Fall 2022
CS409P – Introduction to Database Administration (Practical)

Marks: 40

Question No: 1 (Marks: 01) - Please choose the correct option

_____ are PL/SQL programs that are set up to execute in response to a particular event on a table in the database.

- a. Package
- b. Functions
- c. Triggers**
- d. Procedure

Question No: 2 (Marks: 01) - Please choose the correct option

A program that resides inside an oracle database that manipulates data in the database before the data is used outside the database is known as _____.

- a. Triggers
- b. Function
- c. Stored procedure**
- d. Package

Question No: 3 (Marks: 01) - Please choose the correct option

Which command is used to fetch records from database?

- a. Fetch
- b. Select**
- c. Use
- d. Get

Question No: 4 (Marks: 01) - Please choose the correct option

A _____ is a group of PL/SQL statements that can be called by name.

- a. View
- b. Trigger
- c. **Procedure**
- d. Function

Question No: 5 (Marks: 01) - Please choose the correct option

How many CREATE TRIGGER statements are there? ANSWER is 2

- a. 4
- b. 5
- c. 6
- d. 7

Question No: 6 (Marks: 01) - Please choose the correct option

TRUNCATE TABLE statement is used to remove the table.

- a. **TRUE**
- b. FALSE
- c. Can be true or false
- d. Can not say

Question No: 7 (Marks: 01) - Please choose the correct option

Which is the smallest unit of storage in an Oracle database?

- a. Segment
- b. **Data Block**
- c. Extent
- d. Data File

Question No: 8 (Marks: 01) - Please choose the correct option

How many types of procedure are there?

- a. 1
- b. **2(Stored and Anonymous Procedures)**
- c. 3
- d. 4

Question No: 9 (Marks: 01) - Please choose the correct option

What is the syntax to Drop Procedure?

- a. DELETE PROCEDURE procedure_name;
- b. DROP PROCEDURE procedure_name;**
- c. RETRIEVE PROCEDURE procedure_name;
- d. END PROCEDURE procedure_name;

Question No: 10 (Marks: 01) - Please choose the correct option

How many types of exceptions are there?

- a. 2
- b. 3**
- c. 4
- d. 5

Question No: 11 (Marks: 01) - Please choose the correct option

Errors that are encountered during the execution of the program are referred to as ____ in PL/SQL.

- a. FUNCTION
- b. CURSOR
- c. EXCEPTION**
- d. PROCEDURE

Question No: 12 (Marks: 01) - Please choose the correct option

Which command is used in order to raise an exception explicitly?

- a. RISE
- b. ROSE
- c. RAISE**
- d. RINSE

Question No: 13 (Marks: 01) - Please choose the correct option

Oracle creates ____ when SQL statements are processed.

- a. Content Areas
- b. Context Areas**
- c. Context Ids
- d. Content Ids

Question No: 14 (Marks: 01) - Please choose the correct option

An SQL ____ refers to a program that retrieves and processes one row at a time, based on the results of the SQL statement.

- a. Cursor**
- b. Function
- c. Procedure
- d. View

Question No: 15 (Marks: 01) - Please choose the correct option

Which of the following would cause an infinite loop to occur in a simple loop

- a. LOOP**
- b. END LOOP
- c. IF – THEN
- d. EXIT

Question No: 16 (Marks: 01) - Please choose the correct option

Which identifier is valid?

- a. Customer_12**
- b. Loop
- c. customer@orgA
- d. 12customer

Question No: 17 (Marks: 01) - Please choose the correct option

Select the best answer below. What are the components of a package?

- a. Box, wrapping and binding
- b. Specification and content
- c. Header and body**
- d. None of the given

Question No: 18 (Marks: 01) - Please choose the correct option

If you cannot specify a mode for a parameter, what is the default mode?

- a. OUT
- b. IN**
- c. COPY
- d. DEFAULT

Question No: 19 (Marks: 01) - Please choose the correct option

_____ is online backup.

- a. Hot**
- b. Physical
- c. Cold
- d. Logical

Question No: 20 (Marks: 01) - Please choose the correct option

Which of the given files are not copied in cold/offline backup.

- a. Data Files
- b. Control Files
- c. Init.ora and config.ora files
- d. Log files**

Question No: 21 (Marks: 01) - Please choose the correct option

Which of the following date function can be used to get the timestamp from database?

- a. SYSTEMTIMESTAMP
- b. SYSTIMESTAMP**
- c. SYSTEMDATE
- d. SYSDATE

Question No: 22 (Marks: 01) - Please choose the correct option

Which SQL statement from the following is used to create a new tablespace?

- a. CREATE TABLESPACE**
- b. CREATE TEMPORARY TABLESPACE
- c. CREATE UNDO TABLESPACE
- d. Both A & B

Question No: 23 (Marks: 01) - Please choose the correct option

Views are _____ tables that don't exist physically in Oracle.

- e. Real
- f. Virtual**
- g. Both A and B
- h. None of the above

Question No: 24 (Marks: 01) - Please choose the correct option

What is the syntax to create view?

- a. CREATE VIEW view_name AS**
- b. CREATE NEW view_name AS
- c. CREATE AS view_name VIEW
- d. CREATE AS view_name NEW

Question No: 25 (Marks: 05)

Given are the entitles of School management system, you have to create ERD for this. Mention the primary key and cardinality relationship among all entities.

- 1. Teacher
- 2. Class
- 3. Student

Answer

Question No: 26 (Marks: 05)

Write sample query for creating schema named “Product” for sample user “AE” using following attributes?

- 1. Table name is “new_product”
- 2. View is “new_product_view”
- 3. Grants is “SELECT” object privilege on view to the sample user “HR”

Answer

Question No: 27 (Marks: 05)

Write the basic syntax for creating and dropping sequence.

Answer

CREATE SEQUENCE:
CREATE SEQUENCE sequence_name
START WITH start_value
INCREMENT BY increment_value;

DROP SEQUENCE:
DROP SEQUENCE sequence_name;

Question No: 28 (Marks: 05)

Write the PL/SQL statement to create a new group of redo log files. The redo log files name should be log1a.rdo, log2b.rdo, their size should be 100 MS, block size 512 and group number should be 15.

Answer

Question No: 29 (Marks: 05)

Write SQL command to create the “Student” table having the following columns and their constraints. You are required to choose the appropriate data type for each column by your own.

Column Name	Data Type	Constraint
Std_ID	-	NOT NULL
Std_Name	-	NOT NULL
Std_Age	-	DEFAULT 0
Std_Course	-	NOT NULL

Answer

CREATE TABLE Student
(
Std_ID INT NOT NULL,
Std_Name VARCHAR(50) NOT NULL,
Std_Age INT DEFAULT 0,

**Std_Course VARCHAR(30) NOT NULL
);**

Question No: 30 (Marks: 05)

Write the SQL Plus statements for following.

1. Recreating control files.
2. Viewing Alert Log using data dictionary
3. To trace files for your current session.

Answer
