Q.1 Given the least squares regression line $\hat{Y} = 5 - 2x$:

- A. as x decreases, so does y
 - B. None of the above
 - C. the relationship between x and y is positive
 - D. the relationship between x and y is negative**
-

Q.2 For a symmetrical data set mean value is 150 and standard deviation 25. 99.73 % (approximately all) values will lie between

- A. (125,175)
 - B. (100,200)
 - C. (125,180)
 - D. (75,225)**
-

Q.3 Which of the following method of skewness based on quartiles?

- A. Pearson
 - B. Bowleys**
 - C. Fisher
 - D. Sheppard
-

Q.4 In a linear regression, best fitted line is obtained through:

- A. Method of semi average
 - B. Method of least square**
 - C. Method of moment
 - D. Method of likelihood
-

Q.5 In a linear regression, $Y = a + bX$, the variable "Y" will always:

- A. Quantitative variable
 - B. A random variable**
 - C. Qualitative variable
 - D. A non-random variable
-

Q.6 Positive square root of variance is known as:

- A. Mean deviation
 - B. Range
 - C. All above
 - D. Standard Deviation**
-
-

Q.7 In a Box and Whisker plot, right end of the box is referred to as:

- A. First quartile
 - B. Third quartile**
 - C. Second quartile
 - D. Mode
-

Q.8 Moment ratio b_2 is used to measure:

- A. Skewness
 - B. Mean
 - C. Kurtosis**
 - D. Symmetry
-

Q.9 When two dice are rolled the number of possible sample points are:

- A. 36**
 - B. 24
 - C. 6
 - D. 12
-

Q.10 The value of ${}^{10}C_9$:

- A. 35
 - B. 45
 - C. 10**
 - D. 35
-

Q.1 Mean deviation is a measure of dispersion in which deviations are taken around the:

- A. None of the above
 - B. Third Quartile
 - C. Mean**
 - D. First Quartile
-

Q.2 An event that contains only one sample points is called:

- A. Simple event**
 - B. Normal event
 - C. Mutually exclusive event
 - D. Compound event
-

Q.3 For which of the following measures, we take deviations around mean in square form?

- A. Standard deviation**
 - B. None of these
 - C. Mean deviation
 - D. Mean deviation and Standard deviation
-

Q.4 If Mean = 25& S.D is 5 then C.V is:

- A. 10%
 - B. 25%
 - C. 100%
 - D. 20%**
-

Q.5 If $Y=3X+5$, then S.D of Y is equal to

- A. $s.d(x)+5$
 - B. $3s.d(x)+5$
 - C. **3 s.d(x)**
 - D. $9 s.d(x)$
-

Q.6 A set that contains all possible outcomes of a system is known as:

- A. Infinite Set
 - B. Universal Set**
 - C. Finite Set
 - D. None of these
-

Q.7 In a class, there are 15 boys and 10 girls. Three students are selected at random. The probability that 1 girl and 2 boys are selected, is:

Q.1 If a box contains two red and three green balls then probability of red balls will be equal to:

- A. $1/5$
 - B. $3/4$
 - C. $2/5$**
 - D. $2/3$
-

Q.2 Standard Deviation is measure of dispersion.

- A. A pure number
 - B. A relative
 - C. An absolute**
 - D. None
-

Q.3 The distribution will be negatively skewed if:

- A. Q_2 closer to Q_3
 - B. $Q_1=Q_2$
 - C. $Q_1=Q_3$
 - D. Q_1 closer to Q_2**
-

Q.4 For a particular data set the Pearson's coefficient of skewness is less than zero. What will be the shape of distribution?

- A. Positively Skewed
 - B. J-Shaped
 - C. Negatively Skewed**
 - D. Symmetrical
-

Q.5 Two dice are tossed. The probability that the total score is a prime number is:

- A. $1/2$
 - B. $7/9$
 - C. $1/6$
 - D. $5/12$**
-

Q.6 If $A = \{10, 11\}$ then which of the following is power set of A?

