

What Is Public Policy? Why Study It?

Public Policy: **Definitions**

Tap Here To Join Our
Official Community

Public Policy: Definitions

- **Public policy** is the authoritative allocation of values for the whole society (D. Easton;1953)
- **Public policy** is a purposive course of action followed by government in dealing with some topic or mater of public concern (J. E. Anderson , 1975)

Tap Here To Join Our
Offical Community

Public Policy: Definitions

- **Public policy** is whatever governments choose to or not to do (T.R. Dye, 1978)

Tap Here To Join Our
Official Community

Public Policy: Definitions

- **Public policy** consists of political decisions for implementing programs to achieve societal goals (C. L. Chochran & E. F. Malone, 1995)
- **Public policy** is also a study of who get what, when and how

What Is Public Policy? Why Study It?

Why Study Public Policy

Tap Here To Join Our
Official Community

Why Study Public Policy

To Make Personal Decisions

- It is important to know the decisions which effect our lives? For example,

Tap Here To Join Our
Offical Community

Why Study Public Policy

- The decisions of federal government of Pakistan
 - Provide loans to students?
 - Encourages private sector investment in higher education?
 - Enforces standards for education?
 - Allows banks to provide car financing?
 - Shuts down restaurants which sell adulterated food?

Tap Here To Join Our
Official Community

Why Study Public Policy

To Make Personal Decisions

- ❑ We can make decisions about personal lives by knowing public policies. For example,
 - Access loan to open a business
 - Prepare to secure admission in educational institutions

Tap Here To Join Our
Official Community

Why Study Public Policy

To Understand Public Action

- ❑ It is important to know why government makes particular decisions?
 - It helps us know the causes of government action. Sometimes governments adopt policies
 - To solve problems
 - To resist social pressure
 - To meet international requirements
 - To secure legitimacy deficits
 - To secure political mileage
 - To penetrate society

Tap Here To Join Our
Official Community

Why Study Public Policy

To Understand Public Action

- ❑ Policy is an exercise in problem solving; but governments don't solve all social problems
 - Sometimes government prefer not to do anything about some problems
 - It is important to know why governments prefer not to act

Tap Here To Join Our
Official Community

Why Study Public Policy

To Know Who Benefits

- ❑ It is important to know who benefits from a particular public policy?
 - The benefits of public policies may not be distributed equitably. For example, some policies, such as
 - privatization of higher education benefit rich people
 - English-medium school give advantage to their students in finding jobs and opportunities of foreign study
 - the consumer financing have benefitted banks, motor car entrepreneurs, and related businesses

Tap Here To Join Our
Official Community

Why Study Public Policy

To Know Who Benefits

- The “losers” or “excluded” sections may become dissatisfied, which can
 - contribute to instability or conflict

Tap Here To Join Our
Official Community

Why Study Public Policy

To Improve Governance

- ❑ The states and societies across the world are becoming complex, highly complex
 - It is difficult for the governments to 'govern' alone
 - Governance can only be improved with partnerships between state and non-state actors
 - Governments across the world seek citizen participation in decision making
 - Citizen participation improve public policy making and its implementation

Place of Public Policy in Social Science

Economics

Tap Here To Join Our
Official Community

Economics

❑ Economics studies

- Allocation of scarce resources
- Creation and distribution of wealth

❑ Economics contributes to public policy studies in following ways

- Economic-based analysis of public policy is one of the three ways of policy analysis
 - Micro-economic analysis has long dominated policy making and policy analysis
 - Cost-benefit analysis is widely used method in policy analysis
 - Econometric analysis of public policy decisions

Tap Here To Join Our
Official Community

Place of Public Policy in Social Science

Sociology

Tap Here To Join Our
Official Community

Sociology

❑ Sociology studies societies

▪ Sociological theory

- Emile Durkheim
- How culture, class, ethnic differences, gender roles influence public policies
- Why public policy making should attend to the needs of cultural and sociological factors

▪ Sociological Research Methods

- How to conduct interviews
- How to design questionnaires
- How to collect data and analyze it

Tap Here To Join Our
Offical Community

Sociology

- ❑ Sociological Studies have influenced public policy making considerably

Tap Here To Join Our
Official Community

Place of Public Policy in Social Science

Public Administration

Tap Here To Join Our
Official Community

Public Administration

❑ Public administration deals with the questions of implementing public policies and running the state

■ Implementation Studies

- To what extent public policies are actually implemented
- How particular ways of policy implementation produce particular outcomes
- How to improve implementation
- Why good policies fail in implementation?
- How to evaluate public policies?

Tap Here To Join Our
Official Community

Public Administration

- Bureaucratic Reforms
 - How to reform civil services?
 - How to make civil servants responsive to the needs of the people?
- Public administration studies help public policies change to enhance their benefits.

Tap Here To Join Our
Official Community

Place of Public Policy in Social Science

New Public Management and Governance

Tap Here To Join Our
Official Community

New Public Management and Governance

❑ Public Management and Governance Studies concern with transforming states and public sectors through innovations

- By adopting corporate sector practices in government
 - By hiring professionals on market rates
 - By working on target achievements (managing by objectives)
- Public-private partnerships and government-society partnerships

Tap Here To Join Our
Official Community

New Public Management and Governance

- ❑ New Public Management advocates including citizens in public policymaking
 - It also advocates turning the public sector organizations into non-hierarchical organizations

Tap Here To Join Our
Official Community

Place of Public Policy in Social Science

Law

Tap Here To Join Our
Official Community

Law

- ❑ The law is the formal expression of public policy
 - Legal studies form important basis for public policies
 - In some countries such as Malaysia policies are enforced in the form of laws
- ❑ In some countries such as Germany and the United States, superior Courts play important roles in shaping public policies
 - This process is called judicialization of public policies

Law

- ❑ Public policy research often recommends making laws
 - The policy research on violence against women in Pakistan recommended enacting laws to criminalize violence against women. As a result, *The Domestic Violence (Prevention and Protection) Bill 2009*, and *Protection against Harassment of Women at Workplace Bill 2009* were enacted.

Tap Here To Join Our
Official Community

Place of Public Policy in Social Science

Media and Journalism

Tap Here To Join Our
Official Community

Media and Journalism

- ❑ Media studies concern with the role of mass media in society
- ❑ Media is an important source of information and feedback on public policies
 - Governments inform people about policies through media
 - Citizens and citizen groups provide feedback on policies through media

Tap Here To Join Our
Official Community

Media and Journalism

❑ Media is a source of policy advocacy

- Advocacy for making new policies such as making gun control policy in USA
- Advocacy for changing policies such as making changes in education policy in Pakistan

Why Study the Origins of public Policy

Scholarly Opinions

Tap Here To Join Our
Official Community

Scholarly Opinions

Yehezkel Dror

From the beginnings of human thought, public policymaking has been a central subject for study and discussion by social philosophers and practical politicians alike.

Public Policy Making
Reexamined

5th ed, 2003

Tap Here To Join Our
Official Community

Scholarly Opinions

Aristotle, Plato and Machiavelli are just the most well known among these philosophers

Tap Here To Join Our
Official Community

Scholarly Opinions

The great figures of classical philosophy considered the fundamental problems of policy from the point of view of men who had to exercise authority and to make practical decisions. Even where they themselves lived in remoteness from practical affairs, the clarification of standards for the judgment of public policy was always close to the centre of their attention (Shils, 1965, P. 1432)

Tap Here To Join Our
Official Community

Scholarly Opinions

It may be argued that really much of the history of political and social thought is characterized by preoccupation with advice about courses of action and modes of training for rulers and would be rulers.

Why Study the Origins of public Policy

Medieval Philosophy

Tap Here To Join Our
Official Community

Medieval Philosophy

- ❑ From 16th to 18th century, Machiavellian philosophers/intellectuals would act as policy advisors
 - Remember *The Prince*
 - Written in 1505/published in 1515

Tap Here To Join Our
Official Community

Why Study the Origins of public Policy

Early Modern Social Science

Tap Here To Join Our
Official Community

Early Modern Social Science

- ❑ Social scientist as a distinct knowledge producer started emerging as an alternative to Machiavellian philosopher
 - The term social science as a distinct field was used in the early years of French Revolution, 1789
 - The goal was to create ordered, rationalist, happy society
- ❑ Many classical social thinkers wanted to become “Newton (1643-1727) of the social sciences” after 1750
 - Montesquieu
 - Scottish: Ferguson, Millar, Hume, Smith

Stages of Policy Process

Policy Cycle Model

Tap Here To Join Our
Official Community

Policy Cycle Model

❑ What is a “Model”?

- “A model is merely an abstraction or representation of political life”
- Example, model of a building and a real building
- Or model of a plane and real plane
 - Models are generally simpler than the real objects. If they are as complicated as the objects they represent, we can’t understand them.

❑ This model assumes that policy is made in a series of stages

❑ Conventional way to describe the chronology of a policy process

Tap Here To Join Our
Official Community

Domination of Policy Cycle

❑ In political science, the **policy cycle** is a tool used for the analyzing of the development of a policy item. It can also be referred to as a "stagist approach", "stages heuristic" or "stages approach". It is a fiction rather than the actual reality of how policy is created, but has been influential in how people look at policy in general. It was developed as a theory from Harold Lasswell's work.

Tap Here To Join Our
Official Community

Policy Cycle Model

❑ Policy cycle model is also named as:

- Heuristic Model/Heuristic Device/Rule of Thumb
- Model
- Textbook Model
- Stages Heuristic
- Stages Model
- Framework
- Rational Model

❑ It has origins in Harold S. Lasswell's Stages Model

Tap Here To Join Our
Official Community

Stages of Policy Process

Conventional Policy Process Model

Tap Here To Join Our
Official Community

Stages of Policy Process

Domination of Policy Cycle

Tap Here To Join Our
Official Community

Domination of Policy Cycle

- ❑ One standardized version includes the following stages:
- ❑ Agenda setting (Problem identification) - The recognition of certain subject as a problem demanding further government attention.
- ❑ Policy Formulation - Involves exploring a variation of options or alternative courses of action available for addressing the problem. (appraisal, dialogue, formulation, and consolidation)

Tap Here To Join Our
Official Community

Stages in Policy Cycle

Policy Formulation

□ According to Cochran and Malone,

- policy formulation takes up the “what” questions: “What is the plan for dealing with the problem? What are the goals and priorities? What options are available to achieve those goals? What are the costs and benefits of each of the options? What externalities, positive or negative, are associated with each alternative?” (1999, 46).

Tap Here To Join Our
Official Community

Stages in Policy Cycle

Policy Formulation

- In a traditional stages model of the public policy process, policy formulation is part of the pre-decision phase of policy making. It involves identifying and/or crafting a set of policy alternatives to address a problem, and narrowing that set of solutions in preparation for the final policy decision.

Tap Here To Join Our
Official Community

Domination of Policy Cycle

- ❑ Decision-making -
Government decides on an ultimate course of action, whether to perpetuate the policy status quo or alter it. (Decision could be 'positive', 'negative', or 'no-action')
- ❑ Implementation - The ultimate decision made earlier will be put into practice.

Tap Here To Join Our
Official Community

Domination of Policy Cycle

- ❑ Evaluation - Assesses the effectiveness of a public policy in terms of its perceived intentions and results. Policy actors attempt to determine whether the course of action is a success or failure by examining its impact and outcomes

Tap Here To Join Our
Official Community

Harold S. Lasswell

❑ The stages of Harold Lasswell

- 7 steps

❑ Harold S. Lasswell's Model was

- More prescriptive and normative
- Not descriptive and analytical.
- Linear sequence of the different stages had been designed like a problem-solving model and accords with other prescriptive rational models of planning and decision-making in organizational theory

Tap Here To Join Our
Official Community

Domination of Policy Cycle

❑ In 1960s and 1970s, Policy Cycle Model Was

- A conventional way to illustrate the chronology of a policy process (it still remains to some extent)
- A major base of policy theory
- A source of organizing and systemizing public policy knowledge.
- Adapted, Refined, Extended
- Variations Developed by Scholars, i.e.
 - Brewer and deLeon (1983),
 - May and Wildavsky (1978),
 - Anderson (1975), and
 - Jenkins (1978)

Tap Here To Join Our
Official Community

Stages in Policy Cycle

Benefits

- ☐ It is simple and understandable.
- ☐ It can be applied to all political systems.
- ☐ The emphasis on cycles highlights fluid policymaking.
- ☐ There is also a wide range of important studies (and key debates) based on the analysis of particular stages – such as the top-down versus bottom-up approaches to the study of policymaking.

Tap Here To Join Our
Official Community

Stages of Policy Cycle

Critique of the Policy Cycle Model

Tap Here To Join Our
Official Community

Critique of the Policy Cycle Model

- ❑ “It is advanced as a one-way model, in which the stages happen in order.”
(Thomas A. Birkland)
- ❑ In reality, policymaking do not follow these stages in a linear way
- ❑ Too simplistic
- ❑ Does not explain

Colonial Public Policy

**Principles/Rules/
Ideology of
Policymaking**

The Measures of Good Policy

**Builds on Local
Solutions**

Tap Here To Join Our
Offical Community

Builds on Local Solutions

- Every place evolves local solutions
- Local solutions are easy to adopt
- They are low cost
- They may be adapted to changing circumstances easily
- They are likely to be durable
- Is Qing Qi a local solution?

Tap Here To Join Our
Official Community

The Measures of Good Policy

**Creates Ownership
Among Beneficiaries**

Tap Here To Join Our
Official Community

Creates Ownership Among Beneficiaries

- Current state of policies isolated from their beneficiaries
- Even implementers do not know policies
- Deliberation during making and implementation creates ownership

Tap Here To Join Our
Official Community

The Measures of Good Policy

Develop Feedback Mechanism

Tap Here To Join Our
Official Community

Develop Feedback Mechanism

- Easy to use feedback mechanisms make good policies
- Feedback should be collected from all possible sources
- All kinds of feedback should be respected
- Feedback should not be wasted
- Good feedback should be rewarded

Tap Here To Join Our
Official Community

The Measures of Good Policy

Flexible

Tap Here To Join Our
Official Community

Flexible

- Policies and their implementation should be flexible
- Avoid using standardized approaches for policy implementation
- Respect variations in cultures, and needs of the recipient populations

Tap Here To Join Our
Official Community

The Measures of Good Policy

Improvise

Tap Here To Join Our
Official Community

Improvise

- Good policies always improvise
- They keep on accumulating knowledge
- They become self-corrective
- They encourage learning and use the learning

Tap Here To Join Our
Official Community

Improving Policy Implementation

Disseminating Policy

Tap Here To Join Our
Official Community

Disseminating Policy

- People hardly know policies, even bureaucrats don't
- Translations, summaries in English, Urdu and other languages
- Newspapers, television, and other media; disseminate among journalists

Tap Here To Join Our
Official Community

Disseminating Policy

- Disseminate among writers, intellectuals
- Do not forget to disseminate among political parties, politicians
- Curriculum and textbooks

Tap Here To Join Our
Official Community

Improving Policy Implementation

Training Implementers

Tap Here To Join Our
Official Community

Training Implementers

- Educate the direct implementers
- Educate the complementing/COORDINATING officials
- Do not forget training implementers on how to implement e.g. mid level officials
- Keep training the line agencies

Tap Here To Join Our
Official Community

Training Implementers

- Training should be easy, interesting
- Training manuals should be useable
- The use of training should be rewarded

Tap Here To Join Our

Rational Choice Theory

Introduction

Tap Here To Join Our
Official Community

Introduction

- Choice theory, Rational action theory
- Orthodox, Dominant
- Not a single theory, but a 'family of theories'
 - Game theory and individual decision theory
 - Main paradigm in micro-economics
 - Main paradigm in political science

Tap Here To Join Our
Official Community

Introduction

- RCT borrows heavily from economic assumption of individual preference
 - Understanding and modeling individual behavior
 - Mathematical, Deductive, a priori
 - Motivation assumptions
 - Homo economicus

Tap Here To Join Our
Offical Community

Introduction

- Winner of Nobel Prize in Economics Sciences in 1992, Gary Becker popularized RCT
- Herbert Simon
- Anthony Downs, electoral behavior and party competition
- Mancur Olson
- William Riker .

