

EDU101 - Foundations of education handouts

Lecture Wise Mcqs Lecture 23 to 45

Solved by Ali Khan

Lesson 23 - SOCIOLOGICAL FOUNDATIONS OF EDUCATION -

Here are the MCQs with four options, and the correct option highlighted:

1. What is the role of schools in society?

- A) To function independently from society
- B) To operate without any influence from social context
- **C) To exist within society and reflect societal changes**
- D) To create an isolated environment for students

2. **Why is it important for schools to adapt to societal changes?**

- A) Because society never changes
- **B) To prepare students for the future world**
- C) Because students do not need to learn about societal changes
- D) To remain static in their teachings

3. **Which of the following is NOT a form of literacy mentioned in the text?**

- A) Scientific literacy
- B) Cultural literacy
- **C) Artistic literacy**
- D) Information literacy

4. **How can schools act as agents of change?**

- A) By focusing only on traditional 3Rs (Reading, Writing, Arithmetic)
- B) By teaching students outdated knowledge
- **C) By promoting new forms of literacy and addressing societal diversity**
- D) By ignoring technological advancements

5. **What does the "explosion of knowledge" refer to?**

- A) Decreasing knowledge
- **B) The rapid increase in the quantity of knowledge available**
- C) The reduction in subjects being taught
- D) A decline in technological advancements

6. **Why has knowledge been organized into subjects like English, Physics, and Mathematics?**

- A) To simplify the teaching process
- B) To reduce the amount of knowledge being taught
- **C) Due to the growth in the quantity of knowledge**

- D) To make students study fewer subjects

7. What is the term for the behavior shaped by external forces in society?

- A) Voluntarism
- **B) Determinism**
- C) Individualism
- D) Socialism

8. How does "voluntarism" differ from "determinism"?

- A) Voluntarism is the result of external forces, while determinism is based on free will
- **B) Voluntarism is when individuals behave according to their own free will**
- C) Voluntarism means behaving according to society's rules
- D) There is no difference between voluntarism and determinism

9. Which of the following is one of the elements of the sociological foundations of education?

- **A) Theories about the relationship between school and society**
- B) The ability of schools to ignore societal inequalities
- C) The focus only on academic achievement
- D) The disregard for external societal factors

10. What is one of the challenges education faces in a rapidly changing society?

- A) Schools can easily cope with change
- **B) Schools may struggle to prepare students for future changes**
- C) Society does not change quickly enough for education to keep up
- D) Education is already advanced enough to deal with change

Lesson 24 - SOCIOLOGICAL FOUNDATIONS OF EDUCATION – 2

1. Which of the following is emphasized in Functional Theories of education?

- A) Economic inequality
- B) Struggles between dominant and subordinate groups
- **C) Interdependence and integration of the social system**
- D) The promotion of conflict among social groups

2. What did Emile Durkheim argue about the role of education in society?

- A) Education is secondary to the economy in shaping society
- **B) Education is crucial in creating moral unity, social cohesion, and harmony**
- C) Education serves only to create inequality in society
- D) Education has no significant role in society

3. According to functionalists, what does educational reform aim to create?

- A) Conflict between social classes
- **B) Structures, programs, and curricula that encourage social unity**
- C) Disruption of the social order
- D) A divide between the rich and poor

4. What do conflict theorists emphasize in explaining social order?

- A) Consensus and social cohesion
- **B) Struggle and power imbalances**
- C) The importance of moral values
- D) The need for technological advancement in education

5. Who is considered the intellectual founder of conflict theories?

- A) Emile Durkheim
- **B) Karl Marx**
- C) Max Weber
- D) Auguste Comte

6. What does the “Achievement Ideology” of schools disguise, according to conflict theories?

- **A) The real power struggle in society**
- B) The benefits of a merit-based society
- C) The effort to foster social cohesion
- D) The role of education in reducing inequality

7. How do schools pass on "cultural capital," according to conflict theorists?

- A) By promoting equal access to resources
- **B) By reinforcing social identities that affect life chances**
- C) By encouraging democratic participation
- D) By focusing on universal education for all students

8. Which theory critiques and extends functional and conflict perspectives, focusing on labels such as “gifted” or “learning disabled”?