- A. $\{\{10\}, \{11\}, \{10, 11\}\}$
 - B. $\{\{10\}, \{11\}, \{10, 11\}, \{11, 10\}\}$
 - C. $\{\{\}, \{10, 11\}\}$
 - D. $\{\{\}, \{10\}, \{11\}, \{10, 11\}\}$**
-

Q.7 For a symmetrical data set mean value is 150 and standard deviation 25. 95% values will lie between

Q.1 Second moment about mean will be equal to:

- A. 0
- B. Variance**
- C. Mean
- D. Median

Q.2 If $Y=3X+5$, then S.D of Y is equal to

- A. 3 s.d(x)**
 - B. 9 s.d(x)
 - C. s.d(x)+5
 - D. 3s.d(x)+5
-

Q.3 In a drawer there are 5 black socks and 3 green socks. Two socks are picked randomly one after the other without replacement. What is the possibility that both the socks are black?

- A. 5/16
 - B. 5/8
 - C. 5/14**
 - D. 3/8
-

Q.4 In a linear regression, $Y=a+bX$, the variable "X" will always:

- A. A random variable
 - B. Quantitative variable**
 - C. Qualitative variable
 - D. A non-random variable
-

Q.5 In right-skewed distributions:

- A. median < mid-quartile range > midrange
 - B. median > mid-quartile range > midrange
 - C. median > mid-quartile range < midrange
 - D. median < mid-quartile range < midrange**
-

Q.6 If a distribution has negative skewness, in what order (lowest to highest) will the averages be?

- A. mode, median, mean
 - B. median, mode, mean
 - C. mean, mode, median
 - D. mean, median, mode**
-
-

Q.1 In a coin tossing example, we have only two possible outcomes, a head or a tail; this is an example of :

- A. Both of these
 - B. Equally likely events
 - C. None of these
 - D. **Mutually exclusive events**
-

Q.2 A group consists of three persons, A, B, & C. How many ways are there of selecting a group of two persons out of these three?

- A. 2
 - B. 1 **C. 3**
 - D. 6
-

Q.3 When a fair coin is tossed, what is the probability of getting head.

- A. 1/2**
 - B. All
 - C. 1
 - D. 0
-

Q.4 Consider a set $S = \{a, b, c, d, e\}$. Which set will make the PARTITION of S?

- A. $\{a, b\}$, $\{c, d\}$ and $\{a, e\}$
 - B. **$\{a, b\}$ and $\{c, d, e\}$**
 - C. $\{a, b, c\}$ and $\{c, d, e\}$
 - D. $\{ \}$ and $\{a, b, c, d, e\}$
-

Q.5 $P(\text{event}) = \text{No. of favorable outcomes} / \text{total no. of outcomes}$ is a definition of:

- A. Binomial event
 - B. Normal event
 - C. Subjective Approach
 - D. **Objective Approach**
-

Q.6 Co-efficient of standard deviation is:

- A. A relative measure of dispersion**
 - B. None
 - C. Both
 - D. An absolute measure of Dispersion
-

Q.7 For which of the following measures, we take deviations around mean in square form?

- A. Mean deviation

Q.1 For a certain distribution, A.M=136.75, Median=148.37 and Mode=152.80, then the distribution will be:

- A. Negatively Skewed**
 - B. Positively skewed
 - C. Symmetrical
 - D. Extremely negative J shaped
-

Q.2 What is the mode in the word STATISTICS:

- A. S & T**
 - B. S
 - C. I
 - D. T
-

Q.3 The number of classes in a frequency distribution is obtained by dividing the range of variable by the:

- A. Total frequency
 - B. Mid-point
 - C. Class interval**
 - D. Relative frequency
-

Q.4 The number of classes in a frequency distribution depends upon:

- A. Range**
 - B. Sample
 - C. Average
 - D. Population
-

Q.5 If the mean of two observations is 11.5, then the median of these two observations will be:

- A. 9.5
 - B. 11.5**
 - C. 10.5
 - D. 8.5
-

Q.6 For a symmetrical distribution having 10 values the mean is 20. Which one of the following is the mode of the distribution.

- A. 15
 - B. 5
 - C. 10
 - D. 20**
-

Q.7 The Sum of the deviations of the observations from their mean is:

Q.1 {\text{Formula for Quartile Deviation is:}}

- A. $\frac{Q_3 - Q_1}{2}$**
 - B. $\frac{Q_1 - Q_3}{2}$
 - C. $Q_1 + Q_3$
 - D. $Q_1 + Q_3$
-

Q.2 If diabetes is graded as mild, moderate, and severe, the scale of measurement used is:

- A. nominal
 - B. ratio
 - C. ordinal**
 - D. interval
-

Q.3 When data are collected in a statistical study for only a portion or subset of all elements of interest we are using:

- A. Both sample and parameter
 - B. A Population
 - C. A Parameter
 - D. A sample**
-

Q.4 If a researcher measures the weight of individuals, which type of scale is being used?