Tap Here To Join Our
Offical Community

Rational Choice Theory

Basic Assumptions

Tap Here To Join Our
Official Community

Basic Assumptions

- Individualism: individual is rational, self-interested, self-calculating, self-maximizing, utility maximizer; instrumental actor
 - Individuals adopt course of action which increases their utility and welfare

Tap Here To Join Our
Official Community

Basic Assumptions

- The rest flows from this basic assumption
- RCT begins from the viewpoint of the individual
- Individual is the starting point, individual is the foundation, unit of analysis, starting point

Tap Here To Join Our
Official Community

Basic Assumptions

- Individuals decisions can be explained in terms of goal-oriented, purposive, self-interested behavior
- Individual decision making produce macro outcomes
- People have ordered, stable preferences;

Tap Here To Join Our
Offical Community

Basic Assumptions

- People have the correction information to assess outcomes relative to objectives;
- Optimality: make strategic decision based on their preferences, calculations of costs, risks and rewards (Jones, Boushey, & Workman, 2006) .

Tap Here To Join Our
Official Community

Rational Choice Theory

Application

Tap Here To Join Our
Official Community

Application

- RCT tries to explain public policy in terms of the actions of self-interested individual policy actors, whether they are voters, corporate lobbyists, agency officials or legislators

Tap Here To Join Our
Official Community

Application

- It says that policy actors choose policies on the basis of the consequences for their personal welfare
- RCT is being applied widely to study government

Tap Here To Join Our
Official Community

Application

- Political decision-makers are self-interested utility maximizers, who hold stable preferences and objectives, and make strategic decisions to maximize the benefits of given choice

Tap Here To Join Our
Official Community

Application

- To understand the politics at aggregate level, the researchers need only to understand the ordered preferences of individual actors who populate an institution .

Tap Here To Join Our
Official Community

Rational Choice Theory

Using RCT at Various Stages of Policy

Tap Here To Join Our
Official Community

Using RCT at Various Stages of Policy

RCT is used in:

- Policy making

- a) Use of incentives and sanctions

- b) Assumption: preferences are determined exogenously

- c) Individuals change behavior on the bases of their calculation of gain versus pain

Tap Here To Join Our
Offical Community

Using RCT at Various Stages of Policy

- Policy implementation
- Policy evaluation
- Policy change .

Tap Here To Join Our
Offical Community

Rational Choice Theory

How to Apply?

Tap Here To Join Our
Official Community

How to Apply?

- Downs: Rational choice theorist should 'calculate the most reasonable way for a decision-maker to reach his goals, and [assume that] this way will actually be chosen because the decision-maker is rational'.
- Preferences+rules=outcomes

Tap Here To Join Our
Official Community

How to Apply?

- RCT used to evaluate PP along a spectrum of areas:
 - Standards of policy performance as Return on Investment
 - The notion of opportunity costs in achieving public benefits

Tap Here To Join Our
Official Community

How to Apply?

- Highlighting the superiority of market forces over governmental intervention in the economy .

Tap Here To Join Our
Official Community

Rational Choice Theory

Current Status and Future

Tap Here To Join Our
Official Community

Current Status and Future

- Highly influential in OECD, the World Bank, the IMF
- Shaping the large tracts of world in line with the RCT
- Underpinned the neoliberal reforms of the public sector rolling back welfare state

Tap Here To Join Our
Official Community

Current Status and Future

- Justification for applying RCT to policymaking=more efficient provision of services
- Cost-shifting to the grey sector: welfare services from charities .

Tap Here To Join Our

What is (and is Not) Advocacy

**What is (and is not)
Advocacy**

Tap Here To Join Our
Official Community

What is (and is Not) Advocacy

- Influencing the choices and actions of public or private policymakers and implementers
- To implement effectively
- To enforce policies without discrimination
- Influencing the choices and actions of resources allocators

Tap Here To Join Our
Official Community

What is (and is Not) Advocacy

- Engaging decision-makers in an outcome-oriented process to advance agenda for social change
- Opposing or favoring a policy
- Suggesting better courses of action
- Supporting a cause
- But mostly for policy change

Tap Here To Join Our
Official Community

What is (and is Not) Advocacy

- Professional or political work
- Convincing government that something needs to be changed

Tap Here To Join Our
Official Community

What is (and is Not) Advocacy

Two Types of Advocacy

- Normative-based advocacy
 - Based on constitutions, covenants such as Convention of Child Labor
- Evidence-based advocacy
 - Based on quantitative or qualitative data

Tap Here To Join Our
Official Community

What is (and is Not) Advocacy

Advocacy is Not

- Extension
work/Awareness Raising
on Human Rights
- Not a Public
Campaign/Information,
Education, and
Communication to
change specific practices
 - It is targeted at
individuals, not
policymakers

Tap Here To Join Our
Official Community

What is (and is Not) Advocacy

Advocacy is Not

- Fund-raising
- Lobbying
 - Lobbying involves advocacy but advocacy do not always involves lobbying

Tap Here To Join Our
Offical Community

What is (and is Not) Advocacy

Summing up

- Advocacy involves trying to influence a governmental agenda,
- Corporate behavior,
- A specific public policy,
- The implementation of a policy.

Tap Here To Join Our
Official Community

What is (and is Not) Advocacy

Why Advocacy?

Tap Here To Join Our
Official Community

Why Advocacy?

- Advocacy is a powerful tool
 - When policymakers or implementers do not fulfill their responsibilities
 - Voice the rights of excluded, voiceless

Tap Here To Join Our
Official Community

Why Advocacy?

- Even well intentioned policies do not benefit everyone
 - Lack of information
 - Uncertainty
 - Social changes

Tap Here To Join Our
Official Community

Why Advocacy?

- The implications of policies are known in the implementation process
 - Environmental implications are not known in advance
 - Sheesha Café's
 - Prevent social unrest/conflict
 - Promote Equity and democracy .

Tap Here To Join Our
Official Community

What is (and is Not) Advocacy

Traditional Forms of Policy Advocacy

Tap Here To Join Our
Official Community

Traditional Forms of Policy Advocacy

- Petitions to the policymakers
 - Colonial, postcolonial times
 - Influential would petition
 - Anjuman's/Associations would petition
 - Traders, landlords, influential groups
- Interest-based not right based

Tap Here To Join Our
Official Community

Traditional Forms of Policy Advocacy

- Not inclusive of diversity
- Direct lobby, little grass roots work
- Letters to the editor/
- Kachehris/public hearings by government officials as forums for advocacy
- Municipal hearings
- Columnists/radio programs/ posters

Tap Here To Join Our
Official Community

Traditional Forms of Policy Advocacy

- Protests and strikes
 - Appealing and mobilizing general public for advocacy
 - Confrontational advocacy
 - Mostly in the form of lobbying

Tap Here To Join Our
Official Community

Traditional Forms of Policy Advocacy

- Traditional advocacy forms may use confrontational strategies and may result in
 - Political polarization
 - Gridlock
 - Inferior policy outcomes .

Tap Here To Join Our
Official Community

What is (and is Not) Advocacy

NGOs and Policy Advocacy

Tap Here To Join Our
Official Community

NGOs and Policy Advocacy

- NGOs and think tanks are replacing traditional advocacy forums such as Anjuman's/Associations, columnists
 - Foreign funding
 - Expertise
 - Data
 - Familiarity with foreign practices and ideas

Tap Here To Join Our
Official Community

NGOs and Policy Advocacy

- For example,
 - Sustainable Development Policy Institute of Pakistan
 - Social and Policy Development Centre
 - Shirkat Gah
 - Aurat Foundation
 - Human Rights Commission of Pakistan

Tap Here To Join Our
Official Community

NGOs and Policy Advocacy

- Urban Resource Centre, Karachi
- Punjab Urban Resource Centre, Lahore
- Four Advocacy Roles of NGOs/Think Tanks
 - Advising
 - Media campaigning to win voters, legislators, bureaucrats
 - Lobbying
 - Activism .

Tap Here To Join Our
Official Community

What is (and is Not) Advocacy

Citizen Groups and Policy Advocacy

Tap Here To Join Our
Official Community

Citizen groups and Policy Advocacy

- Citizens groups are different from NGOs
- Voluntary groups of citizens on social change
- Few and far between, currently in formation in Pakistan
 - Lahore Conservation Society
 - Obaidullah Sindhi Foundation
 - Shehri-CBE, Karachi

Tap Here To Join Our
Official Community

Citizen groups and Policy Advocacy

- Trade Unions are also moving beyond their traditional agendas

Tap Here To Join Our
Official Community

Citizen groups and Policy Advocacy

- Problems of citizens groups advocacy
- Opportunities for citizens groups advocacy
- Political parties as citizens groups .

Tap Here To Join Our
Official Community

What is (and is Not) Advocacy

Policy Advocacy and Policy Change

Tap Here To Join Our
Official Community

Policy Advocacy and Policy Change

- Policy advocacy is expanding in Pakistan
- Google search “policy advocacy in Pakistan”
 - 12,200,000 results on 04 February 2015
- Lahore Conservation Society
 - Made efforts to prevent canal road widening and tree cutting in 2006

Tap Here To Join Our
Official Community

Policy Advocacy and Policy Change

- Youth policies in provinces by Bargad
- Laws to punish harassing of women in 2009
- Freedom of Information laws .

How to Design Policy Advocacy

Steps in Planning Policy Advocacy?

Tap Here To Join Our
Official Community

Steps in planning Policy Advocacy

- Decide whether to advocate for a policy
 - Determine on the bases of ethics and analysis if a policy needs advocacy
 - Determine if the context will allow an intervention

Tap Here To Join Our
Official Community

Steps in planning Policy Advocacy

- Decide where to focus
 - Determine where to focus change/intervention in a selected policy area
- Get decision makers' attention
 - Check if the context is open enough for an initiative

Tap Here To Join Our
Official Community

Steps in planning Policy Advocacy

- Develop a support base
 - Networks, coalitions, organizations
- Developing a proposal
 - Develop solution developed using policy analysis and put them into appropriate format

Tap Here To Join Our
Offical Community

Steps in planning Policy Advocacy

- Implement policy advocacy
 - Collect resources implementing advocacy plan
- Evaluate your advocacy plan
 - Collect data about the performance of your policy advocacy project*

Tap Here To Join Our
Official Community

How to Design policy Advocacy

Research and Skills for Policy Advocacy

Tap Here To Join Our
Official Community

Research & Skills for Policy Advocacy

- Since advocacy for change may take years; it is a long process, and since advocacy efforts may not be successful
 - Research is very important
 - Gathering policy and political information is important

Tap Here To Join Our
Official Community

Research & Skills for Policy Advocacy

- Four kinds of Skills
 - Analytic skills
 - Used to evaluate issues, develop proposals, establish need, identify barriers, and design program evaluations

Tap Here To Join Our
Official Community

Research & Skills for Policy Advocacy

- Political skills
 - Need the ability to use power when establishing a political strategy
 - Building strategic relationships

Tap Here To Join Our
Official Community

Research & Skills for Policy Advocacy

- Interactional skills
 - Be able to facilitate, participate in task groups, committees, etc.
 - Establishing your credibility as an advocate
 - Maintaining focus

Tap Here To Join Our
Official Community

Research & Skills for Policy Advocacy

- Value-clarifying skills
 - Ability to use principles to organize practice*

Tap Here To Join Our
Official Community

How to Design Policy Advocacy

Presentation of Advocacy Content

Tap Here To Join Our
Official Community

Presentation of Advocacy Content

- Policymakers and implementers, legislators and executive have little time
- It is important to construct persuasive arguments
- Short policy briefs having argument, reasons and evidence

Tap Here To Join Our
Official Community

Presentation of Advocacy Content

- Alternative proposals should be constructed, i.e. proposed policy actions should be clear and specific
- Alternative proposals should be practical
- The potential of alternative proposals can be demonstrated through social experiments*

Tap Here To Join Our
Official Community

How to Design policy Advocacy

Features of Effective Advocacy

Tap Here To Join Our
Official Community

Features of Effective Advocacy

- It is based on good technical and political understanding
- It identifies actual individuals who make policy decision, knows their interests, etc.
- It can be sustained for a long time

Tap Here To Join Our
Official Community

Features of Effective Advocacy

- It can be undertaken with the help of self-sustaining networks and coalitions
- It can adapt to the changing circumstances
- It can learn from its own experience
- It has the ability to proceed along a predefined track

Tap Here To Join Our
Official Community

Features of Effective Advocacy

- It has the ability to deal with opposition constructively
- It employs available technologies to its advantage*

Tap Here To Join Our
Official Community

How to Design Policy Advocacy

Measuring the Effects of Advocacy

Tap Here To Join Our
Official Community

Measuring the Effects of Advocacy

- It is difficult to measure the impact of advocacy
- Many forces are at work simultaneously
- Continuous evaluation of advocacy plan is necessary
- Third party evaluations are better
- Both quantitative and qualitative data are necessary for evaluation

Tap Here To Join Our
Official Community

Measuring the Effects of Advocacy

- Policy changes during advocacy plan need to be monitored and documented
- Evaluation should identify the strong and weak features of advocacy*

Tap Here To Join Our
Official Community

How to Design Policy Advocacy

Improving Advocacy

Tap Here To Join Our
Official Community

Improving Advocacy

- Since advocacy is an important tool for policy change
- It needs to be improved continuously
- Many organizations have produced knowledge on advocacy
 - UNDP
 - Care Foundation
 - WaterAid
 - Unicef

Tap Here To Join Our
Official Community

Improving Advocacy

- But more efforts are needed to be undertaken to improve advocacy
- Knowledge on what makes advocacy successful in developing countries like Pakistan is limited
- More efforts are needed to produced advocacy knowledge in Pakistan*

Tap Here To Join Our
Offical Community

Writing Policy Briefs

What is a Policy Brief?

Tap Here To Join Our
Official Community

What is a Policy Brief?

