380+mcqs

Divided into 2 Parts

Part 2

190+mcqs

CamScanner

190+mcqs

191. What is the definition of population growth?

A) The increase in the number of individuals in a population

B) The decrease in the number of individuals in a population

C) The migration of individuals from one area to another

D) The change in the distribution of resources in a population

Recorded with iTop Screen Recorder

Correct Answer: A) The increase in the number of individuals in a population

192. What is the population growth rate?

A) The rate at which individuals die in a population

B) The rate at which individuals migrate to another area

C) The rate at which the number of individuals in a population decreases

D) The rate at which the number of individuals in a population increases in a given time

CamScanner

193. During which period did the human population grow very slowly, taking tens of thousands of years to double?

A) Pre-agricultural period

B) Agricultural period

C) Industrial period

D) Technological period

Correct Answer: A) Pre-agricultural period

Recorded with iFun Screen Recorder

194. Which factor contributed to the rapid increase in human population during the agricultural period?

A) Advances in medical technology

B) Advances in transportation

C) Advances in agriculture and domestication of plants and animals

D) Advances in industrial technology

CamScanner

Correct Answer: C) Industrial period

196. What is the primary reason for the majority of world population growth occurring in less developed countries?

A) Higher birth rates

B) Higher death rates

C) Higher literacy rates

Recorded with iTop Screen Recorder

CamScanner

197. What is the doubling time of a population?

A) The time required for the population to decrease by half

B) The time required for the population to reach a stable size

C) The time required for the population to become triple

D) The time required for the population to double

Correct Answer: D) The time required for the population to double

198. What is the main factor that differentiates linear growth rate from exponential growth rate?

A) Uniform growth rate in linear growth

B) Inclusion of profit in linear growth

C) Uniform growth rate in exponential growth

D) Inclusion of profit in exponential growth

Correct Answer: B) Inclusion of profit in linear growth

199. What was the highest recorded annual number of births in the

Top Screen Recorder

CamScanner

199. What was the highest recorded annual number of births in the late 1980s?

A) 130 million\

B) 135 million\

C) 139 million (Correct Answer)\

D) 142 million

200. What is the expected annual birth rate in the world population as of 2011?

Recorded with iTop Screen Recorder

A) 1.89%\

B) 0.79%\

C) 1.096%\

CamScanner

D) 142 million

200. What is the expected annual birth rate in the world population as of 2011?

A) 1.89%\

B) 0.79%\

C) 1.096%\

Recorded with iTop Screen Recorder

CamScanner

D) 2.05%

201. What term is used to describe the number of deaths per year in the world population?

A) 80 million\

B) 56 million (Correct Answer)\

C) 60 million\

D) 72 million

Recorded with iTop Screen Recorder

202. What is the definition of the crude birth rate?

A) The number of male births\

B) The number of female births\

C) The total number of births divided by total population, multiplied by 1000 (Correct Answer)\

D) The number of births in developed countries

CamScanner

B) The number of female births\

C) The total number of births divided by total population, multiplied by 1000 (Correct Answer)\

D) The number of births in developed countries

203. The total fertility rate (TFR) refers to:

A) The average age at which women give birth\

B) The number of children born to a woman over her lifetime (Correct Answer)\

C) The number of children born per year in a country\

D) The number of children born to a man over his lifetime

204. What is the infant mortality rate (IMR)?

A) The number of deaths of infants under five years old per 1000 live births\

B) The number of deaths of infants under one year old per 1000 live births (Correct Answer)\

C) The number of children born to a woman over her lifetime\

Recorded with iTop Screen Recorder

CamScanner

C) The number of children born to a woman over her lifetime\

D) The number of children born to a man over his lifetime

205. How does the infant mortality rate (IMR) reflect a country's health level?

A) It indicates the average age at which children die\

CamScanner

B) It is unrelated to a country's health status\

C) It serves as an indicator of a country's health level (Correct Answer)\

D) It only affects developed countries

206. What does the term "population structure" refer to?

A) The number of births in a population\

B) The average age of a population\

C) The makeup of a population in terms of age, gender, and other properties (Correct Answer)\