- A. Ratio**
 - B. Nominal
 - C. Interval
 - D. Ordinal
-

Q.5 The mean is obtained by

- A. Most frequent value in the data set
 - B. Dividing the sum of all observations by their number**
 - C. Divides a set of data into two equal parts
 - D. None of these
-

Q.6 Any population which we want to study is referred as?

- A. target population**
 - B. infinite population
 - C. final population
 - D. standard population
-

Q.7 Range is a/an measure of dispersion:

Q.16 Mr.Waqas is the CEO of Avid technology Pvt.ltd. He always encourages his employees to bring innovations in its operations and product line. He is performing which of the following managerial role?

- A. Communicator
- B. Entrepreneur**
- C. Monitor
- D. Negotiator

Q.17 Asma, a new manager at XYZ Inc. primarily worries about assembling and coordinating the human, financial, physical, and other resources needed to achieve her goals. Which function is Asma primarily concerned about?

- A. Planning
- B. Leading
- C. **Organizing**
- D. Controlling

Q.18 When Usman decided to deploy employees to another department that is lagging behind in production,he is acting in which of the following roles?

- A. Negotiator
- B. Spokesperson
- C. Resource allocator**
- D. Leader

Q.19 According to Adam Smith, the division of labor results in:

- A. Decreased worker specialization
- B. Increased worker motivation
- C. Decreased worker motivation
- D. Increased worker productivity**

Q.20 Which of the following is known as the process of getting activities completed efficiently and effectively with and through other people?

- A. Controlling
- B. Management**
- C. Supervision
- D. Leading

Q.21 Successful coordination of activities results from effectively carrying out which of the following function:

- A. Planning
 - B. Planning
 - Organizing
 - C. All of the given option**
 - D. Directing
-

Q.22 All of following are activities of planning function EXCEPT:

- A. Monitoring Performance
- B. Developing Plans
- C. Coordinate activities**
- D. Establishing strategies

Page 3

Q.23 The people who work under the first line managers are often called by all of the following names EXCEPT:

- A. Non managers**
- B. Skilled workers
- C. Semi skilled workers
- D. Supervisors

Q.24 When Shumaila is comparing actual sales figures with goals established earlier to see if her department met the target, she is performing which of the following functions?

- A. Leading
- B. Organizing
- C. Planning
- D. Controlling**

Q.25 The management function that defines goals and establishes strategies to achieve them is called:

- A. Controlling
- B. Organizing
- C. Leading
- D. Planning**

Q.26 Which of the following is the accurate sequence of management functions performed by a manager?

- A. Planning, leading, organizing, controlling
- B. Planning, organizing, leading, controlling**
- C. Planning, organizing, controlling, leading
- D. Planning, controlling, leading, organizing

Q.27 Interpersonal and communication skills are often referred to as:

- A. Planning skills
 - B. Technical skills
 - C. Conceptual skills
 - D. Human skills**

Q.28 Which of the following best describes the term “Total Quality Management”?

- A. Managing information in system
- B. Satisfying employees should be given more emphasis
- C. No compromise over product's excellence**
- D. Cost minimization

Q.29 How many users can access data stored in a database using SQL server?

- A. Exactly 50 users
- B. Many users concurrently**
- C. Maximum 10 users
- D. Only one user at a time

Q.30 Which of the following company develops SQL server software?

- A. Acer
- B. Oracle
- C. Microsoft**
- D. HP

Page 4

Q.31 Which of the following is the main user interface of Microsoft SQL server?

- A. Voice-activated interface
- B. Modular Interface
- C. Gesture-based Interface
- D. Graphical User Interface**

Q.32 A person who is responsible for proper working of database and DBMS is known as _____.

- A. Analyst
- B. Database Administrator**
- C. End User
- D. Application Programmer

Q.33 SQL server is a _____.

- A. Database
- B. Application program
- C. DBMS**
- D. Operating system

Q.34 Microsoft SQL server is a _____ DBMS.

