D. Continuous operation

Q.2 How does market segmentation help marketers?

A. In standardizing global campaigns
B. In minimizing innovation
C. In reducing employee turnover
D. In customizing offerings for different groups

Q.3 Which type of pricing is often used by tech companies launching innovative products?

A. Cost-based pricing
B. Price skimming
C. Bundle pricing
D. Penetration pricing

Q.4 How do digital twins help in production?

A. Manage customer service
B. Reduce labor costs only
C. Simulate and improve real-world processes
D. Replace manual work

Q.5 Why is "People" important in the 7Ps of marketing?

A. It ensures automation
B. It refers to product designers
C. It includes factory workers
D. It impacts service quality

Q.6 How does price skimming work?

A. Prices are never changed
B. High price is set first, then gradually lowered
C. Prices increase over time
D. Low prices are set initially

Q.7 What is the role of feedback in the production process?

A. Increase output
B. Improve efficiency and quality
C. Replace machines
D. Ensure more labor

Q.8 The marketing strategy that addresses societal issues along with profit is called:

A. Societal marketing
B. Ethical marketing
C. Environmental marketing
D. Public relations

Q.9 What is a key difference between the selling concept and the marketing concept?

A. Selling concept focuses on production efficiency
B. Marketing concept reduces costs
C. Marketing concept focuses on customer satisfaction
D. Selling concept is customer-driven

Q.10 What is resource planning focused on?

A. Aligning capacity with demand
