

FINAL TERM 2010

It430

Question No: 1 (Marks: 1) - Please choose one

In case of transaction failure or crash, one can retrieve his or her lost coins by sending all blinded signed coins from lastwithdrawals to the E-bank.

- ▶ 10
- ▶ 12
- ▶ 18
- ▶ 16

Ref: Page # 119

Lost Coins

In case network fails or computer crashes during payment transaction, coins might be lost. All signed blinded coins from last 16 withdrawals are sent by the bank to the client

Question No: 2 (Marks: 1) - Please choose one

www.amazon.com as you all familiar with it.

Which of the following loyalty stages its customers are:

(Who don't know about it): Detail about amzon.com)

"Amazon was one of the first major companies to sell goods by Internet, and was an iconic "stock in which to invest" of the late 1990s dot-com bubble. Jeff Bezos founded Amazon.com, Inc. in 1994, and launched it online in 1995. Amazon.com started as an on-line bookstore, but soon diversified to product lines of VHS, DVD, music CDs, MP3 format, computer software, , etc. Amazon has established separate websites in Canada, the United Kingdom, Germany, France, China, and Japan. It also provides global shipping to certain countries for some of its products. "

▶ Awareness

- ▶ Exploration
- ▶ Familiarity
- ▶ Commitment

PAGE # 136 [HTTP://VUZS.NET/](http://VUZS.NET/)

AWARENESS

THIS IS THE FIRST STAGE WHERE CUSTOMERS RECOGNIZE THE NAME OF THE COMPANY OR ANY OF ITS PRODUCTS. HOWEVER, THEY HAVE NEVER INTERACTED WITH THE COMPANY BEFORE. A COMPANY/BUSINESS CAN ACHIEVE THIS LEVEL BY PROPERLY ADVERTISING ITS BRAND.

Question No: 3 (Marks: 1) - Please choose one

Customer Loyalty model is also called

- ▶ Customer Life Cycle
- ▶ Customer Segmentation
- ▶ Customer Awareness
- ▶ All of the option

Page # 136--137

Question No: 4 (Marks: 1) - Please choose one

Which of the following is True for Class B:

- ▶ Network 01 byte and 03 hosts
- ▶ **Network 02 bytes and 02 hosts**
- ▶ Network 03 bytes and 01 host
- ▶ None of these

Page # 10

Classes

- ▶ **Class A – large networks (net 1 byte/host3)**

0	Network	host
---	---------	------
- ▶ **Class B – medium networks (net 2 bytes/host 2)**

1 0	Network	host
-----	---------	------
- ▶ **Class C – small networks (net 3 bytes/host 1)**

1 1 0	Network	host
-------	---------	------

Question No: 5 (Marks: 1) - Please choose one

RIP(Routing Information protocol) is used by----- , to build a ----- table

- ▶ bridges , hash
- ▶ routers, matrix
- ▶ **routers , routing**
- ▶ All of these

Page # 16

A router can communicate with another **router** on the internet with the help of Routing Information Protocol, and thus it can build a **routing table**.

Question No: 6 (Marks: 1) - Please choose one

Switch is used on the layer

- ▶ First Layer
- ▶ **Second Layer**
- ▶ Third Layer
- ▶ None of these

Ref: IT430 1st assignment solution file uploaded by instructor.

http://books.google.com.pk/books?id=8j27GrjwkR0C&pg=PA74&dq=Switch+is+used+on+the+layer&hl=en&ei=kbkZTdq3As7AswbMovXsDA&sa=X&oi=book_result&ct=result&resnum=8&ved=0CEUQ6AEwBw#v=onepage&q=Switch%20is%20used%20on%20the%20layer&f=false

Question No: 7 (Marks: 1) - Please choose one

Router is used on the layer

- ▶ First Layer
- ▶ Second Layer
- ▶ **Third Layer**
- ▶ None of these

Ref: IT430 1st assignment solution file uploaded by instructor.

http://books.google.com.pk/books?id=8j27GrjwkROC&pg=PA74&dq=Switch+is+used+on+the+layer&hl=en&ei=kbkZTdQ3As7AswbMovXsDA&sa=X&oi=book_result&ct=result&resnum=8&ved=0CEUQ6AEwBw#v=onepage&q=Switch%20is%20used%20on%20the%20layer&f=false

Question No: 8 (Marks: 1) - Please choose one

In HTML if you leave out the setting for scrolling what will happen?

- ▶ No scrollbar will appear even if needed.
- ▶ A scrollbar will always be present.
- ▶ **A scrollbar will appear if needed.**
- ▶ All options.

