Recent Quiz

1, photos to teach is a website of —-----?

Eltpics

2. The interaction approach (IA) grew out of Longs interaction hypothesis.

3. Language instructions can be used in class for easy planning or a peer feedback activity or out of class for students to submit and revise based on the feedback.

4. Canva is a premium _____ design?

Graphics

5. StudyBlue is an online tool for making flashcards with video and audio.

6. <http://www.bloggers.com> _____

Facebook

Twitter

Google

7. Autonomous Reasoning means to that students take responsibility for their learning process which should not be confused with self- instructions.

True

False

8. SCMC began to include the exchange of voice-over IP sound (VoIP), giving speakers two channels in which to communicate (Blake 2005)

True

False

9. www.spiderscribe.net is used for mainly _____.

Military maps

Geographical maps

Mind maps

10. Turnitin is a _____ tool.

Originated and checking

11. Quizzes is a tool of _____

Exam time

12. Listening is a key part of teaching and that listening happens best in the ***classroom*** environment.

13. The second goal is to make the computer a teaching ***partner*** rather than an object of study.

14. "Voyant Tools is a web-based reading and ***analysis*** environment for digital texts."

15. Juxta is a cross-platform tool for collating, comparing, and analyzing any kind or number of textual ***objects***

16. This definition embraces a wide range of student ***activities*** ranging from the use of a word processor to on-screen testing.

17. TurningPoint is a leading commercial student ***response*** system.

18. Students undertake online tests many times to assess and *re-assess* their knowledge.

19. Supporters of the *metacognitive* view regard reading as a process of active meaning construction during which readers make use of both linguistic information from the external printed text (Langer et al.

20. Digital environments add visual and *auditory* features to a text and require the reader to integrate the information afforded by these modes into the processes of comprehension.

21. The increasing availability of electronic ***corpora*** and online technology has facilitated the creation of tools that aim to support L2 reading by accelerating and automatizing word recognition.

22. There are any providers of commercially available CALL systems that use ***technology*** , including Rosetta Stone Tell Me More),

23. Lang-8 (<http://lang-8.com/>) is a good example of a ***social networking site***

24. The corpus has over **450 million** words of text that covers spoken, fiction, popular magazines, newspapers, and academic text genres.

25. COCA (<http://corpus.byu.edu/coca/>) is a freely available online corpus of English, Created by **Mark Davies.**

26.

Pixton is an online **comic maker to add sound, upload pictures and images.**

27. Walrus is a tool for interactively **visualizing large directed graphs in three-dimensional space.**

28. The increasing availability of electronic corpora and online technology has facilitated the creation of tools that aim to support L2 reading by accelerating and automatizing word recognition.

****True****

False

29. Self-developed courseware is usually designed by collaborative teams to create language learning tools to suit a specific group of learners.

Correct

Incorrect

30. Corpus-based pedagogies, data-driven learning, are based on the idea that students need to have access to examples of language.

31. Using eye fixation data as a measure of “noticing events” learners were found to attend about 60% of the intensive recasts they

received by a native **speaker** interlocutor.

32. Lyceum defines affordances as possibilities as well as **limitations**” having “an impact on its [Lyceum’s] use”.

1, The term blended learning refers to everytime time a teacher mixes differences ----- for classroom interaction. **Media**

2. One factor that encourages motivation in blended learning is——-----.

Reliance

3. The increasing availability of electronic corpora and online technology has facilitated the creation of tools that aim to support L2 reading by accelerating and automatizing word recognition.

Dictionaries, Glosses, and Annotations

4. **Sophisticated reporting, allowing you to refine the exercise or identify areas in which more instruction is needed.**

5. Fill in an online feedback form (rubric), available in both Blackboard and **Turnitin.**

6. The second goal is to make the computer a teaching **partner** rather than an object of study.

7. The success of any blended learning course is **largely** in the blend.

8. According to this view, **reading** is primarily a matter of decoding a series of **written symbols** into their aural equivalents in the quest to make sense of the text.

9. Google Docs, another important example, is a **free online word processor**

Google Drive, an office suite developed by **Google Inc.**

10. **COCA** can be used for different purposes in second language writing instruction.

11. The corpus has over **450 million** words of text that covers spoken, fiction, popular magazines, newspapers, and academic text genres.

