Past Papers for Mids./Finals are also Available

Relationships between variables

- Cause and effect
- Correlation and causation ✅

Which perspective views society as a harmonious whole with interrelated parts working together?

- Postmodernism
- Symbolic interactionism
- Structural functionalism ✅
- Conflict theory

What is the primary purpose of formulating a hypothesis in the research process?

- To define the operational definitions
- To select a research method
- To identify the research problem
- To predict relationship between variables ✅

Which one of the following research methods offer in-depth insights into a specific situation?

- Survey
- Case studies ✅

What is the primary purpose of drawing conclusions and making generalizations in research?

- To start a new research project
- To summarize the research findings ✅
- To increase the sample size
- To collect more data

Feminism is a theoretical approach that focuses on the study of gender roles and inequalities.

- False
- True ✅

MAM MEHWISH 03184148783

Social interaction in which someone adopts dominant cultural traits is called:

- Amalgamation
- Diffusion
- Assimilation ✅
- Accommodation

In sociology, "social stratification" is mainly concerned with:

- Investigating physical geography
- Understanding social inequalities and hierarchies ✅
- Studying individual psychology
- Analyzing global trade and commerce

What does postcolonialism emphasize?

- Language and discourse in shaping social relations and structures
- Harmonious existence of groups
- Colonialism and its legacy in shaping social relations and structures ✅
- Gender in shaping social relations and structures

Which of the following represents variables that are manipulated or controlled to test their effect on other variables?

- Abstract concepts
- Independent variables ✅
- Intervening variables
- Dependent variables

1. **What is causation in the context of research?**
    - When two variables are related to each other, but one does not necessarily cause the other
    - When two variables appear to be related, but the relationship is caused by a fourth variable
    - **When one variable directly affects another variable** ✔

MAM MEHWISH 03184148783

- When a third variable influences the relationship between two other variables

2. **According to Marx, which of the following would lead to a classless society?**
   - Political upheaval
   - Technological progress
   - Economic equilibrium
   - **Proletarian revolution** ✔
3. **Amalgamation is a type of social interaction which means:**
   - The process of adopting traits of dominant culture
   - Material culture changes more quickly than non-material
   - Feeling that others' culture is superior and others inferior
   - **The process of blending of different cultures** ✔
4. **If you want to study the impact of caffeine on the alertness of individuals. Which of the following is the most appropriate research method for this study?**
   - Observational research
   - Literature review
   - **Experimental study** ✔
   - Survey research
5. **Competition can be constructive or destructive can lead to innovation, progress and sometimes social inequality.**
   - **True** ✔
   - False
6. **Why is it crucial to maintain confidentiality and anonymity in research?**
   - To increase the number of participants in the study
   - To simplify the data analysis process
   - **To protect participants' privacy and identity** ✔
   - To ensure quantitative data accuracy
7. **Which of the following is a major concern of conflict theory?**
   - Social stability and harmony
   - **Social inequalities and power dynamics** ✔

MAM MEHWISH 03184148783

- Social norms and values
- The interdependence of social institutions

8. **Non-verbal communication plays a minimal role in social interaction and relationships.**
   - **False** ✔
   - True
9. **Sociology is defined as the study of:**
   - Astronomy
   - **Society** ✔
   - Ecology
   - Genetics
10. **Herbert Spencer coined the phrase to describe the evolution of societies, emphasizing the survival of the fittest.**
    - Societal harmony
    - **Social Darwinism** ✔

 The relationship between two variables is spurious when it is statistically significant.

- False
- **True** ✔

 What is the term used to describe the interplay between individual and societal factors in shaping behavior?

- Social interdependence
- Social causality
- **Reciprocal influence** ✔
- Societal agency

 What step in the research process involves reviewing existing publications and sources related to the research topic?

- Collecting data
- Selecting a topic
- **Reviewing the literature** ✔

MAM MEHWISH 03184148783

- Formulating a hypothesis

 Sociology aims to develop untestable explanations of social phenomena.

- **True** ✔
- False

 The expected behaviour attached to a status is called role.

