

1. Dicipline problems arise in school because rules are **Inconsistently** enforced.
2. (EBSS) **Effective behavioural support system**
3. The nurturing, caring environment is one _____frustration and aggression.

Antidote **problem** **reason** **claim**

4. (**Effective Behavioral Support (EBS))** refers to a system of school-wide processes and individualized instruction designed to prevent and decrease problem behavior.
5. Desire for achievement is **intrinsic or extrinsic**?
6. Act authoritatively as a teacher and remain **calm** in the wake of an aggressive act by a student
7. **Promoting** adult modeling of respectful and nonviolent behavior.
8. For struggling students, **extrinsic** rewards can eventually lead to intrinsic motivation.
9. To develop a team focus with shared ownership is one of the **processes** of EBS.
10. School disciplines have main goals: **(2)**
11. Disciplined schools are those which have a high level of communication with the **communities** they serve.
12. Rewards lose their motivational value when they are **too easy, or too hard** to earn.
13. Monitoring and checking task performance deters repetition of minor errors.
14. For effective parent-teacher partnerships, a **caring** curriculum should be developed.
15. Piaget (1932) pointed to **<peer>** interaction as one major source of cognitive as well as social development.
16. Disciplined schools are those which have a high level of communication and partnership with the- **communities**
17. Teacher should make the students take intrinsic as well as **extrinsic** interest in the subject.
18. Encouragement supports self-efficacy, criticism **hampers** it.
19. Teachers should have **realistic** perceptions of self and students.
20. A caring curriculum should promote a **shared** learning.
21. The entire community is better off when troubled students are served more **appropriately**.

22. During class student sighs indicate that they are suffering from **(anxiety)**
23. Social skill lessons are best implemented in groups of **3 to 5** students
24. If the student cannot produce the socially correct response, the social skill problem may be due to a _____deficit.

skill knowledge talent competence

25. Traditional punishment and exclusion may provide a short-lived relief from **disciplinary** problems.
26. The primary aim of discipline in a well-managed classroom is to train students to take responsibility for positive self-discipline.
27. Staring the class with class agenda on the board can help students to focus and prepare for the day's class.
28. In the long term, punishment and exclusion are considered _____.

ineffective effective dangerous none of these

29. Which of the following is not included in indirect bullying?

Threats **physical aggression** spreading rumors writing hurtful graffiti

30. Which of the following is not a Chief Feature of reality therapy

Class meetings Clearly communicated rules The use of plans and contracts **never over react**

31. Which of the following should be a part of teacher's personality?

A cheerful disposition Friendliness Emotional maturity **all**

32. Which of the following can be given to more advanced students?

Group leaders monitors teaching assistants **all**

33. The objects the language learners can see, hear and touch into the classroom are called?

Regalia replica props source

34. Behavioral records need to be made formatively as well as **summatively.**
35. Sign of achievement is the example of

Instrinsic Extrinsic Behavior none of them

Q. What is benefit of teacher availability for students motivation?

Teacher availability

As much as possible be available to students before and after class to establish personal relationships, so that they feel that they are individuals in the eyes of teacher.

Activity goals

1. Make students aware of the goals of each learning activity.
2. If they understand why they are doing the activity, they will participate more willingly.

Q. Five teacher rules that help in establishing caring classroom?

In order to establish caring classroom, it is important to frame rules that are socially-emotionally driven.

a) Be emotionally supportive
b) Be helpful to peers
c) Be respectful
d) Do not shout
e) Do not snatch or spoil the material

Q. Mention any two benefits of peer tutoring structures that help in remediating in class room discipline problems?

Peer tutoring structures lower the incidence of misbehaviour in classrooms. Depending on the situation, students with behaviour problems may serve as either tutors or tutees.

Q. Enlist three problems of aggressive students

Aggressive students often:

- Exhibit deficits in social information processing
- Are likely to misinterpret social clues
- Mis-assign hostile intent to others, especially during stress

Q. Warm School Climate

A warm social climate, categorized by a concern for students as individuals, is typical of welldisciplined schools. Teachers and administrators should take interest in the:

- Personal goals
- Achievements
- Problems of students and support them in their academic and extracurricular activities

Q. Caution with Disciplining Students

- Personal responses are critical
- Teaching calls for personal self-control
- Follow a professional pattern of management
- Stay calm and in control of your emotions

Q. Name three assigning roles to advanced students

a) Group leaders
b) Monitors
c) Teaching assistants

Q. Parenting styles have a strong impact on children's development.

- Bullies and victims tend to come from families where parenting is either passive or authoritarian.
- Children who come from homes where have experienced authoritative parenting are less likely to be involved in either bullying or victimization.
- With authoritative parenting, children learn self-determination and independence within reasonable boundaries.

