CS615 GRAND QUIZ SOLVED 100% VERIFIED BY ADMIN (MID TERM SYLLABUS)

Q1: Software requirements engineering is a process of all except:
A) Discovery

B) Refinement

C) Design (page 92) (100% Sure)

D) Specification

Q2: The quality of software is said to be high if it meets the:
A) Standards, defined for the product

B) Procedures, defined for the product

C) Standards and Procedures, defined for the product (page 118) (100% Sure)

D) Design, defined for the product

Q3: The check-in and checkout facilities provide _____.
A) Best control

B) Component control

C) SCI control

D) Synchronization control (page 114) (100% Sure)

Q4: These all are Product Operation Factors except:
A) Reliability

B) Efficeincy

C) Testability (page 120) (100% Sure)

D) Usability

Q5: Ineffective project sponsorship by management is a :
A) Technology-related problems

B) Process-related problems

C) People related problems (page 86) (100% Sure)

D) Product-related problems

Q6: A meeting is conducted at a _____ and attended by both software engineers and customers.

A) Software engineer site

B) Neutral site (page 100) (100% Sure)

C) Customer site

D) Company site

Q7: All of the following are included in 4P's of Software Project Management EXCEPT_____.

A) Product

B) People

C) Project

D) Price (page 07) (100% Sure)

Q8: Each process is described by:

A) Input

B) Output

C) Tools and Techniques

D) All of the given options (page 131) (100% Sure)

Q9: Version control combines _____ to manage different versions of configuration objects that are created during software product management.

A) Procedure

B) Tools

C) Procedure and Tools (page 111) (100% Sure)

D) None of given

Q10: Reviews conducted at each of this phase/s _____.
A) Analysis

B) Design

C) Coding

D) All of given (page 124) (100% Sure)

Q11: Path following is the characteristic of _____.
A) Leadership

B) Management (page 45) (100% Sure)

C) Assistant manager

D) Librarian

Q12: _____ identify which quality standards are relevant to the project and determine how to satisfy them.
A) Quality planning (page 139) (100% Sure)

B) Quality assurance

C) Quality control

D) Process control

Q13: Upon evaluating current problems and desired information(input and output), the analysit begins to _____.
A) Synthesize solutions (page 94) (100% Sure)

B) Model

C) Specification

D) All of the given

Q14: These are all Product Transition Factors except:
A) Interoperability

B) Configuration

C) Expandibility

D) Maintainability (page 121) (100% Sure)

Q15: Path finding is the characteristic of _____.
A) Leadership (page 45) (100% Sure)

B) Management

C) Assistant Manager

D) Librarian

Q16: Analyze, document, validate and manage software or system requirement. Choose the best relevant phase for the mentioned tasks.
A) Software concept

B) Coding and debugging

C) Deployment

D) Requirement analysis (page67) (100% Sure)

Q17: Once the review is complete, the Software Requirement Specification is "signed-off by _____".
A) Developer

B) Customer

C) Top level Management

D) Both Customer and Developer (page 106) (100% Sure)

Q18: _____ defining that project objectives are met by monitoring and measuring progress regularly to identify variances from plan so that corrective action can be taken when necessary.
A) Initail Process

B) Planning Process

C) Executing Process

D) Controlling Process (page 131) (100% Sure)

Q19: Who energize(s) the team(s) towards goal attainment?
A) Project Manger

B) Customer care officer

C) Team Leader (page 31) (100% Sure)

D) None of the given

Q20: The Project Planning, Controlling and Tracking includes Task.
A) Detailed Project Plan (page 78) (100% Sure)

B) Scope determination

C) initial project plan

D) Requirement Gathering

Q21: _____ means developing a vision of the future and strategies for achieving that vision.
A) Management

B) Leadership (page 32) (100% Sure)

C) Stakeholders

D) Supporting staff

Q22: Evaluating overall project performance on a regular basis to provide confidence that the project will satisfy the relevant quality standards. Choose suitable name of this activity.
A) Project Plan Execution

B) Quality Assurance (page 139) (100% Sure)

C) Team Development

D) Information Distribution

Q23: Deployment and Maintenance will be the _____ phase of core software project life cycle.
A) First

B) Second

C) Seven

D) Last (confirm) (100% Sure)

Q24: Sofware project coding is completed in the _____ phase.
A) Coding and debugging (page 16) (100% Sure)

B) Software Concept

C) Detail Design

D) Software Requirement

Q25: These all are Product Operation Facotrs except:
A) Reliability

B) Efficiency

C) Testability (page 120) (100% Sure)

D) Integrity

Q26: _____ is the technical kernel of software engineering.
A) Design (page 107) (100% Sure)

B) Implementation

C) Testing

D) Maintenance

Q27: The final activity for a project manager is _____.
A) Project closedown (page 80) (100% Sure)

B) Project implementation

C) Project execution

D) Project quality

Q28: The overall roll of Software in a larger system is identified during:

A) Requirement Engineering

B) Process Engineering

C) System Enginnering (page 92) (100% Sure)

D) All of given

Q29: Cost & Efforts are _____ to begin with but grows _____ towards end of project.

A) Small, Larger (page 67) (100% Sure)

B) larger, small

C) small, small

D) Larger, larger

Q30: _____ is to synchronize the project activities to make the project development a success.

A) The stackholder

B) The security officer

C) The project manager (page 67) (100% Sure)

D) The Programmer

CS615 GRAND QUIZ SOLVED 100% VERIFIED BY ADMIN (MID TERM SYLLABUS)

Q1: Decisions also have a _____ element to them - the "right" decision may not be the "best" decision if it is made too early or too late.

