifications of the same standard and school premises and equipment of same equality.
- ❖ The elimination of any stereotype concept of the roles of men and women at all levels and in all forms of education by encouraging coeducation which will help to achieve this aim and, by the revision of textbooks and school programs and the adaptation of teaching methods.

21: How should characters be gendered?

- ❖ Use the same type of designation for male and female characters. For example, the term “housewife” which has no proper masculine equivalent, should be avoided, should be avoided. If the word “mother” is used, then so too must “father”.
- ❖ Vary the designation of male and female characters while taking care to place them in a variety of spheres and social functions.

-
- ❖ If characters of both sexes appear in the same text, do not automatically start with the male character.
 - ❖ Use the masculine and feminine forms in the case of a masculine plural, for example, “sportsmen” and “sportswomen”.
 - ❖ Use a neutral form of titles and functions if one exists, for example, chairperson.
 - ❖ Pay attention to the meanings of the words employed, which must not ridicule, demean or imprison a character in a role.

22: Why there is linguistic Inequalities in Urdu and English medium? 5 Marks

The Urdu-English Medium (Divide in Pakistan)

Role and status of different languages in Pakistan

- 1) The National Language of Pakistan is Urdu and arrangements shall be made for its being used for official and other purposes within fifteen years from the commencing day.
- 2) Subject to clause (1) the English language may be used for official purpose until arrangements are made for its replacement by Urdu.
- 3) Without prejudice to the status of the National Language, a Provincial Assembly may by law prescribe measures for the teaching, promotion and the use of a provincial language in addition to the national language. (Constitution of Pakistan, 1973, Article 251).
- 4) Urdu- National Language and lingua Franca (MT for only 7%)
- 5) Regional languages – used mainly in informal social interactions.

Role and status of Urdu and English:

- 🚩 English – Official language and gatekeeper for entry into prestigious higher education institutions, high salaried jobs; also the language of military and bureaucracy.

23: what is the planning for educational Change?

Repeated

24: Difference between functional theory and conflict theory.

Functional Theories:

- ❖ Stresses the interdependence of the social system, how well the parts are integrated with each other.
- ❖ Views society as a stable, orderly system with interconnected parts designed to meet the needs of individuals in a society. Emphasizes stability, cohesion, and consensus.

Conflict Theories:

-
- ❖ Social order is based on the ability of dominant groups imposing their will on subordinate groups through **force, cooptation, and manipulation**.
 - ❖ The glue of society is economic, political, cultural, and **military power**.
 - ❖ Ideologies legitimate **inequality and unequal distribution** of goods as inevitable outcome of biology or history.
 - ❖ Views society as an arena of inequality generating conflict and change. Focuses on power disparities, dominance, and the struggles between different groups.

25: Explain Ottoman Period.

- ✚ Madrasas were important educational institutions and were developed further in Ottoman Period.
- ✚ Rich people as well as government build Madrasas everywhere.
- ✚ The structure was primary, middle and high school.
- ✚ They were free and boarding schools.
- ✚ Only sunni muslim males were accepted in madrasas, no girls were allowed in the madrasas.
- ✚ The teachers were called "maderis".
- ✚ Religious, philosophical subjects as well as literature, science, math, and languages were taught.
- ✚ Education was considered as **a religious and moral duty**.

26: linguistic inequality and what are its issues?

- Linguistic (and social) inequality mediated through kinds of educational institutions, and educational practices in Pakistan.
- Medium of instruction
- Tracking at secondary and post-secondary level.
- Therefore, need for:
 - Systematic situation analysis
 - Debate and dialogue about relative role(s) and status of Urdu, English (and regional languages)
 - Improving quality of teaching-learning of English in schools and HEIs.

27: What is Poverty Leads to Disability?

Poverty creates following conditions which increases the risk of disability:

- Overburden and impoverished family (not able to meet basic needs)
- Poor nutrition and poor body defense against disease
- Illiteracy and lack of awareness about health and welfare
- Poor health due unaffordable healthcare cost
- Lack of access to basic services that prevent disability
- Over-working more often in risky physical labor environments
- Un-employment, under-employment and low wage rate

28: Financing problem education in Pakistan and how to resolve it?

