

PAK301 FINAL TERM

Made by: 03166410266

LECTURE 16

The object of first resolution

1.Parameters principles 2. sublime principles

The 1st Resolution was moved by, the then Prime Minister of the Islamic Republic of Pakistan, **Liaquat Ali Khan**

The 1st Resolution was approved in **March 12, 1949.**

The 1st Constituent Assembly came into existence under Indian Independence Act 1947. The elections were held in..... **July 1946**

In July 1946 elections Constituent Assembly member increases from **69 to 79**

It's important that the Resolution promised the federating units for due powers of...

Autonomy and territorial integrity

The major objection by the Non-Muslims was that the government was trying to mix the **Religion & politics**

The non-Muslims objected on the 'Sovereignty of Allah' and minorities' rights, saying it would promote inequality in the**Society**

The non-Muslims feared that it would encourage the religious extremists to work for the establishment of a....' **Theocratic state**

The AIML leaders were modernist Muslims not in favour of an.?

Orthodox religious state

Lecture 17

Which law of the Act of Government of India was modified and promulgated in the newly state of Pakistan. **Act 1935**

In which election the elected members made the first Constituent Assembly that faced grievous circumstances. **1946 elections**

How much the major issues are faced in the first constituent assembly ? **Six**

Which major issues are faced in the first constituent assembly ?

1. Federalism 2. Representation 3. Separate or Joint Electorate

Which major issues are faced in the first constituent assembly ?

1. The National Language Issue 2. Parliamentary or Presidential system 3. The Islamic or Secular State

Pakistan consisted of territorial parts. **Two**

Total units of East Pakistan? **One**

East Pakistan but administratively one unit.

With more population, less territory

Total units of West Pakistan? **Four**

The heritage of British rule gave the tradition of a Centre. **Strong**

In which Constitution tradition of strong centre continued.

Interim Constitution 1956 Constitution

What was the main different between East Pakistan and West Pakistan

population and size

The Constituent Assembly (CA) formed a Basic Principle Committee (BPC) on....

March 12, 1949

When was First BPC Report presented ? **28th September 1950**

In 1st BPC report how much houses of the parliament were proposed. **Two**

In 1st BPC report the lower house was to be elected on the basis of **Population**

According to first BPC report the upper house was to be elected on the basis of

Equal representation for all the provinces of Pakistan

Which of following was against first BPC report ? **East Bengal**

Who was withdraw from first BPC report **Liaquat Ali Khan**

When was Second BPC Report presented ? **22nd December 1952**

According to Muhammad Ali Bogra Formula in upper house will be represent to each of

..... **Five units**

According to Muhammad Ali Bogra Formula in lower house will be represent

Population

What come the result of Bogra Formula

Solve the problem of both national language Urdu and Bengali

When was the one Unit of West Pakistan was established on ..? **14th October 1955**

The provinces of Punjab, Sindh, NWFP and Baluchistan would be amalgamated in **one unit** to establish parity between the **Two** parts of the country.

Separate electorate was adopted on the demand of Muslims in by the British Government. **1909**

What was the decision East Religious element supported this as a part of heritage.

For Joint Electorate

What was the decision west Religious element supported this as a part of heritage

For Separate electorate

Joint Electorate was adopted for all Pakistan by the National Assembly in **1957**

Who was declared in 1948 that Urdu would be the national language but provinces could use their languages. **Quaid e Azam M. Jinaah**

When was Language Movement started in East Pakistan ? **February, 1952.**

When was Two-language formula was adopted ? **1954**

When was Urdu adopted as national language along with the support for development of regional languages. **1973**

Supporters of Presidential system became dominant after the **1958**, military takeover.

The Constitution was a Presidential constitution. **1962**

Ulema of various sects presented famous **22 points** to provide a religious base to the future constitution.

LECTURE 21

The 1973 Constitution

1. Abrogation of the 1962 Constitution onled to second martial law in the country.

March 25, 1969

2. Yahya Khan handed over power to Zulfikar Ali Bhutto on ..?

December 20, 1971

3. National Assembly approved an Interim Constitution, which was enforced on

April 21, 1972.

