EDU402:Quiz 2

Question # 10 of 10 (Start time: 10:26:57 PM, 06 De

Curriculum is supposed to?

Select correct option

☒	Achieve the objectives
☐	Be organized by the school
☐	Both
☐	None

The relationship of learning experience is termed as horizontal when it is from: one subject area to another subject in the same grade

A tendency to react even though the reaction does not actually take place is attitude

Objectives stated in the generalized pattern of behavior is linked with the area of life

Learning experience is: the interaction between student and conditions in environment to which one (subject) can react

Many learning experiences can be used to particular objective

Logical thinking involves: the arrangements of assumptions premises & conclusions

If the objectives are clear and provide guidance for future lesson plan it means they have both behavior and content aspect

Learning experience must enable students to gain satisfaction while learning desired behavior, as per objectives.

Thinking can be inductive, deductive and logical

LE should be appropriate to the student's present attainments and predisposition

Information in itself is of no value as an end

Two dimensional charts are useful to select learning experiences

Experiences provide a broad analysis of social situations to develop desired attitudes

Opportunity to practice, satisfying, desired reactions and range of possibility, multiplicity of learning experiences and multiplicity of outcomes are print selections of: learning experiences

Hypotheses are alternative solutions to a problem.

Discrete lessons create problems and vertical organization is impossible to attain.

There are four types of organization in curriculum development

Achieving integration is difficult if organizing structure is in specific pieces

Sequence goes one step ahead of continuity

Acquiring of information & learning to solve problem will lessen chances of rote memorization

Structural elements exist at three / 3 levels of organization

Many learning experiences can be used to attain a: particular objective

Experiences that meet the criteria for effective learning can be used for the achievement of desired objectives

Vertical organization demands courses to be organized over a period of years in larger units and a larger framework

logical organization is viewed by the experts in education

Thinking can be inductive, deductive and logical

Continuity, sequence and integration are the norms for organization

The curriculum does not need to provide a: Certain limited and prescribed set of learning experiences to ensure attainment of desired objectives

If the objectives are clear and provide guidance for future lesson plan it means they have both behavior and content aspect

Experience provides a broad analysis of social situations to develop desired attitudes

Learning experience must enable students to gain satisfaction while learning desired behaviour, as per objectives

While defining LEs to develop interest it should be ensured: Learning experiences are satisfying for the target group of student

Teaching efficiency and degree to which changes are brought about among learners is affected by the organization of: learning experiences

1. School based activities-----Co-Curricular Curriculum

2. gathering information and knowledge is-----scientific investigation

3. Perennialism -----is based on the belief that some ideas have lasted over centuries and are as relevant today as when they were first conceived.

4. Essentialism means-----Basics

5. curriculum development process-----Design implementation n evaluation. correct is ALL.

6. elements are exercised by the people by choice. Alternatives

7. Cultural Core -----consists of central body of elements, i.e., Universals & Specialties.

8. Students are absent from the school lack of: lack of interest inadequate teachers.
