CODE:ENG508 OBJECTIVE PART LESSON:21

1.Who argued for an intention-based theory of meaning and distinguished between semantic and pragmatic meaning?

a) H. Paul Grice

b) Tannen

c) Cutting

d) Tannen and Cutting

2.What is the term used to describe the set of rules proposed by Grice for ordinary conversation?

a) Cooperative Principle (CP)

b) Supreme Principle

c) Flouting the Maxims

d) Violating the Maxims

3.According to Grice, what does the Maxim of Quantity state?

a) Speakers should be as informative as required.

b) Speakers should be brief and orderly.

c) Speakers should be relevant to the previous conversation.

d) Speakers should provide genuine and justified information.

4.Which maxim suggests that speakers should provide genuine and justified information in a conversation?

a) Maxim of Quantity

b) Maxim of Quality

c) Maxim of Relation

d) Maxim of Manner

5.How does Grice define "flouting" the maxims?

a) Speakers intentionally violate the maxims.

b) Speakers exceed the requirements of the maxims.

c) Speakers do not follow the maxims but imply a different meaning.

d) Speakers violate the maxims unknowingly.

6.Which maxim is violated when a speaker gives too little or too much information?

a) Maxim of Quantity

b) Maxim of Quality

Vuhelpers24 Sir Zahid

c) Maxim of Relation

d) Maxim of Manner

7.What is the term used when the surface meaning of an utterance is intentionally violated?

a) Flouting

b) Violation

c) Deception

d) Inference

8.In the example of the wife not revealing the price of a dress, which maxim is violated?

a) Maxim of Quantity

b) Maxim of Quality

c) Maxim of Relation

d) Maxim of Manner

Vuhelpers24
Sir Zahid

9.What is one objection to Grice's cooperative principle?

a) The assumption of too friendly a spirit in communication

b) The lack of clear overlap between the four maxims

c) Different cultural ways of observing and expressing maxims

d) All of the above

10.In which country would it be considered a violation of the maxim of quality to not call after saying "we'll call you in about two weeks"?

a) Britain

b) Tannen's country

c) Cutting's country

d) It is considered a violation in all countries

11.Who is often critical of Grice's maxims, claiming they don't apply to real conversations?

a) H. Paul Grice

b) Tannen

c) Cutting

d) Both Tannen and Cutting

12.According to Grice, what allows hearers to infer the speaker's intentions and applied meaning?

a) Flouting the maxims

b) Violating the maxims

c) Observing the maxims

d) Cooperative discourse

13.Which maxim suggests that speakers should be relevant to what has been said before?

a) Maxim of Quantity

b) Maxim of Quality

c) Maxim of Relation

d) Maxim of Manner

Vuhelpers24 Sir Zahid

14.What is the term used to describe when a speaker deliberately gives wrong information?

a) Flouting

b) Violation

c) Deception

d) Inference

15.What is the term used when a speaker intentionally violates a maxim to exclude a third party?

a) Flouting

b) Violation

c) Deception

d) Inference

16.What did Grice call the set of rules he generalized from four conversational maxims?

a) Cooperative Principle (CP)

b) Supreme Principle

c) Flouting the Maxims

d) Violating the Maxims

17.Which maxim suggests that speakers should be brief and orderly?

a) Maxim of Quantity

b) Maxim of Quality

c) Maxim of Relation

d) Maxim of Manner

Vuhelpers24
Sir Zahid

18.According to Grice, what does the Maxim of Quality state?

a) Speakers should be as informative as required.

b) Speakers should be brief and orderly.

c) Speakers should be relevant to the previous conversation.

d) Speakers should provide genuine and justified information.

19.What is the term used when the hearer can infer the implicit meaning of an utterance that flouts the maxims?

a) Flouting

b) Violation

c) Inference

d) Deception

20.What is one limitation of Grice's cooperative principle?

a) It assumes too friendly a spirit in communication.

b) There is often an overlap between the four maxims.

c) Different cultures have their own ways of observing and expressing maxims.

d) All of the above

21.In the example of the wife distracting the husband with a change of topic, which maxim is violated?

a) Maxim of Quantity

b) Maxim of Quality

c) Maxim of Relation

Vuhelpers24 Sir Zahid

d) Maxim of Manner

22.Which maxim suggests that speakers should avoid obscurity and ambiguity?

a) Maxim of Quantity

b) Maxim of Quality

c) Maxim of Relation

d) Maxim of Manner

23.What is the term used when speakers intentionally violate the maxims to mislead the hearer?

a) Flouting

b) Violation

c) Deception

d) Inference

24.According to Grice, what is the purpose of the Cooperative Principle?

a) To ensure ideal communication

b) To describe how most discourse participants make themselves understood

c) To prescribe strict rules for conversation

d) To encourage ambiguity in communication

25.What did Grice call the knowledge of the maxims that allows hearers to draw inferences about the speaker's intentions?

Vuhelpers24
Sir Zahid

a) Flouting the maxims

b) Violating the maxims

c) Cooperative discourse

d) Applied meaning

CODE:ENG508 SUBJECTIVE PART LESSON:21

1.What did H. Paul Grice argue for in his theory of meaning?

H. Paul Grice argued for an intention-based theory of meaning.

2.How did Grice illustrate the distinction between semantic and pragmatic meaning?

Grice illustrated the distinction between semantic and pragmatic meaning by highlighting the difference between what a speaker's utterance means in the abstract and what else a speaker can mean by uttering it in a particular context.

3.What is the Cooperative Principle (CP) proposed by Grice?

The Cooperative Principle (CP) is a set of rules that contributors to ordinary conversation should follow. It involves making conversational contributions that are required by the accepted purpose or direction of the talk exchange in which one is engaged.

4.What was Grice's intention behind using the term "cooperation" in communication?

Grice did not intend to convey an ideal view of communication with the term "cooperation." Instead, he used it to describe how most discourse participants are capable of making themselves understood despite the haphazard or agonistic nature of human communication.

5.What are the four conversational maxims identified by Grice?

The four conversational maxims identified by Grice are:

a) Maxim of quantity

b) Maxim of quality

c) Maxim of relation

d) Maxim of manner

6.Explain the Maxim of quantity.

The Maxim of quantity states that a speaker should provide as much information as is required, neither too little nor too much.

7.What does the Maxim of quality emphasize?

The Maxim of quality emphasizes that the information provided in a conversation should be genuine and justified.

8.How does the Maxim of relation influence conversation?

The Maxim of relation assumes that speakers are saying something relevant to what has been said before in the conversation.

9.Describe the Maxim of manner.

The Maxim of manner suggests that speakers should be brief and orderly in their communication, avoiding obscurity and ambiguity.

10.What does it mean when speakers "flout" the maxims?

When speakers "flout" the maxims, they appear to not follow them but expect the hearer to understand the implied meaning.

11.Provide an example of flouting the maxim of quantity.

In Britain, it is common to say, "Do you find it's getting a bit chilly in here?" to imply "I want to put the fire on." This example demonstrates flouting the maxim of quantity.

12.How can the maxim of quality be flouted?

The maxim of quality can be flouted through exaggeration (hyperbole), the use of metaphor, irony, and banter.

13.What happens when the maxim of relation is flouted?

When the maxim of relation is flouted, the hearer is expected to imagine what the utterances did not say and make connections between the speaker's statements.

14.Explain how flouting the maxim of manner occurs.

Flouting the maxim of manner involves the speaker being deliberately obscure, often trying to exclude a third party from understanding the intended meaning.

15.When does the violation of maxims occur?

The violation of maxims occurs when a speaker intentionally provides information that deviates from the truth or the surface meaning, knowing that the hearer will only understand the surface meaning.

16.Give an example of violating the maxim of quantity.

In a conversation, if the husband asks, "How much did that new dress cost?" and the wife responds with, "Less than the last one," without providing the actual cost, she is violating the maxim of quantity.

17.How can the maxim of quality be violated?

The maxim of quality can be violated when the speaker intentionally provides false or insincere information.

18.Explain the violation of the maxim of relation.

Violating the maxim of relation occurs when the speaker tries to distract or change the topic instead of providing a relevant response to the previous statement or question.

19.Describe how the maxim of manner can be violated.

The maxim of manner can be violated when the speaker responds to a question or statement in a way that includes irrelevant or excessive information, avoiding directly answering the intended question.

20.What criticism does Tannen have regarding Grice's maxims of cooperative discourse?

Tannen claims that Grice's maxims of cooperative discourse cannot apply to "real conversations" because people consider the needs for involvement and independence during communication.

21.How does Tannen view the application of Grice's maxims in conversation?

According to Tannen, people wouldn't simply blurt out what they mean in conversation because they consider the balance between involvement and independence.

22.What is a major objection to Grice's Cooperative Principle?

A major objection to Grice's Cooperative Principle is that there can be overlap between the four maxims, making it difficult to determine which maxim is operating or if multiple maxims are operating simultaneously.

23.How do different cultures, countries, and communities impact the observation and expression of maxims?

Different cultures, countries, and communities have their own ways of observing and expressing maxims in particular situations, which can differ from Grice's model.

24.Provide an example of cultural differences in observing the maxims.

In Britain, it is considered a violation of the maxim of quality to say "we'll call you in about two weeks" and then not make the call. However, in some countries, this behavior is acceptable as a way of expressing disinterest.