4. Constitutional Committee comprising National Assembly (NA) members from all parties was set up in April 1972. was the Chairman of this Committee.

Law Minister

5. All parties agreed on the future political system in ...? **October 1972**

6. The Committee reported on? **December 31, 1972**

7. After long deliberations and compromises final draft was approved unanimously on? **April 10, 1973**

8. The new Constitution was enforced on? **August 14, 1973**

9. The Constitution functioned period of 1973-77 was? **Operational**

10. The Constitution functioned period of 1977-1985 was ...? **Suspended**

11. The Constitution functioned period of 1985-1999 was

Operational after changes

12. The Constitution functioned period of 1999-2002 was ...? **Suspended**

13. The Constitution functioned period of 2002 onwards was?

Operational after changes

14. In which constitution having powerful Prime Minister (PM) as head of government with a very weak President? **Parliamentary**

15. According to 1973 constitution Prime Minister to be elected by..? **NA**

16. The powers of the President were increased and also had power to dissolve the NA.

In 1985

17. President had the powers of appointment of....? **Caretaker PM**

18. President is elected by the Parliament and the Provincial Assemblies for ? **5 years**

19. Upper House called? **Senate**

20. Upper House equal representation is given to Provinces. Seats are reserved for the.....

Tribal areas women and technocrats

21. Upper House original strength was ... , which was later raised

63 > to 87 and then 100

22. It's a permanent House as half of its members are elected after

Three years

23. National Assembly is elected on..... Basis? **Population**

24. Lower House original strength was but now it is....? **210 , 342.**

25. Voting age for the franchise is lowered from...? **21 to 18.**

26. Parliament under 1973 constitution is a powerfulbody? **Legislative**

27.is more powerful than the Senate? **National Assembly**

28. Cabinet is answerable to...? **National Assembly**

29. Federation of Pakistan province of Punjab total seats was? **371**

30. Federation of Pakistan province of Sindh total seats was ...? **168**

31. Federation of Pakistan province of NWFP total seats was? **124**

32. Federation of Pakistan province of Baluchistan total seats was? **65**

33. Fundamental Rights are secured in the constitution and are implemented through the ...? **highest court**

34. Islamic Provisions the title of the state was...?

Islamic Republic of Pakistan

35. The objectives resolution was the Preamble in the initial constitution but through article of 8th amendment it was inserted in the constitution in ...? **2-A > 1985.**

36. Islam was declared the Religion of Pakistan.

State

37. Definition of Muslim was included by an?

Amendment

38. Principles of Policy also carry some Islamic....?

Clauses

39. Federal Shariat Court was added in

1981

40. National Security Council was added in in advisory capacity.

2002

41. One High Court is established in each province and one in ...? **Azad Kashmir**

LECTURE 22

Political History

1: First Eleven Years (1947-58)

Pakistan won **independence** under extremely difficult conditions.

Riots, refugee's problem and economic pressures were challenging for the new state.

Negative attitude from Indian government and war oncreated problems in relations with India? **Kashmir**

The Government of India Act 1935 was adopted as the **first Interim** Constitution.

The first Governor General of Pakistan. **Quaid-e-Azam Mohammad Ali Jinnah**

The first Prime Minister (PM) ... **Liaquat Ali Khan,**

Governor Generals:

1. M. A. Jinnah	August	Sept. 1947-Sept. 1948
2. Kh. Nazimuddin		Sept. 1948-Oct 1951
3. Ghulam Mohammad		Oct. 1951-Oct. 1955
4. Iskander Mirza		Oct. 1955-March 1956
President:	1. Iskander Mirza	March 1956-Oct. 1958

Prime Ministers:

1: Liaquat Ali Khan	August 1947-Oct 1951
2: Kh. Nazimuddin	Oct. 1951-April 1953
3: Muhammad Ali Bogra	(i) April 1953-Oct 1954 Oct. (ii) 1954-August 1955
4: Ch. Muhammad Ali	August 1955-Sept 1956
5: H.S. Suhrawardy	Sept. 1956-Oct 1957
6: I.I. Chundrigar	Oct. 1957-Dec 1957
7: Firoz Khan Noon	Dec. 1957-Oct. 1958

Elections at the provincial level:

Punjab, NWFP 1951

Sindh 1953

East Bengal 1954

1st Constituent Assembly was dissolved and 2nd CA was constituted in **1955**.