12. **Sociocultural theory (SCT)** has its origins in the work of Russian psychologist Lev **Vygotsky** in the early part of the **20th** century.

13. Human mental functioning is a **mediated** process.

14. From the SCT perspective of SLA, language learning is facilitated by **social interaction**.

15. **StudyBlue**- an online tool for making flashcards with video and audio.

16. **Pixton**- an online comic maker to add sound, upload pictures and images.

17. **Storybird**- is a collaborative storytelling tool. Students can create short art inspired stories.

18. **Prezi**- a cloud-based presentation software that can zoom in and out.

19. **Animoto** Creates videos with photos, music and text.

20. **Wordpress**
(<http://www.wordpress.com>): It is web software you can use to create a

beautiful **website or blog**.

21. **Blog** (<http://www.blog.com>): It provides a fully-featured publishing platform for free.

22. **Blogger** (<http://www.blogger.com>): It is a free blog publishing tool from Google for easily sharing your thoughts with the world.

23. **Blogger** makes it simple to post text, photos and video.

24. JenniferESL: With over **153,000** subscribers, Jennifer's best videos are her lessons on idioms (kitchen idioms, driving idioms, color idioms).

25. **MisterDuncan**: Considered one of the original English teachers on YouTube. He covers lessons on fluency and speaking English naturally.

26. Voice of America Learning English: Join over **98,000** other subscribers and learn English with captioned news reports read at a slower speed.

27. BBC Learning English: Another popular site, with over **64,000** followers.

28. **Gorjian**, Hayati, and Pourkhoni (2013) have extolled the virtues of having students study L2 pronunciation and intonation using the **PRAAT** acoustic analysis software.

29. Drawing on the work of Chapelle (2003) among others, they divide help options into four categories:

operational, regulatory, compensatory, and explanatory.

30. Chapelle (2003) links technology to SLA theories by showing how several theories can be adapted to explore the role of the computer as a stand-in for a human interlocutor.

31. Criterion

(<http://www.ets.org/criterion/>) is a web based commercial writing evaluation and feedback tool developed by Educational Testing Service (ETS, 2015).

32.

COCA (<http://corpus.byu.edu/coca/>) is a freely available online corpus of English, Created by **Mark Davies at Brigham Young University.**

33.

Turnitin (<http://turnitin.com/>) was initially launched as an online plagiarism prevention service by iParadigms, LLC, in **1997.**

34.

Writing Pal or W-Pal is an **automated intelligent tutoring system** (ITS) developed by the Science of Learning and Educational Technology (SoLET).

35.

W-Pal provides **eight** animated learning modules covering the typical

writing process.

36.

Learners can also compare their use of phrases to the phrases in the corpus.

37. Voyant Tools is a web-based reading and analysis environment for digital texts."

38. Wordle : A robust word cloud generator with extensive shape, color and font options.

39. Google Books NGram Viewer : Analyzes historical word occurrence, usage and changes over time and allows users to download data for more intensive research

40. **Culturomics** - Google Ngrams Addon : An add-on for Google Ngrams to download data sets.

41. **Time Magazine Corpus** : Offers access to American Mainstream Cultural Text Analysis via the complete text of the Time Magazine Archive (1923-2006)

42. **Juxta** is a cross-platform tool for collating, comparing, and analyzing any kind or number of textual objects.

43.

Fundamental to all modern language instruction—face-to-face in the classroom or

virtually through CALL—is **Vygotsky's (1962)** is known as **Sociocultural theory.**

44. PBS learning _____free lesson plan.

3,000

45. With countless online resources _____can help improve teaching.

Technology

46. Digital books or e books are an _____ technology tool for curriculum.

Effective

47. Interactive whiteboards have brought _____ improvement in the education sector by simplifying the learning process.

Significant

48. Turning point is a leading commercial student response system.

By using technology in the classroom, both teachers and students can develop skills essential for the 21st century.

Subjective

ENG-529

All subjective Question important don't skip

Q.1. What is blended learning?

Ans.

Definition

Blended learning is an education approach that combines traditional face to face instructions with online learning activities.

For example:

- Classroom learning
- Online learning

Q.2. What is Affordance?

Ans.

