Need Approach Benefits Competition (NABC) is a framework to better structure and present your business idea. NABC was originally presented by Stanford University. NABC is a smart tool for entrepreneurs to effectively pitch raw business ideas to potential investors and other stakeholders. NABC elaborates the **Need** you are addressing, the **Approach** you are using to address the issue/need, the **Benefits** this business idea will provide, and finally the details about the market **Competition.** Each part of the NABC framework has its particular and distinctive ingredients.

Case:

An entrepreneur is being presented with a fact sheet (information, and statistical data) to prepare her NABC framework. She needs to identify, arrange, and place the facts against the relevant section of NABC framework. She is looking for expert input to complete this task.

Requirements:

1- Read the facts in the first column and write the relevant NABC section in the second column.

2- Justify your selection of the second column by writing a logical argument in the third column. (10*1= 10 Marks)

Instructions:

1- Read the topic “NABC” in theme 10.

2- Fill in column 2 and column 3 and justify your answer.

3- In case of wrong option selected in column 2 it will be zero marks in column 3. 4- For **Sample Answer**, please see the below table.

Fact sheet (Information, Statistics)	Relevance	Argument
Statistical data to show the increased purchasing power of customers.	Need	This information gives us information about customer purchasing power which can be used to identify the product potential needed in the market.
List of companies which have gone default in the last 10 years.	Competition	Information about the competitors who have been erased out from the industry due to some reasons.
