VU Today's Final Term Paper For Fall 2013
Total Questions = 52 of Total 80 Marks
Total MCQ = 40 Each of 1 marks
Total Short Questions = 4 Each of 2 marks
Total Short Questions = 4 Each of 3 marks
Total Long Questions = 4 Each of 5 marks
Write a note on chronological resume.
The Chronological Resume
In a chronological resume, the work-experience section dominates, immediately after the name and address and the objective. You develop this section by listing your jobs sequentially in reverse order, beginning with the most recent position and working backward toward earlier jobs. Under each listing, describe yourresponsibility and accomplishments, giving the most space to the most recent positions. If you're just graduating from college, you can vary this chronological approach by putting your educational qualifications before your experience, thereby focusing attention on your academic credentials.
The chorological approach is the most common way to organize a resume, and many employers prefer it.
This approach has three key advantages:
(1) Employers are familiar with it & can easily find information
(2) it highlights growth and career progression
(3) it highlights employment continuity and stability
The chronological approach is especially appropriate if you have a strong employment history and are aiming for a job that builds on your current career path.