- **True** ✔
- False

 Which of the following represents variables that are manipulated or controlled to test their effect on other variables?

- Dependent variables
- **Independent variables** ✔
- Abstract concepts
- Intervening variables

 In the field of sociology, the study of _____ is a major contribution of Durkheim.

- Empiricism
- **Suicide** ✔
- Social Darwinism
- Class struggle

 Misrepresenting oneself during research is generally considered ethical in the field of sociology.

- **True** ✔
- False

 Which of the following describes correlation in research?

- When a third variable influences the relationship between two other variables
- When one variable directly affects another variable
- When two variables appear to be related, but the relationship is caused by a fourth variable
- **When two variables are related to each other, but one does not necessarily cause the other** ✔

 Scientific research in sociology often depends on secrecy and biases.

- **True** ✔

MAM MEHWISH 03184148783

- False

Emile Durkheim viewed society as a complex system with interrelated structures rather than merely a collection of:

- Individuals ✔
- Culture

According to Comte, sociology primarily focuses on:

- Religious doctrines
- Speculative theories
- Observable evidence and objectivity ✔
- Abstract philosophical concepts

Social interaction is a key component to understand society and its:

- Genetics
- Behaviour ✔
- Maps
- Places

Which perspective views society as a harmonious whole with interrelated parts working together?

- Postmodernism
- Symbolic interactionism
- Conflict theory
- Structural functionalism ✔

In which of the following types of interview is each question followed by a list of possible answers?

- Unstructured
- Structured ✔

You have gathered data from your survey about citizens' attitudes towards COVID-19 measures. What comes next in the research process?

- Conducting interviews
- Analyzing the data using descriptive or inferential statistics ✔
- Selecting a representative sample

MAM MEHWISH 03184148783

- Designing unbiased questions for the next survey

Competition can be constructive or destructive and can lead to innovation, progress, and sometimes social inequality.

- False
- True ✔

Which of the following types of social interaction creates strong social bonds and promotes a sense of belonging?

- Coercion
- Conflict
- Cooperation ✔
- Competition

What did Karl Marx emphasize as the driving force of history?

- Economic equality
- Cultural exchange
- Technological innovation
- Social revolution ✔

1. Who is regarded as the founder of conflict theory?

Options:

A. Talcott Parsons

B. Karl Marx

C. Emile Durkheim

D. Max Weber

Correct Option: B. Karl Marx

2. What are the criteria for establishing causation between two variables?

Options:

A. Spurious correlation, ruling out alternative explanations, and random sampling

B. Experimental design, correlation, and statistical significance

MAM MEHWISH 03184148783

C. Replication, correlation, and temporal priority

D. Temporal priority, correlation, and ruling out alternative explanations

Correct Option: D. Temporal priority, correlation, and ruling out alternative explanations

3. Social exchange theorists suggest that interactions are guided by the _____ motive.

Options:

A. Loss

B. Profit

Correct Option: B. Profit

4. Which of the following knowledge is less credible due to dependence on limited observations?

Options:

A. Rituals

B. Common sense

C. Generalization

D. Research

Correct Option: B. Common sense

5. What is the term used to describe the interplay between individual and societal factors in shaping behavior?

Options:

A. Social causality

B. Social interdependence

C. Societal agency

D. Reciprocal influence

Correct Option: D. Reciprocal influence

6. Which approach in research is more confirmatory and tests existing theories and hypotheses?

Options:

MAM MEHWISH 03184148783

A. Deductive approach

B. Inductive approach

C. Both inductive and deductive approaches

D. None of the given options

Correct Option: A. Deductive approach

7. What is the main purpose of analyzing observation data in qualitative research?

Options:

A. To conduct statistical hypothesis testing

B. To generalize findings to other settings

C. To identify patterns and themes in social behavior

D. To develop surveys for data collection

Correct Option: C. To identify patterns and themes in social behavior

8. Structural functionalism suggests that social equilibrium is achieved through cooperation and mutual dependency.

Options:

A. False

B. True

Correct Option: B. True

9. Which of the following involves conducting a study on the impact of social media on mental health among Pakistani youth?

