

BT401: OBJECTIVES 18-08-2023(7:05 PM)

FINAL TERM- 100% GUESS PAPER 2023

GENETIC RESOURCES & CONSERVATION

BY SULMAN ALI: 0341-7547044

OBJECTIVE

- ❖ WCPA stands for _____ World Commission on Protected Areas
- ❖ Large natural areas come into _____ category VI
- ❖ Category VI is not designed to accommodate _____ Large Scale Industrial Harvest
- ❖ Largest national park of Pakistan _____ Hingol National Park.
- ❖ Bahawalpur zoo covers _____ 25 acres
- ❖ Sir Sadiq Muhammad Khan established _____ Bahawalpur Zoo
- ❖ -----will be fine for cutting tree in 1992 act _____ 5000 rupees
- ❖ Pakistan animal quarantine _____ 1979
- ❖ services generally more efficient _____ Decentralized Quarantine
- ❖ help to maintain soil structure and the availability of water throughout the soil profile
_____ Earthworms
- ❖ National park spreading in an area of ---- 100 SQ. KM. TO 500 SQ. KM.
- ❖ Cause behind extinction of steller sea cow _____
hunting
- ❖ Darwin's finches' classical example of _____ GENETIC DRIFT
- ❖ Which is a chemical substance produced by microorganisms that can kill or inhibit the growth of other microorganisms..... _____ Antibiotic
- ❖ Causes of migration in animals are _____ All of them
- ❖ Gene bank is a type of _____ Ex Situ Conservation
- ❖ Sigillaria was a tree..... _____ spore bearing
- ❖ Ramsar convention came into _____ 21
december1975
- ❖ Genetic diversity is the variation of genes and alleles
- ❖ In 19th century only.....individuals of Elephant whales were present _____ 20
- ❖ Which one of the following is culturally influenced in natural reserve _____ cave
dwelling
- ❖ In Europe one estimate put the role of value marketed _____ non wood goods from forest
at _____ 2.3 billions
- ❖ Tree population rely on 3 interplaying mechanisms to respond to environmental change
- ❖ Climate change may however cause range expansion is HERBIVORE INSECTS
- ❖ Landraces is a..... _____ local variety of
domesticated plants
- ❖ Total area under major pulse crops in pakistan is about _____ 1.5m
hectares
- ❖ Pakistan produces over 150 varieties of mango.
- ❖ Buffalo varieties in Pakistan ----- 3 or 74 or 8 do confirm
- ❖ Crustaceans migrate for _____ Breeding

- ❖ Almost 35 % of world food production comes from crops that are dependent on _____
Insect Pollination
- ❖ Rhino are hunted for..... horns
- ❖ Extinction rate of mammals..... 20%
- ❖ CBD stands for **Convention on Biological Diversity**
- ❖ GEWIS stand for..... **A genome wide interaction scan**
- ❖ ABSA is abbreviation of _____ **access and benefit sharing agreement**
- ❖ National strategy of PGRFA need to be review if ----- changes..... Country
- ❖ In Europe, one estimate put the value of “marketed non wood goods” from forests at €2.3 billion
- ❖ It is cheap method for conservation broad range of germplasm. **Seed storage**
- ❖ Ramsar convention was negotiated in 1960s by countries and NGO's.
- ❖ WCPA stand for..... **World Commission on Protected Areas**
- ❖ IABGR stands for Institute of **Agricultural Biotechnology and Genetic Resources**
- ❖ Sir Saqib Muhammad Khan Abbasi established **Bahawalpur Zoo**
- ❖ Crustaceans migrate for **breeding or mating**
- ❖ National strategy of PGRFA may help Country
- ❖ Which specie has been reintroduced in Lal Suhanra National Park? **Black buck**
- ❖ IBPGR stands for **International Board of Plant Genetic Resources**
- ❖ 5000 rupees will be fine for cutting tree in 1992 act
- ❖ In 2013, Ramsar sites has been declared in Pakistan. 19
- ❖ Using microarray analysis, detected that up to 113 genes were significantly induced by drought in two Mediterranean pine species.
- ❖ Hingol National Park declared reserved in 1988
- ❖ Bahawalpur Zoo covers 25 acrs
- ❖ Largest national park of Pakistan **Hingol National Park**
- ❖ Since the 1970 , the population of the Indus Dolphin has significantly increased here.
- ❖ The 1st report on fish sperm cryopreservation was published by **Blaxter (1953)** .
- ❖ **Hunting , habitat loss and fragmentation** have reduced the number of this species, Great Indian Bustard
- ❖ Cryopreservation is storage of materials at - low temperature
- ❖ Cryopreservation helps in the preservation of biological materials .**Sperm, gametes, embryos,**
- ❖ OHSS stand for **Ovarian hyper stimulation syndrome***
- ❖ Genetic materials that are typically cryogenically preserved include **sperm , oocytes , *embryos and somatic cells.**
- ❖ Encourage the conservation of agro biodiversity and aquatic biodiversity -----
Proted land sea scape
- ❖ Climate change may however cause range expansion is _____ **herbivore insects**
- ❖ Which one of the following is culturally influenced in natural reserve ____ **Cave Dwelling.**
- ❖ WCPA stands for _____ ? **World Commission on Protected Areas**
- ❖ Largest national park of Pakistan _____ ? **Hingul National Park.**
- ❖ OHSS stand for ----- **ovarian hyper stimulation syndrome**
- ❖ Bahawalpur zoo covers _____ ? **25 acres.**