CODE:ENG508 OBJECTIVE PART LESSON:22

1.According to Relevance theory, the understanding of conversational implicature is achieved by selecting the relevant features of:

a) Grammar

b) Context

c) Syntax

d) Semantics

2.Relevance theory is considered a pragmatic theory because it focuses on the relationship between:

a) Meaning and context

b) Grammar and syntax

c) Semantics and pragmatics

d) Syntax and pragmatics

3.The core principle of Relevance theory is the communicative principle of:

a) Syntax

b) Pragmatics

c) Semantics

d) Relevance

4.The degree of relevance in Relevance theory is governed by:

a) Cognitive effects

b) Syntactic effects

c) Contextual effects

d) Pragmatic effects

5.Wilson and Sperber classified Relevance theory into two main principles, namely:

a) Cooperative Principle and Maxim of Quantity

Vuhelpers24
Sir Zahid

b) Cognitive Principle and Communicative Principle of Relevance

c) Principle of Informativeness and Principle of Quality

d) Principle of Relation and Principle of Manner

6.According to Relevance theory, the search for relevance is a basic feature of:

a) Human cognition

b) Syntax

c) Semantics

d) Pragmatics

7.Explicatures in Relevance theory refer to the:

a) Implicit premises

b) Logical form of an utterance

c) Hidden concepts

d) Explicit content of an utterance

8.Implicatures in Relevance theory are built from:

a) The logical form of an utterance

b) What the speaker says in uttering the sentence

c) Implicit premises and conclusions

d) Contextual effects and processing effort

9.The conceptual-procedural distinction in Relevance theory accounts for differences between:

Vuhelpers24 Sir Zahid

a) Regular content words and discourse connectives

b) Implicit and explicit meaning

c) Syntax and semantics

d) Pragmatics and pragmatics

10.According to Relevance theory, words like 'but', 'however', and 'so' encode:

a) Conceptual meaning

b) Implicit meaning

c) Procedural meaning

d) Semantic meaning

11.Contextual effects in Relevance theory include:

a) Adding new information

b) Strengthening or contradicting assumptions

c) Weakening old information

d) All of the above

12.According to Relevance theory, the degree of relevance is related to:

a) Semantic effects

b) Syntactic effects

c) Contextual effects

d) Pragmatic effects

Vuhelpers24 Sir Zahid

13.Relevance theory assumes that the hearer will interpret an utterance by finding an accessible context that produces:

a) Maximum new information with maximum processing effort

b) Minimum new information with maximum processing effort

c) Maximum new information with minimum processing effort

d) Minimum new information with minimum processing effort

14.One of the limitations of Relevance theory is that it does not include:

a) Grammar and syntax

b) Cultural and social dimensions

c) Context and semantics

d) Pragmatics and implicatures

15.Relevance theory focuses on the relationship between:

a) Language and mind

b) Grammar and pragmatics

c) Syntax and semantics

d) Pragmatics and implicatures

16.Relevance theory proposes that hearers understand conversational implicature by:

a) Ignoring context

b) Focusing on grammar

c) Selecting relevant features of context

d) Disregarding speakers' intentions

Vuhelpers24
Sir Zahid

17.The purpose of communication, according to Relevance theory, is to:

a) Duplicate thoughts

b) Minimize cognitive environments

c) Enlarge mutual cognitive environments

d) Avoid contextual effects

18.The cognitive principle of Relevance theory suggests that any external stimulus or internal representation may be relevant to an individual at:

a) Any time

b) All times

c) No time

d) Some time

19.Relevance theory suggests that the tendency to maximize relevance enables individuals to:

a) Ignore the mental states of others

b) Predict and manipulate the mental states of others

c) Minimize the relevance of stimuli

d) Disregard the cognitive principle

20.The communicative principle of Relevance theory focuses on the expression and recognition of:

a) Intentions

Vuhelpers24 Sir Zahid

b) Truth conditions

c) Grammatical rules

d) Syntactic structures

21.According to Relevance theory, explicature refers to the:

a) Implicit premises and conclusions

b) Hidden concepts in an utterance

c) Directly conveyed content of an utterance

d) Logical form of a sentence

22.Procedural meaning in Relevance theory is encoded by words that:

a) Guide the hearer towards intended contextual effects

b) Convey hidden meanings in utterances

c) Reflect the syntactic structures of a sentence

d) Compose conceptual meaning

23.Relevance theory suggests that conceptual meaning is:

a) Available to consciousness

b) Not compositional

c) Compositional

d) Procedurally encoded

24.In Relevance theory, the processing effort required to recover a fact is inversely related to its:

a) Accessibility

b) Contextual effects

c) Conceptual meaning

d) Relevance

25.One of the objections to Relevance theory is that it does not account for:

a) Interaction

b) Syntax and semantics

c) Pragmatic principles

d) Implicit premises and conclusions

CODE:ENG508 SUBJECTIVE PART LESSON:22

Vuhelpers24
Sir Zahid

1.What is the main focus of Relevance Theory?

The main focus of Relevance Theory is the relationship between meaning and context in language communication.

2.Who proposed Relevance Theory?

Relevance Theory was proposed by Wilson and Sperber in the 1980s.

3.Is Relevance Theory considered a pragmatic or cognitive theory?

Relevance Theory is considered both a pragmatic theory, focusing on language use in communication, and a cognitive theory, concerned with the relationship between language and mind.

4.What is the communicative principle of relevance?

The communicative principle of relevance is the core of Relevance Theory. It states that the purpose of communication is to enlarge mutual cognitive environments and that the degree of relevance is influenced by contextual effects and processing effort.

5.How do hearers and readers make sense of a text according to Relevance Theory?

Hearers and readers make sense of a text by interpreting the connections between utterances as meaningful, making inferences based on their own background knowledge of the world.

6.What are the two main principles of Relevance Theory?

The two main principles of Relevance Theory are the Cognitive Principle and the Communicative Principle of Relevance.

7.What does the Cognitive Principle of Relevance state?

The Cognitive Principle of Relevance states that any stimulus or representation that provides input to cognitive processes can be relevant to an individual at some time.

8.What does the Communicative Principle of Relevance focus on?

The Communicative Principle of Relevance focuses on the expression and recognition of intentions in human communication, both verbal and non-verbal.

9.How do explicatures and implicatures differ?

Explicatures are the directly conveyed content of an utterance, while implicatures are implied meanings that go beyond what is explicitly stated.

10.What is the conceptual-procedural distinction in Relevance Theory?

The conceptual-procedural distinction in Relevance Theory differentiates between regular content words that have conceptual meanings and discourse connectives that encode procedural meaning.

11.How does Relevance Theory define accessibility?

Accessibility in Relevance Theory refers to the degree to which facts are readily available and can be processed with minimal effort.

12.What is the relationship between relevance and contextual effects?

The degree of relevance is related to contextual effects, such as adding new information, strengthening or contradicting assumptions, or weakening old information.

13.What does Relevance Theory say about processing effort?

Relevance Theory suggests that the less effort it takes to recover a fact, the greater its relevance. Speakers assume the hearer's accessibility to relevant facts to make correct inferences with minimal effort.

14.What are the limitations of Relevance Theory?

Relevance Theory does not address cultural or social dimensions, and it lacks an account of interaction. It also does not incorporate factors like age, gender, status, and nationality in its analysis.

15.How does Relevance Theory relate to Grice's Cooperative Principle?

Relevance Theory, like Grice's Cooperative Principle, focuses on communication and the recognition of intentions but provides an alternative approach by emphasizing the search for relevance as a basic feature of human cognition.

VuInfo24 Sir Zahid

CODE:ENG508 OBJECTIVE PART LESSON:23

1.According to Grice, implicature refers to:

a) What a speaker literally says

b) What a speaker implies or suggests

c) What a speaker explicitly states

d) What a speaker means in isolation

2.Who coined the term "Implicature"?

a) Paul Grice

b) Sarah Grundy

c) Amna

d) John

3.What does implicature cover?

a) Verbs that refer to literal meaning

b) Meaning conveyed indirectly or through hints

c) Explicitly stated meanings

d) Linguistic meaning of utterances

4.What field did Paul Grice contribute to?

a) Syntax

b) Pragmatics

c) Phonetics

d) Semantics

5.What was the driving force behind Grice's work on implicature?

a) Analyzing speaker meaning

b) Explaining the difference between literal and intended meaning

c) Developing systematic explanations of linguistic terms

d) Describing the explicit utterance content

6.Conversational implicature is part of the content of an utterance and is:

Vuhelpers24 Sir Zahid

a) Encoded by the linguistic meaning

b) Exclusively based on explicit utterance content

c) Directly stated by the speaker

d) Implied by the speaker

7.In the given example, what does Amna imply by saying "I'm on a diet"?

a) She wants some chocolate cake

b) She will eat the chocolate cake

c) She will not eat the chocolate cake

d) She is not on a diet

8.Generalized conversational implicature does not require:

a) Background knowledge of the context

b) Making necessary inferences

c) Reference to a special context

d) Familiarity with implicational scales

9.Which expression implies that the house is not John's house?

a) John walked into a house yesterday

b) John saw a tortoise in the house

c) John's house is nearby

d) John owns the house

10.Scalar implicature is based on the use of an informationally:

Vuhelpers24 Sir Zahid

a) Strong term in an implicational scale

b) Vague term in an implicational scale

c) Weak term in an implicational scale

d) Explicit term in an implicational scale

11.What does the use of "some" in "Some professors are famous" implicate?

a) All professors are famous

b) Not all professors are famous

c) No professors are famous

d) Some professors are not famous

12.In the sentence "Some of the boys went to the party," what does "some" implicate?

a) All of the boys went to the party

b) None of the boys went to the party

c) Not all of the boys went to the party

d) Some of the boys are at the party

13.Which of the following is not an example of an implicational scale?

a) Numerals

b) Modals

c) Connectives

d) Nouns

Vuhelpers24
Sir Zahid

14.Particularized conversational implicatures are based on:

a) General background knowledge

b) Locally recognized inferences

c) Scalar implicatures

d) Linguistic meaning

15.In the example conversation, why does B ask if 200 Dollars will do?

a) B wants to borrow money from A

b) B is questioning the choice of prison

c) B wants to help fund A's prison visit

d) B wants to discuss the shopping budget

16.What type of implicature is exemplified in the given conversation?

a) Generalized conversational implicature

b) Particularized conversational implicature

c) Scalar implicature

d) Conversational implicature

17.Which of the following does implicature primarily focus on?

a) Literal meaning

b) Speaker intentions

c) Explicit statements

d) Background context

18.Implicatures are understood:

a) Explicitly

b) Implicitly

c) Directly

d) Contextually

19.What distinguishes implicature from literal meaning?

a) Speaker's tone of voice

b) Context of utterance

c) Speaker's body language

d) Words used in the utterance

20.In conversational implicature, the speaker's meaning is:

a) Conveyed directly

b) Clearly stated

c) Indirectly implied

d) Unambiguous

21.Implicatures are:

a) Fixed and universal

b) Context-dependent

c) Linguistically encoded

d) Objective and concrete

22.What field did Paul Grice specialize in?

a) Syntax

Vuhelpers24
Sir Zahid

b) Pragmatics

c) Phonetics

d) Semantics

23.Conversational implicatures contribute to:

a) Explicit utterance content

b) Linguistic meaning

c) Direct communication

d) Indirect communication

24.What does scalar implicature rely on?

a) Strong and informative terms

b) Ambiguous and vague terms

c) Weak and less informative terms

d) Precise and detailed terms

25.Particularized conversational implicatures depend on:

a) Background knowledge

b) Universal principles

c) Scalar implicatures

d) Specific context

CODE:ENG508 SUBJECTIVE PART LESSON:23

Q1: What does the term "Implicature" account for?

