Question No: 1 (Marks: 1) - Please choose one

Laws of perceptual organization were proposed by which of the following school of thought?

- ▶ Functionalism
- ▶ Structuralism
- ▶ **Gestalt school**
- ▶ Behaviorism

Question No: 2 (Marks: 1) - Please choose one

Today psychology is considered as the scientific study of which of the followings?

- ▶ Mind
- ▶ Conscious experiences
- ▶ **Behavior and mental processes**
- ▶ Soul

Question No: 3 (Marks: 1) - Please choose one

Who among the followings is known as “father of Greek medicines”?

- ▶ Socrates
- ▶ Plato
- ▶ Aristotle
- ▶ **Alcameon**

Question No: 4 (Marks: 1) - Please choose one

Who among the followings gave the concept of Insight?

- ▶ Max Wertheimer
- ▶ **Wolfgang Kohler**
- ▶ James Rowland Angell

- ▶ James Mckeen Cattell

Question No: 5 (Marks: 1) - Please choose one

Who among the followings regarded as the “Father of Medicine”?

- ▶ Hippocrates
- ▶ Kraepelin
- ▶ Plato
- ▶ Socrates

Question No: 6 (Marks: 1) - Please choose one

Who among the followings is the author of the book “The Origin of Species”?

- ▶ Emil Kraepelin
- ▶ Paul Broca
- ▶ Wilhelm Griesinger
- ▶ Charles Darwin

Question No: 7 (Marks: 1) - Please choose one

Which of the following is incorrect about insulin-shock therapy?

- ▶ In this therapy the comma is caused because of a reduction in blood sugar level.
- ▶ It has found to be effective with schizophrenics, addicts etc., if used with psychotherapy.
- ▶ It was developed by Paul Broca who was a French surgeon and anthropologist
- ▶ It is used to cure psychological disorders by administrating insulin.

Question No: 8 (Marks: 1) - Please choose one

Which of the following can increase the likelihood of occurrence of a behavior?

- ▶ Extinction
- ▶ Reinforcement
- ▶ Punishment
- ▶ Insight

Question No: 9 (Marks: 1) - Please choose one

Identify where we stop reinforcement and behavior extinguishes.

- ▶ Generalization
- ▶ Extinction
- ▶ Spontaneous recovery
- ▶ Shaping

Question No: 10 (Marks: 1) - Please choose one

Which of the following law is given by Thorndike, that all responses followed by satisfaction are stamped into an individual and he learns those responses?

- ▶ Law of exercise
- ▶ Law of effect
- ▶ Law of insight
- ▶ Law of belongingness

Question No: 11 (Marks: 1) - Please choose one

Which perspective of psychology emerged out of a desire to understand the conscious mind, free will, human dignity, and the capacity for self-reflection and growth?

- ▶ Humanistic
- ▶ Behavioral
- ▶ Gestalt

- ▶ Psychodynamic

Question No: 12 (Marks: 1) - Please choose one

Which of the following process is suggested by Bandura that help human behavior to learn?

- ▶ Intention
- ▶ Observation
- ▶ Insight
- ▶ Reinforcement

Question No: 13 (Marks: 1) - Please choose one

Fatima is using newspaper records to study the rate of crime during the past 20 years. Which type of method is she utilizing?

- ▶ Participant Observation
- ▶ Structured Observation
- ▶ Field experiments
- ▶ Archival data

Question No: 14 (Marks: 1) - Please choose one

A gene that only influences the expression of a trait when paired with an identical gene is known as what?

- ▶ Dominant
- ▶ Mutated
- ▶ Recombinant
- ▶ Recessive

Question No: 15 (Marks: 1) - Please choose one

Which of the following is the correct order for Piaget's four stages of development?

- ▶ Preoperational, sensory-motor, concrete operations, formal operation
- ▶ Concrete operations, preoperational, sensory-motor, formal operation
- ▶ Sensory-motor, preoperational, concrete operations, formal operation
- ▶ Preoperational, concrete operations, sensory-motor, formal operation

Question No: 16 (Marks: 1) - Please choose one

Which of the following is a scan showing biochemical activity within the brain at any given moment?

- ▶ CAT
- ▶ MRI
- ▶ EEG
- ▶ PET

Question No: 17 (Marks: 1) - Please choose one

Which of the following statement best describes “Hormones”?

- ▶ The male gonads
- ▶ Chemicals found in the synaptic vesicles, which when released have an effect on the next cell
- ▶ Chemicals released into the bloodstream by the endocrine glands
- ▶ The female gonads

Question No: 18 (Marks: 1) - Please choose one

What do we call thyroid enlargement?

- ▶ Vitamin deficiency goiter

- ▶ Calcium deficiency goiter
- ▶ Protein deficiency goiter
- ▶ Iodine deficiency goiter

Question No: 19 (Marks: 1) - Please choose one

Which part of the eye is a muscle that regulates the size of the pupil?

