Lesson 19

VOCABULARY OF MIDDLE ENGLISH AND MOVING TOWARDS

Topic 091: Middle English Syntax

What resulted in the leveling of inflections in Middle English?

Leveling of inflections resulted in syntactic and semantic relationships that had been signaled by the endings on words.

How did Old English and Middle English differ in expressing grammatical functions of consecutive nouns?

In Old English, grammatical functions were clear from the endings, while in Middle English, their functions might become uncertain.

What was the most direct way to avoid ambiguity in Middle English syntax?

The most direct way was through limiting the possible patterns of word order.

Describe the shift observed in Middle English syntax.

There was a shift from a highly synthetic stage in Old English to the highly analytic stages of Late Middle English and Modern English.

What period does the Peterborough Chronicle span, and what changes can be traced in its text?

The Peterborough Chronicle spans from 1070 to 1154, and it shows a significant loss of inflections followed by a corresponding rigidity of word order.

Topic 092: Middle English Vocabulary

What influenced the loss of inflections and simplification of grammar in Middle English vocabulary?

The loss of inflections and simplification of grammar was influenced directly by the use of French.

What aspects are significant in understanding the nature of the interchange of words between French and English?

Mutual & frequent, no sudden change, varying tempo, and a slow beginning.

Give examples of French words influencing fashion and social life in Middle English.

Examples include fashion, dress, apparel, gown, robe, garment, and others.

Which areas of life in Middle English were influenced by French words related to government and administration?

Words such as government, crown, state, empire, parliament, and titles of offices like chancellor and treasurer.

What were some Middle English words borrowed from French related to law and the military?

Legal terms: felony, trespass, assault; Military terms: army, navy, battle, captain, lieutenant.

Topic 093: Borrowings in Middle English

How did literature contribute to the entrance of French words into Middle English?

Literature was a channel for the entrance of French words, and Middle English literature was based directly on French originals.

How did Latin borrowings differ from French borrowings in Middle English?

Latin borrowings were less popular and generally entered through the written language, often through literature.

Topic 094: The Rise of Standard English

Which dialect contributed the most to the formation of standard written English?

The East Midland dialect contributed the most.

What were some characteristics of the East Midland dialect that made it a basis for standardization?

It represented a compromise in sounds and inflections, and it was less conservative than the Southern dialect and less radical than the Northern.

What role did the universities, Oxford and Cambridge, play in the rise of Standard English?

The presence of universities in the East Midland region, particularly Oxford and Cambridge, contributed to its intellectual development.

Topic 095: Importance of London Standard

Why was London significant in the rise of Standard English?

London was the political capital, commercial center, seat of judicial tribunals, and a focus of social and intellectual activities in England.

How did London's economy contribute to the spread of Standard English?

London's economy served as an "engine of communication and exchange," facilitating the distribution of ideas and information.

What factors made London English influential, and what was the influence reciprocal?

London's status as a political and economic hub made its English influential, and the influence was reciprocal as people took back forms and usages from the city.

What significant event in 1476 contributed to the spread of London English?

The introduction of printing in 1476 played a crucial role in the dissemination of London English, with Caxton using the current speech of London.

By when had the London standard been accepted in most parts of the country, and what was a key reason for this acceptance?

In the latter part of the fifteenth century, the London standard had been accepted, at least in writing, with the introduction of printing being a key reason.

Lesson 20

DISCUSSION ON SAMPLES OF MIDDLE ENGLISH

Topic 096: Middle English Sample and its Features

What is the prevailing dialect in Chaucer's Middle English text?

East Midland with some Southern and Kentish features.

What are the developments noted in East Midland, such as the change from OE 'ā' to 'ō'?

Example: 'goon' for 'go'.

According to the lecture, what does Chaucer's language represent accurately?

The dialect of London at the end of the fourteenth century.

Topic 097: Middle English Sample Discussion

Which text from Geoffrey Chaucer's Canterbury Tales is discussed in this topic?

The text from 1387.

What is a characteristic feature of East Midland mentioned in the discussion?

Loss of the prefix 'y-' and retention of the final '-n'.

Topic 098: Activity Based on Sample

What is the source of the text used in this session for the East Midland sample?