Definition:

Affordance refers to the qualities or properties of an object , environment or system that suggests possible action or user to an individual.

For example:

-

-

Q.3. write the three other names of E-Assessment?

Ans.

1. Online assessment
2. CMA (computer mediated assisted)
3. Computer based.

Q.4. Define Dragon software?

Ans.

Definition:

The Dragon software offers a set of **intriguing dictation tool** that turn language speech directly into text. The dictation tool is marketed to business.

Such as;

- Australian English
- American English
- Indian English
- French
- German
- And Spanish etc .

Q.5. Write the three technology tools for L2 reading?

Ans.

1. Reading comprehension technology
2. Digital reading platform
3. Text to speech (TTS) software
4. Language learning app

Q.6. What is CAPT?

Ans.

- CAPT stands for computer assisted pronunciation training.
- It is a software, which offers diverse speech sound from different speakers and registers.
- CAPT software provides more practice time.

Q.7. write the advantage of peer assessment?

Ans.

1. Help student learn from each other and place their work.
2. Promote deep learning
3. Student practice softer skill
4. Student compare with peer.

5. Help leacture and focus their feedback.

Q.8. What are the three general categories of technologies for L2 writing?

Ans.

1. Web 2.0 application
2. Computer assisted language learning
3. Online writing platform
4. Digital writing tool

Q.9. Who developed a writing pal?

Ans. Writing pal developed by (SoLET) Science of Learning Education Technology.

Q.10. What is curriculum design?

Ans. Curriculum design is a process planing , creating , and organizing , the structure and content of an educational curriculum.

Q.11. What is eComma?

Ans. eComma is a web application for textual annotation.

It's developed by the center for open education resources and language learning.

Q.12. What is Turnitin?

Ans. Turnitin was initially launched as an online plagiarism prevention by LLC in 1997.

Turnitin also provides online tutorial and training to teachers and learners.

Q.13. write three perspectives of reading?

Ans

1. Summarize
2. Synthesize
3. Evaluation

Q.14. What is the process of E- submission?

Ans.

The process of E- submission involve student electronically submitted,

Such as:

- Assignment
- Project or assessment through online platform
- Email etc.

Q.15. How has technology brought a change into blended learning?

Ans. Technology has brought a change into blended learning by providing diverse tools and resources for both instructors and learners.

Students connect to the internet and access multimedia knowledge and access educational materials and resources.

Q.16. write a short note on writing pal?

Ans.. writing pal and w.pal is a writing assistant tool , they are designed to help students improve their writing skill.

It's check;

- Suggestions for sentence
- Vocabulary enhancement
- Feedback on writing
- Coherence and organization.

Q.17. What is social cultural theory?

Ans. Social cultural theory is a language learning facilitated by social Interaction.

Q.18. write the “Three” form of assessment?

Ans.

1. Online quiz , assessment, project
2. Peer assessment
3. Student response system like LMS
4. E-marking

Q.Lang-8:

- Lang-8 is an online language-learning community that facilitates language exchange and peer feedback on written language skills.
- Users can submit written entries in the language they are learning, and native speakers provide corrections, feedback, and language tips.
- Lang-8 offers a supportive environment for language learners to practice writing skills, receive personalized feedback, and engage in cultural exchange with speakers of their target language.

Q.19. Name of the three cognitive languages?

Ans.

1. Accuracy
2. Complexity
3. Fluency

Q.20. Name five effective technology tools for a successful curriculum?

Ans.

1. Digital books
2. Classroom clickers
3. Interactive whiteboard
4. Learning management system
5. Computer mediated community

Q.21. Write the Effective technology for curriculum?

Ans. Effective technology for curriculum a wide range of digital tools and resources that enhance teaching and learning experiences.

This can include

- interactive multimedia
- presentations,
- educational software applications,
- virtual labs,
- online collaboration platforms
- learning management systems (LMS), and mobile learning apps.

Q.22. write the three General categories of technology L2 writing?

Ans.

1. Online writing platform
2. Digital writing tool
3. Computer assisted language learning

Q.23. What is ARW?

Ans.

- ARW is stand for (**Assisted Revision Workshop**)

- ARW is a method of providing feedback and support to language learners during the revision process.
- It typically involves collaborative activities, peer review, and guidance from instructors or tutors to help students improve their writing skills.

