ZOO505 - Cell and Molecular Biology (Quiz No. 3)

Question # 10 of 10 (Start time: 08:14:01 PM, 23 June 2025)

During elongation of RNA, the length of transcription bubble is _____.

Select the correct option

◉	constant
○	increasing
○	changing
○	decreasing

ZOO505 - Cell and Molecular Biology (Quiz No. 3)

Question # 3 of 10 (Start time: 08:12:24 PM, 23 June 2025)

In bacteria, transcription is initiated at _____ point on circular DNA.

Select the correct option

○	any
○	antibiotic resistance gene
○	origin of replication
◉	specific

ZOO505 - Cell and Molecular Biology (Quiz No. 3)

Question # 5 of 10 (Start time: 08:12:49 PM, 23 June 2025)

Second generation DNA contains, ... original DNA.

Select the correct option

○	100%
○	25%
○	75%
◉	50%

ZOO505 - Cell and Molecular Biology (Quiz No. 3)

Question # 2 of 10 (Start time: 08:12:06 PM, 23 June 2025)

In DNA structure, 1 Carbon is attached to

Select the correct option

○	none of these
◉	nitrogenous bases
○	phosphate
○	OH

ZOO505 - Cell and Molecular Biology (Quiz No. 3)

Question # 4 of 10 (Start time: 08:12:37 PM, 23 June 2025)

Supercoils in DNA are removed by the action of

Select the correct option

○	All of these
○	Helicases
●	Topoisomerases
○	Polymerases

ZOO505 - Cell and Molecular Biology (Quiz No. 3)

Question # 7 of 10 (Start time: 08:13:21 PM, 23 June 2025)

In G and C ribonucleotides, _ _ _ _ hydrogen bonds are present.

Select the correct option

◉	3
○	0
○	2
○	1

ZOO505 - Cell and Molecular Biology (Quiz No. 3)

Question # 9 of 10 (Start time: 08:13:48 PM, 23 June 2025)

Matthew Meselson and Franklin Stahl experiment dealt with

Select the correct option

◉	15N and 14N
○	11N and 09N
○	None of these
○	11N and 10N

ZOO505 - Cell and Molecular Biology (Quiz No. 3)

Question # 8 of 10 (Start time: 08:13:36 PM, 23 June 2025)

Telomerase specifically elongates the _____ of telomeric ssDNA sequences using its own RNA as a template.

Select the correct option

○	None of these
○	5'-OH
●	3'-OH
○	6'-OH

ZOO505 - Cell and Molecular Biology (Quiz No. 3)

Question # 1 of 10 (Start time: 08:11:52 PM, 23 June 2025)

Enzymes that catalyze the separation of the two strands of duplex DNA at the replication fork are called

Select the correct option

○	RNA polymerases
○	None of these
●	DNA Helicases
○	DNA polymerases

ZOO505 - Cell and Molecular Biology (Quiz No. 3)

Question # 6 of 10 (Start time: 08:13:02 PM, 23 June 2025)

In case of telomerase, one strand of DNA is continuously replicated and the other strand is replicated by _____.

Select the correct option

○	DNase
◉	lagging strand replicating machinery
○	Peptides
○	leading strand replicating machinery
