

Question No : 11 of 39

Which of the following is one of the ways to introduce control variables?

Answer (Please select your correct option)

☐

By constructing theoretical framework

☐

By constructing graphs

☒

By constructing trivariate percentaged tables

☐

By developing hypothesis

Instead of using list of random numbers, _____ is used in systematic random sampling.

Answer (Please select your correct option)

Survey

☐

Cluster

☐

Element

☐

Sampling interval

☐

Which of the following is Ethical Dilemma of Field Research?

Answer (Please select your correct option)

Deception

☐

Confidentiality

☐

Involvement of deviants

☐

All of the given

☐

Field experiments have more _____ and less _____ because it is closer to the real situations.

Answer (Please select your correct option)

External reliability, internal reliability

☒

Internal validity, external validity

☐

External validity, internal validity

☐

Internal reliability, external reliability

☐

Question No : 17 of 39

Which of the following is an example of secondary data analysis?

Answer (Please select your correct option)

- ☐ Re-analysis of data to check for accuracy
- ☐ Re-analysis of data for issues of secondary importance
- ☐ Re-analysis of data that others have collected
- ☐ All of the given options

Start Time: 7:30 AM

In which of the following, open-ended questions are common, and probes are frequent?

Answer (Please select your correct option)

Survey Interview

☐

Field Interview

☐

Observations

☐

None of the given options
