CODE: ENG509 OBJECTIVE PART LESSON:21

1.Grammar is traditionally subdivided into which two areas of study?

a) Syntax and semantics

b) Morphology and phonetics

c) Morphology and syntax

d) Semantics and phonology

2.What is the study of the way in which phrases and sentences are structured out of words called?

a) Morphology

b) Semantics

c) Syntax

d) Phonetics

3.What is the central assumption underpinning syntactic analysis in traditional grammar?

a) Words have semantic properties

b) Sentences consist of constituents

c) Words have morphological properties

d) Sentences have grammatical functions

4.What is the task of a linguist in analyzing the syntactic structure of a sentence?

a) Identify the semantic properties of each word

b) Identify the grammatical functions of each word

c) Identify the morphological properties of each word

d) Identify the constituents in the sentence

5.Which category does the word "students" belong to in the sentence "Students protested"?

a) Verb

b) Adjective

c) Noun

d) Adverb

6.What is the categorial status of the overall sentence "Students protested"?

a) Clause

b) Phrase

c) Verb

d) Adjective

7.Which grammatical category includes words with substantive lexical content?

a) Content words/connectives

b) Function words/functors

c) Nouns

d) Verbs

8.What is the semantic property of nouns?

a) Denote entities

b) Denote actions or events

c) Denote states or attributes

d) Denote the manner in which an action is performed

9.Which subtype of noun denotes an uncountable mass?

a) Proper noun

b) Common noun

c) Mass noun

d) Count noun

10.Which category does the word "eat" belong to?

a) Noun

b) Verb

c) Adjective

d) Adverb

11.Which category denotes states or attributes?

a) Verb

b) Adjective

c) Noun

d) Adverb

12.Which property do many adjectives have in terms of morphology?

a) They have comparative forms ending in -er and superlative forms ending in -est.

b) They have no obvious antonyms.

c) They are formed from adjectives by the addition of the suffix -ly.

d) They can occur after "be" to complete a sentence.

13.What is the function of adverbs in a sentence?

a) Modify nouns

b) Indicate tense

c) Modify verbs, adjectives, or other adverbs

d) Express possession

14.Which category does the word "quickly" belong to in the sentence "She ran quickly"?

a) Verb

b) Adjective

c) Noun

d) Adverb

15.What is the purpose of studying phonetics in grammar?

a) To analyze sentence structure

b) To study word meanings

c) To understand the sounds of language

d) To examine grammatical functions

16.Which term refers to the study of the sound patterns of a language?

a) Phonology

b) Morphology

c) Syntax

d) Semantics

17.What is the smallest meaningful unit in a language called?

a) Morpheme

b) Phoneme

c) Syllable

d) Clause

18.What is the study of word structure and formation called?

a) Phonetics

b) Semantics

c) Syntax

d) Morphology

19.Which category does the word "unhappiness" belong to?

a) Verb

b) Adjective

c) Noun

d) Adverb

20.What is the process of adding affixes to a base word called?

a) Derivation

b) Conjugation

c) Inflection

d) Transformation

21.Which term refers to a word that has the same or similar meaning as another word?

a) Antonym

b) Synonym

c) Homonym

d) Hypernym

22.What is the study of word meanings called?

a) Phonetics

b) Morphology

c) Syntax

d) Semantics

23.Which category does the word "happily" belong to?

a) Verb

b) Adjective

c) Noun

d) Adverb

24.What is the study of sentence meaning and structure called?

a) Phonology

b) Morphology

c) Syntax

d) Semantics

25.What is the smallest unit of sound in a language called?

a) Morpheme

b) Phoneme

c) Syllable

d) Clause

26.What is the study of the structure of words and word formation called?

a) Phonology

b) Semantics

c) Syntax

d) Morphology

27.Which category does the word "beautiful" belong to?

a) Verb

b) Adjective

c) Noun

d) Adverb

28.What is the process of adding grammatical information to a word called?

a) Derivation

b) Conjugation

c) Inflection

d) Transformation

29.Which term refers to words that have opposite meanings?

a) Antonym

b) Synonym

c) Homonym

d) Hypernym

30.What is the study of sentence structure called?

a) Phonetics

b) Morphology

c) Syntax

d) Semantics

31.What is the study of the meaning of words and phrases called?

a) Phonology

b) Morphology

c) Syntax

d) Semantics

32.Which category does the word "swimming" belong to?

a) Verb

b) Adjective

c) Noun

d) Adverb

33.What is the study of the sound patterns of a language called?

a) Phonology

b) Morphology

c) Syntax

d) Semantics

34.What is the process of combining two or more words to create a new word called?

a) Derivation

b) Conjugation

c) Inflection

d) Compounding

35.Which category does the word "cat" belong to?

a) Verb

b) Adjective

c) Noun

d) Adverb

36.What is the study of the structure of sentences and phrases called?

a) Phonology

b) Morphology

c) Syntax

d) Semantics

37.What is the process of changing the form of a word to express grammatical features called?

a) Derivation

b) Conjugation

c) Inflection

d) Transformation

38.Which term refers to words that have the same sound but different meanings?

a) Antonym

b) Synonym

c) Homonym

d) Hypernym

39.What is the study of word meanings called?

a) Phonetics

b) Morphology

c) Syntax

d) Semantics

CODE: ENG509 SUBJECTIVE PART LESSON:21

1.What are the two different areas of study in grammar traditionally subdivided into?

Answer: Morphology and syntax.

2.What do morphological operations involve?

Answer: Morphological operations involve the manipulation of word forms.

3.Can you provide an example of a complex word?

Answer: Antidisestablishmentarianism.

4.What does syntax study?

Answer: Syntax studies the structure of phrases and sentences and how they are formed from words.

5.What type of questions does syntax address?

Answer: Syntax addresses questions about the structure of sentences, such as "What is the structure of a sentence like 'What's the president doing?'"

6.How is the syntax of a language described in traditional grammar?

Answer: The syntax of a language is described in terms of a taxonomy or classificatory list of different types of syntactic structures found in the language.

7.What is the central assumption in traditional grammar regarding syntactic analysis?

Answer: The central assumption is that sentences and phrases are composed of constituents belonging to specific grammatical categories and serving specific grammatical functions.

8.What is the task of a linguist in analyzing the syntactic structure of a sentence?

Answer: The task is to identify the constituents in the sentence, determine their grammatical category and function.

9.How many constituents does the sentence "Students protested" consist of?

Answer: The sentence consists of two constituents.

10.What are the grammatical categories of the constituents in the sentence "Students protested"?

Answer: The first constituent "Students" belongs to the grammatical category of plural noun, and the second constituent "protested" belongs to the grammatical category of past tense verb.

11.What are the grammatical functions of the constituents in the sentence "Students protested"?

Answer: The first constituent "Students" serves as the subject of the sentence, and the second constituent "protested" serves as the predicate.

12.What is the categorial status of the overall sentence "Students protested"?

Answer: The overall sentence has the categorial status of a finite clause.

13.What semantic function does the sentence "Students protested" have?

Answer: The sentence expresses a proposition that is declarative in force.

14.What is the simplest type of finite declarative clause found in English according to traditional grammar?

Answer: The simplest type is a sentence like "The students protested," where a nominal subject is followed by a verbal predicate.

15.How are words assigned to grammatical categories in traditional grammar?

Answer: Words are assigned to grammatical categories based on their semantic properties, morphological properties, and syntactic properties.

16.What are content words and function words?

Answer: Content words have substantive lexical content, while function words essentially serve to mark grammatical properties.

17.Can you provide an example of a content word and a function word?

Answer: A noun like "car" is a content word, while a pronoun like "they" is a function word.

18.What is the difference between contentive words and factors?

Answer: Contentive words have descriptive content and can have antonyms, while factors like pronouns have no descriptive content and do not have obvious antonyms.

19.What are the main lexical/substantive categories found in English?

Answer: Noun, verb, adjective, adverb, and preposition.

20.What does a noun denote?

Answer: A noun denotes entities or objects.

21.What are the distinct subtypes of nouns?

Answer: Count nouns and mass nouns.

22.What is the semantic property of verbs?

Answer: Verbs denote actions or events.

23.What is the syntactic property of verbs?

Answer: Only an appropriate kind of verb can be used to complete a sentence.

CODE: ENG509 OBJECTIVE PART LESSON:22

1.What is syntax?

a) The study of word meaning

b) The study of sentence structure and word order

c) The study of phonetics and phonology

d) The study of language acquisition

2.Which of the following is NOT a component of syntax?

a) Word order

b) Phonetics

c) Phrase structure

d) Sentence construction

3.What does the term "grammar" typically encompass?

a) Syntax only

b) Word meanings only

c) All organizing principles of a language

d) Phonetics and phonology

4.Which of the following word orders is the most common in languages?

a) SVO (Subject-Verb-Object)

b) VSO (Verb-Subject-Object)

c) SOV (Subject-Object-Verb)

d) OVS (Object-Verb-Subject)

5.In which language is the basic word order VSO?

a) English

b) French

c) Japanese

d) Welsh

6.Syntax allows speakers to:

a) Convey different meanings

b) Pronounce words correctly

c) Understand word meanings

d) Remember vocabulary

7.What is recursion in syntax?

a) The study of sentence construction

b) The arrangement of words in a sentence

c) The ability to embed sentences within other sentences

d) The classification of words into different categories

8.What is the term for a construction in which sentences occur within other sentences?

a) Phrase structure

b) Word order

c) Recursion

d) Embedding

9.Which of the following is an example of embedding?

a) "John is running."

b) "The cat sat on the mat."

c) "I wonder if it will rain tomorrow."

d) "She ate an apple."

10.What is the function of possessive -'s in syntax?

a) Indicate past tense

b) Show plural form

c) Denote possession

d) Modify adjectives

11.Which of the following is an example of a phrasal verb?

a) "Go away."

b) "Eat your dinner."

c) "She called off the meeting."

d) "He ran quickly."

12.What does a pro-drop language refer to?

a) A language without pronouns

b) A language with multiple dialects

c) A language with flexible word order

d) A language with complex syntax

13.Which word order change is considered marked in English?

a) Subject-Verb-Object

b) Object-Verb-Subject

c) Verb-Subject-Object

d) Subject-Object-Verb

14.Which of the following sentence structures is ungrammatical?

a) "I saw a movie last night."

b) "Last night, I saw a movie."

c) "A movie, I saw last night."

d) "I last night saw a movie."

15.What does the term "agreement" refer to in syntax?

a) The consistency of verb tense

b) The matching of grammatical features between words

c) The formation of compound words

d) The correct pronunciation of words

16.Which of the following is an example of subject-verb agreement?

a) "He runs."

b) "She run."

c) "They is."

d) "I am."

17.What is the term for the study of sentence meaning?

a) Syntax

b) Semantics

c) Phonology

d) Morphology

18.Which linguistic feature can be influenced by both syntax and semantics?

a) Word order

b) Sentence structure

c) Word meaning

d) Pronunciation

19.What is a constituent in syntax?

a) A type of verb

b) A type of adjective

c) A word or group of words that function as a single unit

d) A type of pronoun

20.Which of the following is a constituent?

a) "The"

b) "Running"

c) "The cat"

d) "And"

21.What is the term for the study of sentence structure?

a) Syntax

b) Semantics

c) Phonology

d) Pragmatics

22.Which of the following is an example of a coordinate structure?

a) "John and Mary went to the park."

b) "John went to the park."

c) "The park is beautiful."

d) "Mary played tennis."

23.What is the function of conjunctions in syntax?

a) Indicate past tense

b) Connect words, phrases, or clauses

c) Show possession

d) Modify adjectives

24.Which of the following is a subordinating conjunction?

a) "And"

b) "But"

c) "Because"

d) "Or"

25.What is the term for the study of sentence types and speech acts?

a) Syntax

b) Semantics

c) Pragmatics

d) Phonology

26.Which of the following is an example of a declarative sentence?

a) "Do you want some tea?"

b) "Close the door."

c) "I think it will rain."

d) "The cat is on the mat."

27.Which linguistic feature focuses on the study of word forms and their internal structure?

a) Syntax

b) Semantics

c) Phonology

d) Morphology

28.What is the term for the smallest meaningful unit in language?

a) Phrase

b) Word

c) Clause

d) Sentence

29.Which of the following is an example of a compound word?

a) "Running"

b) "Beautiful"

c) "Bookstore"

d) "Quickly"

30.Which linguistic feature focuses on the study of sound patterns in language?

a) Syntax

b) Semantics

c) Phonology

d) Pragmatics

CODE: ENG509 SUBJECTIVE PART LESSON:22

1.What is the main focus of syntax in linguistics?

Answer: Syntax in linguistics focuses on the study of sentence structure and how words are organized to form meaningful sentences.

2.What does the term "agreement" refer to in syntax?

Answer: In syntax, "agreement" refers to the matching of grammatical features between words, such as subject-verb agreement.

3.How does semantics relate to linguistics?

Answer: Semantics is the study of sentence meaning in linguistics. It examines how words and sentences convey meaning and interpret information.

4.What is the function of conjunctions in syntax?

Answer: Conjunctions connect words, phrases, or clauses in a sentence. They help to join different elements and show relationships between them.

5.What is the significance of constituents in syntax?

Answer: Constituents are words or groups of words that function as a single unit in a sentence. They play a crucial role in sentence structure and organization.

6.How does word order influence meaning in syntax?

Answer: Word order in a sentence can affect the meaning and interpretation of the sentence. Different word orders can convey different emphasis or nuances.

7.What is the relationship between syntax and morphology?

Answer: Syntax and morphology are closely related in linguistics. While syntax focuses on sentence structure, morphology studies the internal structure of words.

8.How does syntax contribute to effective communication?

Answer: Syntax provides a framework for organizing words and phrases in a sentence, allowing for clear and coherent communication.

9.What is the difference between declarative and interrogative sentences in syntax?

Answer: Declarative sentences make statements or convey information, while interrogative sentences ask questions. Syntax helps differentiate their structures.

10.How does syntax play a role in sentence comprehension?

Answer: Syntax influences how sentences are structured, which affects how we interpret and understand their meaning.

11.What is the significance of coordinate structures in syntax?

Answer: Coordinate structures connect words, phrases, or clauses of equal importance. They help express relationships and add complexity to sentences.

12.How does syntax contribute to sentence variety and style?

Answer: Syntax allows for the creation of different sentence structures, which can enhance sentence variety and contribute to a writer's unique style.

13.How does syntax differ across different languages?

Answer: Syntax varies across languages due to differences in word order, sentence structure, and grammatical features unique to each language.

14.What are some common syntactic errors that language learners make?

Answer: Some common syntactic errors made by language learners include incorrect word order, subject-verb agreement mistakes, and inappropriate use of conjunctions.

15.How does syntax influence the interpretation of ambiguous sentences?

Answer: Syntax provides cues and context for interpreting ambiguous sentences, helping listeners or readers determine the intended meaning.

16.What are the key components of sentence structure in syntax?

Answer: The key components of sentence structure in syntax include subjects, verbs, objects, complements, modifiers, and conjunctions.

17.How does syntax contribute to the formation of complex sentences?

Answer: Syntax allows for the combination of multiple clauses, phrases, and modifiers to form complex sentences that express more intricate ideas.

18.What are the main subfields of linguistics related to syntax?

Answer: Some main subfields related to syntax in linguistics include syntactic theory, generative grammar, and the study of sentence types.

19.How does syntax differ between spoken and written language?

Answer: Syntax can vary between spoken and written language due to differences in formality, sentence structure, and the presence of certain features like punctuation.

20.What role does syntax play in natural language processing and computational linguistics?

Answer: Syntax is a crucial component in natural language processing and computational linguistics as it helps analyze and process human language using algorithms and models.

CODE: ENG509 OBJECTIVE PART LESSON:23

1.According to Chomsky, what is the goal of the linguist?

A) To determine the cognitive processes involved in language learning.

B) To study the grammatical competence of native speakers.

C) To develop grammars of different languages.

D) To investigate the performance errors in language production.

2.What is the term used to describe native speakers' knowledge of the grammar of their language?

A) Universal Grammar

B) Language Faculty

C) Competence

D) Performance

3.What does Chomsky refer to as "performance"?

A) The ability to speak multiple languages fluently.

B) The actual use of language in concrete situations.

C) The process of language acquisition in children.

D) The study of psycholinguistics.

4.According to Chomsky, what is the study of performance more properly related to?

A) Grammar development

B) Universal Grammar

C) Language acquisition

D) Psycholinguistics

5.What is the term used to describe the language acquisition program in the brain?

A) Universal Grammar

B) Language Faculty

C) Language Acquisition

D) Innate Faculty of Language

6.Which of the following is NOT one of the criteria of adequacy for a theory of Universal Grammar?

A) Universality

B) Explanatory adequacy

C) Learnability

D) Performance factors

7.What is the main question that a theory of Universal Grammar must answer?

A) How do children acquire grammars of their native languages?

B) What are the defining characteristics of human I-languages?

C) Why do grammars of human I-languages have certain properties?

D) What is the nature of the language faculty?

8.What is the term used to describe the set of procedures for developing a grammar based on linguistic experience?

A) Universal Grammar

B) Language Acquisition Program

C) Linguistic Competence

D) Language Faculty

9.What is the term used to describe the principles that determine the very nature of language?

A) Universal Grammar

B) Innate Faculty of Language

C) Principles of UG

D) Language Acquisition Program

10.Which factor is NOT involved in the development of language in an individual?

A) Genetic endowment

B) Linguistic experience

C) Principles specific to FL

D) External data

11.What does Chomsky argue regarding the critical period for the acquisition of syntax?

A) It occurs during puberty.

B) It is determined by external factors.

C) It extends until the age of nine or ten.

D) It helps children achieve native competence in syntax.

12.What is the term used to describe aspects of grammar that vary from one language to another?

A) Universal Grammar

B) Parametrised aspects of grammar

C) Language Faculty

D) Linguistic Principles

13.What is the term used to describe the silent or invisible counterpart of a pronoun?

A) Linguistic experience

B) Null subject

C) Innate principle

D) Parameter of variation

14.What is the term used to describe the process by which new words are created in a language?

A) Morphology

B) Syntax

C) Phonetics

D) Lexicalization

15.Which linguistic theory emphasizes the social and cultural aspects of language use?

A) Functionalism

B) Generative Grammar

C) Structuralism

D) Connectionism

16.Which linguistic subfield studies the sounds of human language?

A) Semantics

B) Pragmatics

C) Phonetics

D) Syntax

17.What is the term used to describe the smallest meaningful unit of language?

A) Morpheme

B) Phoneme

C) Syntax

D) Lexeme

18.Which linguistic approach focuses on the analysis of meaning in language?

A) Pragmatics

B) Semantics

C) Sociolinguistics

D) Psycholinguistics

19.Which linguistic theory proposes that language is primarily acquired through imitation and reinforcement?

A) Behaviorism

B) Universal Grammar

C) Cognitive Linguistics

D) Interactionist Theory

20.What is the term used to describe a variant form of a morpheme?

A) Allomorph

B) Homonym

C) Synonym

D) Derivative

21.Which linguistic theory suggests that language and thought are closely interconnected?

A) Sapir-Whorf Hypothesis

B) Transformational Grammar

C) Connectionism

D) Pragmatics

22.What is the term used to describe the study of language in its social context?