- Many organizations have developed guidelines.
- International Development Research Centre, Canada's guidelines are comprehensive
- This talk is based on them

Tap Here To Join Our
Official Community

What is a Policy Brief?

- Short document
 - Findings, recommendations of a research
 - Presents lessons of a policy research
 - Provides policy advice to policymakers
 - General and non-specialist readers
 - Knowing audience is important

Tap Here To Join Our
Official Community

What is a Policy Brief?

- What audience know?
- What are their needs, interests and concerns, so that information can be organized and presented in accessible ways
- Audience research is important

Tap Here To Join Our
Official Community

What is a Policy Brief?

- Should be stand alone, should address one topic or issue only
- Provides alternatives, recommends one of the alternatives
- Suggests how the recommendation can be implemented
- Two to four pages long
- Contains a maximum of 1,500 words

Tap Here To Join Our
Official Community

What is a Policy Brief?

- Five components of a policy brief
 - Executive Summary
 - Three to five sentences to provide overview
 - Like a “Lead in” to a popular novel
 - Provides the gist of the conclusions
 - Introduction

Tap Here To Join Our
Official Community

What is a Policy Brief?

- Approaches and Results
- Conclusion
- Implications and Recommendations.*

Tap Here To Join Our
Official Community

Writing Policy Briefs

Persuasion in Policy Briefs

Tap Here To Join Our
Official Community

Persuasion in Policy Briefs

- Persuasion is very important
 - Answer the question “What value does this have for me?”
 - Tell the read about the urgency of the situation
 - What are the benefits and advantages of writing policy brief

Tap Here To Join Our
Offical Community

Persuasion in Policy Briefs

- Reader should know the benefits of reading the brief
- Do not describe research but focus on: “What does this mean?”
- Use terms like this: rising violence, loss of fresh water, rising accidents, etc

Tap Here To Join Our
Official Community

Persuasion in Policy Briefs

- Then highlight the benefits your solutions offer
- Better persuasion requires writing clear objectives/purposes
- Write in clear and plain language
- Construct arguments clearly*

Tap Here To Join Our
Official Community

Writing Policy Briefs

Writing Introductions, Approaches & Results

Tap Here To Join Our
Official Community

Writing Introductions, Approaches & Results

Introduction

- You should know that reader sees introduction first, you will write it last
- A good introduction answers the question why brief was written
- It also explains the significance/urgency of the issue

Tap Here To Join Our
Official Community

Writing Introductions, Approaches & Results

Introduction

- It narrates research objective
- It gives overview of findings, conclusions
- It creates curiosity for rest of brief
- Like a synopsis, it provides an overview of the findings and implications

Tap Here To Join Our
Official Community

Writing Introductions, Approaches & Results

Introduction

- It should entice the reader to read rest of the document

Tap Here To Join Our
Official Community

Writing Introductions, Approaches & Results

Approaches & Results

- How the study was conducted
- Methods used to collect data
- Results mean what was learned
- Information should move from general to the specific
- Claims should be supported with proof

Tap Here To Join Our
Official Community

Writing Introductions, Approaches & Results

Approaches & Results

- You should demonstrate what you state
- Statements can be supported with facts and examples.*

Tap Here To Join Our
Official Community

Writing Policy Briefs

Conclusion: What Does it Mean?

Tap Here To Join Our
Official Community

Conclusion: What Does it Mean?

- Interpret data
 - motorcycle accidents
 - divorces
- Aim for concrete conclusions

Tap Here To Join Our
Official Community

Conclusion: What Does it Mean?

- Remember World Health Organization:
 - “One of the main barriers between research and action is the inability to condense research results into conclusions which could facilitate policy formulation”

Tap Here To Join Our
Official Community

Conclusion: What Does it Mean?

- The value added of a policy brief lies in the interpretation of data rather than the data itself
- It is your job to interpret the data and answer the question “what does it mean?”

Tap Here To Join Our
Official Community

Conclusion: What Does it Mean?

- Group all the important findings, conclusions and advice in one clearly marked section so that busy decision makers can easily find and read them all.*

Tap Here To Join Our
Official Community

Writing Policy Briefs

Implications and Recommendations

Tap Here To Join Our
Official Community

Implications and Recommendations

- Implications mean what could happen
- Recommendations are what should happen
- Both flow from conclusions
- Both must be supported by evidence

Tap Here To Join Our
Official Community

Implications and Recommendations

- You should state either implications
 - what the researcher believes will or could happen,
- or recommendations
 - which are what the researcher would like to see happen

Tap Here To Join Our
Official Community

Implications and Recommendations

- implications and recommendations should flow out of the conclusions
- they should be well supported by data
- *Implications: If...Then...*
 - An implication is a statement of the natural consequence of something else

Tap Here To Join Our
Offical Community

Implications and Recommendations

- As a result, this statement is often presented in a if....then...format.
- The question that remains unanswered is of course what should happen next
- In some instances, it may not be possible or politically appropriate to make recommendations.*

Tap Here To Join Our
Official Community

Writing Policy Briefs

**Recommendations:
Call to Action**

Tap Here To Join Our
Official Community

Recommendation: Call to Action

- Describe clearly what should happen next
 - A recommendation is a clear suggestion for what should happen next
- State as precise steps
- Ensure they are relevant, credible and feasible.*

Punjab Drinking Water Policy 2010

Why PDWP?

Tap Here To Join Our
Official Community

Why PDWP?

- Water scarcity
 - Water tables going down
 - Over extraction
- Environmental degradation
 - Water is polluted

Tap Here To Join Our
Official Community

Why PDWP?

- Millennium Development Goals
 - Although Pakistan largely achieved water related MDG, a lot remains to be done
- Water borne diseases
- Arsenic
- Exclusions in access to water
- Water crisis?*

Tap Here To Join Our
Official Community

Punjab Drinking Water Policy 2010

Key Features of PDWP

Tap Here To Join Our
Official Community

Key Features of PDWP

- Reducing water leakages
- Reducing non-revenue water
- Rationalize tariffs
- Cost recovery of all water connections by metering them by 2016
- Private sector participation
- Role of donors*

Tap Here To Join Our
Official Community

Punjab Drinking Water Policy 2010

Implementation of Policy

Tap Here To Join Our
Official Community

Implementation of Policy

- Implementation has been slow
- Implementability is low
 - Institutional changes were not in place
 - Overlaps between Housing, Urban Development, and Physical Health Engineering Department (HUD&PHED) and Local Governments

Tap Here To Join Our
Official Community

Implementation of Policy

- In 2014, Government of the Punjab established Punjab Saaf Pani Company adding to the existing agencies
- Water and Sanitation Agencies in major cities are also being turned into companies

Tap Here To Join Our
Official Community

Implementation of Policy

- Allocation of funds to water sector do not follow norms of equity and inclusion*

Tap Here To Join Our
Official Community

Punjab Drinking Water Policy 2010

Budgetary Allocations to Water, 2011-12

Tap Here To Join Our
Official Community

Budgetary Allocations to Water 2011-12

- It is important to know the budget
- Sometimes only half of the budget demands are provided
- The allocated amounts are not spent
 - In 2008-09, only 45.08% of the Annual Development Plan of Punjab's allocation were spent

Tap Here To Join Our
Official Community

Budgetary Allocations to Water 2011-12

- Of the Rs. 155 bn, Rs. 112 bn released and Rs. 71 bn spent by March 2009
 - Block allocations
 - Unapproved schemes
 - Thin Spread
 - Throw Forward*

Tap Here To Join Our
Official Community

Punjab Drinking Water Policy 2010

How to Improve PDWP

Tap Here To Join Our
Official Community

How to Improve PDWP

- Address root causes of water problems
 - Drinking water is an issue of local governments
 - Effective use of allocations
 - Reduce reliance on loans and donors
 - Save water from contamination

Tap Here To Join Our
Official Community

How to Improve PDWP

- Recover cost of water by rational tariffs, water metering and cost recovery
- Low cost, affordable methods of constructing water schemes*

Tap Here To Join Our
Official Community

Punjab Drinking Water Policy 2010

How to Conduct Research on Water Policies(RWPs) in Pakistan

Tap Here To Join Our
Official Community

How to Conduct Research

- A lot of research on water is needed in the context of climate and demographic changes in Pakistan
- Identify exclusions in access to water
- Critical analysis of water related agencies
- Critical analysis of bottled water

Tap Here To Join Our
Official Community

How to Conduct Research

- Developing institutional designs to conserve water
- How community participation can be ensured in water schemes
- How budgetary allocation can be made following equity and inclusion framework*

Harold Dwight Lasswell

Major Ideas

Tap Here To Join Our
Official Community

Major Ideas

- Three distinct characteristics of public policy:
Multidisciplinary/multi method
- Policy sciences would break from the narrow study of political institutions and structures and embrace the work and findings of fields such as sociology, economics, law and politics

Tap Here To Join Our
Official Community

Major Ideas

Problem Solving

- policy science would adhere to a strict canon of relevance, orienting itself towards the solution of real world problems and not engaging in purely academic and often sterile debates

Tap Here To Join Our
Official Community

Major Ideas

Normative

- Policy science should not be cloaked in the guise of “scientific objectivity”, but should recognize the impossibility of separating goals and means, or values and techniques, in the study of government actions
- Sciences of democracy

Tap Here To Join Our
Official Community

Major Ideas

- Promoting human dignity
- Policy should enhance the “dignity of man, not the superiority of one set of men”

Tap Here To Join Our
Official Community

Major Ideas

- “It is foreseen that the emphasis will be upon the development of knowledge pertinent to the fuller realization of human dignity. Let us for convenience call this the evolution of the ‘policy sciences of democracy.’”
- Policy orientation to social sciences*

Tap Here To Join Our
Official Community

Harold Dwight Lasswell

Major Work

Tap Here To Join Our
Official Community

Major Work

- The Policy Orientation, 1951
 - “The fundamental problems of man in society, rather than upon the topical issues of the moment” (1951: 8). Lasswell elaborated on his vision for the policy sciences in his 1971 book

Tap Here To Join Our
Official Community

Major Work

- Pre-View of Policy Sciences, 1971
- “Policy sciences are a contemporary adaptation of the general approach to public policy that was recommended by John Dewey and his colleagues in the development of American pragmatism” (4, pXIV)

Tap Here To Join Our
Official Community

Major Work

- How policy scientists should be educated.
- GOAL
CLARIFICATION: what future states are to be realized as far as possible in the social process?

Tap Here To Join Our
Official Community

Major Work

- TREND
DESCRIPTION: To what extent have past and recent events approximated the preferred terminal states? What discrepancies are there? How great are they?

Tap Here To Join Our
Offical Community

Major Work

- ANALYSIS OF CONDITIONS: What factors have conditioned the direction and magnitude of the described trends?
- PROJECTION OF DEVELOPMENTS. If current policies are continued, what is the probable future of goal realizations or discrepancies?

Tap Here To Join Our
Official Community

Major Work

- INVENTION, EVALUATION, AND SELECTION OF ALTERNATIVES. What intermediate objectives and strategies will optimize the realization of preferred goals. (p 39)*

Institutionalism

Why Need Rules?

Tap Here To Join Our
Official Community

Why Need Rules?

- Do you play cricket?
 - What do we need to play cricket?
 - Actors: We need players, umpires
 - Infrastructure: We need bat, ball, wickets, uniforms, hats

Tap Here To Join Our
Official Community

Why Need Rules?

- Rules of the Game:
We need rules to play cricket (players and umpires need to agree on those rules)
- Organization: We need organization to enforce rules, i.e., Pakistan Cricket Board and International Cricket Council

Tap Here To Join Our
Official Community

Why Need Rules?

- Let us think about any other game!
 - Wrestling (kabbadi), horse race, chess
 - Can we play any of this game without rules?
 - Certainly, not!

Tap Here To Join Our
Official Community

Why Need Rules?

- Let us think about businesses
 - Shopkeepers, bazaars, markets, factories need some rules
 - Otherwise transactions can't happen
 - Even criminal gangs, mafias have some rules

Tap Here To Join Our
Official Community

Why Need Rules?

- Watch Hollywood or Bollywood movies
- Do you use computer?
 - Can you use computer without rules?
 - Certainly, not!
 - Why? Because computer only perform actions as written in its soft wares
 - Software engineers keep on writing rules

Tap Here To Join Our
Offical Community

Why Need Rules?

- There are other examples, too
 - Sociologists term following arrangements as institutions
 - Family
 - Marriage
 - Religion
 - Education
 - Trade

Tap Here To Join Our
Offical Community

Why Need Rules?

- Because these arrangements are based on rules, which are enduring overtime
- We learn to live our lives according to the rules, or institutions
- So that players can't cheat, do not fight, do not intimidate to win

Tap Here To Join Our
Offical Community

Why Need Rules?

- Similarly, organization of political life also needs some rules
 - From tribes in Africa to State in the United States
 - All political arrangements are organized following some rules
 - That is why studying rules/institutions is important

Tap Here To Join Our
Official Community

Why Need Rules?

- But rules can be formal and informal
 - Cricket has evolved formal rules enforceable by formal organizations and professionals
 - Kabbadi has evolved rules, but they are enforced informally

Tap Here To Join Our
Official Community

Why Need Rules?

- It means the games people play, they play on the basis of rules
 - Though some rules can be bypassed, others can't be
 - You can play cricket without following ICC rules, but can't play cricket if you are playing with Pakistani cricket team

Tap Here To Join Our
Official Community

Why Need Rules?

- You can only operate a software following the rules
- It also means that rules/institutions are needed for collective action problems
- It is, therefore, philosophers and statesmen are studying rules/institutions since ancient times

Tap Here To Join Our
Official Community

Why Need Rules?

- Plato (b. 428 BCE)
- Aristotle (b. 384 BCE)
- Thomas Hobbes (1588-1679)
- John Locke (1632-1704)
- But some rules/institutions are better than the others
 - Example: the rules of Cricket have changed over time

Tap Here To Join Our
Official Community

Why Need Rules?

- Socrates and Plato
utopia was to create
virtuous men/good men
 - But good men could
be produced by good
institutions
 - Political institutions
designed to allow
people to become
political

Tap Here To Join Our
Offical Community

Why Need Rules?