A1: The term "Implicature" accounts for what a speaker can imply, suggest, or mean, as distinct from what the speaker literally says.

Q2: Who defined the term "Implicature"?

A2: The term "Implicature" was defined by Paul Grice, a British language philosopher.

Q3: How is implicature defined by Grundy (2000)?

A3: Implicature is defined by Grundy (2000) as any meaning conveyed indirectly or through hints, and understood implicitly without ever being explicitly stated.

Q4: What family of verbs does implicature cover?

A4: Implicature covers the family of verbs such as "imply, suggest, mean," which refer to the meaning of an utterance as understood in a given context.

Q5: What was the driving force behind Grice's work on implicature?

A5: The driving force behind Grice's work on implicature was the fact that what we literally say and what we clearly mean often differ, which is intuitively obvious but difficult to describe or explain systematically.

Q6: What is conversational implicature?

A6: Conversational implicature refers to the implied meaning conveyed by a speaker in an utterance, which is part of the content of the utterance and not encoded by the linguistic meaning.

Q7: Provide an example of conversational implicature.

A7: Example: Sara asks, "Will you eat some of this chocolate cake?" and Amna responds, "I'm on a diet." Here, Amna asserts that she is on a diet and implicates that she will not eat the cake.

Q8: How is generalized conversational implicature different from conversational implicature?

A8: Generalized conversational implicature does not require any special background knowledge of the context to make the necessary inferences, while conversational implicature depends on the specific context.

Q9: Give an example of generalized conversational implicature.

A9: Example: John walked into a house yesterday and saw a tortoise. This expression implies that the house is not John's house.

Q10: What is scalar implicature?

A10: Scalar implicature is a quantity implicature that arises from the use of an informationally weak term in an implicational scale.

Q11: What does the use of "some" typically indicate in scalar implicature?

A11: The use of "some" typically indicates that not all of the referred group or category possesses the specified property.

Q12: What are some examples of scales that give rise to scalar implicatures?

A12: Examples of scales include numerals, modals, connectives, adverbs, degree adjectives, and verbs of ranking or completion.

Q13: What are particularized conversational implicatures (PCIs)?

A13: Particularized conversational implicatures (PCIs) are inferences that are worked out based on the specific context of the utterance.

Q14: In the given example, why does B ask if 200 Dollars will do?

A14: B asks if 200 Dollars will do because A mentioned going to the prison and proposed B's help in funding the shopping for that prison.

Q15: How are locally recognized inferences assumed in particularized conversational implicatures?

A15: Locally recognized inferences are assumed in particularized conversational implicatures because most conversations take place in a specific context where these inferences are expected.

CODE:ENG508 REWEW EXERCISE LESSON:21,22,23

CHOOSE THE CORRECT OPTION:

1.Who argued for an intention-based theory of meaning and distinguished between semantic and pragmatic meaning?

a) H. Paul Grice

b) Tannen

c) Cutting

d) Tannen and Cutting

2.What is the term used to describe the set of rules proposed by Grice for ordinary conversation?

a) Cooperative Principle (CP)

b) Supreme Principle

c) Flouting the Maxims

d) Violating the Maxims

3.According to Grice, what does the Maxim of Quantity state?

a) Speakers should be as informative as required.

b) Speakers should be brief and orderly.

c) Speakers should be relevant to the previous conversation.

d) Speakers should provide genuine and justified information.

4.Which maxim suggests that speakers should provide genuine and justified information in a conversation?

a) Maxim of Quantity

b) Maxim of Quality

c) Maxim of Relation

d) Maxim of Manner

Vuhelpers24
Sir Zahid

5.How does Grice define "flouting" the maxims?

a) Speakers intentionally violate the maxims.

b) Speakers exceed the requirements of the maxims.

c) Speakers do not follow the maxims but imply a different meaning.

d) Speakers violate the maxims unknowingly.

6.Which maxim is violated when a speaker gives too little or too much information?

a) Maxim of Quantity

b) Maxim of Quality

c) Maxim of Relation

d) Maxim of Manner

7.What is the term used when the surface meaning of an utterance is intentionally violated?

a) Flouting

b) Violation

c) Deception

d) Inference

8.In the example of the wife not revealing the price of a dress, which maxim is violated?

a) Maxim of Quantity

b) Maxim of Quality

c) Maxim of Relation

d) Maxim of Manner

9.What is one objection to Grice's cooperative principle?

a) The assumption of too friendly a spirit in communication

b) The lack of clear overlap between the four maxims

c) Different cultural ways of observing and expressing maxims

d) All of the above

Vuhelpers24
Sir Zahid

10.In which country would it be considered a violation of the maxim of quality to not call after saying "we'll call you in about two weeks"?

a) Britain

b) Tannen's country

c) Cutting's country

d) It is considered a violation in all countries

11.Who is often critical of Grice's maxims, claiming they don't apply to real conversations?

a) H. Paul Grice

b) Tannen

c) Cutting

d) Both Tannen and Cutting

12.According to Grice, what allows hearers to infer the speaker's intentions and applied meaning?

a) Flouting the maxims

b) Violating the maxims

c) Observing the maxims

d) Cooperative discourse

13.Which maxim suggests that speakers should be relevant to what has been said before?

a) Maxim of Quantity

b) Maxim of Quality

c) Maxim of Relation

Vuhelpers24
Sir Zahid

d) Maxim of Manner

14.What is the term used to describe when a speaker deliberately gives wrong information?

a) Cooperative discourse

b) Violating the maxims

c) Deception

d) Inference

15.What is the term used when a speaker intentionally violates a maxim to exclude a third party?

a) Flouting

b) Violation

c) Exclusion

d) Implication

Vuhelpers24

1.Cancellability is also known as:

a) Detachability

b) Reinforceability

c) Non-conventionality

d) Calculability

2.What factors influence the presence of conversational implicature?

a) Linguistic contexts

b) Situational contexts

c) Conventional meaning of words

d) All of the above

3.Non-detachability refers to the attachment of conversational implicature to:

a) Semantic content

b) Linguistic form

c) Utterance as a whole

d) Specific words used

4.The reinforceability of implicatures implies that they are:

a) Redundant

b) Detachable

c) Defeasible

d) Calculable

5.Non-conventionality implies that implicature is carried by:

a) What is said

b) The saying of what is said

c) The context

d) Linguistic form

6.Calculability suggests that speakers try to convey implicatures, and hearers are able to:

a) Interpret them

b) Cancel them

c) Redefine them

d) Reinforce them

7.Conventional implicatures are not based on:

Vuhelper24
Sir Zahid

a) Cooperative principle

b) Maxims

c) Special contexts

d) Truth conditions

8.Which word is mentioned as an example of a word with conventional implicature?

a) But

b) Even

c) Yet

d) All of the above

9.Conventional implicatures are associated with:

a) Speaker or utterance

b) Sentence structure

c) Special contexts

d) Truth conditions

10.Conventional implicatures are not derived from:

a) Cooperative principle

b) Truth conditions

c) Maxims

d) Lexical items or linguistic constructions

11.Conventional implicatures are:

Vuhelpers24 Sir Zahid

a) Calculable

b) Detachable

c) Cancelable

d) Non-cancelable

12.Strong implicature is the main communicative point of an utterance, and it is:

a) Detached from the utterance

b) Calculable

c) Cancellable

d) Not detachable

13.In the given example, what is the strong implicature of Bill's utterance?

a) Bill can help Albert

b) Bill has a lot of work to do

c) Bill is prioritizing his own work

d) Bill cannot help Albert

14.Weak implicature is:

a) The main communicative point of an utterance

b) Calculable

c) Detachable

d) Not the main communicative point of an utterance

Vuhelpers24 Sir Zahid

15.Weak implicature encourages the hearer to:

a) Choose from a wide range of possibilities

b) Cancel the implicatures

c) Detach the implicatures

d) Reinforce the implicatures

16.In the given example, what is the weak implicature of Mary's utterance?

a) Mary is tired and wants to rest

b) Mary is tired and wants to go out

c) Mary is tired and needs some sleep

d) Mary is tired and wants to exercise

17.Conventional implicatures are associated with:

a) The speaker's responsibility

b) The hearer's responsibility

c) Truth conditions

d) Linguistic form

18.Which property of conventional implicature makes them arbitrary?

a) Non-truth-conditionality

b) Detachability

c) Reinforceability

d) Non-conventionality

Vuhelpers24 Sir Zahid

19.Conventional implicatures are given by:

a) Convention

b) Cooperative principle

c) Detachability

d) Reinforceability

20.Conventional implicatures are:

a) Calculable

b) Cancellable

c) Defeasible

d) Non-defeasible

21.Strong implicature is related directly to:

a) Truth conditions

b) Linguistic form

c) Speaker's intentions

d) Detachability

22.Weak implicature is characterized by:

a) Encouragement with a narrow range of possibilities

b) Responsibility solely on the speaker

c) Detachability from the utterance

d) Reinforceability

23.Conventional implicatures are attached to:

Vunelpers24 Sir Zahid

a) Utterance as a whole

b) Semantic content

c) Linguistic form

d) Truth conditions

24.Strong implicature is:

a) Calculable via natural procedures

b) Cancellable

c) Non-detachable

d) Strongly encouraged but not forced

25.Weak implicature is the responsibility of the:

a) Speaker

b) Hearer

c) Linguistic context

d) Truth conditions

Vuhelper24
Sir Zahid

CODE:ENG508 SUBJECTIVE PART LESSON:24

1.What is cancellability in conversational implicature?

