CS201

Midterm important questions 2024

VU360

Lecture 1-5:

1. What is the definition of programming and its importance?
2. What are the main features of C programming language?
3. What is the difference between high-level and low-level programming languages?
4. How do you write a basic C program using Dev-C++?
5. What are the basic data types in C programming language?

Lecture 6-10:

6. What is the concept of variables and data types in C?
7. How do you declare and initialize variables in C?
8. What are the different types of operators in C (arithmetic, comparison, logical, etc.)?
9. How do you use control structures (if-else, switch, loops) in C?
10. What is the concept of functions in C programming?

Lecture 11-15:

11. How do you pass parameters to functions in C?
12. What is the difference between call by value and call by reference in C?
13. How do you use arrays in C programming?
14. What is the concept of pointers in C programming?
15. How do you use pointers to access memory locations in C?

Lecture 16-20:

16. What is the concept of structures in C programming?
17. How do you declare and access structure members in C?
18. What is the concept of unions in C programming?
19. How do you use enumerations in C programming?

https://chat.whatsapp.com/F5zhJtf5yL4RjDODz1fL

20. What is the concept of file input/output in C programming?

Lecture 21-22:

21. How do you read and write files in C programming?

22. What is the concept of exception handling in C programming?
