

EDU305

Mid-Term (Solved)

ABSTRACT

This comprehensive collection of notes is accurately crafted to empower students to excel academically, ensuring they achieve a minimum of 80% marks in their examinations. The content is organized with clarity and precision, focusing on key concepts, critical analyses, and practical applications tailored to the syllabus. These notes serve as a reliable resource for both thorough preparation and last-minute revision. Designed to inspire confidence and mastery, this guide is an essential tool for students striving for academic excellence.

Classroom Management

EDU305_Classroom Management
Mid-Term (Solved)

Q. Behavior modification

Behaviours that need modification:

- ✚ Fear and anxiety of various aspects of school life
- ✚ Gross misbehavior in class
- ✚ Substance abuse
- ✚ Learning difficulties e.g. dyslexia, autism, attention, deficit
- ✚ Criminal and delinquent activity

Q. Covert management approaches usage

- ✚ School Assembly
- ✚ Tutorials
- ✚ Lesson Plans
- ✚ Sport Activities
- ✚ Extra Curricular Activities
- ✚ Behavioural interactions
- ✚ Out of school interaction

Q. Physical seatings of classroom

While doing seating arrangement of students, there are many choices;

- ✚ Group seating in classroom
- ✚ Individual seating in classroom
- ✚ Pair seating
- ✚ Seating on a carpet etc.

Q. Counseling services in school

Professional support is required to deal with:

- a) Aggressive behavior
- b) Bullyism
- c) Criminal behavior
- d) Sadistic behavior
- e) extreme shyness
- f) lack of self-efficacy

Q. Classroom control

Classroom control is a very important element of classroom management. Without classroom control, there can be no classroom management. Teachers are the biggest sources to maintain class control.

Teachers need to be:

EDU305_Classroom Management Mid-Term (Solved)

- ✚ **Authoritative:** students must feel the presence of the teacher. Teacher must be in full control, which is what called being authoritative in the class.
- ✚ **In command:** A teacher must know how to follow her lesson plan. How students must behave during lesson. How the activities in classroom will be possible? Mastery on the content, pedagogy and management made the teacher in command.
- ✚ **Organized:** It is extremely important for the teacher to be organized in the classroom.

Students need to:

- ✚ **Act responsibly:** Hidden curriculum teaches the students how to behave in the classroom. What rules he should follow without asking? So, responsibility comes from following the hidden curriculum that is manifested through the behaviour patterns of the different stakeholders in the school.
- ✚ **Follow rules:** Students need to follow rules which are mutually constructed by the students and teachers. Once they are mutually constructed then they need to be followed. So that an effective classroom control is possible.
- ✚ **Respect teachers:** Students need to respect their teachers that come from the hidden curriculum. Without respecting the teacher in the classroom there can be no classroom control.
- ✚ **Take care of peers**

Q. Routine maintenance

Routine maintenance is carried out periodically-monthly, quarterly or even annually depending on the agreed schedule by the class/school manager.

Q. Self-Evaluation

Student behavioral self-evaluation

1. Students should be encouraged to do their behavioral self-evaluation
2. The behavioral records should have a section on self evaluation and students should fill that section themselves
3. This exercise makes students more reflective and enables them to analysis their own behaviors

Q. Kinds of outdoor activities

Outdoor activities are dependent on the age level of the students. These are also dependent on the subjects they are dealt with. Outdoor activities are:

✚ **Field trips**

These can be content related. They can deal with different subject areas. It can also be a recreation

✚ **Nature experiments**

These are related with the science subjects.

EDU305_Classroom Management Mid-Term (Solved)

✚ Research based studies of various phenomena

These can be determined by the teachers.

✚ Fun activities, camping

With academics other activities are also important for the students like camping. It includes both recreation and learning.

Q. Practice with it-ness

- ✚ Stand where you can see all students when you present a lesson.
- ✚ Make eye contact with as many students as possible.
- ✚ Keep your face towards the students when you move towards the chalkboard.
- ✚ Stand at an angle to write on the chalkboard so that you can see as many students as possible.
- ✚ Circulate to various parts of room.

