PSY610 - Neurological Bases of Behavior (Quiz 2) Quiz Start Time: 11:21 PM, 31 December

Question #10 of 10 (Start time: 11:29:00 PM, 31 December 2021) Total Mar

In which of the following, we can get images that are a clear indication of the areas where most activity is taking place or most oxygen is being used?

Select the correct option

- Contrast –rays
- Computed Axial Tomography
- functional MRI
- Computer Appliance Technology

Question # 9 of 10 (Start time: 11:27:36 PM, 31 December 2021) Total Marks

Which of the following technique is used to measure the electrical activity of eye muscles to monitor the eye movement by using electrodes placed on the eyes?

Select the correct option

- Electromyograph
- Electroencephalography
- Electro-oculograph
- Polygraphic recording

PSY610 - Neurological Bases of Behavior (Quiz 2)

Quiz Start Time: 11:21 PM, 31 December 2

Question # 8 of 10 (Start time: 11:26:39 PM, 31 December 2021)

Total Mar

If a patient scores low on verbal as compared to the performance tests on Weschler Adult Intelligence Scale (WAIS) then we can suspect deficit of:

Select the correct option

- Left hemisphere
- Right hemisphere
- Hypothalamus
- Thalamus

Click to Save Answer & Move to Next Question

PSY610 - Neurological Bases of Behavior (Quiz 2) Quiz Start Time: 11:21 P

Question # 7 of 10 (Start time: 11:26:09 PM, 31 December 2021)

Drug is injected into the in-large muscles such as the forearm or the thigh. This process of injecting the drug is known as:

Select the correct option

- Intramuscular (IM) route
- Intraperitoneal (IP) procedure
- Intra gastric (IG) procedure
- Sub Cutaneous (SC) procedure

Question # 5 of 10 (Start time: 11:23:15 PM, 31 December 2021) **Total Marks:**

Which of the following layers of a cell consists of cell bodies which eventually form grey matter and these cells do not divide after this? These are the same cells found in the adult brain.

Select the correct option

- The external layer
- The Cell free zone
- The Middle layer
- The Internal layer

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question # 6 of 10 (Start time: 11:24:46 PM, 31 December 2021)

Which of the following part of brain connects with the spinal cord?

Select the correct option

- Fore brain
- Mid brain
- Emotional brain
- Hind brain

PSY610 - Neurological Bases of Behavior (Quiz 2) Quiz Start Time: 11:21 PM,

Question # 3 of 10 (Start time: 11:22:09 PM, 31 December 2021)

Which of the following chromosomal abnormality is found in females having short stature and under-developed ovaries?

Select the correct option

- Down syndrome
- Klienfelters syndrome
- Turner's syndrome
- Lesch-Nyhan syndrome

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question # 4 of 10 (Start time: 11:22:40 PM, 31 December 2021)

Which of the following layer of cell migration consist of cells that are still dividing?

Select the correct option

- Cell free zone
- Internal layer
- Middle layer
- Outer layer

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question #1 of 10 (Start time: 11:21:01 PM, 31 December 2021)

When a drug is tubed directly into the stomach by passing the oral region, this is known as:

Select the correct option

- Intra gastric (IG) procedure
- Intraperitoneal (IP) procedure
- Intramuscular (IM) route
- Sub Cutaneous (SC) procedure

PSY610 - Neurological Bases of Behavior (Quiz 2) Quiz St

Question # 2 of 10 (Start time: 11:21:38 PM, 31 December 2021)

Weschler Adult Intelligence Scale (WAIS) and Weschler Child Intelligence Scale (WISC) are used as part of:

Select the correct option

- Minnesota Multiphasic Personality Inventory
- Halstead Reitan Battery
- Beck Anxiety Inventory
- Beck Depression Inventory

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question # 9 of 10 (Start time: 11:05:41 PM, 31 December 2021)

When a drug is tubed directly into the stomach by passing the oral region, this is known as:

Select the correct option

- Intramuscular (IM) route
- Intra gastric (IG) procedure
- Intraperitoneal (IP) procedure
- Sub Cutaneous (SC) procedure

PSY610 - Neurological Bases of Behavior (Quiz 2) Qu

Question # 10 of 10 (Start time: 11:06:51 PM, 31 December 2021)

Which of the following technique studies brain cells and their projections after removal of the brain?

Select the correct option

- Histology
- Staining
- Lobotomy
- Invasion

Time Left

PSY610 - Neurological Bases of Behavior (Quiz 2)

Quiz Start Time: 10:53 PM, 31 Decemb

Question # 7 of 10 (Start time: 11:02:23 PM, 31 December 2021)

Total

Which of the following is NOT included during the movement of cells from inside of the tube towards outside in cell migration process?

Select the correct option

- Cell free zone
- Outer layer
- Internal layer
- Middle layer

Question # 8 of 10 (Start time: 11:04:15 PM, 31 December 2021)

When a drug is injected into peritoneum (the stomach region) it is known as the _____.

Select the correct option

- Intraperitoneal (IP) procedure
- Intra gastric (IG) procedure
- Sub Cutaneous (SC) procedure
- Intramuscular (IM) route

PSY610 - Neurological Bases of Behavior (Quiz 2) Quiz

Question # 5 of 10 (Start time: 10:59:51 PM, 31 December 2021)

There are three germinal layers of a fertilized egg. Which of the following is NOT included among them?

Select the correct option

- Ectodermal layer
- Endodermal layer
- Mesodermal layer
- Fesodermal layer

Question # 6 of 10 (Start time: 11:00:54 PM, 31 December 2021) **Total Marks:**

Which of the following technique involves passing a high frequency direct electrical current through the stereotaxically placed electrodes and precise area is damaged through electrolysis?

Select the correct option

- Chemical stimulation
- Cryogenic freeze
- Bilateral lesions
- Electrolytic

Question # 3 of 10 (Start time: 10:57:14 PM, 31 December 2021)

Scientific breeding can produce brilliant offspring leading to perfectionism. This concept is named as:

Select the correct option

- Hybrid vigor
- Genetic management
- Genius progenies
- Eugenics

Question # 4 of 10 (Start time: 10:58:00 PM, 31 December 2021)

Which of the following technique places electrodes on the muscle to measure its electrical activity?

Select the correct option

- Polygraphic recording
- Electroencephalograph
- Electro-oculograph
- Electromyograph

PSY610 - Neurological Bases of Behavior (Quiz 2) Quiz Start Time: 10:53 PM, 31 D

Question # 1 of 10 (Start time: 10:53:52 PM, 31 December 2021)

Which of the following type of stain is a silver staining technique that is used to visualize nervous tissue under light microscopy?

Select the correct option

- Nissyl blue
- Golgi-Cox Silver
- Histoflourescence
- Weil Stain

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question # 2 of 10 (Start time: 10:55:47 PM, 31 December 2021)

In Magnetic Resonance Imaging (MRI) the "resonance" means _____.

Select the correct option

○	Resolution images
○	Scanning
○	Magnetic field
○	Echoing

Question # 9 of 10 (Start time: 10:46:06 PM, 31 December 2021)

Who laid the basis of Statistics?

Select the correct option

- Sir Francis Galton
- Sir Julian Huxley
- Thomas Henry Huxley
- Aldous Huxley

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question #10 of 10 (Start time: 10:47:07 PM, 31 December 2021)

If we stroke foot of the neonate then the toes fan up and out, this reflex is known as:

Select the correct option

○	Plantar
○	Suckling
○	Moro responses
○	Rooting

Question # 7 of 10 (Start time: 10:41:12 PM, 31 December 2021)

The mesodermal cell layer forms the _____.

Select the correct option

- Nervous system
- Internal organs
- External organs
- Skeletal muscles

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question # 8 of 10 (Start time: 10:44:39 PM, 31 December 2021)

Which of the following technique sucked out the brain tissue through a glass pipette?

Select the correct option

- Cryogenic freeze
- Suction
- Ablation
- Knife cuts

Question # 4 of 10 (Start time: 10:37:37 PM, 31 December 2021)

Which of the following type of stain is used for low-resolution identification of myelin in fixed tissue?

Select the correct option

○	Histoflourescence
○	Nissyl blue
○	Golgi-Cox Silver
○	Weil Stain

Question # 5 of 10 (Start time: 10:38:49 PM, 31 December 2021)

Francis Galton was first cousin with:

Select the correct option

○	Joh Noyes
○	Charles Darwin
○	Thomas Henry
○	Aldous Huxley

PSY610 - Neurological Bases of Behavior (Quiz 2) Quiz Start Time: 10:33 PM, 31 D

Question # 2 of 10 (Start time: 10:35:17 PM, 31 December 2021)

Which of the following type of stain is a silver staining technique that is used to visualize nervous tissue under light microscopy?