- 1) Land, property and equipment of primary schools should be the responsibility of the people.
- 2) Half of the total expenditure of primary education should be borne by the provincial governments and the other half be met through district taxes.
- 3) A provincial committee is set up to meet the educational needs under the chairmanship of the Governor.
- 4) Similarly, such a committee be set up at the central level under the Chairmanship of Minister of Education and this committee should supervise and harmonize the work of the provincial committees.
- 5) The central committee should present its annual report to the President.

29: What is the focus in education in Ghaznavi dynasty?

- About 400 scholars, poets, scientists, and geographers were a glory of the court of Mahmood Ghaznavi.
- Firdousi, a poet, wrote the "Shahnama" during that time.
- Attabi, a historian, wrote "Kitab-ul-Yameeni".
- Alberuni, a philosopher, mathematician, geographer, and astronomer, made a deep study of the Hindu culture, customs, religion and wrote "Kitab-ul-Hind".

30: What is the focus in education in Ghauri dynasty?

- Muhammad Ghauri was not fond of art and literature; however, he took steps to spread Islamic education.
- To achieve this he got a service of many religious scholars and saints.
- He believed in training his slaves.

31: write any five strength points of recommend gives national education policy 1972?

- 1) Free and Compulsory Education
- 2) Technical Education
- 3) Nationalization of Institutions
- 4) Facilities and Training of Teachers
- 5) Facilities for Students
- 6) Setting of New Universities
- 7) Centers of Excellence
- 8) National Professorship
- 9) New Boards Be Set Up
- 10) University Grants Commission

32: Which strategies can be used to provide to special children?

- 1) Individualized Education Plans (IEPs)
- 2) Inclusive Education

-
- 3) Specialized Training for Educators
 - 4) Use of Assistive Technology
 - 5) Parental Involvement and Support
 - 6) Therapeutic Support Services
 - 7) Flexible Scheduling and Learning Environments
 - 8) Peer Support Programs

- They argue that special needs children require a type of “clinical care” that will never be possible in a free and least restricted environment of public school.

- The students of public schools will not accept them and they may bully, hate and show aggressive behaviour against children with special needs.

- Deep in their minds they feel inclusive education is a threat to their jobs and future career.

- They fear that in case the inclusive education is successfully implemented in Pakistan, they will be out of jobs.

33: what are the new areas that school needs on to become agents of change?

- 1) Dealing with diversity
- 2) Diversity of culture
- 3) Impact of globalization
- 4) Race, class, gender
- 5) How do schools deal with this?

34: What is eliminated from the society in order to bring equality?

The following must be eliminated from the society in order to bring equality:

- 1) Inadequate schools
- 2) Tracking
- 3) De facto Segregation
- 4) Gender discrimination

35: How schools act as agents of change?

Sometimes ago, when we talked of literacy, we talked of the 3Rs only which was reading, writing and arithmetic. Those 3Rs have gone; focusing today on only those 3Rs will not help our students. Literacy today is more than simply being able to read, write and being able to do simple quantitative skills. Today we talk off:

- Cultural literacy
- Scientific literacy
- Computer literacy

-
- Technological literacy
 - Electronic/media literacy
 - Information literacy

If all this literacy has to be taught, it has to come down to the school level. And therefore, schools have to be agents of change.

- Dealing with diversity
- Diversity of culture
- Impact of globalization
- Race, class, gender
- How do schools deal with this?

36: Discuss the education reform in Ottoman period.

The industrialized age is actually sandwich between the 16th century and the 18th century Ottoman Empire. When we see from the Industrialization and Ottoman period, there is a reform in education. This period is seen as change in education, at least in the Turkish Empire at that time.

- Between 1779-1839 was a reform period in education
- First in military education, military schools were opened.
- In 1824, Al Mahmut made primary education mandatory.
- Later middle and high schools and higher education was formed (Rustiyе mekteplerie, Idadi, Sultani and Darulfunun) These were the Turkish names for those high schools.
- 1856 Islahat Farmani was formed, that is changes in education.
- Primary education was mandatory
- Rustiye must exist in places with 500 houses (primary schools)
- Idadiye must exist in places with 100 houses (middle schools)
- Darulfunun (University) must exist in Istanbul. (Capital of Turkish empire at that time)
- Male teacher and female teacher schools will open.
- Money will be collected from public for education
- Education will be centralized.
- Kanun-I-Esasi: mandated that education is for everyone.
- There will be no interference on religious education
- Education is free for public.
- Vocational and art schools increased
- Increased freedom in press.
- Higher education for girls and girls started working in government offices.
- Pre-school education and professional education.