Q. Communication skill

Communication can be verbal and non-verbal and just as in everyday life, poor communication can cause unnecessary problems. Good communication skills and being a good listener, as well as a good speaker, can help in preventing problems in the classroom. When students feel that they are welcomed into a nonthreatening environment where learning is encouraged, they usually come ready, willing, and able to learn.

Q. Overlapping

Overlapping means handling two or more situations or activities simultaneously. A teacher who can instruct a group of students while responding to student concerns from outside of the group can keep an entire classroom working smoothly.

Practicing overlapping

Make eye contact with, move closer to, or stand beside a misbehaving student to deter off task behavior while continuing to direct other activities. Direct a question to a student who has not been paying attention to regain his/her attention. Remove an object a student is playing with without interrupting a presentation.

Q. What is school culture?

School culture is a set of unstated expectations and assumptions that direct the activities of school personnel and students. It becomes the guide for behavior that is shared among members of the school at large. Culture is the stream of norms, values, beliefs, traditions and rituals built up over time. They must be upheld and communicated to the students as a way to prevent behavioral issues in schools.

Q. Story maps

A story map guides students to attend to the relevant parts of a story. It also helps in giving a direction to the way a story is developed.

EDU305_Classroom Management Mid-Term (Solved)

Q. In-planning

In planning the:

- ✚ Content
- ✚ Sequence of activities
- ✚ Material
- ✚ Room management

Q. Define classroom management Classroom management embodies:

- ✚ Effective teaching of content (classroom management problems arises because a teacher is sometimes not sure of what she is teaching)
- ✚ Powerful teaching strategies (It is extremely important to use effective teaching strategies so that less classroom management problems arise. Sometimes, the problems in classroom arises because teacher do not know the teaching strategies)
- ✚ An organizational structure to support productive learning (the sitting arrangement of classroom, are students sitting in rows or groups?)
- ✚ Effective use of social-emotional domains of learning
- ✚ The most successful teachers approach management as a process of establishing and maintaining effective learning environments

Q. Classroom accessories include

- ✚ White board/chalk board
- ✚ Bulletin boards
- ✚ Multimedia/overhead projector
- ✚ Hands-on materials
- ✚ Reading/writing corners

Q. Self-control

A very important part of preventive management is teaching student self- control and social skill strategies. Students need to be educated to take control of their emotions and safeguard the security of others around them.

Ways to Teach Self-Control

Embed self-control strategies in the school curriculum through:

- ✚ Group and pair work activities
- ✚ Task based activities
- ✚ Project work

Q. Maintenance of facilities

(i) Emergency repairs:

EDU305_Classroom Management Mid-Term (Solved)

- ✚ Emergency repairs take place when a facility breaks down and urgent measures or steps had to be taken to remedy the situation. This normally occurs where people lack maintenance culture.
- ✚ It is expensive because the extent of damage may demand total replacement or high cost of repair.

(ii) Predictive maintenance:

- ✚ Here computer software is used to predict equipment failure
- ✚ This is based on age, user demand and performance measures

Q. Visual display

- ✚ Maps
- ✚ Flow charts
- ✚ Pictures
- ✚ Collages

Q. Effective management

Teacher who manages effectively create and maintain conditions in which students can learn efficiently.

Such teachers:

- ✚ Set a positive classroom climate.
- ✚ Organize classroom area.
- ✚ Establish group norms.
- ✚ Layout routines and procedures.
- ✚ Monitor learning.
- ✚ Maintain good student behavior.
- ✚ Evaluate classroom management and student achievement.

Q. Possible noisy surrounding

- ✚ Traffic noise
- ✚ Noise from adjoining classes
- ✚ Noise from the play ground
- ✚ Music room
- ✚ Staff talking to each other in hallways

Q. Smoothness

Smoothness is shown by the teacher continuing with his/her lesson without digression.