STA301 MIDTERM MCQS

[JOIN Virtual University Whatsapp Group Click Here](#)

- A. Hybrid
- B. Network
- C. Hierarchical
- D. Relational**

Q.35 In SQL server, data is stored in database in the form of _____.

- A. Files
- B. Tables**
- C. Objects
- D. Images

Q.36 Identify the incorrect statement for the primary key.

- A. Primary key can be repetitive**
- B. Primary key is NOT NULL
- C. Primary key should be unique
- D. There is one and only one primary key per relation

Q.37 Which column can be an appropriate primary key for the following Building table? Building (Building id, BName, Location, Region)

- A. Region
- B. Building id**
- C. Location
- D. BName

Q.38 _____ can be called as Alternate Key.

- A. Candidate key**
- B. Foreign key
- C. Super key
- D. Primary key

Page 5

Q.39 Which column can be an appropriate candidate key for the following Branch table? Branch (Bname, assets, Bcity, Bprovince)

- A. assets
- B. Bname**
- C. Bprovince
- D. Bcity

Q.40 Which column cannot be an appropriate primary key for the following Student table? Student (S_ID, Reg#, CNIC, City)

- A. CNIC
- B. Reg#
- C. City**
- D. S_ID

Q.41 Tax revenues and government grants for a city are called its:

- A. Financial resources
- B. Physical resources**
- C. Informational resources D.
- Human resources

Q.42 An approach focusing on systematic study of work methods to improve the work efficiency is called:

- A. Scientific Management**
- B. Bureaucratic management
- C. Administrative managementD. Pre-classical projects

Q.43 A person who works with and through other people by coordinating their work activities in order to accomplish organizational goals is called:

- A. A manager**
- B. A very intelligent individual
- C. A supervisor of production workD. An operations supervisor

Q.44 Management function that involves motivating subordinates, influencing individuals or teams as they work, selecting the most effective communication channels, or dealing in any way with employee behavior issue is called:

- A. Controlling
- B. Planning
- C. Leading**
- D. Organizing

Q.45 Which of the following is not part of leading function?

- A. Influencing individual
 - B. Taking the corrective action**
 - C. Dealing employee behavior issues D.
 - Motivating subordinates
-

Q.46 The focus of bureaucracy is on:

- A. Structure of organization**
 - B. Culture of organization
 - C. Capital of organization
 - D. Well-being of society
-

Q.47 Determining how best to group activities and resources is defined as:

- A. Leading
 - B. Controlling
 - C. Organizing**
 - D. Planning and decision making
-

Q.48 All of the following are managerial roles identified in Mintzberg's Model EXCEPT:

- A. Interpersonal
 - B. Informational
 - C. Functional**
 - D. Decisional
-

Q.49 There is no difference between consumer and customer.

- A. True
 - B. False**
-

Q.50 Selling is managing profitable customer relationships.

- A. False**
 - B. True
-

Q.51 When backed by buying power, wants become demands.

- A. True**
 - B. False
-

Q.52 The production concept and product concept are two philosophies that can both lead to marketing myopia.

- A. True**
 - B. False
-

Q.53 Marketing management is interested in serving all customers in every way to remain competitive in today's markets.

- A. False**
 - B. True
-

Q.54 Want is something you desire but does not necessitate your existence.

- A. True**
- B. False

Q.55 The shelter is among one of the examples of needs.

- A. True**
- B. False

Page 7

Q.56 When backed by buying power, needs become demands.

- A. False**
- B. True

Q.57 The needs, wants, and demands are all the same.

- A. True**
- B. False

Q.58 Marketers of products, services, and ideas only practice marketing, whereas buyers do not.

- A. False** B.
- True

Q.59 Who among the following is acknowledged as the major figure in the study of moral development?

- A. Albert Bandura
- B. Erik Erikson
- C. Lawrence Kohlberg** D.
- Jean Piaget

Q.60 From which of the following group, older adolescents attribute their drug use?

- A. Parents
- B. Media
- C. Siblings
- D. Peers**

Q.61 LTB is an abbreviation of which of the following?

- A. Long time behavior
- B. Life threatening behavior**
- C. Long tangible behavior

D. Life temporary behavior

Q.62 Which of the following children are much better than preoperational children at classifying, working with numbers, dealing with concepts of time and space and distinguishing reality from fantasy?

