COURSE: CS001

MCQ's File For Final Exams

Module # 04 to 05

Module # 04

Saving an Excel File

What is the primary purpose of the "Save As" command in Excel?

- a) Recovering unsaved files
- b) Saving a file for the first time**
- c) Creating a backup file
- d) Renaming an existing file

When using the "Save As" command, where is the default location for saving the file?

- a) Desktop
- b) My Documents folder**
- c) C: Drive
- d) Downloads folder

How can you convert an entire Excel workbook into a PDF file?

- a) Use Save command
- b) Select PDF from the Save As options
- c) Click on Option button and choose PDF**
- d) Save each worksheet separately

What mathematical symbol represents multiplication in Excel formulas?

- a) +
- b) -
- c) /
- d) ***

In Excel, how do you edit a formula using the point-and-click method?

- a) Double-click on the cell**
- b) Press Ctrl+F2
- c) Right-click and select Edit Formula
- d) Enter the formula in the formula bar

What is the default name for the first three worksheet tabs in Excel?

- a) Sheet A, Sheet B, Sheet C
- b) Tab1, Tab2, Tab3
- c) sheet1, sheet2, sheet3**
- d) Excell1, Excel2, Excel3

How can you group multiple worksheets in Excel?

- a) Right-click and select Group
- b) Press Ctrl key and click on tabs**
- c) Use the Freeze Panes option
- d) Go to View tab and select Group

What action is performed using the Freeze Panes feature in Excel?

- a) Locking cells for editing
- b) Grouping worksheets
- c) Making specific rows or columns visible while scrolling**
- d) Deleting unwanted data

In Excel, which layout style is better for printing when dealing with a large number of columns?

- a) Landscape Style**
- b) Portrait Style
- c) Horizontal Style
- d) Vertical Style

What option is chosen to fit an entire Excel sheet on one printed page?

- a) No Scaling**
- b) Fit to Page
- c) Shrink to Fit
- d) Scale to Fit

What is the purpose of the margin in printing a worksheet in Excel?

- a) Adjusting page layout**
- b) Controlling font size
- c) Printing background colors
- d) Adjusting worksheet size

12. How can you break a worksheet in Excel?

- a) Use the Freeze Panes option
- b) Insert a page break**
- c) Delete unwanted rows
- d) Group worksheets

Creating Complex Formulas

In complex formulas, what is the significance of the order of operations?

- a) It has no impact on the result
- b) It determines the sequence of mathematical operations**
- c) It affects the font style in Excel
- d) It controls cell formatting

What does a cell reference with a \$ sign at the start represent in Excel?

- a) Relative cell reference
- b) Absolute cell reference**
- c) Mixed cell reference
- d) Circular cell reference

How can a function be changed to its absolute reference in Excel?

- a) Press F2
- b) Press Ctrl+C
- c) Press F4**
- d) Press Alt+Tab

What is the purpose of the Auto Sum dropdown list in Excel?

- a) Adjusting column widths
- b) Applying conditional formatting
- c) Calculating common functions like Sum, Average, etc.**
- d) Creating pivot tables

Which operation is performed first in the order of operations in complex formulas?

- a) Addition/Subtraction
- b) Multiplication/Division
- c) Operations within parentheses**
- d) Caret (^) operations

What does the NETWORKDAYS function in Excel calculate?

- a) Total days in a month
- b) Number of working days between two dates**
- c) Sum of a range of cells
- d) Average of a range of cells

Which tab in Excel contains the Function Library and Auto Sum dropdown list?

- a) Home
- b) Insert
- c) Data
- d) Formula**

What is the purpose of the \$ sign in a cell reference in Excel?

- a) Indicates a circular reference
- b) Represents a mixed cell reference
- c) Denotes an absolute cell reference**
- d) Marks a hidden cell

How do you use the Auto Sum feature to calculate the sum of a range of cells?