Q.24. Write the usage of CAPT?

Ans. CAPT and Its Usage:

CAPT uses algorithms to analyze previous responses and select subsequent questions. CAPT is commonly used in educational settings, certification exams, and standardized testing to assess various domains such as academic subjects, language proficiency, and professional skills.

Q.25. write the three perspective reading curriculum design?

Ans.

1. Education perspective
2. Pedagogical perspective
3. Technology perspective.

Q.26. What purpose do Computers Cannot Replace Teachers?

Ans.

While technology has transformed education in many ways, computers cannot fully replace teachers due to the following reasons:

- Human connection
- Flexible and adapted
- Social and emotional learning
- Complex decision making.

Q.27. Write two elements are critical for motivation of blended learning?

Ans;

- Academic blended learning
- Non academic blended learning

There are two critical elements at play here:

academic factors such as difficulty and/or relevance with course material and non-

academic factors such as time pressure (Picciano, 2006). Concerning non-academic

factors, blended learning (especially the online element) can address two of them: time

pressure (in relation to when to learn) and space (where to learn). As for the academic

factors, experience has shown that well-designed blended courses enhance student

learning and increasing student retention (Amaral, & Shank, 2010).

Q. 28. What is the benefit of exam bodies such as Cambridge international using e-marking?

Ans.

- Cambridge International Examinations, are utilizing innovations in technology to expedite the marking of examinations.
- In some cases, e-marking can be combined with electronic examinations, whilst in other cases, students will still hand write their exams with papers scanned in securely and uploaded into an e-marking system.

Q.29. Name any three differences of e-assessment?

Ans.

1. Online learning platform
2. Computer mediated communication
3. Computer based.

Q.30. Does technology allow outside the classroom interaction between teacher and learner in a blended mode? write a brief note.

Ans.

Technology allow the outside the classroom interaction between teachers and learner in a blended mode such as:

- Teaching cannot be defined separately from learning. 'It is guiding and facilitating learning, enabling the learner to learn'
- The role of a teacher is therefore multidimensional: it is to facilitate learning, to support learners through their learning journey, to know when to intervene (with suggestions, explanations, encouragements), and when to stand aside and observe.
- Today's learners are often said to breathe technology and this must be used to the full by the teacher because learning happens everywhere, not just in the classroom.

Q.31. How does contiguity associate with text and pictures?

Ans.

Mayer's Contiguity Principle states that complementary text and pictorial material that are close to one another are processed better than when they are further apart.

Q.32. How does the voice thread tool enable the Creator to engage users in the comment?

Ans.

VoiceThread enables creators to engage users in the comment by allowing them to leave voice, video, or text comments directly on the multimedia content.

This interactive platform enhances communication, providing a more dynamic and personalized way for users to express their thoughts and engage with the creator's content.

Q.33. Write any two advantages of e-assessment?

Ans.

1. Access for students in different geographical locations and at different times.
2. Immediate feedback, tailored to help students improve their knowledge and performance.
3. Students undertake online tests many times to assess and reassess their knowledge.

Q.34. Effective Technology for Successful Curriculum?

Ans.

- Digital Books
- Classroom Clickers
- Interactive Whiteboards and Tablets

Q.35. write the five adopted blended approaches?

Ans.

1. Teacher Training
2. Choosing an Appropriate Blend
3. Cost
4. Attrition and Motivation
5. Peer support.

Q.36. write the three Integrating technologies into the curriculum?

Integrating meaning in Urdu (کامل کرنا)

Ans.

Integrating technology into the curriculum has the following outcomes:

1. Educational
2. Pedagogical
3. Technology

Q. 36. Write the benefits of technology using it in the classroom?

Ans.

1. Improve engagement
2. Improve knowledge retention
3. Encourage individual learning
4. Encourage collaboration
5. Students learn a useful lifestyle.

Q 37. How Norm describes affordances?

Ans.

Norm 1988 describes Affordances as a perceived possibility that a user has for such tools and applications.

Q.38. How did Lyceum define Affordances?

Ans.

Lyceum define Affordances:

– “Affordances as possibilities and the limitations”.

Having

“An impact on its [Lyceum] use”.

Q.39. Two types of CMS activities?

