CS402 - Theory of Automata (Semester Quiz # 03)

Question # 7 of 10 (Start time: 02:42:18 PM, 11 June 2025)

1's complement for 01101 will be:

Select the correct option

●	10010
○	00100
○	10111
○	00000

CS402 - Theory of Automata (Semester Quiz # 03)

Question # 6 of 10 (Start time: 02:41:46 PM, 11 June 2025)

A string will be accepted by an NFA if there exists _____ one successful path.

Select the correct option

●	atleast
○	maximum
○	none of the given options
○	atmost

CS402 - Theory of Automata (Semester Quiz # 03)

Question # 2 of 10 (Start time: 02:40:29 PM, 11 June 2025)

---------- can also help in proving Kleene Theorem III.

Select the correct option

○	Moore machine
○	Melay machine
○	PDA
◉	NFA

CS402 - Theory of Automata (Semester Quiz # 03)

Question # 10 of 10 (Start time: 02:43:32 PM, 11 June 2025)

We cannot construct an NFA for the language of _____ defined over alphabet set {a,b}.

Select the correct option

○	odd
○	Integers
◉	Palindromes
○	Even even

CS402 - Theory of Automata (Semester Quiz # 03)

Question # 1 of 10 (Start time: 02:40:04 PM, 11 June 2025)

If FA1 corresponds to (a+b)* then FA1 must accept _____ string/strings.

Select the correct option

○	Even length
○	Odd length
◉	Every
○	No

CS402 - Theory of Automata (Semester Quiz # 03)

Question # 9 of 10 (Start time: 02:43:07 PM, 11 June 2025)

In which of the following machine, the length of output string is 1 more than that of input string?

Select the correct option

◉	Moore machine
○	Finite automaton with output
○	Non-deterministic finite automaton
○	Mealy machine

CS402 - Theory of Automata (Semester Quiz # 03)

Question # 3 of 10 (Start time: 02:40:44 PM, 11 June 2025)

In NFA having multiple transitions at certain state, FA can be built by introducing:

Select the correct option

○	Final state
○	Empty state
◉	Combination of states
○	Initial state

CS402 - Theory of Automata (Semester Quiz # 03)

Question # 8 of 10 (Start time: 02:42:37 PM, 11 June 2025)

In order to make NFA for the union of FA1 and FA2, the final state/ states of:

Select the correct option

○	FA2 have a transition to the final state of FA1
○	FA1 have a transition to the final state of FA2
○	both FAs should be linked
●	both FAs should be left intact

CS402 - Theory of Automata (Semester Quiz # 03)

Question # 5 of 10 (Start time: 02:41:19 PM, 11 June 2025)

In the context of make NFA for the concatenation of FA1 and FA2 (FA1 accepting null string), which of the following option is correct?

Select the correct option

- FA2 having initial state only
- Initial states in both FAs
- Final states in both FAs
- FA2 having final state only

Time Left sec(s)

CS402 - Theory of Automata (Semester Quiz # 03)

Quiz Start Time: 02:40 PM, 11 June 2025

Question # 4 of 10 (Start time: 02:41:06 PM, 11 June 2025)

Total Marks: 1

Keeping in view the discussion by Martin, how many states are required to recognize the language of all strings of length 2 or more defined over $\sum = \{a,b\}$, with 'b' being the second letter from right?

Select the correct option

- 8
- 7
- 9
- 6
