CS201 - Introduction to Programming (Quiz 4)

Question # 4 of 10 (Start time: 02:19:41 PM, 07 July 2025)

Friend functions are _____.

Select the correct option

○	bidirectional
◉	unidirectional
○	public
○	private

CS201 - Introduction to Programming (Quiz 4)

Question # 3 of 10 (Start time: 02:19:26 PM, 07 July 2025)

The statement cin.get (); is used to_____.

Select the correct option

○	Read a String from file
○	Read a string from keyboard
○	Read a character from file
●	Read a character from the keyboard

CS201 - Introduction to Programming (Quiz 4)

Question # 2 of 10 (Start time: 02:15:25 PM, 07 July 2025)

*this is a pointer that always points to

Select the correct option

○	A Value of data member
○	Current function of the class
●	Current object of the class
○	Current pointer of the class

CS201 - Introduction to Programming (Quiz 4)

Question # 6 of 10 (Start time: 02:20:23 PM, 07 July 2025)

Which of the following is normally a source for cin stream?

Select the correct option

○	Variable
○	Constant
●	Keyboard
○	Printer

CS201 - Introduction to Programming (Quiz 4)

Question # 7 of 10 (Start time: 02:17:17 PM, 07 July 2025)

Which of the following is normally a source for cin stream?

Select the correct option

●	Keyboard
○	Variable
○	Printer
○	Constant

CS201 - Introduction to Programming (Quiz 4)

Question # 3 of 10 (Start time: 02:15:43 PM, 07 July 2025)

Friend function declaration can go _____ the class

Select the correct option

○	only outside
◉	anywhere in
○	only within
○	in the member function of

CS201 - Introduction to Programming (Quiz 4)

Question # 10 of 10 (Start time: 02:18:17 PM, 07 July 2025)

Overloaded assignment operator must be

Select the correct option

○	Non-member function of class
●	Member function of class
○	Global function
○	Friend function of class

CS201 - Introduction to Programming (Quiz 4)

Question # 4 of 10 (Start time: 02:16:01 PM, 07 July 2025)

The concept of _____ allows us to separate the interface from the implementation of the class.

Select the correct option

○	polymorphism
◉	encapsulation
○	inheritance
○	pointers

CS201 - Introduction to Programming (Quiz 4)

Question # 6 of 10 (Start time: 02:16:38 PM, 07 July 2025)

Once an object is declared as a friend, _____.

Select the correct option

○	it has access to public members only
●	it has access to all non-public members as if they were public
○	it has access to protected data members only
○	it has no access to data members of the class

CS201 - Introduction to Programming (Quiz 4)

Question # 7 of 10 (Start time: 02:20:36 PM, 07 July 2025)

If text is a pointer of type String then what will be the functionality of following statement?

```
text = new String [5];
```

Select the correct option

○	Creates a string Object
◉	Creates array of 5 objects dynamically
○	Creates array of 5 objects statically
○	Creates array of pointers to string

CS201 - Introduction to Programming (Quiz 4)

Question # 2 of 10 (Start time: 02:19:12 PM, 07 July 2025)

Which one of the following is the correct statement about operator overloading?

Select the correct option

○	N-arithmetic operators can be overloaded only.
○	Arithmetic operators can be overloaded only.
○	Precedence of operators are changed after overloading.
●	Associativity and precedence of operators do not change.

CS201 - Introduction to Programming (Quiz 4)

Question # 1 of 10 (Start time: 02:19:00 PM, 07 July 2025)

When an operator function is defined as member function for a Unary operator then the number of extra arguments it takes is/are,

Select the correct option

○	One
○	Two
○	N arguments
◉	Zero

CS201 - Introduction to Programming (Quiz 4)

Question # 8 of 10 (Start time: 02:20:50 PM, 07 July 2025)

What is the difference between cout and cerr?

Select the correct option

○	cout is standard output and cerr is not a standard output
○	cout is unbuffered output and cerr is buffered output
◉	cout is buffered output and cerr is unbuffered output
○	cout is not a standard output and cerr is standard output

CS201 - Introduction to Programming (Quiz 4)

Question # 1 of 10 (Start time: 02:15:06 PM, 07 July 2025)

When we used eof (end of file) with the file reading than which of the following is a true statement?

Select the correct option

◉	This is way to check state of the stream
○	This is way to check source of the stream
○	This is way to check type of the stream
○	This is way to check destination of the stream

CS201 - Introduction to Programming (Quiz 4)

Question # 5 of 10 (Start time: 02:16:18 PM, 07 July 2025)

What is the function of the following statement to delete an array of 5 objects named 'arr' allocated using new operator?

delete arr ;

Select the correct option

○	Do not delete any object
●	Deletes only one object of array
○	Results into syntax error
○	Deletes all the objects of array

CS201 - Introduction to Programming (Quiz 4)

Question # 9 of 10 (Start time: 02:21:27 PM, 07 July 2025)

In overloading the assignment (=) operator, which object will be passed as an argument(s) in the operator function?

Select the correct option

○	Both objects will be passed
●	Right object of the assignment operator
○	No objects will be passed
○	Left object of the assignment operator

CS201 - Introduction to Programming (Quiz 4)

Question # 9 of 10 (Start time: 02:17:55 PM, 07 July 2025)

Which one of the following is the declaration of overloaded pre-increment operator implemented as member function?

Select the correct option

○	Class-name operator +() ;
●	Class-name operator ++();
○	Class-name operator ++(int) ;
○	Class-name operator +(int) ;

CS201 - Introduction to Programming (Quiz 4)

Question # 5 of 10 (Start time: 02:19:58 PM, 07 July 2025)

When we use cin stream to read some number from the keyboard and store it in the integer variable, then what will happen?

Select the correct option

○	Its ASCII code will be stored inside the computer
○	Some error will occur and cin stream will detect this error.
○	Its binary representation will be ignored and the character will be stored
●	Its binary representation will be ignored and the value will be stored

CS201 - Introduction to Programming (Quiz 4)

Question # 10 of 10 (Start time: 02:22:31 PM, 07 July 2025)

A friend function of a class is a function defined _____.

Select the correct option

○	outside that class and that has the right to access protected members of the class only.
○	outside that class and that has the right to access public members of the class only
○	inside that class and that has no access to the members of the class
●	outside that class and that has the right to access all members of the class.

CS201 - Introduction to Programming (Quiz 4) **Quiz Start Time: 02:15 PM**

Question # 8 of 10 (Start time: 02:17:40 PM, 07 July 2025)

Suppose we have a data member **buf** of our **String** class and we like to refer it in a member function of the same class, then choose which option is incorrect?

Select the correct option

Reload Mc

●	(*this).buf
○	buf
○	this -> buf
○	this.(*buf)