Answer: Cancellability refers to the property of conversational implicature where it can be changed or eliminated if any of the factors such as the conventional meaning of words used, linguistic and situational contexts, etc., are altered.

2.What is another term for cancellability in conversational implicature?

Answer: Defeasibility.

3.What are some factors on which the presence of conversational implicature relies?

Answer: The presence of conversational implicature relies on factors such as the conventional meaning of words used, linguistic and situational contexts, etc.

4.What is non-detachability in conversational implicature?

Answer: Non-detachability means that a conversational implicature is attached to the semantic content of what is said, rather than the specific linguistic form. It remains intact even if synonyms are used in place of specific words.

5.Can implicatures be reinforced?

Answer: Yes, implicatures can be reinforced. For example, in the sentence "John answered most of the questions. But he wasn't able to answer the last question," the implicature is reinforced by emphasizing the inability to answer the last question.

6.What is non-conventionality in implicature?

Answer: Non-conventionality refers to the property that implicature is not carried by what is explicitly said, but rather by the way it is said or by "putting it that way."

7.Are implicatures calculable?

Answer: Yes, the fact that speakers try to convey conversational implicatures and hearers are able to understand them suggests that implicatures are calculable.

8.What is conventional implicature?

Answer: Conventional implicature refers to additional conveyed meanings that are associated with specific words used in a language, such as the conjunction "but" in English.

9.Do conventional implicatures depend on special contexts for interpretation?

Answer: No, conventional implicatures do not depend on special contexts for their interpretation.

10.Give an example of a word with conventional implicature.

Answer: The word "but" in the sentence 'p but q' has a conventional implicature of contrast between the information in 'p' and the information in 'q'. Other words like "even" and "yet" also have conventional implicatures.

11.What is the property of non-truth-conditionality in conventional implicature?

Answer: Conventional implicatures do not contribute to the truth conditions of a sentence. Different sentences with conventional implicatures can have the same truth conditions.

12.Are conventional implicatures derived from Grice's Cooperative principle and its maxims?

Answer: No, conventional implicatures are not derived from Grice's Cooperative principle and its maxims. They are attached to specific lexical items or linguistic constructions by convention.

13.Are conventional implicatures cancelable?

Answer: No, conventional implicatures are not cancelable. They cannot be defeated or eliminated.

14.Are conventional implicatures detachable?

Answer: Yes, conventional implicatures are detachable as they depend on the particular linguistic items used.

15.What is strong implicature?

Answer: Strong implicature refers to a communicated implication of an utterance that is the main communicative point. It is an implication that the speaker intends the hearer to grasp for the utterance to be relevant.

16.Give an example of strong implicature.

Answer: In the conversation between Albert and Bill, when Albert asks for help and Bill responds with "I've a huge amount of my own work to do, and I promised the boss I'd give it priority," the strong implicature is that Bill cannot help Albert.

17.What is weak implicature?

Answer: Weak implicature refers to a communicated implication of an utterance that is not the main communicative point. It is an implication that the hearer can understand even if they fail to grasp one or more implicatures.

18.Provide an example of weak implicature.

Answer: In the conversation where John asks Mary, "What are you planning to do today?" and Mary responds with "I'm tired," there is no single implicature that the hearer must take from Mary's response. Multiple assumptions can lead to different implicatures.

19.What is the relationship between the strength of implicatures and the responsibility of the speaker?

Answer: The weaker the implicature, the less responsibility the speaker takes for its truth. The responsibility shifts more towards the hearer.

20.Are implicatures the responsibility of the speaker or the hearer?

Answer: Implicatures are typically the responsibility of the hearer, as they involve inferences made based on the speaker's utterance.

Vuhelper24
Sir Zahid

CODE:ENG508 OBJECTIVE PART LESSON:25

1.What is deixis?

a) A form of language used for storytelling

b) A linguistic phenomenon related to social relationships

c) The study of spatial relationships in language

d) A type of indexical expression used for pointing out references

2.Which term is synonymous with deixis?

a) Personification

b) Indexicality

c) Pragmatics

d) Homonymy

3.Which type of deixis is related to the physical context?

a) Spatial deixis

b) Person deixis

c) Social deixis

d) Temporal deixis

4.Which words are examples of spatial deixis?

a) You, me, she, him

b) Now, then, soon, last week

c) Here, there, this, that

d) Madam, Sir, Professor, Doctor

5.What is a deictic projection?

a) A psychological interpretation of deixis

b) The use of direct speech to represent someone else's perspective

c) A way to indicate social relationships in language

d) The encoding of temporal points and spans in speech acts

6.What is the pragmatic basis of spatial deixis?

a) Psychological distance

b) Physical distance

c) Social class

d) Temporal points

Vunelpers24 Sir Zahid

7.Which person is grammatically marked in deixis?

a) First person

b) Second person

c) Third person

d) All persons are grammatically marked

8.What is the inclusive-exclusive distinction in deixis?

a) The distinction between first and second person pronouns

b) The distinction between social classes in social deixis

c) The distinction between past and future tense in temporal deixis

d) The distinction between different interpretations of the pronoun "we"

9.What does social deixis refer to?

a) Encoding temporal points in speech acts

b) Indicating relative locations of people and things

c) Expressing social meaning and identities

d) Marking the physical context in language

10.Which linguistic devices can accomplish social deixis?

a) Time adverbs and spatial pronouns

b) Demonstrative pronouns and personal pronouns

c) Affixes and clitics

d) Temporal markers and adjectives

11.What is temporal deixis concerned with?

a) Social relationships in language

b) Encoding spatial locations in speech acts

c) Marking the physical context of utterances

d) The encoding of temporal points and spans

12.Which word indicates both the time coinciding with the speaker's utterance and the time of the speaker's voice being heard?

a) Now

b) Then

c) Soon

d) Today

13.Which deixis type depends on knowing the relevant utterance time for interpretation?

a) Social deixis

b) Person deixis

c) Spatial deixis

d) Temporal deixis

14.How are deixis expressions related to deixis?

a) They modify spatial references

b) They point out specific referents

c) They encode social relationships

d) They determine temporal points in speech acts

Vuhelpers24
Sir Zahid

15.What is the role of demonstrative pronouns in deixis?

a) They mark respect and kinship relations

b) They help identify specific referents in referring expressions

c) They encode social class and profession

d) They indicate the physical location of the speaker

16.What does deixis accomplish through dramatic performance?

a) Encodes spatial relationships

b) Represents the feelings of someone or something else

c) Indicates social status in language

d) Identifies specific referents in speech acts

17.What does person deixis point to?

a) Spatial locations

b) Temporal points

c) Social relationships

d) People

18.Which part of speech is commonly associated with person deixis?

a) Adverbs

b) Nouns

c) Pronouns

d) Verbs

19.What does social deixis codify?

Vulpers24 Sir Zahid

a) Spatial relationships

b) Emotional states

c) Social status and relationships

d) Temporal references

20.How is social deixis accomplished in language?

a) Through personal pronouns and verb forms attached to intimacy

b) By using adverbs and clitics

c) Through the choice of vocabulary and nouns

d) By encoding spatial and temporal references

21.What does temporal deixis encode?

a) Spatial relationships

b) Social class and profession

c) Temporal points and spans

d) Emotional states and feelings

22.Which term is synonymous with temporal deixis?

a) Time deixis

b) Person deixis

c) Social deixis

d) Place deixis

23.What does the term "now" indicate in temporal deixis?

a) The time coinciding with the speaker's utterance

Vuhelpers24
Sir Zahid

b) The past time relative to the speaker's present time

c) The future time relative to the speaker's present time

d) The time when the speaker's voice is heard

24.How do temporal deictic expressions depend on interpretation?

a) They rely on the spatial context

b) They rely on the physical distance

c) They rely on knowing the relevant utterance time

d) They rely on social relationships

25.Which type of deixis is concerned with encoding the social status of the speaker, addressee, or a third person?

a) Spatial deixis

b) Person deixis

c) Social deixis

d) Temporal deixis

Vuhelpers24
Sir Zahid

CODE:ENG508 SUBJECTIVE PART LESSON:25

Q1: What are deixis expressions?

A: Deixis expressions are linguistic forms used to accomplish the task of 'pointing out' something in the immediate context.

Q2: What is deixis also known as?

A: Deixis is also known as indexical expressions.

Q3: What does deixis help us determine?

A: Deixis helps us determine where to look for a reference, which is often related to a particular person, place, or time.

Q4: Give examples of spatial deixis.

A: Examples of spatial deixis include "here," "there," "this," and "that."

Q5: How is deixis accomplished through dramatic performance?

A: Deixis is accomplished through dramatic performance when direct speech is used to represent the person, location, and feelings of someone or something else.

Q6: What is the pragmatic basis of spatial deixis?

A: The pragmatic basis of spatial deixis is psychological distance, where physically close objects are treated as psychologically close.

Q7: What modifiers are used with deictic reference to help identify referents?

A: Demonstrative pronouns, such as "this," "that," "these," and "those," are used as modifiers with deictic reference to identify specific referents.

Q8: What is person deixis?

A: Person deixis refers to the expression used to point to a person and operates based on the three-part division of first person, second person, and third person.

Q9: How many persons are involved in a speech event?

A: A speech event includes at least two persons: the first person (speaker) and the second person (addressee).

Q10: Is the third person grammatically marked in person deixis?

A: Usually, the third person is not grammatically marked since the focus is on the first and second persons.

Q11: What ambiguity can arise in the use of "we"?

A: The inclusive-exclusive distinction in the use of "we" can lead to two different interpretations, indicating either the speaker plus others (exclusive) or the speaker and addressee included (inclusive).

Q12: What does social deixis concern?