- Institutionalism is all about studying institutions, correcting their flaws, if any, and designing good institutions*

Tap Here To Join Our
Offical Community

Institutionalism

Institutions & Public Policy

Tap Here To Join Our
Official Community

Institutions & Public Policy

- Why should public policy students study institutions?
 - Because many factors determine public policy
 - But most crucial are polity and politics
- Again, in order to live in a society and deal with social problems

Tap Here To Join Our
Official Community

Institutions & Public Policy

- Human beings need rules and regulations
 - To coordinate, to regulate behavior
 - To resolve conflicts
- Human beings also need structures and arrangements
 - To enforce these rules
 - To punish and to reward

Tap Here To Join Our
Official Community

Institutions & Public Policy

- These rules are institutions, but let us think about a formal definition
 - Institutions are defined in opposition to nature
 - Nature does not provide us rules
 - Human beings create them

Tap Here To Join Our
Official Community

Institutions & Public Policy

- Institutions are “sets of legal rules that can be enforced by state actors”
- “Rules of political game”

Tap Here To Join Our
Official Community

Institutions & Public Policy

- An institution is any structure or mechanism of social order and cooperation governing the behavior of a set of individuals within a given human community

Tap Here To Join Our
Official Community

Institutions & Public Policy

- Humanly devised constraints that structure political, economic and social interactions
- Until 1950s, political science studied the political institutions
 - Compare executive with legislature
 - Political parties and electoral systems

Tap Here To Join Our
Official Community

Institutions & Public Policy

- Constitutions
- The aim was to improve political systems by comparing various political systems and learning from them
- Legal and historical method dominated the political science

Tap Here To Join Our
Official Community

Institutions & Public Policy

- But Structural functionalism, rational choice theory and behaviouralism
 - Rational choice theorists explained public policy in terms of individual interest
 - Behaviorists studied the behavior of politicians and voters

Tap Here To Join Our
Official Community

Institutions & Public Policy

- Neo-Marxists focused on systematic power (owners of capital)
- There was much more to the politics than formal arrangements for representation, decision making and policy implementation*

Tap Here To Join Our
Official Community

Institutionalism

Foundations of Modern Institutionalism

Tap Here To Join Our
Official Community

Foundations of Modern Institutionalism

- It is important to study Federalists
 - Alexander Hamilton (1755-1804)
 - John Jay (1745-1829)
 - James Madison (1751-1836)
- Institutional tradition is dominant mode of American governmental organization

Tap Here To Join Our
Official Community

Foundations of Modern Institutionalism

- Dominant mode of political thought in 18th and 19th centuries
- Institutionalists were skeptical of human political capabilities/human nature
 - Greed
 - Avarice
 - Conflict

Tap Here To Join Our
Official Community

Foundations of Modern Institutionalism

- “If men were angels, no government would be necessary.” James Madison
- Weight of self-interest can be countered through properly designed institutions

Tap Here To Join Our
Official Community

Foundations of Modern Institutionalism

- Malicious affect of majority rule on minorities
 - Division of power among legislature, executive, judiciary
 - Devolution of powers to sub national units

Tap Here To Join Our
Offical Community

Foundations of Modern Institutionalism

- Rather than relying on the following as foundations of government
 - Community
 - Public spiritedness
 - Social equality
 - Ethics
 - Virtue

Tap Here To Join Our
Official Community

Foundations of Modern Institutionalism

- Institutional devices were considered effective for solving social and political problems

Tap Here To Join Our

Institutionalism

State Theory & Public Policy

Tap Here To Join Our
Official Community

State Theory & Public Policy

- 19th Century German historical sociologists and legal theorists, such as
 - Otto Hintze (1861-1940)
 - Max Weber (1864-1920), focused on the role of state in policy making

Tap Here To Join Our
Official Community

State Theory & Public Policy

- Public policy as institutional output
 - Policy is authoritatively determined, implemented, and enforced by state institutions (legitimacy, universality, and coercion)
 - Executive, legislative, and judicial branches

Tap Here To Join Our
Official Community

State Theory & Public Policy

- Individuals have little impact;
structure/design affects outcomes
- State is sovereign organization
- Unprecedented financial, personnel and coercive resources
- State is central to study society, public policy and development

Tap Here To Join Our
Official Community

State Theory & Public Policy

- Leading institution in society
- Key agent in political process
- State's monopoly on the use of force reorders social relations
- Enduring institutional structures are building blocks of social and political life*

Official Community

Institutions & Public Policy in Pakistan

**Why Learn about
Institutions of
Policymaking?**

Tap Here To Join Our
Official Community

Why Learn about Institutions of Policymaking?

- Public policies are determined by institutions
- Policymakers make choices within the institutional framework
- Policies are implemented through institutions
- Understanding of institutions help designing policy research

Tap Here To Join Our
Official Community

Why Learn about Institutions of Policymaking?

- A good understanding of institutions is required to design policy proposals
- Briefly, policy students must know
 - How the state and government functions
 - What are the relationships among various organs of the state

Tap Here To Join Our
Official Community

Why Learn about Institutions of Policymaking?

- How do various organs of state interact?
- What are their powers?
- How state functionaries exercise powers?
- How government/state institutions undertake changes?*

Institutions & Public Policy in Pakistan

Organization of National Political Life

Tap Here To Join Our
Official Community

Organization of National Political Life

- Bicameral
- National Assembly of Pakistan/Lower House
 - 342 seats (272 general, 60 seats for women, 10 for non-Muslims)
- Senate of Pakistan (Upper House)
 - 104 seats
- Senate of Pakistan is a permanent legislative body

Tap Here To Join Our
Official Community

Organization of National Political Life

- A legislative bill becomes a law when passed by both NA and the Senate
- Provincial Assemblies
 - Provincial legislation
- Cabinets
 - National and Provincial Cabinets are highly important policy forums

Tap Here To Join Our
Official Community

Organization of National Political Life

- Standing Committees
 - Standing Committees are legislative committees
 - Undertaking deliberations
 - Oversight of government ministries/departments
 - Protecting public interest in legislation

Tap Here To Join Our
Official Community

Organization of National Political Life

- “Eyes, ears, hands, brain of the parliament”
- Standing Committees of Senate, National Assembly and Provincial Assemblies

Tap Here To Join Our
Official Community

Organization of National Political Life

- Senate and National Assembly Standing Committees are empowered to:
 - Suo moto examination of expenditures
 - Administration
 - Legislation
 - Public petitions
 - Policies of the ministries and attached bodies

Institutions & Public Policy in Pakistan

Political Parties/ Administrative Structure

Tap Here To Join Our
Official Community

Political Parties

- Political parties play important roles in setting preferences
- They also articulate public opinion
- But they need research support
 - Policy analysis
 - Budgetary allocations
 - Transparency
 - Accountability

Tap Here To Join Our
Official Community

Administrative Structure

- Administrative Structure of Pakistan
 - Ministries and departments play important role in policymaking, as they
 - Suggest policies
 - Suggest legislation/draft bills
 - Suggest procedures
 - Most importantly, allocate budgets

Tap Here To Join Our
Official Community

Administrative Structure

- How to Support Administrative Structure in Policymaking?
 - Visit websites of the ministries and departments
 - Read their rules of business
 - Suggest alternatives*

Comment on Rationality

Tap Here To Join Our
Official Community

Comment on Rationality

- Dominance of Rationalist Model in Policy Sciences
- Synoptic, Comprehensive
 - Technical or formal rationality
 - Adequate, efficient, mechanical way of doing

Tap Here To Join Our
Official Community

Comment on Rationality

- Economic rationality
 - Doing more with less money; efficient use of resources
- Other Characteristics of Rationalist Model
 - Means/Ends
 - Instrumental
 - Abstract
 - Not matches with the context

Tap Here To Join Our
Official Community

Comment on Rationality

- Application of rationality produced by the analysts mind
- Privileges technical over democratic
- Basing decisions and actions on scientifically valid comparison of all alternatives
- Gives too much power to the analysts and experts

Tap Here To Join Our
Official Community

Comment on Rationality

- Lindblom's Critique of Rationalist Model
 - Limited human problem-solving capacities
 - Inadequacies of information
 - The costliness of analysis (lack of time & money)

Tap Here To Join Our
Official Community

Comment on Rationality

- Failures in constructing a satisfactory evaluative methods
- The closeness of observed relationships between fact and value in policymaking
 - Challenge of identifying all values in society

Tap Here To Join Our
Offical Community

Comment on Rationality

- The openness of the system of variables with which it contends
- The analyst's need for strategic sequences of analytical moves
- The diverse forms in which policy problems actually arise
- Rationalist model fails to understand these limitations

Tap Here To Join Our
Official Community

Comment on Rationality

- Rationalist model is Impractical
- Unrealistic
- Morally dubious ideal
- Compromises democracy by rejecting ordinary knowledge
- Politics, Economics and Welfare (1953)
- “The Science of Muddling Through” (1959)*

Tap Here To Join Our
Official Community

Charles E. Lindblom

Lindblom's Alternative

Tap Here To Join Our
Official Community

Lindblom's Alternative

- Incrementalism
 - Also called gradualism, baby steps, muddling through, Echtertnach theory
 - Evolution and not revolution

Tap Here To Join Our
Offical Community

Lindblom's Alternative

- Based on his broad studies of Welfare policies and Trade Unions in Europe and America
 - Modifications in existing policies
 - “Action first, science later”

Tap Here To Join Our
Official Community

Lindblom's Alternative

- Regards ordinary knowledge important for social problem solving
 - On the grounds that social science expertise is too limited, partial
 - Expensive, unnecessary, counterproductive noise

Tap Here To Join Our
Official Community

Lindblom's Alternative

- Parallel with architectural design, Prince Charles and vernacular design
- Collective, political rationality
- Democracy*

Tap Here To Join Our
Official Community

Arguments for Incrementalism

- Descriptive:
Incrementalism mirrors actual decision making
- Prescriptive: Managers can improve decision making by eschewing rationalist model implicit in classical theory and by relying on 'muddling through'*

Tap Here To Join Our
Official Community

Charles E. Lindblom

Polyarchy and Corporatism

Tap Here To Join Our
Official Community

Polyarchy and Corporatism

- Polyarchy and Corporatism important contributions
 - No single, monolithic elite controls government and society
 - A series of specialized elites compete and bargain with one another for control

Tap Here To Join Our
Official Community

Polyarchy and Corporatism

- Competition and compromise between elites in politics and the marketplace drives free-market democracy
- Some elite groups gain key benefits, become too successful and establish monopoly

Tap Here To Join Our
Official Community

Polyarchy and Corporatism

- They collude and not compete-Polyarchy turns in corporatism
- Privilege position of business in Polyarchy (Politics And Markets 1977),
- "Circularity", or "Controlled Volitions"

Tap Here To Join Our
Offical Community

Polyarchy and Corporatism

- “Even in the democracies, masses are persuaded to ask from elites only what elites wish to give them.”
- Any real choices and competition are limited.
- Any development of alternative choices

Tap Here To Join Our
Official Community

Polyarchy and Corporatism

- Any serious discussion and consideration of them is effectively discouraged.
- Two party political system in the United States

Tap Here To Join Our
Official Community

Polyarchy and Corporatism

- Complex issues turned into two simple choices
 - No competition of ideas
 - Media determines who participates in the national dialogue
- Criticism of democratic capitalism and polyarchy

Tap Here To Join Our
Official Community

Polyarchy and Corporatism

- Praise for the political-economy of Tito's Yugoslavia
- Labeled a "Closet Communist" and a "Creeping Socialist"
- The Market System: What It Is, How It Works, and What to Make of It (2001)

Tap Here To Join Our
Official Community

Polyarchy and Corporatism

- Market System can creating and fostering wealth and innovation
- It can't assign non-economic values and distributing social or economic justice*

Tap Here To Join Our

Trade Policy of Pakistan

Trade Policy of Pakistan

Tap Here To Join Our
Official Community

Trade Policy of Pakistan

- Centrality of trade; economists' views
- Trade not aid slogan
- Trade policy means export policy
- Many countries have grown through trade
- Have trade policies in Pakistan?

Tap Here To Join Our
Official Community

Trade Policy of Pakistan

Failure of trade Policy Framework 2009-2012

- Rs 3 billion disbursed of Rs 35 billion allocated
 - Capacity building of exporters, undone
 - Promotion of exports, undone
- Though exports crossed \$24.5 bn, more than the target of \$23.6 bn

Tap Here To Join Our
Official Community

Trade Policy of Pakistan

- Trade policy focuses on export targets
 - Promoting the export of established products
 - Export portfolio remain slim
 - 55% share of textile and clothing, little diversification

Tap Here To Join Our
Official Community

Trade Policy of Pakistan

- Export-oriented industries needed to be made efficient
- 70-80% of the initiatives not implemented, lack of human resource at MoC
- Product-specific training of trade officers
- Lack of coordination on trade policy implementation

Tap Here To Join Our
Official Community

Trade Policy of Pakistan

- Pakistan's share in food trade was limited
 - Agricultural standards non-existing
 - Supply chains/cool chains were not established
- Little focus on domestic commerce/cottage industry
- Little focus on inter-provincial trade

Tap Here To Join Our
Official Community

Trade Policy of Pakistan

- Largely focused on textile, cloth; ignored other sectors; undiversified exports*

Tap Here To Join Our
Official Community

Trade Policy of Pakistan

**Trade Policy
2012-15**

Tap Here To Join Our
Official Community

Trade Policy 2012-15

- Focus on regional trade
- Strengthening of the institutional framework for promotion of exports
- Creation of regulatory efficiencies
- Export development initiatives
- Increase exports from less developed regions of Pakistan

Tap Here To Join Our
Official Community

Trade Policy 2012-15

- Promotion of domestic commerce
- Strengthen the monitoring and evaluation mechanism*

Tap Here To Join Our
Official Community

Trade Policy of Pakistan

Reforming Trade Policy

Tap Here To Join Our
Official Community

Reforming Trade Policy

- Economist Sakib Sheerani suggests trade policy “embedded” with industrial policy
- Common elements of successful trade policies (China, India, Vietnam, Bangladesh, Turkey, Cambodia)
 - Export incentives

Tap Here To Join Our
Official Community

Reforming Trade Policy

- Under-valued exchange rate
- Subsidized credit
- Selective liberalization of imports
- Long term export strategy needed
- Import-bias need to be replaced with export-bias

Tap Here To Join Our
Official Community

Reforming Trade Policy

- Musharraf era anti-export policy bias; stable exchange rate
- State Bank of Pakistan: cheap credit for import-based consumption
- Qaiser Bangali: 85% of economy constituted by consumption economy
- Writing off hundreds of billions of consumer loans

Tap Here To Join Our
Official Community

Reforming Trade Policy

- Drastic reduction in import tariffs, Free Trade Agreement with China in 2006
- In 2008, Pakistani imports more than \$40 bn/exports financing less than 50% of import payments

Tap Here To Join Our
Official Community

Reforming Trade Policy

- Manufacturing sector shrank due to imports
 - Manufacturing share in GDP increased in Asian countries; decreased in Pakistan
 - Tires, ceramics, footwear
- Under-invoicing, smuggling affected industry

Tap Here To Join Our
Official Community

Reforming Trade Policy

- Cautious liberalization of imports; no wholesale opening of imports
- Free trade not a solution: US protects steel, auto, financial industries
- Japan: agriculture, steel
- South Korea: Ship building

Tap Here To Join Our
Official Community

Reforming Trade Policy

- European Union:
Subsidies to
agriculture*

Herbert Simon

Context of Simon's Scholarship

Tap Here To Join Our
Official Community

Context of Simon's Scholarship

- At the time of Herbert Simon, three ideas were dominant in decision sciences and problem-solving scholarship
 - That comprehensive/full/perfect rationality existed
 - That optimum decisions could be made

Tap Here To Join Our
Official Community

Context of Simon's Scholarship

- Optimum: utility maximizing
- Developed staunch critique of the neoclassical economic
- Developed critique of Savagian conception of rational human behavior

Tap Here To Join Our
Official Community

Context of Simon's Scholarship

- Developed behavioral economics as an alternative to the dominant neoclassical school in economics (1950s/1960s)
- Used the insights of political science to alter economic theorizing

Tap Here To Join Our
Official Community

Context of Simon's Scholarship

- Bases of criticism:
 - Man possessed limited information-processing abilities
 - . . . the capacity of the . . . mind for formulating and solving complex problems is very small compared with the size of the problems whose

Tap Here To Join Our
Official Community

Context of Simon's Scholarship

solution is required for objectively rational behavior in the real world—or even for a reasonable approximation to such objective rationality. (Simon 1957: 198)

Tap Here To Join Our
Official Community

Context of Simon's Scholarship

- Developed heuristics and problem solving ideas in the tradition of John Dewey and William James
- Developed the ideas of George Polya, mathematician

Tap Here To Join Our
Official Community

Context of Simon's Scholarship

- Disliked concepts such as creativity and discovery, which he thought were metaphysical
 - Problem solving was a better concept
 - Problems are solved using some rules

Tap Here To Join Our
Official Community

Context of Simon's Scholarship

- Thought machines could be used for problem solving
 - Worked on artificial intelligence
 - It proved to be dead end
- Offered the theory of “bounded rationality”—enduring contribution
 - Full rationality did not exist

Tap Here To Join Our
Official Community

Context of Simon's Scholarship

- Notion of full rationality="A heroic abstraction of expected utility theory"
- "Satisficing" is the most important concept
 - "Satisficing" vs. optimizing, or maximizing
 - A theory of ordinary decision-making

Tap Here To Join Our
Official Community

Context of Simon's Scholarship

- Approximation of actual decision-making
 - “Satisficing” = “satisfy” and “suffice”
 - Contrary to classic economics: individuals so not seek to maximize their benefits
- Can't digest, process all the information

Tap Here To Join Our
Official Community

Context of Simon's Scholarship

- But even if they all the information, they can't process it
- Humans are bounded by “cognitive limits”
- Applicable to simple decisions, e.g.
 - Where to eat lunch?
 - Which school to attend?
 - Where to buy shirts?