A) Sociolinguistics

B) Psycholinguistics

C) Neurolinguistics

D) Computational Linguistics

23.Which linguistic subfield studies the rules governing sentence structure?

A) Syntax

B) Phonetics

C) Pragmatics

D) Morphology

24.Which linguistic theory emphasizes the role of mental structures and processes in language production and comprehension?

A) Psycholinguistics

B) Functionalism

C) Generative Grammar

D) Connectionism

25.What is the term used to describe the study of how language varies across different social groups?

A) Sociolinguistics

B) Pragmatics

C) Semiotics

D) Discourse Analysis

26.Which linguistic theory proposes that language is processed and understood through the activation of interconnected nodes in the brain?

A) Connectionism

B) Generative Grammar

C) Cognitive Linguistics

D) Behaviorism

CODE: ENG509 SUBJECTIVE PART LESSON:23

1.What is the process by which new words are created in a language?

Answer: The process by which new words are created in a language is called lexicalization.

2.Which linguistic theory emphasizes the social and cultural aspects of language use?

Answer: Functionalism emphasizes the social and cultural aspects of language use.

3.Which linguistic subfield studies the sounds of human language?

Answer: Phonetics is the linguistic subfield that studies the sounds of human language.

4.What is the smallest meaningful unit of language called?

Answer: The smallest meaningful unit of language is called a morpheme.

5.Which linguistic approach focuses on the analysis of meaning in language?

Answer: Semantics is the linguistic approach that focuses on the analysis of meaning in language.

6.Which linguistic theory proposes that language is primarily acquired through imitation and reinforcement?

Answer: Behaviorism proposes that language is primarily acquired through imitation and reinforcement.

7.What is the term used to describe a variant form of a morpheme?

Answer: A variant form of a morpheme is called an allomorph.

8.Which linguistic theory suggests that language and thought are closely interconnected?

Answer: The Sapir-Whorf Hypothesis suggests that language and thought are closely interconnected.

9.What is the study of language in its social context called?

Answer: The study of language in its social context is called sociolinguistics.

10.Which linguistic subfield studies the rules governing sentence structure?

Answer: Syntax is the linguistic subfield that studies the rules governing sentence structure.

11.Which linguistic theory emphasizes the role of mental structures and processes in language production and comprehension?

Answer: Psycholinguistics emphasizes the role of mental structures and processes in language production and comprehension.

12.What is the term used to describe the study of how language varies across different social groups?

Answer: The study of how language varies across different social groups is called sociolinguistics.

13.Which linguistic theory proposes that language is processed and understood through the activation of interconnected nodes in the brain?

Answer: Connectionism proposes that language is processed and understood through the activation of interconnected nodes in the brain.

14.What does the field of morphology study in linguistics?

Answer: The field of morphology studies the internal structure and formation of words in a language.

15.How does pragmatics differ from semantics in linguistics?

Answer: Pragmatics focuses on the use of language in context and the interpretation of meaning in communication, whereas semantics focuses on the analysis of meaning independent of context.

16.Which linguistic theory suggests that language is innate and genetically determined?

Answer: Universal Grammar suggests that language is innate and genetically determined.

17.What is the role of pragmatics in language understanding and communication?

Answer: Pragmatics helps in understanding and interpreting meaning beyond the literal words, considering the context, speaker's intentions, and social norms.

18.How does syntax contribute to sentence formation in language?

Answer: Syntax provides the rules and structures that govern how words combine to form grammatically correct sentences.

19.What is the relationship between phonetics and phonology in linguistics?

Answer: Phonetics focuses on the physical properties and production of speech sounds, while phonology studies how sounds function and pattern in a specific language or languages.

20.How do sociolinguists analyze language variation and its relationship to social factors?

Answer: Sociolinguists analyze language variation by studying how language varies across different social groups, regions, and contexts, and how social factors influence language use and change.

1.According to the given paragraph, how can the syntactic structure of a sentence be represented provisionally?

a) By underlining each constituent

b) By using curly brackets { }

c) By marking off each constituent with square brackets [ ]

d) By using angle brackets < >

2.What does the convention of bracketing in syntactic analysis yield?

a) A daunting analysis

b) Clear morpheme boundaries

c) Complex sentence structures

d) A representation of sentence structure

3.According to the paragraph, which units coincide in sentence (7) "John laughed"?

a) Words and phrases

b) Clauses and sentences

c) Phrases and sentences

d) Words and clauses

4.What is the purpose of labeled bracketing in syntactic analysis?

a) To simplify matters in sentence structure

b) To mark off constituents with appropriate labels

c) To eliminate morpheme boundaries

d) To represent only complex sentence structures

5.What other method, besides labeled bracketing, is commonly used to represent the constituent structure of sentences?

a) Morphological analysis

b) Syntactic analysis

c) Phrase structure rules

d) Tree diagram

6.According to the paragraph, what does the tree diagram provide in terms of syntactic analysis?

a) Analysis down to word level only

b) Analysis down to phrase level only

c) Analysis down to morphological level only

d) Detailed analysis at various levels

7.In the given paragraph, what is the relationship between dominance and immediate dominance in a tree diagram?

a) They are the same concept.

b) Dominance requires no intervening nodes, while immediate dominance does.

c) Immediate dominance requires no intervening nodes, while dominance does.

d) They are unrelated concepts in tree diagrams.

8.What is the purpose of phrase structure rules (PS rules) in syntactic analysis?

a) To define the relationship between sentences and discourse

b) To explain the role of subordination in sentences

c) To determine the structure of constituents in sentences

d) To establish morpheme boundaries in word analysis

9.How does subordination manifest in the tree diagram according to the given paragraph?

a) It appears as an expansion of terminal nodes.

b) It is indicated by the presence of NP nodes.

c) It is represented by the dominance of subordinate clauses.

d) It occurs within NPs rather than VPs.

10.According to the paragraph, what is the relationship between sentences and discourse?

a) Sentences are the smallest unit of discourse.

b) Sentences and discourse are unrelated concepts.

c) Sentences form part of a larger text or discourse.

d) Discourse is a random collection of sentences.

11.Based on the paragraph, what can be inferred about the internal structure of texts?

a) Texts have no structural organization.

b) The rules of sentence grammar apply to texts.

c) Texts follow a logical order and reflect a sequence of thoughts or events.

d) The structural organization of texts is the same as that of sentences.

12.In the given paragraph, what is the function of NP in the sentence "John laughed at the joke"?

a) It represents the subject of the sentence.

b) It represents the verb of the sentence.

c) It represents the direct object of the verb.

d) It represents the prepositional phrase in the sentence.

13.According to the paragraph, what is the primary difference between tree diagrams and phrase structure rules?

a) Tree diagrams represent structure visually, while phrase structure rules represent structure through text.

b) Tree diagrams only represent complex sentence structures, while phrase structure rules represent all types of sentences.

c) Tree diagrams are limited to representing immediate dominance, while phrase structure rules represent dominance at all levels.

d) Tree diagrams focus on the relationships between constituents, while phrase structure rules focus on the labeling of constituents.

14.What information can be determined by the position of a constituent in a tree diagram?

a) The length of the constituent

b) The function of the constituent in the sentence

c) The frequency of the constituent in the text

d) The syntactic category of the constituent

15.According to the paragraph, how are constituents represented in a tree diagram?

a) As terminal nodes only

b) As intermediate nodes only

c) As terminal and intermediate nodes

d) As branches connecting terminal nodes

16.What is the purpose of assigning appropriate labels to constituents in a tree diagram?

a) To indicate their syntactic category

b) To determine their length

c) To indicate their semantic meaning

d) To represent their frequency in the text

17.According to the paragraph, how are subordinate clauses represented in a tree diagram?

a) As dominant nodes

b) As immediate dominant nodes

c) As terminal nodes

d) As branches connecting nodes

18.How does the use of tree diagrams enhance syntactic analysis, as mentioned in the paragraph?

a) It simplifies the process by eliminating the need for labeled bracketing.

b) It provides a visual representation of the structure, making it easier to analyze and interpret.

c) It focuses solely on the morphological analysis of words.

d) It reduces the complexity of sentence structures, making them easier to understand.

19.What is the relationship between tree diagrams and phrase structure rules?

a) Tree diagrams are an alternative to phrase structure rules.

b) Phrase structure rules are a more detailed version of tree diagrams.

c) Tree diagrams and phrase structure rules are independent of each other.

d) Tree diagrams can be derived from phrase structure rules.

20.According to the paragraph, what do tree diagrams and phrase structure rules both aim to represent?

a) The relationship between sentences and discourse

b) The internal structure of texts

c) The syntactic structure of sentences

d) The morphological analysis of words

21.How do tree diagrams and phrase structure rules differ in terms of representing structure?

a) Tree diagrams provide a more detailed representation than phrase structure rules.

b) Tree diagrams and phrase structure rules represent structure in the same way.

c) Phrase structure rules provide a more detailed representation than tree diagrams.

d) Tree diagrams and phrase structure rules are not concerned with representing structure.

22.According to the paragraph, what are the two components of a phrase structure rule?

a) A lexical entry and a syntactic category

b) A head word and a modifier

c) A subject and an object

d) A verb and a complement

23.What does the use of tree diagrams in syntactic analysis allow linguists to do?

a) Determine the phonological features of words

b) Identify the stress patterns in sentences

c) Analyze the syntactic structure of sentences

d) Determine the semantic meaning of words

24.According to the paragraph, what does the presence of branching in tree diagrams indicate?

a) The presence of a subordinate clause

b) The presence of a coordination structure

c) The presence of a prepositional phrase

d) The presence of an embedded clause

25.How do tree diagrams assist in representing the hierarchical structure of sentences?

a) By using arrows to indicate the relationships between constituents

b) By using colors to distinguish between different types of constituents

c) By using brackets to group constituents together

d) By using indentations to indicate levels of dominance

CODE: ENG509 SUBJECTIVE PART LESSON:24

1.How can the syntactic structure of a sentence be represented provisionally?

Answer: By marking off each constituent from sentence level to word level with square brackets.

2.What does the convention of bracketing in sentence structure analysis yield?

Answer: It yields a hierarchical analysis of the sentence constituents.

3.Provide the bracketed representation of the sentence "The snake killed the rat and swallowed it."

Answer: [[[[The][snake]][[killed][[the] [rat]]]] [and] [[[swallowed][[it]]]]]

4.What are the constituent units in the bracketed representation of the sentence?

Answer: Clauses, phrases, and words.

5.Can word and morpheme boundaries coincide in a sentence?

Answer: Yes, word and morpheme boundaries can coincide in a sentence. For example, "the," "snake," and "rat" are each one word and one morpheme.

6.Give an example of a sentence where words and phrases coincide.

Answer: "John laughed." In this sentence, "John" is both a phrase (noun phrase) and a word (noun), and "laughed" is both a phrase (verb phrase) and a word (verb).

7.How can the structure of a sentence be represented using a tree diagram?

Answer: The tree diagram provides a graphical representation of the hierarchical structure of a sentence, where nodes represent constituents and branches represent their relationships.

8.What information does a tree diagram provide about the syntactic structure of a sentence?

Answer: A tree diagram provides the same information as labeled bracketing, showing the hierarchical arrangement of constituents in the sentence.

9.Can sentences vary in length and complexity?

Answer: Yes, sentences can vary in length and complexity, ranging from one clause to indefinitely many clauses.

10.What is labeled bracketing?

Answer: Labeled bracketing is a convention where an appropriate grammatical label is added to each pair of square brackets in the representation of sentence constituents.

11.How does labeled bracketing improve the notation used in sentence analysis?

Answer: Labeled bracketing makes it easier to identify which brackets go together to mark off a constituent in the sentence structure.

12.What is the purpose of using tree diagrams in representing sentence structure?

Answer: Tree diagrams provide an alternative graphical representation of sentence structure that is equivalent to labeled bracketing and conveys the same syntactic information.

13.Can texts be structured similarly to sentences?

Answer: Yes, texts also have an internal structure, although the structural organization of texts is different from that of individual sentences.

14.What do texts typically consist of?

Answer: Texts consist of multiple sentences that follow each other in a logical order and reflect a sequence of thoughts or events.

15.What are some factors that indicate the internal structure of a text?

Answer: Factors such as the order of sentences, pronouns referring to previous constituents, and connections between different sentences can indicate the internal structure of a text.

16.What is the difference between sentence grammar and text grammar?

Answer: Sentence grammar (syntax) determines the structure of individual sentences, while text grammar (discourse grammar) governs the organization of texts as a whole.

17.How are tree diagrams used to analyze sentence structure?

Answer: Tree diagrams represent the hierarchical relationships between constituents in a sentence, with terminal nodes representing words and non-terminal nodes representing phrases or clauses.

18.What is the purpose of constituency tests in syntactic analysis?

Answer: Constituency tests help identify and define the main constituents of syntactic analysis by examining how different processes affect complete constituents within a sentence.

CODE: ENG509 **OBJECTIVE PART** **LESSON:25**

1.Where does most of the silk in Britain come from?

A) Wild silk moths in India and Japan

B) Silkworms

C) Tasar and muga silk

D) Tropical forests in India

2.Which countries produce wild silk moths?

A) Britain and India

B) India and Japan

C) Britain and Japan

D) India and China

3.What is the quality of silk produced by wild silk moths compared to silkworms?

A) Finer

B) Coarser

C) Similar

D) Depends on the species

4.Which two species of wild silk are mentioned as the most important?

A) Tasar and muga

B) Silkworm and tasar

C) Muga and silkworm

D) Tasar and wild silk moths

5.Where is tasar silk produced?

A) Assam

B) Britain

C) India

D) Japan

6.What is the purpose of tethering female moths?

A) To prevent them from flying away

B) To breed them in the future

C) To protect them from predators

D) To spin cocoons

7.Which caterpillar produces muga silk?

A) Assamiensis caterpillar

B) Silkworm caterpillar

C) Majankori caterpillar

D) Tropical caterpillar

8.What affects the color and texture of muga silk?

A) The diet of the caterpillar

B) The habitat of the caterpillar

C) The age of the caterpillar

D) The climate of Assam

9.What color of silk is produced by caterpillars fed on young leaves?

A) Creamy white

B) Golden

C) Pale

D) Assorted colors

10.What sentence operation involves placing a constituent at the beginning of a sentence for emphasis?

A) Clefting

B) Pseudo-clefting

C) Passivization

D) Fronting

11.Which sentence process involves moving a constituent and surrounding it with "it was/was that"?

A) Clefting

B) Pseudo-clefting

C) Passivization

D) Fronting

12.What type of sentence is created by clefting?

A) Active sentence

B) Passive sentence

C) Cleft sentence

D) Interrogative sentence

13.What is the purpose of clefting in a sentence?

A) To change the word order

B) To emphasize a specific part

C) To make the sentence interrogative

D) To create a passive construction

14.Which type of cleft sentence involves using "it is" followed by a specific constituent?

A) It-cleft

B) Wh-cleft

C) Reversed wh-cleft

D) All-cleft

15.What is the opposite of clefting?

A) Pseudo-clefting

B) Passivization

C) Fronting

D) Inversion

16.What type of sentence is a pseudo-cleft sentence?

A) A sentence with a reversed word order

B) A sentence with a relative clause

C) A sentence with an inverted subject

D) A sentence with an interrogative pro-form

17.In a pseudo-cleft sentence, what is the position of the wh-relative clause?

A) At the beginning of the sentence

B) At the end of the sentence

C) After the verb "be"

D) Before the verb "be"

18.What is the purpose of passivization in a sentence?

A) To emphasize the subject

B) To change the word order

C) To make the sentence interrogative

D) To change the active form to the passive form

19.What term is used for the transformation of a sentence from an active form to a passive form?

A) Pseudo-clefting

B) Passivization

C) Fronting

D) Inversion

20.What is the role of the Agent in a sentence?

A) The performer of the activity

B) The recipient of the activity

C) The emphasized constituent

D) The interrogative pro-form

21.Which role undergoes the activity in a sentence?

A) Agent

B) Patient

C) Emphasized constituent

D) Interrogative pro-form

22.How does passivization affect the position of the Agent and Patient in a sentence?

A) The Agent comes before the Patient

B) The Patient comes before the Agent

C) The Agent is removed from the sentence

D) The Patient is removed from the sentence

23.What does passivization affect in a sentence?

A) Verb tense

B) Word order

C) Sentence length

D) Clause structure

24.What is the opposite of passivization?

A) Clefting

B) Pseudo-clefting

C) Activization

D) Inversion

25.Who coined the terms "passivization" and "activization"?

A) John Smith

B) Noam Chomsky

C) Jane Miller

D) Linguistic scholars

CODE: ENG509 SUBJECTIVE PART LESSON:25

1.What are the two most important wild silks?

The two most important wild silks are tasar and muga.

2.Where is tasar silk produced?

Tasar silk is produced in a humid and dense belt of tropical forest in India.

3.How are the largest cocoons used in tasar silk production?

The largest cocoons are used for future breeding in tasar silk production.

4.How are female moths tethered in tasar silk production?

Female moths are tethered by thread tied round the base of their wings to prevent them from flying away.

5.Where is muga silk produced exclusively?

Muga silk is produced exclusively in Assam.

6.What determines the color and texture of muga silk?

The color and texture of muga silk depend on the diet of the assamiensis caterpillar that produces it.

7.What color does muga silk produced from caterpillars fed on young leaves have?

Muga silk produced from caterpillars fed on young leaves is pale, almost creamy white in color.

8.What color does muga silk produced from caterpillars fed on older leaves have?

Muga silk produced from caterpillars fed on older leaves has a golden color.

9.What is clefting in sentence construction?

Clefting is a process in sentence construction where a part of the sentence is moved from its normal position to a different place to give it more emphasis.

10.How does clefting add emphasis to a sentence?

Clefting adds emphasis by placing a specific part of the sentence at the beginning and surrounding it with the words "it was" or "was that."

11.What are some examples of cleft constructions in English?

Examples of cleft constructions in English include It-cleft, Wh-cleft/Pseudo-cleft, Reversed wh-cleft/Inverted pseudo-cleft, All-cleft, Inferential cleft, and There-cleft.

12.What is a pseudo-cleft sentence?

A pseudo-cleft sentence is a type of cleft sentence where the subordinated clause is a relative clause headed by an interrogative pro-form.

13.How can pseudo-clefting affect whole constituents?

Pseudo-clefting can affect whole constituents by rearranging the sentence and placing emphasis on specific parts.

14.What is passivisation in sentence construction?

Passivisation is a process of rearranging the information in a sentence, where the patient becomes the subject and the agent, if any, follows.

15.What is the purpose of passivisation?

Passivisation is used to make the patient more prominent and can be a way to rearrange the information in a sentence.

16.How does passivisation affect the word order in a sentence?

In active sentences, the agent precedes the patient, but in passive sentences, the patient precedes the agent, if any.

17.What is the opposite of passivisation?

The opposite of passivisation is activisation, which involves transforming a passive sentence into an active form.

18.Who coined the terms passivisation and activisation?

The terms passivisation and activisation were coined by linguist Noam Chomsky.

19.What is the transformation called when a sentence changes from active to passive?

The transformation is called passivization or raising.

