MGT402 FINAL TERM PAPER SHARED BY STUDENT

ON AUGUST 16, 2017 AT 10:53AM

My today MGt402 paper , 16 Aug 2017

Question no 01: Apex corporation experienced following during April;

Particulars	Units
Beginning WIP inventory (100% material & 40% labor)	7,500
Units started in this Period	64,000
Ending WIP inventory (100% material, 60% labor)	5,000

Direct Material added at start of process & direct labor is added uniformly throughout process.

Required: Calculate equivalent unit for direct material & direct labor under weighted average method?
(marks 03)

Question no 02: Ahmad & corporation has following information about his product (Soap). The selling price Rs. 110 per soup. Variable cost Rs.75 per soup, total fixed cost for firms is Rs. 70,000. Company has budgeted sale of Rs. 270,000 and breakeven sale Rs. 220,000.

www.ranapk.com

Required: calculate margin of safety? (marks 03)

Question no 03: Following information available for preparing direct labor cost;

Budgeted labor hours = 1.5 hours per unit

Per hour rate = Rs. 40 per hour

Required: Calculate estimated amount of direct labor cost to produce 2400 units?? (marks 03)

Question no 04: Briefly explain concept of cash budget? (marks 03)

Question no05: Calculate “per unit Cost”. Under the absorption and marginal costing? (marks 03)

Direct material = Rs.40 per unit

Direct Wages = Rs. 55 per unit

Variable overhead = Rs. 35 per unit

Fixed Overhead = Rs. 50,000

Production unit = 1000 units

Question no 06: XYZ corporation started 14,000 units for production during month of June. The company has 5,600 units (65% complete as to conversion cost) in beginning WIP, & 4000 Units (60% complete as to conversion cost) in Ending WIP.

Required: Calculate unit Transferred out and equivalent unit of production for consumption cost by using weighted average method? (Marks 05)

Question no 07: How you differentiate “theoretical capacity” and “Practical capacity”?? (marks 05)

Question no 08: Prepare income statement under absorption & marginal costing system? (marks 05)

Cost per unit under absorption costing	200(Fixed cost inclusive @ Rs.25 per unit)
Cost per unit under marginal costing	Rs. 175
Unit Produced	100
Units sold	100@ 250/-

www.ranapk.com

Question no 09: How can we make difference between Fixed budget and Flexible Budget? (marks 05)

Question no 10: RADF company sells several products, information about its operation term of revenue & cost as follows; (marks 05)

Selling Price per unit	Rs. 20
Variable cost per unit	
Direct Material cost	Rs. 04
Direct manufacturing labor	Rs.160
Manufacturing overhead	Rs. 0.40
Selling cost	Rs. 02
Annual fixed cost	Rs. 96,000

Required:

- 1) Calculate contribution Margin per unit
- 2) Calculate Break-even sale in terms of unit

MGT402_SPRING2016_22AUGUST_2016

- Calculate Capacity n Activity Ratio
- Equivalent units produced and unit per cost(CPR)
- Equivalent units produced and unit per cost (Weighted average method)
- Gross Profit bu using Absorption costing and Marginal costing methods
- Budgetary Control system
- Breakeven sales in rupees and units
- Direct labor cost budget
- Physical Quantity Ratio

www.ranapk.com

MGT402 FINAL TERM PAPER SHARED BY STUDENT

ON AUGUST 23, 2016 AT 8:40PM

- 1) It is said that “No system of planning can be successful without having an effective and efficient system of control”. Support your answer in the light of budgetary control and its process contents”
- 2) How is abnormal loss treated in cost of production report?
- 3) What are the possible ways for selling out the by product?
- 4) What is meant by the term ‘idle capacity’?
- 5) What are main factors that must be considered while preparing production budget?

Although there are several factors but below must be considered while preparing production budget:-

1. Unit required to be sold
 2. Raw material required to produce the required units.
 3. Required Labor to complete the required units.
-
- 6) Distinguish between normal and abnormal loss.

www.ranapk.com

7) 80 units of product “Milk chocolate” are sold for Rs. 110 per unit. Variable cost for the product is Rs. 80 per unit and fixed cost is Rs. 2,000.