- a) Press Enter without selecting cells
- b) Select cells, go to Formula tab, click Auto Sum, and choose Sum**
- c) Use the Ctrl+Shift+S shortcut
- d) Enter the formula manually in the formula bar

Sorting Data

What is sorting in MS Excel?

- a) Filtering data
- b) Arranging data in a specific order**
- c) Highlighting data
- d) Deleting data

How can you apply sorting in a worksheet?

- a) Click on Home tab and select Sort
- b) Click on Review tab and choose Sort from the dropdown
- c) Click on Data tab and choose Sort from the dropdown**
- d) Click on Insert tab and select Sort

What is the purpose of using templates in MS Excel?

- a) To create charts
- b) To apply conditional formatting
- c) To change table color
- d) To use predefined color combinations, effects, and settings**

What is the purpose of using charts in MS Excel?

- a) To organize data
- b) To hide meanings of numbers
- c) To represent data graphically and compare figures**
- d) To apply conditional formatting

How do you create a chart in a worksheet?

- a) Click on Home tab and select Chart
- b) Click on Review tab and choose Chart from the dropdown
- c) Click on Insert tab and choose Chart from the dropdown**
- d) Click on Data tab and select Chart

What feature is used for tracking changes in MS Excel?

- a) Comments
- b) Track Changes**
- c) Conditional Formatting
- d) Document Inspector

How can you insert a comment in a cell?

- a) Press Shift+C
- b) Right-click on the cell and select Comment**
- c) Click on Home tab and choose Comment
- d) Press Shift+F2

What does the Document Inspector do in MS Excel?

- a) Inserts comments
- b) Checks for spelling errors
- c) Inspects and removes sensitive information**
- d) Creates charts

What does conditional formatting in MS Excel involve?

- a) Sorting data
- b) Applying formatting based on certain conditions**
- c) Creating charts
- d) Inserting comments

What is a Pivot Table used for in MS Excel?

- a) Sorting data
- b) Organizing data
- c) Summarizing and analyzing data**
- d) Applying conditional formatting

Module # 05

Introduction

What is the purpose of the Backstage View in Microsoft PowerPoint 2010?

- a) A new type of slide animation
- b) Environment settings for PowerPoint
- c) Access to file-related commands and options**
- d) Presentation layout customization

Where can you find the Ribbon and Quick Access Toolbar in PowerPoint?

- a) Below the slide view
- b) On the right side of the screen
- c) On the top of the screen**
- d) Inside the Backstage View

What can be customized in the Ribbon?

- a) Fonts and colors
- b) File-related commands
- c) Themes and slide layouts
- d) Different tabs and groups of commands**

How do you minimize or show the Ribbon in PowerPoint?

- a) Click on the ^ button on the Ribbon bar
- b) Right-click and select Minimize the Ribbon**
- c) Press F5 on the keyboard
- d) Access it from the Backstage View

Which option is selected by default when creating a new presentation in Backstage View?

- a) Open
- b) Save
- c) Blank Presentation**
- d) Theme Selection

What is the shortcut to open a new blank document?

- a) Ctrl + N**
- b) Ctrl + M
- c) Ctrl + O
- d) Ctrl + S

What appears when you click on the File button on the Ribbon bar?

- a) Slide Show
- b) Backstage View**
- c) Home Tab
- d) Slide Sorter View

What is the purpose of the Backstage View?

- a) Creating dynamic slide presentations
- b) Accessing file-related options and commands**
- c) Adding animations to slides
- d) Customizing slide layouts

Which tab do you select to add a new slide in PowerPoint?

- a) Slide Show
- b) Insert
- c) Home**
- d) Design

What is the shortcut to instantly generate a slide with the same layout as the current one?

- a) Ctrl + M**
- b) Ctrl + N
- c) Ctrl + D
- d) Ctrl + S

Which tab do you go to customize the layout of a slide?

- a) Design**
- b) Home
- c) Insert
- d) Slide Show

How can you remove a placeholder from a slide?