Baugh and Cable's 'A History of the English Language' Routledge.

Translate the Middle English passage mentioning 'cethegrande' into modern English.

The cetegrande (whale) is a fish, the greatest in water. If you saw it floating, it would look like an island on the sea-sand.

Topic 099: Phonological and Morphological Features: Middle English

What is a characteristic feature of early Middle English orthography mentioned in the text?

Influence of the Old English scribal tradition.

Give an example of the influence of South in Middle English.

Loss of -n in words like 'unknown' and 'write'.

Topic 100: Middle English: Semantics and Syntax

According to the semantic discussion, what did the castles do when they were made?

They were filled with devils and evil men.

What is a syntactic feature mentioned in the discussion of the Middle English passage?

Examples of V-S-O order, such as 'then seized they the people'.

How does the syntax of Middle English differ from Old English?

Resemblances include V–S–O order, but differences include reduced inflections, especially in adjectives.

Lesson 21

HISTORY OF ENGLISH FROM 1500 TO 1650- PART I

Topic 101: Middle to Modern English 1500-1650

Why did the shift from Middle English to Modern English occur?

Answer: The shift was influenced by changes in long vowel pronunciation, with notable alterations in short vowels like 'a' and 'u'.

What change did the short vowel 'a' undergo during this period?

Answer: The pronunciation of 'a' shifted, resembling the Old English form represented by 'æ', particularly in words like 'at' and 'back'.

Explain the change in pronunciation of the short vowel 'u' during this period.

Answer: The short vowel 'u' underwent unrounding, transforming from a sound like 'full' in Chaucer's time to a sound similar to 'but' in the sixteenth century.

Topic 102: The Great Vowel Shift

What does the term "Great Vowel Shift" refer to?

Answer: It denotes a significant change in the pronunciation of long vowels, elevating the tongue and altering the mouth closure during the 15th and 16th centuries.

How did the long vowels in Chaucer's time differ from their later pronunciation?

In Chaucer's time, long vowels had a 'continental' value, but during the Great Vowel Shift, they gradually acquired a higher tongue elevation and mouth closure.

When did the Great Vowel Shift generally become established?

The shift began in the seventeenth century, becoming widespread by the middle of the eighteenth century.

Topic 103: The Weakening of Unaccented Vowels

What tendency did vowels in unstressed syllables exhibit throughout the history of English?

Answer: Unstressed syllables tended to weaken and often lose vowels in all periods of the language.

What is notable about the weakening of vowels in French words in English?

Answer: In words borrowed from French, accented vowels weakened in English. Although the quality was partially restored in standard speech, the weakened form persisted in informal speech and dialects.

Topic 104: Changing Socio-historical Context (1500-1650)

What new conditions influenced English development during the Modern English period (1500-1650)?

Answer: Factors such as the printing press, popular education, increased communication, and the growth of specialized knowledge played a role in shaping English during this period.

Who introduced the printing press to England, and when?

Answer: William Caxton introduced the printing press to England around 1476, marking a significant change in the production of books.

Topic 105: Language Change: Renaissance

What self-consciousness about language emerged during the Renaissance?

Answer: The Renaissance saw a growing self-consciousness about language, leading to debates on orthography, vocabulary enrichment, and discussions on language policy.

How did the growth of specialized knowledge impact the English language?

Answer: The increase in specialized knowledge necessitated the development of new vocabulary, as Latin became less common for learned discourse, influencing the shape of the English language.

Lesson 22

HISTORY OF ENGLISH FROM 1500 TO 1650- PART II

Topic 106: Changing Vocabulary (1500-1650)

What were the factors discussed in relation to the changing vocabulary from 1500 to 1650?

Answer: The Norman Conquest, The Black Death, Printing press, Rapid spread of education, Increased communication, Effect on Vocabulary (Radical and Conservative)

Topic 107: Changing Grammar (1500-1650)

How did the treatment of grammar differ from the changes in vocabulary during 1500-1650?

Answer: Grammar changes were conservative, preserving the existing status, influenced by factors like the printing press, reading habits, advances in learning, science, and increased communication.

Topic 108: Problem of Orthography (1500-1650)

Why was orthography important for English in the 16th century?