One Unit Scheme October 1955

Economic management, Agriculture, Industrialization and Education was a question dealt in **1st Five Year** Plan.

2: Second Phase (1958-69)

Martial Law remained imposed from **October 1958 to June 1962**.

Constitutional Rule was restored on June 1962 and remained till the **2nd Martial Law on March 1969**.

Ayub Khan took over as Chief Martial Law Administrator (CMLA) and the President.

Ayub Khan took himself elected through **referendum in 1960** and **re-elected in January 1965** through presidential elections.

- Restrictions on political activities. Political leaders were stopped from taking part in politics **for 6 years** on the charge of corruption and other charges under **the law named EBDO**.

Indo-Pakistan war started and at the end of war **Tashkand Pact** was signed with India.

People were not satisfied with this pact. **Tashkand Pact**

Tashkand Pact brought people to agitation and public demand resulted in resignation of the president.

3: Third Phase (1969-71)

Ayub Khan handed over power to **Army Chief Yahya Khan**. He imposed Martial Law and 1962 Constitution was abrogated.

Ayub Khan took some immediate steps:

Removal of officers **303**

Provinces Revived: **March 30, 1970**

Abolition of Parity

Legal Framework Order (LFO) as interim law issued in **March 1970** which provided basic principles for:

National Assembly **313 (300 plus 13 women seats)**

East Pak **162 plus 7**

West Pak **138 plus 6**

General Elections were held in **December 1970**.

Election Results were: **Awami League 160** general seats **Pakistan People's Party 81** general seats

Failure of dialogue for transfer of Power among three top leaders led to confrontation and military action on **March 25, 1971**.

Lecture 23

Political History (1972-2003)

1: 1972-1977:

Z. A. Bhutto assumed power. First he became President of Pakistan and also the first civilian Chief Marshal Law Administrator. **December 20, 1971**

Major Policies Emerald mines in Swat

Life Insurance Schools and Colleges **1972** New University Ordinance was issued in **1973** and **Banks in 1974**.

A new Labour Policy was announced in which more rights and concessions were given to the **working classes**.

Administrative Reforms were introduced to eradicate **corruption in the country**. **Hundreds of civil** servants were removed on the **charge of corruption**.

Elections of **1977 PPP** won the elections.

Chief of Army Staff General Mohammad Zia-ul-Haq took over and imposed Martial Law. **1977**

To justify his rule Zia-ul-Haq presented his Agenda about:

- **Effective Administration • Islamisation • Return to Democracy**

In Zia-ul-Haq policy promised Elections first within

90 days

In Zia-ul-Haq policy Shariat benches established in

1979;

In Zia-ul-Haq policy Federal Shariat Court was established in

1981;

*In Zia-ul-Haq Introduced Islamic Punishments; **Amputation of hands, Stoning to death and lashing etc;***

Zia-ul-Haq Interest **free banking initiated in 1981** on the principle of profit & loss sharing;

Zia-ul-Haq policy Zakat deducted on **saving accounts & investments;**

- Ushar was imposed on agricultural produce in **1983;**

New education Policy with Islamic character of syllabus along with Pakistan Studies and Islamiat **compulsory for all the classes up to graduation.**

Islamisation of **Mass media;**

In **Zia-ul-Haq** policy **Pakistan Bat-ul-Mall** was established.

1. Local Bodies elections, **1979.**

2. Referendum was held to elect **Zia-ul-Haq** as president for **next five years** on **December 1984.**

3. Then he held elections on non-party basis on **February 1985.**

5. Revival of the Constitution Order **March 1985** with most controversial 8th Constitutional Amendment was introduced.

6. Withdrawal of martial law, **Dec 30, 1985.**

Democracy was restored but no civilian government could complete its tenure of five years and became the victim of **58-2B of 8th**

1. Junejo	March 1985-May 1988
2. Benazir Bhutto	November 1988-Aug 1990
3. Nawaz Sharif	October 1990-July 1993
4. Benazir Bhutto	October 1993-November 1996
5. Nawaz Sharif	February 1997-October 1999