- A) Functional Theory
- **B) Interactional Theory**
- C) Conflict Theory
- D) Structuralism

9. According to the text, schooling should have which of the following effects on individuals?

- A) Only employment opportunities
- **B) Knowledge, attitudes, and employment opportunities**

- C) Solely on knowledge acquisition
- D) Only on shaping social mobility

10. What is one of the major issues contributing to educational inequality in society, as mentioned in the text?

- A) Overemphasis on technology
- **B) Inadequate schools and tracking**
- C) Equal representation in curriculum
- D) Gender discrimination

Lesson 25 - BERNSTEIN'S AND LABELLING THEORY

1. What does Bernstein refer to as a "regulatory mechanism" in education?

- A) Ideology
- **B) Code**
- C) Curriculum
- D) Pedagogy

2. According to Bernstein, who defines what counts as valid knowledge?

- A) Students
- B) Teachers
- **C) Curriculum**
- D) Parents

3. What is the focus of Bernstein's work on pedagogic discourse?

- A) The development of student behavior
 - **B) The production, distribution, and reproduction of official knowledge**
 - C) The improvement of teaching methods
 - D) The role of technology in education
4. **How do schools reproduce what they are ideologically committed to eradicating?**
- A) By focusing on equality for all students
 - **B) Through the power relations embedded in the curriculum and pedagogy**
 - C) By offering equal opportunities to every student
 - D) By eliminating cultural diversity in education
5. **What factor contributes to the formation of social expectations for students, according to the text?**
- **A) Social class, physical appearance, and school records**
 - B) Only academic performance
 - C) Parental income
 - D) The teacher's educational background
6. **What is the focus of labeling theory in the context of education?**
- A) Identifying the best students
 - **B) The influence of labels on students' opportunities and identity**
 - C) Measuring academic performance
 - D) Teachers' pedagogical strategies
7. **What is a key idea behind labeling theory as it applies to education?**
- **A) Deviance is a social judgment imposed by others**
 - B) Labels help students perform better
 - C) Teachers always provide equal attention to students
 - D) Labels do not influence students' behavior
8. **According to labeling theory, what effect can social control have?**
- A) It ensures all students follow the rules
 - **B) It can generate more deviance and reinforce negative behavior**
 - C) It promotes group solidarity
 - D) It eliminates inequality in schools
9. **How can the teacher's expectations affect school achievement?**
- **A) Teacher expectations shape the students' academic outcomes**
 - B) Teacher expectations have no effect on achievement
 - C) Teachers automatically expect all students to perform the same

- D) Teacher expectations only affect high-achieving students
- 10. **What should be a priority in education, as discussed in the text?**
 - A) Focus only on academically talented students
 - **B) Education for all, with a focus on child-centered and experience-centered approaches**
 - C) Ignoring disadvantaged students
 - D) Emphasizing only theoretical knowledge over practical experience

Lesson 26 - HISTORICAL FOUNDATIONS OF EDUCATION – 1

1. **What was the primary goal of education in pre-literate societies?**
 - A) To prepare individuals for leadership
 - B) To teach survival skills and group harmony
 - C) To impart advanced knowledge of agriculture
 - **D) To teach survival skills and group harmony**
2. **Who were the students in pre-literate societies?**
 - A) Only children of elites
 - **B) All children, with no age grouping**

- C) Only adult men and women
 - D) Only children of priests and leaders
3. **What was the primary instructional method used in pre-literate societies?**
- **A) Informal methods and imitation of adults**
 - B) Formal classroom settings
 - C) Written exercises and assignments
 - D) Group discussions and debates
4. **Which of the following was part of the curriculum in pre-literate societies?**
- A) Advanced mathematics
 - **B) Hunting, fishing, songs, poems, and dances**
 - C) Scientific discoveries
 - D) Political philosophy
5. **What was the goal of education in ancient Chinese society?**
- **A) To prepare elites to govern the empire according to Confucian principles**
 - B) To teach agricultural techniques to peasants
 - C) To promote democracy and equality
 - D) To teach all citizens about various religions
6. **Who were the students in ancient Chinese education systems?**
- **A) Males of the upper class**
 - B) Females of the lower class
 - C) All children of all social classes
 - D) Priests and scribes
7. **What instructional method was commonly used in ancient Chinese education?**
- A) Discussions and debates
 - **B) Memorization and recitation**
 - C) Practical training and apprenticeships
 - D) Group learning and projects
8. **What was the influence of education in ancient China?**
- A) Religious practices became more important
 - **B) Written examinations for civil service**
 - C) Focus on artistic development
 - D) Growth of technological innovations
9. **What was the educational goal in ancient Indian society?**

- A) To teach modern scientific methods
 - **B) To learn behavior and rituals based on the Vedas**
 - C) To prepare students for military service
 - D) To promote economic growth
10. What was the educational influence of ancient Egyptian society?
- A) Development of public schools for all children
 - B) Widespread access to higher education
 - **C) Preparation of priests and scribes for the empire**
 - D) Focus on religious freedom and democracy

Lesson 27 - HISTORICAL FOUNDATIONS OF EDUCATION – 2

1. Who is considered the founder of Behavioral Psychology?
 - a. John Dewey
 - b. Ivan Pavlov
 - c. Edward Thorndike**
 - d. William James
2. Thorndike's Law of Effect states:
 - a. Behavior is influenced by observation
 - b. Responses causing satisfaction strengthen connections**
 - c. Discomfort enhances learning
 - d. Memorization aids learning

