

ENG504

Final-Term (✨✨✨✨✨✨)

ABSTRACT

This comprehensive collection of notes is accurately crafted to empower students to excel academically, ensuring they achieve a minimum of 80% marks in their examinations. The content is organized with clarity and precision, focusing on key concepts, critical analyses, and practical applications tailored to the syllabus. These notes serve as a reliable resource for both thorough preparation and last-minute revision. Designed to inspire confidence and mastery, this guide is an essential tool for students striving for academic excellence.

Maha Malik
Second Language Acquisition

1. Applied Linguistics

Applied linguistics studies how language knowledge is used to solve real-life problems such as language teaching, translation, policy, and communication.

2. Learning

Learning is a process of acquiring knowledge, skills, or behavior through experience, study, or teaching. In language learning, it involves practice, exposure, and interaction.

3. Language Learning vs Language Acquisition

- **Learning**: conscious, formal, classroom-based
- **Acquisition**: unconscious, natural, through exposure

4. First Language Acquisition

Children acquire language naturally without formal instruction. It is universal, fast, and follows fixed stages.

5. Second Language Learning

Learning another language after the first language. It is slower and influenced by age, motivation, and environment.

6. Behaviorist Theory

Language learning happens through imitation, repetition, and reinforcement.
Associated with **B.F. Skinner**.

7. Mentalist / Nativist Theory

Humans are born with an innate language ability called **LAD (Language Acquisition Device)**.
Proposed by **Noam Chomsky**.

8. Cognitive Theory

Language learning is linked with overall mental development and thinking ability.

9. Social Interactionist Theory

Language develops through interaction with parents, peers, and society.

10. Factors Affecting Language Learning

- Age
- Motivation
- Intelligence
- Attitude
- Social environment
- Input and exposure

11. Motivation

Motivation drives learners to learn a language.

- **Integrative motivation**: desire to join a community
- **Instrumental motivation**: for job, exams, success

12. Intelligence & Aptitude

Higher intelligence and language aptitude help in faster learning but are not the only factors.

13. Age Factor

Children learn pronunciation better, adults learn grammar faster.

14. Input Hypothesis (Krashen)

Learners acquire language when they understand slightly difficult input (i + 1).

15. Affective Filter Hypothesis

Emotions like fear and anxiety block language learning.
Low stress improves learning.

16. Fossilization

Errors become permanent in second language learners.

17. Error vs Mistake

- **Error**: due to lack of knowledge

- **Mistake**: due to slip or tiredness

18. Interlanguage

A learner's developing language system between L1 and L2.

19. Bilingualism

Ability to use two languages.

- Balanced bilingual
- Dominant bilingual

20. Multilingualism

Ability to use more than two languages.

21. Code Switching

Changing languages within a conversation or sentence.

22. Code Mixing

Mixing words from two languages in one sentence.

23. Diglossia

Two varieties of a language used in different situations.
High (formal) and Low (informal) variety.

24. Language and Society

Language reflects social class, education, gender, and power.

25. Language and Culture

Language carries cultural values, beliefs, and traditions.

26. Sapir-Whorf Hypothesis

Language influences thought and perception of reality.

27. Linguistic Relativity

Different languages shape different world views.

28. Language and Identity

Language shows who we are and which group we belong to.

29. Power and Ideology

Language is used to control, persuade, and dominate.

30. Gender and Language

Men and women may use language differently due to social roles.

31. Language Attitudes

People judge others based on accent and language variety.

32. Standard Language

A socially accepted and prestigious language variety.

33. Non-Standard Varieties

Regional and social dialects with less prestige.

34. Language Change

Language changes over time due to social and cultural reasons.

35. Language Death

When a language is no longer spoken.

36. Language Maintenance

Efforts to keep a language alive.

37. Language Shift

Community changes from one language to another.

38. Role of English

English is a global language used in education, business, and media.

39. English in Pakistan

Used in education, administration, law, and media.

40. Language Policy

Government decisions about language use and education.

41. Planning Types

- Status planning
- Corpus planning
- Acquisition planning

42. Media and Language

Media spreads language change and ideology.

43. Globalization

Global interaction increases use of international languages.

44. Technology and Language

Technology changes communication styles and vocabulary.

45. World Englishes

Different varieties of English used worldwide.

46. Native vs Non-Native English

Both varieties are valid and communicative.