- a) Press Ctrl + X
- b) Select and press Backspace/Delete**
- c) Right-click and choose Remove Placeholder
- d) Drag it off the slide

In which view can you arrange different files or see different presentation files?

- a) Normal View
- b) Slide Sorter View**
- c) Reading View
- d) Slide Master View

What is the purpose of Slide Sorter View?

- a) Customize slide layouts
- b) Check for extra slides in a presentation**
- c) Create dynamic slide animations
- d) Fine-tune indentation

Which tab do you access to change the view of a slide?

- a) Design
- b) View**
- c) Slide Show
- d) Home

What is the purpose of the Slide Layout dropdown list?

- a) Adjust bullet spacing
- b) Change slide animations
- c) Customize slide layout**
- d) Apply themes

What is the purpose of the Notes section in PowerPoint?

- a) Add animations to slides
- b) Insert tables and charts
- c) Provide additional information for the presenter**
- d) Change the color theme

Where can you find the option to add notes in a slide?

- a) Home tab
- b) Insert tab
- c) View tab**
- d) Design tab

How can you indent text in a slide using the Tab key?

- a) Click on the Increase Indent button in the Home tab
- b) Press Tab key on the keyboard**
- c) Right-click and choose Indent from the context menu
- d) Use the Increase Indent option in the Format tab

What is the result of further indenting a list with already indented text?

- a) Line spacing adjustment
- b) Slide layout customization
- c) Multilevel list creation**
- d) Theme application

How do you number the slides in PowerPoint?

- a) Insert tab > Slide Number button**
- b) Home tab > Slide Number dropdown
- c) Design tab > Slide Number option
- d) View tab > Slide Number settings

Which tab is selected by default in the Header and Footer Dialogue box?

- a) Home
- b) Insert
- c) Design
- d) Slide**

What is a theme in PowerPoint?

- a) A collection of color combinations and fonts**
- b) A type of slide animation
- c) Customized slide layouts
- d) A file-related option

Where can you change the theme in PowerPoint?

- a) Slide Show tab
- b) Design tab**
- c) View tab
- d) Home tab

Which tab do you go to insert an image from a file?

- a) Home
- b) Insert**
- c) Design
- d) View

What command is used to insert an image from a file?

- a) Clipart
- b) Screenshot
- c) Picture**
- d) Drawing Box

Where can you find the option to use a Blank Slide?

- a) Insert tab > Blank Slide
- b) Design tab > Blank Slide
- c) Home tab > Layout dropdown**
- d) View tab > Blank Slide option

What is the purpose of a Blank Slide?

- a) Apply a theme to the presentation
- b) Insert smart graphics
- c) Create a slide without predefined content**
- d) Customize bullet spacing

How can you instantly generate a slide with the same layout as the current one?

- a) Press Ctrl + M**
- b) Click on the New Slide button
- c) Right-click and choose Duplicate Slide
- d) Press Ctrl + N

How do you copy and paste a slide in PowerPoint?

- a) Home tab > Copy/Paste commands
- b) Right-click and choose Duplicate Slide
- c) Ctrl + C to copy, Ctrl + V to paste**
- d) View tab > Slide Sorter View > Copy/Paste

Move, Copy or Delete the text

What is the default direction of a PowerPoint slide?

- a) Portrait
- b) Landscape**
- c) Vertical
- d) Horizontal

How can you change a slide to portrait orientation?

- a) Design tab > Slide Orientation dropdown > Portrait**
- b) Slide Show tab > Page Setup > Portrait
- c) View tab > Page Setup > Portrait
- d) Home tab > Slide Size > Portrait

Where can you find the option to add notes for a slide presenter?

- a) Home tab > Notes button
- b) Insert tab > Presenter Notes
- c) View tab > Notes Page**
- d) Design tab > Slide Notes

What is the purpose of Presenter Notes in PowerPoint?

- a) Customize slide layouts
- b) Provide additional information for the presenter**
- c) Apply animations to slides
- d) Insert images

Which tab do you access to use the spell-check program in PowerPoint?