Recorded with iTop Screen Recorder

D) The total fertility rate of a population

207. What does the composition of a population include?

A) Only age and gender\

B) Only marital status\

C) Only educational level\

D) Age, gender, marital status, and education (Correct Answer)

CamScanner

B) Only marital status\

C) Only educational level\

D) Age, gender, marital status, and education (Correct Answer)

208. How does the population structure of developed countries generally differ from that of developing countries?

A) Developed countries have a higher male-female ratio\

B) Developing countries have a higher male-female ratio\

C) Developed countries have a more balanced age distribution (Correct Answer)\

D) Developing countries have a higher infant mortality rate

209. What is migration in the context of human movement?

A) The movement of animals\

B) The movement of goods\

C) The movement of people from one place to another for permanent or semi-permanent residence (Correct Answer)\

VU UNIQUE ARTICLE

CamScanner

210. What does internal migration refer to?

A) Movement of people out of political borders\

B) Movement of people from rural to urban areas\

C) Movement of people across countries\

Recorded with iTop Screen Recorder

D) Movement of people across continents

211. What is external migration?

A) Movement of people within the same city\

B) Movement of people within the same country\

C) Movement of people from rural to urban areas\

D) Movement of people out of political borders (Correct Answer)

CamScanner

B) Movement of people within the same country\

C) Movement of people from rural to urban areas\

D) Movement of people out of political borders (Correct Answer)

212. What characterizes forced migration?

A) People move willingly for better opportunities\

B) People are compelled to leave their homeland due to various factors (Correct Answer)\

C) People move due to better living standards\

D) People move temporarily for work purposes

213. What is voluntary migration?

A) People move due to severe weather conditions\

B) People move within the same country\

C) People move willingly for better life opportunities (Correct Answer)\

D) People move across political boundaries

Recorded with Top Screen Recorder
VU UNIQUE ARTICLE
CamScanner

D) People move across political boundaries

214. What does urbanization involve?

A) Movement of people from urban to rural areas\

B) Movement of goods within cities\

C) Population shift from rural to urban areas (Correct Answer)\

D) Formation of rural communities

Recorded with iTop Screen Recorder

CamScanner

215. What percentage of the world's population lived in cities in 1800?

A) 3%\

B) 25%\

C) 47%\

D) 90%

Recorded with iTop Screen Recorder

216. By the year 2050, what proportion of the world's population is projected to live in urban areas?

A) 25%\

B) 50.5%\

C) 70%\

D) 90%

217. What is the primary factor that drives urbanization?

CamScanner

D) 90%

217. What is the primary factor that drives urbanization?

A) Movement of animals\

B) Economic development\

C) Centralized agricultural practices\

D) More people living and working in central areas (Correct Answer)

218. Which term refers to the movement of people from rural areas to urban areas for the purpose of seeking better living standards?

A) Internal migration\

B) External migration\

C) Voluntary migration\

D) Urbanization

219. What does the term "settlement" refer to in geography?

CamScanner

D) A farming area

220. Which of the following settlements is the smallest and consists of just a few houses?

A) Villages\

B) Towns\

C) Cities\

Recorded with iTop Screen Recorder

D) Hamlets (Correct Answer)

221. What characterizes villages as settlements?

A) Thousands of people live in them\

B) They have shopping centers and factories\

C) They have a few shops, a place of worship, and maybe a school (Correct Answer)\

D) They have a cathedral and lots of services

CamScanner

B) They have shopping centers and factories\

C) They have a few shops, a place of worship, and maybe a school (Correct Answer)\

D) They have a cathedral and lots of services

222. What is a megacity?

A) A small village with less than 100 people\

B) A large settlement with a population of around 1 million\

Recorded with iTop Screen Recorder

C) A metropolitan area with a population over 10 million (Correct Answer)\

D) A medium-sized city with advanced industries

223. How is a conurbation defined?

A) A rural area with scattered houses\

B) A single metropolitan area with a population of over 10 million\

C) A region with merged cities and urban areas due to population growth (Correct Answer)\

CamScanner

B) Absence of shops\

C) Few houses and possibly without a shop (Correct Answer)\

D) Large population

225. What services are typically found in villages?

A) Factories and offices\

B) Shopping centers and schools\

C) Cathedrals and hotels\

D) A few shops, a place of worship, and maybe a school (Correct Answer)