Examples:

- ✚ Do not get distracted by an unplanned event
- ✚ Do not interrupt students from working

EDU305_Classroom Management Mid-Term (Solved)

- ✚ Do not leave a learning activity mid-stream
- ✚ Time yourself well
- ✚ Do not show confusion
- ✚ Stay with the logical organization of the lesson

Q. Build self-esteem

Self-esteem means that we appreciate ourselves and our inherent worth. More specifically, it means we have a positive attitude, we evaluate ourselves highly, we are convinced of our own abilities and we see ourselves as competent and powerful in control of our own lives and able to do what we want.

Teacher's role in building self-esteem:

- ✚ It is highly important for teachers to build the self-esteem of students. They must avoid sarcasm or actions that belittle students in front of classmates.
- ✚ Such students at times display the tendency to cause classroom management issues.

Actions:

- ✚ Display positive behaviour
- ✚ Do not demean students
- ✚ Help students work on their weak areas
- ✚ Help introvert students to come out of their shells and safe zones
- ✚ Display empathy and pro-social behaviour

Q. Authoritarianism

There is a difference between authoritative teacher and an authoritarian teacher.

Authoritative teacher still maintains discipline but in a friendly manner unlike an **authoritarian teacher**, who establishes things in classroom through a dictatorial approach.

Authoritarianism sets and enforces rules in a dictatorial way, using obtrusive discipline as necessary. He sets the limits in classroom through commands. It is the coercive use of power by the teacher.

Authoritarian teacher seeks to control student behaviour by:

- ✚ Issuing commands
- ✚ Giving orders
- ✚ Directives supplemented by careful monitoring

Q. Adler's theory The model

This model was articulated by Rudolf Dreikurs in 1968.

This model is based on Alfred Adler's idea that students' misbehavior is based on their unmet needs.

EDU305_Classroom Management Mid-Term (Solved)

All students desire and need social recognition.

When these desires are not met, students exhibit a hierarchy of behaviors based on 'mistaken goal'.

When a student's need for recognition is unmet, that student will first display attention-seeking behaviors.

If those behaviors do not result in the desired recognition, the student will attempt to engage teachers in power struggles, followed by extracting revenge and then a display of inadequacy.

Q. Social emotional learning deals with the domain of affective education refers to

- + Social networking
- + Communal feelings
- + Sharing and caring connections students have in schools

Q. Series of activities

A series of activities which provides a variety of:

- + Content
- + Materials
- + Behavior

Q. Summative/FORMATIVE EVALUATION

Classroom management evaluation should be formative in a way that it provides continuous feedback as a way to improve learning.

Classroom management evaluation should also be summative, i.e. an end of term assessment to check the effectiveness of classroom management strategies.

Q. Rules can be different for

- + Classroom
- + Laboratories
- + Playgrounds
- + Walkways
- + Auditorium
- + Art room
- + Computer room

Q. Cookbook management

This is an eclectic approach that may consist of applying a prescription of 'do's and don'ts', without any obviously consistent rationale. It may consist of adaptation of a number of most effective approaches which suit the situation or group of individuals.

Q. Key elements of classroom management

EDU305_Classroom Management Mid-Term (Solved)

1. **School wide discipline through curriculum:** classroom discipline is not possible without school wide discipline, so it is very important to make classroom management a part of curriculum.
2. **Classroom discipline:** Both the teacher and students must know how to behave in classroom environment. Schools discipline is such element which the teachers must teach the students at the very start of their schooling. It is only possible through curriculum and school wide discipline.
3. **Classroom based rules:** Classroom discipline is made through classroom rules. There are certain rules for both students and the teachers to follow in classroom. We have to have some boundaries and we need to respect the rules in order to learn in the classroom.
4. **Identification of needs of students:** It is very important for the teacher to identify the needs of the students. Management issues in classroom arise because sometimes teacher do not know the student needs. Teacher must know students interests and their individual needs. It is very important for the teacher to have age appropriate and need based rules in classroom so that students can follow them easily.
5. **Involvement of major stakeholders:** All stakeholders who are involved in the education of a student must be made aware of the phenomenon of classroom management. The major stakeholders are students themselves, teacher, parents, school administration, principals, coordinators, classroom community.