37: What is the difference in accommodation and modification?

<u>Accommodation</u>	<u>Modification</u>
Accommodations are used when the student is expected to learn the same curricular content. But the student may be taught in a different way or need changes in the environment	Modifications are used when the student is expected to learn less or different curricular content. This could require the modification of assignments, tests, worksheets and other materials in classroom.
<u>Example:</u> Testing Accommodations: Instructional Accommodations Environmental Accommodations	<u>Example:</u> Curricular Modifications Assessment Modifications

38: What were the goals of education in Arabic society?

Educational Goals:

- Cultivate religious commitment to Islamic beliefs
- Expertise in mathematics, medicine and science

39: Why the examination system of national education policy was highlighted as unsatisfactory?

- The existing system of examination has been thought in the report as unsatisfactory because it does not measure the ability of students.
- It therefore needs to be reformed and restructured.

40: What facilities were provided to the primary teachers in national education policy 1998?

- ✚ Existing facilities to be availed fully and new facilities to be provided.
- ✚ Media to be fully used for promotion of elementary education.
- ✚ Uprooting all types of social injustice, work will be done for equal chances of education for all.
- ✚ Promoting the elementary education, through formal and informal resources will be done.
- ✚ Terms and conditions of service for teachers will be made better and employment of teacher will be on merit basis; it will be tried to appoint teachers near their residences as much as possible.
- ✚ Poor students will be provided books and notebooks free of cost at the beginning of the educational year.
- ✚ In the elementary classes, slates and wooden planks will be introduced again.
- ✚ Subjects like cleanliness of atmosphere, use of computer, population planning, moral values and basic health will be included in the curriculum.

41: What effects does schooling on the individuals?

Schooling should have **three effects** on individuals

- Knowledge
- Attitudes
- Employment

Education and mobility, the “civil religion” . . . education amount vs. route . . . for the middle class, education may be linked to mobility but for the rich and the poor, it may have very little to do with it.

42: Why is necessary to eliminate the gender discrimination in education?

Eliminating gender discrimination in education is essential for multiple reasons that encompass individual well-being, social justice, and broader societal and economic benefits. Here are some key reasons why it's necessary:

- 1) Human Rights and Equality
- 2) Personal Development and Empowerment

1. To create a love and affinity among public and students of Pakistan for Pakistan.
2. To create a sense among students that being Pakistani, they are members of Islamic world at the international level.
3. To prepare such citizens well equipped with the Ideology of Pakistan.
4. To build the character of people and individuals in the light of Quran and Hadith.
5. To give equal chance of education to all without any discrimination of religion and to give minorities the facility for their culture and religion.

6. To promote the abilities of individuals through proper education. To provide basic education to all citizens without having a consideration of their cast and sect

45: How should character be gendered? In texts

A character's sex is indicated by the grammatical gender of the pronoun, proper noun or common noun. These different designations also define a character's social identity and immediately place the character in the public or private sphere; therefore, language (grammar and vocabulary) plays a vital role here.

Various types of designations can be combined:

- A pronoun: he/she/it
- A first name: male/female/it
- A surname
- A family relationship:
- Another relationship: friend, neighbour, colleague
- A profession/occupation

46: What is reformation period?

Educational Goals:

- Cultivate a commitment to a particular religious denomination, and general literacy

Students:

- Boys and Girls ages 7-12 in vernacular schools,
- Young men of upper class in humanist schools.

Instructional Methods:

- Memorization drill, indoctrination, catechetical instruction in vernacular schools, translation and analysis of classical literature in humanistic schools

Curriculum:

- Reading, writing, arithmetic, catechism, and rituals.
- Latin and Greek theology

Agents:

- Vernacular elementary school for general public,
- Classical schools for upper class.

