**Question:**

**In a stem-and-leaf display of a decimal number, what does the "leaf" represent?**

**Options:**

**A. The sum of all digits**

**B. The middle digit**

**C. The units place**

**D. The tens place**

**Question:**

**A line graph shows …… plotted on a graph.**

**Options:**

*PREPARED BY VU SQUAD 0313-7248280*
*LMS AND PROJECTS HANDLER EXPERT*

**A. Points**

**B. Lines**

**C. Picturs**

**D. Sectors**

**Question:**

**If Mean, Median, and Mode are equal, then the distribution is called:**

**Options:**

**A. Uniform Distribution**

**B. Skewed Distribution**

**C. Bimodal Distribution**

**D. Symmetrical Distribution**

**Question:**

**Truncated mean is also called**

**Options:**

**A. Arithmetic mean**

**B. None of these**

**C. Trimmed mean**

**D. Harmonic Mean**

**Question:**

**The AVERAGE function ignores which of the following when calculating the result?**

**Options:**

**A. All of these**

**B. Numbers in the selected range**

**C. Text, logical values, and empty cells**

**D. Cells containing zero**

**Question:**

**For organizing bivariate data, the organizer has to use:**

**Options:**

**A. Histogram**

**B. Bar graph**

**C. Pie chart**

**D. Side by side chart**

*PREPARED BY VU SQUAD 0313-7248280*

**Question:**

**If FC per period is 3500, S is RS. 190 per unit and CM is 70, then what is the BEP in rupees?**

**Options:**

**A. 7500**

**B. 8500**

**C. 6500**

**D. 9500**

**Question:**

**In the arrangement of numbers,by following stem and leaf format a number say '27' is located by taking**

**Options:**

**A. 27 as its stem with nil leaf**

**B. 2 as its leaf and 7 as its stem**

**C. 2 as its stem and 7 as its leaf**

**D. Nil as its stem 27 as a leaf**

**Question:**

**Contribution Rate (CR) =**

**Options:**

**A. Sale(S)/Contribution Margin (CM) × 100%**

**B. Contribution Margin (CM)/Sale(S) × 100%**

**C. Sale(S)/Contribution Margin (CM) / 100%**

**D. Sale(S)/Contribution Margin (CM) + 100%**

**Question:**

**How does the FREQUENCY function handle text in the data_array ?**

**Options:**

**A. Treats it as zero**

**B. Ignores it**

**C. Converts it to numeric values**

**D. Returns an error**

**Question:**

**An arrangement of data by successive time periods is called**

**Options:**

**A. Exponential smoothing**

*PREPARED BY VU SQUAD 0313-7248280*
*LMS AND PROJECTS HANDLER EXPERT*

**B. Representation of data**

**C. Linear regression**

**D. Time Series**

**Question:**

**The Marks of mathematics on weekly basis for three months**

| Period | | Marks | Moving Averages |
|---|---|---|---|
| Month 1 | Week 1 | 70 | |
| | Week 2 | 60 | 65 |
| | Week 3 | 65 | 68.3 |
| Month 2 | Week 1 | 80 | 75.7 |
| | Week 2 | 82 | 82.3 |
| | Week 3 | 85 | 75.7 |
| Month 3 | Week 1 | 60 | 73.3 |
| | Week 2 | 75 | 71.7 |
| | Week 3 | 80 | |

**The seasonal variations will be ----------**

**Options:**

**A. -5**

-3.3

Question:

In regression equation Y = a + bX,

Options:

A. Y represents the slope of the line.

B. Y represents the value of the tan θ.

C. Y represents the independent variable.

D. Y represents the dependent variable.

Question:

*PREPARED BY VU SQUAD 0313-7248280*
*LMS AND PROJECTS HANDLER EXPERT*

**Prices are 100, 110, 120, 130 and Moving averages are 110, 120**

**Now Actual- Trend are**

**Options:**

**A. 0, 0**

**B. 110, 120**

**C. 10, 20**

**D. -10, 10**

**Question:**

**All the students in the class are population whereas the top 10 students in the class are the**

**Options:**

**A. best fits of the data.**

**B. random error variables.**

**C. extreme values.**

**D. sample.**

**Question:**

LMS AND PROJECTS HANDLER EXPERT

**In regression analysis, if X is to be estimated on the basis of Y, then the equation is called the regression equation of**

**Options:**

**A. Y on X**

**B. Y on Y**

**C. X on X**

**D. X on Y**

**Question:**

**The correlation coefficient r is the …….mean of the two regression coefficients**

**Options:**

**A. None of these**

**B. Arithmetic**

**C. Geometric**

**D. Harmonic**

**Question:**

**The point where a straight line cuts the x-axis is called**

**Options:**

A. x-intercept

B. slope

C. starting point

D. y-intercept

Question:

Rule to draw a scatter diagram is

Options:

A. None

B. Regression variable along X-axis and dependent variable along Y-axis

C. Both i. & ii.

D. Dependent variable along Y-axis and Regression variable along X-axis

Question:

In the regression line equation Y = a + bX;\,\,a\, is called the _____.

Options:

*PREPARED BY VU SQUAD 0313-7248280*
*LMS AND PROJECTS HANDLER EXPERT*

**A. Y-intercept**

**B. Slope**

**C. X-intercept**

**D. None of these**