Options:

A. Making generalizations based on data

B. Disseminating research findings

C. Drawing conclusions from research

D. Defining the research problem

Correct Option: D. Defining the research problem

MAM MEHWISH 03184148783

10. Which level of analysis in sociology focuses on studying individual behaviors?

Options:

A. Micro level analysis

B. Global level analysis

C. Meso level analysis

D. Macro level analysis

Correct Option: A. Micro level analysis

1. Which of the following represents variables that are manipulated or controlled to test their effect on other variables?

- A) Intervening variables
- B) Dependent variables
- C) Independent variables
- D) Abstract concepts
- **Correct option: C) Independent variables**

2. Scientific research in sociology moves beyond common sense and _____ prevailing beliefs about social life.

- A) Accept
- B) Challenge
- **Correct option: A) Accept**

3. What is the primary focus of structural functionalism?

- A) Rapid change in social structures
- B) Relationship between social structure and social order
- C) Studying cultural diversity and its impact on society
- D) Analyzing individual behaviors and attitudes
- **Correct option: B) Relationship between social structure and social order**

MAM MEHWISH 03184148783

4. Which of the following research approaches in sociology tests existing theories and hypotheses?

- A) Inductive approach
- B) Correlational approach
- C) Comparative approach
- D) Deductive approach
- **Correct option: D) Deductive approach**

5. According to the sociological perspective, what is at the heart of understanding human behavior?

- A) Genetic factors
- B) Social contexts
- C) Individual psychology
- D) Cultural heritage
- **Correct option: B) Social contexts**

6. Communication, both verbal and non-verbal, _____ across cultures.

- A) Vary and changes
- B) Remains unchanged
- C) Is universal
- D) Remains constant
- **Correct option: A) Vary and changes**

7. Which perspective views society as a harmonious whole with interrelated parts working together?

- A) Postmodernism
- B) Structural functionalism
- C) Conflict theory
- **Correct option: B) Structural functionalism**

MAM MEHWISH 03184148783

8. Selecting a random sample ensures that everyone in the target population has an equal chance of being included in the study.

- A) False
- B) True
- **Correct option: B) True**

9. Social problems arise from structural factors and have implications for individuals and society.

- A) False
- B) True
- **Correct option: B) True**

10. Structural functionalism suggests that social equilibrium is achieved through cooperation and mutual dependency.

- A) False
- B) True
- **Correct option: B) True**

1. One of the goals of science is to develop vague and unclear definitions for concepts.

Options:

A) False

B) True

Correct Option: A) False

2. What is the term used to describe the way academic sociology makes knowledge public, "objective," and subject to critique?

Options:

A) Causal mechanism

B) Common sense

C) Social causality

D) Public sociology

MAM MEHWISH 03184148783

Correct Option: D) Public sociology

3. Which of the following concepts is defined as an understanding of how our personal lives are connected to the broader social world?

Options:

A) Social deviancy

B) Sociological surveys

C) Sociological research

D) Sociological imagination

Correct Option: D) Sociological imagination

4. Sociologists often rely on common sense for their research instead of following a structured process.

Options:

A) False

B) True

Correct Option: A) False

5. Social problems arise from structural factors and have implications for individuals and society.

Options:

A) True

B) False

Correct Option: A) True

6. Diffusion is the process of:

Options:

A) Spreading cultural traits from one culture to another

B) Material culture changes more quickly than non-material

C) Feeling that our own culture is inferior to another culture

D) Spreading cultural traits from one culture to another

MAM MEHWISH 03184148783

Correct Option: A) Spreading cultural traits from one culture to another

7. What is the key to understanding how we view the world and communicate with one another, as per symbolic interactionism?

Options:

A) Institutions

B) Symbols

C) Structures

D) Resources

Correct Option: B) Symbols

8. Competition is a pattern of interaction where people or groups _____ for shared goals

Options:

A) Contest

B) Cooperate

Correct Option: A) Contest

9. Symbolic interactionism emphasizes the importance of symbols, language, and social interaction in shaping social relations.