20.What does passivization involve?

Passivization involves transforming the direct object of an active declarative sentence into the subject of a passive sentence.

CODE: ENG509 OBJECTIVE PART LESSON:26

1.In the given text, what are "they" and "their" referring to?

a) Wild silk moths

b) Coconuts

c) Silkworms

d) Countries like India and Japan

2.What is the term used for substituting an NP with a pronoun?

a) Clefting

b) Passivisation

c) Pronominalisation

d) Fronting

3.What process is referred to as fronting or preposing?

a) Substitution

b) Clefting

c) Passivisation

d) Pronominalisation

4.What type of questions ask for a particular piece of information?

a) Yes-No questions

b) Wh-questions

c) Interrogative questions

d) Declarative questions

5.Which word is often used to introduce a wh-question?

a) Why

b) Yes

c) What

d) No

6.Which type of sentence gives information?

a) Yes-No sentence

b) Declarative sentence

c) Interrogative sentence

d) Complex sentence

7.How many sentences are there in the A-text?

a) 1

b) 2

c) 3

d) 4

8.What is a sentence called when it consists of a string of coordinated clauses?

a) Compound sentence

b) Complex sentence

c) Compound-complex sentence

d) Declarative sentence

9.Which type of sentence contains embedded clauses?

a) Simple sentence

b) Compound sentence

c) Complex sentence

d) Compound-complex sentence

10.What is the role of "that" in an embedded clause?

a) Subject

b) Object

c) Linking element

d) Modifier

11.What is the structure of a compound sentence?

a) [S1 [S2] coord [S3]]

b) [S1 [S2 subord]]

c) [S1 [S2] comp [S3]]

d) [S1 [S2] bar [S3]]

12.What are coordinate clauses introduced by?

a) Subordinators

b) Prepositions

c) Coordinators

d) Modifiers

13.What type of sentence contains mixed coordination and subordination?

a) Compound sentence

b) Complex sentence

c) Compound-complex sentence

d) Declarative sentence

14.How many clauses are there in a simple sentence?

a) 1

b) 2

c) 3

d) 4

15.What is the term for a sentence that gives a command or expresses a request?

a) Declarative sentence

b) Interrogative sentence

c) Imperative sentence

d) Exclamatory sentence

16.What type of sentence is characterized by its use of strong emotion or surprise?

a) Declarative sentence

b) Interrogative sentence

c) Imperative sentence

d) Exclamatory sentence

17.Which type of sentence begins with a conjunction and expresses a condition?

a) Conditional sentence

b) Complex sentence

c) Compound-complex sentence

d) Imperative sentence

18.What is the main function of a coordinating conjunction?

a) To join words or phrases

b) To show cause and effect

c) To introduce a subordinate clause

d) To express contrast or choice

19.Which conjunction is commonly used to express contrast?

a) And

b) But

c) Or

d) So

20.What is the purpose of using subordinators in a sentence?

a) To join independent clauses

b) To introduce a dependent clause

c) To connect coordinate clauses

d) To emphasize a point

21.Which subordinator is commonly used to indicate time relationships?

a) Because

b) Although

c) Since

d) When

22.What is the function of a relative pronoun in a sentence?

a) To show possession

b) To indicate direction

c) To connect a dependent clause to a noun

d) To express a comparison

23.Which relative pronoun is used to refer to people?

a) That

b) Which

c) Whose

d) Whom

24.What is the term for a sentence that states a fact or provides information?

a) Declarative sentence

b) Interrogative sentence

c) Imperative sentence

d) Exclamatory sentence

CODE: ENG509 SUBJECTIVE PART LESSON:26

1.In the sentence "They all spin cocoons and, although their silk is not as fine as silkworms', several species are cultivated," what do "they" and "their" relate to?

"They" and "their" relate to wild silk moths.

2.What are "they" and "their" called in linguistic terms?

"They" and "their" are pronouns or pro-forms.

3.What is the process called when pronouns are used to replace other noun phrases?

The process is called pronominalization.

4.What is the term used for moving a sentence element to the beginning of a sentence?

The term is fronting or preposing.

In the conversation provided, identify the questions asked by the coroner.

5.The questions asked by the coroner are: "Did you measure the distance?" and "Why did you measure it?"

What type of questions are "Did you measure the distance?" and "Why did you measure it?"

"Did you measure the distance?" is a Yes-No question, and "Why did you measure it?" is a wh-question.

6.What is the term used for questions that ask for a particular piece of information rather than a simple Yes or No?

Those questions are called wh-questions.

7.Give five examples of wh-questions.

Examples: "Where did John hide the money?", "What did she say?", "When did he come back?", "Which girl did Bill like best?", "Who(m) did you meet there?"

8.How are how-questions different from wh-questions?

How-questions are a type of wh-question that specifically asks about the manner, method, distance, or extent of something.

9.How are interrogative sentences and declarative sentences different?

Interrogative sentences are used to ask questions, while declarative sentences are used to supply information or make statements.

10.How many sentences are there in the given A-text?

There are four sentences in the A-text.

11.How many sentences are there in the given B-text?

There is one long sentence in the B-text, which combines the second, third, and fourth sentences of the A-text.

12.What is a compound sentence?

A compound sentence is a sentence that consists of two or more coordinated clauses.

13.Give four examples of compound sentences.

Examples: "George cheated at Harvard and Jane cheated at Yale.", "Sue went to London and stayed there for a week.", "John studied very hard last year but he failed his test.", "Paul will go to the cinema tonight, or he will stay at home to read a book."

14.What is a complex sentence?

A complex sentence is a sentence that contains an embedded clause or subordinate clause.

15.What is the difference between coordinate and subordinate clauses?

Coordinate clauses are introduced by coordinators (and, but, or, for, etc.), while subordinate clauses are introduced by subordinators (when, before, because, if, since, although, that, etc.).

16.What is a compound-complex sentence?

A compound-complex sentence is a sentence that contains both coordinated and subordinate clauses.

17.What are clauses?

Clauses are constituents of sentences or phrases. They can be coordinated to form compound sentences or embedded in other sentences or phrases to form complex sentences.

18.How is the structure of a compound sentence represented?

A compound sentence can be represented by bracketing each conjoin and labeling them with S (for sentence/clause) in the left-hand corner.

19.What is the role of the subordinator "that" in a sentence?

The subordinator "that" links an embedded sentence

CODE: ENG509 OBJECTIVE PART LESSON:27

1.Which term is used to describe the phrase "the chocolate"?

A) Chocolate

B) The NP the chocolate alternates with the noun chocolate.

C) Does the latter also count as an NP?

D) The young German girl was offering chocolate.

2.Which test helps determine if "chocolate" is an NP?

A) Clefting

B) Passivisation

C) Fronting

D) Constituency

3.According to the paragraph, how do "chocolate" and "the chocolate" behave in terms of clefting, passivisation, and fronting?

A) They behave differently.

B) They behave the same way.

C) The paragraph does not provide information about their behavior.

D) It is unclear from the given information.

4.How does the paragraph suggest treating "chocolate" and "the chocolate" grammatically?

A) As different grammatical categories.

B) As noun phrases (NPs).

C) As verbs.

D) The paragraph does not provide guidance on their grammatical treatment.

5.What is the term for the function of the sentence/clause that follows the head noun in an NP?

A) Specifier

B) Postmodifier

C) Complement

D) Premod

6.Which term describes the verb phrase (VP) in the sentence "The tramp read the diary."?

A) Subject

B) Complement

C) Premodifier

D) Postmodifier

7.Which type of verb requires a monotransitive structure?

A) Intransitive

B) Complex transitive

C) Ditransitive

D) Copula

8.What type of element is "with red hair" in the phrase "Two boys with red hair entered the room"?

A) Postmodifier

B) Specifier

C) Premodifier

D) Complement

9.Which tense marking indicates a finite verb phrase (VP)?

A) Present

B) Past

C) Future

D) Non-finite

10.What is the term for the pre-verbal elements added to verbs, such as "will," "may," "must," and "could"?

A) Modal auxiliaries

B) Postmodifiers

C) Complements

D) Adjuncts

11.How does the tense marking affect the verb in a VP?

A) It changes the form of the verb from past tense to present tense.

B) It alters the structure of the VP.

C) It determines the verb type.

D) It has no effect on the verb.

12.Which pre-verbal element is typically used to indicate a future time reference?

A) Will

B) May

C) Can

D) Shall

13.What type of phrase is "the chocolate" in the sentence "The young German girl was offering the chocolate."?

A) Noun phrase (NP)

B) Verb phrase (VP)

C) Adjective phrase (AdjP)

D) Adverb phrase (AdvP)

14.Which term is used to describe the phrase "the young German girl"?

A) Noun phrase (NP)

B) Verb phrase (VP)

C) Adjective phrase (AdjP)

D) Adverb phrase (AdvP)

15.What function does "the young German girl" serve in the sentence "The young German girl was offering the chocolate."?

A) Subject

B) Object

C) Predicate

D) Complement

16.Which of the following tests can be used to identify the subject of a sentence?

A) Passivisation

B) Fronting

C) Clefting

D) All of the above

17.In the sentence "The chocolate was eaten by the young German girl," what transformation has occurred compared to the original sentence "The young German girl was eating the chocolate."?

A) Passivisation

B) Clefting

C) Fronting

D) None of the above

18.What is the term for the element "by the young German girl" in the sentence "The chocolate was eaten by the young German girl."?

A) Postmodifier

B) Complement

C) Specifier

D) Premodifier

19.What is the term for the function of "by the young German girl" in the sentence "The chocolate was eaten by the young German girl."?

A) Agent

B) Patient

C) Theme

D) Subject

20.How does the verb phrase (VP) in the sentence "The young German girl was eating the chocolate" differ from the VP in "The chocolate was eaten by the young German girl."?

A) The verb phrase is the same in both sentences.

B) The verb phrase is more complex in the second sentence.

C) The verb phrase is less complex in the second sentence.

D) The verb phrase is missing in the second sentence.

21.Which term describes the transformation that results in the sentence "It was the chocolate that the young German girl was eating."?

A) Clefting

B) Passivisation

C) Fronting

D) None of the above

22.What is the term for the element "that the young German girl was eating" in the sentence "It was the chocolate that the young German girl was eating."?

A) Postmodifier

B) Complement

C) Specifier

D) Premodifier

23.How does the structure change between the sentences "The young German girl was offering the chocolate" and "It was the chocolate that the young German girl was offering."?

A) The structure remains the same.

B) The structure becomes more complex.

C) The structure becomes less complex.

D) The structure becomes inverted.

24.Which transformation is applied to the sentence "The young German girl was offering the chocolate" to create the sentence "It was the chocolate that the young German girl was offering."?

A) Clefting

B) Passivisation

C) Fronting

D) None of the above

CODE: ENG509 SUBJECTIVE PART LESSON:27

1.What are the two alternatives for the phrase "the chocolate"?

Answer: chocolate and The NP the chocolate

2.Can "chocolate" also be considered as an NP?

Answer: Yes

3.What tests are used to determine if "chocolate" is an NP?

Answer: Clefting, passivisation, and fronting

4.Do "chocolate" and "the chocolate" behave differently in terms of clefting, passivisation, and fronting?

Answer: No, they act in precisely the same way.

5.What is the term used to describe the constituent that follows the Head noun in an NP and functions as a postmodifier?

Answer: Postmodifier

6.What are the important differences between relative clauses and appositive clauses?

Answer: Relative clauses introduce relative pronouns, while appositive clauses give an indication of the 'content' of the idea or question.

7.What is the term for the constituent that completes the VP and is called a Complement of the verb?

Answer: NP

8.What are the six subcategorisation frames for verbs?

Answer: Intransitive, Copula, Monotransitive, Ditransitive, Complex transitive, Transitive

9.What type of elements belong to the VP but are not Complements?

Answer: Adjuncts

10.Can Adjuncts be moved to other positions in the sentence?

Answer: Yes

11.What happens to the verb forms when changing the time reference from past to present?

Answer: The form of the first element in the VP is affected.

12.What is the term for the elements added in front of the verb to mark tense?

Answer: Tense element

13.What are the pre-verbal elements called when they are added in front of the verb?

Answer: Modal auxiliaries or modals

14.How are Yes-No questions formed from declarative sentences?

Answer: By inverting the subject and auxiliary verb.

15.What is the term for the structural indeterminacy or 'reanalysis' that occurs with lexical verbs?

Answer: Verbs behaving like auxiliaries

16.What is the structure of VPs in English?

Answer: Specifier + Head + Complement + Adjunct

17.What are the phrases "very soft," "German," and "young" classified as?

Answer: Adjective phrases (AdjPs)

18.What is the head of an AdjP?

Answer: An adjective

19.What determines whether a VP is finite or non-finite?

Answer: Whether it is marked for tense or exhibits no contrast between past and present tense.

20.What term is used to describe the reanalysis of lexical verbs as auxiliaries?

Answer: Structural indeterminacy or 'reanalysis'

CODE: ENG509 OBJECTIVE PART LESSON:28

1.What are phrases consisting of a preposition followed by an NP or an S called?

a) Verb phrases

b) Adverb phrases

c) Prepositional phrases

d) Noun phrases

2.What is the head of a prepositional phrase?

a) Prepositional complement

b) Specifier

c) Complement

d) Preposition

3.What can follow the preposition in a prepositional phrase?

a) Verb

b) Noun phrase

c) Adverb

d) Prepositional complement

4.In which category can prepositional phrases occur?

a) AdvP/NP

b) VP

c) AdjP

d) NP/S/PP

5.What are phrases called that follow the preposition of a prepositional phrase?

a) Prepositional complements

b) Noun phrases

c) Adjective phrases

d) Verb phrases

6.Which of the following is an example of a postposition?

a) In

b) About

c) Ago

d) With

7.What is the head of an adverb phrase?

a) Adverb

b) Preposition

c) Noun

d) Verb

8.In which structures can adverb phrases occur?

a) NP

b) VP

c) AdjP

d) AdvP

9.What type of phrases are "very soon" and "extremely slowly"?

a) Prepositional phrases

b) Adjective phrases

c) Adverb phrases

d) Noun phrases

9.What is needed to identify the individual words in a sentence?

a) Linguistic competence

b) Grammar education

c) Fluency in the language

d) Word recognition skills

10.What is the environment in which a word occurs known as?

a) Context

b) Distribution

c) Grammar

d) Word class

11.What is the head of noun phrases?

a) Noun

b) Verb

c) Adjective

d) Preposition

12.What is the contrast between singular and plural forms of nouns called?

a) Number

b) Case

c) Gender

d) Degree

13.What are verbs called that function as the head of a VP and can be the only verb in a sentence?

a) Lexical verbs

b) Auxiliary verbs

c) Modal verbs

d) Irregular verbs

14.What are the auxiliary verbs in the sentence "She has been coming"?

a) Has and been

b) Has and coming

c) Been and coming

d) She and coming

15.What are the constituents whose head is an adjective called?

a) Adjective complements

b) Adjective phrases

c) Adverb complements

d) Adverb phrases

16.How are adverbs usually formed from adjectives?

a) By adding -ly to the adjective

b) By changing the spelling of the adjective

c) By adding -er and -est to the adjective

d) By adding more and most before the adjective

17.What is the study of language structure and rules called?

a) Linguistics

b) Syntax

c) Semantics

d) Phonetics

18.Which of the following is an example of a morpheme?

a) Book

b) Books

c) Booking

d) Booked

19.What is the smallest meaningful unit of language called?

a) Phoneme

b) Morpheme

c) Syllable

d) Word

20.What is the study of the sound system of a language called?

a) Phonetics

b) Phonology

c) Syntax

d) Semantics

21.Which of the following is a consonant sound?

a) A

b) E

c) O

d) B

22.What is the basic unit of sound in language called?

a) Phoneme

b) Syllable

c) Morpheme

d) Word

23.Which of the following is an example of an open-class word category?

a) Nouns

b) Prepositions

c) Articles

d) Pronouns

24.What is the study of meaning in language called?

a) Syntax

b) Semantics

c) Pragmatics

d) Phonetics

25.What is the term for the grammatical arrangement of words in a sentence?

a) Syntax

b) Morphology

c) Phonetics

d) Semantics

26.Which of the following is a function word?

a) Cat

b) Jump

c) The

d) Beautiful

27.What is the term for a word that has a similar meaning to another word?

a) Synonym

b) Antonym

c) Homonym

d) Homophone

28.What is the process of forming words from existing words called?

a) Derivation

b) Inflection

c) Compounding

d) Conversion

29.Which of the following is an example of an irregular verb?

a) Walked

b) Played

c) Runned

d) Went

30.What is the term for a word that refers to a person, place, thing, or idea?

a) Noun

b) Verb

c) Adjective

d) Adverb

31.Which of the following is an example of a coordinating conjunction?

a) And

b) But

c) Because

d) Or

32.What is the term for the study of sentence meaning and structure?

a) Syntax

b) Semantics

c) Pragmatics

d) Morphology

33.Which of the following is an example of a compound word?

a) Run

b) Quick

c) Playground

d) Beautiful

CODE: ENG509 SUBJECTIVE PART LESSON:28

1.What are prepositional phrases?

Phrases consisting of a preposition followed by an NP or an S.

2.What is the head of a prepositional phrase?

The preposition (P).

3.What is the complement of a prepositional phrase?

What follows the preposition, which can be an NP or an S.

4.Can a prepositional phrase be followed by another prepositional phrase?

Yes, occasionally a preposition can be followed by another prepositional phrase.

5.Is the complement of a prepositional phrase always necessary?

No, the complement can be deletable in some cases.

6.Can prepositional phrases occur within other phrases or clauses?

Yes, prepositional phrases can occur within VPs, NPs, etc.

7.What is the normal order of elements in a prepositional phrase?

P-NP (preposition followed by a noun phrase).

8.Are there postpositions in English? Give examples.

Yes, postpositions exist in English. Examples include "ago" and "aside."

9.What is an adverb phrase (AdvP)?

It is a phrase consisting of an adverb as its head.

10.Can adverb phrases occur in a VP or an AdjP?

Yes, adverb phrases can occur in a VP or an AdjP.

11.Give an example of an adverb phrase within a VP.

"He left very recently."

12.Give an example of an adverb phrase within an AdjP.

"The film was marvellously funny."

13.How do native speakers intuitively recognize words in a sentence?

Through linguistic competence and intuition.

14.What is linguistic competence?

It is the ability to recognize word boundaries in a language.

15.Can word boundaries be identified in a language you don't know?

No, it is difficult to identify word boundaries in unfamiliar languages.

16.What is a word class?

It is a category of words with similar distributional properties.

17.How can the distributional properties of words be known?

Native speakers intuitively understand the distribution of different word classes.

18.What is the head of a noun phrase (NP)?

A noun (N).

19.Can nouns vary in form?

Yes, nouns can have different forms, such as singular and plural.

20.What are lexical verbs?

Lexical verbs are main verbs that function as the head of a verb phrase (VP).

