Identify the TRUE statement:

A. The data value decreases as the volume decreases
B. The data value is independent of data volume
C. The data value increases as volume decreases
D. All of the given options

In context of requirement definition phase in Kimball's DWH development approach, activities like debriefing, documentation, and prioritization are considered to be the part of:

A. Requirement preplanning
B. Business requirements collection
C. None of the given options
D. Post collection

During the development phase we should follow standards for:

A. Libraries
B. Naming conventions
C. All of the given options
D. Calculation

"If resources increase in proportion to increase in data size, time is constant". The statement refers to:

A. Speed - Up
B. Over - Utilized System
C. Size - Up
D. Scale - Up

Most DWH implementations today do not use _____ enforced by the database, but as TQM methods improve overall data quality and database optimizers.

A. Attribute domain
B. Referential Integrity
C. Using Data Quality Rules

بری صحبت سے تنہائی بہتر ہے اور تنہائی سے نیک صحبت بہتر ہے

For More Help Contact What's app 03224021365

Vu Topper RM

D. Consistency integrity

If every key in the data file is represented in the index file then it is called -------.

A. A Multi level Sparse Index
B. Dense index
C. Sparse Index
D. Inverted Index

A __ index, if fits in the memory, costs only one disk I/O access to locate a record given a key.

A. Sparse
B. Dense
C. B-tree
D. Hash

The ___ operator is conservative in that it assigns to the dimension an aggregate value no higher than the value of its weakest data quality indicator.

A. **Min**
B. Max
C. None of the given
D. Min and Max

Question No:1 (Marks:1) Vu-Topper RM

"What means What". The phrase refers to:

A. Meta data Page 338
B. External data
C. Transformed data
D. Internal representations

Question No:2 (Marks:1) Vu-Topper RM

In Four Cell Quadrant Technique, The quadrant's vertical axis refers to:

بری صحبت سے تنہائی بہتر ہے اور تنہائی سے نیک صحبت بہتر ہے

For More Help Contact What's app 03224021365

Vu Topper RM

A. Scope
B. Feasibility
C. Resources available
D. The potential impact or value to the business Page 297

Question No:3 (Marks:1) Vu-Topper RM
Which of the following is NOT one of the methodologies for Data Warehouse project development?
A. Data driven
B. System driven Page 283
C. Resource driven
D. Requirement driven

Question No:4 (Marks:1) Vu-Topper RM
Which of the following is the most ignored step during data warehouse development
A. Schema validation
B. The vision definition
C. The requirement verification
D. Success criteria development

Question No:5 (Marks:1) Vu-Topper RM
Waterfall model is appropriate when
A. When the budget is low
B. When the deadline is strict
C. When resources are limited
D. Requirements are clearly defined Page 284

Question No:6 (Marks:1) Vu-Topper RM
Users do not care, how advance the front end of your DWH is, what they care is that:
A. Tables should be properly denormalized

بری صحبت سے تنہائی بہتر ہے اور تنہائی سے نیک صحبت بہتر ہے

For More Help Contact What's app 03224021365

Vu Topper RM

B. Proper partitioning technique should be used
C. At least star or snow flake schema should be implemented
D. They should get information in timely manner and the way they want

Question No:7 **(Marks:1)** **Vu-Topper RM**

A top down implementation approach is useful when

A. Business objectives are unclear
B. Technology is mature and well understood **Page 283**
C. Problem to be solved are not well documented
D. Organization can not implement latest technologies

Question No:8 **(Marks:1)** **Vu-Topper RM**

Identify the TRUE statement:

A. Both clustering and classification are supervised learning
B. Both clustering and classification are unsupervised learning
C. Clustering is unsupervised learning and classification is supervised learning **Page 270**
D. Clustering is supervised learning and classification is unsupervised learning

Question No:9 **(Marks:1)** **Vu-Topper RM**

The _____ phase of fundamental data warehouse life cycle model includes data warehouse daily maintenance activities

A. Project
B. Operation **Page 288**
C. Deployment
D. Maintenance

Question No:10 **(Marks:1)** **Vu-Topper RM**

Horizontally wide data means:

A. Dataset has attribute skews
B. Dataset has partitioning skews

بری صحبت سے تنہائی بہتر ہے اور تنہائی سے نیک صحبت بہتر ہے

For More Help Contact What's app 03224021365

Vu Topper RM

C. Dataset has large no. of records
D. Dataset has large no. of attributes Page 330

Question No:11 (Marks:1) Vu-Topper RM
Which of the following is/are included in the list of Top-7 key steps for smooth DWH implementation?
A. All of the given options Page 318
B. Be a diplomat NOT a technologist
C. Assign significant resources for ETL
D. Consider handing-off project management

Question No:12 (Marks:1) Vu-Topper RM
Implementation of a data warehouse requires _____ activities
A. Highly integrated
B. Loosely integrated
C. Tightly decoupled
D. None of the given Page 289

Question No:13 (Marks:1) Vu-Topper RM
Goal driven approach of data warehouse development was result of _____ work
A. Bill Inmon
B. Westerman
C. Ralph Kimball
D. Böhnlein and Ulbrich-vom Page 285

Question No:14 (Marks:1) Vu-Topper RM
In context of analytical applications track, the application development activity can begin after:
A. Database Design is complete Page 307
B. A subset of historical data has been loaded
C. The data access tools and metadata are installed
D. All of the given options

بری صحبت سے تنہائی بہتر ہے اور تنہائی سے نیک صحبت بہتر ہے

Vu Topper RM

Question No:15 **(Marks:1)** **Vu-Topper RM**

In _____ phase of a fundamental data warehouse life cycle model, a working model of data warehouse is deployed for a selective set of users

A. Design
B. Operation
C. Prototype **Page 287**
D. Deployment

Question No:16 **(Marks:1)** **Vu-Topper RM**

Which of the following activity executes parallel with all other activities in Kimball's DWH development approach?

A. Deployment
B. Project planning
C. Project management **Page 289**
D. Requirement elicitation

Question No:17 **(Marks:1)** **Vu-Topper RM**

The first step of the "12-steps data warehouse implementation approach" of Shaku Atre is:

A. Finding user needs **Page 336**
B. Finding system scope
C. Planning system resources
D. Data acquisition and cleansing

Question No:18 **(Marks:1)** **Vu-Topper RM**

A typical cycle of implementing the change in DWH comprises of the sequence:

A. Production -> Development -> QA
B. Development-> QA -> Production **Page 314**
C. Development -> Production -> QA
D. Production -> QA -> Development

بری صحبت سے تنہائی بہتر ہے اور تنہائی سے نیک صحبت بہتر ہے

For More Help Contact What's app 03224021365

Question No:19 **(Marks:1)** **Vu-Topper RM**

Which of the following is NOT one of the three parallel tracks in Kimballs approach?

A. Lifecycle technology track
B. Lifecycle Data track
C. Lifecycle Maintenance track **Page 299**
D. Lifecycle Analytical Applications track

Question No:20 **(Marks:1)** **Vu-Topper RM**

As per Bill Inmon, a data warehouse, in contrast with classical applications is:

A. Data driven **Page 285**
B. Time sensitive
C. Resource driven
D. Requirement driven

Question No:21 **(Marks:1)** **Vu-Topper RM**

Normally the input data structure (a database table) for a data mining algorithm:

A. Has limited amount of data
B. Has limited amount of relations
C. Has more number of records than attributes
D. Has more number of attributes than records

Question No:22 **(Marks:1)** **Vu-Topper RM**

Normally the term "DWH face to the business user" refers to:

A. Lifecycle Data track
B. Lifecycle technology track
C. Lifecycle Maintenance track
D. Lifecycle Analytical Applications track

Question No:23 **(Marks:1)** **Vu-Topper RM**

بری صحبت سے تنہائی بہتر ہے اور تنہائی سے نیک صحبت بہتر ہے

For More Help Contact What's app 03224021365

Vu Topper RM

An effective user education program includes, among others, the following guideline(s):

A. Postpone education, if DWH not ready
B. Understand the audience, don't overwhelm
C. Train after delivery of the data and analytic applications
D. All of the given options Page 308

Question No:24 (Marks:1) Vu-Topper RM

In _____ phase of kimballs approach, we identify the components needed now and in future.