Q. Limiting factors of social development

A child's connection with a:

- Given family
- Neighborhood
- School may limit opportunities for social development

Lack of diversity in social interactions, at home and in school, may also limit a child's ability to be socially competent in various circumstances.

Q. Types of Bullying

1. **Direct Bullying**: is used when verbal and physical aggression is used to harm a student.
2. **Indirect bullying includes:**

- Threats

- Insults
- Name calling
- Spreading rumors
- Writing hurtful graffiti

Q. Avoid nice teacher syndrome?

- Do not fall into the trap that imprisons many beginning teachers. Avoid the nice teacher syndrome.
- These teachers want their students to like them and thus give them unnecessary allowance.
- **Thus disruptive behavior is encouraged and sometimes becomes difficult to handle.**

Q. performance accomplishment?

- The manner in which accomplishments are received has an influence on an individual's self-efficacy, expectations and actions.
- In the classroom, for example, poor grades and other negative assessments of ability can lower self-efficacy beliefs.

Q. teacher enthusiasm?

Teacher enthusiasm positively affects student behavior and improves students student achievement as well.

1. Move around the class
2. Tone the voice
3. Share and articulate interest in the subject

Q. process of EBSS?

Processes of EBSS:

1. Clarify the need for effective behavioral support and establish commitment, including administrative support and participation.
2. Priority of this should be reflected in the school improvement plan.
3. Develop a team focus with shared ownership.

Q. features of effective behavioral support?

1. There is total staff commitment to managing behavior, whatever approach is taken.
2. There should be clearly defined and communicated expectations and rules.
3. Have an instructional component for teaching students self control and/or social skill strategies.

4. Prepare a support plan to address the needs of students with chronic, challenging behaviours.

Q. What is the role of administrative leadership and discipline?

The principal plays a very important leadership role in establishing school discipline, both by effective administration and by personal example.

Administrative Models:

Principals of well-disciplined students are usually highly visible models.

Principal

- Teacher Rapport
- Teachers' satisfaction with school discipline policy is related to their relationship with the principal.
- A principal should be able to create consensus among staff on rules and their enforcement.

Q. how does development of self efficiency and empathy enhances student success in classroom?

Empathy

Empathy is extending help to students and showing concern towards them. Teachers should try their best to put themselves in their students' shoes and solve problems.

Efficacy

Self-efficacy is facilitated by a person's beliefs and expectations about his/her ability to achieve certain tasks successfully or demonstrate certain behaviors.

Q. Enlist types of penalties that can be used in a classroom

- Reduction of grades
- Loss of privileges
- Referral to an administrator

Q. Write 5 characteristics of school discipline plan

- A school discipline plan should be designed around the individual school's learning goals and philosophy of education.
- A uniform reporting system is an important element of a school discipline plan.

- Written policies should be developed with input from everyone who will be affected by them.
- Teacher input is especially important because their support is crucial to plan's success.
- Once developed, discipline policies must be communicated to staff, students, parents and community.

Q. Write 2 uses of dictogloss in a classroom

- Students listen twice to a passage read at normal speed, taking notes during the second reading.
- They then work with a partner to try to reconstruct the text.
- When a pair thinks they have the information, they write the passage on the board and the class works together to make it as close to the original as possible.

Q. 3 characteristics of behavioral portfolio

- Records of behavioral progress
- Observation checklists of specific behavior
- Benchmarks that students achieve at the end of each term

Q. explain 3 factors of social skill group lessons

1. An explanation of why the group is meeting
2. A definition of what social skills are
3. An explanation of what is expected of each student during the group.

Q. Three factors that develop self efficacy and one that hampers it

Family, teachers and friends all play a significant role in verbal persuasion about appropriate behaviors. Beliefs about self are influenced by the message conveyed by others. Encouragement supports self-efficacy, criticism hampers it.

Q. Identify some of the behaviors of students that need counseling services in schools?

When the records of students behavior show deterioration, proper counseling services must be sought to address the issues.

Professional support is required to deal with:

- Aggressive behavior
- Bullyism
- Criminal behavior
- Sadistic behavior

- Extreme shyness
- Lack of self-efficacy

Counselors must become part of the school culture and must be available all the time on campus to handle day to day behavioral issues.

Q. Explain overlapping as a classroom management strategy.

Overlapping means handling two or more situations or activities simultaneously. A teacher who can instruct a group of students while responding to student concerns from outside of the group can keep an entire classroom working smoothly.

Q. problem in discipline in schools.

More discipline problems are the result of boredom or alienation. If students are interested in the class, many discipline problems disappear.

Q characteristics of Discipline plan.

1. Variety of activities:
2. Establish routines
3. Set classroom rules

Q. characteristics of Social competence

It is a skill that helps to:

Generate good social interactions among peers. Establish caring connections

- Develop warm attitudes
- Downplay violence and aggression among students Social competence is the ability to act in a caring and helpful manner towards others.

