ZOO502 - Animal Physiology and Behavior (Quiz#2)

Question # 6 of 10 (Start time: 02:29:47 PM, 02 July 2025)

Villi are about _____ long.

Select the correct option

○	3 mm
○	10 mm
○	5 mm
◉	1 mm

ZOO502 - Animal Physiology and Behavior (Quiz#2)

Question # 1 of 10 (Start time: 02:28:36 PM, 02 July 2025)

Initial stages of protein digestion are carried out at ----------.

Select the correct option

○	Esophagus
◉	Stomach
○	Intestine
○	Crop

ZOO502 - Animal Physiology and Behavior (Quiz#2)

Question # 7 of 10 (Start time: 02:30:05 PM, 02 July 2025)

_____ have Digastric Stomach.

Select the correct option

○	Deer, camel
○	Llama
◉	All of the above
○	Giraffe, sheep, cattle

ZOO502 - Animal Physiology and Behavior (Quiz#2)

Question # 8 of 10 (Start time: 02:30:19 PM, 02 July 2025)

_____is the major storage organ of foregut.

Select the correct option

○	Pharynx
◉	Stomach
○	Lungs
○	Forehead

ZOO502 - Animal Physiology and Behavior (Quiz#2)

Question # 9 of 10 (Start time: 02:30:30 PM, 02 July 2025)

Mechanism of ciliary motility is used by ----------.

Select the correct option

○	None
○	Arthropodes
◉	Cephalo-chordates
○	Chordates

ZOO502 - Animal Physiology and Behavior (Quiz#2)

Question # 4 of 10 (Start time: 02:29:18 PM, 02 July 2025)

_____is a sac-like expanded section in esophagus of some animals.

Select the correct option

◉	Crop
○	Colon
○	Cloaca
○	Appendix

ZOO502 - Animal Physiology and Behavior (Quiz#2)

Question # 10 of 10 (Start time: 02:30:44 PM, 02 July 2025)

Carnivorous and omnivorous vertebrates have _____.

Select the correct option

○	Monogastric, Digastric stomach
○	Four chambered stomach
○	Digastric Stomachs
◉	Monogastric Stomach

ZOO502 - Animal Physiology and Behavior (Quiz#2)

Question # 2 of 10 (Start time: 02:28:52 PM, 02 July 2025)

Total area for absorption in small intestine of human is _____square meter.

Select the correct option

◉	200-300
○	1000-3000
○	50-80
○	600-800

ZOO502 - Animal Physiology and Behavior (Quiz#2)

Question # 5 of 10 (Start time: 02:29:31 PM, 02 July 2025)

Brunner's glands are present in the first part of _____between pyloric sphincter and pancreatic duct.

Select the correct option

○	Esophagus
○	Stomach
○	Colon
●	Duodenum

ZOO502 - Animal Physiology and Behavior (Quiz#2) Quiz Sta

Question # 3 of 10 (Start time: 02:29:05 PM, 02 July 2025)

_____ is a process by which digested nutrients, present in the lumen of alimentary canal, are absorbed in blood to reach body tissues.

Select the correct option

- (●) Absorption
- ( ) Evaporation
- ( ) Respiration
- ( ) Transportation