226. What is a conurbation in terms of urban development?

A) A single large city\

B) A rural area with scattered housing\

C) An urban area with merged cities and towns (Correct Answer)\

D) A small town with a centralized market

227. Which of the following has a total population exceeding 30 million

Recorded with iTop Screen Recorder

CamScanner

B) A rural area with scattered housing\

C) An urban area with merged cities and towns (Correct Answer)\

D) A small town with a centralized market

227. Which of the following has a total population exceeding 30 million inhabitants?

A) Hamlet\

B) Village\

C) Town\

D) Megacity (Correct Answer)

228. What is the primary difference between a town and a city?

A) The presence of factories\

B) The size of the population\

C) The availability of shopping centers\

D) The presence of a cathedral and lots of services

VU UNIQUE ARTICLE
Recorded with iTop Screen Recorder
CamScanner

B) The size of the population\

C) The availability of shopping centers\

D) The presence of a cathedral and lots of services

229. What characterizes a dispersed settlement?

A) Houses clustered around a central church\

CamScanner

B) Isolated dwellings scattered in cultivated fields (Correct Answer)\

C) Linear arrangement of houses along a road\

D) High-rise buildings in a central location

230. In a nucleated settlement, what is a central point around which houses cluster?

A) A commercial square\

B) A railway station\

C) A central church (Correct Answer)\

Recorded with iTop Screen Recorder

D) A sports stadium

231. What defines a linear settlement?

A) A large city with numerous amenities\

B) A settlement formed in a long line along a road, river, or canal (Correct Answer)\

C) A settlement surrounded by mountains\

CamScanner

234. What is the primary factor that drives urbanization?

A) Movement of animals\

B) Shift from rural to urban areas (Correct Answer)\

C) Creation of linear settlements\

D) Formation of hamlets

235. How is a formal settlement defined?

A) A settlement with houses scattered in cultivated fields\

B) A settlement with commercial and industrial functions\

C) A located area for housing with added amenities like electricity and sanitation (Correct Answer)\

Recorded with iTop Screen Recorder

CamScanner

C) A located area for housing with added amenities like electricity and sanitation (Correct Answer)\

D) A settlement with isolated dwellings

236. What are the three major functions that control urbanization in countries?

A) Agriculture, transportation, and education\

B) Residential, commercial, and industrial functions\

C) Commercialization, industrial production, and trade centers (Correct Answer)\

D) Hamlets, villages, and towns

237. How does the dominant function of a city affect its development?

A) It has no impact on city development\

B) It determines the arrangement of houses\

C) It influences the development of different areas within the city (Correct Answer)\

Recorded with Prop Screen Recorder
VIGNOUE ARTICLE
CamScanner

C) London becoming a financial center (Correct Answer)\

D) Tokyo focusing on agricultural production

239. What is the primary distinction between land cover and land use?

A) Land cover refers to areas controlled by nature, while land use refers to human-controlled areas (Correct Answer)\

B) Land cover refers to agriculture areas, while land use refers to forests and pastures\

C) Land cover refers to housing schemes and industries, while land use refers to open water\

Recorded with iTop Screen Recorder

D) Land cover and land use are the same terms and can be used interchangeably

240. In the context of land cover, what does the color yellow typically represent?

A) Pastures\

B) Forests\

C) Agriculture area (Correct Answer)\

CamScanner

B) Urbanization and establishment of residential areas, industries, etc. (Correct Answer)\

C) Agricultural expansion\

D) Pasture management

243. What was Malaysia's approach to development while considering land use?

A) Focusing on agriculture and expanding farmland\

B) Developing residential areas and industries on barren land (Correct Answer)\

Recorded with iTop Screen Recorder

C) Preserving forests and pastures\

D) Promoting open water resources

244. In terms of city functions, what do developed countries primarily focus on?

A) Agricultural activities\

B) Production-based industries\

C) Providing services (Correct Answer)\

CamScanner

B) Production-based industries\

C) Providing services (Correct Answer)\

D) Religious centers

245. What are some of the city functions that influence urbanization?

A) Selling goods and services, providing jobs, administration (Correct Answer)\

B) Entertainment centers, cultural centers, religious centers\

C) Agricultural activities, residential areas, transport hubs\

Recorded with iTop Screen Recorder

D) Forest conservation, open water resources, special public services

246. What does CBD stand for in the context of city functions?

A) Central Business District\

B) Centralized Building Development\

C) Centralized Business Depot\

D) Centralized Building Design (Correct Answer)