- ▶ Retina
- ▶ Sclera
- ▶ Iris
- ▶ Lens

Question No: 20 (Marks: 1) - Please choose one

Identify the proper sequence of structures that sound passes when it enters the ear.

- ▶ Oval window, eardrum, stirrup, cochlea
- ▶ Cochlea, stirrup, eardrum, oval window
- ▶ Stirrup, eardrum, oval window, cochlea
- ▶ Eardrum, stirrup, oval window, cochlea

Question No: 21 (Marks: 1) - Please choose one

Which type of hearing problem can be reduced with ordinary hearing aids?

- ▶ Central deafness
- ▶ Auditory pathway deafness
- ▶ Conduction deafness
- ▶ Sensory-neural deafness

Question No: 22 (Marks: 1) - Please choose one

In Watson's experiment, when little Albet was being conditioned to the fear of a rat, afterwards he used to be afraid of cotton balls as well. This concept is known as what?

- ▶ Stimulus generalization
- ▶ Extinction
- ▶ Spontaneous recovery
- ▶ Higher order conditioning

Question No: 23 (Marks: 1) - Please choose one

When Pavlov presented the bell (CS) continuously without the presentation of the meat powder (US), the dog's salivation decreased. This process is known as what?

- ▶ Stimulus generalization
- ▶ Spontaneous recovery
- ▶ Extinction
- ▶ Reinforcement

Question No: 24 (Marks: 1) - Please choose one

A child overcomes her fear of snakes by observing another child repeatedly handle snakes. This is an example of which of the followings?

- ▶ Cognition therapy
- ▶ Systematic desensitization
- ▶ Modeling
- ▶ Contingency contracting

Question No: 25 (Marks: 1) - Please choose one

Cognitive approach emphasizes on all of the followings EXCEPT:

- ▶ Feelings
- ▶ Thoughts
- ▶ Thinking
- ▶ Genetic makeup

Question No: 26 (Marks: 1) - Please choose one

A

child learns that whenever he eats all of his dinner; he will get a cookie for dessert. This type of learning is best example of which of the following?

- ▶ Operant conditioning
- ▶ **Classical conditioning**
- ▶ Biofeedback theory
- ▶ Social learning theory

Question No: 27 (Marks: 1) - Please choose one

After every third wicket taken by an individual of the Pakistan cricket team, the coach rewards the player. What schedule of reinforcement is being used?

- ▶ **Fixed ratio schedule**
- ▶ Variable ratio schedule
- ▶ Variable interval schedule
- ▶ Fixed interval schedule

Question No: 28 (Marks: 1) - Please choose one

An

employee receives a reward every 45 minutes. In which type of reinforcement schedule organism is reinforced after pre fixed time of intervals?

- ▶ Fixed Ratio Schedule
- ▶ Variable Ratio Schedule
- ▶ **Variable Interval Schedule**
- ▶ Fixed Interval Schedule

Question No: 29 (Marks: 3)

Write a brief note on the nature of cognition.

Cognition Is the Mental process Of Knowing as well as known. It refers to the Knowledge that has been acquired to use In mental process. There is probably no aspect of human life that is void of cognition .Not even sleep. All human Intellectual activities like thinking, Problem solving, Learning require mental process and knowledge.

Question No: 30 (Marks: 3)

Mention the four main categories of drugs and explain any one of them. (1+2)

Question No: 31 (Marks: 5)

What Erik Erikson stated about the human development. How many developmental stages are identified by Erikson? Identify any three stages and briefly explain them. (1+1+3)

His developmental theory of the "Eight Stages of Man" was unique and different in the sense that it covered the entire lifespan rather than 'childhood' and 'adolescent development'.

He believed that social environment combined with biological maturation results in a set of "crises" that must be resolved. The results of the resolution, whether successful or not, are passed on to the next crisis and provide the foundation for its resolution.

Oral-Sensory Stage

The infant develops a sense of who and when to trust.

He learns when to protect oneself and be cautious.

Young adulthood

Focuses On maintaining one's individuality, Making friends, Relationships and intimacy

Middle adulthood

Age of;

- Creativity
- Productivity
- Concern about guiding and helping the next generation
- Concern for others or self-indulgence
- Impoverishment of self

Question No: 32 (Marks: 5)

What is meant by Feature Analysis? Briefly demonstrate the steps in feature analysis.

The process of perceiving a shape, pattern, object, or scene by attending to the individual elements making it up. The approach of feature analysis looks into the individual components in order to understand the entire nature of what we perceive.

The feature analysis starts with the activation of the neurons in the brain, as they are sensitive to particular spatial configurations such as circles, angles, edges, curves etc. Since these neurons are individually present, it is taken to be the evidence of the idea that any pattern, sequence or component can be broken down into simpler events or parts.

Steps in Feature Analysis:

Identify the feature, shape of any object, of which the image falls on the retina.

Combine/ gather object in some form/pattern so that some sort of representation can be formed.

In the final stage, we identify/ compare each component/element/ object with the help of past experiences or memories.