Tap Here To Join Our
Official Community

Context of Simon's Scholarship

- We search for “good-enough”/”satisfactory” solutions, rather than searching best/optimal solutions
- The real world behavior is “satisficing”
- Application to organizations:
 - Managers and administrators make decisions like shoppers in a mall

Tap Here To Join Our
Official Community

Context of Simon's Scholarship

- “Administrative man can make decisions with relatively simple rules of thumb that do not make impossible demands upon his capacity for thought.”
- The cost of collecting additional information and processing it may exceed the total benefit of decision

Tap Here To Join Our
Official Community

Context of Simon's Scholarship

- Simon described his own life as a series of satificing decisions in Models of My Life, 1996
- One's life has no overriding/central theme
- Simon accepts humans have no single self

Tap Here To Join Our
Offical Community

Context of Simon's Scholarship

- Simon's life consistent with the theory of bounded rationality
 - Recommends local form of decision making: building life in a series of choices*

Tap Here To Join Our
Official Community

Herbert Simon

Contribution to Save Rationality

Tap Here To Join Our
Official Community

Contribution to Save Rationality

- Despite believing that
 - Perfect/comprehensive rationality does not exist as economics tells
 - Invisible hand of market forces did not exist
- Simon made valiant effort to save rationality

Tap Here To Join Our
Official Community

Contribution to Save Rationality

- He maintained beliefs:
 - Human beings are intendedly rational
 - They are goal oriented
 - But their ability to calculate is limited
 - World is complex, they do less well than they would like
 - Memory

Tap Here To Join Our
Official Community

Contribution to Save Rationality

- To save rationality, he emphasized heuristic model
- Like Dewey and Lewin before him, Simon wanted to link theory to practice;
 - How people in government agencies made decisions and how their decisions could be improved

Tap Here To Join Our
Official Community

Contribution to Save Rationality

- Heuristics (discovery)
 - Strategies suggested by experience with practical affairs
 - And not by theory
 - Instead of logically derived rules, heuristics are informal rules
 - useful in discovering knowledge and problem solutions

Tap Here To Join Our
Official Community

Contribution to Save Rationality

- From the 1950s to the 1970s,
 - Used heuristic and similar terms in his uncompromising attack on
 - The behavioral foundations of neoclassical economics

Tap Here To Join Our
Official Community

Contribution to Save Rationality

- Alternative he proposed in the form of human decision making based on heuristics
- Individuals use rules of thumb or heuristics to make decisions
 - Example: Aspiration price for the house one wishes to sell

Tap Here To Join Our
Official Community

Contribution to Save Rationality

- The first offer that exceeds the aspiration price
- The heuristic could be to accept the best among the first n offers
 - Such a heuristic was meant to optimize the decision made, given the

Tap Here To Join Our
Official Community

Contribution to Save Rationality

- Constraints, the individual faced in terms of information,
- cognitive capacity, and
- time.
- If the heuristic yielded a satisfactory outcome,
 - It would be maintained;

Tap Here To Join Our
Official Community

Contribution to Save Rationality

- If not,
 - It would be adjusted
- Heuristic theories in public policy emphasize on learning to solve problems through
- Experimentation
- Experiential learning
- Trial and error

Tap Here To Join Our
Official Community

Contribution to Save Rationality

- Heuristic approaches are not haphazard but involve feedback and evaluation
 - They are about discovering new ways to solve problems
- Unlike incremental theories
 - Which emphasize marginal changes to existing policies

Tap Here To Join Our
Official Community

Contribution to Save Rationality

- Heuristic approaches encourage developing new and innovative solutions
- Heuristics suggest: when frequent efforts fail to solve a problem, try new solution
- Heuristic is selective trial and error, using rules derived from previous experience

Tap Here To Join Our
Official Community

Contribution to Save Rationality

- Applying Heuristics:
 - Well organized and stored information
 - Long-term commitment to the problems
 - High level of motivation to solve the problems
 - Using long term memory to incubate the problem

Tap Here To Join Our
Official Community

Contribution to Save Rationality

- Use of tools, technology to aid analysis (computers)*

Tap Here To Join Our
Official Community

Theory in Public Policy

Theory in Public Policy

Tap Here To Join Our
Official Community

Theory in Public Policy

- Theory is a lens
- Theory is an effort to explain how things work i.e. You can fix a car's engine, if you know how it works
- There is nothing more practical than a good theory

Tap Here To Join Our

**Lack of Theory in
Public Policy?**

Tap Here To Join Our
Official Community

Lack of Theory in Public Policy?

Paul Cairney (2012):

“No-one has managed to produce a theory applicable to public policy as a whole.”

- The world is too complex to allow parsimonious explanation

Tap Here To Join Our
Official Community

Lack of Theory in Public Policy?

Peter John (1998):
Much of the public policy literature represents 'thick descriptions' – a process of modeling or mapping a complex terrain

Tap Here To Join Our
Official Community

Lack of Theory in Public Policy?

Goodin, Rein, and Moran (2006) in The Oxford Handbook of Public Policy regard policy:

- A mood more than a science, a loosely organized body of precepts and positions rather than a tightly integrated body of systematic knowledge, more art and craft than a genuine 'science'

Tap Here To Join Our
Official Community

Lack of Theory in Public Policy?

Kevin B. Smith &
Christopher W. Larimer
(2009) argued that public
policy:

- Is not concentrated on
a single academic
discipline

Tap Here To Join Our
Official Community

Lack of Theory in Public Policy?

23 disciplines according to Yehezkel Dror

- Has no fundamental problem
- Has no unifying theory/or conceptual framework
- No unifying methods of analytical tools

Tap Here To Join Our
Official Community

Lack of Theory in Public Policy?

They further say:

- A field – distinct, defensible, coherent discipline – needs theory
- Policy scholars are viewed as theory takers not theory makers
- They do not generate generalizable knowledge*

Tap Here To Join Our
Official Community

Theory in Public Policy

**Is Having no Theory
Beneficial?**

Tap Here To Join Our
Official Community

Is Having no Theory Beneficial?

- Deborah Stone, Peter DeLeon, Frank Fischer think it is good to have no theory of public policy
- Deborah Stone (2002) “public policy from the irrationalities and indignities of politics”
- Policy is political and value-laden

Tap Here To Join Our

Responding to Pakistan's Sanitation Crisis

Extent of Sanitation Problems

Tap Here To Join Our
Official Community

Extent of Sanitation Problems

Water & Sanitation Programme (WSP) of the World Bank

- Access to improved toilets: 50.1%
- Out of them, 58.8% connected to sewer
 - 29.1% connected to septic tanks
 - Open defecation: 50 million people (31% of population)

Tap Here To Join Our
Official Community

Extent of Sanitation Problems

- Shared toilets: 8 million (5% of population)
- Urban areas: 90%; Rural areas: 40%
- Total economic losses: Rs. 343.7 billion (US\$ 5.7 bn), 3.94% of the GDP of Pakistan
- Of this cost, direct financial cost: Rs 69.52 billion; (0.8% of GDP)
- Of this cost, health impact: 87.16%; Rs. 299.55 bn; 3% of GDP)

Tap Here To Join Our
Official Community

Extent of Sanitation Problems

- Highly severe
- Sanitation related disease burden
- Work loss
- Water borne mortality
- Untreated sewerage used for crops, animals
- Rivers and ocean; water streams polluted
- Cleanliness, personal hygiene very low*

Making Cities Work for Pakistan

Making Cities Work: Land

Tap Here To Join Our
Official Community

Making Cities Work: Land

- Land around small towns is owned by big landlords, small farmers, revenue department
 - “The big landlords as such determine the nature and shape of urban expansion”

Tap Here To Join Our
Official Community

Making Cities Work: Land

- “The small farmers associate with developers to create low income settlements through the sub-division of agricultural land”
- Politicians and bureaucrats use land as an instrument of political patronage

Tap Here To Join Our
Official Community

Making Cities Work: Land

- Shortage of land; high land prices
 - Land unavailable for commercial, industrial, housing, infrastructure projects
- Available land being used in extremely inefficient and uneconomical manner
 - Extravagant land use regulations and planning standards

Tap Here To Join Our
Official Community

Making Cities Work: Land

- Land shortage, high prices makes land highly lucrative
- Land held for speculation increase land prices further
 - Appropriate development become difficult in the face of density related byelaws

Tap Here To Join Our
Official Community

Making Cities Work: Land

- Multiple agencies control land use; little coordination among them; economically inefficient and wasteful
- Powerful agriculturalists control land in small and medium towns
- LDA (1975-2009): 3 Marla plots, 3792; 1 kanal 47097; 2 kanal 10354*

Deborah Stone

Introduction

Tap Here To Join Our
Official Community

Introduction

- Born 1946
- Teaches at MIT
Department of Urban
Studies and Planning
- Social policy scholar
- Member, editorial
board, The American
Prospect and the
Journal of Health
Politics, Policy and Law

Tap Here To Join Our
Official Community

Introduction

- Postmodern, interpretive policy scholar
- Policy is storytelling, ideas, argument: difficult to grasp
- Arguing against the rational choice/economic model of policymaking
- It can be called market model of society also

Tap Here To Join Our
Official Community

Introduction

- She presents a political model of society-Polis
- Written wonderful books: The Disabled State*

Tap Here To Join Our
Official Community

Deborah Stone

Deborah Stone's Motivation Ideas

Tap Here To Join Our
Official Community

Deborah Stones Motivation Ideas

- The Rationality Project
 - Core part of American political culture
 - Progressive reformers: Woodrow Wilson, John Dewey, John Riis,
 - Policymaking from elected politicians to professionals, managers

Tap Here To Join Our
Official Community

Deborah Stones Motivation Ideas

- Legitimacy from science, not politics
- Politics: messy, erratic, inexplicable, irrational
- Analysis categories are apolitical: outside politics; above politics

Tap Here To Join Our
Official Community

Deborah Stones Motivation Ideas

- Three Models
 - Model of Society
 - Society is a market; relations of trading, exchange: maximize utility
 - Collection of individuals, no community life

Tap Here To Join Our
Official Community

Deborah Stones Motivation Ideas

- Model of Reasoning
 - Rational decision making following well-defined steps:
 - Identify objectives
 - Identify alternative courses of action for achieving objectives
 - Predict the possible consequences for each alternative

Tap Here To Join Our
Official Community

Deborah Stones Motivation Ideas

- Evaluate the possible consequences of each alternative
- Select the alternative that maximizes the attainment of objectives

Tap Here To Join Our
Official Community

Deborah Stones Motivation Ideas

- This model is pervasive: self-help books, child-rearing manuals
- Model of Policymaking
 - Production model; policy created in an orderly sequence of stages
 - Just like assembly line*

Tap Here To Join Our
Official Community

Deborah Stone

Critique

Tap Here To Join Our
Official Community

Critique

- Rational decision making model ignores feelings, emotions, intuitions
- All of them provide bases for behavior
- It does not help know why parents want their children to respect elders

Tap Here To Join Our
Official Community

Critique

- People are connected through emotional bonds, traditions, loyalties, images
 - They want to promote values such as helping others, taking care of excluded
 - They want to pursue common/collective goals: health, water, education, justice*

Tap Here To Join Our
Official Community

Deborah Stone

Alternative Ideas

Tap Here To Join Our
Official Community

Alternative Ideas

- Model of political reasoning: reason by metaphor and analogy
- Political reasoning involves metaphor-making; category-making
 - Should girls' colleges organize theater?
Singing competitions?