3. The Law of Readiness emphasizes:
 - a. Rewards and punishments
 - b. Motivation and preparation**
 - c. Reflex-based learning
 - d. Individual exercises
4. Which law justifies the use of repetition in learning?
 - a. Law of Effect
 - b. Law of Exercise**
 - c. Law of Readiness
 - d. Connectionism
5. Thorndike's experiments mainly focused on:
 - a. Cognitive responses
 - b. Stimulus-response association**
 - c. Group learning techniques
 - d. Classroom observations
6. "Tabula Rasa" in education refers to:
 - a. Predefined knowledge
 - b. A blank slate**
 - c. Progressive learning
 - d. Associative conditioning
7. Thorndike's research on subject hierarchies concluded that:
 - a. Mathematics is the most critical subject
 - b. Traditional subjects should dominate
 - c. All subjects are equally important**
 - d. Sciences hold higher value
8. What is connectionism?
 - a. Association between stimuli and responses**
 - b. Learning through reflection
 - c. Habits disconnected from learning
 - d. Pure memorization
9. Thorndike's studies in adult education revealed:
 - a. Adults cannot adapt to new habits
 - b. Younger learners are more efficient

- c. **Hierarchies in subjects are unnecessary**
 - d. Adults rely on rote methods
- 10. According to Thorndike, effective teaching is rooted in:
 - a. **Practice and systematic learning**
 - b. Abstract thinking
 - c. Moral teachings
 - d. Free exploration

Lecture 28: Historical Foundations of Education - 3

1. Realism in education is based on:
 - a. Imaginative thinking
 - b. **Objective reality**
 - c. Cultural norms
 - d. Philosophical debate
2. Who is the pioneer of realism?
 - a. **Aristotle**
 - b. Socrates
 - c. Dewey
 - d. Plato
3. Realism emphasizes:
 - a. Abstract ideas
 - b. **Observation and experimentation**
 - c. Faith-based reasoning
 - d. Subjective knowledge
4. The curriculum for realism includes:
 - a. **Mathematics and science**
 - b. Religious teachings
 - c. Student-selected topics
 - d. Literary classics

5. The role of the teacher in realism is to:
 - a. Inspire creativity
 - b. Deliver structured and organized knowledge**
 - c. Prioritize memorization
 - d. Introduce abstract theories
6. According to realism, reality is:
 - a. Dependent on perception
 - b. Independent of human thoughts**
 - c. Constantly changing
 - d. Defined by societal norms
7. What is the ultimate goal of realism?
 - a. Moral development
 - b. Societal harmony
 - c. Intellectual development**
 - d. Creative exploration
8. Realists argue that education should:
 - a. Focus on the physical and material world**
 - b. Emphasize abstract values
 - c. Reject scientific methods
 - d. Encourage individual intuition
9. Realist instruction heavily relies on:
 - a. Student-led discussions
 - b. Flexible curriculums
 - c. Objectivity and factual knowledge**
 - d. Imaginative storytelling
10. Realism supports which of the following?
 - a. Discipline in knowledge acquisition**
 - b. Total elimination of rigid structures
 - c. Teaching through subjective beliefs
 - d. Prioritizing student interests

Lecture 29: Historical Foundations of Education - 4

1. Pragmatism views the universe as:
 - a. **Dynamic and evolving**
 - b. Static and unchanging
 - c. Eternal and predefined
 - d. Abstract and undefined
2. Who are key proponents of pragmatism?
 - a. **John Dewey and Charles Peirce**
 - b. Socrates and Plato
 - c. Edward Thorndike and Ivan Pavlov
 - d. Aristotle and Aquinas
3. Pragmatism emphasizes:
 - a. Memorization of facts
 - b. **Practical application of experiences**
 - c. Rigid academic structures
 - d. Faith-based learning
4. The primary goal of pragmatist education is:
 - a. Acquiring universal truths
 - b. **Individual growth and societal adaptation**
 - c. Maintaining traditions
 - d. Preserving historical knowledge
5. Pragmatists view truth as:
 - a. Eternal and universal
 - b. **Relative and evolving**
 - c. Defined by religious texts
 - d. Rigid and objective
6. The pragmatist curriculum focuses on:
 - a. Fixed knowledge
 - b. **Problem-solving and experiences**
 - c. Strict discipline
 - d. Idealistic exploration

