# VU Quiz Collection

**Generated by Firewall Bypass VU Extension**

## Quiz 1 - CS401

**Question:**

A parallel port has _____ views.

**Options:**

A. 1

**B. 2**

C. 8

D. 4

Copied: 1/2/2026, 7:58:05 PM

---

## Quiz 2 - CS401

**Question:**

PCB stands for _____.

**Options:**

A. Process Caching Block

B. Program Control Block

C. Programmable Counter Block

**D. Process Control Block**

Copied: 1/2/2026, 7:58:40 PM

---

## Quiz 3 - MTH601

**Question:**

By Simplex method, to maximize ‘Z = 2x +9y’of an LP problem, if ‘z=0’ for the initial iteration then for its next improved solution, which of the following would be the next entering variable?

**Options:**

A. x>0

**B. y>0**

C. y<0

D. x<0

Copied: 1/2/2026, 7:59:26 PM

---

## Quiz 4 - MTH601

**Question:**

When we have "e"e \geq type constraints, then we convert it to equality cons variable(s) and solve it by _____ method.

**Options:**

A. slack, Big M

B. artificial, Two phase

C. artificial, Big M

**D. artificial and slack, Big M or Two phase**

Copied: 1/2/2026, 8:00:00 PM

---

## Quiz 5 - MTH601

**Question:**

If an artificial variable is not included while converting a constraint of type:'>=' into equation, then we will have -------- solution.

**Options:**

A. feasible

B. degenerate

**C. infeasible**

D. non-degenerate

Copied: 1/2/2026, 8:00:29 PM

## Quiz 6 - MTH601

**Question:**

By which of the following method, any complex linear programming problem can be handled?

**Options:**

A. Dual method

**B. Simplex method**

C. Degenerate method

D. Graphical method

Copied: 1/2/2026, 8:00:47 PM

---

## Quiz 7 - MTH601

**Question:**

While solving a Linear programming problem, we find ----------number of basic feasible solution.

**Options:**

A. only finite

B. even

C. infinite

D. odd

Copied: 1/2/2026, 8:01:02 PM

---

## Quiz 8 - MTH601

**Question:**

When using Big M method, the objective function should not contain _____ variable(s).

**Options:**

**A. artificial**

B. x1x1x_1

C. artificial and slack

D. slack

Copied: 1/2/2026, 8:21:20 PM

---

## Quiz 9 - MTH601

**Question:**

In a feasible region, if the end points of the line segment are basic solutions, then all the points between these two will ----------.

**Options:**

A. also be the basic

B. be optimal

**C. be non basic**

D. be infeasible

Copied: 1/2/2026, 8:21:50 PM

---

## Quiz 10 - MTH601

**Question:**

In two phase method if the minimum value of objective function in the first phase is zero, then the solution of original problem _____.

**Options:**

**A. exists**

B. does not exists

C. is uncertain

D. non of these

Copied: 1/2/2026, 8:22:08 PM