Tap Here To Join Our
Official Community

Alternative Ideas

- Starting point of policy analysis should be political community, not market*

Tap Here To Join Our
Offical Community

Deborah Stone

Polis Model

Tap Here To Join Our
Official Community

Polis Model

- A model of political community
- Inputs are simultaneously outputs
- A lot of inputs and outputs are not quantifiable/tangible
 - Efficiency for one person may be inefficiency/waste for others

Tap Here To Join Our
Official Community

Polis Model

- Library collection: how to measure costs and benefits of library books?
- Even in rational model, decisions are political
- But that politics is experts politics, not people's politics

Tap Here To Join Our
Official Community

Polis Model

- Community is the unit of analysis in the polis, not the individual
- Information not perfect by design
- In market model, all resources are scarce, competition is the means to success

Tap Here To Join Our
Official Community

Polis Model

- In polis model, resources like social connections and advocacy skills grow with use
- Policy problems are not individual problems; but common problems*

Tap Here To Join Our
Official Community

Investment Policy of Pakistan

Foreign Investment in Pakistan

Tap Here To Join Our
Official Community

Foreign Investment in Pakistan

- Low investment in Pakistan
- ADB: Each year in 1990s
 - Negligible FDI: 0.2% of the world total
 - Less than 1% of the Asian subtotal in 1990s

Tap Here To Join Our
Official Community

Foreign Investment in Pakistan

- Major concentration of FDI: power sector
 - Domestic-oriented sector, large foreign exchange costs
 - Serious balance of payment implications
- Urban violence, inconsistent economic policies
- Bureaucratic inefficiencies*

Globalization and Public Policy

Government, Governance, Public Policy

Tap Here To Join Our
Official Community

Government, Governance, Public Policy

- To understand globalization and public policy
 - Need to understand:
Nature of government has changed globally
 - Today governance is distinct from government, globally
 - Governance...as organizing collective action

Tap Here To Join Our
Official Community

Government, Governance, Public Policy

- Governance entails the establishing of institutions
 - Institutions being the rules of the game that permit, prescribe, or prohibit certain actions
- Governance is a way to manage POWER and POLICY
 - Government is an instrument to do so

Tap Here To Join Our
Official Community

Government, Governance, Public Policy

- Governance is seen as an alternative to
 - Conventional top-down government control

Tap Here To Join Our
Official Community

Government, Governance, Public Policy

- Governance clearly embraces government institutions, but it also subsumes informal, non-governmental institutions operating within the public realm” (Bøås, 1998 quoted by Weiss, 2000)

Tap Here To Join Our
Official Community

Government, Governance, Public Policy

- Why Governance
(Hollowing Out of the State (Rhodes, 1994))
 - A variety of social forces, such as
 - Increased complexity in social problems,
 - A growing and more specialized public administration,
 - Increased demand for expertise,

Tap Here To Join Our
Official Community

Government, Governance, Public Policy

- Internationalization,
- Decentralization,
- And a rapid development of information and communication technologies (Pollitt 2003; Jessop 2002)

Tap Here To Join Our
Official Community

Government, Governance, Public Policy

- Changed conditions have forced governments and parliaments at the national level to delegate activities
 - Downwards' to local governments,
 - Outwards' to private organizations,

Tap Here To Join Our
Official Community

Government, Governance, Public Policy

- Inwards' to semi-autonomous state agencies, and finally,
- But not least, 'upwards' to the global institution
- Result is a 'hollowing out' of the state
- Regulatory functions devolved: self-regulation of private organizations

Tap Here To Join Our
Official Community

Government, Governance, Public Policy

- Classic examples:
environmental, labor standards, women rights
- Governance: transition from hierarchical to more network based forms for decision-making
- Governance: diffusion of boundaries between private and public actors*

Major Works/Ideas

Tap Here To Join Our
Official Community

Major Works/Ideas

- Advocacy: make policy analysis a new profession
- Commented:
 - “An invasion of public decision making by economics”

Tap Here To Join Our
Official Community

Major Works/Ideas

- “Going far beyond the domain of economic policymaking, the economic approach to decision making as an allocation of resources between alternatives, that is, as an economic problem”

Tap Here To Join Our
Official Community

Major Works/Ideas

(Yehezkel Dror, “Policy Analysts: A New Professional Role in Government Service,” *Public Administration Review* 27, no. 3 (1967): 197-203.)

- Differentiated systems analysis and policy analysis

Tap Here To Join Our
Official Community

Major Works/Ideas

- Defined the role of government policy analyst
- Called for advanced knowledge of decision-making
- Policy analyst as new professional role in government

Tap Here To Join Our
Official Community

Major Works/Ideas

- Proposed establishing policy analysis offices in all government departments, at senior levels
- Significant autonomy; highly qualified staff
- Strict secrecy
- Confidential relation between analyst and decision maker

Tap Here To Join Our
Official Community

Major Works/Ideas

- Policy analysis separate from implementation
 - “To move into such items cannot but ruin the essence of policy analysis as focusing on policymaking”
 - Many departments followed advice
- Policy analysis is more than technical work*

Yehezkel Dror

The Capacity to Govern 2001

Tap Here To Join Our
Official Community

The Capacity to Govern 2001

- Redesigning of governance is needed
 - Knowledge, technology has changed
 - Policymaking remains the same

Tap Here To Join Our
Official Community

The Capacity to Govern 2001

- Governance need to deal with social self-destruction
 - Without improved capacity to govern, negative outcomes for society
 - Governance should stop: “devilish use of knowledge...for mass killing”

Tap Here To Join Our
Offical Community

The Capacity to Govern 2001

- Societies are unprepared; governance obsolete
- Change from: “Raison d’etat”, created by Italian Renaissance thinkers to “Raison d’humanite”
- Change governance at all levels: make quantum leap

Tap Here To Join Our
Offical Community

The Capacity to Govern 2001

- If UN is unable to cope with global crisis, USA and EU should act
- Breakdown in countries should be prevented
- Intervention to prevent evil rulers from doing harm
- Quality of politicians should be improved

Tap Here To Join Our
Official Community

The Capacity to Govern 2001

- Moral democratic rule is preferred over direct democracy
- Create capacity to govern groups at universities, think tanks
- Promote doctoral research on capacity to govern
- Think: “Science and Technology for what?”*

Policy Analysis for Advising Rulers

Tap Here To Join Our
Official Community

Policy Analysis for Advising Rulers

- Developing it as a specialized field
- Experience of working with more than 35 governments
- Most rulers do not understand language of PA
- Most rulers work with bureaucrats, politicians, mono-disciplinary experts but not with PAs

Tap Here To Join Our
Official Community

Policy Analysis for Advising Rulers

- Experience with economists makes rulers apprehensive of PAs
- PAs morally responsible
- PAs should not work with tyrants, evil rulers
- Advice for policy innovations

Tap Here To Join Our
Official Community

Policy Analysis for Advising Rulers

- Single-person focus
 - Adjust to psychological and political needs of the ruler
 - Personal relations important*

Larger Questions

Tap Here To Join Our
Official Community

Larger Questions

- Larger question: how people manage to live together?
- Budgeting makes living together possible
- Can't budget, can't govern
- Budgeting: US government; comparative budgeting; theory of political culture

Tap Here To Join Our
Official Community

Larger Questions

- "when a process involves power, authority, culture, consensus, and conflict, it captures a great deal of national political life"
- Budgeting can tell about the classic questions of politics:
 - who gets what, how, and why?

Tap Here To Join Our
Official Community

Larger Questions

- Worked on budgeting personnel and agency actors in answering these questions
- Politics was about finding terms for living together in spite of ideological differences.

Tap Here To Join Our
Official Community

Larger Questions

- Budgetary incrementalism helped to manage this otherwise unmanageable task.
- Synoptic budgeting could increase disagreement: it was unwise.
- Analysis had to serve politics, not try to displace it*

Tap Here To Join Our
Official Community

Aaron Wildavsky

Citizen as Analyst

Tap Here To Join Our
Official Community

Citizen as Analyst

- Like Dewey, Wildavsky opposes:
 - State imposed planning
 - Planning based on rationalistic design
 - Achieving preconceived ends by means of coercive regulation of behavior

Tap Here To Join Our
Official Community

Citizen as Analyst

- Opposed: “central direction by one mind that decides everything once and for all”
- Instead encourage citizens to “figure things out for themselves”
 - Instead of standardized curriculums, give vouchers

Tap Here To Join Our
Official Community

Citizen as Analyst

- Benefits by “altering the pattern of relationships between participants which leads to outcomes that are different”

Tap Here To Join Our
Official Community

Citizen as Analyst

- It is helpful because it encourages citizens to “act as analysts by becoming part of public policies through which they can determine what they are getting for what they give”

Tap Here To Join Our

Robert S. McNamara

Ideas

Tap Here To Join Our
Official Community

Ideas

- Saw himself as “enlightened rationalist”
- Analytical techniques:
 - Data driven
 - Quantitative analysis
 - Cost benefit analysis
 - Linear programming
- Systems analysis:
 - Identify problem
 - Enlist options/alternatives
 - Objectives/criteria

Tap Here To Join Our
Official Community

Ideas

- Impact evaluation
- Estimate future effects
- Recommendations/course of action
- Planning, programming and budgeting system (PPBS), 1961, Department of Defense
- Past history: RAND Corporation, Santa Monica, California (est. 1948)

Tap Here To Join Our
Official Community

Ideas

- Work: Analytic work for DoD
- Decision allocation system
- Charles Hitch requested to set up Office of Systems Analysis to undertake PPBS
- Lyndon B. Johnson extended PPBS to other departments in October 1965

Tap Here To Join Our
Official Community

Ideas

- PPBS uses:
microeconomic theory,
welfare economics,
quantitative decision
theory, operations
research, cost-benefit
analysis, program
budgeting, systems
analysis
- Systems Analysis Office
 - McNamara built a
team of analysts

Tap Here To Join Our
Official Community

Ideas

- Analysts had access to Secretary
- Secretary had access to President
- Highly powered; freedom from bureaucratic hierarchy
- Specialization in techniques of analysis; not in the details of their application

Tap Here To Join Our
Official Community

Ideas

- Lack of knowledge in the substance of policy
- Analysts:
 - Identify objectives;
 - Relate cost/budgetary decision to objectives
 - Assess cost effectiveness of current/proposed programs

Tap Here To Join Our
Official Community

Ideas

- Analytic planning process was linked to budget process
- Purposes:
 - Control over fragmented units:
Army, Air Force, Navy
 - Improve efficiencies in allocation & implementation
 - Improve use of knowledge/
information*

Tap Here To Join Our

Helen Ingram

Policy Design for Democracy

Tap Here To Join Our
Official Community

Policy Design for Democracy

- John Dewey:
Democracy
- Harold Lasswell: policy
science of democracy
 - Policy sciences
abandoned this dream
- Democracy in crisis
across the globe
 - Governments are
seen part of the
problem

Tap Here To Join Our
Official Community

Policy Design for Democracy

- People believe government officers pursue self-interest
- Governments could not solve problems of violence, poverty, gender, etc.
- Distrust of governments, politicians

Tap Here To Join Our
Official Community

Policy Design for Democracy

- This needed response, but
 - Policy analysis programs ill equips, dealing with quality of democracy
- Policy analysis focused:
 - Efficiency and effectiveness of service delivery

Tap Here To Join Our
Official Community

Policy Design for Democracy

- Macroeconomics tools:
 - Means-ends assessments
- Political science:
 - Political feasibility and support, responsiveness of policy to citizens, implementing agencies

Tap Here To Join Our
Official Community

Policy Design for Democracy

- Efficiency, effectiveness, political feasibility are the only measures, and inadequate measures
- What should be the purpose of policy analysis?:
 - Creating a just, democratic society (Ingram)

Tap Here To Join Our
Official Community

Policy Design for Democracy

- Advance citizenship by:
 - Listening to, educating, and involving ordinary people
 - Balance the interests of individuals with a concern for the collective good

Tap Here To Join Our
Official Community

Policy Design for Democracy

- Why?
 - Distributive justice, responsive leadership
 - Not academic issues alone
 - Rather central issues for policy analysts

Tap Here To Join Our
Official Community

Policy Design for Democracy

- Why?
 - Contexts of policies have changing (i.e. climate change)
 - Focus on democracy gap needed*

Tap Here To Join Our
Official Community

Helen Ingram

How to Improve Democracy?

Tap Here To Join Our
Official Community

How to Improve Democracy?

- Policy design and democracy are linked
 - Therefore, purposes and tools for contemporary policy analysts need to change
- Policy is not a black box
 - Outputs can't be understood through inputs (demands, support, resources)

Tap Here To Join Our
Official Community

How to Improve Democracy?

- Policy is also not an extension of culture/public opinion
- Policy design has consequences:
 - Goals
 - Target populations
 - Rationales
 - Images
 - Implementation structures
 - Rules
 - Tools

Tap Here To Join Our
Official Community

How to Improve Democracy?

- Solution: Public forums (Arif Hasan's idea also)
 - Citizens discuss/confront policy problems which affect them
 - People do not face policy problems as clients/interest groups
 - But as citizens

Tap Here To Join Our
Official Community

How to Improve Democracy?

- Public forums depend on policy framing and design
- Who defines the problem has control of the design of solutions
- Problems do not occur; they are constructed
- Is domestic violence health issue, criminal justice problem, or religious issue

Tap Here To Join Our
Official Community

How to Improve Democracy?

- Issues defined in moral or economic terms encourages different stakeholders
- Public do more than delivering services
- National Testing Service
 - Definition: no trust on government exams

Tap Here To Join Our
Offical Community

How to Improve Democracy?

- Benefits different people differently
- Preparation academies have strong interest*

Tap Here To Join Our
Official Community

Helen Ingram

Challenges for Policy Analysts

Tap Here To Join Our
Official Community

Challenges for Policy Analysts

- Government/governance structures need to be evaluated beyond efficiency and effectiveness
- Analysts should
 - ‘unmask framings of problems’ and ‘social constructions of targets’
 - ‘Degenerative’ and anti-democratic constructions resisted

Tap Here To Join Our
Official Community

Challenges for Policy Analysts

- “As a philosophical orientation, social constructionism holds that the meaning of acts, behaviors, and events is not an objective quality of those phenomena but is assigned to them by human beings in social interaction

Tap Here To Join Our
Official Community

Challenges for Policy Analysts

- “Meaning, in other words, is socially defined and organized and therefore is subject to social change”
- Policy is inherently normative exercise

Tap Here To Join Our
Official Community

Challenges for Policy Analysts

- Linking public policy to citizenship
 - Important antidote to the overly technical and goal-driven orientation
 - Improve policy designs and help restore citizen confidence in government

Tap Here To Join Our
Official Community

Challenges for Policy Analysts

- Policy analysts should focus:
 - How the elements of design in policy impact
 - Framing
 - Constructions
 - Implementation
 - Information/transparency
 - Opportunities offered to citizens

Tap Here To Join Our
Official Community

Challenges for Policy Analysts

- Rather than serve mainly the narrow interests of powerful groups
 - who are socially constructed as "deserving"
 - or issuing discipline and punishment to powerless people socially constructed as "undeserving"*

Tap Here To Join Our
Official Community

On Public policy Making

Tap Here To Join Our
Offical Community

On Public Policy Making

- Heclo's comment on economics driven public policy:
 - The influence of economics "is far in advance of any other approach in policy studies"

Tap Here To Join Our
Official Community

On Public Policy Making

- “Analysis of rational program choice [considered the only] legitimate arbiter of policy analysis”
- “Policy studies are politically deodorized”
- “Politics is taken out of policy-making”
- ‘Policy’ is ambiguous term