Answer: Orthography, or 'right writing,' was crucial to address spelling challenges, variability, and instability. Mulcaster contributed to moderation, emphasizing custom or usage.

Who is generally associated with the fixation of English spelling in the 17th century?

Answer: Dr. Johnson.

Topic 109: Issues and Struggles for Recognition

What challenges did English face despite its position as the language of popular literature in the 16th century?

Answer: English faced competition from Latin and Greek, being considered vulgar, immature, and unpolished, limiting its ability to express abstract ideas.

Topic 110: The Problem of Enrichment

In 1531, what work emphasized the need for language enrichment, particularly for those involved in court activities?

Answer: "The Governour" by Sir Thomas Elyot.

Lesson 23

HISTORY OF ENGLISH FROM 1500 TO 1650- PART III

Topic 111: Defence of Borrowing Compromise

According to Dryden, what was his approach to language enrichment?

Answer: Dryden traded with both the living and the dead to enrich the native tongue, emphasizing the necessity of borrowing for magnificence and splendor.

What was the opposition's main concern during the borrowing of words in the 16th century?

Answer: The opposition criticized the abuse of borrowing, particularly the use of unfamiliar words, cautioning against overdoing it.

Topic 112: Permanent Additions & Adaptations

What were some examples of permanent additions to the English language during the 16th century?

Answer: Examples include allurements, atmosphere, agile, conspicuous, adapt, alienate, benefit, consolidate, among others.

Topic 113: Giving New Meanings

How did the meaning of words like "fastidious" evolve over time in the 16th century?

Answer: Words like "fastidious" underwent changes in meaning, reflecting shifts in usage and perception.

Topic 114: Reinforcement Through French

Why is it sometimes challenging to determine whether a word came directly from Latin or through French?

Answer: Enrichment was happening simultaneously in French, and often, the same words were introduced in both languages, making it challenging to trace their origin.

Topic 115: Permanent Additions and Adaptations

What were the three classes of strange words objected to by purists in the 16th century?

Answer: Inkhorn terms, Oversea language, Chaucerisms.

Name some major languages from which English borrowed words during the 16th century.

Answer: Latin, Greek, French, Italian, Spanish.

What were some words borrowed from Italian that faced objections in Elizabethan literature?

Answer: Words like algebra, balcony, design, granite, piazza, portico, stanza, and volcano.

What were some reasons for the adoption of words from Spanish and Portuguese in English?

Answer: Cosmopolitan tendency, spirit of exploration and adventure, interest in the New World.

Lesson 24

HISTORY OF ENGLISH FROM 1500 TO 1650- PART IV

Topic 116: Shakespearean Pronunciation

How did Shakespeare pronounce [e] for [i] in some words?

Answer: Like Pope, he could say "tay" for Tea.

What was happening to the sounds er, ir, ur (e.g., herd, birth, hurt) in Shakespearean pronunciation?

Answer: They were falling together but not yet completed.

In Shakespeare's time, what was the difference between the sounds [e:] and [i:] in words like sea and see?

Answer: Sea [se:] did not normally rhyme with see [si:].

What attempt was made in the 15th century to distinguish between the sounds [e:] and [i:]?

Answer: The closer sound was often spelled with ee or ie (deep, field), and the more open sound was spelled with ea (sea, clean).

How did the pronunciation of the Middle English vowel 'a' change during the Renaissance period?

Answer: It regularly developed into [u:] in words like room, food, roof, and root.

Topic 117: Grammatical Features in Renaissance Period

What marked English grammar in the sixteenth and early seventeenth century?

Answer: The survival of certain forms and usages, rather than fundamental developments.

Was there stability in grammar and syntax during the Renaissance period?

Answer: Yes, it was a period of stability, with standardization already in place.

Contrast grammar and syntax with vocabulary during the Renaissance.

Answer: Grammar and syntax showed stability, while vocabulary was heavily enriched.

Topic 118: Renaissance Noun, Adjectives & Pronoun

Which inflections were retained in Renaissance nouns?

Answer: Plural and possessive singular inflections were retained.

What shift took place in the formation of comparative and superlative degrees for adjectives in Shakespearean English?

