Bio503

Define static friction, kinetic and rolling friction?

Factors that affect macromolecules diffusion?

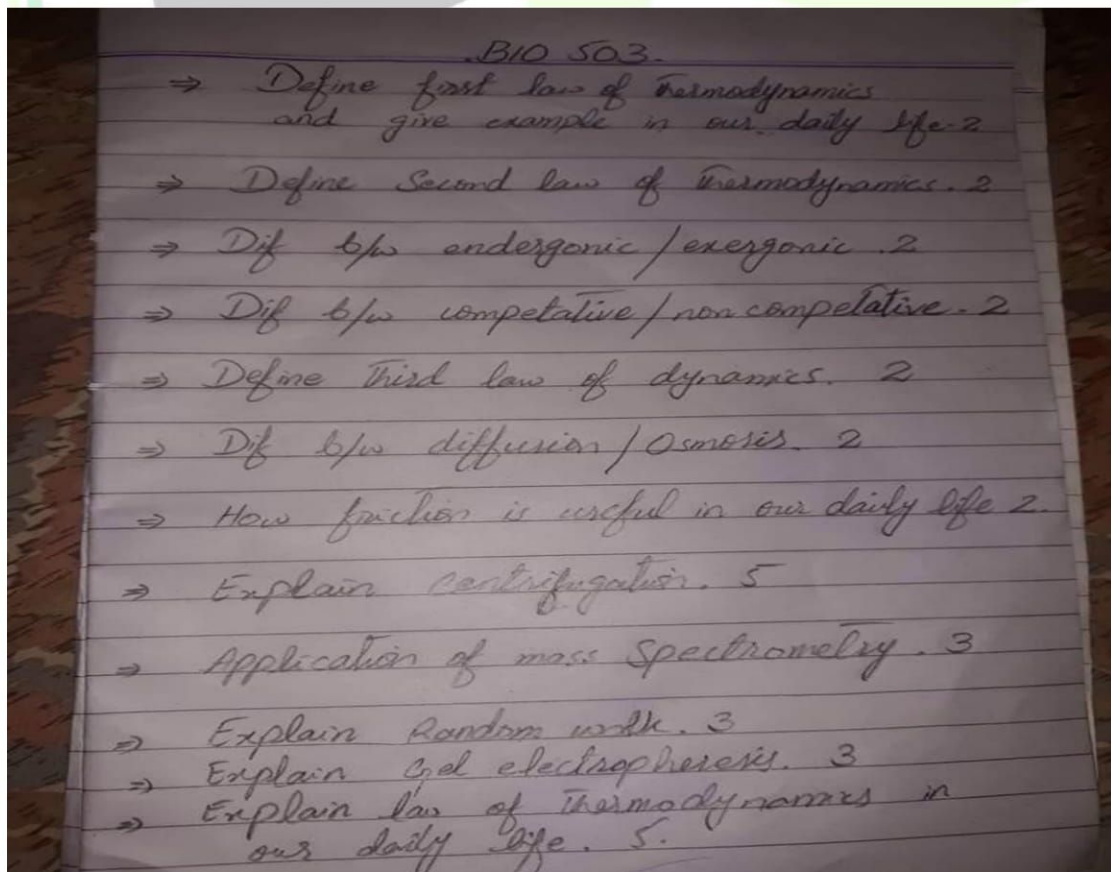

What is Brownian motion? Two reason describe 5 marks

What is active site of enzyme? How active site lower the activation energy? 5 marks

What is Reynolds number?

What is isotropic and anisotropic diffusion?

What is thermal equilibrium? Discuss zeroth law of thermodynamic?

Title

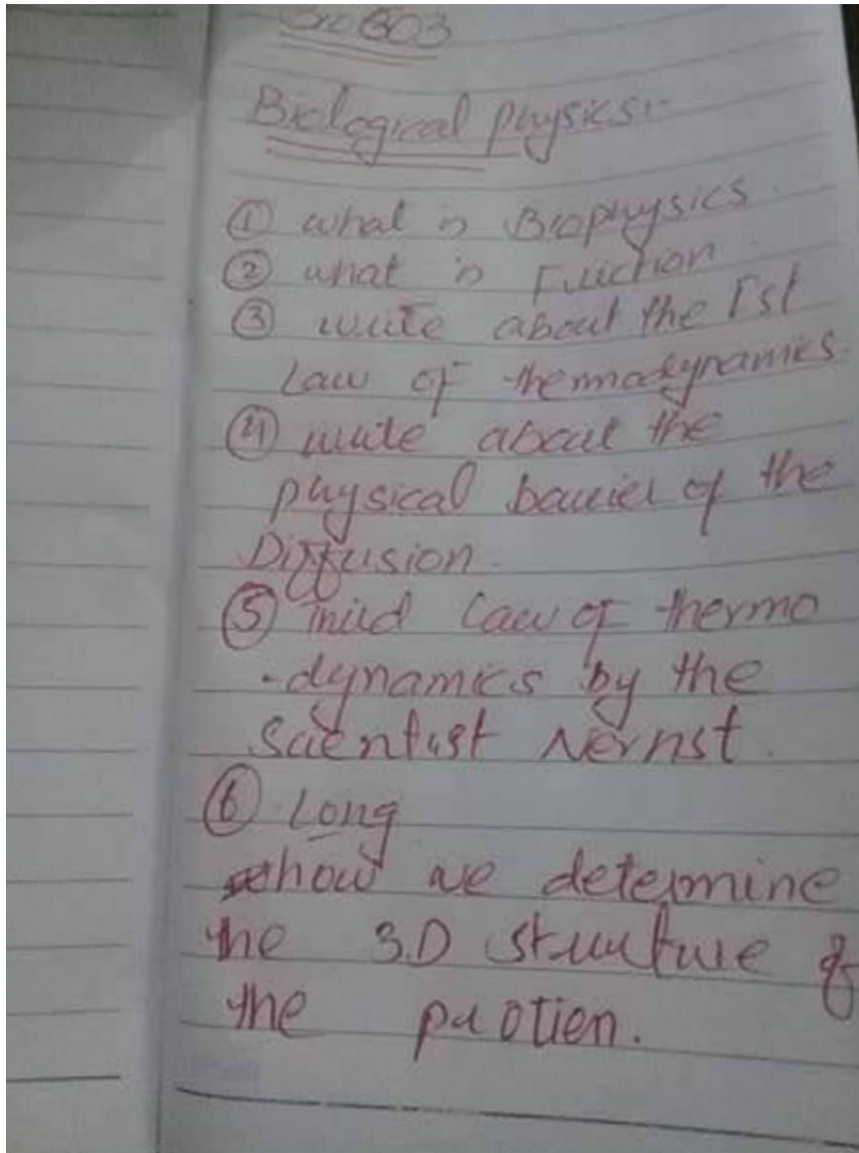

10:03 AM

Bio503 different questions (2 marks)

1. bourden tube, barometer and manometer?
2. simple and facilitated diffusion.?
3. Nernst's postulate of 3rd law.?
4. types of nmr spectra.?
5. order and disorder of biological system.?
6. how protien induce membrane curvature.?

sign of bright future

Bio503

2 marks k 7

3 marks k 5

5 marks k 3

32 mcq's thay

dfrr ques What is Vander waal forces attraction? (2)

What is method analysis the 3D structure protein? (3)