- a) Home

b) Review

- c) Insert
- d) Design

What is the shortcut to initiate the spell-check after selecting text?

- a) F5
- b) F7**
- c) Ctrl + S
- d) Ctrl + P

How can you preview a PowerPoint presentation in Slide Sorter view?

- a) View tab > Slide Sorter**
- b) Design tab > Sort Slides
- c) Slide Show tab > Preview Slides
- d) Home tab > Print > Slide Sorter

What is the purpose of selecting "Collated" in the Print Menu list?

- a) Print individual slides
- b) Print slides in groups**
- c) Adjust print settings
- d) Enable grayscale printing

Where can you find the option to insert different objects in PowerPoint?

- a) View tab > Objects
- b) Insert tab > Object**
- c) Home tab > Drawing
- d) Design tab > Shapes

How do you draw various shapes in PowerPoint?

- a) Design tab > Drawing
- b) Home tab > Shapes**
- c) Insert tab > Object
- d) View tab > Drawing Tools

How can you change the color of a shape in PowerPoint?

- a) Design tab > Shape Color
- b) Home tab > Fill Color**
- c) View tab > Object Color
- d) Insert tab > Color Options

In which group of commands can you find options to change the attributes of a shape?

- a) Design tab > Drawing Tools**
- b) Insert tab > Format

- c) Home tab > Font
- d) View tab > Object Settings

Which tab do you use to scale and move objects in PowerPoint?

- a) Home
- b) Design
- c) View
- d) Format**

How can you duplicate an image using copy and paste commands?

- a) Select the image, Home tab > Copy, and then Home tab > Paste
- b) Right-click the image, Format > Copy, and then Format > Paste
- c) Ctrl+C to copy and Ctrl+V to paste**
- d) Home tab > Duplicate Image

What is a tool used to represent data graphically in PowerPoint?

- a) Animation
- b) Chart**
- c) Slide Sorter
- d) Placeholder

Where can you find the option to insert a chart in PowerPoint?

- a) View tab > Chart
- b) Insert tab > Chart**
- c) Home tab > Chart Options
- d) Design tab > Insert Chart

What is the shortcut for increasing font size in PowerPoint?

- a) Ctrl + B
- b) Ctrl + I
- c) A^ button**
- d) Aa/ button

How can you clear the formatting of selected text?

- a) Format tab > Clear Formatting
- b) Home tab > Aa/ button**
- c) View tab > Clear Text
- d) Design tab > Reset Formatting

Which option is used to insert character spacing on selected text?

- a) AV**
- b) A^
- c) Aa/

d) Aav

What are the different character spacing options in PowerPoint?

- a) Tight, Normal, Loose
- b) Small, Medium, Large
- c) Narrow, Wide, Extra Wide
- d) Very Tight, Tight, Normal, Loose, Very Loose**

What does "Aav" represent in PowerPoint?

- a) Text shadow
- b) Line spacing
- c) Character spacing
- d) Case options**

Which option under "Aav" changes the selected text to Uppercase?

- a) Sentence Case
- b) Lowercase
- c) Uppercase**
- d) Toggle Case

What is the shortcut to initiate spell check in PowerPoint?

- a) F5
- b) F7**
- c) Ctrl + P
- d) Ctrl + S

Where can you find the spell check option in PowerPoint?

- a) Home tab > Spell Check
- b) View tab > Spelling
- c) Review tab > Spelling**
- d) Insert tab > Check Spelling

Where can you find options to draw various shapes in PowerPoint?

- a) Design tab > Drawing Tools
- b) Home tab > Shapes**
- c) Insert tab > Object
- d) View tab > Drawing Tools

What is the purpose of the Format Object dialogue box?

- a) Insert images
- b) Change slide orientation
- c) Customize line spacing
- d) Modify the attributes of an object**

What is the first step for selecting a suitable presentation slide view?