Q. factor of limitation in society

A child's connection with a:

- Given family
- Neighborhood
- School may limit opportunities for social development
- Lack of diversity in social interactions, at home and in school, may also limit a child's ability to be socially competent in various circumstances.

Q. qualities of teacher in teaching social skill

A teacher should have:

- A cheerful disposition
- Friendliness
- Emotional maturity
- Sincerity

Q. classroom intervention to control bullying

- Teachers can be encouraged to integrate bullying prevention material into their curriculum.
- This can be accomplished by holding regular classroom meetings to discuss bullying.
- Classroom meetings with students help increase students' knowledge of how to intervene, build empathy, and encourage pro-social norms and behaviours.

Teachers should involve the class in:

- Establishing and enforcing class rules against bullying.
- Discussing the importance of bystanders in stopping bullying.

Q. Reality therapy?

Reality Therapy involves teachers, helping students make positive choices by making clear the connection between student behavior and consequences.

Chief Features:

- Class meetings
- Clearly communicated rules
- The use of plans and contracts

Q. why traditional punishment should be avoided.

- Traditional punishment and exclusion may provide a short-lived relief from disciplinary problems.
- In the long term, punishment and exclusion are ineffective and can lead to renewed incidents of disruptive behaviours.
- It is, therefore, important to teach social competence so that instances of problem behaviours can be reduced.

Q. Dealing with violence

- Troubled students need habilitative services instead of haphazard punishment.
- A full range of educational, mental health, and other services should be available to them.
- Aggressive and violent behaviours do not develop overnight and cannot therefore be eliminated in short periods of time.

Q. 3 steps to reward plans

1. First, a teacher decides on one or more specific goals for a student.
2. The teacher spells out the goals concretely either on a chart or in conversation.
3. In discussing the reward plan, the teacher offers a modest reward for success in meeting goals.

Q. Three penalties use in classroom?

- Reduction of grades
- Loss of privileges
- Referral to an administrator

Q. Consequences of Bullying – 1

Bullying can have serious and long-term consequences for the:

- Bully
- Victim
- School community

Victims of bullying can have:

- Long-term
- Emotional
- Academic
- Behavioural problems

Q. What strategies should be implemented in schools to control violence among students?

- A nurturing, caring environment is one antidote to frustration and aggression.

Teachers who are therapeutic demonstrate:

- A high level of self-awareness and self-confidence.
- Realistic expectations of self
- The ability to exhibit and model self-control in managing stress and frustration.

Q. How can preventive discipline be exercised by teacher in the classroom?

Commitment, on the part of all staff, to establish and maintain appropriate student behaviour should be an essential precondition of learning. Well-disciplined schools tend to be those in which there is:

- A school-wide emphasis on the importance of learning
- Intolerance of conditions which inhabit learning

Q. what strategies can a teacher use to develop strong social competence among students?

The success of teachers and administrators in helping students develop social competence depends on their ability to:

- Develop a school-wide culture of social competence
- Infuse the curriculum with situation-specific social skills lessons that target key behaviors
- Match the level and intensity of instruction to students' social skills deficits

Q. Enlist five names which for bench marking can be done.

Benchmarking can be done for:

a) Communication with teacher
b) Communication with peers
c) Interpersonal relationships
d) Material safety
e) Following rules

Q. Affective objectives in lesson plans

1. Behavior modification happens over time
2. Drastic changes in behaviors are not long lasting
3. Integrate affective objectives in the lessons
4. Make students and other stakeholders realize that they are as important as cognitive objectives
5. Continuous integration will lead to behavior modification

Q. School-level interventions

- Clarifying and communicating behavioural norms- that is, developing classroom and school-wide rules that prohibit bullying.
- Promoting adult modeling of respectful and nonviolent behaviour.
- A written bullying prevention policy can send a clear message that bullying incidents will be taken seriously.
- The policy could include a clear definition of bullying and a reporting procedure.
- A confidential reporting system may encourage students to report if they are victimized or have witnessed bullying.

Q. Whole School Approach in Bullying Prevention

Whenever we talk about whole school approach, the following strategies must kept in mind.

- Progressive discipline
- Restorative practice

- Character education
- Bully and cyberbullying prevention and intervention
- Healthy choices
- Safety and security

Q. On what issue parents must agree to manage their children's behavior?

Parents and teachers can engage in:

- Joint learning activities
- Supporting each other in their respective roles
- Carrying out classroom and school improvement activities
- Conducting collaborative curriculum projects in the classroom
- Participating together in various decision-making activities

When parents sense an inviting school climate, they emphasize nurturing and supporting behaviors in their interactions with teachers, their participation in the school environment also increases.