7. In pragmatism, the teacher's role is to:
 - a. Enforce strict discipline
 - b. Facilitate active learning**
 - c. Provide universal truths
 - d. Ensure rote memorization
8. Pragmatism encourages:
 - a. Balancing individual and societal needs**
 - b. Prioritizing societal traditions
 - c. Fixed educational methods
 - d. Removing experiential learning
9. The instructional method best suited for pragmatism is:
 - a. Lecture-based teaching
 - b. Inquiry and problem-solving**
 - c. Rote memorization
 - d. Individual introspection
10. Which philosophy is closely aligned with pragmatism?
 - a. Idealism
 - b. Progressivism**
 - c. Realism
 - d. Essentialism

Lecture 30: Historical Foundations of Education – 5

1. Progressivism emphasizes:
 - a. Rote learning
 - b. Active experimentation**
 - c. Memorization of classical texts
 - d. Hierarchical learning
2. Who is a prominent figure in progressivism?
 - a. John Dewey**

- b. Aristotle
 - c. Edward Thorndike
 - d. Socrates
3. Progressivism focuses on:
- a. Academic traditions
 - b. Problem-solving and collaboration**
 - c. Cultural heritage
 - d. Religious teachings
4. Progressivism is rooted in which philosophy?
- a. Realism
 - b. Pragmatism**
 - c. Essentialism
 - d. Idealism
5. The progressivist curriculum emphasizes:
- a. Hands-on learning and critical thinking**
 - b. Fixed academic subjects
 - c. Religious studies
 - d. Memorization techniques
6. In a progressivist classroom, the teacher's role is:
- a. An authoritarian
 - b. A facilitator and guide**
 - c. A moral guardian
 - d. A disciplinarian
7. Progressivism encourages which type of thinking?
- a. Memorization of facts
 - b. Creative and critical thinking**
 - c. Rigid logical reasoning
 - d. Philosophical debates
8. What is a major criticism of progressivism?
- a. Lack of focus on structured discipline**
 - b. Overemphasis on memorization
 - c. Neglecting scientific exploration
 - d. Ignoring cultural heritage

9. Progressivism aims to prepare students for:
- a. Academic excellence
 - b. Real-world challenges**
 - c. Cultural preservation
 - d. Religious conformity
10. Which method is central to progressivism?
- a. Lectures and drills
 - b. Inquiry and experimentation**
 - c. Textbook learning
 - d. Memorization tasks

Lesson 31 HISTORICAL FOUNDATIONS OF EDUCATION – 6

1. During the reign of the Ghaznavi Dynasty, which of the following scholars wrote the famous work "Shahnama"?

- a) Alberuni
- b) Firdousi
- c) Attabi
- d) Ibn-e-Batuta

Answer: b) Firdousi

2. Which scholar made a deep study of Hindu culture and customs during the Ghaznavi Dynasty and wrote "Kitab-ul-Hind"?

- a) Firdousi
- b) Alberuni
- c) Attabi
- d) Ghais-ud-Din Balban

Answer: b) Alberuni

3. Muhammad Ghauri, during his reign, primarily focused on which of the following?

- a) Art and literature
- b) Islamic education
- c) Architecture
- d) Building libraries

Answer: b) Islamic education

4. Qutab-ud-Din Aibak was known for building mosques and cities that became centers for which of the following?

- a) Art and literature
- b) Islamic education
- c) Military training
- d) Agriculture

Answer: b) Islamic education

5. Which ruler of the Slave Dynasty was very fond of art and literature, bringing scholars, historians, and poets to his court?

- a) Altumush
- b) Qutab-ud-Din Aibak
- c) Ghais-ud-Din Balban
- d) Jala-ud-Din Khilji

Answer: a) Altumush

6. What advice did Ghais-ud-Din Balban give to his son?

- a) "Master the arts of warfare."
- b) "Be in search of the brave, the learned, the wise, and leave no stone unturned to find them."
- c) "Knowledge is not important; power is."
- d) "Only the rich can rule effectively."

Answer: b) "Be in search of the brave, the learned, the wise, and leave no stone unturned to find them."

7. Ala-ud-Din Khilji, although not literate himself, is known for patronizing which of the following?

- a) Military training
- b) Art and literature
- c) Agricultural innovation
- d) Scientific discoveries

Answer: b) Art and literature

8. During the Tughlaq Dynasty, who was the famous historian that toured India and extensively wrote about his findings?

- a) Alberuni
- b) Ibn-e-Batuta
- c) Attabi
- d) Firdousi

Answer: b) Ibn-e-Batuta

9. The Syed Dynasty was characterized by what major issue that affected the flourishing of art and literature?

- a) A focus on scientific innovation
- b) A focus on military expansion
- c) Lawlessness and disorder
- d) Religious reform

Answer: c) Lawlessness and disorder

10. During the Syed Dynasty, which literary work was written despite the period of turmoil?

- a) Kitab-ul-Hind
- b) Shahnama
- c) Mubarik Shahi
- d) Kitab-UI-Yameeni

Answer: c) Mubarik Shahi