Select the correct option

- Weil Stain
- Nissyl blue
- Golgi-Cox Silver
- Histoflourescence

Question # 3 of 10 (Start time: 10:36:45 PM, 31 December 2021)

Which of the following layer of cell migration consist of cell bodies that eventually form grey matter?

Select the correct option

- ○ Cell free zone
- ○ Internal layer
- ○ Outer layer
- ○ Middle layer

Question #10 of 10 (Start time: 09:13:26 PM, 31 December 2021) Total Mar

Which of the following technique is used for measuring electrical skin conductance along with other measures such as blood pressure, puls rate and breathing?

Select the correct option

- Electro-oculograph
- Polygraphic recording
- Electroencephalography
- Electromyograph

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question # 1 of 10 (Start time: 10:33:37 PM, 31 December 2021)

Zygote refers to the:

Select the correct option

- ○ Development of an embryo
- ○ Fertilized egg attaching to the uterus wall
- ○ Development of a fetus
- ○ Fertilization of the egg

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question # 8 of 10 (Start time: 09:11:39 PM, 31 December 2021)

If we stroke foot of the neonate then the toes fan up and out, this reflex is known as:

Select the correct option

- Moro responses
- Suckling
- Rooting
- Plantar

Question # 9 of 10 (Start time: 09:12:36 PM, 31 December 2021)

Which of the following is defined as the process of development during embryonic stages?

Select the correct option

○	Histogenesis
○	Induction
○	Embryogenesis
○	Differentiation

Question # 6 of 10 (Start time: 09:09:08 PM, 31 December 2021)

Scientific breeding can produce brilliant offspring leading to perfectionism. This concept is named as:

Select the correct option

- Genius progenies
- Eugenics
- Hybrid vigor
- Genetic management

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question # 7 of 10 (Start time: 09:10:39 PM, 31 December 2021)

In Magnetic Resonance Imaging (MRI) the "resonance" means _____

Select the correct option

- Scanning
- Echoing
- Magnetic field
- Resolution images

Question # 4 of 10 (Start time: 09:06:53 PM, 31 December 2021) Total Ma

In class, you are given an activity to draw a picture about first to last stage of embryo development. Which of the following principle will yo follow to show the exact sequence of development?

Select the correct option

- Ventral to dorsal
- Head to tail
- Tail to head
- Dorsal to ventral

Question # 5 of 10 (Start time: 09:08:00 PM, 31 December 2021) Tota

In operation theater, Dr. Salman placed his patient in a chamber of highly charged magnetic field to check high resolution brain image the basis of waves. He used the technique of:

Select the correct option

- Positron Emission Tomography (PET)
- Computed Axial Tomography (CAT)
- Contrast X-rays
- Magnetic Resonance Imaging (MRI)

Question # 1 of 10 (Start time: 09:02:10 PM, 31 December 2021)

Which of the following technique sucked out the brain tissue through a glass pipette?

Select the correct option

○	Cryogenic freeze
○	Knife cuts
○	Suction
○	Ablation

PSY610 - Neurological Bases of Behavior (Quiz 2) Quiz Start Time: 09:01 PM

Question # 3 of 10 (Start time: 09:05:46 PM, 31 December 2021)

Drug is injected into the in-large muscles such as the forearm or the thigh. This process of injecting the drug is known as:

Select the correct option

- Intramuscular (IM) route
- Intraperitoneal (IP) procedure
- Sub Cutaneous (SC) procedure
- Intra gastric (IG) procedure

Question # 4 of 10 (Start time: 08:40:33 PM, 31 December 2021)

In which of the following techniques, 2-DG glucose is injected in carotid artery for the brain scanning?

Select the correct option

- Positron Emission Tomography (PET)
- X-Ray computed axial tomography
- Magnetic resonance imaging (MRI)
- Contrast rays

sec(s)

PSY610 - Neurological Bases of Behavior (Quiz 2) Quiz Start Time: 08:37 PM, 31 December 2021

Question # 10 of 10 (Start time: 08:50:19 PM, 31 December 2021) Total Marks: 1

Which abnormality has the symptoms of Cerebral palsy, involuntary movements of the limbs, hands, feet, and facial muscles, self-mutilation of lips, mouth, and fingers?

Select the correct option

- XYY Syndrome
- Lesch-Nyhan syndrome
- Turner's Syndrome
- Klienfelters Syndrome

Question # 9 of 10 (Start time: 08:48:46 PM, 31 December 2021)

Which of the following type of stain is a silver staining technique that is used to visualize nervous tissue under light microscopy?

Select the correct option

- Golgi-Cox Silver
- Nissyl blue
- Weil Stain
- Histoflourescence

PSY610 - Neurological Bases of Behavior (Quiz 2)

Quiz Start Time: 08:37 PM, 31 December 20

Question # 7 of 10 (Start time: 08:45:47 PM, 31 December 2021)

Total Mark

In class, you are given an activity to draw a picture about first to last stage of embryo development. Which of the following principle will you follow to show the exact sequence of development?

Select the correct option

- Head to tail
- Dorsal to ventral
- Tail to head
- Ventral to dorsal

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question # 8 of 10 (Start time: 08:47:05 PM, 31 December 2021)

In the Stereotaxic Atlas, Bregma is the:

Select the correct option

- ○ Medial Line
- ○ Anterior Line
- ○ Dorsal Line
- ○ Posterior Line

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question # 3 of 10 (Start time: 08:39:55 PM, 31 December 2021)

The Endodermal layer forms the:

Select the correct option

- Internal organs
- Nervous system
- External organs
- Skeletal muscles

Question # 6 of 10 (Start time: 08:44:03 PM, 31 December 2021)

Total Marks

When the whole brain is invaded to create a lesion, radioactive substances are introduced to see the changes in behavior. This is known as:

Select the correct option

- Lobotomy
- Staining
- Invasion
- Histology

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question # 5 of 10 (Start time: 08:42:08 PM, 31 December 2021)

Aspiration is a technique of brain study also known as:

Select the correct option

- Lesioning
- Cryogenic Freeze
- Suction
- Ablation

PSY610 - Neurological Bases of Behavior (Quiz 2) Quiz Start Time: 08:37

Question # 1 of 10 (Start time: 08:37:03 PM, 31 December 2021)

Which of the following has a distinct characteristic of mental retardation and considered as an amino acid disorder?

Select the correct option

- Huntington's chorea
- Alzheimer
- Tay-Sach's disease
- Phenylketonuria

PSY610 - Neurological Bases of Behavior (Quiz 2) Quiz Start

Question # 2 of 10 (Start time: 08:38:00 PM, 31 December 2021)

Weschler Adult Intelligence Scale (WAIS) and Weschler Child Intelligence Scale (WISC) are used as part of:

Select the correct option

- Beck Anxiety Inventory
- Minnesota Multiphasic Personality Inventory
- Halstead Reitan Battery
- Beck Depression Inventory

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question # 6 of 10 (Start time: 08:25:12 PM, 31 December

The Endodermal layer forms the:

Select the correct option

○	Internal organs
○	External organs
○	Nervous system
○	Skeletal muscles

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question # 5 of 10 (Start time: 08:24:20 PM, 31 December 2021)

Which of the following is defined as the process of development during embryonic stages?

Select the correct option

○	Differentiation
○	Induction
○	Embryogenesis
○	Histogenesis

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question # 4 of 10 (Start time: 08:22:50 PM, 31 December 2021)

In class, you are given an activity to draw a picture about first to last stage of embryo development. Which of the development?

Select the correct option

○	Dorsal to ventral
○	Tail to head
○	Ventral to dorsal
○	Head to tail

Question # 4 of 10 (Start time: 08:22:50 PM, 31 December 2021) **Total Marks:**

In class, you are given an activity to draw a picture about first to last stage of embryo development. Which of the following principle will you follow to show the exact sequence of development?

Select the correct option

- Dorsal to ventral
- Tail to head
- Ventral to dorsal
- Head to tail

Question # 5 of 10 (Start time: 07:42:34 PM, 31 December 2021)

Which of the following has a distinct characteristic of mental retardation and considered as an amino acid disorder?

Select the correct option

- Phenylketonuria
- Alzheimer
- Huntington's chorea
- Tay-Sach's disease

Question # 3 of 10 (Start time: 08:22:01 PM, 31 December 2021)

Which of the following is a reversible process?

Select the correct option

○	Knife Cuts
○	Lesioning
○	Cryogenic Freeze
○	Ablation

Question # 10 of 10 (Start time: 07:48:56 PM, 31 December 2021)

Which of the following is a container in which the embryo is contained and attached to the mother?