Answer: Shift from older forms like *honester* to analytical forms like *more honest*.

What changes occurred in the personal pronoun during the Renaissance?

Answer: Disuse of *thou*, substitution of *you* for *ye*, and introduction of *its* as possessive of *it*.

How did the neuter pronoun 'it' evolve during the Renaissance?

Answer: The neuter pronoun 'it' evolved from the Middle English 'hit' and 'his' to its modern form.

Topic 119: Verb in Renaissance English Period

Give an example of a difference in verb usage in Renaissance English.

Answer: Shakespeare often used "is" instead of "has been" and employed an impersonal use of the verb.

What changes occurred in the inflection of verbs during Shakespeare's time?

Answer: By the end of the sixteenth century, -s became the usual ending for the verb in spoken language.

Which Old English strong verbs underwent changes in the Renaissance period?

Answer: Verbs like *bide*, *crow*, *flay*, *dread*, and *wade* underwent changes in the past tense and past participle.

Topic 120: Renaissance: Usage and Idiom

Give an example of idiom differences between Renaissance English and modern English.

Answer: Shakespeare said "at the length" instead of "at length," and "at the last" instead of "at last."

How did prepositions show changes in common idioms since 1600 in Renaissance English?

Answer: Prepositions like "of" underwent changes, for example, "I brought up of (from) a puppy."

Was there a common usage of negative placement in Renaissance English?

Yes, negative placement before the verb was common, as seen in expressions like "I not doubt."

Lesson 25

OVERVIEW OF THE DEVELOPMENT OF RENAISSANCE ENGLISH

Topic 121: Renaissance: General Characteristics

What reflects the larger spirit of the Renaissance age in linguistic matters?

The conscious interest in the English language.

What attempts were made in the fifteenth century to improve the language?

Individual writers used 'aureate terms' to embellish their style.

In the 16th century, what publications supported linguistic change in English?

Books, pamphlets, prefaces, and incidental observations.

How did English defend itself in the 16th century against unfavorable comparisons?

By recognizing its position as the national speech and advocating its fitness for learned and literary use.

Name three goals during this time for the English language.

To fix, stabilize, modernize, and standardize the language.

Topic 122: Conscious Efforts for Development

What change occurred in the attitude towards English during this period?

It became an object of conscious and fruitful consideration.

According to Elyot, how should noblemen's sons be brought up concerning the English language?

They should be brought up by those who speak English cleanly, politely, perfectly, and articulately.

What desires were there to improve the English language during this period?

To enlarge its vocabulary and regulate its spelling.

Topic 123: Standard Literary Language

What effect did the 'Great Vowel Shift' have on English pronunciation?

It brought the pronunciation within measurable distance of that which prevails today.

According to Puttenham, what ruled the written language in the latter part of the sixteenth century?

English Dictionaries and other books written by learned men.

When can the written language in the latter part of the sixteenth century be called Standard English?

It is fully entitled to be called Standard English.

Topic 124: Vigor and Willingness to Venture

How would you describe the plasticity of English during the Renaissance?

It was much more plastic, with words used interchangeably in various grammatical categories.

In what way did Shakespeare use language according to the text?

He fitted the language to his thought rather than forcing his thought into the mold of grammar.

What characteristics defined the English language during the Renaissance?

Vigor, willingness to venture, and a disposition to attempt the untried.

Topic 125: What is Left Unsettled?

What variety of use still existed despite progress in the language?

Alternative forms in grammar, experiments with new words, variations in pronunciation and spelling.

Give examples of unsettled language matters mentioned in the text.

Certain—sartin, concern—consarn, divert—divart, clerk—clark, smert—smart, etc.

What was one of the chief concerns of the next age regarding language matters?

The settlement of unresolved language features.

Lesson 26

HISTORY OF ENGLISH FROM 1650 TO 1800- PART I

Topic 126: Impact of 17th Century

What were the profound effects of the Renaissance on the English language?

The social, commercial, technological, and intellectual forces released during the Renaissance had profound effects on the English language.

How did the crises in the 17th century relate to the Renaissance forces?

Both crises and responses were provoked by transmutations of forces that had energized the Renaissance.