Interim Prime Ministers appointed for holding fair elections were:

1: Ghulam Mustafa Jatoi:	August-November 1990
2: Bulkh Sher Mazari:	April-May 1993
3: Dr. Moeen Qureshi:	July-October 1993
4: Malik Meraj Khalid:	November 1996-February 1997

Civilian government adopted policies for the **welfare and betterment** of the people

Military Rule was imposed against the civilian **In 1999 .**

Nawaz government's attempt to **remove the Army Chief**, while he was out of the country and returning from his visit to **Sri Lanka.**

General Musharraf took over as **the Chief Executive** of the country and suspended the **constitution.** Martial law was not declared.

Political Priorities:

General Musharraf announced his Political Priorities: • Rebuild national confidence and morale; • Strengthening federation; • Remove inter provincial disharmony; • Restore national cohesion;

General Musharraf introduced **New Local Bodies System**,

General Elections of National And Provincial Assemblies on **10th Oct 2002**.

In the new set up **Mir Zafer-Ullah-Khan Jamali** was the head of a coalition government.

In three provinces there are governments of **Muslim League (Q)** and in NWFP there is the government of **MMA** working successfully.

Lecture 24

Geography, Land, Boundaries and Neighborhoods

East Pakistan separated in **1971**.

Indus Valley Civilization is as old as **2500-1600 BC**.

The archeological heritage of **Harappa and Mohenjo-Daro** are clear evidence of this fact. **Arians first came** to this land followed by Islam and Muslims from **Central Asia and Afghanistan**.

The downfall of Muslim empire paved the way for **British Rule**

Location:

Pakistan is located between **24_37 degrees North latitude**

61_75 degrees East longitude.

Pakistan total area is 796,095 sq Kilometers.

Province	Territory	Persentage
Balochistan	347.2	43.61
Punjab	205.3	25.81
Sindh	140.9	17.71
NWFP	74.6	9.4
FATA	27.2	3.4
Islamabad	0.9	0.1

Diversity in the nature of territory:

- **North and Northwest:** It includes Mountains of Himalayan and trans-Himalayan Ranges, Korakoram & Pamirs, which includes some of highest peaks like **K2, Nanga Parbat** etc.
- **West:** Baluchistan Plateau is about 1000 feet in elevation with **dry mountains** crossing it from northeast to the southwest. Here **very little rainfall** occurs.
- **Indus Plains:** Main agricultural region in the middle of the Indus valley.
- The Potohar Plateau is there in the East of upper Indus plains.
- In South East of Indus Plains there is **Deserts Thal, Cholistan and Thar.**

Climate of Pakistan is diverse. **North, Northwestern Mountains are extremely cold in winter** but mild in summer.

The Indus Plains are **extremely hot in summer** but cold and dry in winter.

Four Seasons:

Summer: May to September

Winter: November to February

Spring: March-April

Autumn: September-October

Year	Population Annual Growth In Million	Percent
1951	36.2	-----
1961	46.2	2.80
1972	65.3	3.10
1981	84.3	3.06
1998	130.6	2.61

In 2006, the population is estimated to be over **160 million**.

Important Features of the Population:

- **More than 50 Percent** population is under the age of 21. **A large part** of this population is dependent.

- Add to this people over 65 years.

- About **30 percent** population lives in **urban areas**.

- **Why migrations to urban areas: Education, jobs, facilities** etc.

- **Provincial population.**

Punjab 56-57 percent **Sind 23** percent **NWFP 14** percent **Baluchistan 5.3** percent

- **Low literacy rate:**

Official literacy rate is 46 % but functional literacy rate is even lower 55

- Women literacy rate is **much lower**. In certain areas of **Baluchistan** women literacy is nominal to non-existent.

2: Boundaries:

Pakistan shares boundaries with four countries.

- **China in the northeast:** About 600 km long border in the Northern Areas. Silk Route is a major link for trade and traveling.

