**What is the main strength of the Problem Space Framework as a model of human problem solving?**

► **It operates within the constraints of the human processing system P/91**
► It explains what is involved in insight
► It allows ill-defined problems to be solved
► None of these

**_____ is the process of selecting things to concentrate on, at a point in time, from**
**the range of possibilities available.**

► Perception and recognition
► **Attention P/76**
► Learning
► None of these

**Interpretation inquiry, according to Beyer and Holtzblatt, is based on a master-apprentice model of learning.**

► True
► **False P/176**

Contextual inquiry, according to Beyer and Holtzblatt, is based on a master-apprentice model of learning:

**The persona is not an actual user of the product, but is indirectly affected by it and its use refers to _____ persona**

► Primary
► Secondary
► **Served P/159**
► Negative

**_____ is a powerful, multipurpose design tool that helps overcome several problems that currently plague the development of digital products.**

1. Scenario
2. **Persona P/187__ Lecture-22**
3. Prototype

**The difference between the intentions and allowable actions is the:**

**Which of the given statements correctly defines effectiveness in terms of one of the usability goals?**
Select correct option:

**It is a very general goal and refers to how good a system at doing what it is suppose to do. P/31__ Lecture-4**
It refers to the way a system supports users in carrying out their tasks.
It involves protecting the users from dangerous conditions
It involves protecting the users from undesired situations

**Which of the following is not a secondary color?**
**Select correct option:**
Green
Orange
Purple
**Blue P/63_- Lecture-8**

**Which of the following device can not be useful for a visually impaired person?**
**Select correct option:**
a typical keyboard
**a typical monitor**
a typical speaker
a typical processor

**Which of the following requires less cognitive effort than others?**
**Select correct option:**
**Listening P/87_- Lecture -10**

alimuaaz11@gmail.com

Speaking
Hearing
None of the given

**We are deficient in our development _____, not in our development _____ (respectively).**
**Select correct option:**
**Process, Tools P/23, Lecture-3**
Tools, Process
Tools, Methodology
None of these

**Which of the following is not true regarding "cones"?**
**Select correct option:**
**A type of receptor in eye more sensitive to light P/60, Lecture-7**
Different types of cones are sensitive to different wavelengths of light
Eye has approximately 6 million cones

**Which of the following does not count as one of the advantages of computers?**
**Select correct option:**
Computers are enabling new discoveries
Leading to efficiencies
Making our life convenient
**Depending so much on computers may give fatal results**

**The gulf of execution refers to _____ .**
**Select correct option:**
The user's difficulty in understanding the feedback from the system
The system's difficulty in presenting information in the output language
**The system's difficulty in converting an input expression into the correct system state transition**
The user's difficulty in formulating and articulating an intention to the system

**Learnability, flexibility and robustness are three main usability principles that can be considered as general headings for standards and guidelines generation. Which of the following are also high level usability categories that can guide standards and guidelines generation? (i) Effectiveness (ii) Efficiency (iii) Fault tolerance (iv) Satisfaction**
**Select correct option:**
**(i) & (ii)**
(i), (ii) & (iv)
(ii) & (iii)
(ii) & (iv)

**Select correct option:**
Utility refers to the functionality of a system
**Usability is concerned with adding complexity to the system P/30__ Lecture-4**
Usability is concerned with making systems easy to use
Poorly designed computer system can be extremely annoying to users

**The command line interface is used because**
**Select correct option:**
It is easy to understand
It is demanded by DOS
It is offered by Unix systems
**It is powerful and flexible (Google)**

**Which of the given statements correctly defines effectiveness in terms of one of the usability goals?**
**Select correct option:**
**It is a very general goal and refers to how good a system at doing what it is suppose to do. P/31__ Lecture-4**