What were the intellectual challenges during the English Civil War and the Restoration of Charles II?

New scientists, philosophers, religious zeal, occult science, astrology, alchemy, and witchcraft created intellectual turbulence.

Who were labeled as 'Enthusiasts,' and what was the reaction towards them?

Radical Non-conformists and perceived fanatics were labeled 'Enthusiasts,' and they faced opposition from supporters of rational science.

What solution was proposed by Thomas Hobbes in 1660?

Thomas Hobbes proposed that all power must reside in a single political authority.

What was the proposed role of the Royal Society in 1660?

The Royal Society was proposed to work as a coordinator and clearing house for English scientific endeavors.

What was the argument regarding English prose put forth by the Royal Society?

The argument was that English prose of scientists should be plain, precise, and clear, leading to efforts to design universal languages.

Topic 127: The Temper of 18th Century

How is the first half of the 18th century commonly designated in literary histories?

The first half of the 18th century is commonly designated as the Augustan Age in England.

What characterized the Augustan Age in terms of order and stability?

There was a strong sense of order, and adventurous individualism gave way to a desire for system and regularity.

What was considered an ideal in the 18th century, and what attempts were made to achieve it?

Correctness was considered an ideal, and attempts were made to formulate rules to define and achieve correctness.

Topic 128: Attitude Towards English (1650 to 1800)

What efforts were made in the early 18th century to refine the English language?

Efforts were made to standardize, refine, and fix the English language.

What shift occurred in discussions about language in the early 18th century?

Attention to grammar was introduced, revealing that grammar was largely uncodified and un-systematized.

What was the goal of the 18th century regarding the English language?

The goal was to give the language a polished, rational, and permanent form.

Topic 129: The Problem of Refining English Language

What were the faults identified in the English language during the early 18th century?

Uncertainty and the lack of a standard were identified as faults.

What were the corruptions and problems associated with the English language?

Corruptions, unchecked language, and a frequent lament that language had been steadily declining were mentioned.

Topic 130: The Desire to Fix the Language

What was one of the most ambitious hopes of the 18th century regarding language?

One of the most ambitious hopes was to stabilize the language and establish it in a permanent form.

Who else expressed concern about the fate of languages in the future, and what was the concern?

Bacon expressed concern about modern languages playing the bankrupts with books, fearing the inevitable changes.

What did poets like Waller and Swift express regarding the longevity of their works in English?

They expressed concerns about the short lifespan of their works in a constantly changing language.

What did the 18th-century writers believe could be achieved through concerted effort?

They believed that, through thought and effort, the processes of growth and decay in a living language could be suspended.

Lesson 27

HISTORY OF ENGLISH FROM 1650 TO 1800- PART II

Topic 131: In the Footsteps of Italy and France

Which famous academy in Italy was founded in 1582 with the aim of purifying the Italian language?

Accademia della Crusca.

What was the major aim of the French Academy, established in 1635?

The principal function was to give definite rules to the French language, rendering it pure, eloquent, and capable of treating the arts and sciences.

What were the three major aims of the French Academy?

1. To cleanse the language of impurities.
2. To establish a certain usage of words.
3. To compile a dictionary, a grammar, a rhetoric, and a treatise on the art of poetry.

What notable Italian academy published a controversial dictionary in 1612?

Accademia della Crusca.

Topic 132: An English Academy

What volume, published in 1660, suggested the establishment of an English Academy as a feature of an ideal commonwealth?

"New Atlantis...Continued by R. H. Esquire."

Who supported the idea of an English Academy in the dedication of "Rival Ladies" in 1664?

John Dryden.

In what year was the Royal Society founded, and what resolution did it adopt in 1664 regarding the English language?

Founded in 1662; it adopted a resolution to form a committee for improving the English language.

What did John Evelyn propose for the improvement of the English language in the committee formed by the Royal Society?

He proposed the compilation of a grammar, reform of spelling, and the creation of a lexicon, among other things.

Topic 133: Swift's Proposal

In what year did Jonathan Swift address a letter proposing the correction and improvement of the English tongue?

1712.

What did Swift suggest should be the main focus of the group assembled to improve the English language?

The group should fix rules, similar to the French Academy, and correct improprieties and words that deserve removal or correction.