- a) Click on the Design tab
- b) Click on the View tab**
- c) Click on the Insert tab
- d) Click on the File tab

How can you change the slide orientation to Portrait?

- a) Design tab > Page Setup > Portrait**
- b) View tab > Slide Orientation dropdown > Portrait
- c) Slide Show tab > Slide Orientation > Portrait
- d) Home tab > Change Orientation > Portrait

Where can you set animation effects in slides?

- a) Home tab > Animation**
- b) Design tab > Animation Effects
- c) View tab > Slide Show
- d) Animation tab > Set Effects

How can you preview animation effects in PowerPoint?

- a) Review tab > Preview
- b) Animation tab > Preview**
- c) Slide Show tab > Animation Preview
- d) Animation tab > Timing

What is the purpose of the "Timing" group of commands under the Animation tab?

- a) Set slide transition effects
- b) Adjust animation timing**
- c) Preview animations
- d) Change animation effects

What is the purpose of adding transitions between slides?

- a) Change slide orientation
- b) Enhance slide content**
- c) Add presenter notes
- d) Adjust font size

Change Preset Animation Effect

How to create a slide show?

- A. Slide Show -> Create

B. Insert -> New Slide Show

C. Slide Show -> Start

D. Design -> Slide Show

How to use on-screen navigation tools?

A. Navigation -> On-Screen

B. Slide Show -> Navigation Tools

C. View -> Navigation

D. Slide Show -> On-Screen Navigation Tools

How to hide slides?

A. Slide -> Hide

B. Slide Show -> Hide

C. Home -> Hide

D. Slide Show -> Setup -> Hide

How to insert Smart Art Graphics in a presentation?

A. Insert -> Graphics -> Smart Art

B. Design -> Smart Art

C. Insert -> Smart Art

D. Smart Art -> Insert

How to modify colors and effects?

A. Design -> Modify

B. Slide Show -> Effects

C. Smart Art -> Format

D. Design -> Colors

How to change the organization of graphics in the presentation?

A. Design -> Organize Graphics

B. Graphics -> Change Organization

C. Format -> Organize

D. Smart Art -> Design -> Change Colors

How to insert hyperlinks?

A. Home -> Insert -> Hyperlink

B. Design -> Hyperlink

C. Insert -> Hyperlink

D. Hyperlink -> Insert

How to insert Action Buttons?

A. Home -> Insert -> Action Button

B. Insert -> Action -> Button

- C. Slide Show -> Action Buttons
- D. Design -> Insert -> Action

How to insert a table?

- A. Design -> Insert -> Table
- B. Insert -> Table**
- C. Home -> Table
- D. Table -> Insert

How to apply Table style?

- A. Table -> Style
- B. Format -> Table Style
- C. Design -> Apply Style
- D. Design -> Table Style**

How to format the table using different commands?

- A. Design -> Format Table
- B. Table -> Format
- C. Format -> Table**
- D. Table -> Design -> Format

How to rehearse and practice a presentation?

- A. Slide Show -> Rehearse**
- B. Design -> Practice
- C. Record -> Presentation
- D. Slide Show -> Record Slide Show

How to record slide shows in advance?

- A. Slide Show -> Record
- B. Slide Show -> Record Slide**
- C. Record -> Advance
- D. Slide Show -> Record Advance

What is the option to present a slideshow as a video?

- A. File -> Create Video**
- B. Slide Show -> Video Presentation
- C. Record -> Slideshow Video
- D. File -> Save As Video

How to broadcast a slideshow?

- A. Slide Show -> Broadcast**
- B. Broadcast -> Slideshow
- C. View -> Broadcast

D. File -> Broadcast

Module # 06

Introduction

What does WWW stand for?

- A. World Wide Window
- B. Web Wireframe Workshop
- C. World Wide Web**
- D. Web Widget Warehouse

Which component of a website contains text, sound, images, and videos?

- A. Web Server
- B. Web Page**
- C. Website
- D. Web Browser

What is the purpose of a Web Server?