CamScanner

247. What is the Central Business District (CBD) known for?

A) Providing jobs in rural areas\

B) Offering residential housing\

C) Having a lot of services and accessibility (Correct Answer)\

D) Being located in the outskirts of the city

Recorded with iTop Screen Recorder

248. What is the primary characteristic of the CBD's location within a city?

A) Being far away from motorways\

B) Being located in suburban areas\

C) Having easy access to motorways and metro routes (Correct Answer)\

D) Being surrounded by forests and pastures

CamScanner

A) Being far away from motorways\

B) Being located in suburban areas\

C) Having easy access to motorways and metro routes (Correct Answer)\

D) Being surrounded by forests and pastures

249. What are urban places characterized by?

A) Sparsely populated areas\

B) Large open spaces and parks\

C) Rural landscapes\

D) Hyper city activities (Correct Answer)

250. What is the purpose of open spaces in urban areas?

A) Providing areas for industrial activities\

B) Scattered around the city to offer services to various residential areas (Correct Answer)\

C) Creating more parking spaces\

Recorded with iTop Screen Recorder

CamScanner

D) Establishing agricultural fields

251. What are the primary features of city suburbs?

A) Crowded residential areas with small houses\

B) Industrial complexes and factories\

Recorded with iTop Screen Recorder

CamScanner

C) Affordable residential housing with gardens and bigger houses (Correct Answer)\

D) High pollution and noise levels

252. Which area tends to have small houses with no gardens and belongs to the worker class?

A) Inner city\

B) CBD\

C) Terraced housing (Correct Answer)\

Recorded with Top Screen Recorder

D) City suburbs

253. In the developed world, what percentage of the population belongs to urban areas?

A) 10%\

B) 37%\

C) 90% (Correct Answer)\

CamScanner

B) 37%\

C) 90% (Correct Answer)\

D) 50%

254. What term is used for the movement of people from urban to open space areas in developed countries?

A) Urbanization\

B) Ruralization\

C) De-urbanization (Correct Answer)\

D) Suburbanization

255. What is a major reason behind migration from rural to urban areas in developing countries?

A) Entertainment opportunities\

B) Parks and open spaces\

C) Economic conditions and employment opportunities (Correct Answer)\

Recorded with iTop Screen Recorder
CamScanner

256. What term refers to the movement of people from urban to open space areas to avoid crowded and noisy environments?

A) Urbanization\

B) De-urbanization (Correct Answer)\

C) Ruralization\

Recorded with iTop Screen Recorder

D) Suburbanization

257. What are some of the issues associated with urbanization?

A) Agricultural growth and industrial development\

B) Noise pollution and air purification\

C) Traffic flow, air pollution, water pollution, and urban diseases (Correct Answer)\

D) Rural crime and suburban crime

CamScanner

Answer)\

D) Rural crime and suburban crime

258. What are the dominant areas in urban society?

A) Agricultural activities\

B) Entertainment and cultural events\

C) Education and employment (Correct Answer)\

D) Healthcare and recreation

Recorded with iTop Screen Recorder

259. Why does the traffic flow increase in urban areas?

A) Due to a decrease in population migration\

B) Due to industrial activities\

C) Due to people migrating from neighboring areas (Correct Answer)\

D) Due to the reduction in service areas

260. What are some pollutants developed due to traffic flow and industrial establishments in urban areas?

CamScanner

C) Due to people migrating from neighboring areas (Correct Answer)\

D) Due to the reduction in service areas

260. What are some pollutants developed due to traffic flow and industrial establishments in urban areas?

A) Oxygen and nitrogen\

B) Carbon dioxide and nitrogen oxide\

Recorded with iTop Screen Recorder

CamScanner

A) Pollution cloud\

B) Heat island\

C) Dust dome (Correct Answer)\

D) Urban smog

262. What causes the formation of a dust dome?

A) High concentration of open water areas\

B) Reflection of sunlight by building materials\

C) Urban heat island causing the air to heat up and trap pollutants at a low level (Correct Answer)\

D) Lack of windows and reflective surfaces

263. What term describes the condition in which the temperature of the atmosphere increases with altitude instead of decreasing?