Select the correct option

- Zygote
- Fetus
- Placenta
- Embryo

Question # 7 of 10 (Start time: 07:45:33 PM, 31 December 2021)

In Magnetic Resonance Imaging (MRI) the "resonance" means _____.

Select the correct option

○	Echoing
○	Magnetic field
○	Resolution images
○	Scanning

Question # 3 of 10 (Start time: 07:39:53 PM, 31 December 2021)

Scientific breeding can produce brilliant offspring leading to perfectionism. This concept is named as:

Select the correct option

- Genius progenies
- Eugenics
- Hybrid vigor
- Genetic management

Question # 8 of 10 (Start time: 07:46:37 PM, 31 December 2021)

In the Stereotaxis Atlas, Lambda is the:

Select the correct option

○	Medial Line
○	Anterior Line
○	Dorsal Line
○	Posterior Line

Question # 4 of 10 (Start time: 07:40:48 PM, 31 December 2021) Total M

The _____ are formed on the surface of neurons and other cells and they give the cell ability to recognize the molecules and surfaces.

Select the correct option

- Cell adhesion molecules
- Radial Glial
- Myelination
- Cell proliferation

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question # 6 of 10 (Start time: 07:44:02 PM, 31 December 2021)

Which of the following is a reversible process?

Select the correct option

- Lesioning
- Cryogenic Freeze
- Knife Cuts
- Ablation

Question # 9 of 10 (Start time: 07:47:23 PM, 31 December 2021)

Which of the following is the process where neurons (cells) specialize and move to relevant neuroanatomical sites

Select the correct option

- Induction
- Histogenesis
- Embryogenesis
- Differentiation

Question # 2 of 10 (Start time: 07:38:37 PM, 31 December 2021)

Which of the following is a chromosomal anomaly where an additional Y chromosome is attached to the normal male pair?

Select the correct option

- XYY syndrome
- Klienfelters syndrome
- Lesch-Nyhan syndrome
- Turner's syndrome

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question # 8 of 10 (Start time: 08:17:59 PM, 31 December 2021)

Who reported that predisposition to alcoholism is 4 times higher in males?

Select the correct option

○	Sir Francis Galton
○	Aldous Huxley
○	Sir Julian Huxley
○	Goodwin and colleagues

PSY610 - Neurological Bases of Behavior (Quiz 2) Quiz Start Time: 08:07 PM, 31 December 202

Question # 10 of 10 (Start time: 08:19:34 PM, 31 December 2021) Total Marks:

If a patient scores low on verbal as compared to the performance tests on Weschler Adult Intelligence Scale (WAIS) then we can suspect deficit of:

Select the correct option

- Thalamus
- Right hemisphere
- Left hemisphere
- Hypothalamus

Question # 6 of 10 (Start time: 08:16:36 PM, 31 December 2021) **Total Marks**

When the whole brain is invaded to create a lesion, radioactive substances are introduced to see the changes in behavior. This is known as:

Select the correct option

- Invasion
- Staining
- Lobotomy
- Histology

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question # 7 of 10 (Start time: 08:17:26 PM, 31 December 2021)

CAT is an acronym of:

Select the correct option

- Child Appropriate Test
- Computed Axial Tomography
- Child Abuse Test
- Computer Appliance Technology

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question # 4 of 10 (Start time: 08:14:47 PM, 31 December 2021)

All of the followings are deficiencies due to a single gene defect EXCEPT:

Select the correct option

- Huntington's chorea
- Alzheimer
- Down syndrome
- Phenylketonuria

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question # 5 of 10 (Start time: 08:15:35 PM, 31 December 2021)

The Endodermal layer forms the:

Select the correct option

- Internal organs
- External organs
- Nervous system
- Skeletal muscles

Question # 2 of 10 (Start time: 08:10:15 PM, 31 December 2021) Total Marks:

Which of the following layers of a cell consists of cell bodies which eventually form grey matter and these cells do not divide after this? These are the same cells found in the adult brain.

Select the correct option

- The internal layer
- The Middle layer
- The Cell free zone
- The external layer

Question # 3 of 10 (Start time: 08:11:53 PM, 31 December 2021)

Which of the following is defined as the process of development during embryonic stages?

Select the correct option

- Embryogenesis
- Differentiation
- Histogenesis
- Induction

Question # 10 of 10 (Start time: 07:40:01 PM, 31 December 2021)

Which of the following is a technique in which the brain is NOT inactivated?

Select the correct option

- Radio Frequency Lesions
- Microiontophoresis
- Ablation
- Aspiration

PSY610 - Neurological Bases of Behavior (Quiz 2) **Quiz Start T**

Question # 1 of 10 (Start time: 08:07:07 PM, 31 December 2021)

Which of the following technique places electrodes on the muscle to measure its electrical activity?

Select the correct option

- Polygraphic recording
- Electro-oculograph
- Electroencephalograph
- Electromyograph

Question # 8 of 10 (Start time: 07:36:23 PM, 31 December 2021)

The initial division of cells is differentiated into various organs (heart, kidney, brain, stomach), this change is induced by:

Select the correct option

- Notochord
- Ectodermal
- Endodermal
- Mesodermal

estion # 9 of 10 (Start time: 07:38:21 PM, 31 December 2021) Total Mark

Which of the following is a defect in the lipid metabolism due to a double recessive gene at single locus while both parents are the carriers of his gene?

ect the correct option

- Tay-Sach's disease
- Alzheimer
- Huntington's chorea
- Phenylketonuria

Question # 6 of 10 (Start time: 07:33:19 PM, 31 December 2021) Tota

If a patient's performance on picture completion of Weschler Adult Intelligence Scale (WAIS) is poor then we can suspect deficit of:

Select the correct option

- Hypothalamus
- Left hemisphere
- Thalamus
- Right hemisphere

Which of the following is a container in which the embryo is contained and attached to the mother?

Select the correct option

- Zygote
- Fetus
- Placenta
- Embryo

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question # 6 of 10 (Start time: 05:49:32 PM, 31 December 2021)

Which of the following is defined as the process of development during embryonic stages?

Select the correct option

- Induction
- Differentiation
- Embryogenesis
- Histogenesis

Question # 9 of 10 (Start time: 07:19:13 PM, 31 December 2021)

There are three germinal layers of a fertilized egg. Which of the following is NOT included among them?

Select the correct option

- Mesodermal layer
- Endodermal layer
- Fesodermal layer
- Ectodermal layer

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question # 8 of 10 (Start time: 05:51:33 PM, 31 December 2021)

The study of the effects of substances which influences normal development is known as:

Select the correct option

- Phocomelia
- Anencephaly
- Teratology
- Harelip

Question # 10 of 10 (Start time: 05:54:02 PM, 31 December 2021)

Weschler Adult Intelligence Scale (WAIS) and Weschler Child Intelligence Scale (WISC) are used as part of:

Select the correct option

- Beck Depression Inventory
- Halstead Reitan Battery
- Minnesota Multiphasic Personality Inventory
- Beck Anxiety Inventory

sec(s)

PSY610 - Neurological Bases of Behavior (Quiz 2) Quiz Start Time: 07:09 PM, 31 December 2021

Question # 8 of 10 (Start time: 07:17:39 PM, 31 December 2021) Total Marks:

Which of the following is a method that utilizes a special technique in which the cells are exposed to dry Formaldehyde gas and cells fluoresce in different colors?

Select the correct option

- Nissyl blue
- Weil Stain
- Histoflourescence
- Golgi-Cox Silver

Question # 9 of 10 (Start time: 05:52:22 PM, 31 December 2021)

There are three germinal layers of a fertilized egg. Which of the following is NOT included among them?

Select the correct option

- Mesodermal layer
- Fesodermal layer
- Ectodermal layer
- Endodermal layer

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question # 6 of 10 (Start time: 07:16:25 PM, 31 December 2021)

Bregma is the _____ line in the stereotaxic atlas.

Select the correct option

- (●) Anterior
- ( ) Horizontal
- ( ) Parietal
- ( ) Posterior

Question # 7 of 10 (Start time: 07:17:00 PM, 31 December 2021)

The study of the effects of substances which influences normal development is known as:

Select the correct option

- Phocomelia
- Harelip
- Teratology
- Anencephaly

PSY610 - Neurological Bases of Behavior (Quiz 2) Quiz Start Time: 07:09 PM, 31 December 2021

Question # 5 of 10 (Start time: 07:14:09 PM, 31 December 2021) Total Marks:

When the whole brain is invaded to create a lesion, radioactive substances are introduced to see the changes in behavior. This is known as:

Select the correct option

- Staining
- Histology
- Lobotomy
- Invasion

Which of the following is a reversible process?