- A. To browse the internet
- B. To run websites and store web pages**
- C. To connect to the ISP
- D. To search the World Wide Web

Which protocol is used to transfer WebPages from a web server to a web browser?

- A. FTP
- B. TCP/IP
- C. HTTPS
- D. HTTP**

What does ISP stand for?

- A. Internet Security Protocol
- B. Internet Service Provider**
- C. Internet Signal Processor
- D. Internet System Protocol

Which bar in Internet Explorer displays the URL of the open web page?

- A. Status Bar

B. Menu Bar

C. Address Bar

D. Title Bar

How can you change the home page in a web browser?

A. Click Tools < Internet Options < General < Address

B. Click File < New < Window

C. Click View < Refresh

D. Click View < Zoom

What is the purpose of the Minimize button in Internet Explorer?

A. To close the browser

B. To minimize the window

C. To open a new tab

D. To refresh the page

How can you stop a web page from downloading?

A. Click View < Stop

B. Press F5 key

C. Right Click on the page

D. Click File < New < Window

What is the primary purpose of Search Engines?

A. To create websites

B. To explore information on the World Wide Web

C. To provide internet services

D. To send emails

Which protocol provides safe communication between two computers?

A. HTTP

B. TCP/IP

C. HTTPS

D. FTP

How can you display previously visited sites in a browser?

A. Press F1 key

B. Click View < Refresh

C. Press Ctrl+H

D. Click File < Close

What is the purpose of the New Tab button in Internet Explorer?

A. To open a new browser window

B. To close the browser

C. To open a new tab for multiple pages

D. To refresh the page

How can you change the number of days in the history list of a browser?

A. Click File < New < Window

B. Click Tools < Internet Options

C. Press Ctrl + for Zoom in

D. Click View < Refresh

Which option is used to change the webpage text size in Internet Explorer?

A. Click View, Choose Text size

B. Click Tools < Internet Options

C. Press Ctrl – for Zoom out

D. Click View < Zoom

Web Navigation

How can you go to any URL in a web browser?

A. Click Backward button

B. Type the URL in the address bar

C. Click Forward button

D. Click Home button

What is the purpose of the Forward button in web navigation?

A. To go to the previous page

B. To move forward to the next page

C. To move to the home page

D. To open a new tab

How can you activate a hyperlink or image link in a web page?

A. Right-click and select Open in New Tab

B. Press Ctrl + Click on the link

C. Click View < Go to and select the website

D. Click File < Save As

How do you move backward in a visited website using the keyboard?

A. Alt + Left

B. Alt + Right

C. Ctrl + B

D. Ctrl + V

How can you place a bookmark on a web page?

- A. Click Favorite button from the toolbar
- B. Click File < Save As
- C. Right-click and select Add to favorites**
- D. Click Edit < Copy

What is the purpose of creating a bookmark folder?

- A. To organize favorites**
- B. To print a web page
- C. To move forward in navigation
- D. To delete a bookmark

How can you delete a bookmarked web page?

- A. Click Edit < Copy
- B. Right-click and select Delete**
- C. Click File < Save As
- D. Click View < Go to

How can you display bookmarked pages on the toolbar as a shortcut?

- A. Click Edit < Paste
 - B. Click View < Toolbar < Favorites Bar**
 - C. Click File < Save As
 - D. Click View < Refresh
- Answer: B. Click View < Toolbar < Favorites Bar

What is the method to copy a text from a web page to a document?

- A. Press Ctrl + V
- B. Click Edit < Copy**
- C. Right-click and select Save Target As
- D. Click View < Go to

How can you save a web page on the hard disk for offline viewing?

- A. Click File < Save As**
- B. Click View < Refresh
- C. Press Ctrl + Click on the link
- D. Right-click and select Delete

Search Engines

How do search engines work to find information on the web?

- A. By storing information about web servers
- B. By visiting websites using spiders and web crawlers**

- C. By creating a central repository of URLs
- D. By refreshing web pages at regular intervals

What is the function of a spider in the context of search engines?