- A. Formal operational
 - B. Sensorimotor
 - C. Post conventional
 - D. Concrete operational**
-

Q.63 Intense fear of becoming obese is a characteristic of:

- A. Bulimia Nervosa
 - B. Anorexia Nervosa**
 - C. Down Syndrome
 - D. Turner Syndrome
-

Q.64 Which one of the following statement about cognitive development is INCORRECT in adolescence?

- A. During adolescence, many individuals are able to deal with more abstract cognitive tasks
 - B. Deals with logical reasoning
 - C. There is an intellectual growth spurt during puberty
 - D. Piaget referred to adolescence as the period of Reflex actions**
-

Page 8

Q.65 Non aggressive children generally come from families where children were brought up with

- _____.
- A. Responsibility and accountability
 - B. Don'ts and restrictions
 - C. Punishment
 - D. Warmth and affection**
-

Q.66 In turner syndrome, the chromosomal configuration is _____.

- A. XXY
 - B. XF
 - C. **XO**. XG
-

Q.67 According to Greuling and De blassic, which of the following is the second leading cause of death among adolescents?

- A. Suicide**
 - B. Murder
 - C. Mercy killing
 - D. Euthanasia
-

Q.68 Children developed sex typed behavior. This was proved through observational learning by:

- A. Albert Bandura**
- B. Ivan Pavlov
- C. John Watson
- D. F Skinner

Q.69 Inventory holding period in days = ? ÷ Inventory turnover ratio

- A. Cost of goods sold
- B. Net Income
- C. Opening inventory
- D. Number of days in a year**

Q.70 If opening inventory of material is Rs.20,000 and closing inventory is Rs. 40,000.the Average inventory amount will be:

- A. Rs. 40,000
- B. Rs. 20,000
- C. Rs. 10,000
- D. Rs. 30,000**

Q.71 Which of the following cost is used in the calculation of cost per unit?

- A. Conversion cost
- B. Total material cost
- C. Cost of goods manufactured**
- D. Cost of goods available for sales

Q.72 Which of the given Inventory valuation method reports higher cost of goods sold?

- A. Average Cost
- B. First In First Out
- C. Last In First Out**
- D. Weighted Average

Q.73 A cost unit is

- A. A measure of work output in a standard hour

STA301 MIDTERM MCQS
LMS HANDLING AND FILES 0336 0668195

[JOIN Virtual University Whatsapp Group Click Here](#)

B. The cost per hour of operating a machine

- C. The cost per unit of electricity consumed
- D. A unit of product or services in relation to which costs are ascertained

Q.74 When factory overhead (FOH) is over applied and charged to cost of goods sold, the treatment would be as follows:

- A. Cost of goods sold at normal – over applied FOH =cost of goods sold at actual**
- B. Cost of goods sold at normal + over applied FOH =cost of goods sold at actual
- C. Cost of goods sold at normal X over applied FOH =cost of goods sold at actual
- D. Cost of goods sold at normal ÷ over applied FOH =cost of goods sold at actual

Q.75 Which of the following is correct?

- A. Units sold = Sales + Average units of finished goods inventory
- B. Units sold = Sales - Average units of finished goods inventory
- C. Units sold=Opening finished goods units + Units produced – Closing finished goods units**
- D. Units Sold = Units produced + Closing finished goods units - Opening finished goods units

Q.76 Which of the following is(are) form(s) of inventory of manufacturing entities?

- A. Finished goods inventory
- B. All of the given options**
- C. Work in process inventory
- D. Material and supplies inventory

Q.77 Inventory turnover ratio can be calculated as follow?

- A. Gross profit/Average inventory
- B. Cost of goods sold/Average inventory**
- C. Cost of goods sold/Gross profit
- D. Cost of goods sold/sale

Q.78 Opening inventory + Net Purchases - Closing inventory = ?

- A. Prime cost
- B. Direct Material used**
- C. Conversion cost
- D. Indirect material used

Q.79 Difference of complex numbers $(4 + 2i)$ and $(1 + 8i)$ is _____.

- A. $(5 - 10i)$
- B. $(3 - 10i)$
- C. $(5 - 6i)$

D. (3 - 6i)

Page 10

Q.80 Let $z = 7i$, then $\text{Arg}(z) =$ _____.

- A. $\{\pi/2\}$**
- B. $\{\pi/4\}$
- C. $\{\pi/3\}$
- D. $\{\pi/6\}$

Q.81 The entire complex plane is closed as well as open.