Now, management of the company is planning to decrease the sale price by 10% which led towards increment in sale unit by 10%.

Required:

Prepare an income statement by considering the new affects i.e. decreased in sale price by 10% and increased in sales volume by 10%

8) XYZ Corporation has started 14,000 units for production during the month of June. The company has 5,600 units (65% complete as to conversion cost) in beginning work in process and 4,000 units (60% complete as to conversion cost) in ending work in process.

Required: Calculate **units transferred out** and **equivalent units of production for conversion cost** by using weighted average cost method.

Note: Show complete working

9) Write down the advantages of Zero Base Budgeting. Enlist any five.

It was on 20.08.2016. Sorry for Late sharing.

MGT402 FINAL TERM PAPER SHARED BY STUDENT

MGT 402 --- FINAL TERM – 24 AUG 2016 – 8 AM SHIFT

Q- equivalent unit weighted average method numerical ---3 marks

Q- equivalent unit weighted average method numerical ---5 marks

Q- calculate profit like numerical

Q-direct labor budget related numerical..

Q- cost of production report and its preparation 5 marks

Q- break even unit & break even ruppess related numerical.....

Q- difference between fixed and flexible budget. 5 marks

only remember these

MGT402 FINAL TERM PAPER SHARED BY STUDENT

ON AUGUST 26, 2016 AT 1:47AM

Paper was yesterday afternoon. Sorry for late sharing....

MCQ were mostly calculation related and took most of the time.

Briefly explain process costing system. (3 Marks)

Data was given for this question, If by-product revenue is treated as other income, what would be the gross profit and net profit before income tax? (3 Marks)

Calculate the estimated cost of direct labor to produce 3,600 units by keeping in view the above mentioned information. Data was given for question. (3 Marks)

Write down the external factors that influence the preparation of sales budget? (3 Marks)

www.ranapk.com

Using the average cost method, what is the cost (rounded to two places) per equivalent unit for materials? Data was given for question. (5 Marks)

Enlist the various sections of cost of production report. Also give brief explanation of these. (5 Marks)

Calculate activity and capacity ratios and also mention that whether these are favorable or unfavorable. (5 Marks)

You are required to present a tabular statement to bring out the effect on net profit of the declining volume of sales over the four quarters given using Marginal costing. Data was given for question. (5 Marks)

How we can make difference between Fixed Budget and Flexible Budgets.? (5 Marks)

MGT402 FINAL TERM PAPER SHARED BY STUDENT

ON AUGUST 27, 2016 AT 10:17PM

Mgt402

mostly mcqs conceptual and theoretical i don't know whether they were from past papers or not.

Questions

- 1) income statement under absorption and marginal cost 5marks
- 2) activity and efficiency cost 5 marks
- 3) production budget 3 marks
- 4) various section of cost of production report 5 marks
- 5) prepare quantity schedule 3 marks
- 6) joint cost in RS
- 7) Equivalent units produced and unit per cost(CPR)

image: <http://www.virtualinspire.com/images/smilies/af.gif>

Break even sales via margin of safety

MGT402 FINAL TERM PAPER SHARED BY STUDENT

27/2/2016 MY EXAM 8 AM

mcqs were half theoretical half numerical based they ..sab hi lectures mein se aye the

1. sunk cost with definition and example

www.ranapk.com

2. what is operating expense budget
 3. make sales budget values were given
 4. cash budget values were given
 5. profit and loss statement with the help of marginal cost
 6. profit/loss find kerna tha ik or question me
 7. ik question sunk product ko sell or keep kerne ka tha
 8. make or buy ka ik question tha data was given and asked you whether make it or buy it
- itna hai yaad hairemember me in prayers ...mujhe tou paper mushkil laga...

MGT402 FINAL TERM PAPER SHARED BY STUDENT

ON MARCH 2, 2016 AT 9:29PM

My today's Paper

1. Sunk Cost and operation cost
2. Flexible Budget k related three question
3. Variable Cost and Fixed Cost (related numerical)
4. Marginal Contribution (related numerical)
5. Break even analysis
6. Mostly MCQs mein numerical they.