What political objections were raised against Swift's proposal, and by whom?

John Oldmixon opposed Swift's proposal on political grounds, stating it was impossible to fix the language.

Topic 134: Objection to Academy

What skepticism arose in the 18th century regarding the establishment of an academy for the English language?

Growing skepticism replaced early enthusiasm, and objections based on personal liberty in language use emerged.

According to Dr. Johnson in 1755, what consequence did some expect from his dictionary project?

The expectation was that it should fix the language and stop alterations, but Johnson expressed doubt about this.

Topic 135: Johnson's Dictionary- A Milestone

In what year was Samuel Johnson's "A Dictionary of the English Language" published?

A: 1755.

What were the positive aspects of Johnson's dictionary?

It exhibited the English vocabulary more fully, offered a fixed spelling, and supplied numerous quotations illustrating word usage.

According to Johnson, what was the chief intent of his dictionary?

To preserve the purity and ascertain the meaning of the English idiom.

What did Sheridan say about Johnson's impact on the English language in 1756?

Sheridan wrote, 'if our language should ever be fixed, he must be considered by all posterity as the founder, and his dictionary as the cornerstone.'

Lesson 28

HISTORY OF ENGLISH FROM 1650 TO 1800- PART III

Topic 136: The 18th Century Grammarians

Who attempted to do for syntax what Dr. Johnson had done for vocabulary in the 18th century?

Answer: Grammarians of the 18th century.

When did English grammar start being viewed as a subject deserving of study in itself?

Answer: Only in the 18th century.

Who wrote "Practical Grammar of The English Tongue" in 1734?

Answer: William Loughton, Schoolmaster at Kensington.

What did William Loughton oppose in grammar?

Answer: Attempts to force English language to the method and rules of Latin grammar.

What was a novelty claimed by grammarians in the 18th century regarding freedom from Latin notions?

Answer: Freedom from Latin notions was claimed as a novelty.

Topic 137: Confusion and Issues Related to Division in Stages

What were the aims of 18th-century grammarians?

Answer:

Codify principles of the language.

Settle disputed points and decide cases of divided usage.

Point out common errors and improve the language.

According to Lowth, what is the principal design of a grammar?

Answer: To teach expressing oneself with propriety in the language and judge every phrase and construction.

What did grammarians become in the 18th century?

Answer: Lawgivers who pronounced judgments on language usage.

Topic 138: The Beginnings of Prescriptive Grammar

What were the coordinate aims of 18th-century grammarians?

Answer: To prescribe and to proscribe.

When was the prescriptive distinction between "lie" and "lay" first made?

Answer: In the second half of the 18th century.

Who condemned expressions like "had rather" and "had better"?

Answer: Johnson, Lowth, and Campbell.

According to Lowth, what is the rule for the proper case after "than" and "as"?

Answer: The pronoun is determined by the construction to be supplied or understood.

Topic 139: Problems of Prescriptive Grammar

What was the greatest weakness of 18th-century grammarians?

Answer: They did not recognize the importance of usage.

What did Noah Webster say about their refusal to base statements on current use?

Answer: It contributed to differences between written and spoken language.

What was the root cause of the limitations in 18th-century grammarians?

Answer: Ignorance of the processes of linguistic change.

Topic 140: Attempts to Reform Vocabulary

Who objected to expressions like "Chaulking out a way" and "Handling a subject"?

Answer: George Harris.

What did "Launcelot Temple" attack in his volume of Sketches?

Answer: Expressions like "Encroach," "Inculcate," "Purport," etc.

According to Campbell, what was the risk in refining language?

Answer: A greater risk of going too far in refining than not going far enough.

What characterized the attempts to reform vocabulary in the 18th century?

Answer: Everyone felt competent, prescribed, and proscribed, leading to misguided efforts interfering with linguistic history.

Lesson 29

HISTORY OF ENGLISH FROM 1650 TO 1800- PART IV

Topic 141: Objections to Foreign Borrowings

What concerns did people in the 18th century have about the English language?

Fears that English was being negatively influenced by foreign words, especially French.

According to Defoe, what did he observe about Englishmen's language?

