Quiz 1 - CS603 (Q1/10)

Question:

In programming, the _____ is a way to decouple software modules.

Options:

A. DIP

B. LSP

C. OCP

D. ISP

Copied: 5/18/2026, 11:24:19 AM

Quiz 2 - CS603 (Q2/10)

Question:

In programming, the _____ states that no client should be forced to depend on methods it does not use.

Options:

A. OCP

B. DIP

C. ISP

D. LSP

Copied: 5/18/2026, 11:24:32 AM

Quiz 3 - CS603 (Q3/10)

Question:

Which among the following best describe the inheritance?

Options:

A. Using the data and functions into derived segment

B. Copying the code already written

C. Using already defined functions in programming language

D. Using the code already written once

Copied: 5/18/2026, 11:24:43 AM

Quiz 4 - CS603 (Q4/10)

Question:

Strategy Pattern is a _____

Options:

A. Class Pattern

B. Structural Pattern

C. Creational Pattern

D. Behavioral Pattern

Copied: 5/18/2026, 11:24:55 AM

Quiz 5 - CS603 (Q5/10)

Question:

Design Patterns have ____ essential elements.

Options:

A. 2

B. 4

C. 1

D. 3

Copied: 5/18/2026, 11:25:07 AM

Quiz 6 - CS603 (Q6/10)

Question:

How many basic types of inheritance are provided as OOP feature?

Options:

A. 6

B. 3

C. 2

D. 4

Copied: 5/18/2026, 11:25:17 AM

Quiz 7 - CS603 (Q7/10)

Question:

```
//Here, we have an interface “sampleInterface” with only one method.
interface sampleInterface {
    double sampleMethod(double arg);
}
//The implementation of the method is provided in the classA

class classA _________ sampleInterface
{
        @Override
         double sampleMethod(double arg); {
         return arg * (10);
         }
}
```

Fill in the blank by choosing an appropriate keyword from the given options.

Options:

A. ref

B. implements

C. extends

D. inherits

Copied: 5/18/2026, 11:25:27 AM

Quiz 8 - CS603 (Q8/10)

Question:

Which design pattern will be appropriate for the application where the sorting algorithm (Bubble sort, QuickSort, MergeSort, etc.) can be decided at runtime?

Options:

A. Strategy Pattern

B. Singleton Pattern

C. Facade Pattern

D. Factory Pattern

Copied: 5/18/2026, 11:25:39 AM

Quiz 9 - CS603 (Q9/10)

Question:

If base class contains 2 nested classes, will it be possible to implement single level inheritance?

Options:

A. No, it will use more than 2 classes which is wrong

B. No, never

C. Yes, always

D. Yes, only if derived class also have nested classes

Copied: 5/18/2026, 11:25:50 AM

Quiz 10 - CS603 (Q10/10)

Question:

Which among the following best defines single level inheritance?

Options:

A. A class inheriting a derived class

B. A class inheriting a nested class

C. A class which gets inherited by 2 classes

D. A class inheriting a base class