- **Afghanistan: North and Northwest** about **1200 miles**. Durand Line was drawn on **November 1893** as a border between the two neighbors.
- **Iran in the West** share about **590 miles** border from Koh-i-Malik Siah to Gawadar.
- **India** in the East having a border about **1400 miles** which was established in **August 1947**.
- We also face India on the LOC in Kashmir, the most troubled frontier having hardly any natural barriers, highly volatile and porous.
- **South: Arabian Sea, Coastline 450 miles**. Stretches from the Rann of Kutch Indian border to the Iranian border in the West.

Lecture 25

Natural Resources, Agriculture

The resources endowed by the nature to the country and the people are **called National Resources**, e.g., Mineral resources, rivers, forests and animals.

Agricultural lands hold key to development and prosperity of a country.

Mineral Resources:

Pakistan is blessed with considerable mineral resources.. Some important resources are:

- **Iron Ore** is used for industry, especially steel industry. It is found in limited quantity and low quality. Most of the required Iron ore is imported from abroad. Its deposits are **found in Chitral, Chaghai, Kohat, Kurram Agency, Mardan, Hazara, Mianwali (Kalabagh) and DG Khan**.
- **Chromite** is used in preparing other metals, leather tanning, making of steel products, armament and stainless steel. The deposits of Chromite are **found in Zoab**

(Muslim Bagh), Chaghai, Malakand, Mahmand, Waziristan, Fort Sandaman etc.

- **Gypsum** is used for **plaster of Paris, Paints and Cement**. It is found in **Jhelum, Mianwali, DG Khan, Kohat and Loralai**.

- **Sulphur** is used by chemical industry. Its deposits are **found in Kalat, Khairpur, Mardan, and Jacobabad** etc.

- **Coal** is used in power generation. It is basically used as fuel. It is not found in good quantity and quality. It is mostly **found in Sindh (Thatta, Tharparkar, Manara) Balochistan (Deegari, Sharig, Soer, Khost, Maach, Hernai), Punjab (Makarwal, Dandot), NWFP (Cherat and Noshera)**.

- **Oil:** It is a major source of energy. It is mostly imported **from Iran and Gulf states**. Now some valuable reserves are **found in Jhelum, Mianwali, Attock, Balkasar, Mial, Chakwal, and Dhodak**.

- **Gas:** it is itself a source of energy and fuel, and also used as a source of power generation. It is **found in Sui, Mari, Uch, Khairpur, Jacobabad** etc

- **Uranium:** It is the basic element for atomic power, indispensable for the defence. Its deposits are **in DG Khan, Hazara and Kohat**.

Rivers:

The river system of Pakistan is consisted of **Indus** and other associated rivers. We have a well-defined Canal system. The most important one is the **Indus Basin project**. **Water** is dangerous if it is too much, it become a problem if it is too little. It is used for Agriculture where it is the **backbone of agro-economy**. It is also a cheapest source of **hydroelectric Power generation**.

Forests:

Normally **25 percent** area of a country should be covered with forest. But in Pakistan it is **only 4 to 5 percent**. Some areas are not suitable for plantation like deserts and dry mountains. It is because **of shortage of water and rainfall**.

Deforestation is also due to **unplanned cutting of trees**.

Advantages of Forests:

Forests have **many advantages**. They are helpful in **improvement of weather**. **Protect against windstorms, help in slow melting of snow to stop floods**. They add greenery, beauty and fresh air to the environment.

Plants are source of food, medicine, timber, chemicals and fertilizers. They are the homes of animals, birds and insects. They are also used as fuel.

Animals:

Animals provide milk, meat, hide and skins, wool etc. They are also used for **agriculture and transportation**. They are a source of foreign exchange. Their proper breeding requires planning and care.

Animal husbandry and colleges of research are **established to breed and cure** useful species of animals.

Fisheries:

It is also a source of food and income. Department of fisheries also encourage private farmers to invest in this field and add to personal and national wealth.

2: Agriculture Pakistan is an agricultural country. More than **70 percent of its population lives in rural** areas. Over **50 percent are directly engaged** in farming or agro-based activities.

- Share of agriculture to GDP **is 26 percent**.

• **In Punjab and Sindh plains are very large.** There are **irrigated farmlands**.

- Two major crops are yielded in a year

(a) RABI: Sown in October-November and produce obtained in April-May. Important produces are Wheat, Gram, Oil seeds.