Options:

A) True

B) False

Correct Option: A) True

10. Micro sociology primarily focuses on analyzing:

Options:

A) Everyday interactions

B) Large social structures

Correct Option: A) Everyday interactions

MAM MEHWISH 03184148783

1. In the context of Pakistani society, a macro level analysis could include investigating the influence of:

- A) Individual beliefs and attitudes on gender roles
- B) None of the given options
- C) Cultural organizations in local communities
- D) Political structures on the distribution of power
- Correct Option: D) Political structures on the distribution of power

2. Which of the following involves conducting a study on the impact of social media on mental health among Pakistani youth?

- A) Making generalizations based on data
- B) Defining the research problem
- C) Disseminating research findings
- D) Drawing conclusions from research
- Correct Option: B) Defining the research problem

3. You have gathered data from your survey about citizens' attitudes towards COVID-19 measures. What comes next in the research process?

- A) Conducting interviews
- B) Designing unbiased questions for the next survey
- C) Selecting a representative sample
- D) Analyzing the data using descriptive or inferential statistics
- Correct Option: D) Analyzing the data using descriptive or inferential statistics

4. Symbolic interactionism emphasizes the importance of symbols, language, and social interaction in shaping social relations.

- False
- True
- Correct Option: True

MAM MEHWISH 03184148783

5. Why selection of a representative sample is crucial in survey research?

- A) To enhance the validity and reliability of the data
- B) To ensure complex statistical analysis
- C) To simplify the process of questionnaire design
- D) To improve the clarity of survey questions
- Correct Option: A) To enhance the validity and reliability of the data

6. According to the structural functionalist perspective, social problems arise when:

- A) Social institutions prioritize individual needs over collective goals
- B) Social structures do not support social change
- C) Interdependent parts of society fail to work together harmoniously
- D) When social institutions work properly
- Correct Option: C) Interdependent parts of society fail to work together harmoniously

7. Systematic research methods are not necessary to establish causal relationships.

- False
- True
- Correct Option: False

8. Correlation and causation are interchangeable terms when studying relationships between variables in sociology.

- False
- True
- Correct Option: False

9. Social problems arise from structural factors and have implications for individuals and society.

- True
- False
- Correct Option: True

MAM MEHWISH 03184148783

10. Social location of individual in society refers to:

- A) Geographical coordinates
- B) Personal preferences
- C) Their position in a society
- D) Physical location of individuals
- Correct Option: C) Their position in a society

1. Which of the following is the approach to understand the natural and social world?

- A) Empirical Investigation
- B) Logical Reasoning
- C) Scientific Method
- D) Theoretical Analysis
- Correct Option: C) Scientific Method

2. Micro level analysis in sociology focuses on individual actions, behaviors, and attitudes.

- A) True
- B) False
- Correct Option: A) True

3. Sociology is a science based on_____.

- A) Impracticality
- B) Objectivity
- C) Subjectivity
- Correct Option: B) Objectivity

4. Karl Marx believed that change occurs through social revolution, which is the driving force of:

- A) Economic stability
- B) Political upheaval

MAM MEHWISH 03184148783

- Correct Option: A) Economic stability

5. Communication, both verbal and nonverbal, _____ across cultures.

- A) Vary and changes
- B) Remains constant
- C) Is universal
- Correct Option: A) Vary and changes

6. Post-colonialism focuses on the consequences of colonial rule and imperialism in its analysis of society.

- A) True
- B) False
- Correct Option: A) True

7. Social norms, values, and beliefs have no influence on human actions and interactions.

- A) True
- B) False
- Correct Option: B) False

8. When people interact to gain something in return it is known as:

- A) Conflict
- B) Exchange
- C) Cooperation
- D) Competition
- Correct Option: B) Exchange

