

Current Objective BT406

ASMAT KHAN NIAZI

YE OBJECTIVE SB SAY PHLY YAD KREN IMPORTANT HEN

FINAL 2022

PREPARED BY ASMAT KHAN NIAZI

1. the data collection in case of study research is typically it relies on trying on multiple sources of information except

- ★ observation
- ★ interviews
- ★ **blogs**
- ★ documents

2. narrative research ethnography and case study research may seem similar when the unit of analysis

- ★ **a single individual**
- ★ a community
- ★ a collection of studies
- ★ a collection of communities

3. the discipline background of case study includes the following except

- ★ psychology
- ★ Law
- ★ medicine
- ★ **none of the given option**

4. In the step researchers determine if a case study approaches is appropriate to the researchers

- ★ **first**
- ★ second

- ★ third
- ★ fourth

5. in data collection of qualitative research following are the types of informal interviewing

- ★ unstructured interview
- ★ semi structured interview
- ★ **both of the given of option**
- ★ none of the given option

6. Research Design Data Collection method and sample design are included in the following part of the report

- ★ prefatory part
- ★ introduction
- ★ **methodology**
- ★ discussion

7. given references in a report of thesis is

- ★ **must**
- ★ optional thing
- ★ irrelevant ask Tyres
- ★ Tiresome work

8. which of the following best describes secondary data

- ★ information collected by the main researcher
- ★ information generated by principal investigator

★ information collected by someone not conducting the research

★ information collected the both main researcher and other people

9. All of the following are how are researchers can develop relation in the field except

★ adopt a social rule learn the Rope and get along with member

★ pre-existing versus created rules limits to the rules chosen because of age race gender attractive

★ the level of involvement complete observed for observer as participant participant has observer

★ watch listen and collect quality data

10. pertaining to the procedures for conducting phenomenological research approaches analysis procedures and guidelines for sampling the textual and structure description

★ Kuikens's

★ Moustakas's

★ Van Manen's

★ Kestenbaum's

11. grounded theory is a good design to use

- ★ when an experiment is not available to validate our theory
- ★ when results are ambiguous
- ★ **when a theory is not available to explain the process**
- ★ when funding is less

12. Ethnography is a..... design in which researcher describe and interpret the shared and learnt behaviour beliefs and language of the culture sharing group (haris 1968)

- ★ quantitative
- ★ **qualitative**
- ★ behaviourap
- ★ anthropologic

13..... the study that describe the meaning of the concept or the phenomena for several individuals of their lived

- ★ Ethnography
- ★ narrative research
- ★ **phenomenology**
- ★ case study

14..... is understood as a spoken or written text giving an account of any event /action or series of event/ action can be connected.

- ★ explanation
- ★ interview
- ★ **narrative**
- ★ philosophy

15.a qualitative design in which a researcher describes and interprets the shared and learn patterns of values ,behaviour and language of the culture sharing group is called cas study

- ★ phenomenology
- ★ **enthogeography**
- ★ grounded theory

16.an Inductive and systematic methodology in theoratical science involving the construction of theory through the

- ★ narrative research
- ★ phenomenology
- ★ grounded theory
- ★ qualitative research

ksi ko ans mlta hy to inform kry

17..... are often measured at the interval or ratio level.

a) Indexes

b) Scales

c) Elements

d) Units

2. is at the most are the ordinal level of measurement

A) Scale

B) Index

C) Unit

D) Element

18. The critical thing about measures is that the people being studied are not aware of it but leave evidence of their social behavior or actions 'naturally.'

A) Non reactive

B) Obtrusive

C) Reactive

D) Obstructive

19. is a form of social inquiry that focuses on the way people interpret and make sense of the experiences and the world in which they live.

A) Qualitative research

B) Quantitative research

C) Verbal research

D) Informal research

20...... refers to a body of facts that are in a format suitable for decision making, whereas are simply recorded measures of certain phenomenon.

A) Information , data

B) Data, information

C) Project information

D) Project data

21. is a documents that represents a plan for a project to reviewers for evaluation .

A) Research Thesis

B) Research methodology

C) Research proposal

D) Theoretical framework

22. Social research is used except

A) Reduce crime

B) Increase social problems

C) Improve public health

D) Sell products

23. Duration of focus group discussion is

A) Between half hour to one hour

B) One hour to one hour and half hour

C) Between two and one hour

D) Between three and one hour

24. Source of historical comparative research data are.....

A) Primary sources and secondary sources

B) Running records and recollection

C) Primary sources , secondary sources and running records

D) Primary sources, secondary sources , running records and recollections

25.Which of the following best describe secondary data.....

- a) Information collected by the main researcher
- b) Information gathered by the principle investigator
- c) Information collected by someone and not by researcher

d) Information collected by both the main researcher and other people

26.Giving reference in the report or thesis is a/an.....

A) Must

- B) Optional thing
- C) Irrelevant task
- D) Tiresome work

27.Aims of research proposal include all except...

- A) Present a plan for a project to reviewers for evaluation
- B) Convince the reviewers about capability of the researcher
- C) **Impose personal idea to gain conceptual clarity**

D) Show the track record of pass success

28. A research method that involves free and spontaneous conversation about a certain issues is

A) Individual interview

B) Case study

C) Focus group discussion

D) Field research

note : ye confirm ni hy agr ksi ko mly to inform kren mjhy

29. A / an..... consists of gathering personal reflections of events and their causes and effects from one individual or several individuals.

A) Biographical study

B) Life history

C) Oral history

D) Autobiography

30. Max Weber used the German term *verstehen* which means

A) Understanding

B) Divinity

C) Both

31. Visible coding

Manifesting coding