Select the correct option

○	Cryogenic Freeze
○	Lesioning
○	Knife Cuts
○	Ablation

Question # 3 of 10 (Start time: 07:11:36 PM, 31 December 2021)

Which of the following layer of cell migration consist of cell bodies that eventually form grey matter?

Select the correct option

- Internal layer
- Outer layer
- Cell free zone
- Middle layer

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question # 4 of 10 (Start time: 07:12:43 PM, 31 December 2021)

Which of the following layer of cell migration consist of cells that are still dividing?

Select the correct option

- ○ Outer layer
- ○ Middle layer
- ○ Internal layer
- ○ Cell free zone

In the "Tracers" technique, the animal is injected with a tracer while the animal is:

Select the correct option

○	Sleeping
○	Alive
○	Dead
○	Unconscious

The Endodermal layer forms the:

Select the correct option

- ○ Internal organs
- ○ Skeletal muscles
- ○ External organs
- ○ Nervous system

PSY610 - Neurological Bases of Behavior (Quiz 2) Quiz Start Time: 07:09 PM, 31 December

Question # 2 of 10 (Start time: 07:10:30 PM, 31 December 2021) Total Ma

Which of the following technique is used for measuring electrical skin conductance along with other measures such as blood pressure, pulse rate and breathing?

Select the correct option

- Electro-oculograph
- Electromyograph
- Polygraphic recording
- Electroencephalography

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question # 4 of 10 (Start time: 07:07:02 PM, 31 December 2021)

Which of the following layer of cell migration consist of cell bodies that eventually form grey matter?

Select the correct option

- Outer layer
- Cell free zone
- Internal layer
- Middle layer

Question # 1 of 10 (Start time: 07:09:55 PM, 31 December 2021)

In which of the following techniques, 2-DG glucose is injected in carotid artery for the brain scanning?

Select the correct option

- Positron Emission Tomography (PET)
- X-Ray computed axial tomography
- Contrast rays
- Magnetic resonance Imaging (MRI)

uestion # 3 of 10 (Start time: 07:05:49 PM, 31 December 2021)

Which of the following type of stain is used for low-resolution identification of myelin in fixed tissue?

elect the correct option

- Weil Stain
- Histoflourescence
- Nissyl blue
- Golgi-Cox Silver

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question # 1 of 10 (Start time: 06:57:19 PM, 31 December 2021)

Who proposed the theory of evolution?

Select the correct option

- (●) Charles Darwin
- ( ) Sir Julian Huxley
- ( ) Aldous Huxley
- ( ) Sir Francis Galton

Question # 1 of 10 (Start time: 07:03:22 PM, 31 December 2021)

How many layers are formed during cell migration process?

Select the correct option

○	3
○	5
○	4
○	2

Time Left

SY610 - Neurological Bases of Behavior (Quiz 2)

Quiz Start Time: 06:43 PM, 31 December

uestion # 10 of 10 (Start time: 06:55:32 PM, 31 December 2021)

Total M

Which of the following phase is between 10-18 week of gestation while maximal cells are formed, connections are being formed and systems of brain areas are organized?

elect the correct option

- Cell Proliferation
- Fate Mapping
- Cell Aggregation
- Growth Spurt

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question # 10 of 10 (Start time: 06:55:32 PM, 31 December 2021)

Which of the following phase is between 10-18 week of gestation while maximal cells organized?

Select the correct option

- Cell Proliferation
- Fate Mapping
- Cell Aggregation
- Growth Spurt

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question # 4 of 10 (Start time: 06:48:27 PM, 31 December 2021)

If an object is placed in the mouth then the newborn starts sucking placed in mouth, this reflex is known as:

Select the correct option

- Rooting
- Moro responses
- Plantar
- Suckling

Zygote refers to the:

Select the correct option

- Fertilized egg attaching to the uterus wall
- Development of an embryo
- Fertilization of the egg
- Development of a fetus

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question # 6 of 10 (Start time: 06:50:17 PM, 31 December 2021)

Which of the following technique studies brain cells and their projections after removal of the brain?

Select the correct option

- Staining
- Histology
- Lobotomy
- Invasion

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question # 5 of 10 (Start time: 06:49:37 PM, 31 December 2021)

Which of the following is a container in which the embryo is contained and attached to the mother?

Select the correct option

- Embryo
- Fetus
- Zygote
- Placenta

Question # 2 of 10 (Start time: 06:45:12 PM, 31 December 2021)

Which of the following is a chromosomal anomaly where an additional Y chromosome is attached to the normal male pair?

Select the correct option

- XYY syndrome
- Lesch-Nyhan syndrome
- Klienfelters syndrome
- Turner's syndrome

Who provided evidence against Aristotle concept of preformation?

Select the correct option

- Van Baer
- Aristotle
- Darwin
- James Cattel

Question # 3 of 10 (Start time: 06:34:53 PM, 31 December 2021)

When drug is injected into the space under skin this is known as the:

Select the correct option

○	Sub Cutaneous (SC) procedure
○	Intraperitoneal (IP) procedure
○	Intramuscular (IM) route
○	Intra gastric (IG) procedure

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question # 1 of 10 (Start time: 06:43:46 PM, 31 December 2021)

Development of synaptic connection is one of the stages of:

Select the correct option

- Cell depletion
- Cellular maturation
- Cell migration
- Cell determination

Question # 1 of 10 (Start time: 06:43:46 PM, 31 December 2021)

Development of synaptic connection is one of the stages of:

Select the correct option

- Cell depletion
- Cellular maturation
- Cell migration
- Cell determination

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question # 4 of 10 (Start time: 06:35:32 PM, 31 December 2021)

In the Stereotaxic Atlas, Bregma is the:

Select the correct option

○	Medial Line
○	Posterior Line
○	Anterior Line
○	Dorsal Line

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question # 1 of 10 (Start time: 06:32:57 PM, 31 December 2021)

Who laid the basis of Statistics?

Select the correct option

- ○ Thomas Henry Huxley
- ○ Aldous Huxley
- ○ Sir Francis Galton
- ○ Sir Julian Huxley

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question # 2 of 10 (Start time: 06:33:45 PM, 31 December 2021)

All of the followings are chromosomal abnormalities EXCEPT:

Select the correct option

- Phenylketonuria
- Turner's syndrome
- Down syndrome
- Klienfelters syndrome

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question # 9 of 10 (Start time: 06:29:46 PM, 31 December 2021)

In the "Tracers" technique, the animal is injected with a tracer while the animal is:

Select the correct option

- ○ Unconscious
- ○ Sleeping
- ○ Alive
- ○ Dead

Question # 10 of 10 (Start time: 06:30:23 PM, 31 December 2021)

In Magnetic Resonance Imaging (MRI) the "resonance" means _____

Select the correct option

○	Resolution images
○	Magnetic field
○	Scanning
○	Echoing

Question # 7 of 10 (Start time: 06:27:44 PM, 31 December 2021) **Total Marks:** 1

If a patient scores low on verbal as compared to the performance tests on Weschler Adult Intelligence Scale (WAIS) then we can suspect deficit of:

Select the correct option

- Right hemisphere
- Left hemisphere
- Thalamus
- Hypothalamus

PSY610 - Neurological Bases of Behavior (Quiz 2) Quiz Start Time: 06:22 PM, 31 December 2

Question # 8 of 10 (Start time: 06:28:51 PM, 31 December 2021) Total Mar

If a patient shows poor performance on block design subset of Weschler Child Intelligence Scale (WISC) then it may indicate damage in:

Select the correct option

- Left anterior parietal
- Right anterior parietal
- Left dorsal parietal
- Right posterior parietal

PSY610 - Neurological Bases of Behavior (Quiz 2) Quiz Sta

Question # 5 of 10 (Start time: 06:25:35 PM, 31 December 2021)

If an object is placed in the mouth then the newborn starts sucking placed in mouth, this reflex is known as:

Select the correct option

- Moro responses
- Suckling
- Rooting
- Plantar

PSY610 - Neurological Bases of Behavior (Quiz 2)

Quiz Start Time: 06:22 PM, 31 December

Question # 6 of 10 (Start time: 06:26:23 PM, 31 December 2021)

Total Ma

Which of the following is a procedure in which major parts of the brain are removed in order to check affected behaviors in these areas?