9. Questionnaires and interviews are two basic techniques for:

- A) Statistical analysis
- B) Experimental analysis

MAM MEHWISH 03184148783

- Correct Option: A) Statistical analysis

10. Assimilation does not involve minority groups conforming to the culture of the dominant group.

- A) True
- B) False
- Correct Option: B) False

1. We make a lot of _____ through observation of our surrounding.

- A) Rituals
- B) Generalization
- C) Research
- D) Rituals
- Correct Option: B) Generalization

2. Sociology is a science based on_____.

- A) Irrationality
- B) Objectivity
- C) Subjectivity
- D) Impracticality
- Correct Option: B) Objectivity

3. How did sociology challenge established thinking patterns?

- A) By discouraging critical analysis
- B) By promoting superstitions
- C) By encouraging traditional beliefs
- D) By offering new perspectives
- Correct Option: D) By offering new perspectives

4. Anomic suicide occurs when societal patterns are abruptly disrupted, resulting in a lack of:

MAM MEHWISH 03184148783

- A) Moral values
- B) Social norms
- Correct Option: B) Social norms

5. Research often starts _____ with a research problem or question.

- A) Imaginary
- B) Theoretical
- Correct Option: B) Theoretical

6. Considering alternative explanations is important when establishing causal relationships.

- A) True
- B) False
- Correct Option: A) True

7. Scientific research in sociology moves beyond common sense and _____ prevailing beliefs about social life.

- A) Challenge
- B) Accept
- Correct Option: A) Challenge

8. Assimilation does not involve minority groups conforming to the culture of the dominant group.

- A) True
- B) False
- Correct Option: B) False

9. In the context of surveys, what is an important characteristic of a random sample?

- A) It focuses on individuals who are most convenient to survey
- B) It includes only individuals who are readily available
- C) It ensures that everyone has an equal chance of being included

MAM MEHWISH 03184148783

- D) It relies on voluntary participation only
- Correct Option: C) It ensures that everyone has an equal chance of being included

10. What are the criteria for establishing causation between two variables?
- A) Temporal priority, correlation, and ruling out alternative explanations
- B) Replication, correlation, and temporal priority
- C) Experimental design, correlation, and statistical significance
- D) Spurious correlation, ruling out alternative explanations, and random sampling
- Correct Option: A) Temporal priority, correlation, and ruling out alternative explanations

1. Which perspective views society as a harmonious whole with interrelated parts working together?
- Conflict theory
- Structural functionalism
- Symbolic interactionism
- Postmodernism
- Correct Option: Structural functionalism

2. Social interaction refers to the process by which people act and react in relation to non-human entities.
- True
- False
- Correct Option: False

3. Symbolic interactionism focuses on understanding:
- Micro-level interactions and their meanings for individuals
- Large-scale social structures and institutions
- Global economic trends and developments
- Cultural patterns and social change
- Correct Option: Micro-level interactions and their meanings for individuals

MAM MEHWISH 03184148783

4. Experiments are useful for determining _____ relationships between variables.

- Cause and effect
- Correlation and causation
- Correct Option: Cause and effect

5. What is the primary purpose of formulating a hypothesis in the research process?

- To define the operational definitions
- To identify the research problem
- To select a research method
- To predict relationship between variables
- Correct Option: To predict the relationship between variables

6. A social position held by a person in society is known as his/her:

- Status
- Personality
- Role
- Character
- Correct Option: Status

7. What is the sociological term for issues that go beyond the individual and conflict with certain social values?

- Private matters
- Social problems
- Personal troubles
- Public concerns
- Correct Option: Public concerns

8. What should researchers do to ensure accurate observation data collection?

MAM MEHWISH 03184148783

- Analyzing data using both qualitative and quantitative methods
- Identify the social setting and context of observation
- Conduct surveys alongside observations
- Rely solely on quantitative measurements
- Correct Option: Identify the social setting and context of observation

9. Herbert Spencer coined the phrase _____ to describe the evolution of societies, emphasizing the survival of the fittest.

- Social Darwinism
- Societal harmony
- Correct Option: Social Darwinism

10. Accommodation refers to the process of adjusting or adapting to cultural differences and similarities in order to coexist and cooperate with others.

- False
- True
- Correct Option: True