SCROLLING – this attribute determines whether a scroll bar appears with a frame (e.g, Scrolling=“yes” in the <frame> tag makes it appear)

http://books.google.com.pk/books?id=wyXPVqOUESMC&pg=PA433&dq=SCROLLING&hl=en&ei=ArwZTafCHcb5sga_hvTIDA&sa=X&oi=book_result&ct=result&resnum=3&ved=0CDAQ6AEwAg#v=onepage&q=SCROLLING&f=false

Question No: 9 (Marks: 1) - Please choose one

Which one of the following attacks does not include in the attacks on Symmetric key

- ▶ Key search attack
- ▶ Cryptanalysis
- ▶ System based attacks
- ▶ **Organization attacks**

Page # 108

Attacks on Symmetric Key Algorithms

Following attacks have been reported on symmetric key algorithms:

Key Search Attacks

Cryptanalysis

System-based Attacks

Question No: 10 (Marks: 1) - Please choose one

What is a E-Cash wallet ?

- ▶ Hardware
- ▶ Agent
- ▶ **Software**
- ▶ All of the above

Page # 116

Buyers withdraw coins against their account and store them in e-cash wallet software (Cyber wallet) on their computer. Cyber wallet stores and manages coins and records every transaction.

Question No: 11 (Marks: 1) - Please choose one

It is the ability to sell the goods or provide the service at a price that is lower than that of competitors, and thus attract more customers. What is called?

► **Cost leadership**

- Price leadership
- Focus
- Differentiation

Ref: PAGE # 157

Cost leadership:

It is the ability to sell the goods or provide the service at a price that is lower than that of competitors, and thus attract more customers.

Question No: 12 (Marks: 1) - Please choose one

Meta tag contains:

- User information
- seller information
- **web page key information**
- bank information

Ref: PAGE # 138

META INFORMATION:

You know that a Meta tag contains the key information of a web page.

Question No: 13 (Marks: 1) - Please choose one

In many countries, stealing and misusing of meta information for getting competitive advantage is considered as an offence known as

- Tort of Private Nuisance
- Tort of Tress passing
- **Tort of passing off**
- Defamation

Ref: PAGE # 138

In many countries, stealing and misusing Meta information in this manner to gain business/competitive advantage is considered as an offence known as the tort of passing-off.

Question No: 14 (Marks: 1) - Please choose one

Which of the following is **NOT** force of Porter's competitive rivalry Model?

- Threat of potential/new entrants
- Threat of substitute
- **Differentiation and cost leadership**
- Competition between existing players

Page # 158

Threat of potential/new entrants to the sector

Threat of substitute product or service in the existing trade

Bargaining power of the buyers

Bargaining power of the suppliers

Competition between existing players

Question No: 15 (Marks: 1) - Please choose one

Exclusive right granted by law to make, use and sell an invention. What is called?

- ▶ Parasites
- ▶ Trade mark
- ▶ **Patent infringement**
- ▶ Copyright

Ref: PAGE # 181

Patent infringement:

A patent is an exclusive right **granted by law to make**, use and **sell an invention**. In order to be patentable, the invention must be unique, genuine, and useful according to the prevalent technological standards.

Question No: 16 (Marks: 1) - Please choose one

GM Celebes manufacturing electronic goods and FryChips co selling French fries. Under the traditional trade mark law both these companies can have the same trade mark/trade name such as 'frys'.

The problem arises when both apply for the registration of a domain name containing the word 'frys'. Here, both are legitimate claimants of this domain name but due to the element of uniqueness of domain names only one of them can be assigned the desired domain name.

Which legal issue arises in this situation?

- ▶ Domain name conflict
- ▶ Cyber squatting
- ▶ **Concurrent use**
- ▶ None

Ref: PAGE # 181

Concurrent use

This problem arises when two organizations have apparently legitimate claim to use the same domain name but cannot do so due to the uniqueness of domain names. Suppose, there is a company manufacturing electronic goods and another company selling french fries. Under the traditional trade mark law both these companies can have the same trade mark/trade name such as '**frys**'. The problem arises when both apply for the registration of a domain name containing the word '**frys**'. Here, both are legitimate claimants of this domain name but due to the element of uniqueness of domain names only one of them can be assigned the desired domain name.

Question No: 17 (Marks: 1) - Please choose one

ANSI stands for

- ▶ **American National Standards Institute**
- ▶ All Network Standards Institute
- ▶ American New standards Institute
- ▶ Australia National standards Institute

Page # 147

ANSI (American National Standards Institute)

Question No: 18 (Marks: 1) - Please choose one

Which of the following company develop ERP soft wares?

- ▶ SAP
- ▶ Oracle
- ▶ **JD Edward**

- ▶ All of these

http://en.wikipedia.org/wiki/JD_Edwards

Question No: 19 (Marks: 1) - Please choose one

Company collecting information assumes that the customer does not object to a specific use of information unless the customer specifically denies the permission. Thus, the company may use the collected information for its own purpose, as well as, sell or rent it out to other firms or persons.

Which of the following Approach it is using?

- ▶ Opt-inout
- ▶ **Opt-out**
- ▶ Swap-out
- ▶ Opt-in

Page # 183

opt-out approach, the company collecting information assumes that the customer does not object to a specific use of information unless the customer specifically denies the permission. Thus, the company may use the collected information for its own purpose, as well as, sell or rent it out to other firms or persons.