Influence on Education:

-
- Commitment to universal education to provide literacy for everyone; origins of schools systems, dual track school system based on socio economic class and career goals

47: What is National educational conference 1947?

Under the dynamic leadership foreside and vision of Quaid-e-Azam Muhammad Ali Jinnah, soon after the creation of Pakistan the first educational conference was held **in Karachi in December 1947**

- 1) 1. The preservation of Nazaria Pakistan
- 2) Training for good citizenship
- 3) Training for Democracy
- 4) Urdu as Medium of Instruction
- 5) Abolition of Literacy in the Country
- 6) Primary Education compulsory for all
- 7) Compulsory religious education
- 8) Gradual abolition of English as Medium of Instruction
- 9) Reorganization of Technical Education
- 10) Promotion of National Unity

48: What is Mughals era?

- ✚ In their reign, art and literature flourished and made great progress.
- ✚ Numerous books of foreign languages were translated into Persian.
- ✚ Many biographies and historical events were written.
- ✚ During this time, some famous scholars

49: Why target for literacy was not met?

1. Reduction in the amount allotted for education
2. Opening of new primary schools: It was planned in the policy to open 13,000 new primary schools and 5,000 new masjid schools but because of financial difficulties this target could not be achieved.
3. Less increase in number of students: It was necessary to increase the number of students at the primary stage to increase the literacy rate; the desired increase in the number of students could not be achieved and thus literacy rate could not be increased.
4. Less facilities for Teachers: It has been a sorrowful condition since Pakistan came into being that the teachers have not been given a status economically and socially to enable them to do their teaching work whole heartedly after being free from financial worries.

50: What you know about the term inclusive education?

When every child is welcomed and valued regardless of ability or disability.

Inclusive education is an attitude

- ✚ It means the doors to school; classroom and school activities are open to every child.
- ✚ The focus is on giving every child the help he/she need to learn.

51: What are the goals, who are the students and what are the methods of Renaissances period?

Educational Goals:

- Cultivate Humanist experts in Greek, and Latin classes; prepare people to serve dynastic leaders

Students:

- Male children of aristocracy and upper classes, ages 7-20

Instructional Methods:

- Memorization and translation, and analysis of Greek, and Roman classes, classical literature, poetry and art.

Curriculum:

- Latin and Greek classical literature, poetry and art

Agents:

- Classical Humanists educators and schools like Lycee, gymnasium and Latin school,

Influence on Education:

- Emphasis on literary knowledge, excellence and style in classical literature,
- two track system of schools

52: How french revolution changed eductaion?

The French revolution brought about a major change in education. At the time of French revolution throughout Europe and England, there was a change. That change was clearly seen in technology. Technology focused on the development of new machines and items coming out of the mechanical world. Those changes also influence what is needed to be done in education. As technology produces new machinery, people need to know how to operate these.

- In England and all over Europe after the French Revolution, there is an expansion of technology such as machinery that works with petrol and steam.
- Education was influenced by these changes.
- Factory workers came about.

-
- In this period, systems such as, Socialism, Communism, Liberalism, and Capitalism started gaining popularity
 - The free thinking brought by the French Revolution combined with industrial Revolution caused education to take shape in this direction.
 - Education was needed by large masses. New Philosophies came about: Materialism, Socialism, Positivism etc

53: Curriculum of primary education in 1959's policy?

1. The curriculum should be according to the need and ability of the child.
2. Practical and Planning methods be used for teaching children.
3. National Language be taught to all children.
4. A sense for the dignity of manual work be created.
5. A passion for patriotism be created in children.
6. National Anthem be sung in the morning assembly and Pakistan flag be hoisted.

54: According to environmental education, what are the basic rights of human?

- Right to health services (investment in environmental health will significantly reduce curative health cost)
- Right to fresh air
- Right to safe drinking water and sanitation
- Right to food, education, shelter and security.
- Enforcement of environmental law and institutional development
- Decision makers sensitized to plan and implement friendly policies
- Responsible media to raise right issues at the right time in a right manner and a right weightage
- Research and development leading to environmental excellence and quality education

55: how are the characteristics are gendered through illustration?