Q. Pro-social behavior

Developing pro-social behaviour:

- Taking turns
- Working with partner
- Following directions
- Working in a group or with others
- Displaying appropriate behaviour towards peers and adults

Q. write 3 Teachers' attributes in teaching social skills

Social attractiveness

- A cheerful disposition
- Friendliness
- Emotional maturity
- Sincerity

Pro-social activities

- Role taking exercises
- Intergroup dialogues
- Group discussion
- Jigsaw grouping
- Storytelling

Q. writes 5 pro social activities

- Role taking exercises
- Intergroup dialogues
- Group discussion
- Jigsaw grouping
- Storytelling

Q. Teacher training in classroom discipline?

Discipline Training Programs should include learning activities and practice in the areas of:

- Organizing the room and materials
- Developing a workable set of rules and procedures
- Assuring student accountability
- Formulating and explaining consequences
- Planning activities for the first week
- Maintaining the management system

Q. Setting benchmark for behavior expectation?

Benchmarks

1. Benchmarking is used to record performance by using a specific indicator.
2. Benchmarks are specific points of reference connected to levels of performance against which students are monitored.

Development of Benchmarks

Benchmarking can be done for:

a) Communication with teacher
b) Communication with peers
c) Interpersonal relationships
d) Material safety
e) Following rules

Q. Affective objective in lesson plan?

1. Behavior modification happens over time
2. Drastic changes in behaviors are not long lasting
3. Integrate affective objectives in the lessons
4. Make students and other stakeholders realize that they are as important as cognitive objectives
5. Continuous integration will lead to behavior modification

Q. What do mean by extrinsic motivation and intrinsic motivation

Intrinsic Motivation:

1. Intrinsic motivation is a desire to attain targets for the sake of learning.
2. The urge for a true desire for mastery is driven by intrinsic motivation.
3. Students are rewarded for showing keen interest in the tasks assigned to them whether they are academic or behavioural in nature.
4. An intrinsic motivated reward further put faith in students' ability and reaffirms the displayed behavior.

Extrinsic Motivation:

- Extrinsic motivation occurs when a student is driven to perform behavior in order to win a reward or avoid a punishment.

For example:

(i) You want to put up a good behavior because of fear of punishment.
(ii) You want to help others in a classroom to get some defined incentives.

- Students who must put forth more than the average degree of effort to accomplish a goal often become discouraged and invest less energy in challenging tasks. (Levin, 1994)
- Rewards can provide temporary incentives to encourage persistence when the natural, invisible rewards of success and mastery are infrequent.

Q. How create discipline problem in school?

Discipline problems arise because rules are:

- Unclear
- Perceived as unfairly or inconsistently enforced
- Students do not believe in rules

Discipline problems arise because:

- Teachers and administrators disagree on the proper responses to student misconduct
- Teacher-administration cooperation is poor or the administration is inactive
- Teachers tend to have punitive attitudes
- Misconduct is ignored
- Schools are large or lack adequate resources for teaching

Q. teacher parent partnership role?

- Joint learning activities
- Supporting each other in their respective roles

- Carrying out classroom and school improvement activities
- Conducting collaborative curriculum projects in the classroom
- Participating together in various decision-making activities when parents sense an inviting school climate, they emphasize nurturing and supporting behaviors in their interactions with teachers, their participation in the school environment also increases.

Q. Source of frustration among aggressive student?

- Failure
- Lack of maintenance of social relationships
- Boredom
- Lack of positive reinforcement
- Irrelevant curriculum
- Overexposure to punishment
- Feelings of powerlessness

Q. problems which students face to get incentives

Despite teachers efforts to present lessons in creative ways, for some students mastering educational tasks may require a great deal of skill and instruction. Students may have problems in areas such as:

a) Motor coordination
b) Recognition of sounds and symbols
c) Sensory processing
d) Learning rules for social interaction
e) Controlling impulsive behaviors

Q. Enlist five stages of frustration.

1. Anxiety
2. Stress.
3. Defensiveness
4. Physical Aggression
5. Tension Reduction
6. Classroom level interventions to control bullying

Q. Availability of teachers' for student's motivation.

As much as possible be available to students before and after class to establish personal relationships, so that they feel that they are individuals in the eyes of teacher.

Activity goals

1. Make students aware of the goals of each learning activity.
2. If they understand why they are doing the activity, they will participate more willingly.

Activities to be success oriented

1. Make all activities success oriented.
2. Students will participate willingly in tasks that seem achievable.
3. When they have confidence in their success, they will be motivated to try.

Q. School level interventions?

- Clarifying and communicating behavioral norms
- Promoting adult modeling of respectful and nonviolent behavior
- A written bullying prevention policy can send a clear message
- The policy could include a clear definition of bullying
- A confidential reporting system may encourage students to report if they are victimized or have witnessed bullying

Q. reward components

- Choose incentives
- Interpersonal rewards
- Ownership rewards
- Emphasis on positive behavior