CODE: ENG509 OBJECTIVE PART LESSON:29

1.According to the phrase structure rules of English, how many constituents are there in each clause?

a) One NP and one VP

b) One NP and two VP

c) Two NP and one VP

d) Two NP and two VP

2.Which of the following is an example of an intransitive verb?

a) Read

b) Laughed

c) Turned

d) Leaned

3.Which type of verb requires an NP complement?

a) Intransitive

b) Copula

c) Monotransitive

d) Ditransitive

4.What is the function of the NP "him" in the sentence "He called him a fool"?

a) Subject

b) Direct object

c) Indirect object

d) Predicative complement

5.Which verb type requires a PP complement?

a) Intransitive

b) Copula

c) Monotransitive

d) Transitive + PP

6.What is the function of the NP "the tramp" in the sentence "John killed the tramp"?

a) Subject

b) Direct object

c) Indirect object

d) Predicative complement

7.Which grammatical function ascribes some property to the subject of the sentence?

a) Subject

b) Predicate

c) Predicative complement

d) Direct object

8.Which type of sentence element falls outside the major constituents NP and VP?

a) Subject

b) Predicate

c) Sentence adjunct

d) Predicative complement

9.Which of the following is an example of a sentence adjunct?

a) Laughing

b) Foolish

c) Unfortunately

d) In France

10.What is the function of a predicative complement?

a) Ascribing a property to the subject

b) Linking the subject and object

c) Describing the action of the verb

d) Connecting sentences in a text

11.In the sentence "The tramp was unfolding the magazine," what is the function of the NP "the magazine"?

a) Subject

b) Predicate

c) Direct object

d) Indirect object

12.Which type of verb requires an NP complement and a PP complement?

a) Intransitive

b) Copula

c) Monotransitive

d) Transitive + PP

13.Which of the following is an example of an adjunct in a sentence?

a) The tramp

b) Unfolding

c) For the second time

d) The magazine

14.What is the function of the NP "the tramp" in the sentence "The magazine was being unfolded by the tramp"?

a) Subject

b) Predicate

c) Direct object

d) Indirect object.

15.Which of the following is an example of a transitive verb?

a) Sleep

b) Run

c) Give

d) Jump

16.In the sentence "She told him a secret," what is the function of the NP "him"?

a) Subject

b) Predicate

c) Direct object

d) Indirect object

17.Which type of verb does not take an object?

a) Intransitive

b) Copula

c) Monotransitive

d) Ditransitive

18.What is the function of the NP "a fool" in the sentence "He called him a fool"?

a) Subject

b) Direct object

c) Indirect object

d) Predicative complement

19.Which of the following is an example of a copula verb?

a) Run

b) Laugh

c) Be

d) Sing

20.In the sentence "The ball rolled off the table," what is the function of the NP "the table"?

a) Subject

b) Predicate

c) Direct object

d) Indirect object

21.Which type of verb can be followed by an adjective or a noun phrase as a complement?

a) Intransitive

b) Copula

c) Monotransitive

d) Transitive + PP

22.What is the function of a subject in a sentence?

a) Describing the action of the verb

b) Linking the subject and object

c) Ascribing a property to the subject

d) Performing the action in the sentence

23.In the sentence "They found a treasure in the cave," what is the function of the NP "a treasure"?

a) Subject

b) Predicate

c) Direct object

d) Indirect object

24.Which of the following is an example of a sentence adjunct?

a) Quickly

b) Running

c) The dog

d) With a smile

25.What is the function of the NP "the dog" in the sentence "The ball was caught by the dog"?

a) Subject

b) Predicate

c) Direct object

d) Indirect object

CODE: ENG509 SUBJECTIVE PART LESSON:29

1.What is the structure of each clause?

Answer: There is always a combination of one NP and one VP per clause.

2.In sentence (7), what is the ellipted NP?

Answer: The ellipted NP in sentence (7) is "he."

3.According to the phrase structure rule, what does "S---.NP-VP" represent?

Answer: "S---.NP-VP" represents the structure of a sentence, with an NP followed by a VP.

4.How can lexical verbs be classified?

Answer: Lexical verbs can be classified according to the type of complementation they take.

5.What are the different types of verb frames mentioned?

Answer: The different types of verb frames mentioned are intransitive, copula, monotransitive, ditransitive, complex transitive, intransitive + PP, and transitive + PP.

6.Give an example of a multi-word verb that takes no complement.

Answer: "Go out" is an example of a multi-word verb that takes no complement.

7.What is the term used to describe the grammatical specification of a verb that reflects its semantic content?

Answer: The term used is "subcategorisation frame."

8.What are the three characteristics of Subject NPs mentioned?

Answer: The three characteristics of Subject NPs mentioned are Subject-Auxiliary Inversion (SAI), agreement in number with the first element in the VP, and pronoun substitution with subjective form.

9.What is the function of the VP in a sentence?

Answer: The function of the VP is to predicate something of the Subject.

10.What are the two types of peripheral sentence elements mentioned?

Answer: The two types of peripheral sentence elements mentioned are sentence adjuncts that specify the speaker's attitude and sentence adjuncts that connect sentences in a text.

11.What are Complements in the VP?

Answer: Complements in the VP are obligatory constituents that complete the VP and are selected by the lexical verb.

12.What is the function of a Predicative Complement (Pc)?

Answer: The function of a Predicative Complement is to ascribe some property to the Subject of the sentence.

13.Give an example of a sentence with a Predicative Complement.

Answer: "Jane seemed a good student."

14.What does the Direct Object (Od) represent?

Answer: The Direct Object represents the NP-Complement of a verb.

15.What is the term used for verbs that subcategorize for a constituent functioning as Od?

Answer: Verbs that subcategorize for a constituent functioning as Od are called monotransitive verbs.

16.What happens to the NP-Complement when a sentence is passivized?

Answer: The NP-Complement becomes the Subject of the passive sentence.

17.What is the function of the NP-Complement when it becomes the Subject of a passive sentence?

Answer: The function of the NP-Complement when it becomes the Subject of a passive sentence is Object.

18.Which constituent in sentence (7) is considered obligatory?

Answer: The NP "the magazine" is considered obligatory in sentence (7).

19.Can the NP "the magazine" be omitted in sentence (7)?

Answer: No, the NP "the magazine" cannot be omitted in sentence (7).

20.What type of verbs are unfold and subcategorize?

Answer: Unfold and subcategorize are monotransitive verbs.

CODE: ENG509 OBJECTIVE PART LESSON:30

1.What is the term used for the grammatical function of a noun phrase that receives the action of a transitive verb?

a) Subject

b) Direct Object

c) Indirect Object

d) Adverbial Complement

2.Which of the following verbs can take both a Direct Object and an Indirect Object?

a) Laugh

b) Sleep

c) Give

d) Run

3.In the sentence "She poured a drink for the tramp," what is the adverbial complement?

a) She

b) Poured

c) A drink

d) For the tramp

4.Which of the following is an example of an intransitive verb?

a) Put

b) Remind

c) Pour

d) Give

5.The adverbial complement in a sentence provides additional information about:

a) The subject

b) The verb

c) The object

d) The adjective

6.Which of the following verbs is not a complex transitive verb?

a) Call

b) Set

c) Snore

d) Fling

7.What does a complex transitive verb require in its complementation pattern?

a) An object and an adverbial complement

b) An object and a prepositional phrase

c) Two objects

d) A subject and an object

8.In the sentence "He put the money in a box," what is the direct object?

a) He

b) Put

c) The money

d) In a box

9.Which of the following verbs can be followed by an adverbial complement?

a) Laugh

b) Belong

c) Lean

d) Last

10.What is the function of the adjective phrase "free" in the sentence "She set the prisoners free"?

a) Adverbial Complement

b) Direct Object

c) Indirect Object

d) Predicative Complement

11.Which of the following verbs is not intransitive?

a) Yawn

b) Sleep

c) Laugh

d) Put

12.What is the term used for a constituent that follows a verb and provides information about place, manner, time, etc.?

a) Subject

b) Object

c) Complement

d) Adjunct

13.Which of the following is an example of a sentence adjunct?

a) She walked slowly.

b) He laughed at the joke.

c) They ate dinner together.

d) The book is on the shelf.

14.Which of the following is a VP-adjunct in the sentence "He spoke softly"?

a) He

b) Spoke

c) Softly

d) The sentence is missing a VP-adjunct

15.What is the grammatical function of an adverbial complement?

a) It modifies a noun.

b) It completes the meaning of a verb.

c) It indicates the subject of a sentence.

d) It acts as an adjective.

16.Which of the following verbs cannot take an adverbial complement?

a) Live

b) Sing

c) Jump

d) Play

17.In the sentence "He gave a present to his sister," what is the indirect object?

a) He

b) Gave

c) A present

d) To his sister

18.Which of the following verbs requires both a direct object and a predicative complement?

a) Become

b) Sleep

c) Cry

d) Run

19.What is the function of the adverbial complement in the sentence "She ran quickly"?

a) It describes the subject.

b) It describes the object.

c) It describes the verb.

d) It describes the adverb.

20.Which of the following verbs is not transitive?

a) Give

b) Buy

c) Laugh

d) Sell

21.What is the term used for a constituent that completes the meaning of a verb and follows a direct object?

a) Subject

b) Object

c) Complement

d) Adjunct

22.Which of the following is a prepositional phrase acting as an adverbial complement?

a) He walked the dog.

b) She laughed loudly.

c) They met at the park.

d) The bird flew high.

23.In the sentence "The teacher scolded the student harshly," what is the direct object?

a) The teacher

b) Scolded

c) The student

d) Harshly

24.Which of the following verbs can take both a direct object and an indirect object?

a) Sit

b) Stand

c) Tell

d) Run

25.What is the function of a predicative complement?

a) It modifies a noun.

b) It completes the meaning of a verb.

c) It indicates the subject of a sentence.

d) It acts as an adjective.

CODE: ENG509 SUBJECTIVE PART LESSON:30

1.What are the two NPs in sentence (11) from the given example?

Answer: The two NPs in sentence (11) are "the tramp" and "no chocolate."

2.Can both NPs in sentence (11) become the subject of a passive sentence?

Answer: Yes, both NPs can become the subject of a passive sentence.

3.Rewrite sentence (13) in the passive voice.

Answer: The passive voice of sentence (13) is "No chocolate had been given to the tramp."

4.Rewrite sentence (14) in the passive voice.

Answer: The passive voice of sentence (14) is "The tramp had been given no chocolate."

5.Can the NP "the tramp" be replaced by a PP with "to" in sentence (11)?

Answer: Yes, the NP "the tramp" can be replaced by a PP with "to" in sentence (11), as shown in "She had given no chocolate to the tramp."

6.Can the NP "no chocolate" be replaced by a PP with "to" in sentence (11)?

Answer: No, the NP "no chocolate" cannot be replaced by a PP with "to" in sentence (11).

7.Give an example of a ditransitive verb.

Answer: An example of a ditransitive verb is "give."

8.Provide an example of the verb "pour" with an indirect object.

Answer: An example of the verb "pour" with an indirect object is "She poured the tramp a drink."

9.Can the indirect object in sentence (19) be replaced by a PP with "to"?

Answer: No, the indirect object in sentence (19) cannot be replaced by a PP with "to."

10.What is the function of an adverbial complement (Ac)?

Answer: An adverbial complement (Ac) provides additional information about the place, manner, time, duration, etc., of an activity.

11.Give an example of a sentence with an adverbial complement.

Answer: An example of a sentence with an adverbial complement is "The newspaper remained with Mr. Ellis for three hours."

12.Can the sentence "The newspaper remained for three hours" be considered grammatical?

Answer: No, the sentence "The newspaper remained for three hours" is not grammatical.

13.How is an adverbial complement realized in a sentence?

Answer: An adverbial complement can be realized by a prepositional phrase (PP) or an adverb phrase (AdvP).

14.Provide an example of a verb that takes an adverbial complement realized by an adverb phrase (AdvP).

Answer: An example of a verb that takes an adverbial complement realized by an adverb phrase (AdvP) is "He remained there."

15.What is the difference between an adverbial complement and an object?

Answer: An adverbial complement provides additional information about the activity, while an object is directly affected by the verb.

16.Give an example of a verb that takes both an object and an adverbial complement.

Answer: An example of a verb that takes both an object and an adverbial complement is "put" in the sentence "John put the money in a box."

17.What are complex transitive verbs?

Answer: Complex transitive verbs are verbs that require two complements, one being the direct object and the other having both adverbial and predicative functions.

18.Provide an example of a complex transitive verb.

Answer: An example of a complex transitive verb is "call" in the sentence "She called him foolish."

CODE: ENG509 OBJECTIVE PART LESSON:31

1.In sentence (97), what type of adjunct is "slowly"?

a) Adverbial

b) Verb Complement

c) Sentence Adjunct

d) Verbless Clause

2.What is the grammatical function of the NP "the house" in example (101)?

a) Indirect Object

b) Direct Object

c) Subject

d) Predicative Complement

3.What is the function of "red" in example (101)?

a) Adjective Complement

b) Predicative Complement

c) Adverbial

d) Subject

4.Which label is given to optional, predicative and adverbial adjuncts?

a) P+C

b) S+A

c) P+A

d) S+C

5.What kind of clause is "He believed sincerely that a friendship with her would be exciting" in sentence (123)?

a) Main Clause

b) Adjective Clause

c) Adverbial Clause

d) Object Clause

6.What function does the embedded clause "that he should never meet her again" serve in sentence (122)?

a) Adverbial

b) Verb Complement

c) Predicative Complement

d) Sentence Adjunct

7.In sentence (123), what is the Subject of the embedded clause "a friendship with her would be exciting"?

a) He

b) friendship

c) her

d) with her

8.The phrase "in trouble" in sentence (174b) functions as what type of clause?

a) Adjective Clause

b) Subject Clause

c) Verb Complement Clause

d) Verbless Clause

9.What is the surface structure of the sentence "They painted the house red"?

a) The house was painted by them red.

b) The house was painted by them.

c) They painted the house red.

d) The house was painted red.

10.Which operation results in the sentence "When did someone call to William? *As far as I know"?

a) Clefting

b) Wh-questioning

c) Extraposition

d) Pronominalisation

11.What type of clause is "that he should dislike the little girl intensely" in sentence (124)?

a) Verb Complement Clause

b) Predicative Complement Clause

c) Adjective Clause

d) Subject Clause

12.What is the main function of "in trouble" in sentence (174b)?

a) Verb Complement

b) Sentence Adjunct

c) Adjective Complement

d) Subject

13.Which process results in the sentence "What Jane did was give this book to Bill on Saturday"?

a) Wh-questioning

b) Clefting

c) Passivisation

d) Pronominalisation

14.What is the underlying structure of the sentence "He found the assignment more difficult than he had expected"?

a) S [NP He] [VP found [NP the assignment] [AdjP more difficult than [NP he] [VP had expected]]]

b) S [NP He] [VP found [NP the assignment] [AdjP more difficult than he] [VP had expected]]

c) S [NP He] [VP found [NP the assignment] [AdjP more difficult than [NP he] [VP had expected]]]

d) S [NP He] [VP found [NP the assignment] [AdjP more difficult than [NP he had expected]]]

15.What type of clause is "He judged the man in his fifties" in sentence (160)?

a) Adjective Clause

b) Verbless Clause

c) Adverbial Clause

d) Adjective Complement Clause

16.What function does the embedded clause "that he should dislike the little girl intensely" serve in sentence (121)?

a) Verb Complement

b) Verbless Clause

c) Adjective Complement

d) Sentence Adjunct

17.What is the surface structure of the sentence "It was on Saturday that Jane gave this book to Bill"?

a) Jane gave this book to Bill on Saturday.

b) Jane gave this book to Bill on Saturday, it was.

c) Jane gave this book to Bill, it was on Saturday.

d) It was Jane who gave this book to Bill on Saturday.

18.Which label is given to obligatory, predicative, and adverbial adjuncts?

a) P+C

b) S+A

c) P+A

d) S+C

19.What is the grammatical function of "the prisoners" in example (105)?

a) Indirect Object

b) Direct Object

c) Subject

d) Predicative Complement

20.In example (156), what does the NP "the dress" serve as in the underlying structure?

a) Direct Object

b) Indirect Object

c) Subject

d) Predicative Complement

21.What type of clause is "When waiting for the train" in example (173b)?

a) Object Clause

b) Adjective Clause

c) Verb Complement Clause

d) Verbless Clause

22.What type of clause is "that he had lost his ticket" in sentence (173a)?

a) Object Clause

b) Adjective Clause

c) Adverbial Clause

d) Verbless Clause

23.In example (160), what is the function of "in his fifties"?

a) Verb Complement

b) Subject

c) Adjective Complement

d) Adverbial

24.What is the surface structure of the sentence "They have painted the house red"?

a) The house has been painted red by them.

b) The house was painted red by them.

c) The house has been painted red.

d) The house was painted by them red.

25.Which operation results in the sentence "The house was given to Bill (by Jane) on Saturday"?

a) Wh-questioning

b) Clefting

c) Passivisation

d) Pronominalisation

CODE: ENG509 SUBJECTIVE PART LESSON:31

Question1: What does the term "VP-Adjunct" refer to in the context of the given paragraph?

Answer: The term "VP-Adjunct" refers to an adverbial element that occurs inside the verb phrase, expressing the manner of an action.

Question2: How is the structure of (105) different from (106)?

Answer: The only difference between (105) and (106) is that "free" in (106) is nonomissible, while "red" in (105) is optional and can be omitted without altering the sense of the sentence.

Question3: What are Predicative Adjuncts (P+A) according to the paragraph?

Answer: Predicative Adjuncts (P+A) are adjuncts that are both predicative and adverbial, but they are optional elements within the sentence.

Question4: Provide an example of a Paraphrase (107a) from the paragraph.

Answer: An example of a paraphrase similar to (107a) is "They have painted the house, and more specifically, they painted it red."

Question5: What is the GF (Grammatical Function) of the NP "the house" in (101)?

Answer: The GF of the NP "the house" in (101) is Od (Direct Object).

Question6: In sentence (122), what type of embedded clause is present?

Answer: In sentence (122), there is a finite embedded clause.

Question7: What type of clause functions as an adjunct in (145)?

Answer: In (145), the clause "When Mrs. Carey passed the dissenting ministers in the street" functions as a VP-Adjunct.

Question8: Provide an example of a Sentence Adjunct (Sa) from the paragraph.

Answer: An example of a Sentence Adjunct (Sa) is "as far as I know" in sentence (147).

Question9: What is the grammatical function of the infinitive clause in (180)?

Answer: The grammatical function of the infinitive clause in (180) is VP-Adjunct.

Question10: How can the difference between VP-Adjuncts and Sentence Adjuncts be tested using focusing and wh-questioning tests?

Answer: VP-Adjuncts can be focused on and wh-questioned, whereas Sentence Adjuncts cannot be focused on and cannot be questioned with wh-items.

Question11.: In sentence (174b), what type of clause is "whenever in trouble"?

Answer: In sentence (174b), "whenever in trouble" is a Sentence Adjunct.

Question12: Provide an example of a sentence where a Yes-No question is formed from the underlying structure (2c).

Answer: A Yes-No question formed from the underlying structure (2c) would be "Did Jane give this book to Bill on Saturday?"

Question13: What operation is performed to create a Yes-No question from an underlying structure?

Answer: To create a Yes-No question, the auxiliary verb "Did" is added before the subject in the underlying structure.

Question14.: What is the function of the surface structure in (177)?