A) Atmospheric inversion\

B) Temperature shift\

Recorded with Mop Screen Recorder

CamScanner

b) Human use of fossil fuels

c) Solar activity fluctuations

d) Changes in ocean currents

Correct Answer: b) Human use of fossil fuels

266. What term is used to describe the rise in average surface temperatures on Earth?

a) Atmospheric shift

b) Oceanic fluctuation

Recorded with iTop Screen Recorder

c) Climate variability

d) Global warming

Correct Answer: d) Global warming

267. How do urban areas contribute to climate change?

a) By reducing energy consumption

b) By minimizing waste production

CamScanner

a) Arctic regions

b) Coastal areas

c) Middle latitudes with manufacturing

d) Mountainous regions

Correct Answer: c) Middle latitudes with manufacturing

CamScanner

b) Rapid natural recovery

c) Permanent groundwater pollution

d) Enhanced water quality

Correct Answer: c) Permanent groundwater pollution

272. In Pakistan, what percentage of wastewater is treated before being discharged into rivers and drains?

a) 50%

b) 75%

c) 90%

d) 1%

Correct Answer: d) 1%

VU UNIQUE ARTICLE
Recorded with iTop Screen Recorder
CamScanner

273. What contributes to the increase in solid and liquid waste in developed countries?

a) Decreased material wealth

b) Technological setbacks

c) Reduced industrialization

d) Population growth and material wealth

Correct Answer: d) Population growth and material wealth

Recorded with iTop Screen Recorder

274. What kind of diseases can be caused by water pollution and the accumulation of insects?

a) Respiratory diseases

b) Muscular disorders

c) Waterborne diseases

d) Skin infections

Correct Answer: c) Waterborne diseases

CamScanner

c) Waterborne diseases

d) Skin infections

Correct Answer: c) Waterborne diseases

275. What major challenges are posed by high crime and violence rates in urban centers?

a) Enhanced economic growth

b) Improved social development

c) Threat to human welfare and growth

d) Reduction in urbanization

Correct Answer: c) Threat to human welfare and growth

276. Which city in Pakistan is mentioned as facing a high rate of violence?

a) Lahore

b) Islamabad

UNIQUE ARTICLE
Recorded with iTop Screen Recorder
CamScanner

Correct Answer: c) Karachi

277. What is a significant impact of urban crime and violence on global development?

a) Increased economic opportunities

b) Enhanced social cohesion

c) Boost in cultural diversity

Recorded with iTop Screen Recorder

d) Impediment to economic and social development

Correct Answer: d) Impediment to economic and social development

278. What is the primary environmental concern?

a) Deforestation

b) Soil erosion

c) Climate change

d) Air pollution

CamScanner

Correct Answer: b) Pushing them into hazard-prone locations

280. What is the impact of the global use of oil on urbanization and the environment?

a) Decreased urbanization rates

b) Reduced greenhouse gas emissions

c) Promotion of sustainable environment

Recorded with iTop Screen Recorder

CamScanner

b) Decreased import rates

c) Energy crisis and terrorism

d) Stable tax system

Correct Answer: c) Energy crisis and terrorism

283. In Mexico City, what percentage of residents work in the informal sector?

a) 20%

b) 40%

c) 60%

d) 80%

Correct Answer: c) 60%

284. What proportion of employment in Pakistan's main jobs outside agriculture is attributed to the informal sector?

a) 10%

b) 27.3%

VU UNIQUE ARTICLE
Recorded with iTop Screen Recorder
CamScanner

CamScanner

Correct Answer: d) 73.3%

285. Which qualities typically characterize the informal sector?

a) Formal education-based skills

b) Stable employer-employee relationships

c) Large-scale operations

d) Easy entry and cash earnings

Correct Answer: d) Easy entry and cash earnings

Recorded with Top Screen Recorder

286. What is the ratio of informal to formal employment?

a) 80% informal, 20% formal

b) 40% informal, 60% formal

c) 60% informal, 40% formal

d) 20% informal, 80% formal

Correct Answer: c) 60% informal, 40% formal

CamScanner

d) 20% informal, 80% formal

Correct Answer: c) 60% informal, 40% formal

287. What percentage of new urban dwellers are added to the world's urban population each day?

a) 10%

b) 20%

c) 50%

d) 100%

Correct Answer: d) 100%

