

ENG514

Module 21: Listening Assessment

1. **Listening Comprehension:** Understanding spoken language by interpreting auditory input and constructing meaning.
2. **Receptive Listening:** Listening for understanding and decoding messages.
3. **Constructive Listening:** Combining prior knowledge with auditory information to construct meaning.
4. **Interactive Listening:** Engaging in dialogue to process and understand information.
5. **Transformative Listening:** Adapting knowledge or perspectives after listening.
6. **Validity in Assessment:** Ensuring tests measure what they claim to assess.
7. **Criterion-Referenced Assessment:** Judging performance based on pre-defined criteria.
8. **Construct-Referenced Assessment:** Evaluating deeper traits or abilities, such as critical listening skills.

Module 22: Listening Activities

9. **Pre-Listening Activities:** Tasks that prepare learners for a listening session by activating prior knowledge.
10. **Post-Listening Activities:** Activities conducted after listening to reinforce understanding or application.
11. **Authentic Listening:** Engaging with real-world audio materials to build practical listening skills.
12. **Metacognitive Activities:** Tasks that encourage learners to think about their listening processes and strategies.

Module 23: Speaking Overview

13. **Transactional Speaking:** Communication aimed at transferring information.
14. **Interactional Speaking:** Conversations focused on maintaining social relationships.
15. **Monologue:** An uninterrupted oral presentation.
16. **Dialogue:** Interaction between two or more speakers.
17. **Speaking Mechanics:** Elements like pronunciation, grammar, and vocabulary.
18. **Pragmatics in Speaking:** Social and cultural norms governing verbal interactions.

Module 24: Teaching Speaking

19. **Fluency:** The ability to speak smoothly and effortlessly.
20. **Accuracy:** Using correct language forms during speaking.
21. **Speech Rate:** The speed at which words are spoken.

- 22. **Backchannelling:** Providing feedback during a conversation through verbal cues like “uh-huh” or “I see.”
- 23. **Turn-Taking:** The organized exchange of speaking roles in a conversation.
- 24. **Role-Plays:** Simulated interactions to practice speaking skills.

Module 25: Interactive Listening Tasks

- 25. **Interactive Listening:** Engaging with speakers through questions and responses.
- 26. **Transactional Talk:** Focusing on obtaining or giving specific information.
- 27. **Information Gap Tasks:** Activities where participants exchange information to complete a task.
- 28. **Social Solidarity:** Building connections through interactive communication.

Module 26: Intensive Listening

- 29. **Dictation:** Writing down exactly what is heard.
- 30. **Shadowing:** Repeating spoken language immediately after hearing it.
- 31. **Error Spotting:** Identifying mistakes in spoken language.
- 32. **Grammar Processing:** Analyzing spoken language for grammatical structures.

Module 27: Extensive Listening

- 33. **Autonomous Listening:** Independent listening without instructor guidance.
- 34. **Extensive Listening:** Listening for meaning over long periods.
- 35. **Podcasting:** Using digital audio files for listening practice.
- 36. **Oral Computer-Mediated Communication (CMC):** Real-time audio or video communication.

Module 28: Metacognition in Listening

- 37. **Metacognition:** Thinking about one’s cognitive processes.
- 38. **Person Knowledge:** Understanding personal strengths and weaknesses as a listener.
- 39. **Task Knowledge:** Recognizing the challenges of specific listening tasks.
- 40. **Strategy Knowledge:** Knowing effective listening strategies for comprehension.
- 41. **Self-Regulation:** Managing one’s learning processes effectively.

Module 29: Formal Speaking

- 42. **Formal Talk:** Structured speaking aimed at delivering information to an audience.
- 43. **Presentation Skills:** Techniques for delivering clear and engaging talks.
- 44. **Debate:** A formal discussion on opposing viewpoints.
- 45. **Audience Engagement:** Capturing and maintaining the attention of listeners.

Module 30: Language-Focused Learning

- 46. **Explicit Grammar Teaching:** Providing direct explanations of grammatical rules.

- 47. **Collocation:** Common word pairings like “take a break.”
- 48. **Keyword Strategy:** Using mnemonic devices to remember vocabulary.
- 49. **Word Family:** Related words sharing a root, like “teach, teacher, teaching.”
- 50. **Elaborative Encoding:** Connecting new information with existing knowledge for better recall.