(b) KHARIF: Sown in May-June and produce is obtained in October-November. Important crops are Rice, Sugar Cane, Cotton etc.

- Main crops: Wheat, Rice, Cotton, Sugar Cane, Gram, Maize, Mustard, Tobacco, Oil seeds, Fruits and vegetables.

- Land Reforms are introduced from time to time by different governments:

in 1959, 1972, and 1977. The aim was to reduce land holding and to strengthen the position of tenants. It was done for improving yield per acre and poverty alleviation in agriculture field.

Problems in Agriculture:

There are number of problems in our agriculture, for instance:

- 1. Outdated modes** of cultivation, which cause low per acre yield.
- 2. Water Logging and Salinity.** Attention is being given to these since **mid 1960.**
- 3. Crop diseases are big problem.**
- 4. Water related problem,** sometimes it is too little, but sometimes it is too much. Cleaning of Canals is also necessary to provide water at the end of canal.
- 5. Credit facilities are also problematic.**
- 6. Access to market is difficult.**

7. Availability of reasonable price should be ensured for the **welfare of the farmers and high yield of crop.**

Agriculture and Development Plans:

- University education is developed in various parts of Pakistan especially in **Faisalabad and Jamshoro.** Emphasis is laid on modern technology in practical field.

- **Communication and transportation** facilities are increased.

Lecture 26

Industrial Development

1: Importance:

Industrialization is the key to economic development and overall prosperity. It is the **backbone of a strong and stable economy.** It is the basis of modernization and development of the state.

Industrialization helps the international standing of a **state.** It enhances trade and save foreign exchange. Industrialization brings self-reliance for a nation. It is also important for agriculture.

Agriculture provides raw materials and so input for industry **and output is the finished goods.**

Industrialization **improves the quality of life,** help in Poverty reduction, and provide employment facilities. Industrialization has close relevance with the **defence and security of the country.**

2: Historical Overview:

In 1947 Pakistan inherited very small industrial infrastructure. Only about **4 percent** of India's industry was there in areas of Pakistan. It was insufficient to meet the needs of the day-today life. **Initially sugar mills, biscuit factories, cigarettes factories, oil mill, cement units, match factory, steel rolling, and glass work factories were set up.**

Priorities set out in the early years:

1. Industry would be based on indigenous raw materials.
3. Private initiative to be encouraged.
5. Training and research facilities would be provided.
6. Industrial Development Board was formed in **1948**.

All Five Years Plans from 1955, 1960, 1965-70 paid greater emphasis on private sector and rapid industrialization. It added to aggregate economic growth.

Institutional Arrangements:

- **Pakistan Industrial Development Corporation (PIDC)** was established under a law in **1950**. Initially **15 industries** were identified.
- **(IDBP): Industrial Development Bank of Pakistan** was set up in **1961**. It provided loan facilities for industrial projects at concessional rates to **middle and small investors**.
- **PICIC: Pak Industrial Credit & Investment Corporation** was established to give loans and credit facilities, including foreign exchange facility, for setting up industry. It also **launched investment schemes**.
- **Investment Promotion Bureau, 1959** was formed for the **promotion of domestic and foreign investment** •

Other institutions like **ICP, NDFC, NIT** were established. **1959**

- **External financial and technical support** was provided both bilateral and multilateral by **World Bank, IMF, and Colombo Plan** etc.

Nationalisation of the Seventies:

New democratic government of **PPP** after assuming power adopted the policy of **nationalisation**.

Ten basic industries were nationalised. Initial euphoria ended and industrial output suffered. It also caused flight of capital from the country.

Since 1990s all the governments including that of PPP ***followed the policy of denationalisation and privatisation.***

Foreign Direct Investment (FDI) and investment from Pakistanis settled outside the country.

3: Major Industries:

- **Textiles:** It is major industry based on agriculture, heavy textile industry caters to domestic and external market. Major Centres are **Faisalabad, Multan, Lahore and Karachi.**

Woollen Cloth is manufactured in **Karachi, Lawrencepur, Harnai, Quaidabad, Multan and Bannu.**

- **Sugar:** Pakistan has made tremendous progress in this industry. It is a food item; agro based industry, located in **Sindh, Punjab** and Sindh.