Tap Here To Join Our
Official Community

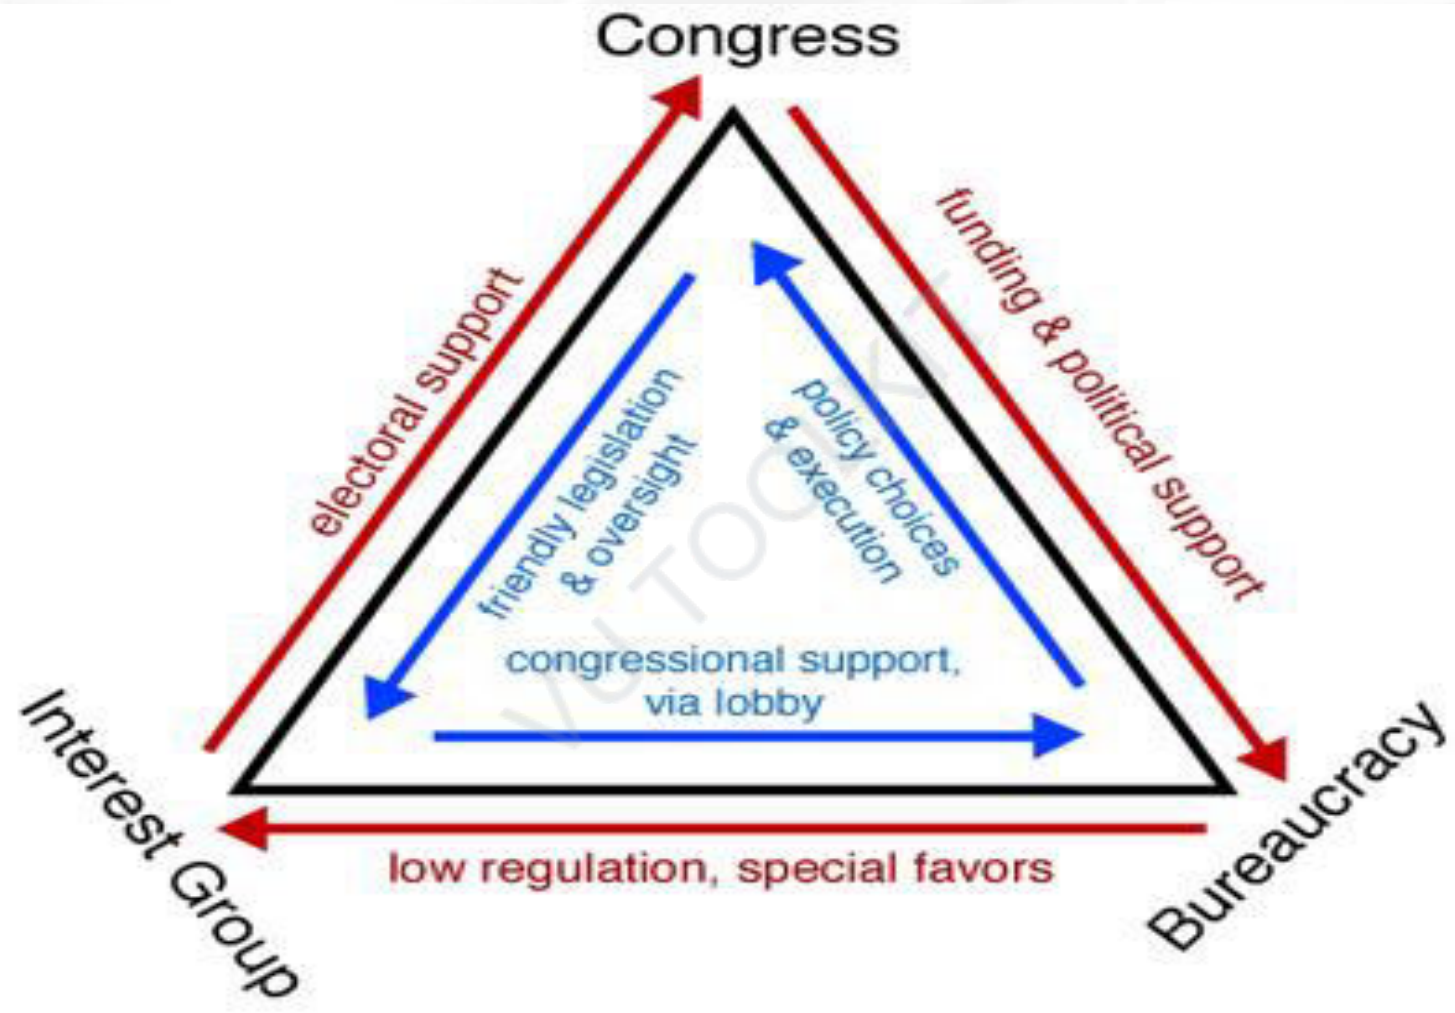

On Public Policy Making

- ‘Policy’ not self-defining:
it is analytical category
 - Its contents identified by the analyst
 - Not by policy-maker, laws or administration
- Critiqued “Iron Triangle”(by Ralph Pulitzer, 1919) – “Social networks”

Tap Here To Join Our
Official Community

On Public Policy Making

Tap Here To Join Our
Official Community

On Public Policy Making

- Heclo studied the actual process of policymaking in the US and the UK
- Was familiar with the White Hall as teenager, thanks to his mother
- Importance of personal relations among policymakers

Tap Here To Join Our
Official Community

On Public Policy Making

- Relations of mutual trust and confidence most pervasive features in explaining public policy
- 'Policy' is a course of action rather than a formal program

Tap Here To Join Our
Offical Community

On Public Policy Making

- Employs cognitive concepts in the explanation of policy process
 - Interpretation
 - Deliberation
 - Learning

Tap Here To Join Our
Official Community

On Public Policy Making

- “Governments not only ‘power’, they also puzzle. Policymaking is a form of collective puzzlement on society’s behalf. It entails both deciding and knowing.”*

Tap Here To Join Our
Official Community

Hugh Helco

Issue Networks & the Executive Establishment

Tap Here To Join Our
Official Community

Issue Networks & Executive Establishment

- Classic
- Contains Heclo's insight
- Combines four analytical perspective
 - Actor-centered/Agent-based perspective
 - Macro structures (social, political, economic) not used to explain
 - Interaction of individuals and organizations

Tap Here To Join Our
Official Community

Issue Networks & Executive Establishment

- Relational perspective
 - Positive & negative ties which bind policymakers
 - Emphasis on middlemen and brokers
- Cultural/cognitive perspective
 - Analysis not focused on material interests

Tap Here To Join Our
Official Community

Issue Networks & Executive Establishment

- But on intellectual involvement
- How actors learn, interpret
- Long-term perspective
 - Policy changes/shifts contextualized
 - Embeddedness of social and political

Tap Here To Join Our
Official Community

Issue Networks & Executive Establishment

- The social structure of bureaucracy
 - Flows and networks of informal communication, influence, and advice
 - As important to the policymaking process as the formal structure

Tap Here To Join Our
Official Community

Issue Networks & Executive Establishment

- Networks of actors across agencies and in the nonprofit and private sectors
 - Are more central to policymaking than formalized governance structures alone

Tap Here To Join Our
Official Community

Issue Networks & Executive Establishment

- Heclo advised:
 - Both appointees and bureaucrats must build constellations of professional and personal contacts,
 - “The personalized networks that honeycomb the bureaucracy,” in order to be effective policymakers*

Tap Here To Join Our
Official Community

Hugh Helco

Thinking Institutionally

Tap Here To Join Our
Official Community

Thinking Institutionally

- Responding to the anti-institutionalism
 - Though skepticism in institutions may be healthy
 - Americans think institutions are oppressive and self-serving
 - Pakistanis also think/act so

Tap Here To Join Our
Official Community

Thinking Institutionally

- Why? Scandals: from Congress to church, bank and baseball
 - Media also create cynicism

Tap Here To Join Our
Official Community

Thinking Institutionally

- Culture also produce cynicism
 - “every person should be free to seek out his or her own Golden Rule without being judged or casting judgments on others.”

Tap Here To Join Our
Offical Community

Thinking Institutionally

- “Modern thinking inherently distrusts institutions because they are barriers and weights that impede our personal journeys toward meaning.”
- Why it matters?

Tap Here To Join Our
Official Community

Thinking Institutionally

- “Thinking about institutions” to “thinking institutionally.”
 - “To think about art is not the same thing as having an artistic view of the world, just as thinking about science is not identical to thinking like a scientist.”

Tap Here To Join Our
Official Community

Thinking Institutionally

- “To think about religion is clearly not the same thing as being religious in your approach to daily life.”
- “To think about marriage is certainly not the same thing as thinking like a married person”

Tap Here To Join Our
Official Community

Thinking Institutionally

- An internal perspective shows something different
 - “When the house is on fire, a person who rushes to save the family photo album rather than the television... is expressing a form of institutional thinking.”

Tap Here To Join Our
Official Community

Thinking Institutionally

- Institutional thinking helps us to clarify our obligations, both to the past and the future.
 - The progressivists leap into the future with little consideration of what has come

Tap Here To Join Our
Official Community

Thinking Institutionally

- The preservationists reject all change as an abandonment of what has already been achieved.

Tap Here To Join Our
Official Community

Thinking Institutionally

- Heclo's third way:
 - “When thinking institutionally, current decisions are made with a continuing awareness that you are enjoying the fruits of something belonging to predecessors and successors.”

Tap Here To Join Our
Official Community

Thinking Institutionally

- “Therefore, while change is inevitable, the recognition of its implications is embedded in a strong appreciation for what has gone on before you were here and what will go on after you are gone.”*

Mixed Scanning

Tap Here To Join Our
Official Community

Mixed Scanning

- Rational-comprehensive, bounded rationality, synoptic and incremental (rebuttal of CBA)
 - Vast information; processing capacity for rational
 - Remedial thinking for incremental
- Both overlook

Tap Here To Join Our
Official Community

Mixed Scanning

- Other models: Yehezkel Dror
 - Normative-optimum model of decision-making
- Mixed scanning mixture of two
- How to make decision
 - List all alternatives
 - Examine alternatives

Tap Here To Join Our
Official Community

Mixed Scanning

- Reject “crippling objections”
 - Utilitarian objection to alternatives which require means that are not available
 - Normative objections to alternatives which violate the basic values of the decision-makers

Tap Here To Join Our
Official Community

Mixed Scanning

- Political objections to alternatives which violate the basic values or interests of other actors whose support seems essential for making the decision or/and implementing it

Tap Here To Join Our
Official Community

Mixed Scanning

- Rational approach is often unrealistic
 - It requires a high degree of control over a particular situation
 - Incrementalism is often a bit lazy
 - Suggests inertia is insufficient as a response to an issue
 - Incrementalism seeks to

Tap Here To Join Our
Official Community

Mixed Scanning

- “Adapt strategies to the limited cognitive capacities of decision-makers to reduce the scope and cost of information collection and computation”
- The mix-scanning approach uses different lens

Tap Here To Join Our
Offical Community

Mixed Scanning

- For small issues and the bigger problems.*

Basic vs Policy Research

Basic vs Policy Research

Tap Here To Join Our
Official Community

Basic vs Policy Research

- BR: Understanding the world
- PR: Changing the world
 - Uses large set of information with no basis in analytics or theory
 - Medical science is proto policy science
 - More than half of the information physicians apply have no bases in biology, chemistry, etc
 - Knowledge based on experience

Tap Here To Join Our
Official Community

Basic vs Policy Research

- Criminologists and police
- PR is private and confidential
- Wider in scope like medical science which is based on many sciences
- It needs to be communicated to the policymakers
- Plain English; no jargon

Tap Here To Join Our
Official Community

Amitai Etzioni

Controversies

Tap Here To Join Our
Official Community

Controversies

- Communitarian movement engages the agenda of moral right
 - But eschews its reactionary stance and authoritarian prescriptions

Tap Here To Join Our
Offical Community

Controversies

- Addresses libertarian concerns for the freedom and rights of individuals
 - But not their single-minded insistence of the individual above all else
 - Seeks to further traditional liberal goals for a more equal and humane society

Tap Here To Join Our
Official Community

Controversies

- But not the liberals' tendency to excuse people of responsibility for the consequences of their actions
- Linking rights to responsibilities
- Strike a balance between individual and community

Tap Here To Join Our
Official Community

Controversies

- Some support his argument for family
 - But do not support aid for husband and wife
 - Some do not like two-parent family argument
- Some do not like the idea virtue-sustaining communities

Tap Here To Join Our
Official Community

Controversies

- Not merely a civil but also a good society, one that nurtures virtues
 - Revive holidays
 - Greater reliance on public shaming.
- Virtue comes from the community, not from the state.*

James Q. Wilson

The Moral Sense

Tap Here To Join Our
Official Community

The Moral Sense

- “Defend morality” against “modern skepticism”
- Objection: Morals have no rational bases; morals are arbitrary.
 - People say morality has no basis in science or logic.
- Fear of virtue

Tap Here To Join Our
Official Community

The Moral Sense

- Response:
 - Evolutionary psychology and moral sentiment theories of Scottish philosophers
 - Francis Hutcheson
 - David Hume
 - Adam Smith

Tap Here To Join Our
Official Community

The Moral Sense

- Mankind has moral nature
 - Sympathy
 - Fairness
 - Self-control
 - Duty
- Moral sense
- Closer to communitarianism

Tap Here To Join Our
Offical Community

The Moral Sense

- Critiqued enlightenment's belief:
 - “Individuals are everything”
 - “Rights are trumps,”
 - People should be bound together by nothing but “choices, contracts, and entitlements”*

Official Community

Biography

Method of Diagnosis

- How Deleon Learned?
 - History of policy sciences
 - Democratic theories
 - Politics of ideas
 - Results of the policy implementation

Tap Here To Join Our
Offical Community

Biography

Is Deleon Relevant to Pakistan?

- Relevant to Pakistan
 - PP is a new discipline
 - Democracy returned
 - Unelected, economics, technocracy governs policy making
- The policy sciences far removed from the democratic process

Tap Here To Join Our
Official Community

Biography

Argument

- Policy sciences must accept a new analytic paradigm to move toward democracy
- Critical thinking
- Post-positivism
- "Minipopulist" procedure for more citizen participation

Tap Here To Join Our
Official Community

Biography

Argument

- Wrongs of 'traditional' policy analysis'
- Policy analysis process should incorporate more public participation
 - Madisonian (representative) and Tocquevillean (participatory) visions of democracy

Tap Here To Join Our
Official Community

Biography

Argument

- “It is...incumbent upon policy scientists to turn their analytical light on their own discipline...and ask how theories will operate in the cauldron of the political kitchen” (1988)

Tap Here To Join Our
Official Community

Biography

Argument

- Policy sciences need to reflect greater verisimilitude (fiction/life likeness) and empathy*

Participatory Policy Analysis

Tap Here To Join Our
Official Community

Participatory Policy Analysis

- Frankfurt School
 - Jurgen Habermas
 - Communicative rationality
 - citizens deserve greater say in policy
 - Citizens can best articulate their needs
 - Tacit knowledge

Tap Here To Join Our
Official Community

Participatory Policy Analysis

- Government can become more responsive and effective basing its actions on citizens voice
- Result: informed, responsive, involved, engaged citizenry

Tap Here To Join Our
Official Community

Participatory Policy Analysis

Prerequisites

- John Dewey, The Public and its Problems (1929)
 - Expert led government means oligarchy by the few

Tap Here To Join Our
Official Community

Participatory Policy Analysis

Prerequisites

- “The essential need...is the improvement of the methods and conditions of debate, discussion, and persuasion. That is the problem of public”

Tap Here To Join Our
Official Community

Participatory Policy Analysis

Methods

- Citizens Assemblies
- Mini
- Expand range of actors, stakeholders...in a discursive and deliberative mode
- Greater inclusion of affecters and affectees
- Public fora- prescribed rules of evidence and argumentation

Tap Here To Join Our
Official Community

Participatory Policy Analysis

Methods

- Horizontal-not hierarchical policymaking
- Values incorporated into policy analysis

Tap Here To Join Our
Official Community

Participatory Policy Analysis

Collaborative Policy Networks

- Values beyond efficiency, effectiveness, rationality
 - Imagine: cancer is being treated by a herb, by a hakim no one trusts, would you take that treatment or not

Tap Here To Join Our
Official Community

Participatory Policy Analysis

Examples

Tap Here To Join Our
Official Community

Participatory Policy Analysis

Example

- Consensus Conference in Denmark
 - Select Advisory Committee (AC = 8–10 impartial members)
 - Recruit citizens' panel (typically 10 – 20 people)

Tap Here To Join Our
Official Community

Participatory Policy Analysis

Example

- Set up a pool of experts (including scientists, ethicists; 12-15 members: Chosen by Citizens!!)
- Citizens' panel preparation: governmental analysts + independent actors!!