A: Social deixis concerns the codification of the social status of the speaker, addressee, or a third person, as well as the social relationships between them.

Q13: How can social deixis be accomplished?

A: Social deixis can be accomplished through various linguistic devices, including personal pronouns, forms of address, affixes, clitics, particles, and choice of vocabulary.

Q14: What is temporal deixis?

A: Temporal deixis, also known as time deixis, is concerned with encoding temporal points and spans relative to the time of an utterance.

Q15: Give examples of time adverbs.

A: Examples of time adverbs include "now," "then," "soon," "last week," "today," "tonight," "yesterday," and "tomorrow."

Q16: What does "now" indicate in temporal deixis?

A: "Now" indicates both the time coinciding with the speaker's utterance and the time when the speaker's voice is being heard.

Q17: How does "then" apply in temporal deixis?

A: "Then" can refer to both past and future times relative to the speaker's present time.

Q18: How do temporal deictic expressions depend on interpretation?

A: Temporal deictic expressions, such as "yesterday," "next week," and "last week," depend on knowing the relevant utterance time for interpretation.

Q19: What kind of information does social deixis grammaticalize in some languages?

A: Social deixis grammaticalizes information about the social identities or relationships of the participants in a conversation.

Q20: How is social status indexicalized through language in social deixis?

A: Social status is indexicalized through linguistic terms known as "address terms," such as "Madam," "Sir," "Professor," or "Doctor."

1.Discourse deixis is also known as:

A) Discourse reference

B) Contextual deixis

C) Text deixis

D) Utterance deixis

2.In discourse deixis, words and phrases are used to refer to:

A) Specific objects or people

B) Prior or subsequent utterances in the same discourse

C) Abstract concepts and ideas

D) Future events or situations

3.Which term refers to the relationship between utterances and prior discourse?

A) Deictic center

B) Discourse reference

C) Indexicality

D) Utterance-initial usage

4.According to Levinson, what is a major function of utterance-initial words in discourse deixis?

A) Establishing new referents

B) Expressing personal opinions

C) Indicating a relation to prior discourse

D) Introducing new topics

Vunolpers24
Sir Zahid

5.Discourse deixis can be said to refer to:

A) Morphemes in language

B) Utterances and propositions

C) Specific objects or locations

D) Non-verbal gestures and pointing

6.Deictic reference involves the use of:

A) Morphemes and lexical items

B) Non-verbal gestures and pointing

C) Abstract concepts and ideas

D) Utterances and propositions

7.Which term describes the default deictic center in language?

A) Speaker's location

B) Hearer's location

C) Contextual center

D) Abstract reference

8.When the context prompts the addressee to update the deictic center, whose location is usually considered?

A) The speaker's

B) The addressee's

C) The context's

D) The subject's

Vuhelpers24
Sir Zahid

9.Fixedness of deictic center poses a challenge when:

A) Quoting others' speech

B) Describing spatial locations

C) Using non-verbal gestures

D) Expressing personal opinions

10.In reported speech, the unmarked deictic center typically corresponds to:

A) The speaker's perspective

B) The hearer's perspective

C) The context's perspective

D) The reported speaker's perspective

11.Deictic referents are typically denotations with:

A) Broad descriptive power

B) Unlimited descriptive power

C) Limited descriptive power

D) No descriptive power

12.Raising pragmatic awareness involves:

A) Understanding language origins

B) Practicing deictic translations

C) Noting down unexpected deictic uses

D) Analyzing train announcements

Vuhelpers24
Sir Zahid

13.In the provided activity, each group member is asked to bring:

A) Translated utterances

B) Travel experiences

C) Psychological analyses

D) Tutorial group suggestions

14.The purpose of translating utterances containing deictic phenomena is to:

A) Improve language skills

B) Identify common ground

C) Understand indexical properties

D) Solve communication problems

15.When observing deictics during travel, one should pay attention to:

A) Language proficiency

B) Psychological distance encoding

C) Cultural differences in deictics

D) Group membership expressions

16.The author suggests noting down deictic uses and reporting them:

A) During a vacation

B) In a tutorial group

C) At the first meeting of a new term

D) To unfamiliar groups

Vuhelpers24 Sir Zahid

17.An occasion where a variety of deictic ways of communicating the same message might be expected is:

A) Train announcements

B) Tutorial group discussions

C) Language translation exercises

D) Psychological distance encoding

18.The analysis of train announcements helps to understand:

A) Shared knowledge assumptions

B) Psychological distance encoding

C) Indexical properties of language

D) Deictic references in different languages

19.Discourse deixis refers to the use of words to:

A) Point to current, preceding, or following utterances

B) Specify ambiguous utterances through gestures

C) Encode context through indexicality

D) Mark discourse notions with morphemes

20.The role of assumed knowledge in determining reference leads to deictic referents being:

A) Abstract and conceptual

B) Spatial and gestural

C) Limited in descriptive power

Vuhelpers24 Sir Zahid

D) Highly descriptive and specific

21.Discourse deixis is found in:

A) Only English language

B) All languages around the world

C) Most but not all languages

D) Languages with morphemes for discourse notions

22.Deictic center is typically assumed to be:

A) The hearer's location

B) The context's location

C) The speaker's location

D) The subject's location

23.Indexicality in language refers to the role of:

A) Assumed knowledge in reference

B) Context in determining reference

C) Gestures and pointing in communication

D) Discourse deixis in language use

24.In reported speech, the unmarked deictic center aligns with the:

A) Reported speaker's perspective

B) Contextual center of reference

C) Hearer's perspective

D) Speaker's perspective

Vuhelpers24
Sir Zahid

25.Deictic referents, such as pronouns, lack:

A) Specific referential power

B) Abstract conceptual power

C) Contextual descriptive power

D) Spatial and gestural power

CODE:ENG508 SUBJECTIVE PART LESSON:26

1.What is discourse deixis also known as?

Discourse deixis is also known as text deixis or text reference.

2.Give examples of words that indicate discourse deixis.

Examples of words indicating discourse deixis are "the next chapter" and "in the last paragraph."

3.What is the major function of words used in utterance-initial position?

The major function of words used in utterance-initial position is to indicate a relation between the utterance and some portion of the prior discourse.

4.Which scholars describe discourse deixis as referring to propositions.

Scholars such as Lyons, Fillmore, and Diessel describe discourse deixis as referring to propositions.

5.What is deictic reference?

Deictic reference refers to the use of gestures or other means of pointing to specify an ambiguous utterance.

6.What is the term used to describe the role of context in determining reference?

The term used to describe the role of context in determining reference is "indexicality."

7.How does the use of "you" differ in sentences (2) and (3)?

In sentence (2), the "yous" accompanied by gestures and/or eye contact pick out different referents known only to those present, while in sentence (3), "you" has a more general reference.

8.What is the default deictic center in language?

The default deictic center in language is the speaker's location at the time of utterance.

9.When might the addressee infer a different deictic center than the speaker's location?

The addressee might infer a different deictic center when the context prompts them to consider "their location" rather than "the speaker's location."

10.What problem arises when quoting what others have said with deictic properties?

The fixedness of deictic center poses a problem when quoting what others have said, as representing the deictic properties accurately can be challenging.

11.Give examples of different ways to represent the deictic property in reported speech.

Examples include (2) Eddie said, (3) Eddie asked, and (4) Eddie complained.

12.What pragmatic principle is revealed by the identification of a fixed deictic center?

The identification of a fixed deictic center reveals the pragmatic principle of assuming shared knowledge and foregrounding what is new in each utterance.

13.What is the descriptive power of deictic referents such as "you" and "me"?

Deictic referents like "you" and "me" have limited descriptive power and are semantically empty tokens.

14.What activity can help raise pragmatic awareness regarding deictic phenomena?

Forming a small group and translating utterances with deictic phenomena into another language can raise pragmatic awareness.

14.What is the suggestion for an exercise in tutorial groups regarding deictic properties?

Each member of the group should come up with two consecutive sentences from a book discussing "indexical properties."

15.What advice is given for observing deictic uses in unfamiliar groups?

The advice is to try to mix with unfamiliar groups and observe how they use "we" to show membership or listen for uses of "this" and "that" to encode psychological distance.

16.What should you do after noting down what you heard or read regarding deictics?

You should report your observations to your tutorial group at the first meeting of the new term.

17.In what context might you expect to hear a variety of deictic ways of communicating the same message?

In Britain, announcements on trains are an example where different companies or individual announcers encode their own notion of common ground, resulting in a variety of deictic ways to communicate the same message.

18.What should you do with the deictic analysis you present to your tutorial group?

You should note down what you hear and present an analysis of the deictic uses to your tutorial group.

19.What are deictic referents like "you" and "me" lacking compared to names of people?

Deictic referents like "you" and "me" are semantically empty tokens and lack the descriptive power that names of people possess.

