

EDU431

Mid-Term (Solved)

ABSTRACT

This comprehensive collection of notes is accurately crafted to empower students to excel academically, ensuring they achieve a minimum of 80% marks in their examinations. The content is organized with clarity and precision, focusing on key concepts, critical analyses, and practical applications tailored to the syllabus. These notes serve as a reliable resource for both thorough preparation and last-minute revision. Designed to inspire confidence and mastery, this guide is an essential tool for students striving for academic excellence.

Maha Malik
Test Development & Evaluation

EDU431_Test Development & Evaluation
Mid-Term (Solved)

1. Measurement, Assessment & Evaluation

- **Measurement**: "process by which the attributes or dimensions of some object (both physical and abstract) are quantified… tool used for measuring student abilities and then converts it in numerical form."
- **Assessment**: "appraisal of something to improve quality of teaching and learning process for deciding what more can be done to improve the teaching, learning and outcomes."
- **Evaluation**: "process of making a value judgment against intended learning outcomes and behavior, to decide quality and extent of learning."

Relationship: "Assessment and Evaluation don't exist in hierarchy; they both are parallel and different in purpose. Measurement is the source to move towards assessment and evaluation."

---

2. Classroom Assessment

Definition: "process of gathering, recording, interpreting, using and communicating information about a child's progress and achievement during the development of knowledge, concepts, skills and attitudes."

---

3. Classification of Classroom Assessment

a. Nature

- Maximum Performance
- Typical Performance

b. Format

- Fixed Choice
- Complex Performance

c. Use in Instruction

- Placement
- Diagnostic
- Formative
- Summative

d. Method of Interpreting Results

- Norm-Referenced
- Criterion-Referenced

---

4. Types of Assessment (By Nature)

Maximum Performance

"determines what individual can do when performing at their best… includes Aptitude tests and Achievement tests."

Typical Performance

"determines what individual will do under natural conditions… includes attitude, Interest and personality inventories, observational techniques, peer appraisal."

---

5. Types of Assessment (By Format)

Fixed Choice Assessment

"used to measure the skills of people efficiently… includes MCQs, matching, fill in the blanks, true/false."

Complex Performance Assessment

"measurement of performance in contexts… includes hands on experiments, projects, essays, oral presentations."

---

6. Use in Classroom Instruction

Placement Assessment

"determines prerequisite skills, degree of mastery… associated with entry level performance… determines the level of student knowledge at the beginning… helps teacher plan accordingly."

Diagnostic Assessment

"determines causes (intellectual, physical, emotional, environmental) of persistent learning difficulties."

Formative Assessment

"determines learning progress, provides feedback to reinforce learning, and correct learning errors… ongoing process to modify teaching strategies."

Summative Assessment

Not fully defined in extract; based on core knowledge:
Used at end of learning to certify achievement & assign grades.

---

7. Method of Interpretation

Norm-Referenced Assessment (NRT)

"includes items with average difficulty and high discriminating power… easy to declare relative positions of students."

Criterion Referenced Assessment (CRT)

"describes student performance according to a specific domain… compare performance not with other students but with criteria."

---

8. National Curriculum Hierarchy

1. **Competency**
2. **Standards**
3. **Benchmarks**
4. **SLOs** (lowest level)

---

9. Modes of Assessment in Curriculum

- Formative: quizzes, class tests, homework
- Summative: final examination

---

10. Taxonomies

SOLO

Levels: Pre-structural, Uni-structural, Multi-structural, Relational, Extended Abstract

DOK

1. Recall
2. Skill/Concept
3. Strategic Thinking
4. Extended Thinking

Bloom (Old)

Knowledge, Comprehension, Application, Analysis, Synthesis, Evaluation

Bloom (Revised)

Remembering, Understanding, Applying, Analyzing, Evaluating, Creating

---

11. Instructional Objectives

General Objectives

"should be specific enough to provide direction… but not so specific that instruction is reduced to training."

Specific Objectives

"define general objective by sample of specific learning outcome… begin each with observable action verb."

---

12. MCQs Characteristics

"most widely applicable… measure knowledge, comprehension and application level outcomes."
Consist of **stem + alternatives (1 correct + distractors).**

---

13. Test Assembly & Administration

Administration Concerns

Cheating, Poor conditions, Test anxiety, Scoring errors.

Good Practice

"maintaining positive test-taking attitude, clarifying rules, minimizing distractions, giving time warnings."

Packaging the test

- Group same format items
- Easy to hard
- Same page options
- Space & formatting
- Randomness of key

---

14. Guessing

- **Blind Guessing**: random ◊ among alternatives
- **Informed Guessing**: draws upon knowledge to select best answer

---

15. High Stakes Testing

Concerns

"same issues as classroom test but larger impact."

Recommendations

- Avoid decisions on single test
- Alignment with curriculum
- Valid scoring
- Language support
- Disability accommodation

---

16. Institutions Involved

Maha Malik's Compilation

- NEAS
- PEAC
- BISEs
- Examination Commissions