- ❖ Pakistan animal quarantine ____? 1979
- ❖ Which species has been reintroduced in Lal suhanra national park? Black Buck
- ❖ Himalayan brown bear ____? 15-200
- ❖ Special care unit ____? EX SITU
- ❖ Report on fish sperm cryopreservation published in ____ by ____? Blaxter 1953
- ❖ Natural geological and geo morphological features ____ Waterfalls, Cliffs, Clatters, Caves).
- ❖ Vegetative propagation is ____? Tissue Culture
- ❖ In 2013, rasmer sites has been declared in Pakistan ____? 19
- ❖ In the game reserve the major focus is specifically -----? The Animals
- ❖ -----will be fine for cutting tree in 1992 act ____? 5000 rupees
- ❖ Cartagena protocols not cover products derived form ____? LMOs
- ❖ ----can be used to introduce species that left an area. Ex-Situ Conversion
- ❖ It is cheap method for conversion broad range of germ-plasma_? Seed Storage
- ❖ Which of the following category encourage biodiversity aquatic biodiversity _? category-V
- ❖ Chashma and Tuansa barrage declared wild life sanctuaries by _? Punjab Government
- ❖ -----are verities developed as since the advent of scientific agriculture in the late nineteenth century ____? Obsolete Varieties
- ❖ Number of laboratories in plant genetic resource in Pakistan ____? Six
- ❖ Tissue Culture Conservation is an alternative to _? Vegetative Propagation
- ❖ Plant seeds are stored in ____ for long term storage. _ In-Vivo Gene Bank
- ❖ has been estimated that at least ____ percent of world food production comes from crops that are dependent on insect pollination ____ 35
- ❖ is easily generated from seed ____ Acacia Nilotica
- ❖ Chashma and Tuansa barrage declared wild life sanctuaries by _ Punjab Governmen
- ❖ category VI is not designed to accommodate _ Large Scale Industrial Harvest
- ❖ Sadiq Muhammad Khan established ____ Bahawalpur Zoo
- ❖ will be fine for cutting tree in 1992 act ____ 5000 rupees
- ❖ Sea Weeds population is ____ 13000
- ❖ Bahawalpur zoo covers ____ 25 acres
- ❖ Encourage the conservation of agro biodiversity and aquatic biodiversity ----- Land Sea Scape
- ❖ Tree population rely on interplaying mechanisms to respond to environmental change ____ 3
- ❖ Which species has been reintroduced in Lal suhanra national park? _ Black Buck
- ❖ Conservation of plant genetic resource is necessary for..... Food security and Agro-biodiversity (both A&B)
- ❖ Phenylketonuria caused by..... Mutation
- ❖ Gene pool types 3
- ❖ Coral reefs are also threatened Reefs are home to ____ of marine animal..... 25%
- ❖ Cryopreservation helps in the preservation of biological materials..... Sperm, gametes, embryos
- ❖ Cryopreservation in plants can be selected for this purpose. meristem, embryo, ovules,All of these
- ❖ According to the World Database on Protected Areas (WDPA) there are over ____ protected areas around the world..... 210,000
- ❖ WCPA stands for..... world commission on protected areas
- ❖ Which species has been reintroduced in Lal suhanra national park..... Blackbuck