Tap Here To Join Our
Official Community

Participatory Policy Analysis

Example

- Selection of questions to be asked of experts: Chosen by Citizens!!
- Consensus conference unfolding 3 – 4 days

Tap Here To Join Our
Official Community

Participatory Policy Analysis

Example

- Final report and recommendations circulated to the media, public, policy analysts, or even politicians”

Tap Here To Join Our
Official Community

Participatory Policy Analysis

Outcomes

- Policy sharing between analysts and public
- Citizens responsible to voice their preferences
- Analysts responsible to include them in policy
- Policy sharing is essential to sustain democracy and avoid tyranny –policy sciences of tyranny*

Tap Here To Join Our
Official Community

Peter Deleon

Advice for Students

Tap Here To Join Our
Official Community

Advice for Students

- Appreciate the complexity of the issues
 - e.g., “What is the confusion about immigration? They settle and do the best they can”
- Recognize that there are many sides to many issues
 - Appreciate what those sides look like

Tap Here To Join Our
Official Community

Advice for Students

- How they affect one another
- Accommodate different views and different postures
- Enjoy working with students
 - Students introduce me to new concepts
 - Learn more from my students

Tap Here To Join Our
Official Community

Advice for Students

- Teach how to structure and analyze
- Students teach all sorts of new things.*

Profile

Tap Here To Join Our
Official Community

Profile

- Centenary Professor
 - Centre for Deliberative Democracy and Global Governance
 - University of Canberra's Institute for Governance and Policy Analysis
- Critique: instrumental rationality, democracy theory

Tap Here To Join Our
Official Community

Profile

- Instrumental rationality destroys the more congenial, spontaneous, egalitarian, and intrinsically meaningful aspects of human association

Tap Here To Join Our
Official Community

Profile

- Instrumental rationality and the political institutions in which it is manifested—is ineffective when confronted with complex social problems

Tap Here To Join Our
Official Community

Profile

- Instrumental rationality makes effective and appropriate policy analysis difficult

Tap Here To Join Our
Official Community

Profile

Expertise

- Political theory, empirical social science, Democratic theory and practice, environmental politics, Deliberative turn in democratic theory, Green political philosophy, Global climate governance, global justice, global civil society,

Tap Here To Join Our
Official Community

Profile

- Comparative studies of democratization, post-positivist public policy analysis,
- Early proponent of global democracy
 - Democratization of international power
 - Reflexivity and democratization

Tap Here To Join Our
Official Community

Profile

- How highly complex issue areas - notably climate governance - can be democratized through deliberation and public reason
- Criticism of the dominance of instrumental rationality/objectivism

Tap Here To Join Our
Official Community

Profile

- Technocracies are repressive, ill equipped for dealing with complex problems
- Draws on critical theory
- Advocates communicatively rational democracy/discursive democracy
- Active citizenship and public discourse*

Tap Here To Join Our
Official Community

John S. Dryzek

Policy Sciences of Tyranny

Tap Here To Join Our
Official Community

Policy Sciences of Tyranny

- Forty years after Harold Lasswell
 - “Most policy analysis efforts to date are in fact consistent with an albeit subtle policy sciences of tyranny”
 - Why Lasswellian dream failed in America?
 - How it could be redeveloped?

Tap Here To Join Our
Official Community

Policy Sciences of Tyranny

- Most policy analysis was undertaken by technicians, systems analysts and operations researcher
- If science has to serve democracy, the decision making about science should also be democratic

Tap Here To Join Our
Official Community

Policy Sciences of Tyranny

- What research is needed to be done?
 - Ask this question to the poor people in Pakistan?
 - Perhaps they will ask science to help them
 - Develop easy ways to grow more food
 - Save their children from disease

Tap Here To Join Our
Official Community

Policy Sciences of Tyranny

- The methods of science will also be democratic
- Science for ordinary people
- The conduct of science can't be left to the ambitions of scientists and bureaucrats*

Tap Here To Join Our
Official Community

John S. Dryzek

Deliberative Policy Analysis

Tap Here To Join Our
Official Community

Deliberative Policy Analysis

- Founding father of the concept of deliberative democracy
 - Representation of discourses as well as persons or groups
- Deliberative turn in democratic theory
 - Democratic legitimacy
 - Authentic deliberations by the affected

Tap Here To Join Our
Official Community

Deliberative Policy Analysis

- The deliberative turn began as a challenge to established institutions and models of democracy
- Defensible theory of democracy should be
 - Critical of established power
 - Pluralistic

Tap Here To Join Our
Official Community

Deliberative Policy Analysis

- Reflexive in its questioning orientation to established traditions
- Transnational in its capacity to extend across state boundaries
- Ecological

Tap Here To Join Our
Official Community

Deliberative Policy Analysis

- Dynamic in its openness to ever-changing constraints upon and opportunities for democratization

Tap Here To Join Our
Official Community

Deliberative Policy Analysis

- Explains and advocates
 - Discursive representation
 - Justifications, advantages, and problems
 - How it can be practiced*

Tap Here To Join Our
Official Community

John S. Dryzek

Critical Policy Analysis

Tap Here To Join Our
Official Community

Critical Policy Analysis

- “No individuals may possess authority on the basis of anything other than a good argument”
- The purpose is to enlighten affectees of policy not the elite/policymakers
 - To empower them to resist, transform

Tap Here To Join Our
Official Community

Critical Policy Analysis

- Tasks

Explication of dominant meanings in policy content and process

Uncovering suppressed and marginalized meanings

Identify agents of impairment, that suppress alternative meanings

Tap Here To Join Our
Official Community

Critical Policy Analysis

- Tasks
- Ideologies
- Lack of education
- Baffling rather than enlightening processes

Tap Here To Join Our
Official Community

Critical Policy Analysis

- Tasks
 - Identify ways to equalize communicative capacities of policy actors
 - Criticism of technocratic policy analysis

Tap Here To Join Our
Official Community

Critical Policy Analysis

- Tasks
 - Identify ways to equalize communicative capacities of policy actors
 - Criticism of technocratic policy analysis
 - Policy is only experts' undertaking
 - It is disempowering

Tap Here To Join Our
Official Community

Critical Policy Analysis

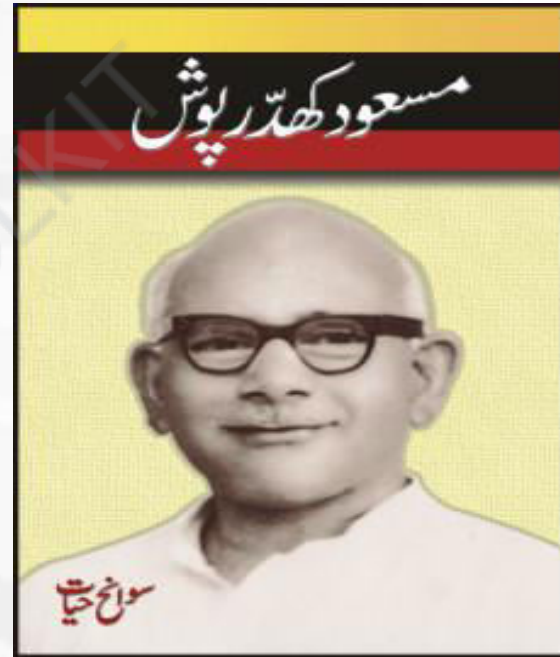

- Interpretive, narrative, discourse analysis
 - Instead of logical analysis
 - Purpose is to empower the disempowered.*

Training for Policymakers

Why Train Policymakers?

Tap Here To Join Our
Official Community

Why Train Policymakers?

- Dissatisfaction with leaders/rulers
 - Administrative, business, social
 - But particularly, Political
- Leaders play crucial role in decisions
 - Making and Implementation

Tap Here To Join Our
Official Community

Why Train Policymakers?

- Routine decisions do not make much difference
 - But critical decisions/long-term strategies do make difference
 - Example: anti-terrorism; climate change; industrialization

Tap Here To Join Our
Official Community

Why Train Policymakers?

- Example: Japanese automobile policy
- Russian decision to shift to market economy
- Yehezkel Dror: Grand Policy Thinking
 - Significance/quality of ruler is recognized
 - Improvement considered taboo

Tap Here To Join Our
Official Community

Why Train Policymakers?

- In history, rulers were trained
- Alexander by Aristotle
- Best of the rulers often fail
- Few good rulers also make mistakes
- Improvement of rulers is imperative

Tap Here To Join Our
Official Community

Why Train Policymakers?

- Local governments in Pakistan
 - Decisions needed to give vision to regions
- Grand policy crafting qualities improvement high priority
 - Value-based, goal directed, goal seeking
 - Training in value clarification and goal setting important*

Making Policy Work

Making Policy Work

Tap Here To Join Our
Official Community

Making Policy Work?

- Decision is just a decision
 - Not outcomes
- Implementation is just implementation
 - Not the results
- States are just states, until they have
 - Capacity
 - Strength
 - Direction

Tap Here To Join Our

Making Policy Work?

- Ashwini Tambe & Harald Fischer Tine,
The Limits of British Colonial Controls in South Asia: Spaces of Disorder in the Indian Ocean Region
(Routledge, 2008)

Tap Here To Join Our
Official Community

Making Policy Work?

- Policy is just a policy, until
 - It works
- It means:
 - Making and implementing policies not enough
 - Learn how policies can be made to work*

Tap Here To Join Our
Official Community

Making Policy Work

Policy Tool: Law and Regulation

Tap Here To Join Our
Official Community

Policy Tool: Law and Regulation

- Law/regulation hard to rely because laws often fail
 - High costs
 - Never fully implemented
 - Most laws require some effort to get enforced
 - Temptation to avoid full implementation

Tap Here To Join Our
Official Community

Policy Tool: Law and Regulation

- Agencies often choose laws they wish to enforce
- As the number of laws and regulations expands, so this problem grows
- Task of achieving effective regulation is a meta-problem

Tap Here To Join Our
Official Community

Policy Tool: Law and Regulation

- Prioritizing which laws to implement is a political issue
- Implementation of law requires cooperation of society

Tap Here To Join Our
Official Community

Policy Tool: Law and Regulation

- Fines, sanctions, sentences do not change behaviors
 - Severe punishments hardly help fight crime
 - Restorative justice has better chances*

Tap Here To Join Our
Official Community

Making Policy Work

Policy Tool: Public Spending & Taxation

Tap Here To Join Our
Official Community

Policy Tool: Public Spending & Taxation

- High spending may not produce good outcome
 - Wastage
- Difficult to get money for the right thing, at the right time
- Spending outcomes depend on governance arrangements

Tap Here To Join Our
Official Community

Policy Tool: Public Spending & Taxation

- Examples:
 - More inputs do not produce better educational outcomes: Kenya
 - Examinations may be lax
 - Measurement systems may have problems*

Tap Here To Join Our
Official Community

Making Policy Work

Policy Tool: Bureaucracy

Tap Here To Join Our
Official Community

Policy Tool: Bureaucracy

- Bureaucracy may not produce outcomes
- Failures:
 - Bureaucrats do not accept change
 - Do not see the problems of policy implementation through outsiders eyes
 - Vested interests, power, prestige, money*

Tap Here To Join Our
Official Community

Making Policy Work

Policy Tool: Institutions

Tap Here To Join Our
Official Community

Policy Tool: Institutions

- Institutions may be effective means
 - Speedy decisions
 - Timely responses
 - No delays/prevarication
 - Little interference/excessive cross-checking
 - Aggregate public knowledge

Tap Here To Join Our
Official Community

Policy Tool: Institutions

- Centralized institutions worse for decision-making
- Arend Lijphart: Consociational democracy*

Tap Here To Join Our
Official Community

Making Policy Work

How to Make Policy Work

Tap Here To Join Our
Official Community

How to Make Policy Work

- Overreliance on a tool may be counterproductive
 - On law: problems of legitimacy
 - On Finance: crowd out other forms of motivation
 - Ethical/voluntary/altruistic
- Institutions are better devices, but they take long time*

From Theory to Theorizing

Troubles of Theory

Tap Here To Join Our
Official Community

Troubles of Theory

- Theory is a lens
 - Machine can be fixed by knowledge of how it works
- Theory is abstract
 - Theory is considered difficult
 - Some find it useless
 - Theory considered opposite of practical
- Student learn theory but do not to know to use it

Tap Here To Join Our
Offical Community

Troubles of Theory

- Public policy theory is not well-developed
- Methods have advanced quickly, not theory
 - Theoretically interesting journal articles uncommon
 - Can theory be brought at par with method?

Tap Here To Join Our
Official Community

Troubles of Theory

- Gap b/w the method and theory can be reduced by focusing on theorizing*

Tap Here To Join Our
Offical Community

From Theory to Theorizing

Theorizing

Tap Here To Join Our
Official Community

Theorizing

- To theorize mean: what to do to produce a theory
 - Theorizing is a process; theory is a product
 - By focusing on theory, we ignore how it is produced
- Student generally know theories of others

Tap Here To Join Our
Offical Community

Theorizing

- To theorize means students theorize their own empirical work
- Theorizing can be used in the context of discovery
- Basic rules for how to theorize
 - Successful theorizing in close unison with observation

Tap Here To Join Our
Offical Community

Theorizing

- Theorizing is a skill; iterative
 - Intuitive ways of thinking
- C W Mills: A sociologist should be his own theorist and methodologist
 - “Above all seek to develop and to use the sociological imagination”

Tap Here To Join Our
Official Community

Theorizing

- “Let every man be his own methodologist; let every man be his own theorist”
- “Let theory and method again become part of the practice of a craft”
- “ Stand for the primacy of individual scholar”*

Tap Here To Join Our
Official Community

From Theory to Theorizing

Ways of Theorizing

Tap Here To Join Our
Official Community

Ways of Theorizing

- Induction
- Deduction
- Generalizing
- Model-building
- Using analogies
- Charles Pierce:
abduction*

Tap Here To Join Our
Official Community

From Theory to Theorizing

Basic Rules of Theorizing

Tap Here To Join Our
Official Community

Basic Rules of Theorizing

- Observing
 - Comte's concept
Mental Hygiene
- Developing a tentative theory, explanation
 - Naming,
conceptualizing,
using analogies,
metaphors*