Q. Important dimensions that a teacher should consider

There are four important dimensions for teaching that a teacher must consider:

1. Content knowledge
2. Pedagogical knowledge
3. Classroom management
4. Social emotional management

Q. Meaningful task

Students need to see a relationship between what is introduced to them in the classroom setting and their real life situations in order to view the activities as meaningful and interesting.

Q. Stakeholders are obligated to

All stakeholders are obligated to:

- ✚ Abide by rules and regulations
- ✚ Maintain discipline
- ✚ Build rapport
- ✚ Identify problems and solutions

Q. Intimidation

It is another approach of overt management approaches. It is a popular approach to maintain classroom discipline. Intimidation is an approach used by teachers to control student behaviour.

EDU305_Classroom Management Mid-Term (Solved)

This is an overt approach in which the teacher uses power to regulate student behaviour. Most of the practices under intimidation are negative.

Q. Types of management approaches

- ✚ Overt Management Approaches Overt Management approaches are those approaches in which teachers use as an explicit effort to manage classroom based behavioural and management issues.
- ✚ Covert Management Approaches: Covert Management Approaches are those approaches which have an implied existence. They are not explicitly stated by teachers but are expected behaviors advocated through a school wide adherence to core values and norms.

Q. Why is professional development necessary for today's teachers?

To refresh pedagogical techniques, improve student learning, keep up with educational trends, and become critical self-evaluators.

Q. What are some effective teaching strategies for the modern classroom?

Use lesson levels slightly above student achievement, break instructions into steps, build associations, and provide adequate processing time.

Q. How can communication skills support effective classroom management?

Good verbal and non-verbal communication creates a non-threatening environment that enhances student readiness and reduces behavioral issues.

Q. How do constructive feedback and reflection improve teaching effectiveness?

Specific, timely feedback informs students of their progress. Reflection helps teachers adapt and improve teaching practices.

Q. What is the importance of teacher proficiency in various teaching tasks?

Proficiency in content, pedagogy, management, and socio-emotional knowledge ensures better lesson delivery and classroom control.

Q. Why should a teacher reflect on a lesson plan before classroom implementation?

To anticipate and manage potential issues, especially useful for new teachers.

Q. What are some ways to provide constructive feedback as a teacher?

Use verbal praise, written notes, stars, and regular formative assessments to guide student improvement.

Q. What are the key elements of classroom management?

Rules, procedures, time management, behavioral monitoring, and clear communication.

Q. What are the three main classroom management approaches?

EDU305_Classroom Management Mid-Term (Solved)

Assertive discipline, logical consequences, and teacher effectiveness training.

Q. How can a teacher effectively manage a crowded classroom?

By using preventive strategies like clear rules, task structure, and active monitoring.

Q. What are strategies to handle student behavior problems in class?

Break tasks into rules, reinforce and uniformly apply rules, issue behavioral contracts.

Q. How can you manage movement of students across the classroom?

Set clear procedures for when and why movement is allowed, especially in labs or group work.

Q. What is “With-it-ness” and how does it help in classroom management?

Being aware of all activities in the classroom and responding promptly to issues prevents disruptions.

Q. How do you apply the overlapping strategy in the classroom?

Handle more than one issue at a time, such as continuing instruction while addressing misbehavior.

Q. What are the dimensions of classroom management?

Time on task, task complexity, and presentation variety to sustain student interest and avoid boredom.

Q. What are some effective classroom rules, and why are they important?

Rules created with students promote ownership; they must be reinforced and applied equally.

Q. What is the role of bulletin boards and classroom visuals in management?

They help organize and present key concepts visually, keeping students engaged and informed.