- **Cement:** This industry has gone through major expansion. Over **20 factories** are established in the public and private sectors which cater to Pakistani needs. Still it is imported in limited quantity. Most of the sites are in **Dandot, Daud Khel, Wah, Rori and Karachi**.

- **Vegetable Ghee:** Cooking oil is a major food item. There is much expansion over the years both in private and public sectors.

Now we are self sufficient, although some raw material for making cooking oil is imported. About **60 units are in Sindh, Punjab and NWFP**.

- **Iron and Steel:** Steel Mill **near Karachi** was set up with the help of the former **Soviet Union**. The major problem was that of raw material. **The iron ore found in Pakistan is very poor in quality.** Steel rolling units and iron related factories exist in different parts of Pakistan.

- **Paper:** Major paper industry was in **East Pakistan**. Now this industry is located in **Noshera, Charsada, Gujranwala, Lahore, and Ghara**. Some quality paper has to be imported.

- **Machine, tools:** Heavy Mechanical Complex (HMC) Texla serve this purpose. **HMC was set up with Chinese cooperation.**

- **Defence Industry:** Wah Ordnance Complex is established for weapons and armaments. HMC is making Tank Rebuild Factory. Kamara Aircraft Rebuild factory overhaul F-6 and Mirage. It is also manufacturing Maashak, K-8.

- **Other Important Industry:** Fertilizer, Tobacco and cigarettes, Oil Refineries, Cars and Tractors production, Shipbuilding: **Karachi Shipyard, Ship breaking.**

- **Cottage Industry:** Industries established on **small scale**, involving a household or small number of people, use of limited. **Carpets, sports goods, toys, power or handlooms, handicraft** etc.

4: Future Directions: There is no escape from industrialization. It is a must for prosperity and development.

LECTURE 27

Education in Pakistan

The key to development for individual, society and state. **Education**

It shapes natural qualities and talents of the individuals. It has positive relevance to family and society. **Education**

It plays a more constructive role in character building of the person and in turn society as a whole. **Education**

Education should be integrated to nation building and should be able to transmit the primary values.

Education should be responsible for the formation of attitude. It should transmit socialization among individuals.

Education system is designed according to the ideology of the state and its identity.

Education is the indicator of socio-economic development.

2: Educational Issues:

What were/was introduced to enhance student enrolment.

Funding, facilities and free primary education

It made integral to development planning in all Five Year Plans and Yearly Plans.

Educational Issues

- **Education Commission** was established and new Education policies were introduced.

Problem of Resources:

Resource allocation for education is far from satisfactory. Fewer amounts are given for infrastructure, facilities of research and development.

Low Literacy:

In Pakistan literacy rate is **46** per cent. While meaningful literacy is far less. **Female** literacy is lower. **In rural areas** literacy is much low.

Enrolment and Retention:

Drop out at the primary and high school level is very high. Poverty and lack of **62** appreciation cause drop out. Not enough schools with proper facilities.

Number of schools exist on papers only i.e., **Ghost schools**.

Teachers related issues:

Shortage of qualified teachers at the **lower levels** is main cause of less interest of young students towards education.

Student-teacher ratio is very high in Pakistan. So the teacher cannot properly treat students.

Examination System:

Examination System remained a problematic issue in Pakistan.

Instead of comprehension and depth of knowledge emphasis is laid on test of **memory**. Some people work only at the end of the year and get good marks due to **flaw in the system**.

Politicization:

Student groups have political links with **outside groups**.

Political parties have their **sub units in educational institutions**, which result in use of violence and threats.

Kinds of Education:

Primary:

Class 1 to 5 years is **primary stage**. Mosque schools are also working on this level.

Middle Level: It is from class 6 to 8.

Secondary: It is from class 9 to 10.

Higher Secondary: It is from class 11 to 12.

Degree Level: It is a university level education for 2 or 3 years for the award of bachelor degree of Science/ Arts.

University, Post Graduate Level: M. A., M.Sc., M.Phil. and Ph. D.

Specialized diplomas and programs are also offered at this level.

Colleges are also teaching at Postgraduate level.