A) Cost

B) Quality

C) Time (page 34) (100% Sure)

D) None of the given

Q2: Fast, Cheap, Good, Choose two. This is well described _____.

A) Trade-off triangle (page 28) (100% Sure)

B) Good cheap triangle

C) Fast triangle

D) Good Triangle

Q3: _____ completion and settlement of the contract, including resolution of any open items.

A) Contract Administration

B) Source Selection

C) None of the given

D) Contract Closeout (page 42) (100% Sure)

Q4: Which of the following is not a core software project phase?

A) System concept

B) Architectural design (page 19) (100% Sure)

C) Use case diagram design

D) Detailed design

Q5: A software project that meets all the stated objectives is a success of _____.

A) Project quality

B) Project fundamental purpose

C) Project management myth (page 82) (100% Sure)

D) Project requirement

Q6: Provision of faster, safe, secure and international standard traffic facility in Pakistan.

A) Project (Confirm) (100% Sure)

B) Construction of motorways

C) Routine activity

D) Program

Q7: The British Standars Institution (1986) has stated the quality as:

A) The ability of a software product to satisfy its specified requirements

B) "An inherent or distinguishing characteristics or a property"

C) "Quality is in the eye of the beholder, a matter, of the client's judgement" (page 118) (100% Sure)

D) All of the given

Q8: We classify the problems that affect software project into _____ categories.

A) 3

B) 4 (page 85) (100% Sure)

C) 5

D) 6

Q9: Which of the following is NOT a goal of SMARTER.

A) Specific

B) Measurable

C) Realistic

D) Resources (page 136) (100% Sure)

Q10: Which of the following is not Project management knowledge area?

A) Project procurement Management

B) Project Risk Management

C) Risk Monitoring and Control (page 42) (100% Sure)

D) Project Communication Management

Q11: _____ means the product or service is different in some distinguishing way form all other products or services.

A) Unique (page 03) (100% Sure)

B) Temporary

C) Redundant

D) Same

Q12: These are software engineering layes except:

A) Process

B) Tools

C) Design (page 130) (100% Sure)

D) A quality focus

Q13: During project _____, you identify the resources required and allocate them to the software project.

A) Development

B) Initiation (page 134) (100% Sure)

C) Scope

D) Panning

Q14: Developing individual and group skills/competencies to

enhance project performance. Choose suitable name of this activity.

A) Project Plan Execution

B) Quality Assurance

C) Team Development (page 139) (100% Sure)

D) Information Distribution

Q15: Which of the following project management knowledge area deal with human resource management?

A) Project Procurement Management

B) Project Risk Management

C) Project Communication Managment

D) Particular Project management knowledge area not listed (page 39) (100% Sure)

Q16: _____ defining that project objectives are met by monitoring and meauring progress regularly to identify variances from plan so that corrective action can be taken when necessary.

A) Initial Process

B) Planning Process

C) Executing Process

D) Controlling Process (page 131) (100% Sure)

Q17: In management "selecting the right people for the job" is description of _____.

A) Planning

B) Organizing

C) Staffing (page 01) (100% Sure)

D) Directing

Q18: Throughout evaluation and solution synthesis, the analyst's primary focus is on _____.
A) "Not what, not "How"

B) "What, also "how"

C) "What, not "how" (page 95) (100% Sure)

D) none of the given

Q19: These are product Transition Factors except:
A) Interoperability

B) Configurability

C) Expandability

D) Testability (page 121) (100% Sure)

Q20: The model serves as a foundation for software _____.
A) Testing

B) Design (page 95) (100% Sure)

C) Specificatoin

D) Implementation

Q21: _____ choosing from among potential sellers.
A) Contract Administration

B) Contract Closeout

C) None of the given

D) Source Selection (page 42) (100% Sure)

Q22: _____ managing the relationship with the seller.
A) Source Selection

B) None of the given

C) Contract Closout

D) Contract Administration (page 42) (100% Sure)

Q23: As a team leader, individual skill, capability, understanding and capability to deliver the thing should be organizes and manage professionally.

A) Management identity (confirm) (100% Sure)

B) Innovation

C) Problem solving

D) Achievement

Q24: The introduction of the software requirements specification states the:

A) Goals

B) Objectives

C) Design

D) Goals and Objectives (page 104) (100% Sure)

Q25: Uncertainty is _____ at the beginning of SDLC but _____ as the project progresses.

A) Highest, decrease (page 67) (100% Sure)

B) Decrease, decrease

C) Decrease, Highest

D) Highest, highest

Q26: The more you know about your _____, the better you are able to manage it.

A) Project (page 01) (100% Sure)

B) Directing

C) Staff

D) Task

Q27: The code generation step performs the task
A) Translated specification into a machine-readable form

B) Translated design into a machine-readable form (page 108) (100% Sure)

C) Translated requirement into machine-readable form

D) Translated code into machine-readable form

Q28: _____ is the ability to encourage (by "push or pull") technical people to produce to their best ability.
A) Motivation (page 47) (100% Sure)

B) Organization

C) Innovation

D) Problem Solving

Q29: _____ interact with the software, once it is released for production use.
A) Customers

B) Team Leads

C) End Users (page 09) (100% Sure)

D) Project Manager

Q30: All projects are divided into _____. Choose best suitable answer.
A) Projects

B) Programs

C) Routines

D) Phases (page 77) (100% Sure)