A. Architectural design Page 300
B. Product development
C. Requirement definition
D. Analytical application development

Question No:25 (Marks:1) Vu-Topper RM

Spiral model is _____

A. Risk oriented model
B. Risk oriented model
C. Sequence of waterfall model
D. All of the given Page 284

Question No:26 (Marks:1) Vu-Topper RM

In context of requirement definition phase of Kimball's DWH development approach, _____ is positioned as a findings review and prioritization meeting.

A. System analysis
B. Scope definition
C. Requirement configuration
D. Requirements wrap-up presentation Page 297

Question No:27 (Marks:1) Vu-Topper RM

بری صحبت سے تنہائی بہتر ہے اور تنہائی سے نیک صحبت بہتر ہے

For More Help Contact What's app 03224021365

Vu Topper RM

In analytical application development phase, we follow standards for:

A. Naming conventions.
B. Standard for libraries.
C. Standard for calculations.
D. All of the given option Page 307

Question No:28 (Marks:1) Vu-Topper RM

Technical architecture design supports the communication about technical requirements: I) Within the team II) Upward to management III) Outward to vendors

A. (I) only
B. (II) Only
C. (III) Only
D. (I), (II) and (III) Page 300

Question No:29 (Marks:1) Vu-Topper RM

In context of the most fundamental data warehouse life cycle model, which of the following is NOT one of the data warehouse design activities?

A. Source system cataloguing
B. System vision development Page 287
C. End-user interviews and re-interviews
D. Definition of key performance indicators

Question No:30 (Marks:1) Vu-Topper RM

Improper documentation results the problem(s) like:

A. Maintenance issue
B. Lot of time required for enhancing the code
C. New developers unable to configure already existing code Page 314
D. All of the given options

بری صحبت سے تنہائی بہتر ہے اور تنہائی سے نیک صحبت بہتر ہے

For More Help Contact What's app 03224021365

Question No:31 **(Marks:1)** **Vu-Topper RM**

Vertically wide data means:

A. Dataset has attribute skews
B. Dataset has partitioning skews
C. Dataset has large no. of records
D. Dataset has large no. of attributes

Question No:32 **(Marks:1)** **Vu-Topper RM**

In _____learning you don't know the number of clusters and no idea about their attributes.

A. Supervised learning
B. Un-Supervised learning **Page 269**
C. Multi Dimension modeling
D. None of the given options

Question No:33 **(Marks:1)** **Vu-Topper RM**

Bill Inmon argues that requirements are well understood only after

A. They are documented
B. All schemes are defined
C. They extracted and verified
D. Data warehouse is populated **Page 285**

Question No:34 **(Marks:1)** **Vu-Topper RM**

Waterfall is a/an _____ model

A. Iterative
B. Object Oriented
C. Rapid development
D. Simple linear sequential **Page 284**

Question No:35 **(Marks:1)** **Vu-Topper RM**

Which of the following activity/activities is/are part of project planning phase in Kimballs DWH development approach?

A. Obtain resources

بری صحبت سے تنہائی بہتر ہے اور تنہائی سے نیک صحبت بہتر ہے

For More Help Contact What's app 03224021365

Vu Topper RM

B. Establish the preliminary scope and justification
C. Assess organization's readiness for a data warehouse initiative
D. All of the given options Page 290

Question No:36 (Marks:1) Vu-Topper RM
Which of the following is NOT one of the examples of dynamic attributes?
A. Daily Sale
B. Air pressure
C. Date of Birth Page 342
D. None of the given options

Question No:37 (Marks:1) Vu-Topper RM
A bottom up implementation approach is useful when
A. All the requirements are well documented
B. The business objectives are very much clear
C. Technology is mature and well understood Page 283
D. Organization can not implement latest technologies

