Paper 1

Cs627 today's Paper 2:15pm

Mcqs we're conceptual but easy

Mcqs Virus, cyber Attacks,Nmap or cyber forensic se the Or 3 ISO standards se bhi the

Short Questions

1. Nmap ki default ports

Page71

2.Trojan horse

Page447

3.Phishing techniques

Page735

4.Demerits of ISO 2013

Page380

5.SSL handshake steps

Page656

mahjabeen97869@gmail.com

6.ISO k contents (jis mai 4 way handshake ha) content ni Mila clause hy

Page375

7.Data hiding techniques and real-world examples

Page575

8.Disa stig k five content names

Page314

Paper 2

Today paper cs627 5:30 pm

Mostly McQs virus attack mn Sy aye thy

1.Nmap ki command.

Page38

2.Security standard

Page403

3.IEEE 802.11 ky operation names likhny thy

Page476

mahjabeen97869@gmail.com

4.Software errors

Page519 or flaw it is page 522

5.Cyber security laws likhny thy

Page753

Paper 3

Today cs627 paper.5:30pm

Buffer overflow Mai sy b thy Ssh, ssl related mcqs

1.Nmap related questions

Page30

2.Zenmap profiles

Definition on page 110 (Profiles on page130)

3.Buffer vulnerability related questions

Page 490 to 493

4.Os security related mcqs and questions

Page 677

5.Cyber crimes types and more related mcqs and questions

marijabeen97869@gmail.com

Page707

6.Difference between computer forensic and network forensic long question tha Is k related mcqs b thy

Page 559 and 561

7.Malware types and related mcqs and questions

Page 426

Paper 4

Today papr cs627

Mcqs last week's se..or too much difficult totaly about primary process related (page 684 or 86) mcqs

1.Nmap command

Page30

2.Flages

Page38

3.famous attack

Page733

4.cyber crime team

mahjabeen97869@gmail.com

Page590 last page

5.Current Pakistan Situation

Page755

6.Buffer overflow se related tha

Page490

Bki conceptual thy swal

Overall papr tough

Achy se tyri kry jin ka rah gya...best of luck

Paper 5

Nmap se thy kuch mcqs or

1.Question b tha 5 marks ka flags btany thy

Page38

2.cis and disa ka comparison tha short me

Page371

3.Virus ki types k name thy short me

Page428 sy 439

mahjabeen97869@gmail.com

4.Source code Shell-code

Page510

5.buffer overflow se related

Page490

6.FTPS wala tha question

Page607

long me

1.Type of virus

Page428

2.What is DISa Stigs.

Page300

Bki week 8 9 10 13 14 imp hyn mostly paper yhan

sy Ara hy

Paper 6

Short questions

mahjabeen97869@gmail.com

3.Comparison aya tha cis vs cis disa

Page371

2.Aik ransomware ki definition thi

Page 443 ,709

3.locard principalof

Page543

4.forensic science

Page541

5.Top five error in software

Page 520 or 522

6. NMap ki definition

Page29

7.secure shell k bhry ma pucha hua tha aik

Page646

8.Version of CIS CSAT

Page279

9.Types of malware

marijabeen97869@gmail.com

Page426

10.Différence pucha hua tha computer forensic ur network forensic

Page 559 and 561

11. Computer frauds k bhry ma bhi tha koi question

Page708

12. Iso27002:2013 eska bhi aik question tha

Page384

13. ports state bhi thi Nmap ki

Page53

Paper 7

Short Questions:

1. What are the three phishing technique...

Page735

2. What is trojan horse?

Page447

marijabeen97869@gmail.com