Answer: The surface structure (177) is an imperative sentence, giving a directive or command.

Question15: How is pronominalization defined in the context of the given paragraph?

Answer: Pronominalization is the act of replacing full lexical NPs with pronominal elements (e.g., pronouns).

Question16: What is the grammatical structure of (156) after pronominalization?

Answer: After pronominalization, (156) becomes "I want it ready by five o'clock."

Question17: What is the relationship between surface structures and underlying structures?

Answer: Surface structures result from applying one or more operations to the underlying structures, leading to different sentence patterns.

Question18: In sentence (178), what operation has been performed on the underlying structure (3a)?

Answer: In sentence (178), the operation of passivization has been performed on the underlying structure (3a).

Question19: What is the effect of the passivization operation on the sentence structure?

Answer: The passivization operation changes the active voice to passive voice, and the object of the active sentence becomes the subject of the passive sentence.

Question20: How is the surface structure (3b) formed from the underlying structure (3a)?

Answer: The surface structure (3b) is formed by attaching the past tense affix to the verb "give," resulting in "She gave it to him on Saturday."

CODE: ENG509 OBJECTIVE PART LESSON:32

1.What are the three main operations that relate questions to basic sentence patterns?

(a) Subject-Auxiliary version, Pronoun substitution, and Negation

(b) Subject-Auxiliary inversion, Pronoun movement, and Wh-substitution

(c) Subject-Auxiliary version, do-insertion, and Wh-movement

(d) Subject-Verb agreement, Verb tense, and Clause formation

2.Which of the following is NOT one of the types of questions distinguished in English?

(a) Yes-No questions

(b) Wh-questions

(c) Direct questions

(d) Indirect questions

3.What type of questions are formed by moving the first auxiliary to the left and placing it in front of the subject?

(a) Yes-No questions

(b) Wh-questions

(c) Direct questions

(d) Indirect questions

4.Which transformation is responsible for changing the order of elements in a sentence to form Yes-No questions?

(a) Wh-movement

(b) Subject-Auxiliary inversion

(c) Pronoun substitution

(d) Negation

5.In which sentences does Subject-Auxiliary Inversion (SAI) occur without do-insertion?

(a) Yes-No questions

(b) Wh-questions

(c) Direct questions

(d) Indirect questions

6**.Which sentence demonstrates the application of do-insertion?**

(a) Did you show me your drawings?

(b) Did you like my drawings?

(c) Did you do some drawings?

(d) Did you keep my drawings?

7.What is the purpose of do-insertion in forming questions?

(a) To add emphasis to the question

(b) To invert the subject and verb

(c) To create indirect questions

(d) To replace the modal auxiliary

8.What transformation is responsible for moving a constituent containing a wh-word into the +WH slot in front of the sentence?

(a) Wh-movement

(b) Subject-Auxiliary inversion

(c) Pronoun substitution

(d) Passive transformation

9.In which sentences can preposition stranding occur?

(a) Wh-questions only

(b) Yes-No questions only

(c) Both Yes-No and Wh-questions

(d) Neither Yes-No nor Wh-questions

10.Which of the following is NOT a type of wh-phrase?

(a) Subject

(b) Direct object

(c) Adverb of manner

(d) Adverb of place

11.Which transformation applies vacuously to Subject wh-phrases since they already appear at the beginning of the sentence?

(a) Wh-movement

(b) Subject-Auxiliary inversion

(c) Do-insertion

(d) Passive transformation

12.What does SAI stand for in the context of question formation?

(a) Subject-Auxiliary Inversion

(b) Sentence-Auxiliary Insertion

(c) Subordinate-Auxiliary Inversion

(d) Subject-Adverb Insertion

13.What type of question does NOT involve SAI or do-insertion?

(a) Yes-No questions

(b) Wh-questions with Subject wh-phrases

(c) Wh-questions with Object wh-phrases

(d) Indirect questions

14.Which part of speech can be pied-piped when forming wh-questions with prepositional phrases?

(a) Adjective

(b) Noun

(c) Adverb

(d) Verb

15.What is the purpose of pied-piping in wh-questions with prepositional phrases?

(a) To move the entire prepositional phrase

(b) To replace the preposition with a wh-word

(c) To invert the subject and verb

(d) To create indirect questions

16.What part of the sentence is affected by wh-movement when forming questions with subject wh-phrases?

(a) Subject

(b) Object

(c) Preposition

(d) Adverb

17.In which transformation are the subcategorization frames of lexical verbs crucial for justifying the question formation?

(a) Wh-movement

(b) Subject-Auxiliary inversion

(c) Do-insertion

(d) Passive transformation

18.What term refers to the slot in front of the sentence marked for receiving wh-items?

(a) +WH

(b) +Tense

(c) +Auxiliary

(d) +Subject

19.What does the presence of a wh-phrase trigger in question formation?

(a) SAI

(b) Do-insertion

(c) Wh-movement

(d) Negation

20.What type of questions require both SAI and do-insertion?

(a) Yes-No questions

(b) Wh-questions with Object wh-phrases

(c) Indirect questions

(d) Wh-questions with Subject wh-phrases

21.Which transformation is responsible for the movement of the wh-phrase in questions?

(a) Wh-movement

(b) Subject-Auxiliary inversion

(c) Do-insertion

(d) Passive transformation

22.What is the result of applying wh-movement to a sentence with a wh-phrase?

(a) The wh-phrase is deleted from the sentence

(b) The wh-phrase is moved to the end of the sentence

(c) The wh-phrase is moved to the beginning of the sentence

(d) The wh-phrase is doubled in the sentence

23.What part of the sentence does NOT get affected by wh-movement when forming questions with subject wh-phrases?

(a) Subject

(b) Verb

(c) Object

(d) Preposition

24.What type of questions require only wh-movement without SAI or do-insertion?

(a) Yes-No questions

(b) Wh-questions with Subject wh-phrases

(c) Indirect questions

(d) Wh-questions with Object wh-phrases

25.Which part of speech does not undergo pied-piping when forming wh-questions with prepositional phrases?

(a) Verb

(b) Noun

(c) Adjective

(d) Preposition

CODE: ENG509 SUBJECTIVE PART LESSON:32

1.What are the different types of questions in English?

Answer: English has two main types of questions: Yes-No questions and Wh-questions.

2.Give an example of a Yes-No question.

Answer: Did you measure the distance?

3.Provide an example of a Wh-question.

Answer: Why did you measure it?

4.What are the two subtypes of Yes-No questions?

Answer: Yes-No questions can be direct or indirect.

5.Give an example of a direct Yes-No question.

Answer: May I go home with you?

6.Provide an example of an indirect Yes-No question.

Answer: One evening he asked whether he might go home with her.

7.How are Yes-No questions related to basic declarative structures?

Answer: Yes-No questions are related to basic declarative structures by using Subject-Auxiliary version, do-insertion, and wh-movement.

8.What are the three main operations that relate questions to basic sentence patterns?

Answer: The three main operations are Subject-Auxiliary version, do-insertion, and wh-movement.

9.Identify three direct Yes-No questions in the text provided.

Answer: The direct Yes-No questions in the text are:

(1) Shall I show you my rude drawings?

(2) Do you like my rude drawings?

(3) Would you like to keep these?

10.What distinguishes Yes-No questions from basic sentence patterns?

Answer: In Yes-No questions, the order of the first two elements in the sentence (the auxiliary and the Subject NP) is changed.

11.What transformation changes the order of elements in a sentence to form Yes-No questions?

Answer: The transformation is called Subject-Aux Inversion (SAI).

12.When does do-insertion occur in Yes-No questions?

Answer: Do-insertion occurs when there is no auxiliary in the sentence, and the tense element is moved to form the question.

13.How are Wh-questions formed?

Answer: Wh-questions are formed by moving a constituent containing a wh-word into the +WH slot in front of the sentence, along with SAI and do-insertion if necessary.

14.Provide an example of a Wh-question involving Prepositional Phrases.

Answer: What station did she ask you to pick her up at?

15.What is the term for the transformation that affects Subject wh-phrases?

Answer: The transformation that affects Subject wh-phrases is called wh-movement.

16.Is SAI required in Subject wh-questions?

Answer: No, SAI is not required in Subject wh-questions.

17.How is Wh-movement represented in underlying structure?

Answer: Wh-movement is represented by extracting the wh-phrase from its original position in S, leaving a gap marked by --, and moving the wh-phrase into the slot marked for receiving it.

18.Provide an example of a wh-movement S^{-}.

Answer: [S^{-} [+WH What] [s will John send --- to Mary]]

19.What triggers Subject-Auxiliary Inversion in Wh-questions?

Answer: The presence of the wh-word triggers Subject-Auxiliary Inversion.

20.What is the function of do-insertion in Yes-No questions?

Answer: Do-insertion is used to support the isolated tense-marker when there is no auxiliary in the sentence.

21.What are the two ways in which Wh-movement can operate with Prepositional Phrases?

Answer: Wh-movement can affect the whole PP or only the wh-word within the PP.

22.Provide an example of a complex sentence involving Wh-movement.

Answer: Who did you say had left the garage open?

23.What term is used when other elements are moved along with the wh-phrase during wh-movement?

Answer: The term used is "pied-piping."

24.Give an example of a transformation that applies vacuously to a wh-phrase.

Answer: Who left last night?

25.What is the function of the slot marked +WH at the beginning of a sentence?

Answer: The slot marked +WH is used to receive the wh-phrase after wh-movement.

CODE: ENG509 OBJECTIVE PART LESSON:33

1.Which type of clause corresponds to direct questions of the Yes-No type?

a) Indirect Yes-No questions

b) Direct Yes-No questions

c) Complex Yes-No questions

d) Ambiguous Yes-No questions

2.What does the presence of the complementiser "whether" or "if" in a sentence indicate?

a) The sentence is a question

b) The sentence is a command

c) The sentence is a statement

d) The sentence is a suggestion

3.In indirect wh-questions, where is the wh-phrase moved to?

a) It remains in its original position

b) It is moved to the beginning of the main clause

c) It is moved to the complement slot (COMP) in the subordinate clause

d) It is moved to the subject position in the subordinate clause

4.Which of the following is an example of long wh-movement?

a) Who do they think is spying on them all the time?

b) How do we form structures with indirect wh-questions?

c) Did you measure it?

d) What is the name of the film which is now showing at the ABC?

5.How do restrictive relative clauses differ from non-restrictive relative clauses?

a) Restrictive clauses provide essential information about the head noun, while non-restrictive clauses provide non-essential information.

b) Restrictive clauses are longer than non-restrictive clauses.

c) Restrictive clauses are always at the beginning of a sentence, while non-restrictive clauses are at the end.

d) Restrictive clauses are used for direct questions, while non-restrictive clauses are used for indirect questions.

6.What is the function of the complementiser "whether" or "if" in indirect questions?

a) To signal that the subordinate clause is a question

b) To indicate a comparison between two options

c) To introduce a condition in the sentence

d) To express doubt or uncertainty

7.How does Wh-movement differ from SAI (Subject-Auxiliary Inversion)?

a) Wh-movement moves the subject to the beginning of the sentence, while SAI inverts the subject and auxiliary verb.

b) Wh-movement is used for direct questions, while SAI is used for indirect questions.

c) Wh-movement can occur independently, while SAI always occurs with indirect questions.

d) Wh-movement is always followed by SAI.

8.In which type of clause is pied-piping optional during Wh-movement?

a) Indirect questions

b) Exclamations

c) Direct Yes-No questions

d) Complex Yes-No questions

9.Which type of clause leaves behind a gap bound by the moved element in COMP?

a) Indirect Yes-No questions

b) Exclamations

c) Long wh-movement

d) Indirect wh-questions

10.What is the purpose of WH-movement in relative clauses?

a) To emphasize the relative pronoun in front of the subordinate clause

b) To form indirect questions

c) To introduce restrictive relative clauses

d) To create non-restrictive relative clauses

11.Which of the following sentences contains a non-restrictive relative clause?

a) The books which I ordered have finally arrived.

b) The man who saw the accident was not prepared to testify.

c) What is the name of the film which is now showing at the ABC?

d) The Pope, who was expected to visit Poland again this summer, decided to go to France instead.

12.What is the function of the complementiser in S^{-} (S with a line on top) structure?

a) To indicate that the sentence is a question

b) To separate the subject and object of a sentence

c) To mark the beginning of the subordinate clause

d) To link the main clause with the subordinate clause

Answer: c) To mark the beginning of the subordinate clause

13.In indirect wh-questions, what happens to the complementiser?

a) It is deleted

b) It is moved to the end of the sentence

c) It is moved to the beginning of the main clause

d) It remains in its original position

14.What type of clause is introduced by relative pronouns in complex NPs?

a) Direct Yes-No questions

b) Indirect Yes-No questions

c) Relative clauses

d) Exclamations

15.In relative clauses, what is the function of the relative pronoun?

a) To signal that the subordinate clause is a question

b) To introduce the main clause of the sentence

c) To link the main clause and the subordinate clause

d) To bind a gap inside the relative clause

16.What does the NP "the man who lives next door" contain?

a) A restrictive relative clause

b) An indirect Yes-No question

c) A long wh-movement

d) A direct Yes-No question

17.Which of the following sentences contains an indirect Yes-No question?

a) What is the name of the film which is now showing at the ABC?

b) How should WH-movement be carried out here?

c) The man who saw the accident was not prepared to testify.

d) Do you know what happens when one of your tail lights fails?

18.What kind of information does a non-restrictive relative clause provide?

a) Essential information for identifying the referent of the head noun

b) Non-essential information about the head noun

c) Information about the context of the sentence

d) Information about the speaker's emotions

19.What happens to the relative pronoun during WH-movement in relative clauses?

a) It remains in its original position

b) It is moved to the beginning of the main clause

c) It is deleted from the sentence

d) It is moved to the front of the subordinate clause

20.What does SAI stand for in the context of this lesson?

a) Subject-Adjective Inversion

b) Subject-Auxiliary Inversion

c) Subject-Adverb Inversion

d) Subject-Appositive Inversion

21.What type of questions undergo SAI (Subject-Auxiliary Inversion)?

a) Direct Yes-No questions

b) Indirect Yes-No questions

c) Complex Yes-No questions

d) Indirect wh-questions

22.How is Wh-movement different from SAI in indirect Yes-No questions?

a) Wh-movement is used for direct questions, while SAI is used for indirect questions.

b) Wh-movement leaves behind a gap, while SAI does not create any gaps.

c) Wh-movement can occur independently, while SAI always occurs with wh-questions.

d) Wh-movement moves the subject to the beginning of the sentence, while SAI inverts the subject and auxiliary verb.

23.What is the normal word order for Su-Aux in indirect Yes-No questions?

a) Subject - Auxiliary

b) Auxiliary - Subject

c) Subject - Object

d) Object - Subject

24.What is the main function of complementisers like "whether" and "if" in sentences?

a) To indicate a condition in the sentence

b) To signal that the sentence is a question

c) To introduce a result or consequence

d) To mark the end of the main clause

25.How do restrictive relative clauses differ from non-restrictive relative clauses in terms of their necessity?

a) Restrictive clauses are always necessary, while non-restrictive clauses are optional.

b) Non-restrictive clauses are always necessary, while restrictive clauses are optional.

c) Both restrictive and non-restrictive clauses are always necessary.

d) Both restrictive and non-restrictive clauses are always optional.

CODE: ENG509 SUBJECTIVE PART LESSON:33

Question 1: Give an example of an indirect question in the text.

Answer: One example of an indirect question in the text is: "One evening he asked her whether he might go home with her."

Question 2: What is the normal position of the phrase "one evening" in the sentence?

Answer: The normal position of the phrase "one evening" in the sentence is after "He asked her" (or even at the end of the sentence).

Question 3: Provide two possible positions of the phrase "one evening" in the sentence (ambiguous).

Answer: Two possible positions of the phrase "one evening" in the sentence are:

a) He asked her one evening whether he might go home with her.

b) He asked her whether he might go home with her one evening.

Question 4: What is the role of the complementisers "whether" and "if" in indirect yes-no questions?

Answer: The complementisers "whether" and "if" indicate that the subordinate clause is a question.

Question 5: Can "whether" and "if" be deleted in indirect yes-no questions?

Answer: No, "whether" and "if" cannot be deleted in indirect yes-no questions.

Question 6: What type of questions do indirect yes-no questions correspond to?

Answer: Indirect yes-no questions correspond to direct yes-no questions.

Question 7: What operation does Wh-movement undergo in direct yes-no questions?

Answer: Wh-movement in direct yes-no questions undergoes Subject-Auxiliary Inversion (SAI).

Question 8: Is SAI applicable to indirect yes-no questions?

Answer: No, SAI is not applicable to indirect yes-no questions.

Question 9: Convert the direct yes-no question "May I go home with you?" into an indirect yes-no question.

Answer: He asked her whether he might go home with her.

Question 10: What is the structure of indirect wh-questions in comparison to indirect yes-no questions?

Answer: Indirect wh-questions have Wh-movement, but they are not subject to SAI, unlike indirect yes-no questions.

Question 11: Convert the direct wh-question "What happens when one of your tail lights fails?" into an indirect wh-question.

Answer: Do you know what happens when one of your tail lights fails?

Question 12: What is the underlying structure of the sentence "Mary wondered what John was doing" with respect to wh-movement?

Answer: The underlying structure is: Mary wondered [S¯ [COMP] [S John [VP was doing [NP what]]]].

Question 13: Explain the concept of a "matching gap" in wh-movement.

Answer: A "matching gap" is the empty space left behind in a sentence when a wh-element is moved out of a subordinate clause into the COMP slot in front of it.

Question 14: Apply wh-movement to the italicized wh-word in the sentence "The house ------- John lives in which."

Answer: The house in which John lives.

Question 15: Apply wh-movement to the italicized wh-word in the sentence "The girl who(m) John talked to."

Answer: The girl to whom John talked.

Question 16: What are restrictive relative clauses, and what role do they play in identifying the referent of the head noun?

Answer: Restrictive relative clauses narrow down the reference of the head noun and provide essential information for the identification of the referent.

Question 17: Provide an example of a restrictive relative clause from the text.

Answer: An example of a restrictive relative clause from the text is: "The man who saw the accident was not prepared to testify."

Question 18: How are non-restrictive relative clauses different from restrictive ones in terms of their role?

Answer: Non-restrictive relative clauses do not provide essential information for identifying the referent of the head noun; they provide additional, non-essential information about the head noun.

Question 19: Give an example of a non-restrictive relative clause from the text.

Answer: An example of a non-restrictive relative clause from the text is: "The Pope, who was expected to visit Poland again this summer, decided to go to France instead."

Question 20: What other types of postmodification and premodification does the distinction between restrictive and non-restrictive relative clauses apply to?

Answer: The distinction between restrictive and non-restrictive relative clauses also applies to other types of postmodification and premodification.

Question 21: Explain the concept of pied-piping in wh-movement.

Answer: Pied-piping is when the entire preposition phrase (wh-PP) is moved along with the wh-element in wh-movement, rather than just extracting the NP.

Question 22: Provide an example of a sentence where pied-piping is optional in wh-movement.

Answer: An example where pied-piping is optional is: "The books which I ordered have finally arrived" or "The books that I ordered have finally arrived."