CODE:ENG508 OBJECTIVE PART LESSON:27

1.What is a presupposition?

a) Something logically following from an utterance

b) An assumption made by the speaker prior to making an utterance

c) Something asserted in the utterance

d) An entailment associated with the sentence

2.Who has presuppositions?

a) Sentences

b) Listeners

c) Speakers

d) Utterances

3.Which of the following is an example of presupposition in the sentence "Mary's brother bought three horses"?

a) The existence of Mary's brother

b) Mary's brother being rich

c) Mary's brother buying something

d) Mary's brother having multiple siblings

4.What is an entailment?

a) Something logically following from an utterance

b) An assumption made by the speaker prior to making an utterance

c) Something asserted in the utterance

d) A presupposition associated with the sentence

5.Which of the following is an entailment of the sentence "Mary's brother bought three horses"?

a) Mary's brother buying something

b) Mary's brother having multiple siblings

c) Mary's brother being rich

d) Mary's brother owning a car

6.Which type of presupposition assumes the existence of entities named by the speaker?

a) Factive Presupposition

b) Lexical Presupposition

c) Existential Presupposition

d) Non Factive Presupposition

7.In which type of construction can presuppositions be found?

a) Adjective phrase

b) Noun phrase

c) Verb phrase

d) Prepositional phrase

8,What is a factive presupposition?

a) An assumption that something is true

b) An assumption that something is not true

c) An assumption associated with the use of certain structures

d) An assumption that the speaker can act as another meaning

Vuhelpers24
Sir Zahid

9.Which type of presupposition refers to something that is not true?

a) Factive Presupposition

b) Lexical Presupposition

c) Non Factive Presupposition

d) Structural Presupposition

10.What is the projection problem in presupposition?

a) The assumption that presuppositions will remain true in complex sentences

b) The assumption that presuppositions will change in complex sentences

c) The assumption that presuppositions are always false

d) The assumption that presuppositions are speaker-dependent

11.What is the relationship between the meaning of the whole sentence and its parts?

a) They have no relationship

b) The meaning of the whole sentence is a combination of the meaning of its parts

c) The meaning of the whole sentence supersedes the meaning of its parts

d) The meaning of the whole sentence contradicts the meaning of its parts

12.Which type of entailment is purely a logical concept?

a) Ordered Entailments

b) Pragmatic Entailments

c) Presuppositional Entailments

Vuhelpers24 Sir Zahid

d) Non-logical Entailments

13.What does the term "⊨" symbolize in representing entailment?

a) Logical consequence

b) Speaker's intended meaning

c) Pragmatic sequence

d) Semantic relationship

14.What is the purpose of ordering entailments?

a) To indicate the truth of background entailments

b) To emphasize the logical sequence of entailments

c) To interpret the intended meaning of the speaker

d) To create a pragmatic connection between sentences

15.Which types of words trigger existential presuppositions?

a) Negative polarity items

b) Verbs of perception

c) Possessive pronouns

d) Definite articles

16.Why is "something to drink" more inviting than "anything to drink"?

a) It triggers a factive presupposition

b) It triggers an existential presupposition

c) It is a positive polarity item

d) It is a negative polarity item

17.What is the reason behind using "any" in the road sign "Sorry for any delay"?

a) It triggers a non-factive presupposition

b) It is a positive polarity item

c) It is a negative polarity item

d) It triggers a counterfactual presupposition

18.Which group of people often produce utterances with existential presuppositions?

a) Linguists

b) Native speakers of English

c) Second language learners

d) Non-native speakers of English

Answer: b

19.What does the sentence "I have locked the door so someone does not get in" trigger?

a) A factive presupposition

b) A non-factive presupposition

c) An existential presupposition

d) A counterfactual presupposition

20.Which type of presupposition is more inviting for guests?

a) Factive Presupposition

Vuhelpers24 Sir Zahid

b) Lexical Presupposition

c) Existential Presupposition

d) Non Factive Presupposition

21.What does the term "projection problem" refer to?

a) The ordering of entailments in complex sentences

b) The combination of presuppositions and entailments

c) The survival of presuppositions in complex sentences

d) The logical consequence of presuppositions

22.According to Crystal (1998), what does entailment refer to?

a) A relationship between sentences based on pragmatic context

b) The speaker's intended meaning in an utterance

c) Logical consequences that follow from a sentence

d) Background information assumed by the speaker

23.How is the relationship of entailment between sentences symbolized?

a) I-

b) II-

c) P-

d) Q-

24.What determines the importance of entailments for interpreting intended meaning?

a) Speaker's beliefs

b) Listener's perception

c) Sentence structure

d) Pragmatic context

25.What type of concept is entailment?

a) Pragmatic concept

b) Semantic concept

c) Speaker-dependent concept

d) Logical concept

CODE:ENG508 SUBJECTIVE PART LESSON:27

1,What is the aim of speech act theory?

Answer: The aim of speech act theory is to answer the question, "What do we do when using language?"

2.What are speech acts?

Answer: Speech acts are acts of communication performed through language, such as apologies, complaints, compliments, requests, warnings, advice, etc.

3.How does the speaker intend to have an effect on the listener?

Answer: The speaker intends to have an effect on the listener by recognizing their intention through the context of the speech event.

4.What are explicit performatives?

Answer: Explicit performatives are performative utterances that contain a performative verb explicitly indicating the type of act being performed. They often begin with the first-person singular pronoun "I."

5.What are implicit performatives?

Answer: Implicit performatives are performative utterances where there is no explicit performative verb indicating the type of act being performed.

6.What are constatives?

Answer: Constatives are statements that attempt to describe reality and can be judged as true or false.

7.Who introduced the notions of locutionary act, illocutionary act, and perlocutionary act?

Answer: J. L. Austin introduced the notions of locutionary act, illocutionary act, and perlocutionary act in his work "How to Do Things with Words."

8.What is the role of locutionary act and perlocutionary act in speech acts?

Answer: Locutionary act refers to the act of uttering words and producing linguistic meaning, while perlocutionary act refers to the effect or impact the speech act has on the listener.

9.What are the five main types of speech acts proposed by Searle?

Answer: The five main types of speech acts proposed by Searle are representatives, directives, commissives, expressives, and declarations.

10.What do representatives speech acts commit the speakers to?

Answer: Representatives speech acts commit the speakers to the truth of the expressed proposition, stating what the speaker believes to be the case or not.

11.What do directives speech acts attempt to do?

Answer: Directives speech acts attempt to get the addressee to do something, expressing the speaker's desires or requests.

12.What do commissives speech acts commit the speaker to?

Answer: Commissives speech acts commit the speaker to some future course of action, indicating the speaker's intentions or commitments.

13.What do expressives speech acts express?

Answer: Expressives speech acts express the psychological state or feelings of the speaker, such as thanking, apologizing, welcoming, congratulating, etc.

Vuhelpers24
Sir Zahid

14.What do declarations speech acts do?

Answer: Declarations speech acts effect immediate changes in the institutional state of affairs and rely on extra-linguistic institutions. They have the power to change the world through their utterance.

15.What are the general conditions for speech acts in everyday contexts?

Answer: The general conditions for speech acts in everyday contexts include the participants' ability to understand the language being used and not being nonsensical.

16.What are content conditions?

Answer: Content conditions refer to the specific requirements of the utterance's content for certain speech acts to be performed, such as promises and warnings needing to be about future events.

17.What are the preparatory conditions for a promise speech act?

Answer: The preparatory conditions for a promise speech act include the event not happening by itself and having a beneficial effect.

18.What are the preparatory conditions for a warning speech act?

Answer: The preparatory conditions for a warning speech act include the hearer not knowing the event will occur, the speaker believing the event will occur, and the event not having a beneficial effect.

19.What is the distinction between direct and indirect speech acts?

Answer: Direct speech acts involve a direct relationship between the structure of an utterance and its function, while indirect speech acts involve an indirect relationship between the structure and function of the utterance.

20.What is an example of a direct speech act?

Answer: An example of a direct speech act is the declarative sentence "Did you eat the pizza?" when used as a question to request information.

CODE:ENG508 OBJECTIVE PART LESSON:28

1.According to speech act theory, what does it aim to answer?

a) How do we use language effectively?

b) What do we accomplish with language?

c) How does language impact communication?

d) Why do people use language for various purposes?

2.Which of the following is an example of a speech act?

a) Stating the temperature

b) Describing the weather

c) Requesting a favor

d) Providing information

3.What helps determine the interpretation of an utterance as performing a particular speech act?

a) Speaker's intention

b) Listener's recognition

c) Context of the speech event

d) Both a and b

Vuhelpers24 Sir Zahid

4.What is the characteristic of explicit performatives?

a) They contain a performative verb.

b) They lack a performative verb.

c) They begin with a second person pronoun.

d) They describe reality.

5.According to Austin's speech act theory, which of the following sentences is performing an illocutionary act?

a) "I apologize."

b) "I give my word."

c) "I bet you six pence it will rain tomorrow."

d) "I sentence you to ten years of hard labor."

7.How many main types of acts did Searle propose in his speech act theory?

a) Three

b) Four

c) Five

d) Six

8.One of speech act effect immediate changes in the institutional state of affairs?

a) Representatives

b) Directives

c) Commissives

d) Declarations

9.What are the general conditions on participants in everyday contexts?

a) They must be nonsensical.

b) They must understand the language used.

c) They must be linguistically trained.

d) They must be aware of the future event.

Vuhelpers24
Sir Zahid

10.Which of the following is a preparatory condition for a promise speech act?

a) The event will happen by itself.

b) The event will have a detrimental effect.

c) The event will have a beneficial effect.

d) The event is unrelated to the promise.

11.In indirect speech acts, how are utterances formulated?

a) In a direct and straightforward manner

b) In a polite and less explicit manner

c) In a confusing and ambiguous manner

d) In an indirect but forceful manner

12.What distinguishes direct and indirect speech acts?

a) The politeness level of the utterance

b) The structure and function relationship

c) The level of ambiguity in the utterance

d) The directness of the speaker's intention

13.What type of speech act is formed when a declarative sentence is used to make a request?

a) Interrogative

b) Imperative

c) Exclamatory

d) Declarative

Vuhelpers24 Sir Zahid

14.What is the main focus of speech act theory?

a) Understanding language structure

b) Analyzing grammatical rules

c) Exploring the psychology of communication

d) Examining the actions performed through language

15.What is the role of context in speech acts?

a) It determines the speaker's intention.

b) It helps interpret the speech act performed.

c) It determines the listener's recognition.

d) It enables the use of explicit performatives.

16.Which type of speech act commits the speaker to the truth of a proposition?

a) Representatives

b) Directives

c) Commissives

d) Expressives

17.Which speech act type expresses a future course of action?

a) Representatives

b) Directives

c) Commissives

d) Expressives

Vuhelpers24 Sir Zahid

18.What do constatives attempt to describe?

a) Reality

b) Future events

c) Psychological states

d) Institutional changes

19.What do explicit performatives tend to begin with?

a) First person singular 'I'

b) Second person pronoun 'you'

c) Third person plural 'they'

d) No specific pronoun

20.What type of speech act relies on extra-linguistic institutions?

a) Representatives

b) Directives

c) Commissives

d) Declarations

21.What determines the interpretation of an utterance as performing a particular speech act?

a) Speaker's language proficiency

b) Listener's recognition of intent

c) Context and speech events

d) Cultural norms and values

Vuhelpers24 Sir Zahid

22.Which of the following is an example of an indirect speech act?

a) "I need your help."

b) "Could you please assist me?"

c) "I demand your immediate action."

d) "Please lend a hand."