- ❖ National park spreading in an area of -.....100 sq. km. to 500 sq.
- ❖ Bahawalpur zoo covers.....25 acres
- ❖ How many rasmar sites has been declared in Pakistan.....19
- ❖ Chashma and Tuansa barrage declared wild life sanctuaries by...Punjab government
- ❖ Tissue culture conservation is an alternative to..... Vegetative propagation.
- ❖ ____ is the secure long-term storage of an individual's genetic material... DNA bank
- ❖ ____ is a relatively cheap method for conserving a broad range of germplasm.....
Seed storage
- ❖ Cartagena protocol was adopted on 2001
- ❖ Ramsar convention came in to force ____ 1975
- ❖ The Buler's Fruit bat is elisted as ____ Critically Endangered
- ❖ Large natural or near natural areas set aside to protect large-scale ecological processes ____
national Parks
- ❖ Chashma and Tuansa barrage declared wild life sanctuaries by ____ Punjab
Government
- ❖ Which species has been reintroduced in Lal suhanra national park? ____ Black Buck
- ❖ Himalayan brown bear _____ 15-200
- ❖ Snow leopard population in Pakistan left _____ 200
- ❖ Cryopreservation in liquid in _____ -196 Degrees
- ❖ Vegetative propagation is _____ Tissue Culture
- ❖ In 2013, rasmer sites has been declared in Pakistan _____ 19
- ❖ Tree population rely on interplaying mechanisms to respond to environmental change _____ 3
- ❖ Thermal gradient can induce _____ due to uneven expansion or contraction in the biochemical system _____ Mechanical Stress
- ❖ Black buck became virtually extinct in the cholistan desert but the species has been reintroduced to _____ Lal Suhanra.
- ❖ Pakistan animal quarantine _____ 1979
- ❖ IBPGR stand for _____ International Board Of Plant Genetic Resource
- ❖ -----will be fine for cutting tree in 1992 act _____ 5000 rupees
- ❖ Convention on biological diversity ----- 1992
- ❖ FAO stands for _____ Food Agriculture Organization
- ❖ GEWIS stands for _____ Genome Wide Interaction Scan
- ❖ Anthropogenic impact is apparent in the _____ Coastal Zone
- ❖ Mild breeding is type of _____ Inbreeding
- ❖ Some larger soil-dwelling invertebrates, such as earthworms, ants and termites, have been described as "ecosystem" _____ Engineers
- ❖ Report on fish sperm cryopreservation published in ____ by ____ Blaxter 1953
- ❖ Cartagena protocol was adopted on ____ at Cartagena-Spain _____ June 2001
- ❖ Large natural areas come into _____ category VI
- ❖ In 2013, rasmer sites has been declared in Pakistan _____ 19
- ❖ In the game reserve the major focus is specifically ----- The Animals
- ❖ Light intensity for most plants culture requires _____ 50-200 umol-S-1-m-2
- ❖ Since ---- in situ conservation has received high priority to the world _____ 1980
- ❖ Encourage the conservation of agro biodiversity and aquatic biodiversity ----- Land
Sea Scape
- ❖ Earthworms, ants and termites, have been described as ____ Ecosystem Engineers
- ❖ If hunting is prohibited a game reserve may be considered ____ Nature Reserve.
- ❖ The wild birds and animal protection act _____ 1912
- ❖ Phenyl Ketonuria caused by----- Mutation.