Ans.

CMS (content management system)

Two type

1. Web management system
2. Component content management system

Q.40. Describe digital books in detail?

An ebook (short for electronic book), also known as an e-book or eBook,

It is a book publication made available in electronic form, consisting of

- text,
- images,

or both,

- readable on the flat-panel display of computers or other electronic devices

Digital book or e book that are effective technological tool for curriculum.

Q.41. What was eComma developed for?

Ans.

eComma developed by the center for open education resources and language learning.

Q.42. What is COCA and its use?

Ans

COCA (corpus of Contemporary American English)

It's use;

- The Corpus of Contemporary American English (COCA) is a large and diverse collection of written and spoken texts from various sources, including newspapers, magazines, fiction, academic texts, and transcripts of spoken language. It serves as a valuable linguistic resource for researchers, linguists, and language enthusiasts.
- Researchers use COCA to analyze language trends, study usage patterns, and investigate changes in language over time. It provides a comprehensive snapshot of contemporary American English, allowing for the exploration of vocabulary, grammar, and discourse patterns across different genres and contexts. COCA is often utilized for linguistic research, language education, and to gain insights into the evolution of the English language in the United States.

Q.43. Two elements of motivation for blended learning?

Ans. There are two element of motivation for blended learning as aspect of important element of the student such as ;

1. Attrition
2. Retention

Q.44. Categories of help proposed by Chapelle?

Ans.

There are four categories of help proposed by Chepella;

1. Operational
2. Regulatory
3. Compensatory
4. Explanatory

Q.45. Two types of CMC activities?

Ans.

The two types of CMC (computer mediated community) activities is;