Question No:38 (Marks:1) Vu-Topper RM
The phase-3 i.e. “Rollout and Maintenance” phase in “12-steps data warehouse implementation approach” of Shaku Atre comprises of _____ activity.
A. On Line Analytical Processing
B. Construct Metadata Repository
C. Deployment & System Management
D. None of the these

Question No:39 (Marks:1) Vu-Topper RM
In lifecycle data track, we begin with translating the requirements into dimensional model, which then transforms into _____
A. System structure
B. Logical structure

بری صحبت سے تنہائی بہتر ہے اور تنہائی سے نیک صحبت بہتر ہے

For More Help Contact What’s app 03224021365

C. Physical structure **Page 290**
D. Conceptual structure

Question No:40 **(Marks:1)** **Vu-Topper RM**
In context of clustering, the term "distance" means:
A. Similarity/dissimilarly of records **Page 272**
B. The difference between the primary keys of two records
C. The relation of a record with corresponding record in child table
D. None of the given options

Question No:41 **(Marks:1)** **Vu-Topper RM**
As per Kimball, _____ is the main operational process
A. Goal design
B. Schema design
C. Business process **Page 285**
D. Requirement extraction

Question No:42 **(Marks:1)** **Vu-Topper RM**
Which of the following is/are example(s) of static attributes?
A. Employee Name **Page 342**
B. Employee Blood Group
C. Employee Date of Birth
D. All of the given options

Question No:43 **(Marks:1)** **Vu-Topper RM**
Which of the following is NOT one of the possible pitfalls in DWH Life Cycle & Development?
A. Improper documentation
B. Not having multiple servers
C. Low priority for OLAP Cube Construction
D. None of the given options **Page 313**

Question No:44 **(Marks:1)** **Vu-Topper RM**

بری صحبت سے تنہائی بہتر ہے اور تنہائی سے نیک صحبت بہتر ہے

Vu Topper RM

Which of the following is NOT one of the activities of "Maintenance and Growth" phase in Kimball's DWH development approach?

A. Support
B. Education Program
C. Education Technical
D. Interface Deployment Page 309

Question No:45 (Marks:1) Vu-Topper RM

_____ says that as far as company goals are concerned, the entire company pursues in the same direction

A. Bill inmon
B. Kimball
C. Bohnlein
D. Westerman Page 285

Question No:46 (Marks:1) Vu-Topper RM

One of the drawbacks of waterfall model is that:

A. It does not define the project timeline/schedule
B. It does not work when the resources are limited
C. Customers can not review the product during development Page 284
D. All of the given options

Question No:47 (Marks:1) Vu-Topper RM

_____ index uses even less space than _____ index, but the block has to be searched, even for unsuccessful searches.

A. Sparse, dense Page 224
B. Dense, inverted
C. Sparse, inverted
D. Dense, sparse

Question No:48 (Marks:1) Vu-Topper RM

بری صحبت سے تنہائی بہتر ہے اور تنہائی سے نیک صحبت بہتر ہے

For More Help Contact What's app 03224021365

Vu Topper RM

In context of data mining definition, the term “value” means:

A. The primary key of table
B. The index location of the record
C. Importance of hidden patterns discovered Page 250
D. Numerical or string measure assigned to an attribute

Question No:49 (Marks:1) Vu-Topper RM

If a task takes “T” time units to execute on a single data item, then execution of this task on “N” data items will take _____ time units.

A. N*t
B. N+t
C. N/t
D. N-t

Question No:50 (Marks:1) Vu-Topper RM

Which of the following is NOT one of the variants of Nested-loop join?

A. Naïve nested-loop join
B. Indexed nested-loop join
C. Binary index nested-loop join
D. Temporary index nested-loop join

Question No:51 (Marks:1) Vu-Topper RM

_____ index stores first value in each block in the sequential file and a pointer to the block.

A. Hash
B. Dense
C. Sparse Page 224
D. B-Tree

Question No:52 (Marks:1) Vu-Topper RM

_____ refers to the overall process of discovering useful knowledge from data and data mining refers to a particular step in this process.