How should a teacher position themselves in the classroom for better control?

Use proximity to monitor behavior and instruction simultaneously.

Q. What are five key points for effective classroom management?

- (1) Clear rules,
- (2) consistent routines,
- (3) monitoring,
- (4) feedback, and
- (5) engagement strategies.

Q. How can a teacher use "cookbook management" effectively?

By following structured routines, rules, and procedures in a step-by-step manner.

Q. What is hidden curriculum and how does it influence students?

EDU305_Classroom Management Mid-Term (Solved)

Unwritten social and behavioral lessons taught indirectly through classroom norms.

Q. What is the link between hidden curriculum and classroom culture?

It shapes student attitudes and behavior beyond academic content.

Q. How can teachers use behavioral modification strategies in class?

Use reinforcement, contracts, and observation to shape behavior gradually.

Q. What is negative reinforcement and how can it affect student learning?

It removes an unpleasant stimulus to strengthen desired behavior, e.g., stop nagging when homework is done.

Q. How do you use negative reinforcement to change student behavior?

By removing undesired conditions once the student exhibits the expected behavior.

Q. How can a teacher control aggressive behavior in students?

Through consistent consequences, emotional support, and parent involvement.

Q. How do you encourage self-regulation in students?

Using behavior charts, self-evaluation, and regular feedback.

Q. What strategies help build students' self-esteem?

Constructive feedback, achievable tasks, and recognition of progress.

Q. How can a teacher monitor student learning effectively?

Use questioning, proximity, observation, and feedback.

Q. How do you determine the needs of students in your class?

By understanding their background, interests, and current academic levels.

Q. What types of noise or distractions can affect learning?

Unnecessary talk, frequent transitions, or inconsistent procedures.

Q. How do you regulate your own behavior as a teacher?

Through self-reflection, critical evaluation, and emotional control.

Q. What kind of behavior should both teachers and students exhibit in class?

Respect, cooperation, responsibility, and attentiveness.

Q. What is social-emotional learning and why should it be taught in class?

It develops empathy, cooperation, and self-awareness, essential for long-term success.

EDU305_Classroom Management
Mid-Term (Solved)

Q. How can teachers encourage positive student-teacher relationships?

By giving feedback, listening actively, and creating a supportive environment.

Q. How can a teacher promote effective group interaction among students?

Use cooperative learning and structured peer activities.

Q. What role do parents play in developing a child's behavior?

They reinforce school expectations and collaborate with teachers via behavior charts and workshops.

Q. What are three important factors for maintaining classroom discipline?

Clear rules, consistent consequences, and parental involvement.

Q. How can students take ownership of class rules?

By co-creating rules and understanding the consequences of breaking them.

Q. What is the role of physical space in classroom management?

Arrangement impacts attention, movement, and engagement.

Q. What must be considered when designing classroom dimensions?

Space for movement, group work, and age-appropriate layout.

Q. How does classroom layout affect learning and behavior?

Well-structured layout reduces distractions and supports focus.

Q. What are three effective seating plans you would prefer as a teacher?

Rows for tests, clusters for group work, and U-shape for discussions.

Q. How would you arrange seating for different activities? Give examples.

Clusters for projects, circles for discussions, rows for assessments.

Q. What are examples of seating arrangements that promote engagement?

Flexible seating that allows collaboration, visibility, and movement.

Q. How do you estimate the appropriate length of time for tasks?

Consider age, task complexity, and curriculum goals.

Q. What is task variety and how does it impact student engagement?

It prevents boredom and maintains interest by varying activity types.

Q. What procedures should be followed for laboratory and project work?

**EDU305_Classroom Management
Mid-Term (Solved)**

Include safety, material handling, behavior expectations, and cleanup.

Q. What are ways to keep students engaged during class activities?

Use relevant, achievable, and well-structured tasks with variety.

Q. What is summative assessment and how is it applied in the classroom?

It evaluates learning at the end of a unit or term; used for grading and curriculum decisions.
