

Which of the following begins with a loosely formulated question?

Select the correct option

☐	Fieldwork
☐	Quantifiable research
☐	Quantitative research
☐	Numerical research

_____are those who already have some intended objectives of fieldwork.

Select the correct option

☐	Covert ethnographers
☐	Active ethnographers
☐	All ethnographers
☐	Passive ethnographers

Question # 3 of 10 (Start time: 09:57:36 PM, 26 January 2023)

A type of sampling, in which, everyone has equal chance of being selected as respondent is called:

Select the correct option

☐	Purposive sampling
☐	Snowball sampling
☒	Probability sampling
☐	Non-probability sampling

Question # 1 of 10 (**Start time: 09:55:01 PM, 26 January 2023**)

In order to get first hand data, which of the following is best technique?

Select the correct option

☐	Magazines
☐	Archives
☐	Newspapers
☒	Face to face interview

Which of the following can be a good key informant?

Select the correct option

☐	Member of targeted community
☐	Member of the national assembly
☐	Member of Senate
☐	Policy maker

Which of the following can be a good key informant?

Select the correct option

☐	Member of targeted community
☐	Member of the national assembly
☐	Member of Senate
☐	Policy maker

In qualitative research, it's a common myth that-----cannot be used for data recording, coding, and preparation

 Reload Math Equations

☐	Random thoughts of respondent
☒	Events with sequence
☐	Secondary data
☐	Events without sequence

Question # 7 of 10 (**Start time: 10:52:22 PM, 26 January 2023**)

During field work, while taking notes a researcher should _____ words.

Select the correct option

☒	Avoid evaluative summarizing
☐	Give final conclusion
☐	Write concluding remarks
☐	Write evaluative summarizing

Which of the following is not a non-probability sampling?

Select the correct option

☐	Deviant case sampling
☐	Purposive sampling
☐	Systematic sampling
☐	Snowball sampling

A researcher should write notes during field visits and keep each level of notes _____ so it will be easy to go back to them later.

Select the correct option

 Reload Math Equations

Mixed with others

Blend with others

Separate from others

Interview guide and check list are:

Select the correct option

☐	Techniques for data compilation
☐	Tools for data analysis
☐	Tools for data collection
☐	Techniques for interview

During fieldwork, a qualitative researcher should avoid:

Select the correct option

☐	Rapport building
☐	To observe silently
☐	Emotional attachment
☐	To get sensitive information

Non-probability sampling is preferably used in:

Select the correct option

☐	Theoretical research
☐	Sampling frame
☐	Quantitative Research
☐	Qualitative Research