A. Statistics
B. Clustering

بری صحبت سے تنہائی بہتر ہے اور تنہائی سے نیک صحبت بہتر ہے

For More Help Contact What’s app 03224021365

Vu Topper RM

C. Information cleansing
D. Knowledge discovery in database **Page 254**

Question No:53 **(Marks:1)** **Vu-Topper RM**
Which of the following tasks can NOT be parallelized?
A. Partitioned index scans
B. Creation of large indexes
C. Large table scans and joins
D. None of the given options

Question No:54 **(Marks:1)** **Vu-Topper RM**
In nested-loop join case, if there are 'M' rows in outer table and 'N' rows in inner table, time complexity is
A. (MN)
B. (M + N)
C. (log MN)
D. (M log N)

Question No:55 **(Marks:1)** **Vu-Topper RM**
In context of data mining definition, the term "nontrivial" means:
A. We can not discover information
B. Discovering information is a simple task
C. Discovering information is a complex task
D. We simply find things rather than discovery

Question No:56 **(Marks:1)** **Vu-Topper RM**
In contrast to statistics, data mining is _____ driven.
A. Human
B. Database
C. Assumption
D. Knowledge **Page 254**

Question No:57 **(Marks:1)** **Vu-Topper RM**

بری صحبت سے تنہائی بہتر ہے اور تنہائی سے نیک صحبت بہتر ہے

For More Help Contact What's app 03224021365

Parallelism can be exploited, if there is:

A. All of the given options
B. Sufficient I/O bandwidth
C. Symmetric multi-processors (SMP)
D. Underutilized or intermittently used CPUs

Question No:58 **(Marks:1)** **Vu-Topper RM**

One of the preconditions to decide about operations to be parallelized is that:

A. Operations share same namespace
B. Operations share same memory location
C. Output of one operation becomes input of other
D. Operations can be implemented independent of each other

Question No:59 **(Marks:1)** **Vu-Topper RM**

In B-tree index, the lowest level index blocks are called leaf blocks, and these blocks contain:

A. NULL value to make the leaf terminal node
B. Every indexed data value and pointer to root block
C. Every indexed data value and pointer to next level block
D. Every indexed data value and a corresponding ROWID
Page 225

Question No:60 **(Marks:1)** **Vu-Topper RM**

Which of the following is NOT one of the parallel hardware architectures?

A. Shared Memory
B. Symmetric Multi Processing
C. Massively Parallel Processing
D. Non-uniform Memory Access

Question No:61 **(Marks:1)** **Vu-Topper RM**

In context of joining tables, the join condition is specified in ____ clause

بری صحبت سے تنہائی بہتر ہے اور تنہائی سے نیک صحبت بہتر ہے

For More Help Contact What's app 03224021365

A. FROM
B. SELECT
C. WHERE
D. GROUP BY

Question No:62 **(Marks:1)** **Vu-Topper RM**
Classification consists of examining the properties of a newly presented observation and assigning it to a predefined _____.
A. Class **Page 259**
B. Object
C. Subject
D. Container

Question No:63 **(Marks:1)** **Vu-Topper RM**
An optimized structure which is built primarily for retrieval, with update being only a secondary consideration is
A. DSS
B. OLAP
C. OLTP
D. Inverted Index **Page 232**

Question No:64 **(Marks:1)** **Vu-Topper RM**
Data mining is all about:
A. All of the given options **Page 249**
B. Finding relationships in data
C. Finding hidden patterns in data
D. Knowledge discovery in database

Question No:65 **(Marks:1)** **Vu-Topper RM**
Mining multi dimensional databases allow users to:
A. Analyze the data
B. Categorize the data
C. Summarize the data
D. All of the given options

بری صحبت سے تنہائی بہتر ہے اور تنہائی سے نیک صحبت بہتر ہے

VU Topper RM

Question No:66 **(Marks:1)** **Vu-Topper RM**

In context of data parallelism, the work done by query processor should be:

A. Pipelined
B. Maximum
C. Almost zero
D. Filtered across partitions

Question No:67 **(Marks:1)** **Vu-Topper RM**

_____ do not (typically) keep the index values in sorted order

A. Dense index
B. Sparse index
C. B-Tree index
D. Hash based index **Page 227**

Question No:68 **(Marks:1)** **Vu-Topper RM**

_____ refers to “Parallel execution of single data operation across multiple partitions of data”

A. Data parallelism **Page 212**
B. Software parallelism
C. Hardware parallelism
D. Operational parallelism

Question No:69 **(Marks:1)** **Vu-Topper RM**

In _____ index, the ith bit is set to "1" if the ith row of the base table has the value for the indexed column.