288. What is the primary focus of the "green agenda" in cities?

a) Pollution reduction and waste management

b) Promotion of formal employment

c) Creation of industrial facilities

Recorded with iTop Screen Recorder

CamScanner

d) Biodiversity protection and sustainability

Correct Answer: d) Biodiversity protection and sustainability

289. Which system taps into the natural flow of water for water supply and waste disposal in cities?

a) Energy system

b) Climate and air system

c) Water system

d) Transport system

Recorded with iTop Screen Recorder

Correct Answer: c) Water system

290. What is the primary concern of the "brown agenda"?

a) Biodiversity protection

b) Energy consumption

c) Pollution and toxic waste

d) Access to clean water

CamScanner

a) Biodiversity protection

b) Energy consumption

c) Pollution and toxic waste

d) Access to clean water

Correct Answer: c) Pollution and toxic waste

291. What do the "brown agenda" and "green agenda" together depend upon for city management?

a) Stable employer-employee relationships

b) Natural disasters prevention

c) Energy consumption

d) Effective waste management

Correct Answer: c) Energy consumption

292. What is the role of the "building materials and systems" in the brown agenda?

a) Provide power and lighting

d) Create the physical basis of city life

Correct Answer: d) Create the physical basis of city life

293. What are the four domains that constitute an enduring way of life in a sustainable city?

a) Ecology, economics, politics, culture

b) Science, technology, arts, education

c) Energy, transportation, waste management, education

d) Agriculture, industry, health, governance

Recorded with Inop Screen Recorder

Correct Answer: a) Ecology, economics, politics, culture

294. Which type of energy resources can be replenished in a short period of time?

a) Non-renewable resources

b) Fossil fuels

c) Renewable resources

d) Nuclear resources

CamScanner

a) Non-renewable resources

b) Fossil fuels

c) Renewable resources

d) Nuclear resources

Correct Answer: c) Renewable resources

295. What natural processes lead to the formation of fossil fuels?

Recorded with iTop Screen Recorder

a) Decomposition of living organisms

b) Rapid geological processes

c) Cosmic radiation

d) Chemical reactions in the atmosphere

Correct Answer: a) Decomposition of living organisms

296. What is the primary source of energy consumption in Pakistan as of 2011?

a) Renewable resources

CamScanner

Correct Answer: a) Decomposition of living organisms

296. What is the primary source of energy consumption in Pakistan as of 2011?

a) Renewable resources

CamScanner

Correct Answer: c) Fossil fuels

297. What is the primary reason for the difference in fuel consumption between developed and developing countries in agriculture?

a) Lack of access to fuel in developing countries

b) High use of animal energy in developed countries

c) Advanced agricultural techniques in developing countries

d) Increased use of fertilizers in developing countries

Correct Answer: c) Advanced agricultural techniques in developing countries

298. What is the main reason for the increase in world energy consumption since 1989?

a) Decreased global population

b) More efficient energy usage

c) Rapid technological advancements

d) Global economic growth

CamScanner

a) Decreased global population

b) More efficient energy usage

c) Rapid technological advancements

d) Global economic growth

Correct Answer: d) Global economic growth

299. Which country has almost doubled its energy consumption in the past decade?

a) USA

b) Japan

c) China

d) India

Correct Answer: c) China

UNIQUE ARTICLE
Recorded with iTop Screen Recorder
CamScanner

300. What type of energy resource plays a minor role in electricity generation?

a) Solar energy

b) Wind energy

c) Nuclear power

d) Biomass energy

Recorded with iTop Screen Recorder

Correct Answer: c) Nuclear power

301. What defines a non-renewable resource?

a) A resource that renews itself quickly

b) A resource that is used in sustainable economy

c) A resource that becomes economically viable over time

d) A resource that does not renew itself at a sufficient rate

Correct Answer: d) A resource that does not renew itself at a sufficient rate

CamScanner
