PAID VU LMS HANDLING by Mam Mehwish 03184148783

Past Papers for Mids./Finals are also Available

1. What is the first step performed by the compiler application when using the dynamic method in attribute grammar evaluation?

- A. Evaluating attributes in topological order
- B. Performing a topological sort
- C. Constructing the parse tree
- D. Building the dependence graph
- Correct Option: B

2. Which of the following is NOT a typical use of attributed trees in compiler design?

- A. Type checking
- B. Optimization
- C. Error handling
- D. Syntax analysis
- Correct Option: C

3. Why have LALR(1) grammars become a standard for parser generators?

- A. They allow for automatic code generation.
- B. They are compatible with natural languages.
- C. They offer better performance than other grammars.
- D. They have widespread adoption and support for programming languages.
- Correct Option: D

4. What does the symbol table use to uniquely identify each symbol?

- A. Location

MAM MEHWISH 03184148783

- B. Name

- C. Scope

- D. Type

- Correct Option: B

5. What does the notation $$ refer to in YACC?

- A. The symbol on the up-hand side of the production

- B. The symbol on the left-hand side of the production

- C. The symbol on the down-hand side of the production

- D. The symbol on the right-hand side of the production

- Correct Option: B

6. In the modified parser for the implementation of ad-hoc scheme for semantic analysis, what happens when a reduction by the production rule A → β occurs?

- A. The parser pushes 2×|β| items onto the stack.

- B. The parser pops 3×|β| items from the stack.

- C. The parser pushes 3×|β| items onto the stack.

- D. The parser pops 2×|β| items from the stack.

- Correct Option: D

7. Which section in a YACC specification file contains the "c/c++ functions"?

- 1

- 2

- 3

- 4

- Correct Option: 3

8. In three-address code, how many bytes are typically used to represent operations?

- A. 3 to 4 bytes

MAM MEHWISH 03184148783

- B. 1 to 2 bytes
- C. 5 to 6 bytes
- D. 7 to 8 bytes
- Correct Option: B

9. The size of an LR(1) parsing table can be calculated by multiplying the number of _____ with the number of symbols.

- A. States
- B. Terminals
- C. Rules
- D. Actions
- Correct Option: A and B

10. What is the purpose of the $3 notation in YACC?

- A. To refer to the first symbol on the right-hand side of a production
- B. To refer to the third symbol on the right-hand side of a production
- C. To refer to the second symbol on the right-hand side of a production
- D. To refer to the fourth symbol on the right-hand side of a production
- Correct Option: B

🔥🔥 **Paid Vu Lms Handling** 🔥🔥

♦ **1 GDB= Rs 100**

♦ **1 Quiz= Rs 200**

♦ **1 Assignment=Rs 250**

💎 **Agr complete handling krwatey hain 1 subject ki with all activities= Rs 500 (Half Semester)** 💎

LECTURES Play Service Available In Very Low Price. 📱

🗣️🎉 **80-100% Marks Guaranteed** 🎉🗣️

🔥 **Miss Mehwish:03184148783**🔥