A. Join index
B. Cluster index
C. Bitmap index
D. Inverted index

Question No:70 **(Marks:1)** **Vu-Topper RM**

بری صحبت سے تنہائی بہتر ہے اور تنہائی سے نیک صحبت بہتر ہے

For More Help Contact What’s app 03224021365

_____ is the technique in which existing heterogeneous segments are reshuffled, relocated into homogeneous segments.

A. Clustering **Page 269**

B. Partitioning

C. Aggregation

D. Segmentation

Question No:71 **(Marks:1)** **Vu-Topper RM**

In context of bitmap index, the length of the bit vector is:

A. None of the given options

B. The number of records in the base table

C. The possible number of domain values in corresponding field (column)

D. The possible number of bitmap tables formed for corresponding field (column)

Question No:72 **(Marks:1)** **Vu-Topper RM**

Bitmap index is appropriate for:

A. Clustered data

B. Aggregated data

C. High cardinality data

D. Low cardinality data

Question No:73 **(Marks:1)** **Vu-Topper RM**

In context of data parallelism, to get a speed-up of N with N partitions, it must be ensured that:

A. All of the given options

B. There are enough computing resources

C. Work done in each partition almost same

D. Query-coordinator is very fast as compared to query servers

Question No:74 **(Marks:1)** **Vu-Topper RM**

بری صحبت سے تنہائی بہتر ہے اور تنہائی سے نیک صحبت بہتر ہے

For More Help Contact What's app 03224021365

Vu Topper RM

Which of the following is NOT one of the top-10 mistakes that should be avoided during DWH development?

A. Not interacting directly with end user
B. Not being an accommodating person Page 316
C. Isolating IT support people from business users
D. Training the users with dummy data and considering it success

Question No:75 (Marks:1) Vu-Topper RM

To identify the _____ required we need to perform data profiling.

A. Cost
B. Time
C. Complexity
D. Degree of Transformation Page 437

Question No:76 (Marks:1) Vu-Topper RM

Execution can be completed successfully or it may be stopped due to some error. If some error occurs, execution will be terminated abnormally and all transactions will be _____

Committed to the database Page 419
Rolled back

Question No:77 (Marks:1) Vu-Topper RM

Companies collect and record their own operational data, but at the same time they also use reference data obtained from _____ sources such as codes, prices etc.

A. Operational
B. None of these
C. Internal
D. External Page 21

Question No:78 (Marks:1) Vu-Topper RM

بری صحبت سے تنہائی بہتر ہے اور تنہائی سے نیک صحبت بہتر ہے

For More Help Contact What's app 03224021365

Vu Topper RM

_____ in agriculture extension is that pest population beyond which the benefit of spraying outweighs its cost.

A. Profit Threshold Level
B. Economic Threshold Level **Page 332**
C. Medicine Threshold Level
D. None of these

Question No:79 **(Marks:1)** **Vu-Topper RM**

People that design and build the data warehouse must be capable of working across the organization at all levels

True **Page 320**
False

Question No:80 **(Marks:1)** **Vu-Topper RM**

As opposed to the outcome of classification, estimation deals with _____ valued outcome.

A. Discrete
B. Isolated
C. Continuous **Page 260**
D. Distinct

Question No:81 **(Marks:1)** **Vu-Topper RM**

The _____ is only a small part in realizing the true business value buried within the mountain of data collected and stored within organizations business systems and operational databases.