Module 31: Advanced Listening Skills

- 51. **Inference:** Drawing conclusions based on incomplete information.
- 52. **Prediction:** Anticipating what will be heard next.
- 53. **Clarification Requests:** Asking for repetition or explanation.
- 54. **Monitoring:** Assessing comprehension during listening.

Module 32: Pronunciation

- 55. **Phonemes:** The smallest units of sound in a language.
- 56. **Intonation:** The rise and fall of voice pitch during speech.
- 57. **Stress Patterns:** Emphasis placed on certain syllables or words.
- 58. **Articulatory Settings:** The position of speech organs during sound production.

Module 33: Vocabulary Development

- 59. **Semantic Networks:** Connections between words based on meaning.
- 60. **Context Clues:** Hints from surrounding text to deduce word meaning.
- 61. **Lexical Bundles:** Common sequences of words.
- 62. **Corpus-Based Learning:** Using language databases to study vocabulary usage.

Module 34: Pragmatics in Language Use

- 63. **Speech Acts:** Functions of language, such as requesting or apologizing.
- 64. **Politeness Strategies:** Language choices to maintain social harmony.
- 65. **Deixis:** Words like “this” or “that” whose meanings depend on context.

Module 35: Listening Technologies

- 66. **Multimedia Tools:** Digital resources like videos and apps for language learning.
- 67. **Subtitles:** Written text accompanying spoken audio.
- 68. **Interactive Software:** Programs that adapt to user input for personalized learning.
- 69. **Audio Books:** Narrated texts for listening practice.

Module 36: Speaking Technologies

- 70. **Speech Recognition:** Software analyzing spoken language.
- 71. **Voice Typing:** Converting speech into written text.
- 72. **Pronunciation Apps:** Digital tools for improving articulation.

Module 37: Researching Listening

- 73. **Listening Strategies:** Techniques for effective auditory comprehension.
- 74. **Experimental Studies:** Research investigating listening processes.
- 75. **Case Studies:** In-depth exploration of individual or group listening behaviors.

Module 38: Challenges in Listening

- 76. **Cognitive Load:** The mental effort required to process information.
- 77. **Working Memory:** Temporary storage for managing tasks.
- 78. **Acoustic Variability:** Differences in speech sounds.
- 79. **Cross-Linguistic Influence:** Effects of a learner's first language on listening in another language.

Module 39: Fluency Development

- 80. **Automatization:** Developing automatic responses through practice.
- 81. **Chunking:** Grouping information into meaningful units.
- 82. **Shadow Reading:** Reading aloud simultaneously with a recording.

Module 40: Assessment Tools

- 83. **Rubrics:** Scoring guides for evaluating performance.
- 84. **Portfolio Assessment:** Collecting work samples over time.
- 85. **Diagnostic Tests:** Identifying strengths and weaknesses in skills.

Module 41: Classroom Interactions

- 86. **Pair Work:** Two learners collaborating on tasks.
- 87. **Group Discussions:** Conversations among multiple participants.
- 88. **Feedback Loops:** Providing responses to learners' performance.

Module 42: Professional Development

- 89. **Peer Observation:** Teachers observing and learning from each other.
- 90. **Workshops:** Sessions for skill development.
- 91. **Mentoring:** Guidance provided by experienced educators.

Module 43: Spoken Grammar

- 92. **Ellipsis:** Omitting words for brevity.
- 93. **Hedges:** Words like "maybe" or "perhaps" to soften statements.
- 94. **Discourse Markers:** Words like "well" or "so" to organize speech.

Module 44: Research Methods

- 95. **Qualitative Research:** Exploring behaviors and experiences.
- 96. **Quantitative Research:** Analyzing numerical data.
- 97. **Mixed-Methods:** Combining qualitative and quantitative approaches.

Module 45: Future Directions

- 98. **World Englishes:** Varieties of English used globally.
- 99. **Lingua Franca:** A common language for speakers of different native languages.
- 100. **Artificial Intelligence:** Integrating AI into language learning tools.