Question 23: What happens when Wh-movement operates on Subject wh-phrases, even when there is no obvious gap in the surface structure?

Answer: Wh-movement operates vacuously on Subject wh-phrases, even when there is no obvious gap in the surface structure.

Question 24: How are indirect wh-questions similar to and different from indirect yes-no questions?

Answer: Indirect wh-questions and indirect yes-no questions both involve Wh-movement, but indirect wh-questions do not undergo Subject-Auxiliary Inversion (SAI).

Question 25: In the sentence "They think [S¯ [COMP] [S who is spying on them all the time]]," what type of clause is "who is spying on them all the time"?

Answer: "Who is spying on them all the time" is a subordinate (object) clause of the main clause "They think."

CODE: ENG509 OBJECTIVE PART LESSON:34

1.What is the function of the symbol "ø" in the context of relative clauses?

a) It represents a relative pronoun.

b) It marks a deleted element, the zero relative pronoun.

c) It indicates the presence of a preposition.

d) It refers to the Head noun of a relative clause.

2.In the sentence "The man whom you see over there is the owner of the company," what can the relative pronoun "whom" be replaced with?

a) who(m)

b) who

c) that

d) ø

3.**Appositive clauses are used to:**

a) Provide non-essential information about the subject.

b) Introduce restrictive relative clauses.

c) Mark the presence of prepositions.

d) Link the Head noun and the embedded clause.

4.What type of relative clause lacks a real Head noun and resembles full NPs with an empty Head noun?

a) Wh-relative clauses

b) Adverbial relative clauses

c) Free relative clauses

d) Non-restrictive relative clauses

5.The to-constructions that serve as postmodifiers in reduced relative clauses are:

a) Finite clauses

b) Wh-relative clauses

c) Non-finite clauses (to-infinitive, -ing, or -ed)

d) Passive clauses

6.Which test can be used to identify the Subject in a passive sentence?

a) The agreement test

b) The SAI test

c) The by-phrase test

d) The auxiliary test

7.What is the primary reason for using passive sentences in writing?

a) To emphasize the Agent performing the action.

b) To make sentences more active and dynamic.

c) To suppress the Agent when it is irrelevant or unknown.

d) To avoid using the auxiliary "be" in sentences.

8.Which of the following sentences is an example of a non-restrictive relative clause?

a) The man who is wearing a blue shirt is my brother.

b) The woman, who is a doctor, is very skilled.

c) The book that you lent me is fascinating.

d) The movie which I watched last night was entertaining.

9.In which type of clause do we often find fronted AdvPs that originate in the VP?

a) Relative clauses

b) Passive clauses

c) Non-finite clauses

d) Adverbial relative clauses

10.The postmodifying clause in a passive sentence is typically:

a) Placed after the subject.

b) Placed after the verb.

c) Placed before the object.

d) Placed before the subject.

11.The primary purpose of using reduced relative clauses is to:

a) Make sentences more concise and efficient.

b) Emphasize the subject of the sentence.

c) Add extra information to the sentence.

d) Clarify the relationship between clauses.

12.In passive sentences, what can replace the Agent by-phrase?

a) An adverbial clause

b) A non-restrictive relative clause

c) An adverbial phrase

d) An optional relative pronoun

13.The word "Only" in the sentence "Only recently was the region divided into the two independent countries" is a:

a) Preposition

b) Determiner

c) Adverb

d) Conjunction

14.What type of clauses are used to provide extra, non-essential information, and can be left out without changing the reference of the Head?

a) Restrictive relative clauses

b) Non-restrictive relative clauses

c) Free relative clauses

d) Adverbial relative clauses

15.The passive form of "They banned the film" is:

a) The film has been banned by them.

b) The film has banned them.

c) The film was banned by them.

d) The film banned them.

16.What is the primary difference between active and passive sentences?

a) The use of the auxiliary "have."

b) The presence of a subject.

c) The order of the verb and the object.

d) The inclusion of the Agent by-phrase.

17.What is the underlying active sentence corresponding to the passive sentence "Only recently was the region divided into the two independent countries"?

a) The region was divided into the two independent countries only recently.

b) The region only recently divided into the two independent countries.

c) The region was recently dividing into the two independent countries.

d) The region was only recently divided into the two independent countries.

18.Which type of clauses are used to give the content of nouns such as "fact," "report," and "news"?

a) Restrictive relative clauses

b) Non-restrictive relative clauses

c) Appositive clauses

d) Adverbial relative clauses

19.What type of sentences are especially characteristic of the style of official documents, textbooks, and scientific articles?

a) Restrictive relative sentences

b) Agentless passive sentences

c) Non-finite sentences

d) Active sentences

20.Which test confirms that the NP in the passive sentence is the Subject?

a) The passive voice test

b) The agreement test

c) The by-phrase test

d) The fronting test

21.In the sentence "The man whom you see over there is the owner of the company," what does "whom" refer to?

a) The man

b) The owner

c) The company

d) The speaker

22.Which type of relative clause occurs inside an NP and is a restrictive postmodifier to the Head?

a) Wh-relative clauses

b) Non-restrictive relative clauses

c) Adverbial relative clauses

d) Free relative clauses

23.What can be inferred about the complementiser "that" in relative clauses?

a) It links the Head noun and the embedded clause.

b) It acts as a relative pronoun.

c) It is always optional in restrictive relative clauses.

d) It is used primarily in non-restrictive relative clauses.

24.Which type of clauses resemble full NPs consisting of an empty Head noun and a postmodifying clause?

a) Wh-relative clauses

b) Non-restrictive relative clauses

c) Free relative clauses

d) Adverbial relative clauses

26.What is the primary purpose of using appositive clauses?

a) To provide extra information about the subject.

b) To introduce restrictive relative clauses.

c) To emphasize the subject of the sentence.

d) To give the content of nouns like "fact" and "news."

CODE: ENG509 SUBJECTIVE PART LESSON:34

1.What are the two sentences in which the relative pronoun can be deleted?

Answer: (118) The film which we saw at the ABC last week has been banned from all official programs. (119) The man whom you see over there is the owner of the company.

2.What is the symbol used to mark the deleted relative pronoun?

Answer: ø

3.In which cases can the relative pronoun be deleted?

Answer: The relative pronoun can be deleted when it functions as the subject of the embedded sentence or if it is preceded by a preposition.

4.Give an example where the relative pronoun is deleted as the subject of the embedded sentence.

Answer: (121b) *The man ø is standing over there is the Prime Minister of Pakistan.

5.Give an example where the relative pronoun is deleted after a preposition.

Answer: (122b) *The man for ø we were all waiting did not come.

6.What are the structures that use the zero relative pronoun in subject position?

Answer: The structures of the type: There is a gentleman at the door ø wishes to see you and of the type: It is Jane ø gave the book to Bill.

7.What is used instead of "who(m)" or "which" in some restrictive relative clauses?

Answer: The complementizer "that" is used instead of "who(m)" or "which" in some restrictive relative clauses.

8.What are adverbial relative clauses?

Answer: Adverbial relative clauses are relative clauses introduced by "where," "why," "when," etc.

9.What are free relative clauses?

Answer: Free relative clauses lack a real head noun and resemble full NPs consisting of an empty head noun and a postmodifying clause.

10.Are non-restrictive relative clauses essential to identify the head noun?

Answer: No, non-restrictive relative clauses provide extra, non-essential information and can be left out without changing or obscuring the reference of the head noun.

11.Can you form a relative clause using the following underlying structure: "The woman [s [coMP (a) (b)] [s we invited whom to our party]]"?

Answer: Yes, a relative clause can be formed as follows: "The woman whom (b) we invited --- to our party."

12.Can you use the complementizer "that" in the same relative clause?

Answer: Yes, the relative clause can also be formed as "The woman (a) that we invited --- to our party."

13.What happens when a relative clause is passivized?

Answer: The object NP of the active sentence is moved to the subject position, and the agent (if mentioned) may be added as a by-phrase.

14.Can you provide an example of a passive sentence with an agent by-phrase?

Answer: (11) The region was divided into the two independent countries only recently by the British Government.

15.What is the purpose of using agentless passives?

Answer: Agentless passives are used when the specific agent is unknown, irrelevant, or unnecessary to specify, making the text more impersonal and formal.

16.Give an example of an agentless passive from the provided text.

Answer: (14) Bicycles must not be left in front of the building.

17.What is the complementizer used in agentless passives?

Answer: The complementizer "by" is used in agentless passives to introduce the optional agent by-phrase.

18.How are fronted adverbial phrases created?

Answer: Fronted adverbial phrases are created by moving an adverbial phrase from the VP to the initial position in the sentence.

19.What can fronting of adverbial phrases trigger?

Answer: Fronting of adverbial phrases can trigger Subject-Auxiliary Inversion (SAI).

20.What is the role of passivization in the structure of sentences?

Answer: Passivization involves converting an active sentence to a passive one by moving the object NP to the subject position and adding the auxiliary "be" + past participle of the main verb.

21.What is the difference between adverbial relative clauses and free relative clauses?

Answer: Adverbial relative clauses are introduced by adverbs like "where," "why," "when," etc., while free relative clauses lack a real head noun and act as complete noun phrases.

22.What is the purpose of using reduced relative clauses?

Answer: Reduced relative clauses are used to convert full relative clauses into non-finite (to-infinitive, -ing, -ed) clauses for brevity and stylistic reasons.

23.How can the subject status of the NP in a reduced relative clause be verified?

Answer: The subject status of the NP in a reduced relative clause can be verified using agreement and Subject-Auxiliary Inversion (SAI) tests.

24.What are appositive clauses, and what do they provide?

Answer: Appositive clauses provide the content of nouns and often come after the names of facts, reports, news, etc.

25.What is the primary difference between non-restrictive and restrictive relative clauses?

Answer: Non-restrictive relative clauses provide additional, non-essential information and are set off by commas, while restrictive relative clauses are essential to identify the head noun and are not set off by commas.

CODE: ENG509 OBJECTIVE PART LESSON:35,36

1.What is the focus element in a cleft sentence?

a) Verb

b) Adverb

c) NP

d) PP

2.Which transformation shifts a constituent towards the end of the sentence?

a) Wh-movement

b) A-movement

c) It-extraposition

d) Clefting

3.In the sentence "It is assumed that nothing but diligent supervision will prevent them from going to sleep," what is the Subject of the main clause?

a) diligent supervision

b) them

c) it

d) nothing

4.The purpose of clefting in a sentence is to:

a) introduce new elements into the discourse

b) create balance between the beginning and end of the sentence

c) emphasize a particular constituent

d) replace heavy Object NPs

5.What is the main operation involved in converting a sentence into pseudo-clefting?

a) It-insertion

b) Extraposition

c) Fronting

d) Substitution by pro-forms

6.In the sentence "I need a sandwich and a coffee most at this time of the day," what can the phrase "at this time of the day" be replaced by as a pro-form?

a) then

b) there

c) when

d) what

7.What is the function of "there" in "There were papers for every need"?

a) Subject

b) Object

c) Adverb

d) Verb

8.Which sentence shows Subject-Verb Inversion (SVI)?

a) They considered that she behaved badly with George.

b) What Jane did was give the book to Bill on Saturday.

c) It is assumed that nothing but diligent supervision will prevent them from going to sleep.

d) Everyone has accepted that men who are on duty during the night will be tempted to sleep.

9.Pseudo-clefting is used to focus on:

a) the verb

b) the Object NP

c) the Subject NP

d) the Adverbial Complement

10.What type of sentences can utilize it-extraposition?

a) Passive sentences

b) Active sentences

c) Verbless clauses

d) Non-finite clauses

11.The process of clefting involves:

a) shifting a constituent towards the end of the sentence

b) inserting "it" to represent the Subject

c) replacing heavy Object NPs

d) extracting a constituent to put it in a more prominent position

12.Which transformation involves moving the Subject rightwards in a sentence?

a) SVI (Subject-Verb Inversion)

b) Wh-movement

c) Extraposition

d) A-movement

13.What is the grammatical function of the that-clause in "What everyone has done is [VP accept that men who are on duty during the night will be tempted to sleep]"?

a) Subject

b) Verb

c) Complement of the V

d) Adverb

14.In "There was a university in New England," what does "there" represent?

a) Subject

b) Object

c) Adverb

d) Verb

15.sentences with "there"?

a) It-extraposition

b) Cleft sentences

c) Pseudo-clefting

d) There-insertion

16.Which transformation involves replacing constituents with pro-forms?

a) Wh-movement

b) A-movement

c) Substitution by pro-forms

d) Extraposition

17.In "It is for this reason that (11) should preferably be converted into (12)," what does "it" represent?

a) The Subject NP

b) The Verb

c) The Complement of the V

d) The Subject clause

18.What is the Subject NP of the main clause in (5) and (6)?

a) Students

b) Bank of term papers

c) Ban

d) Those

19.What does the term "SVI" stand for in linguistics?

a) Subject-Verb Interaction

b) Subject-Verb Inversion

c) Subject-Verb Insertion

d) Subject-Verb Identification

20.Which transformation emphasizes the constituent in focus by using "what" clauses?

a) Clefting

b) Pseudo-clefting

c) It-extraposition

d) Substitution by pro-forms

21.What is the primary purpose of subject-verb inversion in English?

a) To create questions

b) To make the sentence passive

c) To emphasize the subject

d) To create a cleft sentence

22.what is the function of the word "it" in "It seems that John is happy"?

a) Object

b) Subject

c) Verb

d) Adverb

23.Which transformation focuses on a particular constituent using the pattern "It + be + that/who/which"?

a) Extraposition

b) SVI (Subject-Verb Inversion)

c) Clefting

d) There-insertion

24.In the sentence "I like the book that you recommended," which transformation can be used to emphasize "the book"?

a) Extraposition

b) Pseudo-clefting

c) Clefting

d) SVI (Subject-Verb Inversion)

25.Which syntactic phenomenon involves moving heavy object noun phrases towards the end of the sentence?

a) SVI (Subject-Verb Inversion)

b) Pseudo-clefting

c) Heavy object-shift

d) There-insertion

26.What is the purpose of "There-insertion" in sentences?

a) To avoid repetition

b) To introduce new elements into the discourse

c) To focus on a specific subject

d) To make the sentence passive

27.Which transformation involves moving a that-clause from its original position to the end of the sentence with "it" as a placeholder?

a) There-insertion

b) Extraposition

c) Pseudo-clefting

d) It-extraposition

28.What is the grammatical role of the pro-form "what" in a pseudo-clefted sentence?

a) Subject

b) Verb

c) Object

d) Adverb

29.In the sentence "They said that John was coming," which transformation can be applied to emphasize "John"?

a) There-insertion

b) Extraposition

c) Clefting

d) Pseudo-clefting

30.**The transformation "Substitution by pro-forms" is used to:**

a) shift heavy object NPs towards the end of the sentence

b) emphasize a particular constituent using "It + be + that/who/which" clauses

c) avoid repetition by using pronouns or other pro-forms

d) insert "there" to announce the upcoming subject

31.What is the main operation involved in converting a sentence into clefting?

a) Extraposition

b) SVI (Subject-Verb Inversion)

c) Fronting

d) Substitution by pro-forms

32.In the sentence "It is his behavior that annoys me," what does "it" represent?

a) The Subject NP

b) The Verb

c) The Complement of the V

d) The Object NP

33.What is the primary function of the pro-form "there" in English sentences?

a) To represent the subject

b) To represent the object

c) To introduce new elements into the discourse

d) To indicate location

34.Which transformation involves moving the Subject rightwards in a sentence to achieve a better balance?

a) There-insertion

b) Extraposition

c) SVI (Subject-Verb Inversion)

d) Pseudo-clefting

35.What is the grammatical function of "that" in "Everyone believes that he will come"?

a) Subject

b) Verb

c) Object

d) Complementizer

36.In which type of sentences is "It-extraposition" commonly used?

a) Imperative sentences

b) Declarative sentences

c) Interrogative sentences

d) Passive sentences

37.What is the purpose of heavy object-shift in English sentences?

a) To emphasize the subject

b) To introduce new elements into the discourse

c) To focus on a particular constituent

d) To achieve balance and improve flow

38.In the sentence "What he did was apologize to his friends," what is the focus element?

a) apologize

b) What

c) friends

d) did

39.Which syntactic phenomenon involves moving the Subject after the Verb in a sentence?

a) There-insertion

b) Clefting

c) Pseudo-clefting

d) Subject-Verb Inversion (SVI)

40.English sentences?

a) To introduce new elements into the discourse

b) To shift heavy object noun phrases

c) To focus on a particular constituent

d) To avoid repetition using pro-forms

CODE: ENG509 SUBJECTIVE PART LESSON:35,36

1.**What is the topic of the text?**

Answer: The topic of the text is "Movement of Focus Position."

2.What is IT-extraposition?

Answer: IT-extraposition is a common pattern where "it" is used as a placeholder for the subject in passive sentences with a that-clause.

3.What is the Subject in sentences (1) and (2)?

Answer: The Subject in sentences (1) and (2) is "it."

4.What transformation occurs in sentence (11)?

Answer: The transformation in sentence (11) is Subject-Verb Inversion (SVI).

5.What is the purpose of it-extraposition in sentence (11)?

Answer: The purpose of it-extraposition in sentence (11) is to improve the balance and focus of the sentence.

6.What are the two main operations involved in converting (11) into (12)?

Answer: The two main operations are extraposition and it-insertion.

7.How is the structure of sentence (12) represented?

Answer: The structure of sentence (12) is represented as "It/su [V pass-S¯/ Su]."

8.What is the purpose of it-extraposition in active sentences?

Answer: The purpose of it-extraposition in active sentences is to improve the balance and focus of the sentence.

9.What is extraposed in sentence (15)?

Answer: The PP "round the little harbour" is extraposed in sentence (15).

10.What does SVI stand for?

Answer: SVI stands for Subject-Verb Inversion.

11.How is SVI used in sentence (79b)?

Answer: SVI is used in sentence (79b) to move the Direct Object NP "him" to the end of the sentence.

12.What is the process of clefting used for?

Answer: Clefting is used to focus on a particular constituent in the sentence.

13.What are the four cleft versions of sentence (1)?

Answer: The four cleft versions of sentence (1) are (2), (3), (4), and (5).

14.What is pseudo-clefting?

Answer: Pseudo-clefting is a device used to focus on a constituent by extracting it from its basic position and putting it in a more prominent position.

15.How can a VP be focused on using pseudo-clefting?

Answer: A VP can be focused on using pseudo-clefting by putting the string "what NP/Su did was" before the VP.

16.What can pseudo-clefting also be used to focus on?

Answer: Pseudo-clefting can also be used to focus on NPs, PPs, or Adjunct clauses.

17.Give an example of a pseudo-clefted sentence.

Answer: Example: "What Jane did was give the book to Bill on Saturday."

18.What are pro-forms?

Answer: Pro-forms are substitute forms used to replace constituents to avoid repetition.

19.Give an example of a personal pronoun pro-form.

Answer: Example: "She" is a personal pronoun pro-form that can replace the NP "Bill's sister."

20.How can interrogative pronouns be used as pro-forms?

Answer: Interrogative pronouns can be used as pro-forms to replace constituents in questions, such as "what" in "What did Bill's sister announce?"