23.What distinguishes explicit performatives from implicit performatives?

a) The presence or absence of a performative verb

b) The level of politeness in the utterance

c) The degree of assertiveness in the speech act

d) The directness of the speaker's intention

24.What do representatives commit the speaker to?

a) Future course of action

b) Statements of fact or belief

c) Psychological states or feelings

d) Immediate changes in institutional state

25.What are the content conditions for a promise and a warning?

a) Both must be about a past event.

b) Both must be about a present event.

c) Both must be about a future event.

d) One must be about a future event, and the other about a present event.

Vuhelpers24 Sir Zahid

1.What is speech act theory?

Answer: Speech act theory examines the actions performed through language, such as giving orders, making requests, giving warnings, or giving advice.

2.How are speech acts defined?

Answer: Speech acts are acts of communication, including apologies, complaints, compliments, etc. They involve the intention of the speaker to have an effect on the listener, with the help of contextual factors called speech events.

3.What are explicit performatives?

Answer: Explicit performatives are utterances that contain a performative verb explicitly stating the type of act being performed. They often begin with the first-person singular pronoun "I."

4.What are implicit performatives?

Answer: Implicit performatives are utterances in which there is no explicit performative verb. They still function as performative acts, but the performative nature is not explicitly stated.

5.Who introduced the concepts of locutionary act, illocutionary act, and perlocutionary act?

Answer: J. L. Austin introduced these concepts in his work "How to Do Things with Words," which became influential in the study of speech acts.

6.Give examples of locutionary acts.

Answer: Locutionary acts refer to the act of uttering a sentence with a particular meaning. Examples include saying "I bet you six pence it will rain tomorrow" or "I apologize."

7.What are the five main types of speech acts proposed by Searle?

Answer: Searle proposed five main types of speech acts: representatives, directives, commissives, expressives, and declarations.

8.What is the purpose of representative speech acts?

Answer: Representative speech acts commit the speaker to the truth of the expressed proposition, stating what the speaker believes to be the case or not, such as asserting statements of fact.

9.What is the purpose of directive speech acts?

Answer: Directive speech acts are attempts by the speaker to get the addressee to do something, expressing what the speaker wants, such as making requests or asking questions.

10.What is the purpose of commissive speech acts?

Answer: Commissive speech acts commit the speaker to some future course of action, expressing the speaker's intentions, such as promising, threatening, offering, or refusing.

11.What is the purpose of expressive speech acts?

Answer: Expressive speech acts express a psychological state or what the speaker feels, such as thanking, apologizing, welcoming, or congratulating.

12.What is the purpose of declarative speech acts?

Answer: Declarative speech acts effect immediate changes in the institutional state of affairs, relying on elaborate extra-linguistic institutions, such as marrying, declaring war, or firing from employment.

13.What are felicity conditions?

Answer: Felicity conditions refer to the specific conditions that must be met for a speech act to be considered successful and appropriate in a given context, including general and content conditions.

14.What are preparatory conditions for a promise?

Answer: Preparatory conditions for a promise include the event not happening by itself and the event having a beneficial effect.

15.What are preparatory conditions for a warning?

Answer: Preparatory conditions for a warning include the hearer not knowing the event will occur, the speaker thinking the event will occur, and the event not having a beneficial effect.

16.What is the difference between direct and indirect speech acts?

Answer: Direct speech acts directly express the intended meaning, while indirect speech acts use linguistic structures that may appear more polite or subtle to convey the intended meaning.

17.What determines whether a speech act is direct or indirect?

Answer: The distinction between direct and indirect speech acts is based on the relationship between the linguistic structure and the intended function. Direct speech acts have a direct relationship, while indirect speech acts have an indirect relationship.

18.What is an example of a direct speech act?

Answer: "Did you eat the pizza?" is an example of a direct speech act in the form of an interrogative used to ask a question.

19.What is an example of an indirect speech act?

Answer: "Can you pass me the salt?" is an example of an indirect speech act in the form of an interrogative used to make a request.

20.What is an example of a declarative as a direct speech act?

Answer: "You ate the pizza" is an example of a declarative used as a direct speech act, functioning as a statement.

CODE:ENG508 OBJECTIVE PART LESSON:29

1.Indirect speech acts are primarily associated with:

a) Impersonal directives

b) Politeness

c) Familiarity

d) Cultural differences

2.In British restaurants, book shops, and petrol stations, the sign "thank you for not smoking" is an example of:

a) Indirect directive

b) Direct imperative

c) Indirect speech act

d) Polite request

3.The reason for using indirect directives can be influenced by all of the following factors except:

a) Lack of familiarity

b) Reasonableness of the task

c) Informality of the context

d) Social distance

4.Social distance can give speakers:

a) Power and authority

b) Familiarity and closeness

c) Indirectness and ambiguity

d) Lack of communication skills

5.Speech acts and their linguistic realizations are:

a) Universally standardized

b) Culturally bound

c) Politically motivated

d) Indirectly related

6.In India, praising and congratulating a person on their appearance can be realized by:

a) Complimenting their weight

b) Criticizing their weight

Vuhelpers24 Sir Zahid

c) Ignoring their weight

d) Focusing on their health

7.Differences in speech acts can cause difficulties:

a) Socially

b) Linguistically

c) Politically

d) Cross-culturally

8.The limitations of speech act theory include:

a) Overlapping utterances

b) Lack of semantic contents

c) Incomplete sentences

d) All of the above

9.The 'transactional' function of language involves:

a) Expressing social relations

b) Maintaining social cohesion

c) Transmitting factual information

d) Keeping channels of communication open

10.The 'interactional' function of language is involved in:

a) Expressing content

b) Showing solidarity

c) Maintaining social cohesion

d) Transmitting factual information

Vuhelpers24
Sir Zahid

11.'Phatic communion' refers to:

a) Expressing personal attitudes

b) Maintaining social cohesion

c) Language with no information content

d) Keeping channels of communication open

12.The primary use of language in everyday human interaction is:

a) Interpersonal

b) Transactional

c) Cultural

d) Expressive

13.In the excerpt from the BBC thriller series, the phrase "Is she OK?" represents a:

a) Illocutionary speech act

b) Perlocutionary speech act

c) Direct speech act

d) Indirect speech act

14.The statement "She is good" in the excerpt represents a:

a) Declarative speech act

b) Representative speech act

c) Expressive speech act

d) Directive speech act

Vuhelper24 Sir Zahid

15.The phrase "How do you're lying to me, Andy?" in the excerpt is an example of:

a) Illocutionary speech act

b) Perlocutionary speech act

c) Direct speech act

d) Indirect speech act

16.The phrase "Look, we've even given her a full story" is an example of:

a) Illocutionary speech act

b) Perlocutionary speech act

c) Direct speech act

d) Indirect speech act

17.In the excerpt, the author uses inexplicit or vague language to:

a) Confuse the readers

b) Enhance the suspense

c) Reflect cultural differences

d) Create ambiguity or uncertainty

18.Analyzing the text using the concepts of direct and indirect speech acts can help students:

a) Understand cultural dimensions

b) Identify inexplicit language

c) Explore macro-functions

d) Uncover illocutionary speech acts

Vuhelpers24
Sir Zahid

19.The examples of illocutionary and perlocutionary speech acts in the text can assist students in:

a) Understanding cultural differences

b) Differentiating declaratives and directives

c) Analyzing macro-functions of language

d) Exploring the text in depth

20.Direct and indirect speech acts are categorized based on their:

a) Cultural relevance

b) Semantic content

c) Social functions

d) Pragmatic purposes

21.Illocutionary speech acts are primarily concerned with:

a) Expressing factual information

b) Establishing social relations

c) Achieving specific goals

d) Maintaining social cohesion

22.The term "filters" in relation to speech acts refers to utterances that:

a) Have no semantic content

b) Are used in everyday speech

c) Express personal attitudes

Vuhelpers24
Sir Zahid

d) Create ambiguity in communication

23.Backchannel responses such as "was it?" and "oh really" do not neatly fit into the speech act model because they:

a) Lack illocutionary force

b) Are culturally specific

c) Represent incomplete sentences

d) Show encouragement and listening

24.The speech act model is limited in categorizing utterances that:

a) Are vague or inexplicit

b) Involve direct imperatives

c) Express personal attitudes

d) Fall into multiple macro-classes

25.Exploring speech acts in the provided text can enhance students' understanding of:

a) Cultural dimensions

b) Macro-functions of language

c) Pragmatic purposes

d) Linguistic variations

Vuhelpers24
Sir Zahid

CODE:ENG508 SUBJECTIVE PART LESSON:29

1.What are indirect speech acts associated with?

Indirect speech acts are associated with politeness.

2.Why are directives often expressed as interrogatives instead of imperatives?

Directives are often expressed as interrogatives because it is considered more polite, especially when interacting with unfamiliar people.

3.In what places in Britain can you commonly find a sign saying "thank you for not smoking"?

British restaurants, book shops, and petrol stations often have signs saying "thank you for not smoking."

4.Why is the expressive thanking speech act used on the sign instead of an impersonal directive?

The expressive thanking speech act is used because it sounds more polite and friendly to strangers reading the sign.

5.What factors can influence the use of indirect directives?

Lack of familiarity, reasonableness of the task, formality of the context, and social distance (difference of status, roles, age, gender, education, class, occupation, and ethnicity) can influence the use of indirect directives.

6.Who tends to use indirectness in speech?

Those with less dominant roles and positions tend to use indirectness in their speech.

7.How are speech acts and their linguistic realizations culturally bound?

The ways of expressing speech acts vary across different countries and cultures.

8.What example is given to illustrate cultural differences in expressing praise and congratulation in India?

In India, praising and congratulating a person on their appearance can be realized by saying "How fat you are!" because weight is seen as an indicator of personality and health.

