MTH304 Final Term

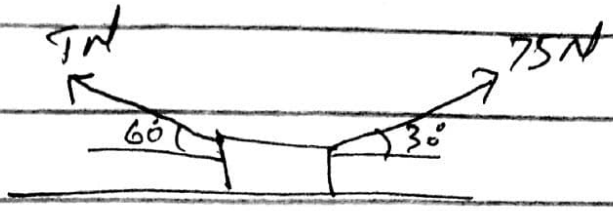

ABDUL HADI E Services

Find Moments

(1)

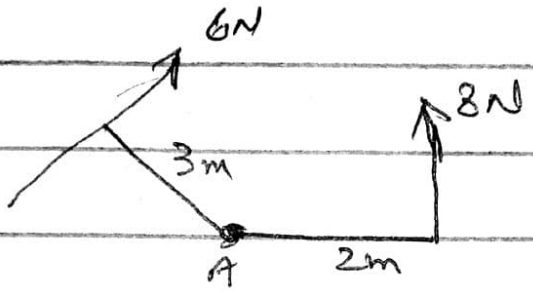

(2)

m = 20 kg friction force = 25N

tell whether it slvd or not and direction

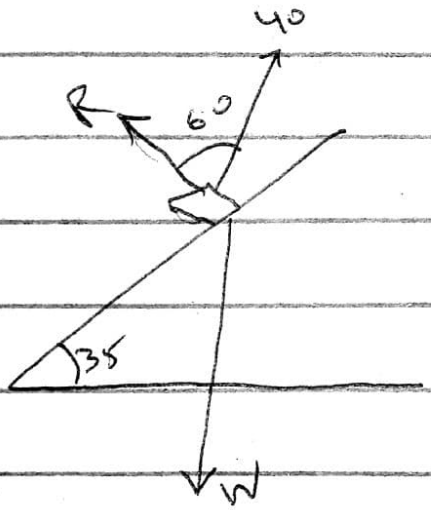

(3)

Find Moments about A

(4) work = 20 force = 3 d = 10 find θ-

(5)

find co-efficient of friction and direction

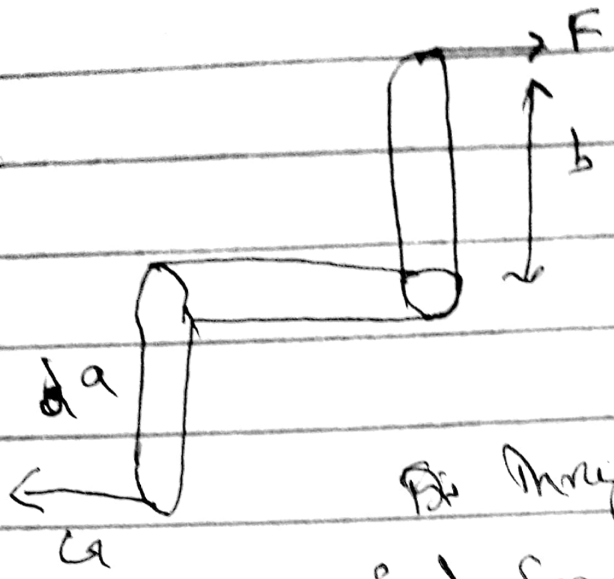

(6) Define workless constraints

(7) tell reaction about D if table about C

[some figure given]

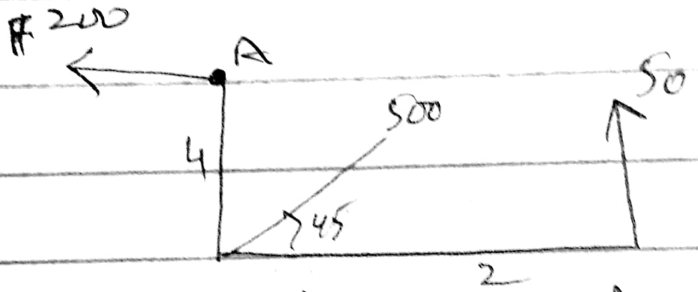

Abdul Hadi E Services

(7)

Through virtual displacement find formula.

(8)

Find moment about A

(9)

Abdul Hadi E Services

objective

1 — Mix

2 - Mid Term include

3 - Defination of virtual displacement, work
