

BT605 Final term Past Papers

Final term

What are the precautions made in BSL2 as compared to BSL1. 2

Write biosafety measurements in TB lab? 2

Define Biosecurity? 3

Physical Security elements? 3

Equipment used in BSL3, write 5 points 5

How risk can be reduced through risk management? 5

Write note on special practice in BSL2. 10

Discuss malicious risk groups and Its Types? 10

BT605

Biosecurity?

BSL3?

BSL4?

Risk management?

Measures required for TB lab?

Mcqbslwalaytop!cz m kaf! Thay

Bt605

Biosecurity 3

Biosecurity plan 3

Biohazard is classified into four elements name them write their categories, name their substance
5

Bioweapons? And their threats and how they migrate 10

How immunization can be provided to fight against pathogens. 5

Name the things for protection in first aid kit

Name lab safety things 2

VU ZOOLOGISTS

Bt605

Almost 13 mcqs was from mid .other were from final slybus

Cybernetics (2)

Applications of biosafety rule?

Biosecurity?

Biosecurity plan?

How can immune the workers?

Elements of act?

Functions of technical adversary committee? 5

First aid equipments? 5

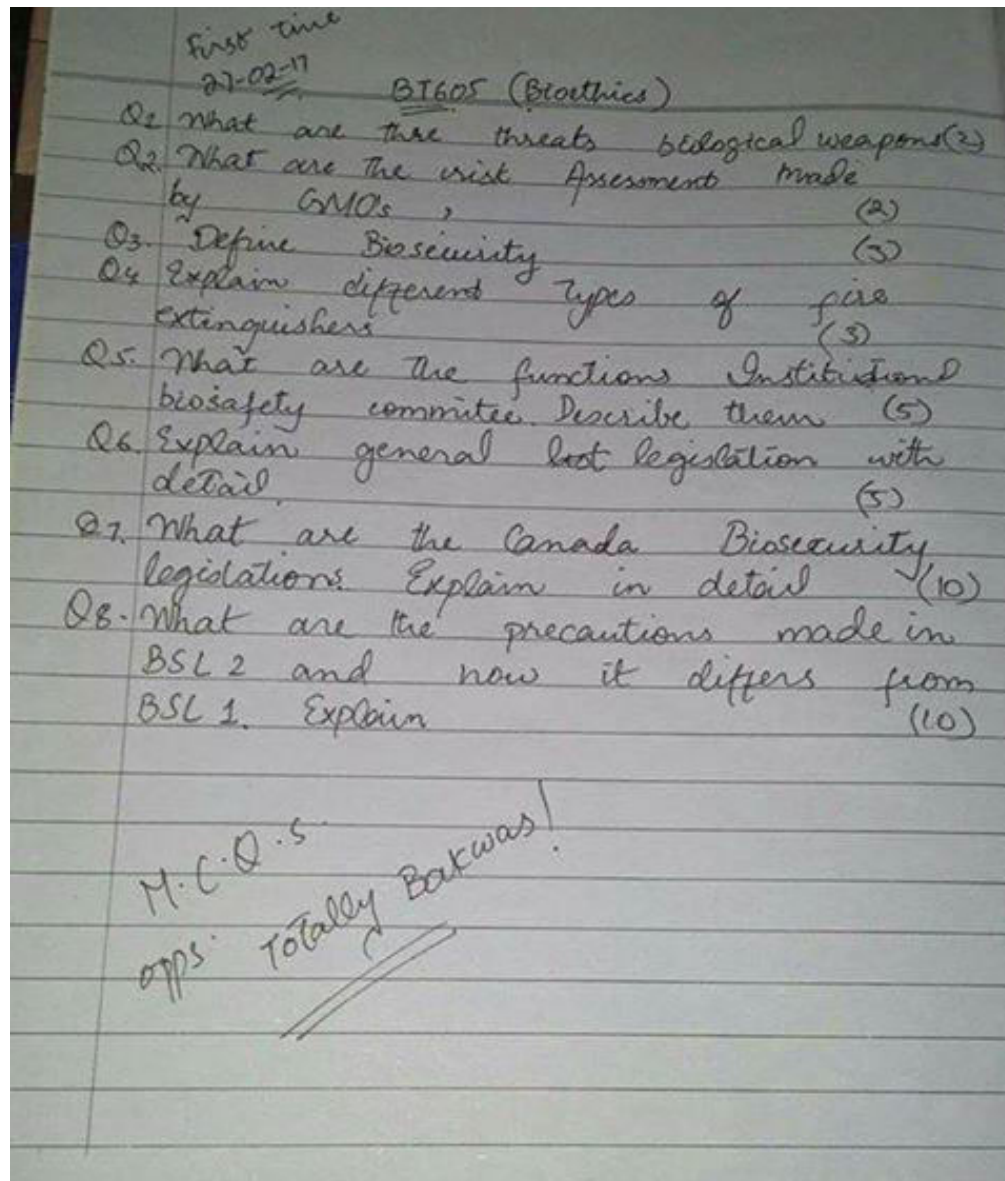

Bioweapons, its threats, and how can limit these threats?(10)

Bio safety?

Bsl2 precautions what you know about risk management?

Included in bsl4 what safety measure required for TB lab.

VU ZOOLOGISTS

BT605

Discuss transport security element.

Write some activities of bio safety officer.

Biosecurity?

BSL4?

Risk management?

Measure required for TB lab?

VU ZOOLOGISTS

Eutrophication

BT605-Biosafety & Bioethics (15-08-2017)

Total Q 45 36 Mcqs 5 short Q (2 and 3 marks)

1. Define biosafety?
2. Functions of physical security?
3. What are surveillance elements?
4. Duties of technical committee?
5. Immunization against pathogens?

Long Q 4 (5 and 10 marks)

1. What are bio weapons, discuss its threats? (10)
2. What are malicious risk groups, explain it? (10)
3. Test tube baby? (5)
4. Explain biosafety rules and management? (5)

BT605

1. Define biosecurity?
2. Physical security?

Long Q 4 (5 and 10 marks)

1. What are bio weapons, discuss its threats? 5
 2. What are malicious risk groups, explain it? 5
- How risk can be reduced through risk management? 5
3. What are surveillance elements?
 4. Duties of technical committee?

Bt 605 final

Malicious risk group 5marks

Bioweapons and threat 5marks

VU ZOOLOGISTS

Function of technical advisory 5 marks

How risk reduce through risk management Surveillance element Immunizations of staff against pathogens

Define biosecurity Biosafety rules

BT605-Biosafety & Bioethics (16-08-2017)

Total Q 45 36 Mcqs 5 short Q (2 and 3 marks)

1. Define biosecurity?
2. Physical security?
3. What are surveillance elements?
4. Duties of technical committee?
5. Immunization of staff against pathogens?

Long Q 4 (5 and 10 marks)

1. What are bio weapons, discuss its threats? 5
2. What are malicious risk groups, explain it? 5

How risk can be reduced through risk management? 5

Bt605

Biosecurity 3

Biosecurity plan 3

Biohazard is classified into four elements name them write their categories and name their substance 5

Bioweapons? And their threats and how they migrate 10

How immunization can be provided to fight against pathogens. 5

Name the things for protection in first aid kit

Name lab safety things 2

Bt605

Define biosecurity?

Genetic modification

Write down Biosecurity plans

How to immunize the staff from pathogens

Write protective equipments in first aid? 5

VU ZOOLOGISTS

WHO classification of pathogens. 5

Bioweapons? discuss various bio threats and discuss each. 10