- A. False
- B. True**

Q.82

{\rm{The}}\,\,\,{\rm{exponential}}\,\,\,{\rm{form}}\,\,\,{\rm{of}}\,\,\,{\rm{the}}\,\,\,{\rm{complex}}\,\,\,{\rm{number}}\,\,\,z = 2 - 2i\,\,\,{\rm{is}}\,\,\,\,\,\,{\rm{.}}

- A. $2\sqrt{2}e^{-i\pi/4}$**
- B. $2\sqrt{2}e^{i\pi/4}$
- C. $2\sqrt{2}e^{i\pi/2}$
- D. $2\sqrt{2}e^{-i\pi/2}$

Q.83 $\text{Re}(z)$ of $z = (5 + 7i) + (3 - 2i)$ is _____.

- A. 8**
- B. 5
- C. 7
- D. 3

Q.84 Let $z = 5e^{i\frac{\pi}{6}}$, then z^{20} = _____.

- A. $z^{20} = \sqrt{5}e^{i\pi/10}$
- B. $z^{20} = \sqrt{5}e^{i\pi/3}$**

Q.85 Let $z + \overline{z} = 8$, then $\text{Re}(z) =$ _____.

- A. 8
- B. 4**
- C. 10
- D. 2

Q.86 The polar form of the complex function $f(z)$, $z = z^3$ is _____.

- A. $r^3(\cos 3\theta + j\sin 3\theta)$
B. $r^2(\cos 3\theta + j\sin 3\theta)$

Q.87 Let $z = 1 + j$, then $\text{Arg}(z) =$ _____.

- A. $2\pi/4$
B. $4\pi/4$
C. $3\pi/4$
D. $\pi/4$

Q.88 The root of the equation $6x + 1 = 3$ is _____.

- A. an irrational number. B. a rational number

Page 11

Q.89 The difference between human needs and wants is that needs are states of felt deprivation.

- A. True
B. False

Q.90 When sellers focus on existing needs and lose sight of underlying customer wants, they suffer from marketing myopia.

- A. False B. True

Q.91 When railroad companies thought that users wanted trains rather than transportation and overlooked the growing challenge of other modes of transportation they were following the selling concept.

- A. False B. True

Q.92 The societal marketing concept calls on marketers to balance consumer wants and desires, company profits, and society's interest.

- A. True
B. False

Q.93 Customer-perceived value depends on the product's perceived performance relative to a buyer's expectations.

- A. True
B. False
-

Q.94 Needs are not necessary but wants are the basic one.

- A. True
B. False

Q.95 Water is one example of the needs.

- A. False **B.**
True

Q.96 At times it becomes necessary to reduce demand for some products and services. When the government tries to reduce smoking of tobacco products, it adds more tax to the products and is practicing demarketing.

- A. False **B.**
True

Q.97 All of the following are associated with conceptual skills of top level managers EXCEPT:

- A. Visualize organization environment
B. Understand communication in sub units
C. Proficient in specialized field
D. Able to think complex situation

Q.98 Feedback of _____ is necessary to improve the quality of products and services.

- A. Investors
B. All of the given options
C. Employees
D. Customers

Q.99 Razaq is explaining a company policy to new employees. He is performing which one of the following roles?

- A. Organizational
B. Informational
C. Decisional
D. Interpersonal

Q.100 Executive vice president, president, managing director, chief operating officer, chief executive officer, or chairman of the board are positions associated with which of the following levels of management?

- A. Middle managers
B. Top managers
C. First-line managers D.
Team leaders

Q.101 Which of the following field of study concerned with the allocation, distribution of scarce resources and discuss the role of competition and free markets in a global context?

- A. Sociology
- B. Anthropology
- C. All of the given options
- D. Economics**

Q.102 In terms of the sequential relationship, the first function requiring managerial attention is:

- A. Controlling
- B. Planning**
- C. Coordinates
- D. Directing

Q.103 Division of tasks among individuals usually results in:

- A. Decreased productivity
- B. Higher production cost
- C. Increased specialization**
- D. Reduced efficiency

Q.104 Statement of changes in Equity is also known as:

- A. Cash Flows Statement.
- B. Income Statement.
- C. Equity Statement.**
- D. Bank statement.