A. Independence on technology
B. Dependence on technology **Page 320**
C. None of these

Question No:82 **(Marks:1)** **Vu-Topper RM**

_____, if too big and does not fit into memory, will be expensive when used to find a record by given key. An Inverted Index

A. A Sparse Index

بری صحبت سے تنہائی بہتر ہے اور تنہائی سے نیک صحبت بہتر ہے

For More Help Contact What's app 03224021365

Vu Topper RM

B. A Dense Index
C. None of these

Question No:83 **(Marks:1)** **Vu-Topper RM**
The goal of ideal parallel execution is to completely parallelize those parts of a computation that are not constrained by data dependencies. The smaller the portion of the program that must be executed _____, the greater the scalability of the computation.
A. In Parallel
B. Distributed
C. Sequentially **Page 204**
D. None of these

Question No:84 **(Marks:1)** **Vu-Topper RM**
A dense index, if fits into memory, costs only _____ disk I/O access to locate a record by given key.
A. One **Page 233**
B. Two
C. Linear
D. Quadratic

Question No:85 **(Marks:1)** **Vu-Topper RM**
Data mining uses _____ algorithms to discover patterns and regularities in data.
A. Mathematical
B. Computational
C. Statistical **Page 251**
D. None of these

Question No:86 **(Marks:1)** **Vu-Topper RM**
There are many variants of the traditional nested-loop join. If the index is built as part of the query plan and subsequently dropped, it is called
A. Naive nested-loop join

بری صحبت سے تنہائی بہتر ہے اور تنہائی سے نیک صحبت بہتر ہے

For More Help Contact What's app 03224021365

Vu Topper RM

B. Index nested-loop join
C. Temporary index nested-loop join **Page 243**
D. None of these

Question No:87 **(Marks:1)** **Vu-Topper RM**
In contrast to data mining, statistics is _____ driven.
A. Knowledge
B. Database
C. Discovery
D. Assumption **Page 255**

Question No:88 **(Marks:1)** **Vu-Topper RM**
_____ do not (typically) keep the index values in stored order.
A. Dense index
B. Sparse index
C. B-Tree Index
D. Hash based index.

Question No:89 **(Marks:1)** **Vu-Topper RM**
if every key in the data is represented in the index file then it is called
A. Dense index **Page 123**
B. Sparse index
C. B-Tree Index
D. Hash based index.

Question No:90 **(Marks:1)** **Vu-Topper RM**
As the number of processors increase, the speedup should also increase. thus we should have linear speedup. Which of the following is NOT the one of the barriers to achieve this linear speed-up?
A. Skew
B. Start-up
C. Amdahl Law
D. No interference

Question No:91 **(Marks:1)** **Vu-Topper RM**

in context of nested-loop join, actual number os matching rows returned as a result of the join would be _____ of the order of tables.

A. Subset
B. Superset
C. Depended
D. Independent.

Question No:92 **(Marks:1)** **Vu-Topper RM**

If resources increase in proportion to increase in data size. time is constant'. The statement refers to:

A. Size-up
B. Speed-up
C. Scale-Up
D. Over-utilized system

Question No:93 **(Marks:1)** **Vu-Topper RM**

The goal of_____ is to look at as few blocks as possib le to find the matching records(s).

A. Joining
B. Indexing **Page 222**
C. Partitioning
D. None of above

Question No:94 **(Marks:1)** **Vu-Topper RM**

Parallelism can exploited, if there is

A. All of the given options
B. Sufficient I/O bandwidth
C. Symmetric multi processors (SMP)
D. Underutilized or intermittently used CPUs

Question No:95 **(Marks:1)** **Vu-Topper RM**

Vu Topper RM

_____ lists each term in the collection only once and then shows a list of all the documents the contain the given term.

A. Join index
B. Cluster index
C. Bitmap index
D. Inverted index

Question No:96 (Marks:1) Vu-Topper RM

"More resources means proportionally less time for given amount of data". The statement refers to:

A. Size-up
B. Speed-up
C. Scale-Up
D. Over-utilized system

Question No:97 (Marks:1) Vu-Topper RM

If every key in the data file is represented in the index file then index is

A. Dense Index Page 223
B. Sparse Index
C. Inverted Index
D. None

Question No:98 (Marks:1) Vu-Topper RM

Data mining evolve as a mechanism to cater the limitations of _____ systems to deal massive data sets with high dimensionality, new data types, multiple heterogeneous data resources etc.