- The question of how to gender characters in illustrations is complex and calls for careful thought.
- It is a matter of knowing which symbol to use to indicate male and female.
- This must be resolved with reference to the cultural contexts while bearing in mind the gulf between tradition and modernity.
- Choices may consistently convey bias, for example, if female characters are shown wearing traditional Pakistani garments while male characters wear western clothes, and so on.

56: How education transmitted in pre literature time?

In pre-literate societies, education was a holistic, communal process involving oral traditions, hands-on experiences, and communal participation. These methods ensured the transmission of cultural heritage, practical skills, and communal knowledge across generations, thereby sustaining the community's way of life and knowledge base.

57: What is the perspective of functional theories and conflict theories?

Functional Theories:

Stresses the interdependence of the social system, how well the parts are integrated with each other.

Emile Durkheim:

Education in all societies of critical importance in creating moral unity, social cohesion, and harmony . . . moral values are the foundations of society.

Functionalists:

- Assume that consensus is the normal state in society and conflict represents a breakdown of shared values.
- Educational reform is to create structures, programs and curricula that are technically advanced, rational, and encourage social unity.

Conflict Theories:

- Social order is based on the ability of dominant groups imposing their will on subordinate groups through force, cooptation, and manipulation.
- The glue of society is economic, political, cultural, and military power.
- Ideologies legitimate inequality and unequal distribution of goods as inevitable outcome of biology or history.
- Whereas functionalists emphasize cohesion, conflict theorists, emphasize struggle in explaining social order.
- Karl Marks is the intellectual founder of conflict theories.
- "Achievement Ideology" of schools disguises the real power struggle which correspond to the power struggles of the large society.
- Educational expansion best explained by status group struggle . . . educational credentials such as college diplomas primarily status symbols rather than indicators of actual achievement to secure more advantageous places in employment and social structure.
- "Cultural capital" passed on by families and schools . . . schools pass on social identities that either help or hinder life chances

58: How do u use accommodation in your class.?

- Vary teaching methods

-
- Projects for extra credit or in place of timed tests
 - Giving instructions one step at a time instead of all at once
 - Ask questions to get repeat of information to get repeat of information
 - Divide the class
 - Set up lessons
 - Change the learning goals
 - Create alternative activities

59: Is Pull out Best?

- “Pull out” means removing the student from class for a small group of 1-to-1 instruction Ask:
- Why can not the skill be taught in the general classroom? Are there ways to change it so it could be taught there?
- While the student is in pull out, he/she misses what is going on in general classroom. How do you help the student catch up on what he missed?
- How will skills learned in pull out time help the student spend MORE time in the general classroom?

60: how are the characteristics are gendered through illustration?

- The question of how to gender characters in illustrations is complex and calls for careful thought.
- It is a matter of knowing which symbol to use to indicate male and female.
- This must be resolved with reference to the cultural contexts while bearing in mind the gulf between tradition and modernity.
- Choices may consistently convey bias, for example, if female characters are shown wearing traditional Pakistani garments while male characters wear western clothes, and so on.

61: what should be the attitude of teacher towards special children?

Firstly, they feel that they are not fully competent and supported for this major shift and it will be difficult to create a welcoming environment for children with special needs even if they are really willing to do it.

Secondly, the public school is already under furious criticism for its extremely low educational standards. The inclusion of special children will further deteriorate the quality of instruction and the school may collapse.

- The students and parents will resist this shift.
- They fail to see the strength of inclusive education as a school improvement plan.

62: Why there is needed to promote Gender Equality?

Promoting gender equality is essential for numerous reasons that benefit individuals, societies, and the world as a whole. Here are some key reasons why promoting gender equality is necessary:

-
- 1) Human Rights and Social Justice
 - 2) Economic Benefits
 - 3) Health and Well-Being
 - 4) Educational Advancement
 - 5) Social and Community Development
 - 6) Intergenerational Impact
 - 7) Sustainable Development
 - 8) Cultural and Societal Transformation

Promoting gender equality is not just a moral and ethical imperative but also a practical necessity for building prosperous, healthy, and inclusive societies. It enhances economic growth, improves health and education outcomes, fosters social cohesion, and ensures that all individuals can reach their full potential. By promoting gender equality, we create a better world for everyone.