Select the correct option

- Knife cut
- Suction
- Ablation
- Radio frequency lesion

Question # 3 of 10 (Start time: 06:23:40 PM, 31 December 2021)

The initial division of cells is differentiated into various organs (heart, kidney, brain, stomach), this change is induced by:

Select the correct option

- Mesodermal
- Endodermal
- Notochord
- Ectodermal

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question # 4 of 10 (Start time: 06:24:53 PM, 31 December 2021)

Who provided evidence against Aristotle concept of preformation?

Select the correct option

- ○ Darwin
- ○ James Cattel
- ○ Van Baer
- ○ Aristotle

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question # 10 of 10 (Start time: 06:18:15 PM, 31 December 2021)

Who gave the concept of preformation- animals were preformed into the shape they were born?

Select the correct option

○	Darwin
○	Van Baer
○	Aristotle
○	Ernst Haeckel

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question # 2 of 10 (Start time: 06:23:00 PM, 31 December 2021)

When a drug is injected into peritoneum (the stomach region) it is known as the _____

Select the correct option

- ○ Intraperitoneal (IP) procedure
- ○ Intramuscular (IM) route
- ○ Intra gastric (IG) procedure
- ○ Sub Cutaneous (SC) procedure

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question # 1 of 10 (Start time: 06:22:24 PM, 31 December 2021)

Which of the following part of brain connects with the spinal cord?

Select the correct option

○	Emotional brain
○	Fore brain
○	Mid brain
○	Hind brain

Which of the following occurs at the stage of Implantation?

elect the correct option

- Egg forms in to an embryo
- Egg forms in to a fetus
- Sperm is conceived by the egg
- Fertilized egg attaches to the uterus wall

PSY610 - Neurological Bases of Behavior (Quiz 2) **Quiz Start**

Question # 9 of 10 (Start time: 06:17:28 PM, 31 December 2021)

Scientific breeding can produce brilliant offspring leading to perfectionism. This concept is named as:

Select the correct option

- Genius progenies
- Eugenics
- Genetic management
- Hybrid vigor

Question # 9 of 10 (Start time: 06:17:58 PM, 31 December 2021)

Who provided evidence against Aristotle concept of preformation?

Select the correct option

- James Cattel
- Darwin
- Van Baer
- Aristotle

Question # 8 of 10 (Start time: 06:16:11 PM, 31 December 2021)

In which of the following techniques, 2-DG glucose is injected in carotid artery for the brain scanning?

Select the correct option

- ○ Contrast rays
- ○ Positron Emission Tomography (PET)
- ○ Magnetic resonance Imaging (MRI)
- ○ X-Ray computed axial tomography

Question # 8 of 10 (Start time: 06:16:29 PM, 31 December 2021)

Which of the following type of stain is used for low-resolution identification of myelin in fixed tissue?

Select the correct option

- Histoflourescence
- Nissyl blue
- Weil Stain
- Golgi-Cox Silver

Question # 7 of 10 (Start time: 06:15:35 PM, 31 December 2021)

Which of the following is defined as the process of development during embryonic stages?

Select the correct option

- Differentiation
- Induction
- Histogenesis
- Embryogenesis

Question # 6 of 10 (Start time: 06:13:37 PM, 31 December 2021) Total Mark

When the embryo starts resembling human form, the amniotic sac ("bag") is created which is filled with amniotic fluid which protects the embryo and provides constant _____ within the sac.

Select the correct option

- Food
- Temperature
- Pressure
- Oxygen

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question # 6 of 10 (Start time: 06:14:27 PM, 31 December 2021)

Development of synaptic connection is one of the stages of:

Select the correct option

- ○ Cell determination
- ○ Cellular maturation
- ○ Cell depletion
- ○ Cell migration

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question # 5 of 10 (Start time: 06:13:34 PM, 31 December 2021)

Aspiration is a technique of brain study also known as:

Select the correct option

- Lesioning
- Suction
- Ablation
- Cryogenic Freeze

PSY610 - Neurological Bases of Behavior (Quiz 2) Qu

Question # 4 of 10 (Start time: 06:12:51 PM, 31 December 2021)

Which of the following type of stain is used for low-resolution identification of myelin in fixed tissue?

Select the correct option

- Histoflourescence
- Nissyl blue
- Golgi-Cox Silver
- Weil Stain

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question # 4 of 10 (Start time: 06:11:16 PM, 31 December 2021)

All of the followings are deficiencies due to a single gene defect EXCEPT:

Select the correct option

- Alzheimer
- Huntington's chorea
- Down syndrome
- Phenylketonuria

Question # 5 of 10 (Start time: 06:12:23 PM, 31 December 2021)

Which of the following is a technique in which the brain is NOT inactivated?

Select the correct option

- Ablation
- Microiontophoresis
- Radio Frequency Lesions
- Aspiration

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question # 4 of 10 (Start time: 06:11:16 PM, 31 December 2021)

All of the followings are deficiencies due to a single gene defect EXCEPT:

Select the correct option

- Alzheimer
- Huntington's chorea
- Down syndrome
- Phenylketonuria

PSY610 - Neurological Bases of Behavior (Quiz 2) Quiz Start Time: 06:09 PM, 31 Decemb

Question # 2 of 10 (Start time: 06:10:28 PM, 31 December 2021) Total

Which of the following is NOT included during the movement of cells from inside of the tube towards outside in cell migration process?

Select the correct option

- Internal layer
- Outer layer
- Cell free zone
- Middle layer

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question # 3 of 10 (Start time: 06:10:22 PM, 31 December 2021)

If we stroke foot of the neonate then the toes fan up and out, this reflex is known as:

Select the correct option

- Moro responses
- Suckling
- Plantar
- Rooting

Question # 2 of 10 (Start time: 06:09:15 PM, 31 December 2021)

How many layers are formed during cell migration process?

Select the correct option

- 2
- 5
- 4
- 3

PSY610 - Neurological Bases of Behavior (Quiz 2) Qu

Question # 1 of 10 (Start time: 06:09:47 PM, 31 December 2021)

As we cannot manipulate a human brain. Which of the following is used to study a human brain?

Select the correct option

- ○ Vivo Technique
- ○ Post Mortem
- ○ Lesioning Study
- ○ Invasive Technique

Question # 1 of 10 (Start time: 06:07:40 PM, 31 December 2021)

Which of the following has a distinct characteristic of mental retardation and considered as an amino acid dis

Select the correct option

- Huntington's chorea
- Phenylketonuria
- Alzheimer
- Tay-Sach's disease

Question # 10 of 10 (Start time: 05:54:02 PM, 31 December 2021)

Weschler Adult Intelligence Scale (WAIS) and Weschler Child Intelligence Scale (WISC) are used as part of:

Select the correct option

- Beck Depression Inventory
- Halstead Reitan Battery
- Minnesota Multiphasic Personality Inventory
- Beck Anxiety Inventory

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question # 8 of 10 (Start time: 05:51:33 PM, 31 December 2021)

The study of the effects of substances which influences normal development is known as:

Select the correct option

- Phocomelia
- Anencephaly
- Teratology
- Harelip

Question # 9 of 10 (Start time: 05:52:22 PM, 31 December 2021)

There are three germinal layers of a fertilized egg. Which of the following is NOT included among them?

Select the correct option

- Mesodermal layer
- Fesodermal layer
- Ectodermal layer
- Endodermal layer

Which of the following is a reversible process?

Select the correct option

- Lesioning
- Knife Cuts
- Ablation
- Cryogenic Freeze

Question # 4 of 10 (Start time: 05:33:29 PM, 31 December 2021) Total Marks

The fertilized egg attaches itself to the uterus walls with its tendrils. This linkage provides nurturance and nutrition which is required for rapid growth of the zygote. This process of attachment is known as _____.

Select the correct option

- Fertilization
- Progression
- Differentiation
- Implantation

PSY610 - Neurological Bases of Behavior (Quiz 2) Quiz Start Time: 05:2

Question # 1 of 10 (Start time: 05:29:39 PM, 31 December 2021)

Which of the following technique studies brain cells and their projections after removal of the brain?

Select the correct option

- Invasion
- Histology
- Staining
- Lobotomy

PSY610 - Neurological Bases of Behavior (Quiz 2) Quiz Start Time: 05:29 PM, 31 December 202

Question # 2 of 10 (Start time: 05:30:23 PM, 31 December 2021) Total Marks:

In operation theater, Dr. Salman placed his patient in a chamber of highly charged magnetic field to check high resolution brain images on the basis of waves. He used the technique of:

Select the correct option

- Computed Axial Tomography (CAT)
- Positron Emission Tomography (PET)
- Magnetic Resonance Imaging (MRI)
- Contrast X-rays

Question # 9 of 10 (Start time: 05:23:36 PM, 31 December 2021)

Which of the following is a special procedure for injecting the animal, while the animal is alive?