A. OLTP Page 254
B. OLAP
C. DSS
D. DWH

Question No:99 (Marks:1) Vu-Topper RM

_____ if fits into memory, costs only one disk I/O access to locate a record by given key.

Vu Topper RM

A. A Dense Index **Page 223**
B. A Sparse Index
C. An Inverted Index
D. None of These

Question No:100 **(Marks:1)** **Vu-Topper RM**
The goal of ideal parallel execution is to completely parallelize those parts of a computation that are not constrained by data dependencies. The _____ the portion of the program that must be executed sequentially, the greater the scalability of the computation.
A. Larger
B. Smaller **Page 204**
C. Superior
D. Unambiguous

Question No:101 **(Marks:1)** **Vu-Topper RM**
Data mining is a/an _____ approach, where browsing through data using data mining techniques may reveal something that might be of interest to the user as information that was unknown previously.
A. Non-Exploratory
B. Exploratory **Page 249**
C. Compute Science
D. None of these

Question No:102 **(Marks:1)** **Vu-Topper RM**
In data mining, initially you _____ what you are looking for.
A. Know
B. Don't know **Page 250**
C. May or may not know.
D. None of the given options

Question No:103 **(Marks:1)** **Vu-Topper RM**

بری صحبت سے تنہائی بہتر ہے اور تنہائی سے نیک صحبت بہتر ہے

The optimizer uses a hash join to join two tables if they are joined using an equijoin and

A. Outer table has a smaller number of rows.
B. Inner table has a smaller number of rows.
C. Cardinality of tables is equal.
D. Large amount of data needs to be joined.

Question No:104 (Marks:1) Vu-Topper RM

If we apply Run Length Encoding on the input "11001100", the output will be:

A. 41#40
B. 14#04
C. 12#02#12#02
D. 21#20#21#20

Question No:105 (Marks:1) Vu-Topper RM

The goal of _____is to look at as few block as possible to find the matching records.

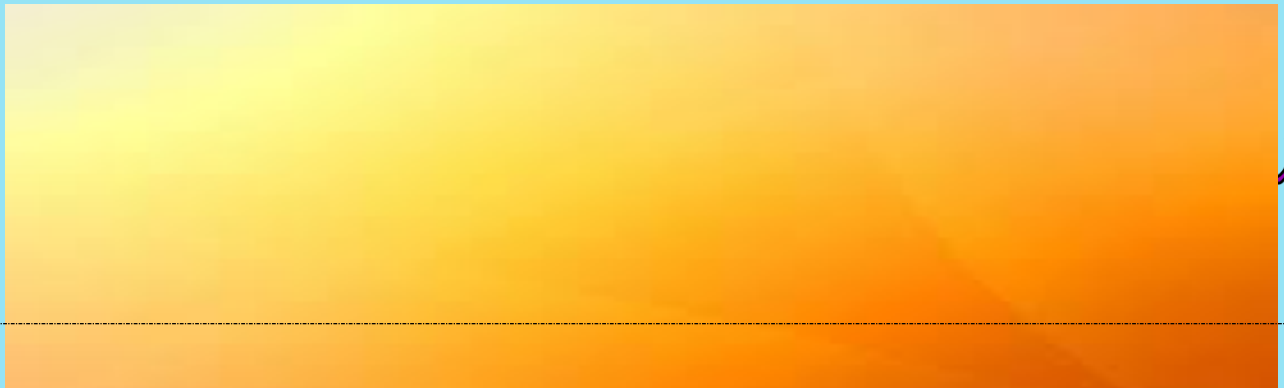

A. Indexing Page 222
B. ETL
C. Joining
D. Dimensional Modeling

Question No:106 (Marks:1) Vu-Topper RM

A join is identified by multiple tables in the _____ clause.

A. From
B. Select
C. Sort by
D. Group by