21.What can the string "do so" be used to replace?

Answer: The string "do so" can be used to replace a VP in a sentence.

22.Give an example of the usage of "do so" as a pro-form.

Answer: Example: "Mary bought her wedding dress in London, and so did Jane."

23.How can auxiliaries be used as pro-forms?

Answer: Auxiliaries can be used as pro-forms to replace the entire VP in a sentence.

24.Give an example of the usage of auxiliaries as pro-forms.

Answer: Example: "Susan may already have left, and so may Anne."

25.How can pseudo-clefting be used to avoid redundancy?

Answer: Pseudo-clefting can be used to avoid redundancy by using substitute pro-forms for elements or information already known to the reader or hearer.

26.Explain the purpose of clefting in sentence (7).

Answer: The purpose of clefting in sentence (7) is to focus on the because-clause, which explains why Jane gave the book to Bill on Saturday.

27.What transformation occurs in sentence (29)?

Answer: The transformation in sentence (29) is wh-movement, where the object "it" is fronted to create a wh-question.

28.How is the function of the NP "everyone" changed in sentence (5)?

Answer: In sentence (5), "everyone" becomes the subject NP in the main clause, and the that-clause becomes its complement.

29.What is the role of the clause "that/who/which men who are on duty during the night will be tempted to sleep" in sentence (2)?

Answer: The clause "that/who/which men who are on duty during the night will be tempted to sleep" acts as the complement of the verb "accepted."

30.What kind of complement is the clause "they have allowed this practice for so long" in sentence (12)?

Answer: The clause "they have allowed this practice for so long" serves as the complement of the adjective "scandalous."

31.Explain the transformation that occurs in sentence (18).

Answer: The transformation in sentence (18) is wh-movement, where the prepositional phrase "round the little harbor" is fronted to form a wh-question.

32.How does sentence (9) differ from sentence (1) in terms of focus?

Answer: In sentence (9), the focus is on the that-clause, while in sentence (1), the focus is on the men who are on duty during the night.

33.What is the purpose of SVI in sentence (80)?

Answer: The purpose of SVI in sentence (80) is stylistic, to create a specific sentence structure.

34.What does the author mean by "IT" in the context of sentence (11)?

Answer: In sentence (11), "IT" refers to the act of men being tempted to sleep while on duty during the night.

35.How can a passive sentence be converted into an active one using IT-extraposition?

Answer: In an active sentence using IT-extraposition, the that-clause is moved to the end of the sentence, and "it" is used as the grammatical subject.

36.How can you identify a pseudo-clefted sentence?

Answer: A pseudo-clefted sentence typically starts with "What" or "What NP/Su did was" followed by a VP or a that-clause.

37.Provide an example of a sentence using clefting.

Answer: Example: "It was on Monday that John met his old friend."

38.How does clefting help in sentence (14)?

Answer: Clefting helps in sentence (14) by focusing on the news of her marriage as the essential element.

39.What is the role of "round the little harbor" in sentence (15)?

Answer: In sentence (15), "round the little harbor" serves as an adjunct (PP) that provides additional information about the location.

40.Explain the purpose of IT-extraposition in sentence (8).

Answer: The purpose of IT-extraposition in sentence (8) is to emphasize the arousing of indignation and to provide clarity to the sentence structure.

CODE: ENG509 OBJECTIVE PART LESSON:37,38

1.Ellipsis refers to the omission of:

a) Verbs in a sentence

b) Pronouns in a sentence

c) Words that can be understood from context

d) Subjects in a sentence

2.The phenomenon in which the subject of the second clause may be deleted if it is co-referential to the subject of the first clause is called:

a) Control

b) Gapping

c) Raising

d) Pro-forming

3.Verb gapping involves omitting a repeated:

a) Noun phrase

b) Adjective

c) Verb

d) Adverb

4.Which type of clause raising is demonstrated in the sentence: "John was seen to steal the money"?

a) Passive raising

b) Control raising

c) Subject raising

d) Verb raising

5.In which type of clause, the complementiser "for" is not allowed in English?

a) Passive clauses

b) Object clauses

c) Non-finite clauses

d) Raising clauses

6.Raising only applies to the NP/Su of:

a) Passive clauses

b) Finite clauses

c) Non-finite clauses

d) Object clauses

7.The gap left after raising cannot be filled by:

a) A lexical noun

b) A lexical verb

c) A pronoun

d) An adverb

8."It was irrational to be writing a book on this subject." This sentence demonstrates:

a) Passive raising

b) Control raising

c) Subject raising

d) Adjective raising

9.In backward gapping, the NP/Od is deleted in the first clause in anticipation of the identical NP/Od in the:

a) Second clause

b) Third clause

c) Main clause

d) Subordinate clause

10.Which term is used when an Object clause has no lexical subject, and the subject position is controlled by the Subject of the higher clause?

a) Pro-forming

b) Pro-nominalization

c) Control

d) Gap-binding

11.In which type of clause, the Subject position cannot be filled by a pronoun as an anticipatory NP/Su?

a) Passive clauses

b) Finite clauses

c) Non-finite clauses

d) Raising clauses

12.What is the function of the NP "the political parts of the book" in the sentence "The political parts of the book were intended to reveal many things"?

a) Subject of the higher clause

b) Object of the higher clause

c) Object of the embedded clause

d) Subject of the embedded clause

13.Raising with passive verbs involves moving the subject of the embedded clause to the subject position of the:

a) Main clause

b) Passive clause

c) Active clause

d) Raising clause

14.In which type of clause, the NP/Su is controlled by the Subject of the higher clause?

a) Passive clauses

b) Finite clauses

c) Non-finite clauses

d) Raising clauses

15."It seems that John has disappeared." This sentence demonstrates:

a) Passive raising

b) Control raising

c) Subject raising

d) Adjective raising

16.Which type of clauses may lack an overt lexical subject?

a) Passive clauses

b) Finite clauses

c) Non-finite clauses

d) Raising clauses

17.called when a subject of a non-finite existential sentence may be raised to a higher clause?

a) Extraposition

b) Raising

c) Gapping

d) Control

18.The omission from speech or writing of a word or words that are superfluous or can be understood from contextual clues is known as:

a) Ellipsis

b) Raising

c) Gapping

d) Pro-forming

19.Which term is used when a verb may be omitted if it is identical with a preceding verb?

a) Control

b) Raising

c) Gapping

d) Verb gapping

20.Non-finite clauses raising and control involve movements that occur in:

a) Passive sentences

b) Finite sentences

c) Active sentences

d) Non-finite sentences

21.Verb gapping can only occur over:

a) Multiple clauses

b) Adjacent clauses

c) Non-finite clauses

d) Passive clauses

22.What is the function of "there" in the sentence "There seem to be many children with reading problems"?

a) Verb

b) Subject

c) Object

d) Adjective

23.Passive clauses, finite clauses, and non-finite clauses can all trigger:

a) Control raising

b) Verb gapping

c) Subject raising

d) Extraposition

24.Which type of clause may also be verbless in addition to having no overt lexical subject?

a) Passive clauses

b) Finite clauses

c) Non-finite clauses

d) Raising clauses

25."To be writing a book on this subject was irrational." This sentence demonstrates:

a) Passive raising

b) Control raising

c) Subject raising

d) Adjective raising

26."John was eating cornflakes and Mary --- porridge." This sentence demonstrates:

a) Passive raising

b) Control raising

c) Subject raising

d) Verb gapping

27.In which type of clause, the Subject of the second clause may be deleted if it is co-referential to the Subject of the first clause?

a) Passive clauses

b) Finite clauses

c) Non-finite clauses

d) Gapping clauses

28.In backward gapping, the NP/Od is deleted in the first clause in anticipation of the identical NP/Od in the:

a) Second clause

b) Third clause

c) Main clause

d) Subordinate clause

29.The non-finite clauses discussed in the text all occur as complements of:

a) Verbs

b) Adjectives

c) Adverbs

d) Pronouns

30.Which type of clause has the function of an Object clause with no lexical subject, and its subject position is controlled by the Subject of the higher clause?

a) Passive clauses

b) Finite clauses

c) Non-finite clauses

d) Raising clauses

CODE: ENG509 SUBJECTIVE PART LESSON:37,38

Question 1:

What is ellipsis, and why is it used in language?

Answer 1:

Ellipsis is the phenomenon of omitting words or phrases in a sentence when their meaning can be easily understood from the context. It is used to reduce redundancy in language.

Question 2:

Give an example of ellipsis in a conversation.

Answer 2:

Example: "A: When did Susan leave? B: At two o'clock." (The subject "Susan left" is omitted in B's response.)

Question 3:

What is subject deletion, and when does it occur?

Answer 3:

Subject deletion is the omission of the subject in the second clause when it is co-referential with the subject in the first clause. It occurs in clauses coordinated with "and," "or," or "but."

Question 4:

Provide an example of subject deletion.

Answer 4:

Example: "John sat down and (he) told us the news." (The pronoun "he" is omitted.)

Question 5:

What is verb gapping, and how does it work?

Answer 5:

Verb gapping is the deletion of a repeated verb in a coordinate clause. It occurs when the second clause contains the same verb as the first clause, and the repeated verb is omitted.

Question 6:

Give an example of verb gapping.

Answer 6:

Example: "John was eating cornflakes and Mary (was eating) porridge." (The verb "was eating" is repeated but omitted in the second clause.)

Question 7:

What is backward gapping, and how is it different from verb gapping?

Answer 7:

Backward gapping is the deletion of a verb in the first clause when the same verb appears in the second clause. It differs from verb gapping as it anticipates the identical verb in the next clause.

Question 8:

Provide an example of backward gapping.

Answer 8:

Example: "John liked, and Mary disliked, the film about Gandhi." (The first clause omits the repeated verb "liked" in anticipation of the second clause.)

Question 9:

How does non-finite clauses raising and control work?

Answer 9:

In non-finite clauses, the subject of the higher clause can control or raise the subject position of the non-finite clause. The higher subject binds the gap in the lower clause.

Question 10:

Give an example of non-finite clauses raising.

Answer 10:

Example: "I intended (for) the book to become a family saga." (The subject "the book" raises from the embedded clause to the higher clause.)

Question 11:

What are some examples of non-finite clauses without lexical subjects?

Answer 11:

Examples: "To be writing a book on this subject was irrational." or "John seems (---) to have disappeared."

Question 12:

Explain the relationship between raising and non-finite clauses with passive verbs.

Answer 12:

Raising can occur with passive verbs, where the subject of the embedded non-finite clause is raised to the subject position of the main clause. For example, "The book was intended to reveal many things."

Question 13:

What is the role of the complementiser "for" in non-finite clauses, and when is it filtered out?

Answer 13:

The complementiser "for" is used in some non-finite clauses, but it is filtered out when it is immediately followed by "to," resulting in "for ... to" sequences, which are not allowed.

Question 14:

Provide an example of a sentence where the complementiser "for" is filtered out.

Answer 14:

Example: "I did not wish for --- to become a family saga." (Filtered out to become "I did not wish to become a family saga.")

Question 15:

What kinds of verbs and adjectives trigger raising in non-finite clauses?

Answer 15:

Passive raising verbs, intransitive verbs, and certain adjectives can trigger raising in non-finite clauses.

Question 16:

Give an example of raising with an intransitive verb.

Answer 16:

Example: "John seems (---) to have disappeared." (The subject "John" raises from the embedded clause.)

Question 17:

How is raising different with non-passive intransitive verbs compared to passive raising verbs?

Answer 17:

With non-passive intransitive verbs, extraposition is obligatory, and the non-finite clause cannot take the complementiser "for."

Question 18:

What are some examples of raising with adjectives?

Answer 18:

Examples: "They seem (---) to have left" or "John is likely (---) to propose to Mary."

Question 19:

Explain the concept of a gap in raising structures.

Answer 19:

A gap is the position left empty after movement or deletion of a subject in a raising structure. It cannot be filled with lexical material.

Question 20:

How do raising verbs and adjectives differ from other verbs and adjectives in their sentence structures?

Answer 20:

Raising verbs and adjectives allow for the presence of gaps after them, and they do not permit the insertion of lexical material in those gaps.

Question 21:

What is extraposition, and how does it relate to raising?

Answer 21:

Extraposition is the movement of a subject out of a non-finite clause into the subject position of the main clause. It is related to raising as it often occurs when raising is not possible.

Question 22:

Explain the function of the subject "there" in relation to raising.

Answer 22:

The subject "there" is used to bind the gap (---) in the subordinate clause in raising constructions.

Question 23:

What are some examples of sentences with "there" and raising?

Answer 23:

Examples: "There seem (---) to be many children with reading problems" or "There was believed (---) to exist a conspiracy in the country."

Question 24:

What is the significance of "there" as the subject in existential sentences with raising?

Answer 24:

In non-finite existential sentences, "there" may be raised as the subject of the main clause to bind the gap in the subordinate clause.

Question 25:

What are some properties shared by raising verbs and raising adjectives?

Answer 25:

(a) Both types of words only apply to non-finite clauses with gaps.

(b) They do not allow lexical material to fill the gaps.

(c) They often have a paraphrased version with a finite clause and extraposition.

Question 26:

What are some examples of raising adjectives?

Answer 26:

Examples: "John is certain (---) to propose to her tomorrow" or "The weather is unlikely (---) to remain stable for long."

Question 27:

What happens to the subject position in the main clause when using raising adjectives?

Answer 27:

In sentences with raising adjectives, the subject position in the main clause is occupied by "there" or left empty to bind the gap in the subordinate clause.

Question 28:

How is the subject "there" separated from the verb or adjective it goes with?

Answer 28:

The subject "there" is separated from the verb or adjective it goes with by raising, resulting in a structure like "there {verb/adjective} (---) to be."

Question 29:

What is the purpose of the "to be" structure in sentences with raising adjectives?

Answer 29:

The "to be" structure is introduced to enable the subject "there" to be separated from the verb or adjective, as in "there {verb/adjective} (---) to be."

Question 30:

What can be inferred from the presence of gaps in sentences with raising verbs and adjectives?

Answer 30:

The presence of gaps indicates the movement or raising of a subject from the lower clause to the subject position of the main clause, without the possibility of filling the gaps with lexical material.

CODE: ENG509 **OBJECTIVE PART** **LESSON:39,40**

1.In English sentences with non-finite Object clauses, the Subject of the clause is:

a) Always lexically filled

b) Never lexically filled

c) Sometimes lexically filled

d) Not mentioned in the paragraph

2.The convention used to mark non-lexically realized Subject positions in non-finite clauses is denoted by:

a) ( )

b) [ ]

c) { }

d) < >

3.Which of the following sentences includes a non-lexical Subject controlled by the main clause's Subject?

a) I want [s¯ [s ( ) to enjoy myself]]

b) I want [s¯ you to enjoy {yourself /*myself}]

c) I want [s¯ [s ( ) to play football]]

d) I want [s¯ him to read the book]

4.Control verbs are distinguished from raising verbs based on their behavior with:

a) Non-finite clauses

b) Finite clauses

c) Prepositional phrases

d) Adverbial clauses

5.Which of the following tests is used to verify control patterns in sentences?

a) Verb gapping

b) Coordination

c) Cleft sentences

d) All of the above

6." in "Mary Ann brought in The Times after breakfast" is an example of:

a) A lexical verb

b) A phrasal verb

c) A prepositional phrase

d) A subject control pattern

7.In the sentence "The Vicar settled down to his paper," the phrasal verb is:

a) Settle down

b) Settle

c) Down to

d) Down

8.Phrasal verbs can be categorized into:

a) Transitive and intransitive

b) Lexical verbs and auxiliary verbs

c) Singular and plural

d) Subject and object control

Answer: a) Transitive and intransitive

9.In the sentence "The Vicar can rely on Mary Ann," the phrasal verb "rely on" behaves most like:

a) A prepositional phrase

b) A subject control pattern

c) A lexical verb

d) A phrasal verb

10.What does "gapping" refer to in the context of verb phrases?

a) Separating phrasal verbs into individual words

b) Coordination of phrasal verbs

c) Deleting the second occurrence of a lexical verb in coordinated clauses

d) Converting phrasal verbs into prepositional phrases

11."Mary Ann brought in The Times and Philip brought in the Guardian." The gapped version of this sentence would be:

a) Mary Ann brought in The Times and Philip in the Guardian.

b) Mary Ann brought in The Times and Philip The Guardian.

c) Mary Ann brought in The Times and Philip brought.

d) Mary Ann brought in The Times and Philip I the Guardian.

12.The phrasal verb "hand over" in the sentence "She handed over the paper to the Vicar" is:

a) Transitive

b) Ditransitive

c) Intransitive

d) Reflexive

13.The phrase "pray for, look for, hope for, and rely on" is an example of:

a) Verb gapping

b) Prepositional verbs

c) Subject control patterns

d) Raising verbs

14.Which of the following is true about the phrase "rely on" in "The Vicar can rely on Mary Ann"?

a) It behaves like a single-word verb followed by a prepositional phrase.

b) It behaves like a two-word verb followed by an NP.

c) It behaves like a noun phrase.

d) It behaves like an intransitive verb.

15.In the sentence "Mary Ann arrived after breakfast," the word "after" is a:

a) Preposition

b) Particle

c) Lexical verb

d) Adjective

16.The analysis of the sentence "She put on her bonnet" is:

a) [s [His wife] [VP [V put on] [NP her bonnet]]]

b) [s [His wife] [VP [V put] [PP on her bonnet]]]

c) [s [His wife] [VP [V put on her] [NP bonnet]]]

d) [s [His wife] [VP [V put] [PP on her] [NP bonnet]]]

17.The phrase "sit down, take off, switch on" are examples of:

a) Verb gapping

b) Phrasal verbs

c) Subject control patterns

d) Raising verbs

18.The phrase "go out" in the sentence "She went out" is an example of:

a) A lexical verb

b) A phrasal verb

c) A prepositional phrase

d) An intransitive verb

19.The VP structure for the sentence "Mary Ann brought in The Times after breakfast" is:

a) [VP [V brought in] [NP The Times] [PP after breakfast]]

b) [VP [V brought] [PP in The Times] [PP after breakfast]]

c) [VP [V brought] [NP in The Times] [PP after breakfast]]

d) [VP [V brought in The Times] [PP after breakfast]]

20.The VP structure for the sentence "The Vicar settled down to his paper" is:

a) [VP [V settled down] [PP to his paper]]

b) [VP [V settled] [PP down to his paper]]

c) [VP [V settled down to] [NP his paper]]

d) [VP [V settled down] [NP to his paper]]

21.The sentence "He gave up" can be considered an example of:

a) Verb gapping

b) Phrasal verbs

c) Object control

d) Raising verbs

22.The VP structure for "She handed over the paper to the Vicar" is:

a) [VP [V handed over] [NP the paper] [PP to the Vicar]]

b) [VP [V handed] [PP over the paper] [PP to the Vicar]]

c) [VP [V handed] [NP over the paper] [PP to the Vicar]]

d) [VP [V handed over the paper] [PP to the Vicar]]

23.What is the distinction between coordination and gapping?

a) Coordination involves conjunctions, while gapping involves deleting verbs.

b) Coordination involves deleting verbs, while gapping involves conjunctions.

c) Coordination involves subordination, while gapping involves complementation.

d) Coordination involves complementation, while gapping involves subordination.