- A. To create a central repository
- B. To refresh web pages
- C. To visit websites in parallel**
- D. To store information about web servers

Which term is used for the repository of web server URLs created by a spider?

- A. Index
- B. Database**
- C. Search box
- D. Query

How can you refine and narrow search results using Boolean operators?

- A. By using a spider
- B. By clicking on Advanced Search
- C. By selecting a search engine
- D. By combining selection criteria using AND, OR, and NOT**

What does using the AND operator in a search mean?

- A. Show webpages containing either of the words
- B. Show webpages containing both words**
- C. Show webpages containing only the first word
- D. Show webpages containing only the second word

How can you perform a specific site search using a search engine?

- A. By clicking on Advanced Search
- B. By using Boolean operators
- C. By writing the keyword in double quotations**
- D. By selecting a search engine

Which Boolean operator is used to show webpages containing either of the words?

- A. AND
- B. OR**
- C. NOT
- D. XOR

What is the purpose of using the NOT operator in a search?

- A. To show webpages containing both words
- B. To exclude webpages containing the specified word**
- C. To show webpages containing either of the words

D. To combine selection criteria

How can you access advanced search options in a search engine?

- A. By clicking on the settings**
- B. By using Boolean operators
- C. By writing the keyword in double quotations
- D. By clicking on Advanced Search

Where can search results be found in different forms such as images, videos, and books?

- A. In the database
- B. In the central repository
- C. In the Advanced Search**
- D. In the search engine settings

Email Application

What is the application used to send or receive emails called?

- a) Internet Explorer
- b) Email application**
- c) Microsoft Word
- d) Adobe Acrobat

Which of the following is NOT an example of an email application?

- a) Microsoft Outlook
- b) Incredimail
- c) Windows Live
- d) Adobe Photoshop**

In Microsoft Outlook, how can you access the application?

- a) Click Start, All Programs, Microsoft Office, Microsoft Outlook**
- b) Click Start, Control Panel, Microsoft Outlook
- c) Click Start, Documents, Microsoft Outlook
- d) Click Start, Settings, Microsoft Outlook

Which option should you select while configuring the email account if you want to proceed without email support in Microsoft Outlook?

- a) Select Yes
- b) Select No**
- c) Select Maybe
- d) Select Skip

Where can you find the option to configure email account settings in Microsoft Outlook?

- a) File > Account Settings > New**
- b) Tools > Options > Email Settings
- c) View > Account Configuration
- d) Edit > Email Preferences

How can you mark an email message as read or unread in Microsoft Outlook?

- a) Double-click on the message
- b) Right-click on the message and select Mark as Read/Unread**
- c) Drag the message to a different folder
- d) Press the Delete key

What should you do to create a new email in Microsoft Outlook?

- a) Click on the Inbox
- b) Right-click on an email
- c) Click the New button in the Home tab**
- d) Press Ctrl + N

Where can you find the option to download an attached file from an email in Microsoft Outlook?

- a) Right-click on the attachment**
- b) Click on the sender's email address
- c) Click on the subject line
- d) Hover over the attachment icon

What feature allows you to search for specific emails using keywords in Microsoft Outlook?

- a) Filter
- b) Search Box**
- c) Sort
- d) Index

Which tab allows you to proofread email messages in Microsoft Outlook?

- a) Home
- b) View
- c) Review**
- d) Edit

Which of the following steps is NOT involved in configuring an email account in Microsoft Outlook?

- a) Choosing the email server type
- b) Clicking on the Inbox**
- c) Filling in the email server information

d) Testing the account settings

What is the purpose of the Reading Pane in Microsoft Outlook?

- a) To create new emails
- b) To view the list of email folders
- c) To display the contents of an email message**
- d) To manage email signatures

What action allows you to make all messages in a folder as read or unread in Microsoft Outlook?

- a) Double-clicking the folder