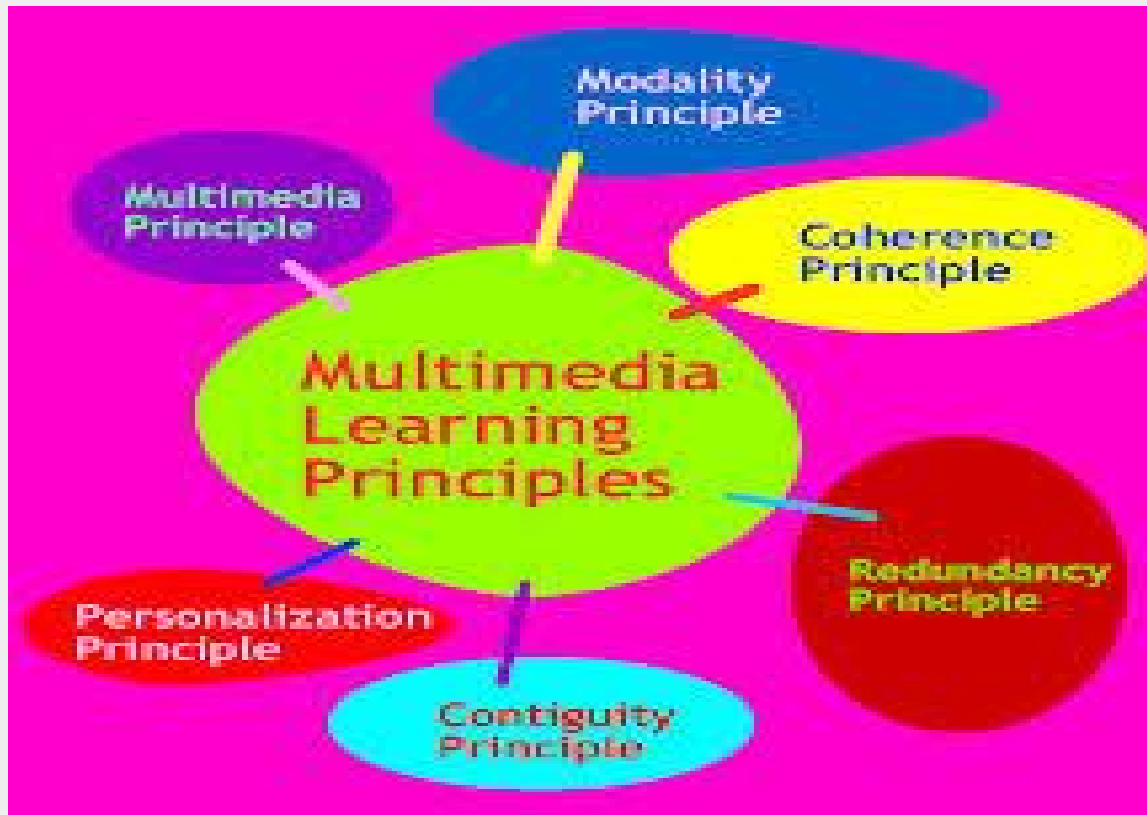

1. **synchronous** (text-based online chat, computer, audio, and video conferencing)
2. **Asynchronous** (email, discussion forums, and mailing lists).

Q.46. Three types of multimedia learning principles?

Ans.

According to Mayers, the three types of multimedia learning principles;

1. Coherence principles
2. Multimedia principles
3. Modularity principles

Q.47. How can AWE assist learners in writing?

Ans. AWE (**Automatic writing Evaluation**).

Automated writing evaluation AWE is a systems that to developed to assist both **native speaker** and **L2 mean second language learners** to write more accurately by providing them with connected feedback to Learners.

Q 48. Briefly explain individual difference learning principle and multimedia principle?

Ans.

Individual learning principles;

- Native language
- Dictionaries, glosses and annotation
- Selecting classroom environment
- Individual learning is basically personal learning.
- Self developed courseware.

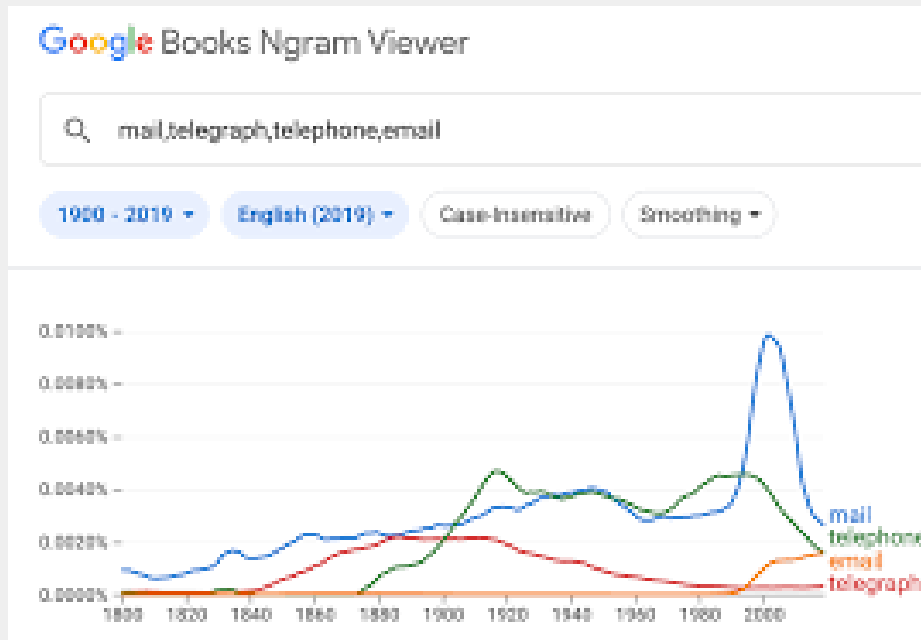

Multimedia learning principles;

- Digital books
- Interactive whiteboard and tablets
- Classroom clickers
- Multimedia device use such as (mobile phone  + tablets + laptop, etc

Q.49. Write five names of text mining tools in academia (only names)

Ans.

1. Voyant tool
2. Juxta tool
3. Wordle tool
4. Time magazine corpus
5. Google Books Ngram view

Q.50. Write the three cognitive class principles?

Ans.

1. Dual channel principles
2. Active processing principles
3. Limited capacity principles.

Q.51. Two another name of interactive white board?

Ans.

1. Smart board
2. Interactive board

Q.52. Exercise in Rosetta stone ASR feature?

Ans.

- Rosetta Stone has also incorporated an ASR feature into its exercises, available in 25 languages, and based on the TeLL me
 - More algorithm originally developed by Auralog.com.
 - These exercises tend to focus on single-word recognition, short collocations, or phrases.
-

Best of luck 🤞