9.How are the same words interpreted differently in Britain?

In Britain, the same words that express praise in India, such as "How fat you are!", are interpreted as "deploring" or "criticizing" due to cultural differences and societal conditioning.

10.What difficulties can arise due to differences in speech acts cross-culturally?

Differences in speech acts can cause difficulties in cross-cultural communication.

11.What is the limitation of categorizing utterances in terms of speech acts?

There is often an overlap, where one utterance can fall into more than one macro-class.

12.What are some examples of utterances that do not fit neatly into any speech act classification?

Utterances like "so there you go," "you know," "was it?," "oh really," and incomplete sentences do not fit neatly into any speech act classification.

13.What are the transactional and interactional functions of language?

The transactional function involves expressing content and transmitting factual information, while the interactional function is involved in expressing

social relations, personal attitudes, showing solidarity, and maintaining social cohesion.

14.What is "phatic communion" in language?

"Phatic communion" refers to language with no information content used purely to keep channels of communication open.

15.According to Brown and Yule, what is the primary use of language in everyday human interaction?

The primary use of language in everyday human interaction is characterized by the interpersonal use rather than the transactional use.

16.What concepts can be used to analyze the text "Fox Hunting Under Cover"?

The concepts of direct and indirect speech acts and facets/types of speech acts (Austin and Searle) can be used to analyze the text.

17.What are some examples of speech acts in the text excerpt?

Examples of speech acts in the text excerpt include declaratives, representatives, and indirect speech acts.

18.How does the author use inexplicit or vague language in the text?

The author uses inexplicit or vague language in the text, such as incomplete sentences and phrases like "She is good (0.5)" and "How do you’re lying to me, Andy?"

19.What can analyzing the illocutionary and perlocutionary speech acts in the text help students with?

Analyzing the illocutionary and perlocutionary speech acts in the text can help students explore the intentions and effects of the characters' speech.

20.How can exploring the text help students understand speech acts?

Exploring the text can help students identify and analyze different types of speech acts, such as direct and indirect speech acts, and understand the use of inexplicit or vague language.

CODE:ENG508 OBJECTIVE PART LESSON:30

1.What does politeness generally refer to?

a) Being rude and disrespectful

b) Being honest and straightforward

c) Being tactful and nice to others

d) Being assertive and dominant

2.According to Yule (2010), how can politeness be defined in pragmatics?

a) Showing awareness and consideration of another person's face

b) Following social norms and rules

c) Expressing one's opinions without offending others

d) Using formal language in interactions

3.What is the concept of 'Face' in relation to politeness?

a) A person's public self-image

b) A person's physical appearance

c) A person's emotional state

d) A person's level of confidence

4.What type of politeness strategy is used when a speaker wants to avoid threatening the listener's face?

a) Positive politeness

b) Negative politeness

c) Solidarity strategy

d) Deference strategy

5.What is the definition of negative face in politeness theory?

a) The desire to have one's self-image approved by others

b) The need to be independent and free from imposition

c) The need for social connection and belonging

d) The need to show respect for others' feelings

6.What is an example of an off-record statement?

a) "Could you please help me with this?"

b) "I really need your assistance."

c) "I wonder if you could lend me a hand."

d) "It would be great if someone could give me a hand."

7.Which approach is considered the most direct and assertive in expressing needs?

a) Positive politeness

b) Negative politeness

c) Off record

d) Bald on record

Vuhelpers24 Sir Zahid

8.What is the purpose of using positive politeness strategies?

a) To establish a sense of independence

b) To emphasize the hearer's right to freedom

c) To appeal to common goals or friendship

d) To avoid face-threatening acts

9.What type of politeness strategy emphasizes closeness and inclusiveness between the speaker and the hearer?

a) Solidarity strategy

b) Deference strategy

c) Positive politeness

d) Negative politeness

10.What is the assumption behind the use of pre-sequences in politeness theory?

a) Face is typically at risk when the other is involved.

b) Face is not important in social interactions.

c) Pre-sequences help establish dominance in conversations.

d) Pre-sequences are used to avoid face-threatening acts.

11.Politeness theory suggests that face and politeness vary across:

a) Cultures and societies

b) Genders and age groups

c) Professions and social classes

d) Languages and dialects

12.Which type of politeness strategy emphasizes the speaker's and hearer's independence?

a) Solidarity strategy

Vuhelpers24 Sir Zahid

b) Deference strategy

c) Positive politeness

d) Negative politeness

13.What does the term "off record" mean in politeness theory?

a) Making a direct and assertive request

b) Using polite and indirect statements

c) Ignoring the other person's response

d) Avoiding face-threatening acts

14.what is the purpose of using negative politeness strategies?

a) To establish a sense of independence

b) To appeal to common goals or friendship

c) To avoid face-threatening acts

d) To emphasize the hearer's right to freedom

15.Which strategy involves the use of personal information and shared dialect or slang expressions?

a) Solidarity strategy

b) Deference strategy

c) Positive politeness

d) Negative politeness

16.What is the opposite of positive face in politeness theory?

a) Negative face

b) Solidarity face

c) Deference face

d) Impersonal face

17.What is the purpose of using pre-requests in interactions?

Vunelpers24 Sir Zahid

a) To avoid face-threatening acts

b) To establish dominance in conversations

c) To check the other person's willingness to comply

d) To emphasize the hearer's right to freedom

18.Which type of politeness strategy is associated with inclusive terms like "we" and "let's"?

a) Solidarity strategy

b) Deference strategy

c) Positive politeness

d) Negative politeness

19.What does bald on-record communication imply?

a) Using indirect statements to convey requests

b) Making direct and assertive requests

c) Avoiding face-threatening acts at all costs

d) Preferring formal language in interactions

20.What does positive politeness focus on in interactions?

a) Establishing dominance and control

b) Emphasizing the hearer's right to freedom

c) Building common ground and friendship

d) Avoiding face-threatening acts

21.What is the purpose of using negative politeness strategies?

a) To establish a sense of independence

b) To appeal to common goals or friendship

c) To avoid face-threatening acts

d) To emphasize the hearer's right to freedom

22.Which politeness strategy emphasizes the speaker and hearer's independence and freedom?

a) Solidarity strategy

b) Deference strategy

c) Positive politeness

d) Negative politeness

23.What is the purpose of using the solidarity strategy in politeness?

a) To appeal to common goals and friendship

b) To emphasize the hearer's right to freedom

c) To establish dominance and control

d) To avoid face-threatening acts

24.What type of politeness strategy is associated with inclusive terms like "we" and "let's"?

a) Solidarity strategy

b) Deference strategy

c) Positive politeness

d) Negative politeness

25.What does the assumption of pre-sequences in politeness theory suggest?

a) Face is typically at risk when the other is involved.

b) Pre-sequences help establish dominance in conversations.

c) Pre-sequences are used to avoid face-threatening acts.

d) Pre-sequences are irrelevant in social interactions.

CODE:ENG508 SUBJECTIVE PART LESSON:30

1.What is the general concept of politeness?

Vuhelpers24 Sir Zahid

Answer: Politeness generally refers to being tactful, modest, and nice to other people, showing awareness and consideration of another person's face.

2.How can politeness be defined in pragmatics?

Answer: In pragmatics, politeness can be defined as "showing awareness and consideration of another person's face," which means having or showing good manners and respect for the feelings of others.

3.What is the concept of "Face" in politeness theory?

Answer: "Face" refers to the public self-image of a person, the emotional and social sense of self that one expects everyone else to recognize.

4.What is a face-threatening act?

Answer: A face-threatening act is when someone says something that represents a threat to another person's self-image.

5.What is a face-saving act?

Answer: A face-saving act is when someone says something to lessen the possible threat to another person's face, typically in response to a face-threatening act.

6.What are positive face-threatening acts?

Answer: Positive face-threatening acts are direct challenges to the face of the listener, including threats, insults, and belittling.

7.What are negative face-threatening acts?

Answer: Negative face-threatening acts occur when the speaker impinges on the listener's negative face, requiring a verbal response or action.

8.What is positive face in politeness theory?

Answer: Positive face reflects the desire to have one's self-image approved of by others and the need to be connected and belong to a group.

9.What is negative face in politeness theory?

Answer: Negative face is the need to be independent and free from imposition, representing a person's right not to be dominated by others.

10.How do politeness strategies differ based on positive and negative face?

Answer: Politeness strategies will differ depending on whether a person is dealing with another's positive or negative face, emphasizing connection or independence, respectively.

11.What is the difference between off-record and bald on-record statements?

Answer: Off-record statements are indirect and not directly addressed to the other person, while bald on-record statements are direct and explicitly express one's needs or requests.

12.What is the purpose of mitigating devices in bald on-record expressions?

Answer: Mitigating devices, such as using "please" or "would you," serve to soften the demand in bald on-record expressions.

13.What is the purpose of positive politeness strategies?

Answer: Positive politeness strategies aim to appeal to common goals or establish familiarity and connection with the listener.

14.When is negative politeness used?

Answer: Negative politeness is used when speakers know they are impinging on a person's time or want to show respect for the listener's freedom.

15.What is the solidarity strategy in politeness?

Answer: The solidarity strategy emphasizes positive politeness, emphasizing closeness between the speaker and the hearer, and includes personal information and inclusive terms.

16.What is the deference strategy in politeness?

Answer: The deference strategy emphasizes negative politeness forms, emphasizing the hearer's right to freedom, and is often associated with formal politeness.

17.How does independence manifest in the deference strategy?

Answer: The deference strategy emphasizes the speaker's and hearer's independence through an absence of personal claims and a more impersonal tone.

18.What is the concept of pre-sequences in politeness?

Answer: Pre-sequences involve a way to avoid face risk by using pre-requests or pre-announcements to gauge the willingness or attention of the other person.

19.How do pre-requests work in conversation?

Answer: Pre-requests help to know the answer or response from the other person, either with a "go-ahead" or a "stop" response.

20.How do children use pre-announcements?

Answer: Children often use pre-announcements to check if their parents are willing to pay attention or be involved in a particular activity or conversation.