63 Professional: Professional educational fields are Medical, Dentistry, Engineering, Business and Commerce are Technical and professional degrees.

Adult Education:

For adults who could not get education in their early years adult education is introduced for them.

Distance Education:

People do not go to an institution but stay home and get education. It is a Flexible system in which Lectures and tutorial system are used through media.

Examples are:

• **Allama Iqbal Open University.** • **Virtual University:** TV and Internet.

Privatization of Education:

Schools (English medium), Colleges and Universities are introduced in private sector. Some of them are imparting some good quality education but very expensive.

Military Foundations:

• Medical and IT education • National University of Science and Technology • Bharia University • Air Force University

Concluding Remarks:

Education in Pakistan could **not play a proper role.**

Primary education should be universal and **women** education should be enhanced.

LECTURE 28

Taliban

Lecture 29

Pakistan and the Muslim World

Foundations:

The Muslims of the sub-continent have **deep-rooted** affiliation with the Islamic countries on the basis of **religion**.

Pan-Islamism and Islamic values were the strongest motives behind the demand of a separate Muslim state.

The love for Muslim brotherhood continued during and after the **independence**.

Support for Independence: Pakistan rendered full moral support for the independence of Indonesia, Tunis, Morocco, Algeria, Libya, Sudan and Eritrea.

Palestine: Pakistan, being a Muslim state, always sided with the national rights of the Palestinian people. It strongly supported the independent Palestinian state.

Organization of Islamic Conference is the **largest Muslim forum** in the world.

Pakistan was among the **51** Muslim nations which attended the inaugural session in **Rabat (1969)**.

The second OIC conference was held at **Lahore in 1974**.

The OIC always supported Pakistan on **Kashmir**.

RCD and ECO:

Pakistan, Iran and Turkey signed Regional Cooperation Development in **July 1964**.

RCD worked for economic development till **1985** when it was renamed as ECO.

Afghanistan and **five Central Asian Republics**, Azerbaijan, Turkmenistan, Uzbekistan, Tajikistan, Kyrgyzstan, Kazakhstan joined it.

Muslim World:

Pakistan has good relations with all the Muslim countries.

Saudi Arabia: Saudi Arabia being sacred country is a centre of the Muslim **'Ummah'**. Both the countries have conformity on major issues including Kashmir.

The Saudi cooperation for the OIC and wars with India is unprecedented.

UAE, Kuwait and other Gulf States: These countries and States have close and cordial relations with Pakistan.

The ruling families make official and personal visits. The new era of economic relations has set in after the **Gawadar port was built.**

Iran:

Iran is a neighboring state with **long historical and cultural ties.**

Iran was the first that **recognized Pakistan.**

Iran's King was also the **first head of state** who visited Pakistan.

Pakistan and Iran had joint arrangements in regard to CENTO, RCD, and ECO.

Pakistan welcomed the Iranian Revolution of February 1979.

In March 1997 President **Rafsanjani** and in December 2002, **Khatami** visited Pakistan.

Turkey:

Turkey is another country with a long history of close and cordial relations with Pakistan and great contribution in the multilateral arrangements of **CENTO, RCD, ECO**, etc.

Egypt:

Pakistan supported Egypt when it was attacked by Israel in **1956, 1967, 1973.**

The relations began to improve since 1967 and especially after the death of **Nasser in 1970.**

Libya: Col. Qaddafi has been a great **well wisher** and supporter of Pakistan. In American air raids in **1986**, Pakistan condemned American attack.

Jordan: Jordan is another example of cordiality. King Hussain had special regard for Pakistan. He supported us on India-Pakistan issues. King Abdullah continued with this tradition. Both have military relationship, trade and diplomatic exchanges.

Afghanistan: Afghanistan is a neighboring state. It sided with the **'Pakhtunistan'** issue and created problems for Pakistan. The Soviet military intervention in Afghanistan gave birth to the Mujahideen groups, Taliban **on Sept 11, 2001**. After Taliban, **Karzai government** took responsibility of Afghanistan's reconstruction.

Bangladesh: Pakistan had initially bitter relations but recognized it in **1974** that set in the normalization of relations. Both worked together in **SAARC, OIC.**