Select the correct option

- Nissyl blue
- Tracer
- Histoflourescence
- 2-Deoxy glucose

Question # 10 of 10 (Start time: 05:24:19 PM, 31 December 2021) Total Mar

If a patient's performance on picture completion of Weschler Adult Intelligence Scale (WAIS) is poor then we can suspect deficit of:

Select the correct option

- Hypothalamus
- Right hemisphere
- Thalamus
- Left hemisphere

Question # 8 of 10 (Start time: 05:22:49 PM, 31 December 2021)

When drug is injected into the space under skin this is known as the:

Select the correct option

- Intraperitoneal (IP) procedure
- Sub Cutaneous (SC) procedure
- Intra gastric (IG) procedure
- Intramuscular (IM) route

Question # 4 of 10 (Start time: 05:18:54 PM, 31 December 2021)

If we stroke foot of the neonate then the toes fan up and out, this reflex is known as:

Select the correct option

- Plantar
- Rooting
- Moro responses
- Suckling

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question # 5 of 10 (Start time: 05:19:58 PM, 31 December 2021)

The Endodermal layer forms the:

Select the correct option

- Nervous system
- Internal organs
- External organs
- Skeletal muscles

Question # 7 of 10 (Start time: 05:21:17 PM, 31 December 2021) Total Marks

Which of the following chromosomal abnormality is found in females having short stature and under-developed ovaries?

Select the correct option

- Turner's syndrome
- Klienfelters syndrome
- Down syndrome
- Lesch-Nyhan syndrome

Question # 2 of 10 (Start time: 05:17:08 PM, 31 December 2021)

Which of the following type of stain is used for low-resolution identification of myelin in fixed tissue?

Select the correct option

- Nissyl blue
- Weil Stain
- Golgi-Cox Silver
- Histoflourescence

Question # 3 of 10 (Start time: 05:17:57 PM, 31 December 2021)

All of the followings are chromosomal abnormalities EXCEPT:

Select the correct option

- ○ Turner's syndrome
- ○ Down syndrome
- ○ Phenylketonuria
- ○ Klienfelters syndrome

Question # 8 of 10 (Start time: 05:04:48 PM, 31 December 2021)

There are three germinal layers of a fertilized egg. Which of the following is NOT included among them?

Select the correct option

- Ectodermal layer
- Fesodermal layer
- Mesodermal layer
- Endodermal layer

Question # 1 of 10 (Start time: 05:16:20 PM, 31 December 2021)

Development of synaptic connection is one of the stages of:

Select the correct option

- ○ Cell migration
- ○ Cell determination
- ○ Cell depletion
- ○ Cellular maturation

Question # 10 of 10 (Start time: 05:07:20 PM, 31 December 2021)

The initial division of cells is differentiated into various organs (heart, kidney, brain, stomach), this change is induced by:

Select the correct option

- Notochord
- Ectodermal
- Endodermal
- Mesodermal

Question # 9 of 10 (Start time: 05:05:51 PM, 31 December 2021) **Total Marks:** 1

In which of the following procedure the alternating high frequency current is used from tip of electrode which is placed in a precise location in the brain?

Select the correct option

- Microiontophoresis
- Radio frequency lesions
- Aspiration
- Cryogenic freeze

Question # 10 of 10 (Start time: 05:14:53 PM, 31 December 2021) Total Marks: 1

Drug is injected into the in-large muscles such as the forearm or the thigh. This process of injecting the drug is known as:

Select the correct option

- Intra gastric (IG) procedure
- Intramuscular (IM) route
- Intraperitoneal (IP) procedure
- Sub Cutaneous (SC) procedure

Question # 7 of 10 (Start time: 05:03:36 PM, 31 December 2021) **Total Marks:** 1

Which of the following is a method that utilizes a special technique in which the cells are exposed to dry Formaldehyde gas and cells fluoresce in different colors?

Select the correct option

- Weil Stain
- Golgi-Cox Silver
- Histoflourescence
- Nissyl blue

Question # 8 of 10 (Start time: 05:12:55 PM, 31 December 2021) Total Mark

In which of the following, we can get images that are a clear indication of the areas where most activity is taking place or most oxygen is being used?

Select the correct option

- Computed Axial Tomography
- functional MRI
- Contrast –rays
- Computer Appliance Technology

Question # 9 of 10 (Start time: 05:13:44 PM, 31 December 2021) To

Which of the following is a container in which the embryo is contained and attached to the mother?

Select the correct option

- Fetus
- Embryo
- Zygote
- Placenta

PSY610 - Neurological Bases of Behavior (Quiz 2) Quiz St

Question # 6 of 10 (Start time: 05:10:38 PM, 31 December 2021)

In Magnetic Resonance Imaging (MRI) the "resonance" means _____.

Select the correct option

- Scanning
- Echoing
- Magnetic field
- Resolution images

Question # 7 of 10 (Start time: 05:12:19 PM, 31 December 2021)

Which of the following is a technique in which the brain is NOT inactivated?

Select the correct option

- Ablation
- Aspiration
- Radio Frequency Lesions
- Microiontophoresis

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question # 4 of 10 (Start time: 05:09:25 PM, 31 December 2021)

The mesodermal cell layer forms the _____.

Select the correct option

- Internal organs
- External organs
- Nervous system
- Skeletal muscles

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question # 5 of 10 (Start time: 05:10:00 PM, 31 December 2021)

Which of the following part of brain connects with the spinal cord?

Select the correct option

- (●) Hind brain
- ( ) Fore brain
- ( ) Emotional brain
- ( ) Mid brain

PSY610 - Neurological Bases of Behavior (Quiz 2) Quiz Start Time: 05:06 PM, 31 December 2021

Question # 3 of 10 (Start time: 05:08:01 PM, 31 December 2021) Total Marks: 1

Which of the following type of stain is a silver staining technique that is used to visualize nervous tissue under light microscopy?

Select the correct option

- Golgi-Cox Silver
- Histoflourescence
- Nissyl blue
- Weil Stain

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question # 4 of 10 (Start time: 05:09:25 PM, 31 December 2021)

The mesodermal cell layer forms the _____.

Select the correct option

- Internal organs
- External organs
- Nervous system
- Skeletal muscles

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question # 1 of 10 (Start time: 05:06:41 PM, 31 December 2021)

Who provided evidence against Aristotle concept of preformation?

Select the correct option

- (•) Van Baer
- ( ) Aristotle
- ( ) James Cattel
- ( ) Darwin

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question # 2 of 10 (Start time: 05:07:21 PM, 31 December 2021)

Who generated the concept of Eugenics?

Select the correct option

- Henry Huxley
- Leonard Huxley
- John Noyes
- Aldous Huxley

Question # 1 of 10 (Start time: 04:42:48 PM, 31 December 2021) Total Marks:

Which of the following is a procedure in which major parts of the brain are removed in order to check affected behaviors in these areas?

Select the correct option

- Suction
- Radio frequency lesion
- Knife cut
- Ablation

PSY610 - Neurological Bases of Behavior (Quiz 2) Quiz Start Time: 06:59 PM, 30 Dece

Question # 1 of 10 (Start time: 06:59:08 PM, 30 December 2021) To

If a patient's performance on picture completion of Weschler Adult Intelligence Scale (WAIS) is poor then we can suspect deficit of:

Select the correct option

- Right hemisphere
- Thalamus
- Hypothalamus
- Left hemisphere

Question # 7 of 10 (Start time: 04:49:26 PM, 31 December 2021)

Which of the following is a technique in which the brain is NOT inactivated?

Select the correct option

- ○ Radio Frequency Lesions
- ○ Aspiration
- ○ Ablation
- ○ Microiontophoresis

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question # 5 of 10 (Start time: 04:47:20 PM, 31 December 2021)

CAT is an acronym of:

Select the correct option

- Computed Axial Tomography
- Computer Appliance Technology
- Child Abuse Test
- Child Appropriate Test

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question # 3 of 10 (Start time: 04:45:02 PM, 31 December 2021)

The mesodermal cell layer forms the _____.

Select the correct option

- External organs
- Internal organs
- Nervous system
- Skeletal muscles

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question # 3 of 10 (Start time: 04:45:02 PM, 31 December 2021)

The mesodermal cell layer forms the _____.

Select the correct option

- External organs
- Internal organs
- Nervous system
- Skeletal muscles

PSY610 - Neurological Bases of Behavior (Quiz 2) Quiz Start Time: 04:42 PM, 31 Decembe

Question # 8 of 10 (Start time: 04:50:10 PM, 31 December 2021) Total M

Which of the following has a distinct characteristic of mental retardation and considered as an amino acid disorder?