24.In "He gave up," the phrase "gave up" is:

a) A lexical verb

b) A phrasal verb

c) A prepositional phrase

d) An intransitive verb

25.The phrase "enjoy myself, play football, read the book" are examples of:

a) Verb gapping

b) Prepositional verbs

c) Object control patterns

d) Raising verbs

26.What does "A-movement" refer to in the context of English sentences?

a) Movement of objects across clauses

b) Movement of subjects across clauses

c) Movement of verbs to create phrasal verbs

d) Movement of adjectives to form split projections

27.The sentence "The Vicar can rely on Mary Ann" illustrates:

a) Subject control

b) Object control

c) Raising

d) None of the above

28.The analysis of "She put on her bonnet" demonstrates the behavior of:

a) Split projections

b) Coordination

c) Phrasal verbs

d) Raising verbs

29.Which of the following is an example of a raising verb?

a) "The cat jumped over the fence."

b) "I expect [s [s ( ) to arrive soon]]."

c) "She handed over the paper."

d) "They decided [s [s ( ) to go home]]."

30.The phrase "on the table, in the drawer, under the bed" are examples of:

a) Verb gapping

b) Prepositional verbs

c) Subject control patterns

d) Raising verbs

CODE: ENG509 SUBJECTIVE PART LESSON:39,40

1.What is the topic of the text?

Topic: The text discusses various linguistic concepts related to control, prepositions, particles, and phrasal verbs.

2.How are non-finite Object clauses with non-lexical Subjects marked?

They are marked using the convention [s¯ ( ) [VP...]].

3.Give an example of a non-finite subordinate clause with a lexical Subject.

Example: "I did not wish [s¯(for) [s the book to become a family saga]]."

4.Why is the complementizer "for" allowed in some cases but disallowed in others?

It is allowed when there is a grammatical construction, but it is disallowed when the string "for ... to" is not standard English.

5.In sentence (1), what controls the non-lexical Subject in the subordinate clause?

The main clause Subject "I" controls the non-lexical Subject, which is interpreted as "I."

6.How is reflexivisation used to support the proposed analysis?

In examples like "I want [s¯ ( ) to enjoy myself]," the reflexive pronoun "myself" is bound inside the subordinate clause by the non-lexical Subject, which is controlled by the higher Subject "I."

7.What is the difference between control verbs and raising verbs?

Control verbs have non-finite clauses with controlled Subjects, whereas raising verbs do not exhibit this control behavior.

8.What are the three tests to differentiate raising verbs from control verbs?

The tests are: (a) lexical Subject in non-finite clause, (b) it-extraposition paraphrase, and (c) there-Sentences.

9.Give an example of a sentence with Object control.

Example: "He persuaded her to buy some more books."

10.What is indefinite control in English?

It refers to control patterns with no overt controller, where the controller might be someone mentioned in the context or someone unknown or indefinite.

11.Can PPs also function as Adjuncts or Modifiers in non-finite clauses?

Yes, PPs can serve as Adjuncts or Modifiers in non-finite clauses, as shown in examples like "I want to go to Paris to buy some new clothes."

22.What are control adjectives in English?

Control adjectives are adjectives followed by non-finite clauses with controlled Subject positions, behaving like control verbs.

23.Give an example of a sentence with a control adjective.

Example: "I am eager [s¯ [s( ) to come to your party]]."

24.Are the phrasal verbs "bring in" and "put on" transitive or intransitive?

"Bring in" and "put on" are transitive phrasal verbs.

25.How does the verb "go out" behave in verb gapping?

In verb gapping, "go out" behaves as one unit, indicating it is a phrasal verb.

26.Is the phrasal verb "rely on" transitive or intransitive?

The phrasal verb "rely on" can be both transitive and intransitive, depending on the sentence context.

27.What are the three tests applied to sentence (3) to determine its structure?

The tests are: (I) Fronting, (II) Cleft sentence with X focus, and (III) Replacing with appropriate Adjuncts.

28.Can the phrase "rely on Mary Ann" be fronted or serve as the focus element X in a cleft sentence?

Yes, "rely on Mary Ann" can be fronted and serve as the focus element X in a cleft sentence.

29.Can "on Mary Ann" be questioned by a wh-word?

Yes, "on Mary Ann" can be questioned by a wh-word.

30.What does the behavior of "rely on" in verb gapping suggest?

The behavior of "rely on" in verb gapping suggests that it behaves as a one-word verb followed by a PP.

31.What are the two possible ways to analyze the structure of "rely on Mary Ann"?

The structure can be analyzed as a one-word verb followed by a PP or as a two-word verb followed by an NP.

32.What is the ambiguity in the structure of "rely on Mary Ann"?

The ambiguity lies in the difficulty of determining whether "rely on" acts as one lexical unit or as two separate elements.

33.How does "rely on Mary Ann" behave when fronted?

It can be fronted as a single unit: "On Mary Ann the Vicar can rely."

34.Can you apply verb gapping to "rely on Mary Ann"?

Yes, verb gapping can be applied, resulting in "the Vicar can rely on Mary Ann."

35.How does "rely on Mary Ann" behave when used as the focus element X in a cleft sentence?

It can serve as the focus element X in a cleft sentence, as in "It is on Mary Ann that the Vicar can rely."

36.Can you replace "rely on Mary Ann" with "on Mary Ann" or "Mary Ann" in certain sentence structures?

Yes, both "on Mary Ann" and "Mary Ann" can be used in place of "rely on Mary Ann" in specific sentence structures.

37.Give an example of a phrasal verb that is transitive and requires a PP complement.

Example: "She handed over the paper to the Vicar."

38.Give an example of a phrasal verb that is intransitive and doesn't require a PP complement.

Example: "She went out."

39.Can you replace the PP "after breakfast" in sentence (1) with "then" or "there"?

No, the PP "after breakfast" cannot be replaced by "then" or "there" in that sentence.

40.How do phrasal verbs behave when subjected to verb gapping?

Phrasal verbs act as one unit in verb gapping and cannot be split or separated from their particles.

CODE: ENG509 OBJECTIVE PART LESSON:41,42,43,44,45

1.What are split projections in syntax?

a) Indeterminate structures

b) Parallel structures

c) Hierarchical structures

d) Convergent structures

2.Prepositional verbs share grammatical characteristics with which other types of verbs?

a) Phrasal verbs

b) Modal verbs

c) Auxiliary verbs

d) Regular verbs

3.What is the main difference between prepositional verbs and phrasal verbs concerning particle/preposition placement?

a) Prepositional verbs can only occur before the NP, while phrasal verbs can occur before or after the NP.

b) Phrasal verbs can only occur before the NP, while prepositional verbs can occur before or after the NP.

c) Both prepositional verbs and phrasal verbs can only occur before the NP.

d) Both prepositional verbs and phrasal verbs can occur before or after the NP.

4.Which type of substitution is used to support the idea of internal layering in syntactic constituents?

a) Pro-form substitution

b) One-substitution

c) Do-so substitution

d) Complement substitution

5.According to the text, what is the structure of the NP "students of English from Paris"?

a) [N' students [P' of [N' English from Paris]]]

b) [N' students of [N' English [P' from Paris]]]

c) [N' students of English [P' from Paris]]

d) [N' students of English from [N' Paris]]

6.MCQ: Adjective-Complements in English cannot be realized by which of the following?

a) Nouns

b) Prepositional Phrases (PPs)

c) Sentences (Ss)

d) Verbs (Vs)

7.MCQ: In the phrase "aware of the danger," what is the adjective-complement?

a) aware

b) of

c) the

d) danger

8.MCQ: Which of the following is an acceptable adjective-complement for "afraid"?

a) nuclear

b) afraid of nuclear war

c) afraid that they might start a nuclear war

d) afraidly

9.MCQ: The AdjPs in sentences (3) and (4) contain the italicized elements, which are:

a) Adjectives

b) Adjectives and Adverbs

c) Adjectives and Prepositional Phrases

d) Adjectives and Verbs

10.MCQ: Which of the following is a valid AdjP?

a) sufficiently aware of to do something the danger

b) as afraid of her father nuclear war

c) afraid girl that Susan more ambitious than

d) as her father afraid of nuclear war

11.MCQ: What type of clause lacks a lexical Subject and complementizer "for"?

a) Finite clause

b) Non-finite clause

c) Infinitive clause

d) Relative clause

12.MCQ: Discontinuous strings in AdjPs are separated by which of the following?

a) Nouns

b) Adjectives

c) Prepositions

d) Intervening material

13.MCQ: Which of the following is an example of a discontinuous string?

a) He is too nice to Susan.

b) He is a man too nice to do such a thing.

c) You will not find a girl more ambitious than Susan.

d) He is too man nice a to do such a thing.

14.MCQ: X-bar theory is a theory of syntactic category formation that embodies which of the following claims?

a) Only phrases may contain intermediate constituents.

b) Only words may contain intermediate constituents.

c) Phrases and words may contain intermediate constituents.

d) Only verbs may contain intermediate constituents.

15.MCQ: What does XP stand for in X-bar theory?

a) X-bar

b) X phrase

c) X' prime

d) X-bar-bar

16.MCQ: In X-bar theory, what does X-Complement(s) represent in the PS rule?

a) Modifiers

b) Specifiers

c) Complements

d) Heads

17.MCQ: X-bar theory was first proposed by whom?

a) Ray Jackendoff

b) Zellig Harris

c) Noam Chomsky

d) Charles Fillmore

18.MCQ: What are the two main claims embodied in X-bar theory?

a) All words have intermediate constituents, and they are common to all categories.

b) All phrases have intermediate constituents, and they are common to all categories.

c) Only verbs have intermediate constituents, and they are unique to each category.

d) Only phrases have intermediate constituents, and they are unique to each category.

19.MCQ: Syntax is at the conceptual center of linguistics because:

a) It focuses on the study of phonetics.

b) It deals with the meaning of words.

c) Words are at the interface between phonology, syntax, and semantics.

d) Syntax is a subdiscipline dominant in linguistics.

20.MCQ: Which of the following aspects of morphology is crucial for successful vocabulary development and decoding?

a) Phonemic awareness

b) Syntax

c) Morphological awareness

d) Phonology

21.MCQ: The knowledge of Morphosyntax is essential for language teachers to:

a) Improve their reading skills

b) Develop strong vocabulary

c) Understand word and sentence formation

d) Enhance phonemic awareness

22.MCQ: What strategy can teachers use to help students understand unfamiliar words by analyzing affixes and base words?

a) Synthesizing

b) Paraphrasing

c) Morphological analysis

d) Reading aloud

23.MCQ: Morphology is significant in understanding the development of:

a) Phonological skills

b) Syntax and sentence construction

c) Prosody in speech

d) Rhetorical devices in writing

24.MCQ: Morphological analysis involves identifying and understanding the:

a) Phonemes of a word

b) Prefixes and suffixes of a word

c) Intonation patterns in speech

d) Syntactic structure of a sentence

25.MCQ: Studying morphology helps students to:

a) Improve their handwriting skills

b) Understand word meanings and formations

c) Memorize grammatical rules

d) Enhance their speaking speed

26.MCQ: Which component of grammar deals with the formation of words and sentences?

a) Phonology

b) Morphology

c) Semantics

d) Pragmatics

27.MCQ: What is one of the main challenges in studying morphology?

a) Learning phonetic symbols

b) Understanding sentence structures

c) Identifying word classes

d) Describing allomorphy

28.MCQ: Which of the following is NOT a common Adjective-Complement in English?

a) aware of the danger

b) afraid of nuclear war

c) aware that she was in danger

d) afraidly nuclear

29.MCQ: In the phrase "sufficiently aware of the danger to do something," what is the adjective?

a) of the

b) to do something

c) sufficiently

d) aware

30.MCQ: Which theory of syntax was first proposed by Noam Chomsky?

a) X-bar theory

b) Universal Grammar

c) Transformational grammar

d) Generative grammar

31.MCQ: What are the two independent claims embodied in X-bar theory?

a) Only phrases may contain intermediate constituents; all categories have unique constituents.

b) All categories may contain intermediate constituents; phrases and words have common constituents.

c) Only verbs may contain intermediate constituents; all categories have common constituents.

d) All phrases and words may contain intermediate constituents; they are common to all categories.

32.MCQ: How do students analyze words in morphology?

a) Recognize the meaning of the word

b) Check the spelling of the word

c) Analyze the word for recognizable morphemes

d) Identify the synonyms of the word

33.MCQ: X-bar theory proposes that phrases have different projections, represented by:

a) $X^{=}$, X^{-}, and X-

b) X1, X2, and X3

c) X', X'', and X'''

d) X-bar, X-double bar, and X-triple bar

34.MCQ: How does morphology contribute to vocabulary development?

a) By teaching phonetics and pronunciation

b) By providing tools to break down and understand word structures

c) By focusing on syntactic rules and sentence formation

d) By promoting reading comprehension through decoding

35.MCQ: Which of the following components of linguistics is considered to be at the conceptual center of the field?

a) Phonology

b) Morphology

c) Syntax

d) Semantics

CODE: ENG509 SUBJECTIVE PART LESSON:41,42,43,44,45

Question1: What are prepositional verbs?

Answer: Prepositional verbs are two-word verbs that consist of a verb followed by a preposition (e.g., "rely on," "look at," "deal with").

Question2: What is the duality of the structure in prepositional verbs?

Answer: The duality of the structure in prepositional verbs means that they can be represented in two ways: [vp (v rely] [PP on NP]] or [vp (v rely on] [NP]].

Question3: What are some examples of prepositional verbs?

Answer: Examples of prepositional verbs include "look at," "look for," "call on," "call for," "deal with," "account for," "stare at," "wait for," etc.

Question4: What is one important characteristic shared by prepositional verbs and phrasal verbs?

Answer: Both prepositional verbs and phrasal verbs allow passivization.

Question5: What types of wh-questions are allowed with prepositional verbs and phrasal verbs?

Answer: Prepositional verbs and phrasal verbs allow wh-question formation with "what" or "who," but not "when" or "where."

Question6: What are phrasal-prepositional verbs?

Answer: Phrasal-prepositional verbs are combinations of phrasal verbs and prepositional verbs (e.g., "catch up with," "come up with," "cut down on," "give in to," etc.).

Question7: Can phrasal-prepositional verbs undergo passivization?

Answer: Yes, phrasal-prepositional verbs can undergo passivization. For example: "We have put up with William's rude behavior too long" (active) / "William's rude behavior has been put up with too long" (passive).

Question8: What are prepositional idioms?

Answer: Prepositional idioms consist of a verb followed by an NP and a preposition (e.g., "make use of," "pay attention to," "take advantage of," "set fire to," etc.).

Question9: How many possible structures are there for the NP "take advantage of her goodness"?

Answer: There are three possible structures: [VP [V took] [NP advantage] [PP of her goodness]], [VP [V took advantage] [PP of her goodness]], [VP [V took advantage of] [NP her goodness]].

Question10: What is the difference between N-bar (N^-) and N-prime (N') in the layered structure of NPs?

Answer: N^- represents the first projection of N, while N' represents the highest N or maximal projection. Other levels between N' and N^- are called intermediate projections.

11.What is the difference between morphology and syntax?

Answer: Morphology deals with the study of word structure, while syntax focuses on sentence structure and word order.

12.How do adjectives differ from verbs in terms of taking complements?

Answer: Adjectives take complements realized by prepositional phrases (PPs) or sentences (Ss), while verbs take complements in the form of noun phrases (NPs).

13.Give an example of an adjective and its complements realized by a prepositional phrase.

Answer: Example: "aware of the danger."

14.How can adjectives subcategorize for complements in English?

Answer: Adjectives can subcategorize for a PP introduced by some preposition (P) or for a sentence (S).

15.What are some examples of adjective phrases (AdjPs) with further elements acting as adjuncts?

Answer: Examples: "sufficiently aware of the danger to do something" and "as afraid of nuclear war as her father."

16.How are adverb phrases (AdvPs) different from adjective phrases (AdjPs) in terms of complement realization?

Answer: Unlike AdjPs, AdvPs do not have complements. They lack a lexical subject and the complementizer "for."

17.What is the X-bar theory in syntax?

Answer: The X-bar theory is a theory of syntactic category formation that posits intermediate constituents projected from a head X, which may be common to multiple categories like N, V, A, P, etc.

18.What are some research themes in the field of morphology?

Answer: Research themes in morphology include diachronic morphology, language acquisition, and its pedagogical aspects.

19.How does knowledge of morphology enhance vocabulary development?

Answer: Understanding the meaning of prefixes, suffixes, and roots improves vocabulary development and accurate decoding.

20.How can the study of syntax improve reading comprehension?

Answer: Understanding sentence structure and syntactic skills aid in comprehending and analyzing text effectively.

21.What are some instructional strategies for teaching morphology in the classroom?

Answer: Strategies include teaching morphology as a distinct component of vocabulary improvement programs and using cognitive strategies to break words into morphemes.

22.How does syntax play a role in language acquisition for children?

Answer: Studying syntax helps understand how children acquire language, develop sentence construction, and grasp the tacit syntactic rules of their language.

23.How does the study of morphology contribute to understanding bilingual and multilingual speakers?

Answer: Morphology helps analyze how bilingual and multilingual speakers construct sentences with different language structures.

24.How can knowledge of morphosyntax be used for pedagogical purposes in teaching English as a second language?

Answer: Morphosyntax aids in developing linguistic competence, vocabulary acquisition, and language production in second language learners.

25.What role does syntax play in developing a deeper understanding of language teaching?

Answer: Studying syntax enables teachers to understand language structures, set rules, and constraints for effective communication.

26.How can the study of morphology help students in creating new words?

Answer: Understanding morphology allows students to manipulate word parts and create new words with meaningful structures.

27.What are some benefits of studying syntax for language acquisition?

Answer: Studying syntax helps in understanding language development, sentence formation, and linguistic parameters.

28.How can morphology instruction enhance decoding and vocabulary skills in students?

Answer: Direct instruction in morphology helps students decode unfamiliar words by recognizing affixes and base words.

29.How can awareness of morphology contribute to better reading comprehension?

Answer: Recognizing prefixes, suffixes, and roots aids in understanding word meanings and sentence structures, leading to improved reading comprehension.

30.How can teachers integrate morphology into their vocabulary instruction?

Answer: Teachers can teach morphology as a cognitive strategy, breaking down words into recognizable morphemes and associating them with meanings.

31.What are some benefits of understanding morphosyntax in language learning?

Answer: Understanding morphosyntax helps learners comprehend word formation, sentence structures, and syntactic relationships.

32.How can syntax be applied to enhance communication skills in language learners?

Answer: Knowledge of syntax enables learners to construct grammatically correct and meaningful sentences for effective communication.

33.What role does morphology play in vocabulary development?

Answer: Morphology assists in analyzing word structures, identifying affixes, and expanding vocabulary through word formation.

34.How does the study of syntax contribute to linguistic research on language universals?

Answer: Syntax research allows for the identification of linguistic parameters and the study of language universals like universal grammar.

35.How can an understanding of morphosyntax aid language teachers in designing effective language lessons?

Answer: Knowledge of morphosyntax helps language teachers create meaningful and context-rich lessons for language learners.