Defoe observed that Englishmen frequently used borrowed phrases, and he criticized the intrusion of foreign terms.

Why did some view the influence of French on English as a grievance?

The use of foreign terms, especially French, was seen as intolerable when English had an abundance of its own words.

How strong was the influence of French on English during this period?

French had a significant influence, as it was at the height of its prestige, widely used in European courts, and known by the English upper classes.

Topic 142: Expansion of the British Empire: Impact

What laid the foundations for the wide extension of English in the world during the 18th century?

The British Empire, which grew as a result of circumstances and chance rather than a planned program.

What were the key events leading to the expansion of English through colonization?

Late entry into colonial territories, English settlements in North America, Dutch competition in trade with India, and the founding of the East India Company.

Provide examples of words borrowed into English from various regions during this period.

Words such as boulevard, canteen, barbecue, and bungalow from different regions like France, the West Indies, Brazil, South America, and India.

Topic 143: Progressive Verb Forms

What is a characteristic development in English grammar during the 18th century regarding verb forms?

The development of progressive verb forms, including the use of "to be" forms and the present participle to indicate actions in progress.

What influenced the growth of progressive forms in the English language?

The use of the participle as a noun governed by the preposition "on," leading to the development of progressive forms.

Topic 144: Progressive Passive

When did the extension of progressive forms to the passive voice occur?

The extension to the passive voice happened at the very end of the 18th century, around the late 1700s.

How did the construction "being + past participle" evolve in English?

It developed gradually, with the earliest instance noted in 1769, primarily used in the present and simple past tense.

Topic 145: Summary of Characteristics (1650-1800)

What disturbed supporters of rational science in the 17th century?

The 'ranting' language of the Enthusiasts, which led to a desire for rational, literally prosaic discourse.

What characterized the Augustan Age in the first half of the 18th century in England?

A strong sense of order, a value for regulation, and a focus on creating a polished, rational, and permanent form for the English language.

What significant language development occurred during the 18th century, according to Swift?

The publication of "A Dictionary of the English Language" in 1755 marked a period of opposition to unchecked language change and creativity.

Lesson 30

INTRODUCTION TO MODERN ENGLISH

Topic 146: Influences on English in the 19th and 20th Century

What events affected English-speaking countries in the 19th and 20th centuries?

Answer: British success in sea battles, Napoleonic Wars, Crimea War, and democratic reforms.

How did political and social changes affect language during this period?

Answer: Decreased class distance, increased opportunities, and the spread of standard speech.

Which wars and conflicts impacted English and its significance?

Answer: World wars, contests in India, and growth of larger colonies.

Topic 147: The Impact of Science

What advancements in science influenced English vocabulary in the last two centuries?

Answer: Medicine, bacteriology, biochemistry, physics, and atomic energy.

Name some medical terms that entered the language in the 19th and 20th centuries.

Answer: Anemia, appendicitis, arteriosclerosis, bronchitis, and AIDS.

What scientific terms from physics and atomic energy have become part of everyday language?

Answer: Quantum mechanics, relativity, radioactive, hydrogen bomb, and black holes.

Topic 148: The Impact of Media on Modern Language

How did radio and motion pictures influence language differently than the telephone?

Answer: Dependence on community integration.

List common vocabulary related to broadcasting.

Answer: Broadcast, aerial, antenna, loudspeaker, stand by, and solid-state.

Name some abbreviations related to media.

Answer: FM, AM, Cable TV, VCR, DVD, etc.

Topic 149: The World Wars and Their Impact on English

What new military terms entered English during World War I?

Answer: Air raid, antiaircraft gun, tank, liaison officer, and camouflage.

What expressions related to World War II became part of everyday language?

Answer: Alert, blackout, blitz, blockbuster, dive-bombing, evacuate, air-raid shelter.

Topic 150: English: A Reflection of Modern Times

What do words symbolize in a culture?

Answer: Ideas, objects, experiences, and observations.

Give examples of words reflecting technological progress in the 19th century.

Answer: Railway, locomotive, photograph, and turntable.

Name some words from the last quarter of the 19th century reflecting societal changes.

Answer: Typewriter, telephone, apartment house, motorcycle, feminist, and fundamentalist.