Select the correct option

- Tay-Sach's disease
- Phenylketonuria
- Alzheimer
- Huntington's chorea

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question # 2 of 10 (Start time: 04:43:57 PM, 31 December 2021)

Introducing an antigen to create antibodies is technique called:

Select the correct option

- Radio Labeling
- Histoflourescence
- Horse Radish Peroxidase
- Immunocytochemistry

PSY610 - Neurological Bases of Behavior (Quiz 2) Quiz Start Time: 04:42 PM, 31 Decemb

Question # 9 of 10 (Start time: 04:51:38 PM, 31 December 2021) Total

Which of the following is the process where neurons (cells) specialize and move to relevant neuroanatomical sites?

Select the correct option

- Differentiation
- Embryogenesis
- Histogenesis
- Induction

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question # 10 of 10 (Start time: 04:53:14 PM, 31 December 2021)

Francis Galton was first cousin with:

Select the correct option

- ○ Charles Darwin
- ○ Thomas Henry
- ○ Aldous Huxley
- ○ Joh Noyes

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question # 4 of 10 (Start time: 04:46:23 PM, 31 December 2021)

Which of the following layer of cell migration consist of cells that are still dividing?

Select the correct option

- Cell free zone
- Outer layer
- Internal layer
- Middle layer

Question # 6 of 10 (Start time: 04:48:05 PM, 31 December 2021)

Which of the following layer of cell migration consist of cell bodies that eventually form grey matter?

Select the correct option

- Outer layer
- Middle layer
- Cell free zone
- Internal layer

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question # 6 of 10 (Start time: 05:01:55 PM, 31 December 2021)

Which of the following is a reversible process?

Select the correct option

- Cryogenic Freeze
- Lesioning
- Ablation
- Knife Cuts

Question # 5 of 10 (Start time: 05:00:52 PM, 31 December 2021)

When drug is injected directly into the circulatory system for a rapid action, this is known as _____.

Select the correct option

- Intramuscular (IM) route
- Intravenous (IV) procedure
- Intra gastric (IG) procedure
- Intraperitoneal (IP) procedure

Which of the following is a syndrome characterized by both physical and mental progressive degeneration transmitted to only males due to a dominant gene?

Select the correct option

- Alzheimer
- Tay-Sach's disease
- Huntington's chorea
- Phenylketonuria

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question # 2 of 10 (Start time: 04:56:52 PM, 31 December 2021)

Which of the following is defined as the process of development during embryonic stages?

Select the correct option

- Embryogenesis
- Differentiation
- Histogenesis
- Induction

PSY610 - Neurological Bases of Behavior (Quiz 2)

Quiz Start Time: 04:40 PM, 31 December

Question # 10 of 10 (Start time: 04:49:37 PM, 31 December 2021)

Total Mo

If a patient shows poor performance on block design subset of Weschler Child Intelligence Scale (WISC) then it may indicate damage in:

Select the correct option

- Left anterior parietal
- Right anterior parietal
- Left dorsal parietal
- Right posterior parietal

Question # 3 of 10 (Start time: 04:57:53 PM, 31 December 2021) **Total Marks:** 1

Which of the following phase is between 10-18 week of gestation while maximal cells are formed, connections are being formed and systems of brain areas are organized?

Select the correct option

- Cell Proliferation
- Cell Aggregation
- Growth Spurt
- Fate Mapping

Question # 4 of 10 (Start time: 04:59:28 PM, 31 December 2021)

Drug is injected into the in-large muscles such as the forearm or the thigh. This process of injecting the drug is known as:

Select the correct option

- Intraperitoneal (IP) procedure
- Intramuscular (IM) route
- Intra gastric (IG) procedure
- Sub Cutaneous (SC) procedure

Question # 8 of 10 (Start time: 04:47:33 PM, 31 December 2021)
Total Mar

When the embryo starts resembling human form, the amniotic sac ("bag") is created which is filled with amniotic fluid which protects the embryo and provides constant _____ within the sac.

Select the correct option

- Oxygen
- Pressure
- Temperature
- Food

Question # 9 of 10 (Start time: 04:48:41 PM, 31 December 2021)

As we cannot manipulate a human brain. Which of the following is used to study a human brain?

Select the correct option

- Vivo Technique
- Invasive Technique
- Lesioning Study
- Post Mortem

Time Left

PSY610 - Neurological Bases of Behavior (Quiz 2)

Quiz Start Time: 04:40 PM, 31 Decem

Question # 6 of 10 (Start time: 04:45:44 PM, 31 December 2021)

Total

Responses to a single stimulus resulting in neuronal firing were first measured by _____ using the visual systems of the kittens.

Select the correct option

- Hubel and Weisel
- Hopkins & Hubel
- Bertrand Russel
- John Hopkins

Question # 7 of 10 (Start time: 04:46:40 PM, 31 December 2021)

Formaldehyde is injected at which stage of a Histology?

Select the correct option

- Fourth
- First
- Third
- Second

Question # 4 of 10 (Start time: 04:43:33 PM, 31 December 2021)

Who gave the famous concept of ontogeny recapitulates phylogeny?

Select the correct option

- Van Baer
- Ernst Haeckel
- Aristotle
- Darwin

Question # 5 of 10 (Start time: 04:44:20 PM, 31 December 2021) Total

Which of the following is NOT included during the movement of cells from inside of the tube towards outside in cell migration process?

Select the correct option

- Cell free zone
- Outer layer
- Internal layer
- Middle layer

Question # 2 of 10 (Start time: 04:41:09 PM, 31 December 2021)

Who provided evidence against Aristotle concept of preformation?

Select the correct option

- ○ Aristotle
- ○ Darwin
- ○ James Cattel
- ○ Van Baer

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question # 3 of 10 (Start time: 04:42:34 PM, 31 December 2021)

Which of the following technique sucked out the brain tissue through a glass pipette?

Select the correct option

- Suction
- Cryogenic freeze
- Ablation
- Knife cuts

Question # 10 of 10 (Start time: 04:38:13 PM, 31 December 2021) Total Marks: 1

Drug is injected into the in-large muscles such as the forearm or the thigh. This process of injecting the drug is known as:

Select the correct option

- Sub Cutaneous (SC) procedure
- Intraperitoneal (IP) procedure
- Intra gastric (IG) procedure
- Intramuscular (IM) route

PSY610 - Neurological Bases of Behavior (Quiz 2) Quiz Start Time: 04:40 PM,

Question # 1 of 10 (Start time: 04:40:36 PM, 31 December 2021)

Which of the following is a chromosomal anomaly where an additional Y chromosome is attached to the normal male pair?

Select the correct option

- Turner's syndrome
- Lesch-Nyhan syndrome
- XYY syndrome
- Klienfelters syndrome

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question # 8 of 10 (Start time: 04:36:30 PM, 31 December 2021)

All of the followings are deficiencies due to a single gene defect EXCEPT:

Select the correct option

- Huntington's chorea
- Alzheimer
- Down syndrome
- Phenylketonuria

Question # 9 of 10 (Start time: 04:37:12 PM, 31 December 2021)

Total Marks: 1

Which of the following technique is used for measuring electrical skin conductance along with other measures such as blood pressure, pulse rate and breathing?

Select the correct option

- Electromyograph
- Electro-oculograph
- Polygraphic recording
- Electroencephalography

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question # 6 of 10 (Start time: 04:35:03 PM, 31 December 2021)

Which of the following part of brain connects with the spinal cord?

Select the correct option

- Fore brain
- Mid brain
- Hind brain
- Emotional brain

Question # 7 of 10 (Start time: 04:35:56 PM, 31 December 2021) Total

There are three germinal layers of a fertilized egg. Which of the following is NOT included among them?

Select the correct option

- Mesodermal layer
- Endodermal layer
- Ectodermal layer
- Fesodermal layer

PSY610 - Neurological Bases of Behavior (Quiz 2) Quiz Start Time: 04:29 PM, 31 December 20

Question # 5 of 10 (Start time: 04:33:44 PM, 31 December 2021) Total Mark

When drug is injected directly into the circulatory system for a rapid action, this is known as _____.

Select the correct option

- Intra gastric (IG) procedure
- Intraperitoneal (IP) procedure
- Intramuscular (IM) route
- Intravenous (IV) procedure

Question # 4 of 10 (Start time: 04:32:51 PM, 31 December 2021)

The study of the effects of substances which influences normal development is known as:

Select the correct option

- Phocomelia
- Teratology
- Anencephaly
- Harelip

Question # 2 of 10 (Start time: 04:30:20 PM, 31 December 2021) To

Which of the following technique studies brain cells and their projections after removal of the brain?