Question No: 20 (Marks: 1) - Please choose one

What does ++ operator do?

- ▶ Adds two numbers together
- ▶ Joins two text strings together
- ▶ **Adds 1 to a number**
- ▶ Adds 2 to a number

Page # 58

Operators in java script

Mathematical operators '+' For addition of two values '-' for subtraction of two values '*' for multiplication '/' for division '%' modulus (for calculating the remainder) '++' for increment '--' for decrement Logical operators '&&' for logical and '|' for logical or '!' for logical not

http://books.google.com/books?id=U69Hzz2jLPUC&pg=PA102&dq=What+does+%2B%2B+operator+do%3F&hl=en&ei=JsAZTd7-MIabOrqFzbYJ&sa=X&oi=book_result&ct=result&resnum=10&ved=0CFAQ6AEwCQ#v=onepage&q=What%20does%20%2B%2B%20operator%20do%3F&f=false

Question No: 21 (Marks: 1) - Please choose one

A paper signature is believed to be more reliable than a digital signature.

- ▶ True
- ▶ **False**

Ref: PAGE # 106

A digital or electronic signature is believed to be more reliable as compared to paper signatures because it is not ordinarily possible to copy or forge an electronic/digital signature. But, that is very much possible in case of paper signatures.

Question No: 22 (Marks: 1) - Please choose one

Job searchers can search for jobs and employers can hire effectively using

- ▶ **Online recruiting web sites.**

- ▶ Online banking web sites.
- ▶ Online trading and lending web sites.
- ▶ Online news services web sites.

Ref: PAGE # 128

Online Recruiting:

Employers can recruit and job searchers can search for jobs effectively through online recruiting web sites.

Question No: 23 (Marks: 1) - Please choose one

Suppose you want to search from Virtual University's database that how many students have taken MBA in a specific semester. In this scenario, which type of data mining you are using?

- ▶ Classification
- ▶ Association
- ▶ **Characterization**
- ▶ Clustering

Page # 144

Characterization

It is discovering interesting concepts in concise and succinct terms at generalized levels for examining the general behavior of the data. For example, in a database of graduate students of a university the students of different nationalities can be enrolled in different departments such as music history, physics etc. We can apply characterization technique to find a generalized concept/answer in response to the question that how many students of a particular country are studying science or arts

Question No: 24 (Marks: 1) - Please choose one

For example, white color denotes purity in Europe and America but is associated with death and mourning in china and some Asian countries. Similarly, a web page divided into four segments can be unpleasant to a Japanese visitor because no. four is a symbol of death Which of the following barrier involve in above example

- ▶ **Culture**
- ▶ Language
- ▶ Trust
- ▶ Infrastructure Issues

Page # 162

For example, white color denotes purity in Europe and America but is associated with death and mourning in china and some Asian countries. Similarly, a web page divided into four segments can be unpleasant to a Japanese visitor because no. four is a symbol of death in that culture.

Question No: 25 (Marks: 1) - Please choose one

-----means services in relation to the transformation of contents of an electronic document from its original form to one that cannot be understood or decoded by any unauthorized person

- ▶ **Cryptography services**
- ▶ Accredited Certification Service Provider'
- ▶ Originator
- ▶ Addressee

Page # 163

“Cryptography services’ means services in relation to the transformation of contents of an electronic document from its original form to one that cannot be understood or decoded by any unauthorized person”.

Question No: 26 (Marks: 1) - Please choose one

“Risk Management “ is the part of which activity?

- ▶ E-business
- ▶ **E-commerce**
- ▶ E-marketing
- ▶ All of the given

(PAGE 1) Electronic Commerce : Security, Risk Management and Control by Greenstein & Feinman

Question No: 27 (Marks: 1) - Please choose one

Which type of algorithm is used by virtual pin system for encryption?

- ▶ DES (Data Encryption Standard)
- ▶ IDEA (International Data Encryption Algorithm)
- ▶ Rijndael
- ▶ **Non of above**

Page # 110

Virtual PIN system does not involve the use of encryption.

Question No: 28 (Marks: 1) - Please choose one

Which one is not the life cycle stage of the customer relation?

- ▶ Awareness
- ▶ Exploration
- ▶ Familiarity
- ▶ **Cancelation**

Page # 136

Question No: 29 (Marks: 1) - Please choose one

Popular EDI documents formatting standards _____

- X12 ▶
- EDIFACT ▶
- X12 and EDIFACT ▶**
- None ▶

Page # 147

EDI documents are formatted using published standards. Two popular EDI standards are – ANSI (American National Standards Institute) X12 standard and EDIFACT (United Nations Standard of Electronic Data Interchange for Administration, Commerce and Transport).

Question No: 30 (Marks: 1) - Please choose one

LDA stands for _____

Lahore Development Authority ▶

Lahore Development Act ▶

Page # 165

For example, the Lahore Development Authority (LDA) is a statutory body established under the Lahore Development Act, 1975 (a provincial statute).
