EDU301- General Methods of Teaching

Important Questions for MidTerm

By Mahar Azaq Sa'ad Muhammad

(MSc Math, MA Islamic Studies, B.Ed. Scholar)

Q1- What is presentation?

Ans: Presentation is a teaching method where a teacher presents concepts and procedures.

Q2- What is the date of birth of Jean Piaget?

Ans: 9 August, 1896.

Q3- Define reflective practice.

Ans: Answering some key questions to create an image of the classroom teaching and learning. Reflective practice is very important for a teacher.

Reflection is of two types:

1- Reflection in action.

2- Reflection on action

Date: _____

Day: _____

04- What is important model for curriculum planning?

Ans: Task analysis...

05- What is the important thing that we use in Tyrol's model and Bloom's Taxonomy?

Ans: Observe the ultimate behaviours.

06- What is the instructional aims for lesson planning?

Ans: Student oriented.

07- What is short term planning?

Ans: Lesson planning is short term planning.

08- Define lesson planning.

Ans: A lesson plan defines objectives, plan materials, resources and activities are mobilized for the efficient attainment of the selected objectives and finally evaluation criteria is also identified. Lesson is a piece of a unit not a block of time.

Date: _____

Day: _____

09- What is zone of proximal development?

Ans: The gap between actual and potential level of child is zone of proximal development (ZPD).

10- What is the application level in cognitive domain? Explain with example.

Ans: Knowledge is the application level. For example, Give 5 things to students to identify these three kinds of objects. These are Cellophane sheets, paper, table, book and wall. Now if the students are able to identify that what are opaque, transparent are translucent objects then they are acquiring application level.

11- What are the levels of Bloom's taxonomy?

Ans: There are 6 levels of Bloom's taxonomy of cognitive domain.

- | | |
|-------------------|--------------------|
| (i) Knowledge | (ii) Comprehension |
| (iii) Application | (iv) Analysis |
| (v) Synthesis | (vi) Evaluation |

Date: _____

Day: _____

12- What is meant by multimethodology?

Ans: Multi means many and methodology means collection of different methods. Multimethodology research includes the use of more than one method of data collection.

13- What are the methods of elaboration?

Ans: (i) Drawing (ii) Metaphors and Analogies.

14- Define sequencing?

Ans: The art of developing logical plan for instructional activities is called "sequencing". Such a plan consists of interlink steps.

Ans: Reflection in action: Thinking about what you are doing whilst you are doing it. Reflection in action comes from experience.

Reflection on action: Thinking about

Date: _____

Day: _____

what you did after the event.

Reflection on action means that you have to answer some questions so that you may know what the environment of your class was.

16- What is meant by CAP?

Ans: CAP (Cognitive, Affective and Psychomotor)
Cognitive (Intellectual development)
Affective (Feelings / Attitude / Emotions)
Psychomotor (Procedural knowledge)

17- What are differences b/w instructional planning and Curriculum planning?

Ans:	Instructional	Curriculum
(i)	Identifying pupils' needs	Identifying societal needs
(ii)	Writing and sequencing objectives	Writing standards and benchmarks in sequence.
(iii)	Selecting methods/strategies	Bench Marks in sequence
(iv)	Assessment procedure	Assessment
(v)	Resources	Resources

Date: _____

Day: _____

18- What are differences b/w Unit plan and Lesson plan?

Ans:	Unit plan	Lesson plan
(i)	Subject	Subject
(ii)	Lesson topic	Unit topic
(iii)	Rationale of topic	Instructional objectives
(iv)	Instructional objectives	Rationale of topic
(v)	Content and processes	Content and processes
(vi)	Evaluation	Assessment

So, there are many similarities because lesson plan is the part of unit plan.

19- Modes of presentation?

Ans: Deductive Mode (General to specific)
Inductive Mode (Specific to general)
Deductive and inductive are not only the modes of presentation but modes of experiments also.

20- What is Problem-Based Learning? (Final)

Ans: The flow of problem-based learning:

(i) Problem based learning starts from

Date: _____

Day: _____

problem engagement.

(ii) Inquiry and investigation

(iii) Problem resolution

(iv) Problem debriefing

21- Why activities are important?

Ans: Activities are important because we do not teach processes to our students unless we do not include learning activities in our lessons.

22- What are the qualities of a good teacher?

Ans: A good teacher is the one who engages the students in active learning. A good teacher is the one who plans a lesson, implement it and evaluate it after implementation. A good teacher must know Assessment and Evaluation Teaching techniques and Skills and Pedagogical content knowledge. A good teacher is the one who actually strives to help each student achieve their

Date: _____

Day: _____

maximum potential.

23- What is Kinesthetic Learning?

Ans: Kinesthetic learning (also known as tactile learning) is a learning style in which learning takes place by the student carrying out a physical activity rather than listening to a lecture or watching a demonstration.

24- What are the benefits of unit plan?

Ans: Unit planning is important because we need to know the reasons for dividing the whole thing into components. Most of the time teachers complain for shortage of time. This problem can be solved by making the detailed unit plans. You can observe all the topics given in the yearly plan and then identify the most important topics and the overlapping topics. So, actually unit planning helps you to go through whole yearly plans.

Date: _____

Day: _____

25- Write down components of lesson plan.

Ans: Components of lesson plan are following.

- (i) Subject
- (ii) Instruction objectives
- (iii) Rationale
- (iv) Content and process
- (v) Instructional procedure

26- What is condition?

Ans: Condition is a description of the conditions under which learners performance is to occur. They determine how, when, where and with what of performance.

27- What are the characteristics/elements of performance objectives?

Ans: (i) performance (ii) condition
(iii) criterion measure.

28- Write down the modeling processes.

Ans: There are four important modeling processes:

- (i) Attention
- (ii) Retention
- (iii) Production
- (iv) Motivation.

Date: _____

Day: _____

29- Why school is important for social development?

Ans: In social development very important things are sharing (like making friends), observe rules arrangements and physical developments, so for these all school plays important role.