Select the correct option

- Histology
- Invasion
- Staining
- Lobotomy

sec(s)

PSY610 - Neurological Bases of Behavior (Quiz 2) Quiz Start Time: 04:29 PM, 31 December 2021

Question # 3 of 10 (Start time: 04:31:29 PM, 31 December 2021) Total Marks: 1

_____ is an electrophysiological monitoring method to record electrical activity of the brain.

Select the correct option

- Polygraphic recording
- Electro-oculograph
- Electroencephalograph
- Electromyograph

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question # 10 of 10 (Start time: 04:08:41 PM, 31 December 2021)

Bregma is the _____ line in the stereotaxic atlas.

Select the correct option

○	Horizontal
○	Anterior
○	Posterior
○	Parietal

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question # 1 of 10 (Start time: 04:29:04 PM, 31 December 2021)

Aspiration is a technique of brain study also known as:

Select the correct option

- Suction
- Cryogenic Freeze
- Ablation
- Lesioning

PSY610 - Neurological Bases of Behavior (Quiz 2)

Quiz Start Time: 04:00 PM, 31 December 2021

Question # 5 of 10 (Start time: 04:04:30 PM, 31 December 2021)

Total Marks: 1

In which of the following procedure the alternating high frequency current is used from tip of electrode which is placed in a precise location in the brain?

Select the correct option

○	Radio frequency lesions
○	Microiontophoresis
○	Cryogenic freeze
○	Aspiration

Question # 9 of 10 (Start time: 04:07:18 PM, 31 December 2021)

Weschler Adult Intelligence Scale (WAIS) and Weschler Child Intelligence Scale (WISC) are used as part of:

Select the correct option

- Halstead Reitan Battery
- Beck Depression Inventory
- Minnesota Multiphasic Personality Inventory
- Beck Anxiety Inventory

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question # 7 of 10 (Start time: 04:06:04 PM, 31 December 2021)

Formaldehyde is injected at which stage of a Histology?

Select the correct option

- ○ Second
- ○ First
- ○ Fourth
- ○ Third

Question # 6 of 10 (Start time: 04:05:02 PM, 31 December 2021)

Scientific breeding can produce brilliant offspring leading to perfectionism. This concept is named as:

Select the correct option

- Genetic management
- Hybrid vigor
- Genius progenies
- Eugenics

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question # 3 of 10 (Start time: 04:01:44 PM, 31 December 2021)

The mesodermal cell layer forms the _____.

Select the correct option

- Nervous system
- Skeletal muscles
- Internal organs
- External organs

Question # 4 of 10 (Start time: 04:03:13 PM, 31 December 2021) Tot

The initial division of cells is differentiated into various organs (heart, kidney, brain, stomach), this change is induced by:

Select the correct option

- ○ Endodermal
- ○ Ectodermal
- ○ Mesodermal
- ○ Notochord

Question # 1 of 10 (Start time: 04:00:12 PM, 31 December 2021)

When a drug is tubed directly into the stomach by passing the oral region, this is known as:

Select the correct option

- Intramuscular (IM) route
- Intraperitoneal (IP) procedure
- Intra gastric (IG) procedure
- Sub Cutaneous (SC) procedure

Question # 2 of 10 (Start time: 04:01:08 PM, 31 December 2021)

Which of the following is a special procedure for injecting the animal, while the animal is alive?

Select the correct option

- Nissyl blue
- Tracer
- Histoflourescence
- 2-Deoxy glucose

Question # 10 of 10 (Start time: 03:54:44 PM, 31 December 2021) **Total Marks:** 1

In which of the following procedure the alternating high frequency current is used from tip of electrode which is placed in a precise location in the brain?

Select the correct option

- Cryogenic freeze
- Radio frequency lesions
- Microiontophoresis
- Aspiration

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question # 9 of 10 (Start time: 03:53:59 PM, 31 December 20

Who proposed the theory of evolution?

Select the correct option

○	Sir Julian Huxley
○	Charles Darwin
○	Sir Francis Galton
○	Aldous Huxley

Question # 7 of 10 (Start time: 03:51:31 PM, 31 December 2021)

As we cannot manipulate a human brain. Which of the following is used to study a human brain?

Select the correct option

- Post Mortem
- Lesioning Study
- Invasive Technique
- Vivo Technique

Question # 8 of 10 (Start time: 03:52:39 PM, 31 December 2021)

Which of the following layer of cell migration consist of cell bodies that eventually form grey matter?

Select the correct option

- Outer layer
- Internal layer
- Middle layer
- Cell free zone

Question # 5 of 10 (Start time: 03:50:08 PM, 31 December 2021)

Which of the following is a special procedure for injecting the animal, while the animal is alive?

Select the correct option

- 2-Deoxy glucose
- Nissyl blue
- Tracer
- Histoflourescence

Question # 6 of 10 (Start time: 03:50:40 PM, 31 December 2021) **Total Marks**

Which of the following is a method that utilizes a special technique in which the cells are exposed to dry Formaldehyde gas and cells fluoresce in different colors?

Select the correct option

- Nissyl blue
- Weil Stain
- Golgi-Cox Silver
- Histoflourescence

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question # 4 of 10 (Start time: 03:48:58 PM, 31 December 2021)

Which of the following occurs at the stage of Implantation?

Select the correct option

○	Egg forms in to a fetus
○	Egg forms in to an embryo
○	Fertilized egg attaches to the uterus wall
○	Sperm is conceived by the egg

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question # 3 of 10 (Start time: 03:47:13 PM, 31 December 2021)

All of the followings are deficiencies due to a single gene defect EXCEPT:

Select the correct option

- Phenylketonuria
- Huntington's chorea
- Alzheimer
- Down syndrome

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question # 1 of 10 (Start time: 03:45:44 PM, 31 December 2021)

Francis Galton was first cousin with:

Select the correct option

○	Thomas Henry
○	Aldous Huxley
○	Charles Darwin
○	Joh Noyes

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question # 2 of 10 (Start time: 03:46:23 PM, 31 December 2021)

Which of the following part of brain connects with the spinal cord?

Select the correct option

○	Emotional brain
○	Mid brain
○	Fore brain
○	Hind brain

Question # 9 of 10 (Start time: 03:34:06 PM, 31 December 2021)

Which of the following chromosomal abnormality is found in females having short stature and under-developed ovaries?

Select the correct option

- Down syndrome
- Klienfelters syndrome
- Lesch-Nyhan syndrome
- Turner's syndrome

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question # 10 of 10 (Start time: 03:35:10 PM, 31 December 2021)

Development of synaptic connection is one of the stages of:

Select the correct option

- Cell depletion
- Cell migration
- Cell determination
- Cellular maturation

Question # 6 of 10 (Start time: 03:30:45 PM, 31 December 2021)

How many layers are formed during cell migration process?

Select the correct option

○	5
○	3
○	2
○	4

Question # 7 of 10 (Start time: 03:31:45 PM, 31 December 2021)

Which of the following is a chromosomal anomaly where an additional Y chromosome is attached to the normal male pair?

Select the correct option

- Klienfelters syndrome
- Lesch-Nyhan syndrome
- Turner's syndrome
- XYY syndrome

Question # 1 of 10 (Start time: 03:24:55 PM, 31 December 2021)

The mesodermal cell layer forms the _____.

Select the correct option

○	Skeletal muscles
○	Nervous system
○	External organs
○	Internal organs

Question #5 of 10 (Start time: 03:29:48 PM, 31 December 2021) Total Mark

When the whole brain is invaded to create a lesion, radioactive substances are introduced to see the changes in behavior. This is known as

Select the correct option

- Histology
- Lobotomy
- Invasion
- Staining

PSY610 - Neurological Bases of Behavior (Quiz 2)

Question # 3 of 10 (Start time: 03:27:34 PM, 31 December 2021

The Endodermal layer forms the:

Select the correct option

○	Internal organs
○	Nervous system
○	Skeletal muscles
○	External organs

Question # 2 of 10 (Start time: 03:26:01 PM, 31 December 2021)

Which of the following technique places electrodes on the muscle to measure its electrical activity?

Select the correct option

- Polygraphic recording
- Electromyograph
- Electro-oculograph
- Electroencephalograph

Question # 4 of 10 (Start time: 03:28:43 PM, 31 December 2021)

Total Marks:

Which of the following is a syndrome characterized by both physical and mental progressive degeneration transmitted to only males due to a dominant gene?

Select the correct option

- Alzheimer
- Phenylketonuria
- Huntington's chorea
- Tay-Sach's disease