Q.105 Which of the following inventory system maintains a complete and continuous record of movement of each inventory?

- A. Perpetual Inventory system**
- B. Periodic inventory system
- C. Physical inventory system
- D. None of the given options

Q.106 Direct Material consumed = Material Purchased + Freight Inward - Purchase discount - ?

- A. Work in process opening inventory

STA301 MIDTERM MCQS

- B. Work in process closing inventory
 - C. Raw material opening stock
 - D. Raw material closing stock**
-

Q.107 Which of the following is considered as product cost:

- A. All of the given options**
 - B. Material cost
 - C. Labor cost
 - D. FOH cost
-

Q.108 Direct Material used + Direct labor + Factory overhead Cost=?

- A. Indirect material used
 - B. Prime cost
 - C. Total factory cost**
 - D. Conversion cost
-

Q.109 Which of the following is true for total factory cost?

- A. Total factory cost = prime cost + conversion cost + FOH
 - B. Total factory cost = conversion cost + FOH
 - C. Total factory cost = prime cost + FOH**
 - D. Total factory cost = prime cost + conversion cost
-

Q.110 Which of the following is(are) advantage(s) to use Perpetual Inventory System?

- A. All of the given are advantages
 - B. It helps to identify obsolete inventory.**
 - C. It requires higher cost to maintain inventory.
 - D. It requires complex computation to maintain record.
-

Q.111 Which of the following costs is part of the prime cost for manufacturing company?

- A. Depreciation of truck used for deliveries to customers
 - B. Cost of transporting raw materials from the supplier's premises**
 - C. Cost of indirect production materials
 - D. Wages of factory workers engaged in machine maintenance
-

Q.112 When factory overhead (FOH) is under applied and charged to cost of goods sold, the treatment would be as follows:

- A. Cost of goods sold at normal - under applied FOH = cost of goods sold at actual
- B. Cost of goods sold at normal X under applied FOH = cost of goods sold at actual
- C. Cost of goods sold at normal + under applied FOH = cost of goods sold at actual**
- D. Cost of goods sold at normal ÷ under applied FOH = cost of goods sold at actual

Q.113 The marketing manager informed the marketing vice-president about the specific marketing strategies of new product a competitor is planning to launch. Manager has performed role as a:

- A. Monitor**
- B. Disseminator
- C. Spokesperson
- D. Liaison

Page 14

Q.114 The term “ Red Tap-ism” is mostly associated with:

- A. Bureaucracy**
- B. Effectiveness
- C. Impersonality
- D. None of the given

Q.115 The Head of City bank congratulating a new group of management trainees. The role he is performing as:

- A. Liaison
- B. Leader
- C. Figurehead**
- D. Spokesperson

Q.116 A supervisor is teaching an employee to use a piece of equipment safely. Which one of the following skills is most important for supervisor?

- A. Human skills
- B. Technical skills**
- C. Strategic skills
- D. Conceptual skills

Q.117 When the frequency distribution or curve departs from symmetry, is called

- A. Positively Skewed
- B. Skewed**
- C. Negatively Skewed
- D. None of these

Q.118 Sum of the absolute deviations of the values is least when deviations are taken from:

- A. Median**
- B. Mode
- C. Mean
- D. G.M

Q.119 A diagram in which each circle is divided into different sectors is called

A. Pie Chart

- B. Multiple Bar Chart
- C. Simple Bar Chart
- D. Component Bar Chart

Q.120 Frequency of a variable is always in:

- A. Percentage form
- B. Fraction form
- C. Integer form**
- D. Less than form

Q.121 Calculate range for the following data:

- A. 90
- 22, 22, 30, 32, 37, 48, 60, 88, 90**
- B. 37
 - C. 22
 - D. 68**

Page 15

Q.122 2nd Quartile = 5th Decile = 50th Percentile =?

- A. Mode
- B. Geometric Mean
- C. Median**
- D. Harmonic Mean

Q.123 Which of the following is not a graph of Qualitative Variable?

- A. None of the above
- B. Bar Chart
- C. Pie Chart
- D. Histogram**

Q.124 In statistics, a population consists of:

- A. All People living in the area under study
- B. All subjects or objects whose characteristics are being studied**
- C. All People living in a country
- D. All adult people in a city

Q.125 If you have 26.95 – 29.95 class boundaries then the mid point will be:

STA301 MIDTERM MCQS
